Let me point out that it is not just quibbling to raise the issue of overly optimistic growth assumptions. Each year that we continue to rely on flawed economic assumptions we will inevitably be forced to come back here to make costly and intrusive midcourse corrections. This is a cruel form of government intrusion into citizens' lives when we continually change the rules of the game because we cannot set a coherent rational budget policy based on sound assumptions.

The second problem I have with the leadership package is the false set of savings that are claimed from defense. The President claims $6 billion of savings from the so-called "Rose Garden" defense baseline. The Rose Garden defense plan is not what Congress agreed to last year. To the best that I can figure the Rose Garden plan is where the President went into the Rose Garden, shook hands with himself and said, "We've got a deal." The CBO says that, instead of $96 billion of savings over the next 3 years, the savings amount to $46 billion. So there is $51 billion of savings that simply don't exist.

Third, the leadership package uses the deficit to provide cover for eliminating programs which the administration just opposes philosophically. But that does not make good business sense. Understandably, several programs, for example, Job Corps, Immunization, Soil Conservation, provide ripe targets for shortrun savings. But in each case the savings are only shortrun and are outweighed by the longrun cost associated with eliminating the programs. For example, the alternative to training disadvantaged youth of this country to provide them meaningful jobs, is in many cases, more expensive incarceration. Mathematics Policy Research—an objective research firm—has thoroughly analyzed the benefits and costs associated with Job Corps. The study estimates that for every $1 in costs associated with Job Corps, $1.46 is returned in benefits.

Another example of the imprudent savings associated with the leadership package is from the proposed abolition of SBA. In the leadership proposal SBA would be eliminated and the existing portfolio of loans would be sold. OMB first estimated that these loans could be sold for 19.3 cents on the dollar. That means that the sale of these loans would yield the Treasury $5 billion. But if SBA continues to administer and collect on these loans, the Treasury will receive $12 billion. So the cost of the savings is $7 billion. Philosophically, I don't see anything wrong with helping the smallest businessmen of this country who may have a great idea but who can't get long-term credit from banks. But putting that aside, it is simply not good business to give away $7 billion through poor cash management just to win a philosophical battle. And the list of these specious savings extends into soil conservation, immunization programs, and several others.

Also, the leadership proposal ignores the revenue side of the budget. Between 1981 and 1983, 65 major U.S. corporations made almost $50 billion in profits and paid no Federal income tax. Not one penny. Instead these corporations received a cumulative refund of $3.2 billion. This violates my sense of equity and I suspect the sense of fairness in a good many of my fellow Americans. Contrary to what some would have us believe, the leadership plan does not have a monopoly on fiscally responsible approaches to deficit reduction. Indeed, the major alternative offered by Senators CHILES and HOLLINGS, which I cosponsored, is much more stringent on budget deficits than the leadership plan. And as I have noted, the leadership plan suffers from flawed economic assumptions, specious savings on defense, misplaced priorities, and false budget savings, which simply do not constitute good business.

In contrast to the leadership package, the Chiles-Hollings budget plan is a broadly based program of restraint that freezes or cuts virtually every Government program.

It is not a perfect package—one that satisfies every one of my wishes. But if we wait to act on a perfect package we will be waiting for a long time. The price of further procrastination is simply intolerable and would, ultimately, be 100 times harsher than the medicine we face here today.

The Chiles-Hollings plan would cut $9 billion below baseline spending in 1986, and $82 billion over the next 5 years. After these spending cuts are in place, and only after they are in place, the Chiles-Hollings plan would ask the Finance Committee to raise modest revenues—$1 for every $2.5 in spending cuts. These revenues could be raised through the imposition of a minimum alternative tax to ensure that profitable corporations contribute their fair share of the tax burden. In addition the plan ensures that additional revenues not be collected through the imposition of higher individual tax rates.

Above all, the Chiles-Hollings plan would credibly reduce deficits under any reasonable set of economic assumptions. The Chiles-Hollings plan would balance the budget by 1990, with continually declining deficits between now and then. It is a monumental tragedy that the Senate defeated it.

Finally, Mr. President, the drastic cut in farm programs as proposed in the leadership budget, would guarantee the elimination of 25 to 50 percent of our farmers in this country within 10 years. It is cruel in the extreme.

But my overriding objection to the leadership package is that it simply never provides for a balanced budget. Never! And that is irresponsible in the extreme.

FEDERAL CHILD NUTRITION PROGRAMS

Mr. DURENBERGER. Mr. President, I join my colleagues in support of Senator HAWKINS' amendment to restore funding for our Federal Child Nutrition Programs.

Our school lunch and breakfast programs must be viewed as the vital nutrition programs they are, not as budget extras or costly handouts. The National School Lunch Program, for example, is designed to ensure that all children, of every income level, receive the proper nutrition which is so necessary to health, development, and learning.

At the heart of any discussion of cutting our Federal child nutrition programs must be a recognition of the proper nature of the programs, and the Federal role in feeding our Nation's children. The Federal Government got into the business of feeding children in school in 1946, following World War II, when, for the first time, America woke up to the fact that its children were malnourished.

Section 1 of the National School Lunch Act of 1946 reads, "It is the policy of Congress, as a measure of national security, to safeguard the health and well-being of our Nation's children and to encourage the domestic consumption of agricultural commodities and other food." Hearings held in the Senate Agriculture Committee during 1944 and 1945 provide an insight into the national security theme voiced in the National School Lunch Act. Doctors examining young draftees found that many had disabilities directly related to poor nutrition during their elementary and secondary school years.

Dr. Thomas Parran, then the surgeon general, in 1944 testimony cited a study conducted in Hagerstown, MD, which offered evidence that young

men who were rejected in the draft had histories of nutritional deficiencies. In addition, Gen. Louis B. Hershey, former chief of the Selective Service, testified in 1945 before the House of Representatives Agriculture Committee, that "probably half of the draftees rejected during World War II were due to poor nutrition."

Mr. President, I feel we have come a long way since 1946. We have realized that child nutrition programs are not just sound national security policy, but sound preventive health policy as well. Let's look at our child nutrition programs as methods of protecting the health of all our citizens. As the chairman of the Health Subcommittee of the Finance Committee, one of my major concerns is the cost of American health care. Numerous studies of health care costs indicate the substantial savings that can be found in preventives measures. We certainly know now that proper nutrition in one's youth is a vital component of lifelong health, and lower health care costs for both the individual and society. Mr. President, our current child nutrition programs offer the nutrition so important to proper development.

My commitment to preventive health care is wide-ranging and strong. This year I offered S. 505, the Maternal and Child Health Preventive Care Amendments of 1985. This bill reinforces the necessity of wellness care beginning in the prenatal stages of life. Good, sound preventive medicine, however, shouldn't simply be offered to certain age groups, but to all, and particularly our schoolage children.

Cutting child nutrition is not good preventive medicine. Deep cuts were made in 1981, and even deeper cuts are proposed in this budget compromise package. In 1981, basically the same proposal was offered: to eliminate the subsidy for all nonpoor children. However, it was not adopted, but in it's place reforms were enacted which saved approximately $5 billion from fiscal year 1982 to fiscal year 1985. The subsidies to schools and individuals were decreased and eligibility requirements were tightened. The cost of school lunches rose substantially.

The current proposal to cut the Federal subsidy for nutrition programs for children who are above 185 percent of the poverty level signals a reversal in our commitment to the nutritional well-being and health of all of our Nation's children. This means any child from a family of four with an income in excess of $20,000 would be excluded from reduced price student lunches, and subsidized commodities in day care settings. When these programs were introduced they were not designed to simply benefit our poor children, but all children who are in nutritional need.

According to the Senate Budget Committee, 65 percent of all children participating in current child nutrition programs will be cut. Mr. President, I have grave doubts that all of those children will be served as well, or at all, by other programs, or by their families. Too many young children will fall through the cracks if the program is pared down in the proposed manner.

I feel the proposed cut in child nutrition programs is an unjustified response to the necessity of cutting our Federal budget deficit. This proposal will adversely affect our children, our schools, and family day care homes. The vastly reduced participation which would result from over half of the children being removed from the program would severely impair schools and day care homes in serving the children remaining on the program.

Certainly, Mr. President, the values of the child nutrition programs before us today are many. I believe they are a vital part of our national commitment to preventive health care, quality education, and equality in nutrition between the poor and nonpoor. Despite these obvious strong points, I do not believe these programs are without flaws. In the future we will have to face the reforms necessary to keep the costs of these programs down while continuing the services. These changes may involve the private sector, and the concept of competition as I have applied it to health care delivery.

In closing, I would like to assert that although these reforms are not appropriate at this time, I hope that they may become part of our yearly funding debate on child nutrition. As the costs to the Federal Government continue to rise, we will have to abandon our tendency to simply cut the programs or fund them, and find an innovative way to finance child nutrition.

For all of these reasons, Mr. President, I urge adoption of Senator HAWKINS' amendment to restore funding for the child nutrition programs.

IMPACT AID AMENDMENT

Mr. MOYNIHAN. Mr. President, I am pleased to join my colleague from South Dakota [Mr. ABDNOR] in offering an amendment to restore funding for Impact Aid "B" payments.

The Republican budget plan, approved by the Senate last week by a one vote margin, incorporates the Reagan administration's proposal to eliminate Impact Aid "B" payments to school districts serving children whose parents either live or work on nontaxable Federal property. The decision to terminate this section of the Impact Aid Program should now be reversed. Impact Aid compensates school districts for lost tax revenues and helps them provide quality education to children living in federally affected areas. Eliminating category "B" payments would be both improper and inequitable.

At Fort Drum, NY, the U.S. Army is establishing a new 10th Mountain Division. When the expansion at Fort Drum is complete, the school districts surrounding the base will be asked to absorb 10,000 new students. Almost all of these students will fall within the "B" category of Impact Aid. If the administration's current proposal is accepted, none of the school districts accommodating this influx of students will receive any Federal assistance.

Our amendment ensures that all school districts affected by Federal activities continue to receive fair compensation. It does so by restoring $152 million for Impact Aid "B" payments in fiscal year 1986, maintaining the same level of funding from the previous year. I urge my colleagues to give this amendment their most serious consideration, and urge its adoption.

SENATE CONCURRENT RESOLUTION 32, AS MODIFIED, AGREED TO

The PRESIDING OFFICER. Without objection, Senate Concurrent Resolution 32, as modified, is agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. DOMENICI. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. DOLE. Does this mean we have passed Senate Concurrent Resolution 32?

The PRESIDING OFFICER. The measure has been passed and the motion to reconsider has been laid on the table.

The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I ask unanimous consent the that staff be authorized to make technical and conforming corrections.

The PRESIDING OFFICER. Without objection. It is so ordered.

Mr. DOMENICI. Mr. President, I have previous to the passage of the resolution made a few comments about Senators who participated.

I wish to add just a few words, and it will not take me long.

I thank the distinguished Senator from Florida, the ranking minority member of the Budget Committee. He has been at this for months, and I appreciate his help and his efforts and all the others on the committee who worked so hard.

I reserve most of my thanks tonight for the distinguished majority leader. Frankly, when we started this about 3 months ago the distinguished majority leader knew what our goals were, but this very technical and complicated process was rather new to him, and I can say with all honesty he has been magnificent. His judgment has never

been exercised without consultation. Sometimes he changed his mind; sometimes we conferred and he would not. And he has been right whether it was his judgment or that we all shared with him.

I think this is a great victory for fiscal responsibility. I am sure that it is that. It will send a very good signal out there to the country, but I want to say it also is a great victory for his leadership here in the Senate. I never thought we were testing his leadership at any time during the year. But for those who printed it and said it, if they were worried about it, we saw living proof that it is alive, it is active, and it is going to serve the U.S. Senate and the country well. I thank him for all he did to help me as I struggled through this. It has been a privilege to work with him.

Mr. President, I wish to thank the staff of the Senate Budget Committee for its outstanding work for the past several months on the budget resolution that the Senate has been debating for the past 2 weeks. The staff for the majority has worked day and night on this product, often under the most difficult and chaotic circumstances.

I also thank the staff of the majority leader for their help, for they too have put in many hours in this cooperative venture especially Rod DeArment, Sheila Burke, George Pieler, Dale Tate, and John Gordley.

I ask unanimous consent that a list of the majority staff of the Senate Budget Committee be inserted in the RECORD at this time and that my thanks and gratitude to them be known to all for an extraordinary job under extraordinary pressure.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

Stephen E. Bell, Staff Director; William Hoagland, Deputy Staff Director; Susan Yurko, Special Assistant to the Staff Director; Carla Garcia, Secretary to the Staff Director; Judee Klepec, Secretary to the Deputy Staff Director; Suzanne Watson, Correspondence; Carole McGuire, Director of Appropriations Activities; Patricia Niffinegger, Secretary and Analyst for Appropriations Activities.

Nell Payne, Counsel; Chuck Konigsberg, Staff Attorney; Gabriella Carducci, Legislative Coordinator; Mariclair Burke, Secretary for Legal Group.

Sidney Brown, Chief of Budget Review; Marcy Edwards, Senior Analyst for Budget Review; Anne Miller, Analyst for Budget Review.

Tom Foxwell, Director of Publications; Roy Smith, Assistant to Director of Publications; Buck White, Assistant to Director of Publications.

Gail Fosler, Chief Economist; Cheri Janas Reidy, Economist; John Rand, Economic Analyst; David Nummy, Senior Analyst for Tax Policy; David Malpass, International Economist; Susie Fish, Secretary for Economics.

Jan Lilja, Senior Analyst for Human Resources Group; Michael Carozza, Analyst for Income Security; Anthony McCann, Analyst for Health Programs; Margo Miller, Analyst for General Purpose Fiscal Assistance, Community and Regional Development and Employment and Training; Michelle Mrdeza, Analyst for Veterans Programs; Virginia Pounds, Legislative Tracker and Research Assistant; Martha McBroome, Research Associate; Carolyn Willis, Secretary for Human Resources.

Deborah Swartz Lipman, Senior Analyst for Natural Resources Group; Austin Smythe, Analyst for Energy & Natural Resources and Environment; Linda Crowl, Analyst for Justice and General Government; Sonja Taylor, Legislative Tracker; Tom Dodds, PMI; Karen Bunch, Analyst for Agriculture; Laura White, Secretary for Natural Resources Group.

Charles Flickner, Senior Analyst for International Security and Credits; Paul Heilig, Analyst for National Defense; Carol Hartwell, Analyst for Commerce and Housing Credit; Cary Robnett, PMI; Brenda Gompers, Secretary and Legislative Tracker for International Security and Credit.

Debbi Paul, Chief Clerk; Kathryn Hamilton Cummings, Assistant Chief Clerk; Beth Clark Strader, Staff Assistant; Lynne Hausheer, Staff Assistant; Tyrone Cole, Staff Assistant.

Mr. THURMOND. I want to take this opportunity, Mr. President, to extend congratulations to the majority leader for the outstanding leadership he has exhibited on this matter. This has been one of the most intricate matters that I have seen come before this Senate in the 31 years I have been here. Senator DOLE has shown much wisdom, he has shown much effectiveness in what he has done, and he deserves I think the thanks of the entire Senate.

I also would like to thank the able Senator from New Mexico [Mr. DOMENICI]. I have never seen a man work harder on any piece of legislation, show more patience, show more skill and knowledge than he has shown on this particular budget bill. I think he is due a vote of thanks from the entire Senate.

I would like to also praise the distinguished majority whip, Senator AL SIMPSON, who worked so diligently and effectively alongside the majority leader and the chairman at the Budget Committee to assist in bringing to fruition the adoption of this major deficit reduction package.

Finally, Mr. President, the distinguished Democratic leader, Senator BYRD and the distinguished ranking minority member of the Senate Budget Committee, Senator CHILES are to be commended for their leadership on the Democratic side of the aisle in bringing forth measure they thought appropriate to reduce the deficit. However, I believe the measure finally passed will be better for the Nation and hope the House will act favorably on it.

Mr. GORTON. Will the chairman of the committee yield?

Mr. DOMENICI. I am pleased to yield to my friend.

Mr. GORTON. Mr. President, the majority leader and the chairman of the Senate Budget Committee have already stated more eloquently than I can the importance of this success for the country as a whole. It is of course at that success that economic progress—in all of our deliberations on both sides of the aisle—is aimed. But we are of course individuals, and we develop personal relationships which are of great importance to us in this process. I just wanted to add my comments on the wit, the dedication, the patience, the wisdom, and the optimism when many of us did not think optimism was warranted shown by the majority leader.

So what we have in triumph for the country, of course, and that is the most important. It is a triumph, in my view, for the Senate, which is a vitally important institution. But my special thanks and warmth go to him as a personal triumph which it represents for the majority leader, and the first vital important test which he has had to face here. The chairman of the committee knows of my friendship and my immense respect for him. It has been an honor for me to serve with him on this committee. But at this point, it has been a particular honor to get to know the majority leader even better and to see how effective his leadership has been in leading us through very, very difficult times to something which will benefit all of us as Members, and the country as a whole.

Mr. SIMPSON addressed the Chair.

The PRESIDING OFFICER. The assistant majority leader.

Mr. SIMPSON. Mr. President, I will be very brief. It has been a distinct pleasure for me to work with this majority leader, and with Members on both sides of the aisle. I have had visited upon me the task of assistant majority leader, and there have been several times in the past few months that I thought it was about the most grisly task ever visited upon me.

Through the patience of ROBERT DOLE, the extraordinary skill of PETE DOMENICI, and the extreme patience of Senator ROBERT BYRD as I went through my chicken dance with him about 10 weeks ago, and made my sincere regret and apology to him on that, I learned to watch his skill, and dovetail in with our majority leader, the awesome figure in this body, assisting us on several occasions—and I deeply appreciate that. And working with ALAN CRANSTON on that side of the aisle, my counterpart, with LAWTON CHILES, and to watch these two who have great regard and affection for each other, Senator DOMENICI and Senator CHILES—it is very real. They get in and do their scrapping, and they come out with a great regard for each other.

So it has been my personal privilege to watch all of that, to see the melding, the generation of the powers and egos. Boy, I tell you, I have seen all of that. I have legislated for 20 years but I must have always been over in the kiddy league box because there are really some heavy hitters in here when they get into the tradeoffs. I thought the leader handled them beautifully. There is one word to characterize him in his completeness. It is patience, patience, patience. He has that. He involves the rest of us in it just like you do when you are running a platoon or a company. You have to let the troops know what is up.

Part of the delay tonight was to let the troops know what was up. I obviously was fruitful. We have lots remaining to do. The Democrats are going to help us do it. We have authorization. We have appropriations, and we are going to require mutual respect, bipartisanship, and patience, patience, patience as we go about actually practicing these things that we put forward on this resolution. It has been my great privilege to be part of it.

Mr. President, let me also add my thanks to David Stockman, the most unique and capable man I have known in my 20 years of legislating. He has never been caught short in all the time I have seen him in action. A most extraordinary individual in every way. He is very dogged and very persistent—and absolutely unflappable, even when they are "raining" it on him. He always has his facts and figures ready at his fingertips. And amid all of this, he has welcomed the arrival of his new baby daughter, Rachel.

I thank the Chair.

Mr. CHAFEE addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. CHAFEE. Mr. President, this, I think, has been a very fine evening, and indeed a very fine past 2 months for the Senate. I think the proposals that have come before this body have been good ones. I think that the senior Senator from Florida has been very responsible in the measures that he has presented here. They have given us a different approach from that which the majority side chose to follow. But it seems to me that nonetheless they are extremely responsible, and the minority leader himself has said that their accent was on trying to arrive at the objective that we are all seeking, which is to reduce these deficits.

In the final analysis, we chose the approach that was sponsored by the majority side. I agreed with that. I think it is the best. But that is no way to denigrate the proposals that were presented by Senator BYRD and by Senator CHILES.

I do hope that these proposals will survive because it seems to me that the essential objective is to reduce these deficits so that the Nation can move forward. When we are all through with this, it seems to me that the great heroes of the effort, as we see it anyway, are Senator DOLE and Senator DOMENICI. They have exhibited, as the whip said, extraordinary patience. They have consulted everyone. Everybody certainly on our side has had their chance to express their views. I personally would like to express my respect, gratitude, and indeed affection for what both of those gentlemen have done. I think they have provided us with tremendous leadership, and I just hope that this package will survive through the House, because I think it is good for our Nation.

Mr. ARMSTRONG addressed the Chair.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. ARMSTRONG. I want to join in the general congratulations to our leaders. Every bill that goes through here is a landmark piece of legislation to somebody or other. But I cannot recall a time when we have ever acted on a budget resolution when I thought it held so much lasting significance. I do not have the faintest idea what is going to happen when this gets to the House, although I hope they will pass it. But I believe that we have set the stage tonight over the last several weeks for a real important departure in American public policy. And I do congratulate not only the leader and the chairman, but in fact every Senator who has spoken in the last few minutes.

I especially want to echo, Mr. President, what the Senator from Rhode Island has said about the contribution made by the minority. I have said in some other forums—and I want to conclude my comments tonight by pointing out that the minority did not run away from the problem, as they might well have done. I especially congratulate the Senator from Florida because it would have been very easy for him and for others on his side of the aisle to just take a negative position and be against whatever came out of the Republican caucus.

Indeed, for the most part, the Democrats were against Republican proposals, but they went beyond that to offer some solid and thoughtful approaches, which, although not adopted, in fact greatly influenced the final outcome.

I believe that is a hopeful sign for actually writing the implementing legislation which I expect to flow out of this.

I also want to say, Mr. President, that everything which has already been said about the majority leader and the Budget chairman I echo, endorse, and double, and redouble with spades their patience, their courtesy, their good humor, their consummate legislative skill, intellectual horsepower and integrity which they have brought to this. It has been marvelous. I compliment them and congratulate the Senate.

Mr. BOSCHWITZ addressed the Chair.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. BOSCHWITZ. Mr. President, I want to join particularly in the remarks that my friend from Colorado has just made. As much as lauding the distinguished chairman and the majority leader, I want to laud the minority for their efforts. Really, in the past month, we have made a vital and important turn in the direction that our Government is taking. I think this evening will be one of lasting significance in the next years of our national existence.

I also want to join those who lauded the distinguished Senator from Florida. He wanted the same goals that we did. He saw a different path, as did other Members of the minority. I agree with the Senator from Colorado that important and constructive alternatives were indeed offered.

There is one other person who played a key role, Mr. President—David Stockman. He is very often not lauded, but his skills are great. While I often find myself disagreeing with him, nevertheless the skills that he brings to the budget process are virtually unmatched. I think he, too, deserves much of the credit. He represents the administration with great skill.

I laud both the leader on our side and the leader on the minority side. Both wanted the same goals. A great goal has been achieved, a historic goal, in my judgment. I think that the country will be better for it.

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The Democratic leader.

Mr. BYRD. Mr. President, I am now in my 27th year in the Senate. I do not think I have witnessed a more interesting drama in this body than the debate and vote on this resolution.

I again congratulate the distinguished majority leader in winning a well-deserved victory. He has at all times displayed equanimity and good humor during this long debate. I believe that the friendship that exists between the two of us has been strenthened by the events of these recent days.

I like BOB DOLE. I have said to a lot of people that he would do well as majority leader.

I shall go home this morning feeling that both sides in this fight have acquitted themselves in an admirable way.

I wish also to express my congratulations to the distinguished chairman of the committee [Mr. DOMENICI], who at all times displayed a congeniality and

amiability for which he is to be admired and commended.

I thank Mr. CRANSTON, the minority whip. His outstanding talent as a vote counter, and his hard work were important to our party effort. Moreover, he displayed great skill and dedication as he worked on this side of the aisle to promote what we on this side perceived as being in the people's best interests.

I thank Mr. INOUYE, our distinguished Secretary of the Democratic Conference, who, in his quiet, able way, was able to contribute very considerably to the strategy and policy that guided our party during the debate.

Then, too, I thank JOHN MELCHER who, although he lost his father, today, stayed in the Senate to see the battle through, to participate, to stand by his post of duty and quietly contribute in a great way to further and protect the interests of the people of his State and country.

Earlier I had spoken about JOHN STENNIS, who is a great Senator. I have often said he looks like a Senator, talks like a Senator, acts like a Senator, and is a Senator's Senator. His unfailing sense of duty was shown here tonight.

Then there are the members of the staff. I thank the members of the Democratic Policy staff working under the supervision of Susan Manes, who have helped us all in these recent days.

I thank my own executive director, Barbara Videnieks, whose ability and unflagging dedication were a pillar of strength to me and my staff.

I thank the staff of the Budget Committee also. They worked with my staff and were most helpful to us. Mr. CHILES and all of us can be very proud of the skillful, courteous members of his staff.

Now let me close by commending the distinguished ranking manager on this side of the aisle, LAWTON CHILES.

LAWTON has demonstrated time and time again his ability. He does his homework. He is a seasoned, veteran legislator. He has that uncommon common sense that is so often missing. LAWTON has extremely good political sense, and he is an excellent floor manager.

He has a thorough knowledge of the budget itself, and I do not think anyone else on this side of the aisle, other than perhaps these Senators who are on the Budget Committee, could equal his knowledge of the budget and its complexity.

I am proud to be able to follow LAWTON CHILES as he leads us again and again in these tough budget battles.

I shall try to remember a bit of verse that I would like to recall for LAWTON inasmuch as I believe it would be appropriate at this moment when we look back upon his work over the past recent days of floor work.

Then when a man does a deed that you really admire,
Don't leave a kind word unsaid
For fear to do so might make him vain,
And cause him to lose his head.
But reach out your hand
And tell him, "Well done!"
And see how his gratitude swells.
It isn't the flowers that we strew on the grave;
It's the word to the living that tells.

We are not supposed to speak to other Senators in the second person during floor debate, but I think we can be excused for doing so at 3:30 in the morning on this Friday: LAWTON, you did a great job. Just as I said about our colleagues a little earlier, particularly with reference to JOHN STENNIS: You fought a good fight, you finished the course, and you kept the faith.

Mr. President, I hope all Senators will forgive me and indulge me another 30 seconds. If I were to go down the list of all who are entitled to praise on this side, I would have to call the names of 46 Senators, not counting myself, but I must not overlook the excellent work done by our distinguished chief deputy whip, SPARKY MATSUNAGA. I guess I can be forgiven for almost overlooking him, because he nearly scared me out of my wits a little earlier tonight. I was afraid he was not going to make it here. But he arrived and cast his vote, which was the tying vote.

SPARKY, you and all the other whips, did great work, and I just cannot say enough to adequately thank you.

Mr. President, I also praise the majority whip, ALAN SIMPSON. He is a hard worker, because he likes his work. He is an effective and able Senator, and he is entitled to our respect and our thanks.

The PRESIDING OFFICER. The Senator from Florida.

Mr. CHILES. Mr. President, but for the fact of losing, this has been a very, very pleasant time for me in these last few minutes. The majority has been most kind in their remarks, and they are certainly appreciated. I accept those not only for myself but also for all of the Members on this side and our staff who, I think, worked so long and so hard.

I do not want to delay this, but my good friend, PETE DOMENICI, I have the greatest respect and admiration for. I sort of bask in his triumph tonight because I think it is so well-earned. I know how hard he has been working on this to try to put this package together. I think it is a very, very major package.

I think that it also sets the momentum that there is going to be something come out of this Congress. I think the House will respond to this package and I think that, as a result of it, it will bode for the country as we get to the product, both of us together.

I certainly congratulate the majority leader for a most well-earned and tremendous victory that I think he has tonight, and to the whole majority side. They certainly were most cohesive. I have seen a lot of these fights and we always seem to lose by one vote. That sort of tells you that when you all go after something, you pay just enough to get it. You do not leave a lot on the table. That is probably pretty wise, too.

I want to say to my good friend, ROBERT BYRD, I want to just tell him how much I have enjoyed working with him through this battle. The press likes to make a lot out of nothing that they can make something out of at times. I think that at all times through this battle, I know his No. 1 interest was, first, the country; second, that we were going to have something meaningful; and, third, trying to lead the Democrats and trying to have us be cohesive and stay together and be informed. I suspect we had more caucuses in this last 2 weeks than at any time I can ever remember, and I think our troops appreciated that. I think the result showed we were very nearly perfect. I do not think you can come much closer. I enjoyed working with him so much and I appreciated his tremendous skill and ability as he shepherded us through.

We had an awful lot of help from a lot of people on our side and I enjoyed that. I cannot say enough about our staff and the work they did, because they did a lot of backing us up on this.

Mr. DOLE. Mr. President, let me indicate that we started this Senate Concurrent Resolution 32 on Monday, April 22, 1985; we considered it for 11 days. We finished it at 3:07 a.m., this morning. We spent 71 hours, 13 minutes on this measure. We had 42 rollcall votes. We considered 44 amendments, agreed to 15, rejected 12, tabled 12, and 5 fell somewhere—not in order, temporarily laid aside, or may still be pending.

It is a pretty good piece of work, and I want to join in thanking all my colleagues for their generous remarks and indicate that it has been a very interesting experience.

I must confess that I did not know, when the rollcall started, if I had the votes. I will be very honest with the distinguished minority leader and others.

I thank the distinguished Presiding Officer for getting us started on this resolution because he understands parliamentary procedure better than this Senator. He volunteered to preside for about 6½ hours in the early days when we started to build that tree. I thank the distinguished Senator from Alaska [Mr. STEVENS].

I would be remiss if I did not mention very early the distinguished Senator from California [Mr. WILSON], who made a rather unusual appearance. When I visited with him this morning by telephone—he had just had surgery yesterday—he almost immediately indicated that if the doctor permitted, he wanted to be here because he felt so strongly about the issue.

I must say that, even though the leader is recognized as having accomplished something, without the efforts of the chairman of the Committee on the Budget and the Budget Committee and our little core group and the hundreds of meetings we had, with everyone involved, I doubt that we could have succeeded. So I want to pay a special tribute to my friend, PETE DOMENICI.

PETE, you started the whole process in the Budget Committee and went up and down the hill, up and down the ladder. You had a lot of help from the distinguished Senator from Washington and the distinguished Senators from Colorado and Minnesota. They have been very helpful.

One Member who never failed attending meetings and all the caucuses was the distinguished President pro tempore, Senator THURMOND, who was there almost every session, lending his support for deficit reduction. He made some very difficult choices in providing leadership and persuading some of our colleagues to give up a little, give a little, if we are going to get this done. The entire leadership team on the Republican side—Senator CHAFEE, again, made certain that, as Republicans, we did not fail in our responsibilities to education and the handicapped, two vulnerable groups. I think through his leadership, we have been able to preserve those programs without any substantial reduction.

Finally, to my right arm, AL SIMPSON, who really has gone the extra mile, visiting with colleagues on both sides of the aisle and, on a daily basis, visiting with me, I appreciate it very much. I will say so time and again, I am certain.

I want, too, to congratulate and thank my friend, ROBERT BYRD, the distinguished minority leader. I learn a lot every day I come in here—a little slow, but much of it just listening to the distinguished minority leader. We do have a good relationship. We are good friends. I recall my first visit; I indicated to Senator BYRD that there would be no surprise parties, and there have not been any surprise parties.

I have indicated—in fact, I made certain a few hours ago that I gave him a little copy of what our package would be, even before many Republicans had had a chance to look at it.

I respect the minority leader and his knowledge and his wisdom and his friendship.

I thank the ranking member of the Budget Committee. Obviously, we have been friends and I hope that friendship continues because we are going to need a lot of help. As he has indicated, this is sort of the launching and there is going to be a great deal to do.

I appreciate Senator MATSUNAGA being here. As I indicated when he came in late, we did not dare let him miss that vote or we would not get any more macadamia nuts. So we were prepared to hold off for a while.

And to many, many others—and I will have a more extensive statement for the RECORD on Tuesday particularly praising my own staff, my staff director, Rod DeArment, Sheila Burke, and many others on our staff, Steve Bell and his crew on the Budget Committee, to Bob Dove and others in the Parliamentarian's Office and all the others who worked with me on a daily basis, Howard, John, and Elizabeth, and many others, we appreciate everybody's untiring efforts. So it is over, the first is over.

I understand the President is about to call me and PETE DOMENICI. It is 20 to 11 in Portugal. I think that is where he is. So we will wrap this up.

I do want to thank Senator BOSCHWITZ. He was, again, in almost every meeting. He was putting together a little package with Senator BOREN in case ours went down the drain. He was ready to go. But he was also supporting our efforts, and that was very important to us. He did a lot of good work for the American farmer, and we appreciate that.

I do not want to overlook David Stockman—someone else mentioned him—who knows more about the Federal Government and its programs than anyone in my memory. If he is not right, I would not know how to prove it. You can bring up any program, and he gives you the book, page, and verse. It is amazing to watch. I think he certainly deserves our collective thanks.

ROUTINE MORNING BUSINESS

(During the day routine morning business was transacted and additional statements were submitted, as follows:)

MESSAGES FROM THE HOUSE

At 3:30 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 1869) to repeal the contemporaneous recordkeeping requirements added by the Tax Reform Act of 1984, and for other purposes.

The message also announced that the House has passed the following joint resolution, with amendments, in which it requests the concurrence of the Senate:

S.J. Res. 61. Joint resolution to designate the week of May 1, 1985, through May 7, 1985, as "National Osteoporosis Awareness Week".

The message also announced that the House has passed the following joint resolution, without amendment:

S.J. Res. 59. Joint resolution to designate "National Science Week".

The message further announced that pursuant to the provisions of section 3(a) of Public Law 86-380, the Speaker appoints as members of the Advisory Commission on Intergovernmental Relations the following Members on the part of the House: Mr. WEISS, Mr. LEVIN, and Mr. WALKER.

The message also announced that pursuant to the provisions of section 1 of Public Law 94-371, as amended, the Speaker appoints as members of the Franklin Delano Roosevelt Memorial Commission the following Members on the part of the House: Mr. PEPPER, Mr. SCHEUER, Mr. FISH, and Mr. GREEN.

MEASURES PLACED ON THE CALENDAR

The following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 2268. An act to approve and implement the Free Trade Area Agreement between the United States and Israel.

ENROLLED JOINT RESOLUTIONS PRESENTED

The Secretary of the Senate reported that on today, May 9, 1985, she had presented to the President of the United States the following enrolled joint resolutions:

S.J. Res. 53. Joint resolution to authorize and request the President to designate the month of June 1985 as "Youth Suicide Prevention Month";

S.J. Res. 60. Joint resolution to designate the week of May 12, 1985, through May 18, 1985, as "Senior Center Week";

S.J. Res. 64. Joint resolution to designate the week beginning May 5, 1985, as "National Correctional Officers Week";

S.J. Res. 65. Joint resolution designating the month of November 1985 as "National Alzheimer's Disease Month";

S.J. Res. 83. Joint resolution designating the week beginning on May 5, 1985, as "National Asthma and Allergy Awareness Week"; and

S.J. Res. 94. Joint resolution to designate the week beginning May 12, 1985, as "National Digestive Diseases Awareness Week".

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and

documents, which were referred as indicated.

EC-1100. A communication from the Secretary of Housing and Urban Development, transmitting, pursuant to law, the quarterly report on the Community Development Block Grant Jobs Program dated May 1985; to the Committee on Banking, Housing, and Urban Affairs.

EC-1101. A communication from the Secretary of Housing and Urban Development, transmitting a draft of proposed legislation to amend certain Federal laws relating to public housing to deregulate the program, returning it to local control, and to provide reliability for funding for capital improvements through the use of formula funding and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

EC-1102. A communication from the Secretary of Commerce, transmitting a draft of proposed legislation to amend the Magnuson Fishery Conservation and Management act, as amended, to authorize appropriations for fiscal years 1986 and 1987, and for other purposes; to the Committee on Commerce, Science, and Transportation.

EC-1103. A communication from the Director of the Office of Management and Budget, Executive Office of the President, transmitting a draft of proposed legislation to integrate the Office of Federal Procurement Policy more closely with the Office of Management and Budget, to vest the duties and functions of the Administrator for Federal Procurement Policy in the Director of the Office of Management and Budget, and for other purposes; to the Committee on Governmental Affairs.

EC-1104. A communication from the Director of the Office of Management and Budget, Executive Office of the President, transmitting a draft of proposed legislation to amend title 5, United States Code, to ensure the equitable application of a General Schedule alternative plan to certain other Federal employees, and for other purposes; to the Committee on Governmental Affairs.

EC-1105. A communication from the Governor of the Farm Credit Administration, transmitting, pursuant to law, the annual report of the Farm Credit Administration under the Freedom of Informaiton Act for calendar year 1984; to the Committee on the Judiciary.

EC-1106. A communication from the Secretary of Education, transmitting, pursuant to law, final regulations for the Pell Grant Program Cost of Attendance for 1985-86 and 1986-87; to the Committee on Labor and Human Resources.

EC-1107. A communication from the Secretary of Education, transmitting, pursuant to law, final regulations for the Pell Grant Program Family Contribution Schedule for 1986-87; to the Committee on Labor and Human Resources.

EC-1108. A communication from the Secretary of the Interior, transmitting, pursuant to law, the annual report of the Mineral Institute for 1984; to the Committee on Labor and Human Resources.

EC-1109. A communication from the Administrator of Veterans' Affairs, transmitting a draft of proposed legislation to amend title 38 of the United States Code to provide for the right of the United States to collect the costs of hospital, nursing home, or outpatient medical care furnished by the Veterans' Administration to veterans with no service-connected disabilities to the extent that they have health insurance or similar contracts or rights with respect to such care and for other purposes; to the Committee on Veterans' Affairs.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-200. Joint resolution adopted by the Legislature of the State of Oregon; to the Committee on Agriculture, Nutrition, and Forestry:

"SENATE JOINT MEMORIAL 2

"To the President of the United States, the Secretary of Agriculture and the Senate and House of Representatives of the United States of America, in Congress assembled:

"We, your memorialists, the Sixty-third Legislative Assembly of the State of Oregon, in legislative session assembled, respectfully represent as follows:

"Whereas the United States Office of Management and Budget has proposed to eliminate funding for many conservation programs; and

"Whereas the proposal includes severe cutbacks for the United States Soil Conservation Service; and

"Whereas the United States Soil Conservation Service provides technical expertise to the conservation districts of Oregon; and

"Whereas United States Soil Conservation Service programs administered through conservation districts include erosion control, flood control, snow surveys and water supply forecasting, cost-share for conservation practices, reclamation of abandoned mines, resource conservation and development in urban areas, and conservation of our natural resources; and

"Whereas productive soil and clean water are vital to the survival of humankind; and

"Whereas the operation of the United States Soil Conservation Service is highly beneficial; now, therefore, be it

"Resolved by the Legislative Assembly of the State of Oregon:

"(1) That the President, the Secretary of Agriculture and the Congress are respectfully memorialized to assure that the United States Soil Conservation Service be continued in its existence and to assure that all measures necessary be taken to provide for the continuance of its programs and functions.

"(2) A copy of this memorial shall be sent to the President of the United States, the Secretary of Agriculture and to each member of the Oregon Congressional Delegation."

POM-201. A resolution adopted by the Senate of the State of Hawaii; to the Committee on Agriculture, Nutrition, and Forestry:

"SENATE RESOLUTION

"Whereas, for many years, the federal Soil Conservation Service has aided in the development of Hawaiian agriculture by providing invaluable services to farmers and ranchers such as soil analysis and on-site technical assistance regarding the employment of land management and cultivation techniques, materials, and equipment appropriate for a particular soil type which promote soil conservation and at the same time allows optimum use of the land; and

"Whereas, 15 soil and water conservation districts have been established in the State pursuant to Chapter 180, Hawaii Revised Statutes; and

"Whereas, each district administers and conducts soil and water conservation activities in cooperation with county, state, and federal agencies; and

"Whereas, each district works closely with the federal Soil Conservation Service which in addition to providing technical advice to farmers and ranchers, also plans and constructs water resource projects under county and state sponsorship; and

"Whereas, these projects include water shed projects in the planning or construction phase on Maui, Hawaii, and Oahu; river basin studies on Kauai, Maui, and Hawaii; and resource conservation and development measures on Molokai, Maui and Hawaii; and

"Whereas, the federal government is now proposing a massive reduction in the staffing and budget for the Hawaii Office of the Soil Conservation Service which includes a reduction of the staff from thirty-two to ten persons and a cut of the present $2 million construction fund budget for flood control and irrigation systems to approximately $400,000; and

"Whereas, the proposed budget cut would also abolish Public Law 566, which has provided more flood control protection to the State than any other program; and

"Whereas, the federal government is further proposing to eliminate most of the programs concerning soil and materials technical assistance and approximately two-thirds or $500,000 of the project planning budget; and

"Whereas, these reductions affecting the federal Soil Conservation Service will have an adverse effect on Hawaii's farmers and ranchers who depend on the Soil Conservation Service for technical advice and assistance; and

"Whereas, a cutback on Soil Conservation Service assistance may also affect the Legislature's ability to evaluate the impending test and use of the Land Evaluation Site Assessment (LESA) agricultural land classification system; now, therefore, be it

Resolved by the Senate of the Thirteeth Legislature of the State of Hawaii, Regular Session of 1985, That the Legislature recognizes the importance of the Hawaii Office of the Soil Conservation Service to Hawaiian agriculture and expresses its support for its continued services in the future without reductions; and

Be it further resolved that the President of the United States, the United States Congress, and the Hawaii Congressional Delegation are urged to prevent any reduction in the staffing and funding levels of the Hawaii Office of the Soil Conservation Service and to maintain the present level of funding; and

Be it further resolved that certified copies of this Resolution be transmitted to the President of the United States, the President Pro Tempore of the United States Senate, the Speaker of the United States House of Representatives, the Hawaii Congressional Delegation, and the Hawaii Office of the Soil Conservation Service."

POM-202. A resolution adopted by the City Council of Jacksonville, Florida urging Congress to continue to fund the Job Corps Program in the 1986-1987 Federal Budget; to the Committee on Appropriations.

POM-203. Joint resolution adopted by the General Assembly of the State of Tennessee; to the Committee on Appropriations:

"SENATE JOINT RESOLUTION No. 35

"Whereas, The Tennessee Valley Authority should contribute its fair share in reducing the federal deficit, but the Tennessee Valley Authority should also receive its fair share of funds to continue to fulfill its mandated economic and resource development functions in the Tennessee Valley; and

"Whereas, The Tennessee Valley region in general and the State of Tennessee in particular have suffered longer under the recessionary impact of the 1980's than have other parts of the nation; and the high levels of unemployment in the Tennessee Valley are contributing to the federal deficit problem by reducing the number of dollars that a fully recovered Tennessee Valley economy would be circulating back into the federal treasury; and

"Whereas, The Tennessee Valley Authority non-power programs funded by the federal government address regional resource and economic development programs that threaten to slow down the recovery of the states served by the TVA, including problems in water quality management, aquatic weed control, soil erosion control, agricultural development, forestry and wildlife management and recreation development; and

"Whereas, The efforts of the Tennessee Valley Authority to combat the aquatic weed infestation of its reservoirs—notably of Nickajack, Watts Bar, and Chickamauga reservoirs in the eastern part of Tennessee—are necessary if TVA lakes are to continue to be a valuable recreational and tourism resource in this state and region; and

"Whereas, The Tennessee Valley Authority's National Fertilizer Development Center in Muscle Shoals, Alabama, is the nation's only laboratory for advanced fertilizer research; three quarters of the fertilizers used in this country today are based on National Fertilizer Development Center developments; and the Center has contributed substantially toward increasing farm yields, maintaining our national balance of trade and helping fight the problem of hunger throughout the world; and

"Whereas, The Tennessee Valley Authority has worked cooperatively with state and federal agricultural agencies to fight severe soil erosion problems in West Tennessee which has some of the most erosive soils n the country; and these erosive soils threaten farm productivity and pose run-off and sedimentation dangers for free-flowing streams; and

"Whereas, The management and operation by the Tennessee Valley Authority of Land Between the Lakes, the 170,000 acre outdoor recreation and tourism laboratory in western Tennessee and Kentucky, has turned that area into a major national tourism attraction which last year was visited by people from all 50 states; and

"Whereas, The Tennessee Valley Authority's assistance in the form of energy management surveys, employee training, financial resource identification, and other types of analysis to small and medium-sized businesses that wish to expand has contributed to the creation of 2,490 new jobs during fiscal year 1984; and

"Whereas, The State of Tennessee in particular would face severe budgetary pressure if it were asked to assume responsibility for TVA initiatives in detecting water quality problems, in managing the recreational areas around TVA reservoirs, in combatting aquatic weeds, in orphan mine reclamation, or in managing Land Between the Lakes; and

"Whereas, Many of the programs of the Tennessee Valley Authority, including managing the dam, lock and reservoir system on the Tennessee River, managing Land Between the Lakes, and conducting research in agricultural and fertilizer development, are all producing national as well as regional benefits, and the federal treasury also receives a substantial return on these investments in the form of the increased tax revenues that result from increased economic activity in the Tennessee Valley states; and

"Whereas, The members of the Ninety-fourth General Assembly of the State of Tennessee recognize the need for the federal government to seek effective methods in dealing with the current deficit crisis and at the same time the need for the Tennessee Valley Authority to perform its necessary functions in the most efficient way possible; now, therefore, be it

Resolved by the Senate of the Ninety-Fourth General Assembly of the State of Tennessee, the House of Representatives concurring, That the members of the Ninety-fourth General Assembly of the State of Tennessee go on record as opposing any unwarranted reduction of funding for the Tennessee Valley Authority and urge the members of the United States Congress to take appropriate action to preserve the funding for the Tennessee Valley Authority at a level which will be sufficient to continue its present programs.

Be It Further Resolved, That a copy of this resolution be sent to each member of the Tennessee Congressional Delegation, to the Speaker of the United States Senate, to the Speaker of the United States House of Representatives, and to the President of the United States."

POM-204. A resolution adopted by the Senate of the State of Michigan; to the Committee on Banking, Housing, and Urban Affairs:

SENATE RESOLUTION No. 120

"Whereas, On June 4, 1984, Dr. Martha Seger was appointed by President Reagan to the United States Federal Reserve Board of Governors. Governor Seger appeared before the Senate Committee on Banking, Housing, and Urban Affairs from June 19 to June 22, 1984, and, on June 28th of that year, that committee voted 10-8 to report the Seger nomination favorably to the entire Senate. Following the submission of minority party views and the adjournment of Congress. Dr. Seger was given a recess appointment and took her oath of office on July 2, 1984. On January 3, 1985, this appointment was resubmitted and is currently before the Senate of the Ninety-ninth Congress of the United States of America; and

"Whereas, A graduate of the University of Michigan, Martha Seger earned her doctorate in business economics and finance in 1971. Her impressive academic credentials also include her work as an associate professor at Oakland University. Her scholarly accomplishments have been complemented by her impeccable record in the private sector as an economist and officer with several financial institutions, including the Detroit Bank and Trust Company and the Bank of the Commonwealth. Recognized in 1976 by Business Week magazine as one of the top corporate women in the country, Dr. Seger has engaged in extensive consulting work with a number of companies across the country. Her previous experience also includes her excellent service as a financial economist to the Board of Governors of the Federal Reserve System from 1964 to 1967; and

"Whereas, The State of Michigan benefited directly from her experience and dedication during her excellent tenure as Commissioner of the Financial Institutions Bureau. In this position, she was responsible for directing the Bureau's commitment to the financial integrity of 240 state-chartered banks, thirty-one state-chartered savings and loan institutions, 598 credit unions, and several hundred consumer finance companies in Michigan. In many areas, especially in her support for more streamlined policies, her efforts continue to contribute to the financial institutions of this state; and

"Whereas, In view of her tremendous academic and professional accomplishments and her proven leadership, it would be most appropriate that Dr. Seger's appointment to the United States Federal Reserve Board be approved forthwith; now, therfore, be it

"*Resolved by the Senate,* That the members of this legislative body hereby memoralize the United States Senate to favorably advise and consent to the appointment of Dr. Martha Seger to the United States Federal Reserve Board of Governors; and be it further

"*Resolved,* That copies of this resolution be transmitted to the members of the United States Senate Committee on Banking, Housing, and Urban Affairs, the President of the United States Senate, and the Senate members of the Michigan congressional delegation."

POM-205. Joint resolution adopted by the Legislative Assembly of the State of Oregon; to the Committee on Energy and Natural Resources:

"SENATE JOINT MEMORIAL 13

"We, your memorialists, the Sixty-third Legislative Assembly of the State of Oregon, in legislative session assembled, respectfully represent as follows:

"Whereas the materials to be stored at a nuclear repository may stay dangerously radioactive for thousands of years; and

"Whereas the Federal Government has identified the Hanford Nuclear Reservation as a possible nuclear waste repository; and

"Whereas the site of the proposed Hanford nuclear waste repository is in close proximity to the Columbia River, the water quality of which is vital to the health and welfare of the public and the environment of Oregon; and

"Whereas measurable concentrations of radionuclides have been detected in the Columbia River downstream from the Hanford Nuclear Reservation; and

"Whereas a number of federal agencies have suggested that the Hanford site is potentially unsuitable because of possible contamination of groundwater that flows through the site; and

"Whereas the flow of groundwater from the proposed repository could affect the quality of important aquifers in Oregon; and

"Whereas these concerns affect issues which are vital to the environment and economy of the State of Oregon and the health and safety of its citizens; now, therefore,

"*Be it Resolved by the Legislative Assembly of the State of Oregon:*

(1) The Congress of the United States is memorialized to amend the Nuclear Waste Policy Act, 42 U.S.C.A. § 10101 (1982), to accord to states which could be substantially affected by a nuclear waste repository all rights and privileges of the Act.

"(2) If the Congress of the United States does not amend the Nuclear Waste Policy Act to allow the State of Oregon to address its concerns regarding the health and welfare of its citizens, the state will have no choice but to oppose the proposed Hanford nuclear waste repository.

"(3) Copies of this memorial shall be sent to the President of United States, to the Secretary of Energy and to each member of the Oregon Congressional Delegation."

POM-206. A resolution adopted by the Legislature of the Federated States of Micronesia: to the Committee on Environment and Public Works:

"RESOLUTION

"Whereas, certain programs of the Farmers Home Administration have been extended to the States of Truk, Pohnpei, and Yap in the Federated States of Micronesia for a number of years; and

"Whereas, these programs have played an extremely important role in meeting the housing needs of the citizens of the Federated States of Micronesia; and

"Whereas, the State of Kosrae in the Federated States of Micronesia has not in the past received the benefits of Farmers Home Administration programs, even though the citizens of Kosrae have the same housing needs as the citizens of the other three Federated States of Micronesia States of Pohnpei, Truk and Yap; and

"Whereas, the Federated States of Micronesia housing stock is deteriorated and inadequate to meet the needs of citizens of the Federated States of Micronesia; Now, therefore,

"Be it Resolved, by the Seventh Chief Executives' Conference that the U.S. Congress is urged to take the authorization and appropriation actions necessary for the Farmers Home Administration to continue and expand programs in the Federated States of Micronesia now and after the effective date of the Compact of Free Association and to extend such programs to the State of Kosrae; and

"Be it further Resolved, that certified copies of this resolution be sent to the President of the United States of America, the Speaker of the U.S. House of Representatives, the President Pro Tempore of the United States Senate, the Chairmen and Ranking Minority Members of the appropriate committees of the U.S. Congress, the President's Personal Representative for Micronesian Status Negotiations, the Secretary of the Interior, and the Director of the U.S. Farmers House Administration."

POM-207. A resolution of the Legislature of the State of Minnesota; to the Committee on Environment and Public Works:

"A RESOLUTION MEMORIALIZING THE PRESIDENT AND CONGRESS OF THE UNITED STATES TO TAKE IMMEDIATE STEPS TO REDUCE ACID DEPOSITION

"Whereas, acid deposition is one of the most serious unaddressed environmental problems of the North American continent; and

"Whereas, the Minnesota Legislature in 1982 stated that acid deposition resulting from the conduct of commercial, industrial, and transportation operations both within and without the state poses a present and severe danger to the delicate balance of ecological systems within the state, and that the failure to act promptly and decisively to mitigate or eliminate this danger will result in untold and irreparable damage to the forest, agriculture, water, fish, and wildlife resources of the state; and

"Whereas, the Minnesota Legislature in 1982 passed this nation's first state program to control acid deposition; and

"Whereas, Minnesota businesses and industries have reduced emissions more than 50 percent over the last ten years; and

"Whereas, recent studies indicate that lakes in the Voyageurs National Park, Superior National Forest, and the Boundary Waters Canoe Area Wilderness are highly sensitive to acid deposition; and

"Whereas, acid deposition has a potential of destroying crops, reducing forest productivity, debilitating aquatic life cycles, and corroding metals and man-made structures; and

"Whereas, acid deposition can contribute to the increasing levels of heavy metal concentrations in surface and groundwaters which can pose a threat to human health; and

"Whereas, acid deposition that may cause acidification of lakes and loss or reduction of game fish threatens the sport-fishing industry of Minnesota; and

"Whereas, the pollutants responsible for acid deposition can be carried hundreds of miles from their source which reflects the national and international nature of the acid deposition problem; and

"Whereas, approximately 70 percent of acidic deposition in Minnesota results from sources outside the state of Minnesota; and

"Whereas, the current federal Clean Air Act and Environmental Protection Agency regulations do not specifically address the acid deposition issue or provide relief to states like Minnesota that are significantly affected by the long-range transport of air pollutants; and

"Whereas, the State of Minnesota has entered into a memorandum of understanding with the Province of Ontario for the purpose of sharing scientific data and technical expertise, collaborating on efforts to develop a better understanding of the causes and effects of acid deposition, and on the establishment of integrated national action plans to reduce and prevent emissions; and

"Whereas, Canada has announced the adoption of a comprehensive emission reduction and funding package to combat the acid deposition problem by mounting an aggressive effort to reduce sulfur dioxide emissions by 50 percent by 1994, and in so doing, recognized the threat posed by acid deposition; and

"Whereas, present and future generations of Minnesotans will be adversely affected by any delay in establishing federal controls of emissions that cause acid deposition; Now, therefore,

"Be it resolved by the Legislature of the State of Minnesota that the President and Congress should take immediate action to reduce the emission of pollutants that cause acid deposition by amendment to the Clean Air Act, or by separate comprehensive legislation, and by providing adequate funding to the Environmental Protection Agency for monitoring and enforcement.

"Be it further resolved that the Secretary of State of Minnesota is instructed to transmit enrolled copies of this memorial to the President of the United States, the President and the Secretary of the United States Senate, the Speaker and the Chief Clerk of the United States House of Representatives, to Minnesota's Senators and Representatives in Congress, and to the Canadian Ambassador to the United States."

POM-208. A resolution adopted by the Louisiana Garden Club Federation, Inc. relating to the cultivation of wildflowers on our highways; to the Committee on Environment and Public Works.

POM-209. A resolution adopted by the commission of the city of Miami, FL, opposing the freedom fighters of Nicaragua who are fighting against the Marxist-Communist regime in that country; to the Committee on Foreign Relations.

POM-210. A resolution adopted by the Senate of the State of Delaware; to the Committee on Labor and Human Resources:

"SENATE RESOLUTION No. 29

"Whereas, Section 11(d) of the Fair Labor Standards Act, 29 U.S.C. 211(d), empowers the Secretary of Labor and/or the Administrator of the Wage and Hour Division of the Department of Labor to issue orders for the regulation of commercial homework; and

"Whereas, those officials, acting pursuant to that authority, have issued orders categorically prohibiting homeworkers from engaging in broad categories of commercial activity; and

"Whereas, the effect of that prohibition has been to deprive untold numbers of individuals who prefer to work at home, such as mothers with young children, of the opportunity to be gainfully employed; and

"Whereas, those who support the prohibition of homework seek to justify that infringement of the individuals's right to work by arguing that homework presents the opportunity for abuse; and

"Whereas, that argument is without merit since there is no instrumentality known to man that cannot be misused, a fact that does not warrant the indiscriminate circumscribing of individual liberty; and

"Whereas, no rational legislative objective is served by, in effect, forcing employees out of the home and into the factory or office; and

"Whereas, the American economy has entered a new phase characterized by the widespread use of computers and the electronic processing of information; and

"Whereas, this burgeoning electronic age promises to dramatically alter the traditional work-place by enabling many to earn a livelihood in the home through the use of computer terminals; and

"Whereas, this change in the commercial landscape has introduced a new category of employee, the telecommuter, who, armed with a personal computer terminal, is gainfully employed in the comfort and convenience of the home; and

"Whereas, those who seek to prohibit homework are already endeavoring, through federal regulation, to stifle this new field of opportunity.

"Be it resolved by the Senate of the 133rd General Assembly of the State of Delaware that the President of the United States, the Senate of the United States, the United States House of Representatives, and the Secretary of Labor be, and those gentlemen and bodies hereby are, respectfully petitioned to take the necessary action to rescind existing orders and regulations prohibiting commercial homework, to refrain from extending such prohibition to additional categories of activity, and thus to guarantee to those individuals who choose to pursue gainful employment in the home the freedom to do so."

POM-211. A resolution adopted by the Nebraska Unicameral Legislature; to the Committee on Veterans' Affairs:

"LEGISLATIVE RESOLUTION 109

"Whereas, the recently enacted Veterans Educational Assistance Act of 1984 does not provide for practical on-the-job training, and since 1944 literally hundreds of thousands of Nebraska veterans have received some form of training under the "G.I. Bill"; and

"Whereas, historically, practical on-the-job training is accepted as the most successful method of preparing quality job recipients, and some employers require a satisfactory period of on-the-job training; and

"Whereas, many areas of skill and training are not available in educational institutions; and

"Whereas, a high percentage of high school graduates do not desire or have aptitude for college; and

"Whereas, the cost of apprenticeship training has historically cost the government less while the benefits accruing to American business and industry have been substantial; and

"Whereas, there is a present need for apprenticeship and on-the-job training programs as evidenced by the enactment of the Emergency Veterans Job Training Act of 1983; and

"Whereas, the interests of all those not desiring institutional education would best be served by practical apprenticeship and on-the-job training programs. Now, therefore, be it

Resolved by the members of the eighty-ninth legislature of Nebraska, first session:

"1. That the Legislature urges Congress to amend the Veterans Educational Assistance Act of 1984 to include apprenticeship and on-the-job training programs.

"2. That copies of this resolution be presented to the Speaker of the House, the President of the Senate, and each member of Nebraska's Congressional delegation."

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. MATHIAS, from the Committee on Rules and Administration, without amendment:

S. 1117. A bill to authorize appropriations for the Federal Election Commission for fiscal year 1986 (Rept. No. 99-43).

By Mr. MATHIAS, from the Committee on Rules and Administration, without amendment:

S.J. Res. 81. A joint resolution to provide for the appointment of Barnabas McHenry as a citizen regent of the Board of Regents of the Smithsonian Institution (Rept. No. 99-44).

By Mr. MATHIAS, from the Committee on Rules and Administration, without amendment:

S. Res. 159. An original resolution to establish a select committee to study and make recommendations with respect to a two-year budget process (Rept. No. 99-45).

By Mr. PACKWOOD, from the Committee on Finance, without amendment:

S. 1114. An original bill to approve and implement the Free Trade Area Agreement between the United States and Israel.

By Mr. THURMOND, from the Committee on the Judiciary, without amendment and with a preamble:

S.J. Res. 32. A joint resolution to authorize and request the President to designate September 15, 1985, as "Ethnic American Day."

S.J. Res. 40. A joint resolution to designate the month of October 1985 as "National Down Syndrome Month."

S.J. Res. 57. A joint resolution to designate the week of October 20, 1985, through October 26, 1985, as "Lupus Awareness Week."

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. THURMOND, from the Committee on the Judiciary:

William H. Opel, of Alaska, to be U.S. Marshal for the District of Alaska for the term of four years.

By Mr. HATCH, from the Committee on Labor and Human Resources:

Hortencia Benavides, of Texas, to be a member of the Board of Directors of the Legal Services Corporation for the remainder of a term expiring July 13, 1986;

Leaanne Bernstein, of Maryland, to be a member of the Board of Directors of the Legal Services Corporation for the remainder of a term expiring July 13, 1986;

Lorain Miller, of Michigan, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1986;

Claude Galbreath Swafford, of Tennessee, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1986;

Robert A. Valois, of North Carolina, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1986;

William Clark Durant III of Michigan, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1986;

Paul B. Eaglin, of North Carolina, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1987;

Pepe J. Mendez, of Colorado, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1987;

Thomas F. Smegal, Jr., of California, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1987;

Basile Joseph Uddo, of Louisiana, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1987; and

Michael B. Wallace, of Mississippi, to be a member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1987.

(The above nominations were reported from the Committee on Labor and Human Resources with the recommendation that they be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. SPECTER:

S. 1112. A bill to amend the Internal Revenue Code of 1954 to increase the exemption amount to $2,000; to the Committee on Finance.

By Mr. MATHIAS:

S. 1113. A bill to amend the Internal Revenue Code of 1954 to clarify the extent to which a State, or political subdivision, may tax certain income from sources outside the United States; to the Committee on Finance.

By Mr. PACKWOOD, from the Committee on Finance.

S. 1114. An original bill to approve and implement the Free Trade Area Agreement between the United States and Israel; placed on the calendar.

By Mr. WARNER:

S. 1115. A bill to amend the Internal Revenue Code of 1954 to relieve corporations of the separate mailing requirement for form 1099 statements; to the Committee on Finance.

By Mr. WARNER (for himself and Mr. HOLLINGS):

S. 1116. A bill to amend the Act of October 15, 1982, entitled "An Act to designate the Mary McLeod Bethune Council House in Washington, District of Columbia, as a national historic site, and for other purposes"; to the Committee on Energy and Natural Resources.

By Mr. MATHIAS, from the Committee on Rules and Administration:

S. 1117. A bill to authorize appropriations for the Federal Election Commission for fiscal year 1986; placed on the calendar.

By Mr. BAUCUS:

S. 1118. A bill to amend the Internal Revenue Code of 1954 to increase the earned income credit and to disregard such credit with respect to certain eligibility; to the Committee on Finance.

By Mr. MELCHER (for himself and Mr. BURDICK):

S. 1119. A bill to revise and extend programs to provide price support and production incentives for farmers and assure an abundance of food and fiber, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. LEVIN (for himself and Mr. GRASSLEY):

S. 1120. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for additions to reserves for refunds of beverage container deposits; to the Committee on Finance.

By Mr. ANDREWS:

S. 1121. A bill to amend the United States Grain Standards Act to encourage foreign agricultural trade by improving the quality of grain shipped from U.S. export elevator facilities; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. GRASSLEY:

S. 1122. A bill to modify the project for flood protection on the Chariton River, IA and MO, to direct the Secretary of the Army to sell storage space in Rathbun Lake, IA, to the Rathbun Regional Water Association, and for other purposes; to the Committee on Environment and Public Works.

By Mr. GRASSLEY:

S. 1123. A bill to affirm the authority of the Congress to approve the design of currency; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. BIDEN:

S.J. Res. 134. Joint resolution to designate "National Safety in the Workplace Week"; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MATHIAS from the Committee on Rules and Administration:

S. Res. 159. An original resolution to establish a select committee to study and make recommendations with respect to a 2-year budget process; placed on the calendar.

By Mr. MELCHER:

S. Res. 160. A resolution to promote agriculture; to the Committee on Agriculture, Nutrition, and Forestry.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SPECTER:

S. 1112. A bill to amend the Internal Revenue Code of 1954 to increase the exemption amount to $2,000; to the Committee on Finance.

(The remarks of Mr. SPECTER and the text of the legislation appear earlier in today's RECORD.)

By Mr. MATHIAS:

S. 1113. A bill to amend the Internal Revenue Code of 1954 to clarify the extent to which a State, or political subdivision, may tax certain income from sources outside the United States; to the Committee on Finance.

REPEAL OF WORLDWIDE UNITARY TAX

● Mr. MATHIAS. Mr. President, today I introduce a longstanding legislative initiative of mine—a bill to prohibit the use of the worldwide unitary method of corporate taxation by the States.

Under this method, certain States assess the tax base of multinational corporations having a presence in their boundaries according to the revenues generated by all their business activities throughout the world. This practice discourages foreign investment and costs jobs. It also creates serious diplomatic tensions with the governments of our trading partners, especially with Japan and the countries of Western Europe, which have communicated their strong concerns to the Departments of State and Treasury and directly to the President for several years now.

My bill simply would require States to limit their tax reach to revenues generated from activities within their borders, in accordance with the practice of the Federal Government concerning foreign source corporate income. That policy, known as the arm's length method, treats overseas subsidiaries or parents as separate business entities and taxes their revenues only to the extent that they flow through to the U.S. affilliates.

Last year, the President appointed a Working Group of Federal and State government officials and business representatives, under the leadership of then Treasury Secretary Regan, to come up with some recommendations on this issue. The result was a plan for the unitary States to change their laws voluntarily in return for more stringent disclosure requirements for the multinational companies and a greater sharing of information with the States by the IRS to certify that all revenues legitimately traceable to activities within the State are in fact being taxed.

The Working Group suggested a deadline of July 1985 for voluntary reform by the States. If that deadline is not met, the Group recommends that the President endorse Federal legislation prohibiting the State worldwide unitary tax. Some States already have enacted changes in their laws since the Working Group's report was completed last summer. But it remains unclear whether the other States, including California, will forego the worldwide unitary method voluntarily.

Accordingly, I am introducing my bill this year well in advance of the July deadline, so that we can begin to develop a legislative record in the event Federal action is necessary. The last legislative hearings on this matter were held by the Finance Committee in June 1980. Last summer, I held a general oversight hearing on the issue in the Foreign Relations Subcommittee on International Economic Policy.

I hope the time has come when we can put this problem to rest.

I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1113

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) chapter 77 of the Internal Revenue Code of 1954 (relating to miscellaneous provisions) be amended by adding at the end thereof the following new section:

"SEC. 7518. INCOME OF CORPORATIONS ATTRIBUTABLE TO FOREIGN CORPORATIONS.

"(a) IN GENERAL.—Where two or more corporations are members of the same affiliated group of corporations—

"(1) for purposes of imposing an income tax on any corporation which is a member of such group, no State, or political subdivision thereof, may take into account, or include in income subject to such tax, any amount of income of, or attributable to,

"(2) any other corporation which is a member of such group and which is a foreign corporation, unless such amount is includable in the gross income of the corporation described in paragraph (1) for purposes of chapter 1 (including any amount includable in gross income under subpart F of part III of subchapter N of chapter 1) for the taxable year in which or with which the taxable period (for purposes of State or local law) ends.

"(b) INCOME TAX DEFINED.—For purposes of this section, the term 'income tax' means any tax which is imposed on, according to, or measured by net income.

"(c) AFFILIATED GROUP DEFINED.—For purposes of subsection (a), the term 'affiliated group' means a common parent corporation and one or more chains of corporations connected through stock ownership with such common parent corporation.

"(d) CERTAIN CORPORATIONS TREATED AS FOREIGN CORPORATIONS.—For the purpose of this section, a domestic corporation shall be treated as a foreign corporation if under section 861(a)(2)(A) a dividend received from such corporation in the taxable year referred to in subsection (a) would not be treated as income from sources within the United States.

"(e) CERTAIN DIVIDENDS PAID OR DEEMED PAID.—

"(1) DIVIDENDS EXCLUDED FROM TAX.—If a corporation receives in any taxable year a dividend from a foreign corporation (or is by application of section 951 treated as having received such a dividend), in imposing an income tax on such corporation no State, or political subdivision thereof, may tax, or otherwise take into account—

"(A) in the case of a dividend received from a corporation with respect to which an election under section 936 is in effect for the taxable year in which such dividends are paid, the amount of deduction allowed by section 243,

"(B) in the case of a dividend received from a corporation described in subsection (d) which is not described in paragraph (A), more than the lesser of—

"(i) the amount of the dividend exclusive of any amount of dividend determined under paragraph (3), or

"(ii) the amount by which the dividend plus any amount of dividend determined under paragraph (3) exceeds the excluded portion of the dividend determined in accordance with paragraph (2).

"(C) in the case of a dividend received from any other foreign corporation more than the lesser of—

"(i) the amount of the dividend (exclusive of any amount determined under section 78), or

"(ii) the amount by which the dividend plus any amount determined under section 78 exceeds the excluded portion of the dividend determined in accordance with paragraph (2).

"(2) EXCLUDED PORTION OF A DIVIDEND.—The excluded portion of any dividend shall be determined by multiplying the amount of the dividend (including any amount of dividend determined under section 78 or paragraph (3)) by a fraction—

"(A) the numerator of the fraction shall be the sum of—

"(i) the total amount of tax withheld from all such dividends at the source.

"(ii) the total amount of tax which by application of section 902 or section 960 to all such dividends, the domestic corporation is deemed to have paid, and

"(iii) the total amount of tax deemed paid by application of paragraph (3).

"(B) The denominator of the fraction shall be 46 percent of all such dividends.

"(3) SPECIAL RULE WITH RESPECT TO DIVIDENDS RECEIVED FROM DOMESTIC CORPORATIONS TREATED AS FOREIGN UNDER SUBSECTION (d).—A corporation that receives a dividend which is described in subparagraph (B) of paragraph (1) shall—

"(A) treat as a dividend for purposes of subparagraph (B) of paragraph (1), and

"(B) treat as a tax deemed paid for purposes of subparagraph (A) of paragraph (2), foreign income taxes which such other corporation has paid or deemed paid in the same proportion on or with respect to the accumulated profits of such corporation from which such dividend was paid, which

the amount of such dividend bears to the amount of such accumulated profits in excess of all income taxes (other than those deemed paid).

For purposes of this section, only a tax for which a credit against tax would be allowable under section 901 (determined without regard to the limitations in section 904 and 907) shall be taken into account.".

Nothing in this section shall subject any dividend, other income item or portion thereof to taxation if such taxation is otherwise prohibited by any law, or rule of law, of the United States.

(c) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable periods (for purposes of State or local law) beginning after December 31, 1986.

(d) AMENDMENT OF THE TABLE OF SECTIONS.—The table of sections for chapter 77 of such Code is amended by adding at the end thereof the following new item:

"Sec. 7518. Income of corporations attributable to foreign corporations."●

By Mr. WARNER:

S. 1115. A bill to amend the Internal Revenue Code of 1954 to relieve corporations of the separate mailing requirement for form 1099 statements; to the Committee on Finance.

FORM 1099 PAPERWORK RELIEF ACT

● Mr. WARNER. Mr. President, as a result of Public Law 98-67, enacted in 1983, the Internal Revenue Service now requires corporations, banks, and brokerage firms to mail yearly statements of dividend earnings—1099 forms—to every shareholder in a separate envelope containing no additional material.

Although the intent of this regulation was to keep shareholders from throwing their 1099 statements away along with quarterly reports or other information, the effect has been duplication of effort and unnecessary expenses for businesses of all sizes.

The additional administrative and postage costs for this separate mailing cannot be justified.

The president of a small company in the Shenandoah Valley of Virginia estimates that this regulation resulted in $856 in unnecessary expense to notify his company's 1,900 shareholders of their yearly dividend earnings last year.

A large corporation in Richmond, VA, shelled out an additional $6,785.40 in administrative and postage costs to meet the requirements of this regulation in 1984.

And, most astoundingly, this regulation cost each regional telephone company approximately $375,000 to notify its shareholders in a separate envelope what their dividend earnings were for 1984.

Surely the money spent to comply with this regulation could be used more economically and efficiently elsewhere in the market.

This IRS regulation is yet another example of how complexity and needless paperwork have infected our Tax Code, making tax reform essential.

Today, I am introducing the Form 1099 Paperwork Relief Act of 1985 to modify this regulation and add some sensibility and practicality to our Tax Code.

This bill would once again allow corporations to mail out 1099 forms in the same envelope with dividend checks, while continuing to prohibit their inclusion with other extraneous matter likely to be thrown away.

My bill would strike a blow for simplicity, fairness, and efficiency in our Tax Code, while adding a small piece of badly needed common sense and practicality. I ask unanimous consent that the bill be printed in the RECORD and I invite my colleagues to join me in cosponsoring the Form 1099 Paperwork Relief Act of 1985.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1115

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Form 1099 Paperwork Relief Act of 1985".

SEC. 2. REDUCING PAPERWORK FOR BUSINESSES.

(a) IN GENERAL.—The last sentence of section 6042(c) of the Internal Revenue Code of 1954 (relating to statement to be furnished to person with respect to whom return regarding payment of dividends is furnished) is amended to read as follows: "The written statement required under the preceding sentence shall be furnished (either in person or in a separate, first-class mailing which may only additionally include a dividend) to the person on or before January 31 of the year following the calendar year for which the return under subsection (a) was made, and shall be in such form as the Secretary may prescribe by regulations.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 1984.●

By Mr. WARNER (for himself and Mr. HOLLINGS):

S. 1116. A bill to amend the act of October 15, 1982, entitled "An Act to designate the Mary McLeod Bethune Council House in Washington, District of Columbia, as a national historic site, and for other purposes," to the Committee on Energy and Natural Resources.

MARY MCLEOD BETHUNE COUNCIL HOUSE NATIONAL HISTORIC SITE

● Mr. WARNER. Mr. President, today, along with my distinguished colleague from South Carolina [Mr. HOLLINGS], I am introducing legislation that amends legislation I introduced in 1982 which designated the Mary McLeod Bethune Council House in Washington, DC as a national historic site.

The main purpose of the legislation is to extend the financial assistance that council house will receive from the Park Service.

There was some question last year when the Bethune house received it's appropriations whether there was an authorization for such an expenditure.

This legislation will clear up any such confusion in the future.

The Mary McLeod Bethune Memorial Museum, an institution of the National Council of Negro Women, is the only facility in the United States primarily committed to preserving and interpreting materials which define the history of black women in America.

Located at 1318 Vermont Avenue in Northwest Washington, DC, the museum occupies a second empire Victorian structure which dates from 1875-76.

The site, part of Washington's Logan Circle historic district, is listed on the National Register of Historic Places.

A key structure in America's history, it was the former national headquarters of the National Council of Negro Women and the last official Washington, DC, residence of black educator and political leader, Mary McLeod Bethune (1875-1955).

The museum was officially opened on November 11, 1979.

The first and second floors of the renovated and partially restored townhouse serve as galleries and program space.

The third floor is utilized for administrative offices.

Museum programs and activities include changing exhibitions, public lectures, performances, tours, and special educational activities.

While programming emphasizes topics related to black women and their history, a diversity of more general themes is addressed.

Recent exhibitions include: "Twenty 19th Century Black Women," "Mary McLeod Bethune, 1875-1955," and "Black Women: Selections from the Barnett-Aden Collection."

Lectures and symposia have included such topics as "Black Women in the Visual Arts," "Black Women in Politics: The View for the Eighties," and "Beyond Rhetoric."

Lecturers at the museum include scholars in the humanities of local and national reputation, heads of national organizations and prominent elected officials.

The museum draws its audience from local residents as well as visitors from all over the United States, including men and women of all races.

Particularly during Black History Month the museum serves youth from area schools.

In addition to a broad-based general audience, the museum serves members of the National Council of Negro Women and its affiliated organizations both locally and nationally.

While general operating support for the museum is provided by the National Council of Negro Women, the

museum seeks project support from Federal and State sources as well as donations from the private sector.

Currently, the museum is mounting a major campaign for development of an endowment and for operating support, in addition to special project support.

Mr. President, this is a worthwhile project that deserves support from the Federal Government.

I hope my colleagues will take a close look at this legislation and will support it.

I ask unanimous consent that the bill be printed in the RECORD at the conclusion of my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1116

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BETHUNE MUSEUM AND ARCHIVES.

(a) COOPERATIVE AGREEMENT.—Section 3 of the Act of October 15, 1982, entitled "An Act to designate the Mary McLeod Bethune Council House in Washington, District of Columbia, as a national historic site, and for other purposes" (96 Stat. 1615; 16 U.S.C. 461 note), is amended by striking out "National Council of Negro Women" each place it appears and inserting in lieu thereof "the Bethune Museum and Archives".

(b) ANNUAL REPORT.—Section 4 of such Act is amended by striking out "National Council of Negro Women" and inserting in lieu thereof "Bethune Museum and Archives".

(c) DEFINITION.—Such Act is further amended by adding the following new section at the end thereof:

REFERENCE TO BETHUNE MUSEUM AND ARCHIVES

"SEC. 6. Any reference in this Act to the 'Bethune Museum and Archives' shall be treated as a reference to the Mary McLeod Bethune Museum of the National Council of Negro Women, Inc.".

SEC. 2. AUTHORIZATION.

Section 5 of the Act of October 15, 1982, entitled "An Act to designate the Mary McLeod Bethune Council House in Washington, District of Columbia, as a national historic site, and for other purposes" (96 Stat. 1615; 16 U.S.C. 461 note) is amended to read as follows:

"ASSISTANCE

"SEC. 5. Beginning with fiscal year 1986 and for each fiscal year thereafter until fiscal year 1991, there is authorized to be appropriated such sums, not in excess of $200,000 for each such fiscal year, as may be necessary to assist in carrying out the purposes of this Act. There is also authorized to be appropriated for purposes of making grants to the Bethune Museum and Archives for purposes of this Act such additional sums (not in excess of $500,000) to be provided (as may be agreed to by the Secretary of the Interior and the Bethune Museum and Archives) on a fifty-fifty matching basis to the extent that funds or services are contributed by the Bethune Museum and Archives for such purposes. Sums authorized to be appropriated under this section shall remain available until expended.".●

● Mr. HOLLINGS. Mr. President, I am pleased to join the distinguished senior Senator from Virginia in introducing the necessary amendments to Public Law 97-329, which designated the Mary McLeod Bethune Council House, here in Washington as a national historic site. Last year, when we presented our amendment for the Interior appropriations bill on behalf of the Council House, and the National Council of Negro Women, the distinguished senior Senator from Idaho [Mr. MCCLURE] quite correctly identified problems in the authorization for appropriations. With his forbearance we obtained the appropriation but we promised him this bill to remedy the problems in the authorization.

The designation of the Council House as a national historic site honors one of the most extraordinary individuals our Nation has ever known. Mary McLeod Bethune was born in Mayesville, SC, to former slaves, rose to become not merely a great black educator, not merely a great women educator—but great among all American educators. She almost singlehandedly built Bethune Cookman College in Florida. She was an adviser to Presidents, the first black woman to head a Federal agency, and the founder of the National Council of Negro Women. On March 5 she became only the second black woman to be commerated on a U.S. postage stamp.

Most remarkably, this dynamic woman achieved national stature during a period in our Nation's history when, regrettably, it was next to impossible for anyone of her race and gender to do so. It is quite proper to say that she overcame incredible odds.

In 1905, when Mary Bethune was graduated from Moody Bible Institute in Chicago, she aspired to become a missionary in Africa. She never realized this ambition—but oh, how fortunate we are today that she ultimately pursued her life's goals within the borders of her own country. Mary Bethune, along with other men and women of her time who worked to increase educational opportunities for blacks, laid the groundwork for the great social struggle which occurred in the decade following her death in 1955. The succeeding generation of educated black Americans induced an entire country to confront its conscience and move to protect the most fundamental rights of a free society—the right to vote and the freedom to be. Mary McLeod Bethune was an inspiration to the movement which furthered the cause of America and brought about a more equitable society.

We in South Carolina are proud of this distinguished native of our State. We are proud of her works, her achievements, and the courage and perseverance she exhibited throughout her lifelong crusade for minority opportunities. Mary McLeod Bethune was a pioneer in the struggle for civil rights, and it is fitting and proper that we continue to honor her by assisting in the preservation, maintenance, and interpretation of the Council House, and the continuation of the Mary McLeod Bethune Memorial Museum and the National Archives for Black Women's History maintained by the National Council of Negro Women at that site.

Mr. President, I urge the Committee on Energy and Natural Resources to expedite their consideration of these amendments so that we can obtain Senate approval of this bill before we consider the Interior appropriations bill later on in the session.●

By Mr. BAUCUS:

S. 1118. A bill to amend the Internal Revenue Code of 1954 to increase the earned income credit and to disregard such credit with respect to certain eligibility; to the Committee on Finance.

INCREASE IN EARNED INCOME CREDIT

Mr. BAUCUS. Mr. President, today I am introducing legislation to modify the Earned Income Tax Credit, which targets tax relief to low-income working families. This legislation is designed to make work more attractive than welfare dependency, to reduce the regressive sting of Federal payroll taxes, and to reward those who are struggling to make ends meet by allowing them to retain more of what they earn.

A fair tax structure ought to be progressive. It should recognize that ability to pay increases with income. For families whose incomes are limited, our tax system should limit its demands.

That is the Tax Code we all want, but it is not what we have. Joseph Pechman, the Brookings Institution economist, recently concluded that "between 1966 and 1985 tax burdens increased in the lower part of the income scale [and] declined sharply at the top." Furthermore, it is now clear that the tax burden on the working poor is accelerating and the disparity between tax burdens is worsening. This is just plain wrong!

SENATOR LONG AND THE 1975 EARNED INCOME TAX CREDIT

More than 10 years ago the distinguished Senator from Louisiana [Mr. LONG], recognized that our tax code needed a "safety valve" for low-income families. He saw that there was an enormous gap between the official poverty line and the point at which a family began to pay Federal income taxes. In fact in 1974 a family with earnings almost 15 percent below the poverty line was still subject to Federal income tax.

Senator LONG recognized that a targeted tax credit was the best way to reduce the taxes for low-income working Americans and to increase their in-

centives to remain in the work force rather than to rely on cash assistance. The Senator from Louisiana sometimes referred to his Earned Income Tax Credit as a work bonus and he told the Senate it was needed to provide tax relief to people who are too poor to pay income taxes, but who still pay Social Security taxes and bear the burden of the Social Security tax paid by their employers.

Senator LONG predicted that the Senate is going to take great pride in putting on the lawbooks a provision saying that we know the poor pay a lot of taxes and we want to do something about it. The Senate agreed and voted 78 to 12 to include the work bonus in the historic Tax Reduction Act of 1975.

THE NEED TO AMEND THE EITC

The Earned Income Tax Credit is still the most important Federal tax provision for families in poverty. For many years the EITC was extremely effective in keeping families with earnings below the poverty line from paying Federal income taxes while reducing the regressive burden of the Social Security payroll tax.

Now the time has come to reaffirm and strengthen this unique and vital element of our tax system. Since 1981 the value of the EITC has eroded substantially. In fact, today the gap between the poverty line and the point at which a family begins to pay taxes is even greater than when the EITC was enacted a decade ago.

The Children's Defense Fund recently published a major study on "The Impact of Federal Taxes on Poor Families." Their report, which I recommend to my colleagues, points out the dramatic increase in the tax burden of low-income, working families and demonstrates clearly the need for congressional action to reform the Earned Income Tax Credit.

AMENDMENTS CONTAINED IN THE DEFICIT REDUCTION ACT OF 1984

Last year, we made a modest adjustment to the EITC when Congress passed the Deficit Reduction Act. Senator BRADLEY raised the conscience and the attention of Congress to the need to reform this provision of the Tax Code and we voted to increase the credit slightly beginning with the current tax year.

The Senator from New Jersey also offered a floor amendment to index the EITC to insulate the credit from the effects of inflation in future years, but that measure was defeated. In fact, the Senate rejected several amendments as we labored into the night on the Deficit Reduction Act, not because we disagreed on the merits of many of these proposals, but because we had a good deficit reduction package and we needed to keep it whole.

But we certainly cannot claim that we fixed the Earned Income Tax Credit last year. The tax burdens of the lowest income families continue to grow. We must recognize that the first step toward meaningful tax reform is to relieve the tax burden of those for whom every dollar of earned income is a matter of survival.

CURRENT TAX PICTURE OF LOW-INCOME FAMILIES

Today the poverty line for a family of four is about $11,100, but that family begins owing income taxes at approximately $8,900. That means families with incomes 20 percent below the poverty line are paying Federal income taxes.

But that's only part of the story. Payroll taxes for the same family are over twice as large as their income tax liability. In total, the Joint Committee on Taxation estimates that this "poverty line family" will pay 10.5 percent of their income in Federal taxes. That's a combined Federal tax burden of $1,166.

THE EFFECTS OF INFLATION ON LOW EARNERS

How did this gap between the tax threshold and the poverty line reemerge? The answer is inflation. Inflation pushes up the poverty line faster than changes in the Tax Code have increased the tax threshold.

At the same time the lowest wage earners have continued to suffer from "bracket creep" while middle and upper income earners were insulated from its effects. Inflation pushes low earners above the $11,000 income threshold where they no longer qualify for the earned income credit. And inflation diminishes the real value of the credit for those who remain eligible.

THE EITC IS A "SAFETY NET" PROGRAM FOR THE WORKING POOR

We hear a lot of talk about the importance of "safety net" programs. That term is usually reserved to refer to the essential programs that provide food, shelter, cash and medical assistance. But we cannot overlook the safety net we have built into our tax structure.

We can and we will debate about the appropriate funding levels for critical spending programs. We can and we will debate the importance of COLA's in a time which calls for austerity and deficit reduction. But we cannot ignore the fact that the burden of Federal taxes for the neediest working families is growing at an alarming rate. And we can and should, once again, do something to correct this obvious inequity.

THE BAUCUS PROPOSAL FOR AMENDING THE EITC

My bill addresses this inequity. First, I propose that we increase immediately the maximum amount of the Earned Income Tax Credit from $550 to $600. We should do this by increasing the credit from its current level of 11 percent of the first $5,000 of income to 12 percent. Next I propose that index the credit and the phaseout brackets just as we have already done for the personal exemption, the standard deduction, and tax brackets in general.

We should do this because we need to enhance the value of this credit for those who are now being taxed too much. These working families have been hit hardest by the rapid increase in the Social Security payroll tax that was necessary to help secure the solvency of the trust funds far into the future. And we need to index the credit to preserve its real value from the erosion caused by inflation.

My legislation is designed to safeguard families who have not received a tax cut during the past 3 years. Their taxes have been rising while the administration has concentrated its efforts on easing the taxes of the wealthiest. Some may wonder whether we can really afford the tax cuts that are already in place. But we surely cannot afford to see the taxes of the working poor continue to escalate while we ponder and debate even grander schemes for tax reform.

THE ADMINISTRATION'S PROPOSAL

The Treasury Department's tax reform bill also contains a provision to update the EITC. The administration's plan would index the credit in future years, which my legislation does as well. The major difference between the Baucus proposal and the Treasury proposal is that my bill would raise the maximum credit by $50 in 1986 and begin indexing thereafter. The Treasury plan makes no adjustment to the maximum credit prior to indexing.

The other difference between my proposal and the administration's is that under the Treasury plan the neediest families in America will have to wait in line while comprehensive tax reform is debated before they obtain the relief they deserve today.

I don't think that it is right to say to the lowest earning families whose tax burdens begin at 20 percent below the poverty line "you'll just have to wait for tax relief until the big corporations, the special interests in Washington, and a small army of accountants and attorneys agree on what is meant by a fair and simple tax code." We all know that while we debate what is wrong with the Tax Code that its most glaring defect will only continue to worsen for those at the botton of the economic ladder.

WHO BENEFITS BY AMENDING THE EITC?

The Congressional Budget Office estimates that 6.7 million working families claimed the EITC in 1981, or about 7 percent of all individual tax returns. Total credits amounted to $1.9 billion which was an average benefit of $285.

The number of working families who benefit from the EITC declines due to

the bracket creep they experience as low-earners. Under the legislation I am proposing, the value of the Earned Income Tax Credit would remain stable for all eligible taxpayers and the lowest earners would get a maximum credit of $600.

Let's be clear about this proposal. This is not a giveaway. This is a fair and reasonable adjustment to current law for working families with earnings below the poverty line.

THE NEED FOR ACTION IS NOW

I do not believe any Member of the Senate wants to continue to see the tax burden continue to rise for families with earnings below the poverty line. As the President said in his State of the Union Address, "individuals living at or near the poverty line [should] be totally exempt from federal income tax."

The families struggling to make ends meet should not have to wait for comprehensive tax reform to obtain meaningful and sensible tax relief. We need to act now with the same pride that the Senate acted in 1975. And we must act now to restore tax fairness for those who depend on us to do what we know is right.

Mr. President, I have prepared a brief summary of my bill which I ask to be printed in the RECORD following the text of the bill. Finally, I ask unanimous consent that two recent articles on the importance of reforming the EITC be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1118

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. INCREASE IN EARNED INCOME CREDIT.

(a) INCREASE IN RATE OF CREDIT.—Subsection (a) of section 32 of the Internal Revenue Code of 1954 (relating to earned income credit) is amended by striking out "11 percent" and inserting in lieu thereof "12 percent".

(b) ADJUSTMENT OF CREDIT PHASE-OUT.—Paragraph (2) of section 32(b) (relating to limitation of earned income credit) of such Code is amended to read as follows:

"(2) 13⅓ percent of so much of the adjusted gross income (or, if greater, the earned income) of the taxpayer for the taxable year as exceeds $8,500.".

(c) TECHNICAL AMENDMENTS.—

(1) Paragraph (1) of section 32(b) is amended by striking out "$550" and inserting in lieu thereof "$600".

(2) Subparagraphs (A) and (B) of section 32(f)(2) are amended to read as follows:

"(A) for earned income between $0 and $13,000, and

"(B) for adjusted gross income between $8,500 and $13,000.".

(3) Clauses (i) and (ii) of section 3507(c)(2)(B) are amended to read as follows:

"(1) of not more than 12 percent of the first $5,000 of earned income, which

"(ii) phases out between $8,500 and $13,000 of earned income, or".

(4) Clauses (i) and (ii) of section 3507(c)(2)(C) are amended to read as follows:

"(i) of not more than 12 percent of the first $2,500 of earned income, which

"(ii) phases out between $4,250 and $6,500 of earned income.".

(d) COST-OF-LIVING ADJUSTMENTS.—

(1) IN GENERAL.—Section 32 of such Code is amended by adding at the end thereof the following new subsection:

"(i) COST-OF-LIVING ADJUSTMENTS.—

"(1) IN GENERAL.—In the case of any taxable year beginning in a calendar year after 1986, this section shall be applied by increasing the dollar amounts in subsection (a), (b), and (f) by the cost-of-living adjustment for such calendar year.

"(2) COST-OF-LIVING ADJUSTMENT.—For purposes of paragraph (1), the cost-of-living adjustment for any calendar year is the percentage (if any) by which—

"(A) the CPI for the preceding calendar year (as defined in section 1(f)(4)), exceeds

"(B) the CPI for calendar year 1985 (as so defined).

"(3) ROUNDING.—Any increase determined under paragraph (1) shall be rounded to the nearest multiple of $10 (or if such increase is a multiple of $5, such increase shall be increased to the next highest multiple of $10).".

(2) EARNED INCOME ADVANCE AMOUNT.—Section 3507(c) of such Code (defining earned income advance amount) is amended by adding at the end thereof the following new paragraph:

"(3) COST-OF-LIVING ADJUSTMENT.—In the case of any calendar year after 1986, paragraph (2) shall be applied by increasing each dollar amount contained therein by the cost-of-living adjustment for such calendar year as determined under section 32(i)(2). Any such increase shall be rounded to the nearest multiple of $10 (or if such increase is a multiple of $5, such increase shall be increased to the next highest multiple of $10).".

(e) EFFECTIVE DATES.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to taxable years beginning after December 31, 1985.

(2) The amendment made by subsection (d) shall take effect on January 1, 1987.

SEC. 2. DISREGARD OF EARNED INCOME CREDIT WITH RESPECT TO CERTAIN ELIGIBILITY.

(a) IN GENERAL.—Notwithstanding any other provision of law, any refund of Federal income taxes made to an individual by reason of section 32 of the Internal Revenue Code of 1954, and any payment made by an employer under section 3507 of such Code, shall not be taken into account as income or receipts for purposes of determining the eligibility of such individual (or any other individual) for benefits or assistance, or the amount or extent of benefits or assistance, under any Federal program or under any state or local program financed in whole or in part with Federal funds.

(b) REPEAL OF SECTION 402(d) OF THE SOCIAL SECURITY ACT.—Subsection (d) of section 402 of the Social Security Act is hereby repealed.

(c) EFFECTIVE DATE.—The provisions of this section shall take effect on January 1, 1986.

SUMMARY OF THE 1985 BILL

CURRENT LAW

Eligible taxpayers are those with earnings below $11,000 with dependent children at home. The Earned Income Tax Credit (EITC) is computed on 11 percent of the first $5,000 of earned income for a maximum credit of $550. The credit is refundable; i.e., eligible taxpayers receive a check back from the Treasury for the amount that their qualified EITC exceeds federal income tax liability. For families with adjusted gross income (AGI) above $6,500, the EITC phases down until it equals zero at an AGI of $11,000.

BAUCUS PROPOSAL—INCREASE AND INDEX THE EITC

In FY 1986, increase the maximum credit from $550 to $600 by raising the credit to 12 percent of the first $5,000 of earned income.

In FY 1986, phase out the credit at a rate of 13.33 percent for incomes between $8,500 and $13,000.

In FY 1987 and thereafter, index the maximum credit and the phase-out thresholds.

DISREGARD THE EITC IN DETERMINING ELIGIBILTY FOR CERTAIN PROGRAMS

Disregards the amount of the EITC in the determination of eligibility for benefits or assistance under any Federal program or State or local program funded in whole or in part with Federal funds.

HELPING THE POOR

(By Robert J. Samuelson)

It's time to dust off an old idea and give it a new try: progressive taxation. This is the notion that the poor should pay less of their income in taxes than the rich. Startling though it seems, that's not the way it is now. The tax burden for the working poor is about as much as everyone else's. They deserve a break. It may be the only way to end the current political stalemate between liberals and conservatives over poverty.

As things now stand, poverty is slipping from the national agenda, because a problem that seemed manageable in the heyday of the "war on poverty" now seems insoluble. This entrenched pessimism is as foolish as the heady optimism of the 1960s. In our economy, income inequality is inevitable, because workers' earnings reflect their skills, and some workers always will receive low wages. But economic growth and wise government policies still can lift living standards for those at the bottom.

The main obstacle is not the cost (which is modest) but the self-serving rationalizations of both liberals and conservatives that justify doing nothing. Liberals feel virtuous by self-righteously denouncing every welfare cut of the Reagan administration. Conservatives profess their concern for the poor, but argue that overgenerous welfare programs have created self-defeating dependency. Each side enjoys the pleasures of its rhetoric too much to suggest anything new.

I'm not arguing that the current poverty debate is entirely fraudulent. In contrast to the 1960s, we now know how little we know. Consider what is called the feminization of poverty. In 1960, about a quarter of all people living below the government's poverty line were in families headed by a single woman. By 1983, this was nearly half. Why?

Some commentators blame welfare, which made it easier for single women to survive independently. Others say the increase reflects higher divorce rates and the tendency for female-headed families to be poorer.

Sociologist William Julius Wilson of the University of Chicago suggests that, for blacks at least, the reason lies in adult black men's declining job prospects. Between 1950 and 1980, the proportion of black men in the job market (either employed or looking for a job) dropped from four-fifths to two-thirds. So Wilson argues that black women face a shrinking pool of economically attractive potential husbands. But why have black men done so badly? Neither Wilson nor anyone else has a good answer.

But ignorance need not immobilize us. The simplest way to help low-income workers is to cut their taxes. The case is more compelling than ever, as a new study by economist Joseph Pechman of the Brookings Institution shows. Between 1966 and 1985, the tax bite—including all federal, state and local taxes—on the poorest tenth of Americans rose from 16.8 to 21.9 percent. By contrast, the wealthiest Americans pay an average 25.3 percent.

Regardless of the causes of persistent poverty, lower taxes will help. They ought to satisfy liberals by making the working poor a little wealthier. If conservatives are right about welfare's destructive effects, lower taxes will make work more attractive compared with welfare. This should draw people back into the labor market and strengthen family stability. More than anyone else, the poor need to enjoy the full rewards of their labor because those rewards are so meager to start with.

The federal government can't easily offset all the poor's tax burden, nearly half of which is state and local taxes. And, as Pechman shows, no single administration is to blame for the recent increase; mostly, it reflects higher Social Security payroll taxes, which fall heaviest on the poor.

But the federal government could neutralize higher Social Security taxes by liberalizing a provision of the income tax—the earned income tax credit—which effectively rebates some (or all) of the Social Security tax. Doing this wouldn't be difficult if both liberals and conservatives could discard some well-worn prejudices.

Liberals, for example, ought to examine the worthiness of tax provisions that purport to help the poor, but really don't. The simplest test of whether someone is needy in our society is income. You are not needy simply because you are old. Yet our tax system grants special breaks to all the old: a double personal exemption and an exclusion from taxes of almost all Social Security. A typical elderly couple doesn't pay income taxes until their income hits nearly $15,000; the same nonelderly couple starts paying income taxes at about $6,000.

Nor are you necessarily needy if, as a working parent, you have day-care expenses. Yet our tax system provides a special credit for such parents. This discriminates against the very poor, who often can't afford to use day care or to make other arrangements. In 1982, for example, at least half of working mothers with children under five used husbands, relatives or friends for day care. Together, the tax preferences for the elderly and day care will cost the Treasury about $17.5 billion in 1985. The funds would be better used for general cuts for low-income taxpayers.

On the other hand, conservatives ought to favor a more progressive tax system as a way for the poor to advance themselves. Reagan has subtly limited the welfare state's responsibilities to helping those who, through bad luck or low skills, can't make it. Hence, the basic "safety net" programs—Social Security, unemployment insurance, Medicare, Medicaid, food stamps—remain intact. But Reagan is abandoning the idea that the government can help people get ahead. He's gutted many employment and training programs of the 1960s on the grounds that they don't work.

What he is saying is that government can't—and shouldn't—substitute for individual motivation and effort. But if the poor are to help themselves, at least government shouldn't obstruct the way. Low-income workers ought to keep more of what they earn in the market. Yet Reagan's 1981 tax cuts actually discriminated against low-income workers. When the president says he cares about the poor, he sounds piously insincere.

How much would meaningful tax reduction for the poor cost? Probably between $12 billion and $24 billion, or 4 to 8 percent of current federal income tax revenue. Not much. People who like grand gestures won't be impressed. It won't eliminate poverty. At best, it would increase the poor's income 5 to 10 percent. But if you're making $11,000, an extra $700 helps. Skirmishing against poverty is a lot better than today's stalemate.

[From the Washington Post, Apr. 22, 1985]

TAXING THE POOR

(By William Raspberry)

Poor people—those officially defined by the government as living in poverty—should not have to pay federal income taxes. The near-poor should not be burdened with taxes that would pull them down into poverty.

The two propositions seem so obvious that most Americans probably think they are already a part of the tax code.

They aren't. Not only are the officially poor taxed, and many near-poor taxed into poverty: their tax burden has actually grown during the years of the Reagan tax cuts.

Don't feel bad. I didn't know it either until I read the Children's Defense Fund's new report, "The Impact of Federal Taxes on Poor Families." Mary Bourdette and Jim Weill, authors of the report, look at one working mother:

Jane Doe is a single mother with three children. In 1979, her income from her job was $8,000, a little above the federal poverty line. Jane, like most other low-income workers, had no unusual tax deductions or tax "breaks," so her federal income and Social Security taxes were $481, leaving her family with $7,519 to live on after federal taxes, still a tiny bit above the official poverty line in 1979 ($7,412 for a family of four).

And what has happened to the struggling Jane Doe since then? Inflation has increased the cost of living by 43.2 percent, but luckily, her income also has increased by 43.2 percent, so that her 1984 income was $11,456.

But she didn't break even. Besides losing some of her government-paid benefits to the Reagan budget cuts, she also saw her federal taxes increase by nearly 300 percent—from $481 to $1,384—so that instead of being a little bit above the poverty line after taxes, she would up below the poverty level, which by then was $10,613.

What happened to Jane Doe's and millions of other low-income families was probably more the result of oversight and neglect than of conscious design. To begin with, there was the increase in the amount of earnings on which Social Security taxes are paid, to the point where even poverty-level wages required the payment of $743 in Social Security taxes in 1984. In addition, inflation drove up the wages on which the poor are taxed without any compensating adjustments. The personal exemption, for instance, remains at $1,000 per person, and the standard deduction—crucial to taxpayers who (like nearly all poor families) do not itemize their deductions—also went unchanged.

The result is that even those poor families whose wages kept abreast of inflation lost enough spending power to more than offset the effect of a cut in tax rates, in effect shifting the tax burden away from the well-off (who did benefit from the tax cuts) to the poor. Between 1980 and 1982, the study notes, the "aggregate federal taxes paid by poor families increased by 58 percent . . . while taxes on the well-to-do and on profitable corporations declined dramatically."

The study points out what too many of us have not understood: that there is no automatic link between the poverty line and the tax tables. It is true that in the late 1970s, poor people paid little or no income tax. But this was because, between 1975 and 1980, the threshold at which a family became liable for taxes was higher than the poverty line. By 1981, the tax threshold had dropped below the poverty line, and the gap has been growing since then.

The study examines the current tax reform proposals and makes some sensible recommendations for reversing the damage the poor have suffered in recent years. But its chief value is in its clear statement of the increased tax burden on the poor in the past four years.

Even in these cynical times, when everybody is fighting to save his favorite tax break, most Americans would acknowledge that it makes no sense—politically, morally or in terms of elemental fairness—to impose an income tax on those we define officially as already in poverty.

By Mr. MELCHER (for himself and Mr. BURDICK):

S. 1119. A bill to revise and extend programs to provide price support and production incentives for farmers to assure an abundance of food and fiber; to the Committee on Agriculture, Nutrition, and Forestry.

AGRICULTURE AND FOOD ASSISTANCE ACT OF 1985

Mr. MELCHER. Mr. President, I am today introducing the Agriculture and Food Assistance Act of 1985. I ask unanimous consent that the text of the bill and a summary of the provisions be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1119

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Agricultural and Food Assistance Act of 1985".

TITLE I—FOOD AID AND TRADE

Subtitle A—Food Aid

GENERAL POLICY

SEC. 101. Congress finds that—

(1) the United States is producing an abundance of agricultural commodities and is holding large food surpluses at substantial cost, and American farmers are facing an unprecedented need to expand their export markets;

(2) food shortages, hunger, and malnutrition continue to afflict hundreds of millions of people in the developing countries; and

(3) additional steps should be taken to use the agricultural abundance produced by American farmers to relieve hunger and promote long-term food security and economic development in the developing countries in accordance with section 102 of the Foreign Assistance Act of 1961 and to promote United States agricultural trade interests.

SEC. 102. Section 416(c) of the Agricultural Act of 1949 (7 U.S.C. 1431(c)) is amended—

(1) In the first sentence, by striking out "two-year pilot"; and

(2) By striking the last two sentences and inserting in lieu thereof a new sentence as follows: "The Secretary shall submit an annual report to Congress, beginning January 1, 1986, on the operations of the program."

EXPANDING SECTION 416 AUTHORITY

SEC. 103. (a) Section 416(b) of the Agriculture Act of 1949 (7 U.S.C. 1431(b)) is amended to read as follows:

"(b) USE OF SURPLUS COMMODITIES TO CARRY OUT TITLE II OF PUBLIC LAW 480.—

"(1) GENERAL AUTHORITY.—The Secretary may furnish eligible commodities for carrying out title II of the Agricultural Trade Development and Assistance Act of 1954, as approved by the Secretary and for such purposes as are approved by the Secretary.

"(2) DEFINITION OF ELIGIBLE COMMODITIES.—As used in this subsection, the term 'eligible commodities' means—

"(A) dairy products, grains, and oilseeds acquired by the Commodity Credit Corporation through price support operations, which the Secretary determines meet the criteria specified in subsection (a) of this section; and

"(B) such other agricultural commodities as may be acquired by the Commodity Credit Corporation and made available for distribution under this subsection.

"(3) LIMITATIONS.—

"(A) SAFEGUARDING AVAILABILITY OF COMMODITIES FOR DOMESTIC FEEDING PROGRAMS.—Commodities may not be made available for disposition under this subsection in amounts that will, in any way, reduce the amounts of commodities that traditionally are made available through donations to domestic feeding programs or agencies.

"(B) AVAILABILITY OF ADEQUATE STORAGE FACILITIES, NONINTERFERENCE WITH LOCAL PRODUCTION AND MARKETING, AND SAFEGUARDING OF USUAL MARKETING.—The requirements of section 401(b) and section 103(c) of the Agricultural Trade Development and Assistance Act of 1954 shall apply with respect to commodities furnished under this subsection.

"(4) PROVISION OF COMMODITIES IN INSTALLMENTS.—Agreements may be entered into under this subsection to provide commodities installments over an extended period of time.

"(5) USE OF EXPEDITED PROCEDURES.—To the maximum extent practicable, expedited procedures shall be used in implementing the provisions of this subsection.

"(6) PROCESSING AND TRANSPORTATION EXPENSES.—

"(A) USE OF PUBLIC LAW 480 AUTHORITY.—The provisions of section 203 of the Agricultural Trade Development and Assistance Act of 1954 shall apply to commodities furnished under this subsection.

"(B) REQUIREMENT TO USE COMMODITIES TO PAY CERTAIN COSTS.—The Commodity Credit Corporation shall use eligible commodities to pay all processing and domestic handling costs incurred pursuant to subparagraph (A), except to the extent that the Secretary determines that this form of payment is not practicable.

"(7) COST AND EXPENSES.—The cost of commodities furnished under this subsection, and expenses incurred under section 203 of the Agricultural Trade Development and Assistance Act of 1954 in connection with those commodities, shall be in addition to the level of assistance programmed under that Act and shall not be considered expenditures for international affairs and finance.

"(8) SALE OR BARTER OF COMMODITIES.—Eligible commodities furnished under this subsection may be sold or bartered solely as follows:

"(A) Sales and barter, approved by the Secretary, which are incidental to the donation of the commodities.

"(B) Sales and barter, approved by the Secretary, the proceeds of which are used to finance the distribution, handling, and processing costs of the donated commodities in the importing country or other activities in the importing country that are consistent with providing food assistance to needy people.

"(C) Sales and barter, approved by the Secretary, of commodities and products donated to intergovernmental organizations, insofar as they are consistent with normal programming procedures in the distribution of commodities by those organizations.

"(D) Sales and barter of commodities used for payments pursuant to paragraph (6)(B) of this subsection.

"(E)(i) If requested by a nonprofit voluntary agency, an agreement with that agency for commodities made available under this subsection may provide for the use by that agency of foreign currency proceeds, generated from the sale of commodities made available under the agreement, for the purposes specified in clause (iii).

"(ii) Such agreements shall provide, in the aggregate for each fiscal year, for the use of foreign currency proceeds under this subparagraph in an amount which is not less than 10 percent, and which is not more than 20 percent, of the program level under this subsection for that fiscal year.

"(iii) Foreign currency proceeds under this subparagraph shall be used by the nonprofit voluntary agency for activities carried out by the agency which will enhance the effectiveness of the food assistance program being carried out pursuant to the agreement. Such activities may include health integration projects, food for work programs, program management, and outreach projects to provide food to the most nutritionally needy, if such activities are directly related to the nonprofit voluntary agency's food assistance program.

"(iv) All foreign currency proceeds generated pursuant to an agreement under this subparagraph shall be expended within six months after the end of the period of the agreement.

"(9) REQUIREMENT FOR MINIMUM ANNUAL DISTRIBUTION THROUGH NONPROFIT VOLUNTARY AGENCIES AND THE WORLD FOOD PROGRAM.—

"(A) GENERAL REQUIREMENT.—In carrying out this subsection each fiscal year, the secretary shall furnish to nonprofit voluntary agencies and the World Food Program for distribution in developing countries not less than 10 percent of the amount of each eligible commodity, as defined by subparagraph (A) of paragraph (2), that is available for distribution under this subsection in that fiscal year.

"(B) WAIVER.—The Secretary may waive the requirement of subparagraph (A) for a fiscal year to the extent that the Secretary determines and reports to Congress that—

"(i) there have not been sufficient requests made by nonprofit voluntary agencies and the World Food Program for commodities under this subsection for uses which would effectively carry out the purposes of title II of the Agricultural Trade Development and Assistance act of 1954, or

"(ii) the limitation in paragraph (3) of this subsection prevents the use of commodities pursuant to this paragraph.".

(b) EFFECTIVE DATE.—Paragraph (9)(A) of section 416(b) of the Agricultural Trade and Development Assistance Act of 1954, as added by subsection (a) of this section, shall take effect on October 1, 1985.

SALES AND USES FOR FOREIGN CURRENCY

SEC. 104. Section 101 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1701) is amended to read as follows:

"SEC. 101. (a) In order to carry out the policies and accomplish the objectives set forth in section 2 of this Act, the President is authorized to negotiate and carryout agreements with friendly countries to provide for the sale of agricultural commodities—

"(1) for dollars on credit terms;

"(2) in the case of developing countries with a per capita gross national product of $900 or less, for foreign currencies on credit terms; or

"(3) to the extent that sales for dollars under the terms applicable to such sales are not possible, for foreign currencies on credit terms and on terms which permit conversion of dollars at the exchange rate applicable to the sales agreement.

"(b) Commodities sold pursuant to paragraph (2) of subsection (a) shall be addition-

al to the volume of commodities normally programmed under this title.

"(c) In fiscal year 1986 not less than 500,000 tons of commodities shall be sold pursuant to paragraph (2) of subsection (a), unless the President determines that such volume of commodities cannot be used under that authority to carry out the purposes of this title. The President shall propose to Congress not later than February 15, 1986, appropriate volume levels for fiscal years 1987 through 1989 for sales pursuant to paragraph (2) of subsection (a).".

"(b) Section 104 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1704) is amended by adding the following new section:

"SEC. 104A. (a) Notwithstanding any other provision of law, foreign currencies received pursuant to paragraph (2) of section 101 shall be used only for one or more of the following purposes:

"(1) For assistance programs of nonprofit voluntary agencies and cooperatives, under such terms and conditions as the President may determine.

"(2) For the support of self-help measures agreed to by the recipient country in accordance with section 109.

"(3) For the establishment of facilities for aiding in the utilization and distribution of, or otherwise increasing the consumption of and markets for, United States agricultural commodities and products thereof.

"(4) For financing, in whole or in part under such terms and conditions as the President may determine, agricultural and other development projects in the recipient country, including development projects executed by private trade entities and projects to stimulate small-scale private enterprise and private voluntary organizations in the recipient country.

"(b) Foreign currencies received pursuant to paragraph (2) of section 101 shall be used in accordance with this section within one year after they are received by the United States.

"(c) References in any provision of law to section 104 of this Act shall be deemed to include reference to this section, except to the extent that such reference would be inconsistent with subsection (a) of this section.".

(c)(1) Section 103 of The Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1703) is amended—

(A) in subsection (k) by striking out "upon" and all that follows through "into dollars" and inserting in lieu thereof "that not less than 5 percent of the purchase price of any agricultural commodities sold under this title be payable upon delivery";

(B) in subsection (m) by inserting "in the case of foreign currencies received under paragraph (3) of section 101," immediately after "(m)";

(C) in subsection (p) by inserting "pursuant to paragraph (3) of section 101" immediately after "agreement"; and

(D) in subsection (q) by inserting "pursuant to paragraph (3) of section 101" immediately after "agreement".

(2) Section 106(a)(2) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1706(a)(2)) is amended by striking out "and on terms which permit conversion to dollars" and inserting in lieu thereof "pursuant to paragraph (2) or (3) of section 101".

MINIMUM AND SUBMINIMUM DISTRIBUTION REQUIREMENTS

SEC. 105. (a) Section 201(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721(b)) is amended by striking out paragraph (1) and all that follows through "*Provided,* That" and inserting in lieu thereof the following:

"(1) for fiscal year 1986 shall be 1,900,000 metric tons, of which not less than 1,300,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies and the World Food Program;

"(2) for fiscal year 1987 shall be 2,100,000 metric tons, of which not less than 1,470,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies and the World Food Program;

"(3) for fiscal year 1988 shall be 2,300,000 metric tons, of which not less than 1,610,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies and the World Food Program; and

"(4) for fiscal year 1988 and each fiscal year thereafter shall be 2,500,000 metric tons, of which not less than 1,750,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies and the World Food Program; except that"

(b) The amendment made by subsection (a) shall take effect on October 1, 1985.

TITLE II AUTHORIZED PROGRAM LEVEL

SEC. 106. Section 204 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1724) is amended in the first sentence—

(1) by striking out "$1,000,000,000" and inserting in lieu thereof "$1,200,000,000";

(2) by striking out "calendar" both places it appears and inserting in lieu thereof "fiscal"; and

(3) by inserting immediately before the period at the end of the sentence ", unless the President determines that additional funding for programs under this title is necessary to meet emergency food needs".

FOOD ASSISTANCE PROGRAMS OF VOLUNTARY AGENCIES

SEC. 107. (a) Title II of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721-1726) is amended by adding at the end thereof as follows:

"SEC. 207. (a)(1) If requested by a nonprofit voluntary agency, an agreement with that agency for nonemergency assistance under this title may provide for the use by that agency of foreign currency proceeds, generated from the sale of commodities made available under the agreement, for the purposes specified in subsection (c).

"(2) Such agreements shall provide, in the aggregate for each fiscal year, for the use of foreign currency proceeds under this subsection in an amount which is not less than 10 percent, and which is not more than 20 percent, of the appropriated nonemergency program level under this subtitle for that fiscal year.

"(3) All foreign currency proceeds generated pursuant to an agreement under this subsection shall be expended within six months after the end of the period of the agreement.

"(4) The provisions of section 103(c) of this Act shall apply to sales of agricultural commodities to generate foreign currencies under this subsection. The Secretary of agriculture, in consultation with the Administrator of the Agency for International Development, may waive this requirement.

"(b) If requested by the nonprofit voluntary agency, an agreement with that agency under this title may provide that up to 5 percent of the dollar amount of the agreement will be provided to the agency in monetary form (rather than in agricultural commodities) for use by the nonprofit voluntary agency for the purposes specified in subsection (c) if the nonprofit voluntary agency provides at least an equal amount of dollars for those purposes.

"(c)(1) Foreign currency proceeds under subsection (a) and dollars under subsection (b) of this section shall be used by the nonprofit voluntary agency for activities carried out by the agency which will enhance the effectiveness of the food assistance program being carried out pursuant to the agreement. Such activities may include health integration projects, food for work programs, program management, and outreach projects to provide food to the most nutritionally needy, if such activities are directly related to the nonprofit voluntary agency's food assistance program.

"(2) Foreign currency proceeds under subsection (a) and dollars under subsection (b) may be used to immunize children participating in nutrition programs against the most common immunizable disease. It shall be the target for the organizations and agencies involved to provide for the immunization by fiscal year 1987 of at least three million more children annually than received immunizations under such programs in fiscal year 1985. In each of the reports to Congress required under section 408(a) of this Act, the President shall include a report of the number of children so immunized.

"(d) The President shall invite representatives of nonprofit voluntary agencies participating in programs under this Act and other concerned nonprofit voluntary agencies, and shall designate appropriate executive branch officials, to participate in a task force on food assistance to the most nutritionally needy. The task force shall report to Congress by February 15, 1986, on further steps which could be taken to provide food under this Act to the most nutritionally needy people in recipient countries.

"SEC. 208. (a) In agreements with a nonprofit voluntary agency for nonemergency assistance under this title, the President is encouraged to approve multiyear commitments to make agricultural commodities available for distribution by the nonprofit voluntary agency, if the agency requests such a multiyear commitment. Such commitments shall be subject to the availability each fiscal year of the necessary appropriations and agricultural commodities.

"(b) Subsection (a) does not apply to an agreement which the President determines should be limited to a single year because of the past performance of the nonprofit voluntary agency or because the agreement involves a new program of assistance.

"(c) In carrying out a multiyear agreement pursuant to this section, a nonprofit voluntary agency shall not be required to obtain annual approval from the United States Government in order to continue its assistance program pursuant to this agreement, unless the President determines that exceptional and unforeseen circumstances have occurred which require such approval.

"SEC. 209. (a) Agreements with nonprofit voluntary agencies under this title may authorize those agencies to establish local food reserves.

"(b) If authorized to establish a local food reserve pursuant to subsection (a), a nonprofit voluntary agency may deposit in that reserve agricultural commodities made available under this title—

"(1) for later use in providing immediate food assistance in case of a famine or other food shortage emergency; or

"(2) if the nonprofit voluntary agency determines, in its discretion, that the immediate use of the agricultural commodities for food assistance purposes would be a disincentive to local agricultural production and that the commodities should be held for use at a later time.

"SEC. 210. Not less than 65 percent of the agricultural commodities made available each fiscal year under this title for nonemergency programs shall be fortified or processed food.

"Sec. 211. A nonprofit voluntary agency requesting a nonemergency food assistance agreement under this title shall include in that request (1) a statement of what steps will be taken to avoid disruption of cultural food consumption habits which may occur as a result of the food assistance program, and (2) a statement of the intended uses of any foreign currency proceeds which would be generated with the commodities provided under the agreement.".

(b) The sections added to the Agricultural Trade Development and Assistance Act of 1954 by this section shall apply with respect to agreements entered into after September 30, 1985, except that section 211 of that Act applies with respect to agreements entered into after December 31, 1985.

EXTENDING FOOD SECURITY WHEAT RESERVE

SEC. 108. Section 302(b) of the Food Security Wheat Reserve Act of 1980 is amended by striking out "1985" both places it appears and inserting in lieu thereof "1989".

Subtitle B—Agricultural Exports

EXPANSION OF MARKETS FOR UNITED STATES AGRICULTURAL COMMODITIES AND PRODUCTS

SEC. 109. (a) Notwithstanding any other provision of law, the Secretary of Agriculture shall formulate and carry out a program under which agricultural commodities, including but not limited to wheat, feed grains, upland cotton, rice, and soybeans, and products thereof acquired by the Commodity Credit Corporation, are provided to United States exporters and users and foreign purchasers at no cost to encourage the development, maintenance, and expansion of export markets for United States agricultural commodities and products thereof.

(b) In carrying out the program authorized by this section, the Secretary of Agriculture shall—

(1) take such action as may be necessary to ensure that the program provides equal treatment to domestic and foreign purchasers and users of United States agricultural commodities and products thereof in any case in which the importation of a manufactured product made, in whole or in part, from a commodity or product thereof made available for export under this section would place domestic users of the commodity or product thereof at a competitive disadvantage;

(2) to the extent that agricultural commodities and products thereof are to be provided to foreign purchasers during any fiscal year, consider for participation all interested foreign purchasers, giving priority to those who have traditionally purchased United States agricultural commodities and products thereof and who continue to purchase such commodities and products thereof on an annual basis in quantities greater than the level of purchases in a previous representative period;

(3) ensure, insofar as possible, that any use of agricultural commodities or products thereof made available under this section be made in such manner as to encourage increased use and avoid displacing usual marketings of United States agricultural commodities and products thereof; and

(4) take reasonable precautions to prevent the resale or transshipment to other countries, or use for other than domestic use in the importing country, of agricultural commodities or products thereof made available under this section.

(c) If a foreign purchaser sells in the importing country agricultural commodities or products thereof received from the Secretary of Agriculture, under the authority of this section, and uses the receipts from the sale of such commodities or products thereof for the construction or rehabilitation of facilities in the importing country to improve the handling, marketing, processing, storage, or distribution of United States agricultural commodities or products thereof in such importing country, the purchaser shall be eligible to receive supplemental distributions of agricultural commodities or products thereof under this section. Supplemental distribution under this section shall be made with such commodities or products thereof, at intervals, and in amounts as the Secretary determines appropriate taking into account the extent to which facility improvements have been made, the capability of the importing country to distribute or otherwise use additional commodities or products thereof, and other factors as determined appropriate by the Secretary that are consistent with the purposes of this section.

(d) The Secretary of Agriculture shall carry out the program authorized by this section through the Commodity Credit Corporation.

(e) The Secretary of Agriculture may issue regulations as the Secretary deems necessary to carry out this section.

(f) The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary of Agriculture or the Commodity Credit Corporation under any other provision of law.

INTERMEDIATE EXPORT CREDIT

SEC. 110. Section 4(b) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)) is amended—

(1) by adding at the end of paragraph (1) the following new sentence: "In addition, the Corporation may guarantee the repayment of loans made to finance such sales.";

(2) by inserting in paragraph (2) ", and no loan may be guaranteed," after "financed";

(3) in paragraph (3)—

(A) by inserting "or guarantees" after "financing";

(B) by striking out "and" at the end of subparagraph (C);

(C) by striking out "credit" in subparagraph (D);

(D) by striking out the period at the end of subparagraph (D) and inserting in lieu thereof "; and"; and

(E) by adding at the end thereof a new subparagraph as follows:

"(E) to finance the importation of agricultural commodities by developing nations for use in meeting their food needs.";

(4) by striking out paragraph (4) and redesignating paragraphs (5) through (9) as paragraphs (4) through (8), respectively;

(5) in paragraph (4), as redesignated—

(A) by inserting "(A)" after the paragraph designation;

(B) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively;

(C) by amending clause (i), as redesignated, to read as follows:

"(i) Repayment shall be in dollars with interest at a rate determined by the Secretary."; and

(D) by adding at the end thereof the following new subparagraph:

"(B) Contracts of guarantee under this subsection shall contain such terms and conditions as the Commodity Credit Corporation shall determine.";

(6) by inserting in paragraph (5), as redesignated, "or guarantees" after "financing";

(7) in paragraph (6), as redesignated—

(A) by inserting "or guarantee" after "finance" each place it appears; and

(B) by inserting in subparagraph (B) "or guarantee" after "financing";

(8) by inserting in paragraph (7), as redesignated, "or guarantee" after "financed"; and

(9) by inserting at the end thereof a new paragraph as follows:

"(9) For purposes of financing or guaranteeing export sales under this subsection, the Commodity Credit Corporation shall make available, to the extent practicable, no less than $500,000,000 for each of the fiscal years October 1, 1986 through October 1, 1989.

AGRICULTURAL EXPORT CREDIT REVOLVING FUND

SEC. 111. Section 4(d) of the Food for Peace Act of 1966 is amended by striking out "1985" both places it appears and inserting in lieu thereof "1989".

SPECIAL QUALIFYING PROVISION FOR INTERMEDIATE EXPORT CREDIT

SEC. 112. Section 4 of the Food for Peace Act of 1966 (7 U.S.C. 1707a) is amended by adding at the end thereof a new subsection as follows:

"(e)(1) If a country does not meet the financial qualifications for export credit or credit guarantees provided by the Commodity Credit Corporation under this section, the Secretary of Agriculture may provide to such country commodities and products thereof acquired by the Corporation through price support operations to the extent necessary to reduce the cost to such country of purchasing United States agricultural commodities and to allow such country to meet such qualifications.

"(2) The Secretary shall review and adjust annually the amount of commodities provided to a country under paragraph (1) in order to encourage the country to place greater reliance on increased use of commercial trade to meet the qualifications referred to in paragraph (1).".

SHORT TERM EXPORT CREDIT AND CREDIT GUARANTEES

SEC. 113. Effective for each of the fiscal years October 1, 1986 through October 1, 1989, $500,000,000 of Commodity Credit Corporation funds shall be used by the Commodity Credit Corporation for direct export credit under its blended credit export sales program.

(b) Effective for each of the fiscal years October 1, 1986 through October 1, 1989, not less than $5,000,000,000 in credit guarantees shall be made available by the Commodity Credit Corporation under its export credit guarantee program for short-term credit extended to finance the export sales of United States agricultural commodities and products.

EXTENSION OF PUBLIC LAW 480

SEC. 114. Section 409 of the Agricultural Trade Development and Assistance Act of 1954 is amended—

(1) by striking out "1985" in the first sentence an inserting in lieu thereof "1989"; and

(2) by striking out "Agriculture and Food Drug Act of 1981" in the second sentence and inserting in lieu thereof "Agricultural and Food Assistance Act of 1985".

EXPANSION OF RECIPROCAL TRADE AGREEMENTS

SEC. 115. (a) The table in paragraph (c)(i) of headnote 3 of subpart A of part 10 of schedule 1 of the Tariff Schedules of the United States is amended by—

(1) inserting "18.5" in the item relating to the Philippines; and

(2) inserting "3.0" in the item relating to Costa Rica.

(b) The United States Trade Representative shall proportionately reduce the percentage of the total base quota amount allocated under headnote 3 of subpart A of part 10 of schedule 1 of the Tariff Schedules of the United States to all countries other than the Philippines and Costa Rica to reflect the increased allocation to the Philippines and Costa Rica resulting from the amendment made by subsection (a) of this section. Notice of the amount of the reductions made under the preceding sentence with respect to each country shall be published by the United States Trade Representative in the Federal Register by no later than November 1, 1985.

(c) Paragraph (c) of headnote 3 of subpart A of part 10 of schedule 1 of the Tariff Schedules of the United States is amended by adding at the end thereof a new subparagraph as follows:

"(iii)(A) If the excess of—

"(1) the aggregate value of United States exports to the Philippines during any calendar year beginning after 1985, over

"(2) the aggregate value of United States exports to the Philippines during calendar year 1985, does not equal or exceed the value of 6.5 percent of the aggregate amount of sugars sirups, and molasses described in items 155.20 and 155.30 that were products of the Philippines and were entered during such calendar year beginning after 1985, then, notwithstanding subparagraph (i), the percentage of the total base quota amount allocated to the Philippines for the second quarter of the calendar year succeeding such calendar year beginning after 1985, and for all subsequent calendar quarters, shall be 13.5 percent and the United States Trade Representative shall proportionately increase the percentage of the total base quota amount allocated to all other countries.

"(B) The United States Trade Representative shall make a determination of whether subdivision (A) applies by March 1 of 1987 and of each calendar year thereafter, unless a previous determination was affirmative. The United States Trade Representative shall publish in the Federal Register notice of such determination and of any reallocation of the total base quota amount required under subdivision (A).".

(d) The amendments made by this section and the reductions required to be made under subsection (a), shall apply to articles entered, or withdrawn from warehouse, for consumption after November 30, 1985.

AGRICULTURAL TRADE AGREEMENTS

SEC. 116. It is the sense of Congress that the President should undertake negotiations to develop long-term bilateral and multilateral agreements to promote the free trade of agricultural commodities and products between the United States and other countries.

Subtitle C—Special Assistant for Food Aid and Trade

SEC. 117. The President shall designate a Special Assistant to the President for Food Aid and Trade who shall serve in the White House Office of the Executive Office of the President and who shall perform the following duties:

(1) assisting and advising the President so as to improve and enhance food assistance programs in the United States and foreign countries;

(2) coordinating and streamlining the manner in which the food assistance programs are carried out by the U.S. Department of Agriculture and the Agency for International Development, so as to improve their overall effectiveness;

(3) making recommendations to the President on ways to increase and encourage use and consumption of U.S. agricultural commodities through food assistance;

(4) soliciting information and advice from private and governmental sources and recommend a plan to the President and Congress on steps that should be taken to promote the export of United States agricultural commodities and to provide for expansion of export markets for United States agricultural commodities and products;

(5) developing and recommending to the President national agricultural policies to foster and promote the U.S. agricultural industry and to maintain and increase the strength of this vitally important sector of our economy;

(6) appraise the various programs and activities of the Federal Government, as they affect the U.S. agricultural industry, for the purpose of determining the extent to which such programs and activities are contributing, and to the extent to which they are not contributing to the industry, and make recommendations to the President and Congress with respect to their effectiveness.

TITLE II—NATURAL RESOURCES CONSERVATION

Subtitle A—Soil Conservation Service

FINDINGS

SEC. 201. Congress finds that—

(1) the Nation's well-being is dependent on efficient and productive agriculture, which requires a fertile and well-cared-for soil resource base and a plentiful water supply;

(2) the Soil Conservation service helps individuals, groups, organizations, cities and towns, and county and State governments reduce the costly waste of land and waste resources and use these national assets;

(3) the Soil Conservation Service since its establishment in 1935 within the United States Department of Agriculture has diligently carried out its missions of soil and water conservation, natural resource surveys, and community resource protection and development;

(4) the Soil Conservation Service provides vitally needed technical and financial assistance to achieve its conservation objectives on non-Federal land, an is assisted in this work through its partnership with over three thousand conservation districts covered more than two billion acres in all fifty States, Puerto Rico, and the Virgin Islands;

(5) it is estimated that 67 per centum of all cropland acres in the United State is in need of conservation treatment, and the annual rate of erosion on the four hundred and thirteen million acres of cropland exceeds the maximum rate of loss with which indefinite and prosperous productivity can be maintained, requiring the continued efforts of the Soil Conservation Service in combating this serious national problem; and

(6) our water resources throughout the United States have moved to the forefront of national concern requiring the continued creation of watershed projects, techniques for the improvement of water quality including the reduction of sediments, organic wastes, pesticides, an salts from polluting our waterways, and the establishment of improved irrigation systems and management as planned and designed by the Soil Conservation Service.

SEC. 202. It is the sense of Congress that the vital work of the Soil Conservation Service be vigorously pursued to address the serious soil and water problems still confronting this Nation, and that full support and funding for the Soil Conservation Service and the critical programs that it administers be continued.

Subtitle B—Highly Erodible and Erosion-Prone Land

SEC. 203. This subtitle may be cited as the "Soil Conservation Act of 1985".

DEFINITIONS

SEC. 204. For the purpose of this subtitle—

(a) The term "agricultural commodity" means any agricultural product planted and produced by annual tilling of the soil, including one-trip planters.

(b) The term "highly erodible land" means land classified by the Soil Conservation Service of the Department of Agriculture as class IVe, VIe, VII, or VIII land under the land capability classification systems in effect on the date of the enactment of this Act. The land capability class for a field shall be that determined by the Secretary to be the predominant class under regulations issued by the Secretary.

(c) The term "erosion-prone cropland" means land that is classified by the Soil Conservation Service of the Department of Agriculture as class IIIe, IVe, VI, VII, or VIII land under the land capability classification system in effect on the date of enactment of this subtitle and that has been devoted to the production of an agricultural commodity in three out of the past five years, or any other land in a State that the Soil Conservation Service determines has an erosion rate, in the production of an agricultural commodity, that is equal to or greater than the average erosion rate in the same State on any of the foregoing classes of land; and

(d) The term "Secretary" means the Secretary of Agriculture.

AGRICULTURAL PRODUCTION ON HIGHLY ERODIBLE LAND

PROGRAM INELIGIBILITY FOR PRODUCTION ON HIGHLY ERODIBLE LAND

SEC. 205. Except as provided in section 206 of this subtitle and notwithstanding any other provision of law, following the date of enactment of this subtitle, any person who produces in any crop year an agricultural commodity on highly erodible land shall be ineligible, as to any of that commodity produced during that crop year by such person, for—

(1) any type of price support, income assistance, or production adjustment payments for such commodity made available under the Agricultural Act of 1949, the Commodity Credit Corporation Charter Act, or any other Act;

(2) a loan under section 4(h) of the Commodity Credit Corporation Charter Act for the construction or purchase of a facility for the storage of such commodity;

(3) crop insurance for such commodity under the Federal Crop Insurance Act;

(4) a disaster payment for such commodity under the Agricultural Act of 1949; or

(5) a new loan made, insured, or guaranteed under the consolidated Farm and Rural Development Act or any other provision of law administered by the Farmers Home Administration, if the Secretary determines that such loan will be used for a purpose that will contribute to excessive erosion of highly erodible land.

EXEMPTIONS

SEC. 206. Section 205 of this subtitle shall not apply to any of the following—

(a) any land that was cultivated by a person to produce any of the 1981 through 1985 crops of agricultural commodities;

(b) any crop of an agricultural commodity planted before the date of enactment of this subtitle;

(c) any crop of an agricultural commodity planted by a person during any crop year beginning before the date of enactment of this subtitle;

(d) any loan described in section 205 made before the date of the enactment of this subtitle.

(e) any crop of an agricultural commodity produced using a conservation system that has been approved by a soil conservation district and this is based on technical standards set forth in the Soil Conservation Service technical guide for that soil conservation district. In areas where no soil conservation district exists, the Secretary shall determine the adequacy of the conservation system to be used in the production of any agricultural commodity on highly erodible land.

COMPLETION OF SOIL SURVEYS

SEC. 207. The Secretary shall, as soon as practicable, complete soil surveys on those private lands that do not have a soil survey suitable for use in determining the land capability class for purposes of this subtitle and, insofar as possible, concentrate on those localities where significant amounts of highly erodible land are being converted to the production of agricultural commodities.

CONSERVATION RESERVE PROGRAM

SEC. 208. (a) Notwithstanding any other provision of law, the Secretary shall formulate and carry out a program on up to 30 million acres of land to assist owners and operators of erosion-prone cropland in conserving and improving the soil and water resources of their farms or ranches. In any such program, the Secretary shall include other than erosion-prone cropland upon a demonstration by the conservation district that a serious soil erosion problem exists on such land, or in an area not within a conservation district if the Secretary determines that such a serious soil erosion problem exists.

(b) In carrying out the program under subsection (a) of this section, the Secretary shall enter into contracts during the period beginning October 1, 1985, and ending September 30, 1995, of not less than seven nor more than fifteen years for the purpose of carrying out this section. In such contract, the owner or operator shall agree to—

(1) effectuate during the agreement period a plan approved by a conservation district (or in an area not within a conservation district a plan approved by the Secretary) for converting erosion-prone cropland normally devoted to the production of an agricultural commodity on a farm or ranch to a less intensive use, such as pasture, permanent grass or legumes, or trees substantially in accordance with the schedule outlined therein, except to the extent that any requirements thereof are waived or modified by the Secretary;

(2) forfeit all rights to further payments under the contract and refund to the United States all payments, with interest, received thereunder upon the violation of the contract at any stage during the time the owner or operator has control of the land if the Secretary, after considering the recommendations of the soil conservation district and the Chief of the Soil Conservation Service, determines that such violation is of such a nature as to warrant termination of the contract, or make refunds or accept such payment adjustment as the Secretary may deem appropriate if the Secretary determines that the violation by the owner or operator does not warrant termination of the contract;

(3) upon transfer of the owner or operator's right and interest in the farm or ranch during the contract period, forfeit all rights to further payments under the contract and refund to the United States all payments received thereunder, or accept such payment adjustments or make such refunds as the Secretary may deem appropriate and consistent with the objectives of this section, unless the transferee of any such land agrees with the Secretary to assume all obligations under the contract;

(4) not conduct any harvesting or grazing or otherwise make commerical use of the forage or trees on land that is subject to the contract unless it is expressly permitted in the contract, nor adopt any practice specified in the contract by the Secretary as a practice that would tend to defeat the purposes of the contract; and

(5) such additional provisions as the Secretary determines are desirable and are included in the contract to effectuate the purposes of the program or to facilitate the practical administration thereof.

(c) The plan, as described in subsection (b)(1) of this section for converting erosion-prone cropland normally devoted to the production of agricultural commodities on a farm or ranch to a less intensive use, shall set forth the conservation measures and practices to be installed by the owner or operator during the agreement period and the commercial use, if any, to be made of the land during such period and may provide for the permanent retirement of any existing cropland base and allotment history for such land.

(d) In return for an agreement by the owner and operator under subsection (b) of this section, the Secretary shall agree to (1) provide technical assistance, (2) share the cost of carrying out the conservation measures and practices set forth in the contract for which the Secretary determines that cost sharing is appropriate and in the public interest, and (3) pay an annual land rental fee, for a period of years not in excess of the duration of the contract, necessary for converting erosion-prone cropland normally devoted to the production of an agricultural commodity on a farm or ranch to a less intensive use and necessary for obtaining the retirement of any cropland base and allotment history that the owner or operator agrees to retire permanently.

(e) The Secretary shall base the amount of cost sharing for conservation measures and practices under subsection (d) of this section on that part of the total cost thereof that the Secretary determines is necessary and appropriate to effectuate the installation and maintenance of the conservation plantings and practices for the normally expected life of such a planting or practice.

(f) In determining the amount of land rental under subsection (d) of this section to be paid for converting erosion-prone cropland to less intensive uses, the Secretary may consider, among other things, the amount necessary to encourage owners or operators of erosion-prone cropland to participate in the program. The total amount payable to owners or operators in the form of annual payments under contracts entered into in accordance with this section may be determined through the submission of bids in such a manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary may take into consideration the extent of erosion on the land that is the subject of the contract and the productivity of the acreage diverted.

(g) Notwithstanding any other provision of law, payments under this section shall be made in cash or in commodities in such amount and on such time schedule as agreed upon and specified in the contract. Such payments may be made in advance of determination of performance.

(h) If a producer who is entitled to any payment or compensation under this section dies, becomes incompetent, or disappears before receiving such payment or compensation, or is succeeded by another who renders or completes the required performance, the Secretary shall make or provide such payment or compensation, in accordance with regulations and without regard to any other provisions of law, in such manner as the Secretary determines to be fair and reasonable in light of all the circumstances.

(i) No agreement shall be entered into under this section concerning land with respect to which the ownership has changed in the three-year period preceding the first year of the agreement period unless (1) the new ownership was acquired by will or succession as a result of the death of the previous owner, (2) the new ownership was acquired prior to January 1, 1985, or (3) the Secretary determines that the land was acquired under circumstances that give adequate assurance that such land was not acquired for the purpose of placing it in the program. This provision shall not be construed to prohibit the continuation of an agreement by a new owner after an agreement has once been entered into under this section, nor to require a person to own the land as a condition or eligibility for entering into the agreement if the person has operated the land to be covered by an agreement under this section for as long as three years preceding the date of the agreement and controls the land for the agreement period.

(j) The Secretary shall provide adequate safeguards under the program to protect the interests of tenants and sharecroppers, including provision for sharing in payments on a fair and equitable basis.

(k) The Secretary may (1) terminate any contract entered into under this section by mutual agreement with the owner or operator if the Secretary determines that such termination would be in the public interest and (2) agree to such modification of contracts as the Secretary may determine to be desirable to carry out the purpose of this section or facilitate its administration.

(l) Notwithstanding subsection (c) of this section, the Secretary may provide by appropriate regulations for preservation of cropland base and allotment history, applicable to acreage converted from the produc-

tion of crops under this section, for the purpose of any Federal program under which such history is used as a basis for participation in such program or for an allotment or other limitation in such program, unless the owner or operator agrees under the contract to retire permanently such cropland base and allotment history.

(m) In carrying out this section, the Secretary may use the facilities, services, authorities, and funds of the Commodity Credit Corporation, except that the Secretary may not use funds of the Corporation for such purpose unless the Corporation has received funds to cover such expenditures from appropriations made to carry out this section.

(n) The Secretary may enter into contracts in any fiscal year requiring payments to producers under this section only to such extent or in such amounts as provided in appropriations Acts. There are hereby authorized to be appropriated such sums as are necessary for the administration of this section, including such amounts as may be required to make payments to the Commodity Credit Corporation for its costs to be incurred under this section.

ADMINISTRATIVE PROVISIONS

SEC. 209. (a) In carrying out this subtitle, the Secretary shall use the services of local, county, and State committees established under Section 8 of the Soil Conservation and Domestic Allotment Act.

(b) The Secretary shall establish, by regulation, an appeal procedure under which a person who is adversely affected by any determination made under this subtitle may seek review of such determination.

(c) The Secretary shall, within one hundred and eighty days after the enactment of this title, publish in the *Federal Register* such regulations as the Secretary determines desirable to implement this subtitle.

(d) The authority provided by this subtitle shall be in addition to and not in place of other authorities available to the Secretary and the Commodity Credit Corporation for carrying out soil and water conservation programs.

Subtitle C—Soil and Water Conservation Fund

SEC. 210. The Internal Revenue Code of 1954 is amended by adding at the end thereof a new Subtitle J as follows:

"Subtitle J—Financing of Soil and Water Conservation

"SHORT TITLE

"SEC. 9700. This subtitle may be cited as the "Soil and Water Conservation Fund Act".

"ESTABLISHMENT OF SOIL AND WATER CONSERVATION FUND

"SEC. 9701. There is hereby established in the Treasury of the United States a special fund to be known as the "Soil and Water Conservation Fund". The Secretary of the Treasury shall, from time to time, transfer to the fund an amount not in excess of the sum of the amounts designated to the fund by individuals under section 9702. Notwithstanding any other provision of law, such amounts so transferred to the fund shall be available to the Secretary of Agriculture for the purpose of carrying out soil or water conservation programs, including, but not limited to, programs administered through local soil and water conservation districts.

"DESIGNATIONS OF INCOME TAX PAYMENTS TO SOIL AND WATER CONSERVATION FUND

"SEC. 9702. (a) Every individual (other than a nonresident alien) whose income tax liability for the taxable year is $5 or more may designate that $5 shall be paid to the Soil and Water Conservation Fund in accordance with the provisions of section 9701. In the case of a joint return of husband and wife having an income tax liability of $10 or more, each spouse may designate that $5 shall be paid to the fund.

"(b) For purposes of subsection (a), the income tax liability of an individual for any taxable year is the amount of the tax imposed by chapter 1 on such individual for such taxable year (as shown on his return), reduced by the sum of the credits (as shown on his return) allowable under part IV of subchapter A of chapter I (other than subpart C thereof).

"(c) A designation under subsection (a) may be made with respect to any taxable year—

"(1) at the time of filing the return of the tax imposed by chapter 1 for such taxable year, or

"(2) at any other time (after the time of filing the return of the tax imposed by chapter 1 for such taxable year) specified in regulations prescribed by the Secretary.

"Such designation shall be made in such manner as the Secretary prescribes by regulations except that, if such designation is made at the time of filing the return of the tax imposed by chapter 1 for such taxable year, such designation shall be made either on the first page of the return or on the page bearing the taxpayer's signature."

TITLE III—WOOL AND MOHAIR

EXTENSION OF PRICE SUPPORT PROGRAM

SEC. 301. Section 703 of the National Wool Act of 1954, as amended, is amended by—

(1) striking out "1985" in subsection (a) and inserting in lieu thereof "1989"; and

(2) striking out "1985" in subsection (b) and inserting in lieu thereof "1989".

PROMOTION OF THE SALE OF WOOL, SHEEP, MOHAIR, AND GOATS OUTSIDE THE UNITED STATES

SEC. 302. Section 708 of the National Wool Act of 1954 is amended in the second sentence by striking out "Mohair or goat or the products thereof" and inserting in lieu thereof "wool, sheep, mohair, or goats or the products thereof".

TITLE IV—WHEAT

LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, WHEAT ACREAGE REDUCTION AND SET-ASIDE PROGRAM, AND LAND DIVERSION FOR THE 1986 THROUGH 1989 CROPS OF WHEAT

SEC. 401. Effective only for the 1986 through 1989 crops of wheat, the Agricultural Act of 1949 is amended by adding after section 107C the following new section:

SEC. 107D. Notwithstanding any other provision of law—

"(a) The Secretary shall make available to producers loans and purchases for each of the 1986 through 1989 crops of wheat at such level, not less than $3.55 per bushel, as the Secretary determines will maintain the competitive relationship of wheat to other grains in domestic and export markets after taking into consideration the cost of producing wheat, supply and demand conditions, and world prices for wheat: *Provided*, That if the Secretary determines that the average price of wheat received by producers in any marketing year is not more than 105 per centum of the level of loans and purchases for wheat for such marketing year, the Secretary may reduce the level of loans and purchases for wheat for the next marketing year the amount the Secretary determines necessary to maintain domestic and export markets for grain, except that the level of loans and purchases shall not be reduced by more than 10 per centum in any year nor below $3 per bushel.

"(b)(1)(A) The Secretary shall make available to producers payments for each of the 1986 through 1989 crops of wheat in an amount computed as provided in this subsection. Payments for any crop of wheat shall be computed by multiplying (i) the payment rate, by (ii) the farm program acreage for the crop, by (iii) the farm program payment yield for the crop. In no event may payments be made under this paragraph for any crop on a greater acreage than the acreage actually planted to wheat.

"(B) The payment rate for wheat shall be the amount by which the established price for the crop of wheat exceeds the higher of—

"(i) the national weighted average market price received by farmers during the first five months of the marketing year for such crop, as determined by the Secretary, or

"(ii) the loan level determined under subsection (a) of this section for such crop.

"(C) For the 1986 crop of wheat, the established price shall be $4.38 per bushel, adjusted by the Secretary to reflect any change in (i) the average adjusted cost of production per acre for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production per acre for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of the years shall be determined by the Secretary on the basis of such information as the Secretary finds necessary and appropriate for the purpose and shall include variable costs, machinery ownership costs, and general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop. For the 1987 through 1989 crops of wheat, the established price shall be the established price for the previous year's crop adjusted by the Secretary in the same manner as the adjustment set out in the preceding two sentences with respect to the established price for the 1986 crop.

"(D) Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for wheat in accordance with the proviso in subsection (a) of this section, the Secretary shall provide emergency compensation by increasing the established price payments for wheat by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made: *Provided*, That any payments under this subparagraph shall not be included in the payments subject to limitations under the provisions of section 1208 of the Agricultural Food Assistance Act of 1985.

"(E)(1) The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2) of this subsection.

"(2)(A) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for wheat to wheat or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a pre-

vented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to wheat for harvest (including any acreage which the producers were prevented from planting to wheat or other nonconserving crop in lieu of wheat because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, multiplied by 75 per centum of the farm program payment yield established by the Secretary times a payment rate equal to 33⅓ per centum of the established price for the crop.

"(B) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of wheat which the producers are able to harvest on any farm is less than the result of multiplying 60 per centum of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 50 per centum of the established price for the crop for the deficiency in production below 60 per centum for the crop.

"(C) Producers on a farm shall not be eligible for disaster payments under this paragraph if crop insurance is available to them under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to their wheat acreage.

"(D) Notwithstanding the provisions of subparagraph (C) of this paragraph, the Secretary may make disaster payments to producers on a farm under this paragraph whenever the Secretary determines that—

"(i) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, producers on a farm have suffered substantial losses of production either from being prevented from planting wheat or other nonconserving crop or from reduced yields, and that such losses have created an economic emergency for the producers;

"(ii) Federal crop insurance indemnity payments and other forms of assistance made available by the Federal Government to such producers for such losses are insufficient to alleviate such economic emergency; and

"(iii) additional assistance must be made available to such producers to alleviate the economic emergency.

The Secretary may make such adjustments in the amount of payments made available under this subparagraph with respect to individual farms so as to assure the equitable allotment of such payments among producers taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(c)(1) The Secretary shall proclaim a national program acreage for each of the 1986 through 1989 crops of wheat. The proclamation shall be made not later than August 15 of each calendar year for the crop harvested in the next succeeding calendar year. The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under paragraph (2) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for wheat shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks of wheat are excessive or an increase in stocks is needed to assure desirable carryover, the Secretary may adjust the national program acreage by the amount the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(2) The Secretary shall determine a program allocation factor for each crop of wheat. The allocation factor for wheat shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crop, except that in no event shall the allocation factor for any crop of wheat be more than 100 per centum nor less that 80 per centum.

"(3) The individual farm program acreage for each crop of wheat shall be determined by multiplying the allocation factor by the acreage of wheat planted for harvest on the farms for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage of wheat planted for harvest on the farm from the acreage base established for the farm under subsection (e)(2) of this section by at least the percentage recommended by the Secretary in the proclamation of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of wheat planted for harvest is less than the acreage base established for the farm under subsection (e)(2) of this section, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for wheat, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(d) The farm program payment yield for each crop of wheat shall be the yield established for the farm for the previous crop year, adjusted by the Secretary to provide a fair and equitable yield. If no payment yield for wheat was established for the farm in the previous crop year, the Secretary may determine such yield as the Secretary finds fair and reasonable. Notwithstanding the foregoing provisions of this subsection, in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this subsection. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

"(e) (1) Notwithstanding any other provision of this section, the Secretary may provide for any crop of wheat either a program under which the acreage planted to wheat would be limited as described in paragraph (2) of this subsection or a set-aside program as described in paragraph (3) of this subsection if the Secretary determines that the total supply of wheat, in the absence of such a program, will be excessive taking into account the need for an adequate carryover to maintain resaonable and stable supplies and prices and to meet a national emergency. The Secretary shall announce any such wheat acreage limitation program or set-aside program not later than August 15 prior to the calendar year in which the crop is harvested.

"(2) If a wheat acreage limitation program is announced under paragraph (1) of this subsection, such limitation shall be achieved by applying a uniform percentage reduction to the wheat acreage base for each wheat-producing farm. Producers who knowingly produce wheat in execess of the permitted wheat acreage for the farm shall be ineligible for wheat loans, purchases, and payments with respect to that farm. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as the result of a limitation imposed under this paragraph shall be the acreage planted on the farm to wheat for harvest in the crop year immediately preceding the year for which the determination is made or, at the discretion of the Secretary, the average acreage planted to wheat for harvest in the two crop years immediately preceding the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to wheat for harvest shall include any acreage which the producers were prevented from planting to wheat or other nonconserving crop in lieu of wheat because of drought, flood, or other natural disaster, or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. A number of acres on the farm determined by dividing (A) the product obtained by multiplying the number of acres required to be withdrawn from the production of wheat times the number of acres actually planted to such commodity, by (B) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. The number of acres so determined is hereinafter in this subsection referred to as 'reduced acreage'. If an acreage limitation program is announced under paragraph (1) of this subsection for a crop of wheat, subsection (c) of this section shall not be applicable to such crop, including any prior announcement which may have been made under such subsection with respect to such crop. The individual farm program acreage shall be the acreage planted on the farm to wheat for harvest within the permitted wheat acreage for the farm as established under this paragraph.

"(3) If a set-aside program is announced under paragraph (1) of this subsection, then as a condition of eligibility for loans, purchases, and payments authorized by this section, the producers on a farm must set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the acreage of wheat planted for harvest for

the crop for which the set-aside is in effect. The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. If a set-aside program is established, the Secretary may limit the acreage planted to wheat. Such limitation shall be applied on a uniform basis to all wheat-producing farms. The Secretary may make such adjustments in individual set-aside acreages under this paragraph as the Secretary determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, topography, and such other factors as the Secretary deems necessary.

"(4) The regulations issued by the Secretary under paragraphs (2) and (3) of this subsection with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion. The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely. In determining the amount of land to be devoted to conservation uses under an acreage limitation or set-aside program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

"(5) The Secretary may make land diversion payments to producers of wheat, whether or not an acreage limitation or set-aside program for wheat is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of wheat to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(6) Any reduced acreage, set-aside acreage, and additional diverted acreage may be devoted to wildlife food plots or wildlife in conformity with standards established by the Secretary in consultation with wildlife habitat agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on reduced acreage, set-aside acreage, or additional diverted acreage. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(7) An operator of a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(f) If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(g) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this section.

"(h) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(i) The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this section.

"(j) The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(k) Notwithstanding any other provision of law, compliance on a farm with terms and conditions of any other commodity program may not be required as a condition of eligibility for loans, purchases, or payments under this section if an acreage limitation program is established under subsection (e)(2) of this section, but may be required if a set-aside program is established under subsection (e)(3) of this section.".

NONAPPLICABILITY OF CERTIFICATE REQUIREMENTS

SEC. 402. Sections 379d, 379e, 379f, 379h, 379i, and 379j of the Agricultural Adjustment Act of 1938 (which deal with marketing certificate requirements for processors and exporters) shall not be applicable to wheat processors or exporters during the period June 1, 1986, through May 31, 1990.

SUSPENSION OF MARKETING QUOTAS AND PRODUCER CERTIFICATE PROVISIONS

SEC. 403. Sections 331, 332, 333, 334, 335, 336, 338, 339, 379b, and 379c of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1986 through 1989 crops of wheat.

SUSPENSION OF QUOTA PROVISIONS

SEC. 404. Public Law 74, Seventy-seventh Congress (55 Stat. 203, as amended) shall not be applicable to the crops of wheat planted for harvest in the calendar years 1986 through 1989.

NONAPPLICABILITY OF SECTION 107 OF THE AGRICULTURAL ACT OF 1949

SEC. 405. Section 107 of the Agricultural Act of 1949, as amended, shall not be applicable to the 1986 through 1989 crops of wheat.

TITLE V—FEED GRAINS

LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, FEED GRAIN ACREAGE REDUCTION AND SET-ASIDE PROGRAMS, AND LAND DIVERSION PAYMENTS FOR THE 1986 THROUGH 1989 CROPS

SEC. 501. Effective only for the 1986 through 1989 crops of feed grains, the Agricultural Act of 1949, as amended, is amended by adding after section 105B a new section as follows:

"SEC. 105C. Notwithstanding any other provision of law—

"(a) The Secretary shall make available to producers loans and purchases for each of the 1986 through 1989 crops of corn at such level, not less than $2.55 per bushel, as the Secretary determines will encourage the exportation of feed grains and not result in excessive stocks of feed grains after taking into consideration the cost of producing corn, supply and demand conditions, and world prices for corn: *Provided*, That if the Secretary determines that the average price of corn received by producers in any marketing year is not more than 105 per centum of the level of loans and purchases for corn for such marketing year, the Secretary may reduce the level of loans and purchases for corn for the next marketing year by the amount the Secretary determines necessary to maintain domestic and export markets for grain, except that the level of loans and purchases shall not be reduced by more than 10 per centum in any year nor below $2 per bushel.

"(2) The Secretary shall make available to producers loans and purchases for each of the 1986 through 1989 crops of grain sorghums, barley, oats, and rye, respectively, at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of such commodity in relation to corn and other factors specified in section 401(b) of this Act.

"(b)(1)(A) The Secretary shall make available to producers payments for each of the 1986 through 1989 crops of corn, grain sorghums, oats, and if designated by the Secretary, barley in an amount computed as provided in this subsection. Payments for any crop of feed grains shall be computed by multiplying (i) the payment rate, by (ii) the farm program acreage for the crop, by (iii) the farm program payment yield for the crop. In no event may payments be made under this paragraph for any crop on a greater acreage than the acreage actually planted to feed grains.

"(B) The payment rate for corn shall be the amount by which the established price for the crop of corn exceeds the higher of—

"(i) the national weighted average market price received by farmers during the first five months of the marketing year for such crop, as determined by the Secretary, or

"(ii) the loan level determined under subsection (a) of this section for such crop.

"(C) For the 1986 crop of corn, the established price shall be $3.38 per bushel, adjusted by the Secretary to reflect any change in (i) the average adjusted cost of production per acre for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production per acre for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of information that the Secretary finds necessary and appropriate for the purpose and shall include variable costs, machinery ownership costs, and general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop. For the 1987 through 1989 crops of corn, the established price shall be the established price for the previous year's crop adjusted by the Secretary in the same manner as the adjustment set out in the preceding two sentences with respect to the established price for the 1986 crop.

"(D) Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for corn in accordance with the proviso in subsection (a)(1) of this section, the Secretary shall provide emergency compensation by increasing the established price payments for corn by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made: *Provided,* That any payments under this subparagraph shall not be included in the payments subject to limitations under the provisions of section 1208 of the Agricultural and Food Assistance Act of 1985.

"(E) The payment rate for grain sorghums, oats, and, if designated by the Secretary, barley, shall be such rate as the Secretary determines fair and reasonable in relation to the rate at which payments are made available for corn.

"(F) The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2) of this subsection.

"(2)(A) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for feed grains to feed grains or other nonconserving crops because of drought, flood, or other natural disaster, or other conditions beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to feed grains for harvest (including any acreage which the producers were prevented from planting to feed grains or other nonconserving crop in lieu of feed grains because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, multiplied by 75 per centum of the farm program payment yield established by the Secretary times a payment rate equal to 33 per centum of the established price for the crop.

"(B) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of feed grains which the producers are able to harvest on any farm is less than the result of multiplying 60 per centum of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 50 per centum of the established price for the crop for the deficiency in production below 60 per centum for the crop.

"(C) Producers on a farm shall not be eligible for disaster payments under this paragraph if crop insurance is available to them under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to their feed grain acreage.

"(D) Notwithstanding the provisions of subparagraph (C) of this paragraph, the Secretary may make disaster payments to producers on a farm under this paragraph whenever the Secretary determines that—

"(i) as the result of drought, flood, or other natural disaster, or other conditions beyond the control of the producers, producers on a farm have suffered substantial losses of production either from being prevented from planting feed grains or other nonconserving crop or from reduced yields, and that such losses have created an economic emergency for the producers;

"(ii) Federal crop insurance indemnity payments and other forms of assistance made available by the Federal Government to such producers for such losses are insufficient to alleviate such economic emergency; and

"(iii) additional assistance must be made available to such producers to alleviate the economic emergency.

The Secretary may make such adjustments in the amount of payments made available under this subparagraph with respect to individual farms so as to assure the equitable allotment of such payments among producers taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(c)(1) The Secretary shall proclaim a national program acreage for each of the 1986 through 1989 crops of feed grains. The proclamation shall be made not later than November 15 of each calendar year for the crop harvested in the next succeeding calendar year. The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under paragraph (2) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for feed grains shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks of feed grains are excessive or an increase in stocks is needed to assure desirable carryover, the Secretary may adjust the national program acreage by the amount the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(2) The Secretary shall determine a program allocation factor for each crop of feed grains. The allocation factor for feed grains shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crop, except that in no event shall the allocation factor for any crop of feed grains be more than 100 per centum nor less than 80 per centum.

"(3) The individual farm program acreage for each crop of feed grains shall be determined by multiplying the allocation factor by the acreage of feed grains planted for harvest on the farms for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage of feed grains planted for harvest on the farm from the acreage base established for the farm under subsection (e)(2) of this section by at least the percentage recommended by the Secretary in the proclamation of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of feed grains planted for harvest is less than the acreage base established for the farm under subsection (e)(2) of this section, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for feed grains, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(d) The farm program payment yield for each crop of feed grains shall be the yield established for the farm for the previous crop year, adjusted by the Secretary to provide a fair and equitable yield. If no payment yield for feed grains was established for the farm in the previous crop year, the Secretary may determine such yield as the Secretary finds fair and reasonable. Notwithstanding the foregoing provisions of this subsection, in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this subsection. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

"(e)(1) Notwithstanding any other provision of this section, the Secretary may provide for any crop of feed grains either a program under which the acreage planted to feed grains would be limited as described in paragraph (2) of this subsection or a set-aside program as described in paragraph (3) of this subsection if the Secretary determines that the total supply of feed grains, in the absence of such a program, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. The Secretary shall announce any such feed grain acreage limitation program or set-aside program not later

than November 15 prior to the calendar year in which the crop is harvested.

"(2) If a feed grain acreage limitation program is announced under paragraph (1) of this subsection, such limitation shall be achieved by applying a uniform percentage reduction to the feed grain acreage base for each feed grain-producing farm. Producers who knowingly produce feed grains in excess of the permitted feed grain acreage for the farm shall be ineligible for feed grain loans, purchases, and payments with respect to that farm. The Secretary may provide that no producer of malting barley shall be required as a condition of eligibility for feed grain loans, purchases, and payments to comply with any acreage limitation under this paragraph if such producer has previously produced a malting variety of barley for harvest, and meets such other conditions as the Secretary may prescribe. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as the result of a limitation imposed under this paragraph shall be the acreage planted on the farm to feed grains for harvest in the crop year immediately preceding the year for which the determination is made or, at the discretion of the Secretary, the average acreage planted to feed grains for harvest in the two crop years immediately preceding the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to feed grains for harvest shall include any acreage which the producers were prevented from planting to feed grains or other nonconserving crop in lieu of feed grains because of drought, flood, or other natural disaster, or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. A number of acres on the farm determined by dividing (A) the product obtained by multiplying the number of acres required to be withdrawn from the production of feed grains times the number of acres actually planted to such commodity, by (B) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. The number of acres so determined is hereinafter in this subsection referred to as 'reduced acreage'. If an acreage limitation program is announced under paragraph (1) of this subsection for a crop of feed grains, subsection (c) of this section shall not be applicable to such crop, including any prior announcement which may have been made under such subsection with respect to such crop. The individual farm program acreage shall be the acreage planted on the farm to feed grains for harvest within the permitted feed grain acreage for the farm as established under this paragraph.

"(3) If a set-aside program is announced under paragraph (1) of this subsection, then as a condition of eligibility for loans, purchases, and payments authorized by this section, the producers on a farm must set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the acreage of feed grains planted for harvest for the crop for which the set-aside is in effect. The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. If a set-aside program is established, the Secretary may limit the acreage planted to feed grains. Such limitation shall be applied on a uniform basis to all feed grain-producing farms. The Secretary may make such adjustments in individual set-aside acreages under this paragraph as the Secretary determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, topography, and such other factors as the Secretary deems necessary.

"(4) The regulations issued by the Secretary under paragraphs (2) and (3) of this subsection with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion. The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(5) The Secretary may make land diversion payments to producers of feed grains, whether or not an acreage limitation or set-aside program for feed grains is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of feed grains to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretry shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(6) Any reduced acreage, set-aside acreage, and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on reduced acreage, set-aside acreage, or additional diverted acreage. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(7) An operator of a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(f) If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive to modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(g) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this section.

"(h) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(i) The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this section.

"(j) The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(k) Notwithstanding any other provision of law, compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans, purchases, or payments under this section if an acreage limitation program is established under subsection (e)(2) of this section, but may be required if a set-aside program is established under subsection (e)(3) of this section.".

NONAPPLICABILITY OF SECTION 105 OF THE AGRICULTURAL ACT OF 1949

SEC. 502. Section 105 of the Agricultural Act of 1949, as amended, shall not be applicable to the 1986 through 1989 crops of feed grains.

TITLE VI—RICE

LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, RICE ACREAGE REDUCTION, AND LAND DIVERSION FOR THE 1986 THROUGH 1989 CROPS OF RICE

SEC. 601. Effective only for the 1986 through 1989 crops of rice, section 101 of the Agricultural Act of 1949 is amended by adding at the end thereof a new subsection as follows:

"(j) Notwithstanding any other provision of law—

"(1) The Secretary shall make available to producers loans and purchases for each of the 1986 through 1989 crops of rice at such level as bears the same ratio to the loan level for the preceding year's crop as the established price for each such crop bears to

the established price for the preceding year's crop. If the Secretary determines that loans and purchases at the foregoing level for any of the 1986 through 1989 crops would substantially discourage the exportation of rice and result in excessive stocks of rice in the United States, the Secretary may, notwithstanding the foregoing provisions of this paragraph, establish loans and purchases for any such crop at such level, not less than $8 per hundredweight, as the Secretary determines necessary to avoid such consequences: *Provided*, That the loan and purchase level for the succeeding crop shall be established on the basis of the loan and purchase level established for the preceding crop year before the application of this sentence. The loan and purchase level and the established price for each of the 1986 through 1989 crops of rice shall be announced not later than March 1 of each calendar year for the crop harvested in that calendar year.

"(2)(A) The Secretary shall make available to producers payments for each of the 1986 through 1989 crops of rice in an amount computed as provided in this paragraph. Payments for each such crop of rice shall be computed by multiplying (i) the payment rate, by (ii) the farm program acreage for the crop, by (iii) the yield established for the farm. In no event may payments be made under this paragraph for any crop on a greater acreage than the acreage actually planted to rice.

"(B) The payment rate for rice shall be the amount by which the established price for the crop of rice exceeds the higher of—

"(i) the national weighted average market price received by farmers during the first five months of the marketing year for such crop, as determined by the Secretary, or

"(ii) the loan level determined under paragraph (1) of this subsection for such crop.

"(C) For the 1986 crop of rice, the established price for rice shall be $11.90 per hundredweight, adjusted by the Secretary to reflect any change in (i) the average adjusted cost of production per acre for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production per acre for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of such information as the Secretary finds necessary and appropriate for the purpose and shall include variable costs, machinery ownership costs, and general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop. For the 1987 through 1989 crops of rice, the established price shall be the established price of the previous year's crop adjusted by the Secretary in the same manner as the adjustment set out in the preceding two sentences with respect to the established price for the 1986 crop.

"(D) The yield established for the farm for any year shall be determined on the basis of the actual yields per harvested acre for the three preceding years. The actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, other natural disaster, or other condition beyond the control of the producers. If no rice was produced on the farm during such period, the yield shall be determined taking into consideration the yield of comparable farms in the surrounding area and such other factors as the Secretary determines will produce a fair and equitable yield.

"(E) The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (3) of this subsection.

"(3)(A) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for rice to rice or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to rice for harvest (including any acreage which the producers were prevented from planting to rice or other nonconserving crop in lieu of rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, multiplied by 75 per centum of the yield established for the farm times a payment rate equal to 33⅓ per centum of the established price for the crop.

"(B) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of rice which the producers are able to harvest on any farm is less than the result of multiplying 75 per centum of the yield established for the farm for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 33⅓ per centum of the established price for the crop for the deficiency in production below 75 per centum for the crop.

"(C) Producers on a farm shall not be eligible for disaster payments under this paragraph if crop insurance is available to them under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to their rice acreage.

"(D) Notwithstanding the provisions of subparagraph (C) of this paragraph, the Secretary may make disaster payments to producers on a farm under this paragraph whenever the Secretary determines that—

"(i) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, producers on a farm have suffered substantial losses of production either from being prevented from planting rice or other nonconserving crop or from reduced yields, and that such losses have created an economic emergency for the producers;

"(ii) Federal crop insurance indemnity payments and other forms of assistance made available by the Federal Government to such producers for such losses are insufficient to alleviate such economic emergency; and

"(iii) additional assistance must be made available to such producers to alleviate the economic emergency.

The Secretary may make such adjustments in the amount of payments made available under this subparagraph with respect to individual farms so as to assure the equitable allotment of such payments among producers taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(4)(A) The Secretary shall proclaim a national program acreage for each of the 1986 through 1989 crops of rice. The proclamation shall be made not later than January 31 of each calendar year for the crop harvested in that calendar year. The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under subparagraph (B) of this paragraph if the Secretary determines it necessary based upon the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for rice shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average of the farm established yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks of rice are excessive or an increase in stocks is needed to assure desireable carryover, the Secretary may adjust the national program acreage by the amount the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(B) The Secretary shall determine a program allocation factor for each crop of rice. The allocation factor for rice shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crops, except that in no event shall the allocation factor for any crop of rice be more that 100 per centum nor less than 80 per centum.

"(C) The individual farm program acreage for each crop of rice shall be determined by multiplying the allocation factor by the acreage of rice planted for harvest on the farms for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage of rice planted for harvest on the farm from the acreage base established for the farm under paragraph (5)(A) of this subsection by at least the percentage recommended by the Secretary in the proclamation of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of rice planted for harvest is less than the acreage base established for the farm under paragraph (5)(A) of this subsection, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for rice, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(5)(A) Notwithstanding any other provision of this subsection, the Secretary may establish for any crop of rice a limitation on the acreage planted to rice if the Secretary determines that the total supply of rice, in the absence of such a limitation, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. The Secretary shall announce any such rice limitations not later than January 31 of the calendar year in which the crop for which the announcement is made is harvested. Such limitation shall be achieved by applying a uniform percentage reduction to the rice acreage base

for each rice-producing farm. Producers who knowingly produce rice in excess of the permitted rice acreage for the farm shall be ineligible for rice loans, purchases, and payments with respect to that farm. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as the result of a limitation imposed under this subparagraph shall be the acreage planted on the farm to rice for harvest in the crop year immediately preceding the year for which the determination is made or, at the discretion of the Secretary, the average acreage planted to rice for harvest in the two crop years immediately preceding the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to rice for harvest shall include any acreage which the producers were prevented from planting to rice or other nonconserving crop in lieu of rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. A number of acres on the farm determined by dividing (i) the product obtained by multiplying the number of acres required to be withdrawn from the production of rice times the number of acres actually planted to rice, by (ii) the number of acres authorized to be planted to rice under the limitation established by the Secretary shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. The number of acres so determined is hereinafter in this subsection referred to as 'reduced acreage'. If an acreage limitation program is announced under this paragaph for a crop of rice, paragraph (4) of this subsection shall not be applicable to such crop, incluidng any prior announcement which may have been made under such paragraph with respect to such crop. The individual farm program acreage shall be the acreage planted on the farm to rice for harvest within the permitted rice acreage for the farm as established under this paragraph.

"(B) The regulations issued by the Secretary under subparagraph (A) of this paragraph with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion. The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) The Secretary may make land diversion payments to producers of rice, whether or not an acreage limitation for rice is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of rice to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(D) Any reduced acreage and the additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on reduced acreage or additional diverted acreage. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(E) An operator of a farm desiring to participate in the program conducted under this paragraph shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(6) If the failure of a producer to comply fully with the terms and conditions of the program conducted under this subsection precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(7) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

"(8) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

"(9) The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this subsection.

"(10) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

"(11) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(12) Notwithstanding any other provision of law, compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans, purchases, or payments under this subsection.".

TITLE VII—COTTON

LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, COTTON ACREAGE REDUCTION PROGRAM, AND LAND DIVERSION FOR THE 1986 THROUGH 1989 CROPS OF UPLAND COTTON

SEC. 701. Effective only for the 1986 through 1989 crops of upland cotton, section 103 of the Agricultural Act of 1949 is amended by adding at the end thereof the following new subsection:

"(i)(1) The Secretary shall, upon presentation of warehouse receipts reflecting accrued storage charges of not more than sixty days, make available for the 1986 through 1989 crops of upland cotton to producers nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at such level as will reflect for Strict Low Middling one-and-one-sixteenth-inch upland cotton (micronaire 3.5 through 4.9) at average location in the United States the smaller of (A) 85 per centum of the average price (weighted by market and month) of such quality of cotton as quoted in the designated United States spot markets during three years of the five-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, or (B) 90 per centum of the average price, for the fifteen-week period beginning July 1 of the year in which the loan level is announced, of the five lowest-price growths of the growths quoted for Middling one-and-three-thirty-seconds-inch cotton C.I.F. northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between such average northern European price quotation of such quality of cotton and the market quotations in the designated United States spot markets for Strict Low Middling one-and-one-sixteenth-inch cotton (micronaire 3.5 through 4.9). In no event shall such loan level be less than 55 cents per pound. If for any crop the average northern European price determined under clause (B) of the first sentence of this paragraph is less than the average United States spot market price determined under clause (A) of the first sentence of this paragraph, the Secretary may, notwithstanding the foregoing provisions of this paragraph, increase the loan level to such level as the Secretary may deem appropriate, not in excess of the average United States spot market price determined under clause (A) of the first sentence of this paragraph. The loan level for any crop of cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective, and such loan level shall not thereafter be changed. Nonrecourse loans provided for in this subsection shall, upon request of the producer during the tenth month of the loan period for the cotton, be made available for an additional term of eight months, except that such request to extend the loan

period shall not be approved in a month when the average price of Strict Low Middling one-and-one-sixteenth-inch cotton (micronaire 3.5 through 4.9) in the designated spot markets for the preceding month exceeded 130 per centum of the average price of such quality of cotton in such markets for the preceding thirty-six-month period.

"(2) Whenever the Secretary determines that the average price of Strict Low Middling one-and-one-sixteenth-inch cotton (micronaire 3.5 through 4.9) in the designated spot markets for a month exceeded 130 per centum of the average price of such quality of cotton in such markets for the preceding thirty-six-months, notwithstanding any other provision of law, the President shall immediately establish and proclaim a special limited global import quota for upland cotton subject to the following conditions:

"(A) The amount of the special quota shall be equal to twenty-one days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent three month period for which data are available.

"(B) If a special quota has been established under this paragraph during the preceding twelve months, the amount of the quota next established hereunder shall be the smaller of twenty-one days of domestic mill consumption calculated as set forth in subparagraph (A) of this paragraph or the amount required to increase the supply to 130 per centum of the demand.

"(C) As used in subparagraph (B) of this paragraph, the term 'supply' means, using the latest official data of the Bureau of the Census, the United States Department of Agriculture, and the United States Department of the Treasury, the carryover of upland cotton at the beginning of the marketing year (adjusted to four-hundred-and-eighty-pound bales) in which the special quota is established, plus production of the current crop, plus imports to the latest date available during the marketing year, and the term 'demand' means the average seasonably adjusted annual rate of domestic mill consumption in the most recent three months for which data are available, plus the larger of average exports of upland cotton during the preceding six marketing years or cumulative exports of upland cotton, plus outstanding export sales for the marketing year in which the special quota is established.

"(D) When a special quota is established under the provisions of this paragraph, a ninety-day period from the effective date of the proclamation shall be allowed for entering cotton under such quota.

Notwithstanding the foregoing provisions of this paragraph, a special quota period shall not be established that overlaps an existing quota period.

"(3)(A) The Secretary shall make available to producers payments for each of the 1986 through 1989 crops of upland cotton in an amount computed as provided in this paragraph. Payments for each crop of upland cotton shall be computed by multiplying (i) the payment rate, (ii) by the farm program acreage for the crop, by (iii) the farm program payment yield for the crop. In no event may payments be made under this paragraph for any crop on a greater acreage than the acreage actually planted to cotton.

"(B) The payment rate for upland cotton shall be the amount by which the established price for the crop of upland cotton exceeds the higher of—

"(i) the average market price received by farmers for upland cotton during the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, or

"(ii) the loan level determined under paragraph (1) of this subsection for such crop.

"(C) The established price for the 1986 through 1989 crops of upland cotton shall be not less than the higher of (i) the price per pound determined under subparagraph (D) of this paragraph, or (ii) 120 per centum of the loan level determined for such crop under paragraph (1) of this subsection.

"(D) The price referred to in clause (i) of the subparagraph (C) of this paragraph shall be $0.81 per pound for the 1986 crop of upland cotton, adjusted by the Secretary to reflect any change in (i) the average adjusted cost of production per acre for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production per acre for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of information that the Secretary finds necessary and appropriate for the purpose and shall include variable costs, machinery ownership costs, and general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop. For the 1987 through 1989 crops of upland cotton, the price referred to in clause (i) of subparagraph (C) shall be the price per pound of the previous year's crop adjusted in the same manner as the adjustment set out in the preceding two sentences with respect to the price for the 1986 crop.

"(E) The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (4) of this subsection.

"(4)(A) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for cotton to cotton or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to cotton for harvest (including any acreage which the producers were prevented from planting to cotton or other nonconserving crop in lieu of cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, multiplied by 75 per centum of the farm program payment yield established by the Secretary times a payment rate equal to 33⅓ per centum of the established price for the crop.

"(B) Except as otherwise provided in subparagraph (C) of this paragraph, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of cotton which the producers are able to harvest on any farm is less than the result of multiplying 75 per centum of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 33⅓ per centum of the established price for the crop for the deficiency in production below 75 per centum for the crop.

"(C) Producers on a farm shall not be eligible for disaster payments under this paragraph if crop insurance is available to them under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to their cotton acreage.

"(D) Notwithstanding the provisions of subparagraph (C) of this paragraph, the Secretary may make disaster payments to producers on a farm under this paragraph whenever the Secretary determines that—

"(i) as the result of drought, flood, or other natural disaster, or other natural disaster, or other condition beyond the control of the producers, producers on a farm have suffered substantial losses of production either from being prevented from planting cotton or other nonconserving crop or from reduced yields, and that such losses have created an economic emergency for the producers;

"(ii) Federal crop insurance indemnity payments and other forms of assistance made available by the Federal Government to such producers for such losses are insufficient to alleviate such economic emergency; and

"(iii) additional assistance must be made available to such producers to alleviate the economic emergency.

The Secretary may make such adjustments in the amount of payments made available under this subparagraph with respect to individual farms so as to assure the equitable allotment of such payments among producers taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(5) The Secretary shall proclaim a national program acreage for each of he 1986 through 1989 crops of upland cotton. The proclamation shall be made not later than November 1 of the calendar preceding the year for which such acreage is established. The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under paragraph (6) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for cotton shall be the number of harvested acres the Secretary determines (on the basis of the estimated weighted national average of the farm program yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. The national program acreage shall be subject to such adjustment as the Secretary determines necessary, taking into consideration the estimated carryover supply, so as to provide for an adequate but not excessive total supply of cotton for the marketing year for the crop for which such national program acreage is estimated. In no event shall the national program acreage be less than ten million acres.

"(6) The Secretary shall determine a program allocation factor for each crop of upland cotton. The allocation factor for upland cotton shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such

crop, except that in no event shall the allocation factor for any crop of upland cotton be more than 100 per centum.

"(7) The individual farm program acreage for each crop of upland cotton shall be determined by multiplying the allocation factor by the acreage of cotton planted for harvest on the farms for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage of cotton planted for harvest on the farm from the acreage base established for the farm under paragraph (9)(A) of this subsection by at least the percentage recommended by the Secretary in the proclamation of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of cotton planted for harvest is less than the acreage base established for the farm under paragraph (9)(A) of this subsection, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for upland cotton, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(8) The farm program payment yield for each crop of upland cotton shall be determined on the basis of the actual yields per harvested acre on the farm for the preceding three years, except that the actual yields shall be adjusted by the Secretary for abnormal yield in any year caused by drought, flood, or other natural disaster, or other condition beyond the control of the producers. In case farm yield data for one or more years are unavailable or there was no production, the Secretary shall provide for appraisals to be made on the basis of actual yields and program payment yields for similar farms in the area for which data are available. Notwithstanding the foregoing provisions of this paragraph, in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this paragraph. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

"(9)(A) Notwithstanding any othe provision of this subsection, the Secretary may establish a limitation on the acreage planted to upland cotton if the Secretary determines that the total supply of upland cotton, in the absence of such a limitation, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. The Secretary shall announce any such cotton acreage limitation not later than November 1 prior to the calendar year in which the crop is harvested.

"(B) If a cotton acreage limitation is announced under subparagraph (A) of this paragraph, such limitation shall be achieved by applying a uniform percentage reduction to the cotton acreage base for each cotton-producing farm. Producers who knowingly produce cotton in excess of the permitted cotton acreage for the farm shall be ineligible for cotton loans and payments with respect to that farm. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as the result of a limitation imposed under this subparagraph shall be the acreage planted on the farm to upland cotton for harvest in the crop year immediately preceding the year for which the determination is made or, at the discretion of the Secretary, the average acreage planted to upland cotton for harvest in the two crop years immediately preceding the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to cotton for harvest shall include any acreage which the producers were prevented from planting to cotton or other nonconserving crop in lieu of cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. A number of acres on the farm determined by dividing (i) the product obtained by multiplying the number of acres required to be withdrawn from the production of upland cotton times the number of acres actually planted to such commodity, by (ii) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. The number of acres so determined is hereinafter in this subsection referred to as 'reduced acreage'. If an acreage limitation program is announced under subparagraph (A) of this paragraph for a crop of upland cotton, paragraphs (5), (6), and (7) of this subsection shall not be applicable to such crop, including any prior announcement which may have been made under such paragraphs with respect to such crop. The individual farm program acreage shall be the acreage planted on the farm to upland cotton for harvest within the permitted upland cotton acreage for the farm as established under this paragraph.

"(C) The regulations issued by the Secretary under subparagraph (B) of this paragraph with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion. The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(D) The Secretary may make land diversion payments to producers of upland cotton, whether or not an acreage limitation for upland cotton is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(E) The reduced acreage and the additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on the reduced acreage and the additional diverted acreage. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(10) An operator of a farm desiring to participate in the program conducted under paragraph (9) of this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(11) If the failure of a producer to comply fully with the terms and conditions of the program conducted under this subsection precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(12) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

"(13) The Secretary shall carry out the program authorized by this subsection

through the Commodity Credit Corporation.

"(14) The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this subsection.

"(15) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

"(16) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(17) Notwithstanding any other provision of law, compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans or payments under this subsection.

"(18) In order to encourage and assist producers in the orderly ginning and marketing of their cotton production, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act.".

SUSPENSION OF BASE ACREAGE ALLOTMENTS, MARKETING QUOTAS, AND RELATED PROVISIONS

SEC. 702. Sections 342, 343, 344, 345, 346, and 377 of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1986 through 1989 crops of upland cotton.

MISCELLANEOUS COTTON PROVISIONS

SEC. 703. Sections 103(a) and 203 of the Agricultural Act of 1949 shall not be applicable to the 1986 through 1989 crops of upland cotton.

COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS

SEC. 704. Effective only with respect to the period beginning August 1, 1986, and ending July 31, 1990, the tenth sentence of section 407 of the Agricultural Act of 1949 is amended by striking out all of that sentence through the words "110 per centum of the loan rate, and (2)" and inserting in lieu thereof the following: "Notwithstanding any othe provision of law, (1) the Commodity Credit Corporation shall sell upland cotton for unrestricted use at the same prices as it sells cotton for export, in no event, however, at less than 115 per centum of the loan rate for Strict Low Middling one-and one-sixteenth-inch upland cotton (Micronaire 3.5 through 4.9) adjusted for such current market differentials reflecting grade, quality, location, and other value factors as the Secretary determines appropriate plus reasonable carrying charges, and (2)".

SKIPROW PRACTICES

SEC. 705. Section 374(a) of the Agricultural Adjustment Act of 1938 is amended by striking out "1985" and inserting lieu thereof "1989".

PRELIMINARY ALLOTMENTS FOR THE 1990 CROP OF UPLAND COTTON

SEC. 706. Notwithstanding any other provision of law, the permanent State, county, and farm base acreage allotments for the 1977 crop of upland cotton, adjusted for any underplantings in 1977 and reconstituted as provided in section 379 of the Agricultural Adjustment Act of 1938, as amended, shall again become effective as preliminary allotments for the 1990 crop.

TITLE VIII—PEANUTS

SUSPENSION OF MARKETING QUOTAS AND ACREAGE ALLOTMENTS

SEC. 801. The following provisions of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1986 through 1989 crops of peanuts:

(1) Subsections (a) through (j) of section 358;

(2) Subsections (a) through (h) of section 358a;

(3) Subsections (a), (b), (d), and (e) of section 359;

(4) Part I of subtitle C of title III; and

(5) Section 371.

NATIONAL POUNDAGE QUOTA AND FARM POUNDAGE QUOTA FOR THE 1986 THROUGH 1989 CROPS OF PEANUTS

SEC. 802. Effective only for the 1986 through 1989 crops of peanuts, section 358 of the Agricultural Adjustment Act of 1938 is amended by adding at the end thereof new subsections as follows:

"(q) The national poundage quota for peanuts for each of the marketing years 1986 through 1989 shall be established by the Secretary at a level that will meet domestic edible, seed, and related needs for peanuts. The level established for any marketing year shall not be less than 1,100,000 tons increased by an amount that the Secretary estimates the domestic edible, seed, and related uses of peanuts in such year will exceed 1,100,000 tons. The national poundage quota shall be announced by the Secretary not later than December 15 of the year preceding the marketing year for which such poundage quota will be effective.

"(r)(1) The national poundage quota established under section (q) of this section shall be apportioned among the States so that the poundage quota allocated to each State shall be equal to the percentage of the national poundage quota allocated to farms in the State for 1985.

"(s)(1) A farm poundage quota shall be established for each farm that had a farm poundage quota for the 1985 crop of peanuts and, to the extent provided for in paragraph (2) of this subsection, for each other farm on which peanuts were produced in at least two of the crop years 1983 through 1985 as determined by the Secretary. The farm poundage quota for any such farm for the 1986 through 1989 marketing years shall be the same as the farm poundage quota for such farm for the immediately preceding marketing year as adjusted under this subsection, but not including any increases for undermarketings from previous years of any increases resulting from the allocation of quotas voluntarily released for one year under paragraph (7) of this subsection. For the purposes of this paragraph, if the farm poundage quota, or any part thereof, is permanently transferred in accordance with section 358a of this Act, the receiving farm shall be considered as possessing the farm poundage quota (or portion thereof) of the transferring farm for all subsequent marketing years. A farm poundage quota established on a farm under the provisions of paragraph (2) or (6) of this subsection shall be considered as being established under the provisions of this paragraph for all subsequent marketing years.

"(2) Any increase in a State's poundage quota apportionment from 1985 to 1986 shall be allocated equally to all farms that are eligible for a farm poundage quota for the 1986 marketing year under paragraph (1) of this subsection. If the national poundage quota is increased for any of the marketing years 1987 through 1989, such increase in a State's poundage quota apportionment shall be allocated equally among (A) all farms on which a poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made and (B) all other farms on which peanuts were produced during at least two of three immediately preceding crop years as determined by the Secretary.

"(3) The farm poundage quota established on a farm for any marketing year 1986 through 1989 shall be reduced, insofar as practicable and on such fair and equitable basis as the Secretary may by regulation prescribe, to the extent that the Secretary determines that the farm poundage quota established on the farm for any two of the three marketing years preceding the year for which the determination is being made was not produced, or considered produced, on the farm. For the purposes of this paragraph, the farm poundage quota for any such preceding marketing year shall not include any increases for undermarketing of quota peanuts from previous years or any increases resulting from the allocation of quotas voluntarily released for one year under paragraph (7) of this subsection.

"(4) For the purpose of this subsection, the farm poundage quota shall be considered produced on a farm if (A) the poundage quota of peanuts was not produced on the farm for reason of drought, flood, or other natural disaster, or other condition beyond the control of the producer, as determined by the Secretary, or (B) the farm poundage quota on the farm was released voluntarily under paragraph (7) of this subsection for only one of the three marketing years immediately preceding the year for which the determination is being made.

"(5) Notwithstanding any other provision of law, the farm poundage quota established on a farm under this subsection, or any part thereof, may be permanently released by the owner of the farm, or the operator with the permission of the owner, and the poundage quota on the farm shall be adjusted to the extent that the quota is so released.

"(6) The total amount of farm poundage quota reduced or voluntarily released from farms in a State during any year under paragraphs (3) or (5), respectively, of this subsection shall be allocated under regulations issued by the Secretary to other farms in the State on which peanuts were produced in at least two of the three crop years immediately preceding the year in which such allocation is being made. Not less than 25 per cent of such poundage quota shall be assigned to farms on which no quota was established for the preceding year's crop.

"(7) The farm poundage quota established on a farm for a marketing year, or any portion thereof, may be voluntarily released to the Secretary to the extent that such quota of peanuts will not be produced on the farm during the crop year. Any farm poundage quota voluntarily released on farms in a State shall be allocated to other farms in the State on such basis as the Secretary may prescribe. Any adjustment in the poundage quota for a farm under this paragraph shall be effective only for the marketing year for which it is made and shall not be taken into consideration in establishing a poundage quota on the farm for any subsequent marketing year.

"(8) The farm poundage quota on a farm for any marketing year shall be increased by the number of pounds by which the total marketings of quota peanuts for the farm

during previous marketing years (excluding any marketing year before the marketing year for the 1984 crop) were less than the total amount of the applicable farm poundage quotas (disregarding adjustments for undermarketings from prior marketing years) for such marketing years: *Provided,* That no increase for undermarketings in previous years shall be made to the poundage quota on any farm to the extent that the quota on such farm for the marketing year was reduced under paragraph (3) of this subsection for failure to produce. Increases in farm poundage quotas made under this paragraph shall not be counted against the national poundage quota for the marketing year involved. Any farm poundage quota increase made under this paragraph may be used in the marketing year by the transfer of additional peanuts produced on the farm to the quota loan pool for pricing purposes on such basis as the Secretary shall prescribe by regulation.

"(9) Notwithstanding the foregoing provisions of this subsection, if the total of all increases in individual farm poundage quotas under paragraph (8) of this subsection exceeds 10 per centum of the national poundage quota for the marketing year in which such increases shall be applicable, the Secretary shall adjust such increases so that the total of all such increases does not exceed 10 per centum of the national poundage quota.

"(t) For each farm for which a farm poundage quota was established under subsection (s) of this section, and when necessary for purposes of this Act, a farm yield of peanuts shall be determined for each such farm. Such yield shall be equal to the average of the actual yield per acre on the farm for each of the three crop years in which yields were highest on the farm out of the five crop years 1973 through 1977. If peanuts were not produced on the farm in at least three years during such five-year period (including, but not limited to, a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that amount determined to be fair and reasonable on the basis of yields established for similar farms that are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

"(u) Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of farmers engaged in the production of quota peanuts in the calendar year in which the referendum is held to determine whether such farmers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the four calendar years immediately following the year in which the referendum is held, except that, if as many as two-thirds of the farmers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the second, third, and fourth years of the period. The Secretary shall proclaim the result of the referendum within thirty days after the date on which it is held, and if more than one-third of the farmers voting in the referendum vote against quotas, the Secretary also shall proclaim that poundage quotas will not be in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

"(v) For the purposes of this part and title I of the Agricultural Act of 1949—

"(1) 'quota peanuts' means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined in subsection (s) of this section, that are eligible for domestic edible use as determined by the Secretary, that are marketed or considered marketed from a farm, and that do not exceed the farm poundage quota of such farm for such year;

"(2) 'additional peanuts' means, for any marketing year (A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from such farm for such year, and (B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (s) of this section;

"(3) 'crushing' means the processing of peanuts to extract oil for food uses and meal for feed uses, or the processing of peanuts by crushing or otherwise when authorized by the Secretary; and

"(4) 'domestic edible use' means use for milling to produce domestic food peanuts (other than those described in paragraph (3) of this subsection) and seed and use on a farm, except that the Secretary may exempt from this definition seeds of peanuts that are used to produce peanuts excluded under section 359(c) of this Act, are unique strains, and are not commercially available.".

SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA

SEC. 803. Effective only for the 1986 through 1989 crops of peanuts, section 358a of the Agricultural Adjustment Act of 1938 is amended by adding at the end thereof new subsections as follows:

"(k) The owner, or the operator with permission of the owner, of any farm for which a farm poundage quota has been established under this Act may, subject to such terms, conditions, or limitations as the Secretary may prescribe, sell or lease all or any part of such poundage quota to any other owner or operator of a farm within the same county for transfer to such farm. The owner or operator of a farm may transfer all or any part of such farm's farm poundage quota to any other farm owned or controlled by such owner or operator that is in the same county or in a county contiguous to such county in the same State and that had a farm poundage quota for the preceding year's crop. Notwithstanding the foregoing provisions of this subsection, in the case of any State for which the poundage quota allocated to the State was less than 10,000 tons for the preceding year's crop, all or any part of a farm poundage quota may be transfered by sale or lease or otherwise from a farm in one county to a farm in another county in the same State.

"(l) Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to the following conditions:

"(1) no transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders;

"(2) no transfer of the farm poundage quota shall be permitted if the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act determines that the receiving farm does not have adequate tillable cropland to produce the farm poundage quota;

"(3) no transfer of the farm poundage quota shall be effective until a record thereof is filed with the county committee of the county to which such transfer is made and such committee determines that the transfer complies with the provisions of this section; and

"(4) such other terms and conditions that the Secretary may by regulation prescribe.".

MARKETING PENALTIES; DISPOSITION OF ADDTIONAL PEANUTS

SEC. 804. Effective only for the 1986 through 1989 crops of peanuts, section 359 of the Agricultural Adjustment Act of 1938 is amended by adding at the end thereof new subsections as follows:

"(m)(1) The marketing of any peanuts for domestic edible use in excess of the farm poundage quota for the farm on which such peanuts are produced shall be subject to penalty at a rate equal to 140 per centum of the support price for quota peanuts for the marketing year (August 1 through July 31) in which such marketing occurs. The marketing of any additional peanuts from a farm shall be subject to the same penalty unless such peanuts, in accordance with regulations established by the Secretary, are either (A) placed under loan at the additional loan rate in effect for such peanuts under section 108B of the Agricultural Act of 1949 and not redeemed by the producers, (B) marketed through an area marketing association designated pursuant to section 108B(3)(A) of the Agricultural Act of 1949, or (C) marketed under contracts between handlers and producers, pursuant to the provisions of subsection (q) of this section. Such penalty shall be paid by the person who buys or otherwise acquires the peanuts from the producer, or if the peanuts are marketed by the producer through an agent, the penalty shall be paid by such agent, and such person or agent may deduct an amount equivalent to the penalty from the price paid to the producer. If the person required to collect the penalty fails to collect such penalty, such person and all persons entitled to share in the peanuts marketed from the farm or the proceeds thereof shall be jointly and severally liable for the amount of the penalty. Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning therein shall be subject to such quotas even though the peanuts are marketed prior to the date on which such marketing year begins. If any producer falsely identifies or fails to certify planted acres or fails to account for the disposition of any peanuts produced on such planted acres, an amount of peanuts equal to the farm's average yield, as determined under section 358(t) of this Act, times the planted acres, shall be deemed to have been marketed in violation of permissible uses of quota and additional peanuts and the penalty in respect thereof shall be paid and remitted by the producer.

"(2) The Secretary shall authorize, under such regulations as the Secretary shall prescribe, the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or reduce marketing penalties provided for under this subsection in cases in which such committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned. Errors in weight that do not exceed one-tenth of 1 per centum in the case of any one marketing document shall not be considered mar-

keting violations except in cases of fraud or conspiracy.

"(n) Only quota peanuts may be retained for use as seed or for other uses on a farm and when so retained shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts that are used to produce peanuts excluded under subsection (c) of this section, are unique strains, and are not commercially available. Additional peanuts shall not be retained for use on a farm and shall not be marketed for domestic edible use, except as provided in subsection (r) of this section. Seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

"(o) Upon a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced for the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by such handler from such crop for such marketing, such handler shall be subject to a penalty equal to 140 per centum of the loan level for quota peanuts on the quantity of peanuts that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

"(p)(1) Except as provided in paragraph (2), the Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108B(3)(A) of the Agricultural Act of 1949.

"(2)(A) Supervision of the handling and disposal of additional peanuts of additional peanuts contracted by a handler shall not be required under paragraph (1) of this subsection if the handling and disposal of such peanuts is conducted in the manner prescribed in regulations issued by the Secretary.

"(B) The regulations issued by the Secretary under subparagraph (A) shall permit handlers of shelled peanuts to export peanuts classified by type, without physical supervision under paragraph (1) of this subsection, in quantities as described in subparagraph (C) of this paragraph.

"(C)(i) Sound split kernel peanuts in an amount equal to twice the pounds of such peanuts purchased by the handler as additional peanuts.

"(ii) Sound mature kernel peanuts in an amount equal to the pounds of such peanuts purchased by the handler as additional peanuts less the amount of sound split kernels purchased by the handler.

"(iii) The remaining quantity of total kernel content purchased by the handler as additional peanuts and not crushed domestically.

"(D) Any additional peanuts exports without physical supervision under subparagraph (B) of this paragraph shall be evidenced by on-board bill on ladings or other appropriate documentation as may be required by the Secretary or both. Handler's obligations to export peanuts in quantities described in subparagraph (C) shall be reduced by a reasonable shrinkage allowance to be determined by the Secretary. The Secretary may require adequate financial guarantees as well as evidence of adequate facilities and assets in order to assure compliance with the obligation of the handler to export peanuts without physical supervison under subparagraph (B) of this paragraph. If a handler should suffer a loss of peanuts as a result of fire, flood, or other condition beyond the control of the handler, the portion of such loss allocated to contracted additional peanuts shall not be greater than the portion of the handler's total purchases for the year attributable to contracted additional peanuts purchased for export by the handler during such year.

"(3) Quota and additional peanuts of like type and segregration or quality may, under regulations prescribed by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

"(4) The failure by a handler to comply with regulations issued by the Secretary governing the disposition and handling of additional peanuts shall subject the handler to a penalty at a rate equal to 140 per centum of the loan level for quota peanuts on the quantity of peanuts involved in the violation. The amount of any penalty imposed on a handler under this subsection that resulted from the failure to export contracted additional peanuts shall not be reduced by the Secretary under the provisions of subsection (s)(5) of this section. A handler shall not be subject to a penalty for failure to export additional peanuts if such peanuts were not delivered to the handler.

"(5) If any additional peanuts exported by a handler should reenter the United States in commercial quantities as determined by the Secretary, the importer thereof shall be subject to a penalty at a rate equal to 140 per centum of the loan level for quota peanuts on the quantity of peanuts involved in the reentry.

"(q) Handlers may, under regulations prescribed by the Secretary, contract with producers for the purchase of additional peanuts for crushing, export, or both. All such contracts shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval prior to August 1 of the year in which the crop is produced. Each such contract shall contain the final price to be paid by the handler for the peanuts involved and a specific prohibition against the disposition of such peanuts for domestic edible or seed use.

"(r) Subject to the provisions of section 407 of the Agricultural Act of 1949, any peanuts owned or controlled by the Commodity Credit Corporation may be made available for domestic edible use in accordance with regulations established by the Secretary. Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all costs incurred with respect to such peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus (1) not less than 100 per centum of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season upon delivery by and with the written consent of the producer, (2) not less than 105 per centum of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer by not later than December 31 of the marketing year, or (3) not less than 107 per centum of the loan value of quota peanuts of the additional peanuts are sold later than December 31 of the marketing year. For the period from the date additional peanuts are delivered for loan to March 1 of the calender year following the year in which such additional peanuts were harvested, the area marketing association designated pursuant to section 108B(3)(A) of the Agriculture Act of 1949 shall have sole authority to accept or reject lot list bids when the sales as determined under this section equals or exceeds the minimum price at which the Commodity Credit Corporation may sell its stocks of additional peanuts, except that the area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by this sentence to facilitate the orderly marketing of additional peanuts.

"(s)(1) The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest thereon at a rate per annum equal to the rate of interest that was charged the Commodity Credit Corporation by the Treasury of the United States on the date such penalty became due.

"(2) The provisions of this section shall not apply to peanuts produced on any farm on which the acreage harvested for nuts is one acre or less if the producers who share in the peanuts produced on such farm do not share in the peanuts produced on any other farm.

"(3) Until the amount of the penalty provided by this section, other than a penalty on an importer under subsection (p)(5), is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

"(4) Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulations may prescribe. The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Government. Nothing in this section shall be construed as prohibiting any court of competent jurisdiction from reviewing any determination made by the Secretary with respect to whether such determination was made in conformity with the applicable law and regulations. All penalties imposed under this section shall for all purposes be considered civil penalties.

"(5) Notwithstanding any other provision of law and except as otherwise provided in subsection (p)(4) of this section, the Secretary may reduce the amount of any penalty assessed against handlers under this section if the Secretary finds that the violation upon which the penalty is based was minor or inadvertent, and that the reduction of the penalty will not impair the operation of the peanut program.".

PRICE SUPPORT PROGRAM

SEC. 805. Effective only for the 1986 through 1989 crops of peanuts, the Agricultural Act of 1949 is amended by adding after section 108A a new section as follows:

"PRICE SUPPORT FOR 1986 THROUGH 1989 CROPS OF PEANUTS

"SEC. 108B. Notwithstanding any other provision of law—

"(1) The Secretary shall make price support available to producers through loans, purchases, and other operations on quota

peanuts for each of the 1986 through 1989 crops. The national average quota support rate for the 1986 crop of quota peanuts shall be the same as the national average support rate established for the 1985 crop of quota peanuts adjusted by the Secretary by the percentage of any increase in the prices paid by producers for commodities and services, interest, taxes, and farm wages rates during calendar years 1981 through 1985 as determined by the Secretary. The national average quota support rate for each of the 1987 through 1989 crops of quota peanuts shall be the national average quota support rate for the preceding crop, adjusted to reflect any increase, during the calendar year immediately preceding the marketing year for the crop for which a level of support is being determined, in the national average cost of production, excluding any change in the cost of land, except that in no event shall the national average quota support rate for any such crop exceed by more than 6 per centum the national average quota support rate for the preceding crop. The levels of support so announced shall not be reduced by any deductions for inspection, handling, or storage: *Provided*, That the Secretary may make adjustments for location of peanuts and such other factors as are authorized by section 403 of this Act. The Secretary shall announce the level of support for quota peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

"(2) The Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1986 through 1989 crops at such levels as the Secretary finds appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets: *Provided*, That the Secretary shall set the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts. The Secretary shall announce the level of support for additional peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

"(3)(A) In carrying out paragraphs (1) and (2) of this section, the Secretary shall make warehouse storage loans available in each of the three producing areas (described in 7 CFR 1446.60 (1985 ed.)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting such loan activities. The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and section 359 of the Agricultural Adjustment Act of 1938. Such are marketing associations shall be used in administrative and supervisory activities relating to price support and marketing activities under this section and section 359 of the Agricultural Act of 1938. Loans made under this subparagraph shall include, in addition to the price support value of the peanuts, such costs as the area marketing association reasonably may incur in carrying out its responsibilities, operations, and activities under this section and section 359 of the Agricultural Adjustment Act of 1938.

"(B) The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by area and segregation for quota peanuts handled under loan, for additional peanuts placed under loan, and for additional peanuts produced without a contract between a handler and a producer as described in section 359(q) of the Agricultural Adjustment Act of 1938, except that separate pools shall be established for Valencia peanuts produced in New Mexico. Bright hull and dark hull Valencia peanuts produced in the Southwest area shall be considered as different types for the purpose of establishing pools under this section. Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of (i) for quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in such pool plus an amount from the pool for additional peanuts to the extent of the net gains from the sale for domestic food and related uses of additional peanuts in the pool for additional peanuts equal to any loss on disposition of all peanuts in the pool for quota peanuts and (ii) for additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts less any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i) of this sentence. Notwithstanding any other provision of this section, any distribution of net gains on additional peanuts of any type to any producer shall be reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts of a different type placed under loan by the producer. Notwithstanding any other provision of this section, the proceeds due any producer from any pool shall be reduced by the amount of any loss that is incurred with respect to peanuts transferred from an additional loan pool to a quota loan pool under the provisions of section 358(s)(8) of the Agricultural Adjustment Act of 1938.

"(4) Notwithstanding the foregoing provisions of this section or any other provision of law, no price support shall be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358(u) of the Agricultural Adjustment Act of 1938.".

REPORTS AND RECORDS

SEC. 806. Effective only for the 1986 through 1989 crops of peanuts, the first sentence of section 373(a) of the Agricultural Adjustment Act of 1938 is amended by inserting immediately before "all brokers and dealers in peanuts" the following: "all farmers engaged in the production of peanuts,".

SUSPENSION OF CERTAIN PRICE SUPPORT PROVISIONS

SEC. 807. Section 101 of the Agricultural Act of 1949 shall not be applicable to the 1986 through 1989 crops of peanuts.

TITLE IX—SUGAR

SUGAR PRICE SUPPORT

SEC. 901. Effective only for the 1986 through 1989 crops of sugar beets and sugarcane, section 201 of the Agricultural Act of 1949 is amended by—

(1) striking out in the first sentence "honey, and milk" and inserting in lieu thereof "honey, milk, sugar beets, and sugarcane"; and

(2) adding at the end thereof a new subsection as follows:

"(j) The price of each of the 1986 through 1989 crops of sugar beets and sugarcane, respectively, shall be supported in the manner specified below:

"(1) The Secretary shall support the price of each of the 1986 through 1989 crops of domestically grown sugarcane through nonrecourse loans at such level as the Secretary determines appropriate but not less than the following levels for raw cane sugar:

"(A) for the 1986 crop, 18 cents per pound; and

"(B) for each of the 1987 through 1989 crops, the level of support of the preceding year's crop increased by one-fourth cent per pound.

"(2) The Secretary shall support the price of domestically grown sugar beets through nonrecourse loans at such level as the Secretary determines to be fair and reasonable in relation to the level of loans for sugarcane. The Secretary shall announce the loan rate to be applicable during any fiscal year as far in advance of the beginning of that fiscal year as practicable consistent with the purposes of this subsection. Loans during any such fiscal year shall be made available not earlier than the beginning of the fiscal year and shall mature before the end of that fiscal year.".

TITLE X—SOYBEANS

SOYBEAN PRICE SUPPORT

SEC. 1001. Effective only for the 1986 through 1989 crops of soybeans, section 201 of the Agricultural Act of 1949 is amended by—

(1) inserting in the first sentence "soybeans," after "tung nuts,"; and

(2) adding at the end thereof a new subsection as follows:

"(i)(1) The price of soybeans shall be supported through loans and purchases during each of the four marketing years beginning with 1986 marketing year at a level equal to 75 per centum of the simple average price received by farmers for soybeans for each of the preceding five marketing years, excluding the high and low valued years, except that in no event shall the Secretary establish a support price of less than $5.02 per bushel: *Provided*, That if the Secretary determines that the average price of soybeans received by producers in any marketing year is not more that 105 per centum of the level of loans and purchases for soybeans for such marketing year, the Secretary may reduce the level of loans and purchases for soybeans for the next marketing year by the amount the Secretary determines necessary to maintain domestic and export markets for soybeans, except that the level of loans and purchases shall not be reduced by more than 10 per centum in any year nor below $4.50 per bushel. For the purposes of this subsection, the soybean marketing year shall be the twelve-month period beginning on September 1 and ending August 31. The Secretary shall make a preliminary announcement of the level of price support not earlier than thirty days in advance of the beginning of the marketing year based upon the latest information and statistics available when such level of price support is announced, and shall make a final announcement of such level as soon as full information and statistics are available on prices for the five years preceding the beginning of the marketing year. In no event shall such final level of support be an-

nounced later than October 1 of the marketing year for which the announcement applies; nor shall the final level of support be less than the level of support set forth in the preliminary announcement.

"(2) Notwithstanding any other provision of law—

"(A) the Secretary shall not require participation in any production adjustment control program for soybeans or any other commodity as a condition of eligibility for price support for soybeans; and

"(B) soybeans shall not be considered an eligible commodity for any reserve program, and the Secretary shall not authorize payments to producers to cover the cost of storing soybeans.".

TITLE XI—DAIRY

MILK PRICE SUPPORT

SEC. 1101. Subsection (d) of section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446(d)) is amended to read as follows:

"(d) Notwithstanding any other provision of law—

"(1) Effective for the fiscal years beginning October 1, 1985 and October 1, 1986, the price of milk shall be supported at the same level that was in effect on July 1, 1985.

"(2)(A) Effective for the fiscal years beginning October 1, 1987 and October 1, 1988, the price of milk shall be supported at a level determined in accordance with this paragraph.

"(B) The Secretary shall compute annually an index of items for each fiscal year as provided in this paragraph that affected the cost of producing milk or the products of milk during the period from calendar year 1976 through calendar year 1978. The Secretary shall compute the index taking into account the following schedule of items and the proportional contribution of each item:

Item	Contribution to the Index
Consumer Price Index	10 per centum
Prices received by farmers for meat animals	10 per centum
Feed costs	33 per centum
Interest paid by farmers	8 per centum
Taxes	2.5 per centum
Fuel and energy expenses	4 per centum
Milk hauling costs	3 per centum
Machinery and building repair expenses	4 per centum
Hired labor expenses	7 per centum
Farm services and general overhead costs	8.5 per centum
Seed	1.5 per centum
Fertilizer	3 per centum
Ag chemicals	.5 per centum
Tractor and self-propelled machinery	3 per centum
Other farm machinery	2 per centum

The Secretary shall use the value of the index so computed to measure changes in the cost of producing milk or the products of milk during the most recent six-month period.

"(C) The index computed under this paragraph shall be further adjusted to reflect increases in productivity, taking into account such factors as changes in milk produced per cow, and other related factors the Secretary determines to be relevant.

"(D) The adjusted value of the index shall be multiplied by $8.33 to determine the support price per hundredweight for milk containing 3.67 per centum of milkfat on October 1, 1987.

"(E) The Secretary shall estimate Government price support purchases (not of sales for unrestricted use) for each such fiscal year using the amount of such purchases made during the most recent six-month period adjusted to an annual level. If the Secretary estimates that the Government price support purchases of milk or the products of milk will be less than 5 billion pounds or in excess of 5.990 billion pounds milk equivalent, the Secretary shall adjust the price support as determined in this paragraph according to the following table.

"If the estimated amount (in billions of pounds) of net Government price support purchases of milk during the relevant period is (in milk equivalent):	The percentage of price support level per hundredweight for milk shall be:
Less than 3	104
3.0–3.99	103
4.0–4.99	102
5.0–5.99	100
6.0–6.99	98
7.0–7.99	96

"(3) The price of milk shall be supported through the purchase of milk and the products of milk."

FEDERAL MILK MARKETING ORDERS

SEC. 1102. Section 101(b) of the Agriculture and Food Act of 1981 (7 U.S.C. 608c) is amended by striking out "1985" and inserting in lieu thereof "1989".

TRANSFER OF DAIRY PRODUCTS TO VETERANS HOSPITALS AND THE MILITARY

SEC. 1103. Section 202 of the Agricultural Act of 1949 (7 U.S.C. 1446a) is amended by striking out "1985" in subsections (a) and (b) and inserting in lieu thereof "1989".

DAIRY INDEMNITY PROGRAM

SEC. 1104. Section 3 of the Act of August 13, 1968 (7 U.S.C. 4501), is amended by striking out "1985" and inserting in lieu thereof "1989".

TITLE XII—MISCELLANEOUS

ADVANCE PAYMENTS

SEC. 1201. Effective only for the 1986 through 1989 crops of wheat, feed grains, upland cotton, and rice, the Agricultural Act of 1949 is amended by adding after 107D as added by section 201 of this Act the following new section:

"ADVANCE PAYMENTS

"SEC. 107E. (a) If the Secretary establishes an acreage limitation program for any of the 1986 through 1989 crops of wheat, feed grains, upland cotton, or rice under section 107D(e), 105C(e), 103(h)(9), or 101(i)(5), respectively, and determines that deficiency payments will likely be made for such commodity for such crop, the Secretary may make available advance deficiency payments to producers who agree to participate in such program.

"(b) Advance deficiency payments under subsection (a) shall be made to the producer under the following terms and conditions:

"(1) Such payments shall be made available to producers as soon as practicable after the producer files a notice of intention to participate in such program.

"(2) Such payments shall be made available to producers in such amounts as the Secretary determines appropriate to encourage adequate participation in such program, except that such amount may not exceed an amount determined by multiplying (A) the estimated farm program acreage for the crop, (B) the farm program payment yield for the crop, by (C) 50 per centum of the projected payment rate, as determined by the Secretary.

"(3) In any case in which the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under section 107D(b)(1), 105C(b)(1), 103(h)(3), or 101(j)(2), is less than the amount paid to the producer as an advance deficiency payment for the crop under this section, the producer shall refund an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer as a deficiency payment for the crop concerned.

"(4) If the Secretary determines under section 107D(b)(1), 105C(b)(1), 103(h)(3), or 101(j)(2) that deficiency payments will not be made available to producers on a crop with respect to which advance deficiency payments already have been made under this section, the producers who received such advance payments shall refund such payments.

"(5) Any refund required under paragraph (3) or (4) shall be due at the end of the marketing year for the crop with respect to which such payments were made.

"(6) If a producer fails to comply with the requirements under the acreage limitation or set-aside program involved after obtaining an advance deficiency payment under this section, the producer shall repay immediately the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe by regulations.

"(c) The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(d) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(e) The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary or the Commodity Credit Corporation under any other provisions of law.".

SUPPLEMENTAL SET-ASIDE AND ACREAGE LIMITATION AUTHORITY

SEC. 1202. Effective for the 1986 through 1989 crops of wheat and feed grains, section 113 of the Agricultural Act of 1949 is amended to read as follows:

"SUPPLEMENTAL SET-ASIDE AND ACREAGE LIMITATION AUTHORITY

"SEC. 113. Notwithstanding any other provision of law or prior announcement made by the Secretary to the contrary, the Secretary may announce and provide for a set-aside or acreage limitation program under section 105C(e) or 107D(e) of this title for one or more of the crops of wheat and feed grains if the Secretary determines that such action is in the public interest as a result of the imposition of restrictions on the export of any such commodity by the President or other member of the executive branch of Government. In order to carry out effectively a set-aside or acreage limitation program authorized under this section, the Secretary may make such modifications and adjustments in such program as the Secretary determines necessary because of any delay in instituting such programs.".

SPECIAL GRAZING AND HAY PROGRAM

SEC. 1203. Section 109 of the Agricultural Act of 1949 is amended by striking out "1985" in the first sentence of subsection (a) and inserting in lieu thereof "1989".

COMMODITY CREDIT CORPORATION SALES PRICES RESTRICTIONS FOR WHEAT AND FEED GRAINS

SEC. 1204. Effective only for the marketing years for the 1986 through 1989 crops, section 407 of the Agricultural Act of 1949 is amended by—

(1) striking out in the third sentence the language following the third colon and inserting in lieu thereof the following: "Provided, That the Corporation shall not sell any of its stocks of wheat, corn, grain sorghum, barley, oates, and rye, respectively, at less than 115 per centum of the current national average loan rate for the commodity, adjusted for such current market differentials reflecting grade, quality, location, and other value factors as the Secretary determines appropriate plus reasonable carrying charges.";

(2) striking out in the fifth sentence "current basic county support rate including the value of any applicable price-support payment in kind (or a comparable price if there is not current basic county support rate)" and inserting in lieu thereof the following: "current basic county loan rate (or a comparable price if there is no current basic county loan rate)"; and

(3) striking out in the seventh sentence ", but in no event shall the purchase price exceed the then current support price for such commodities" and inserting in lieu thereof the following: "or unduly affecting market prices, but in no event shall the purchase price exceed the Corporation's minimum sales price for such commodities for unrestricted use.".

NORMALLY PLANTED ACREAGE AND TARGET PRICES

SEC. 1205. Section 1001 of the Food and Agriculture Act of 1977 is amended by striking out "1985" in each place that it appears in subsections (a) and (b) and inserting in lieu thereof "1989".

NORMAL SUPPLY

SEC. 1206. Notwithstanding any other provision of law, if the Secretary of Agriculture determines that the supply of wheat, corn, upland cotton, or rice for the marketing year for any of the 1986 through 1989 crops of such commodity is not likely to be excessive and that program measures to reduce or control the planted acreage of the crop are not necessary, such a decision shall constitute a determination that the total supply of the commodity does not exceed the normal supply and no determination to the contrary shall be made by the Secretary with respect to such commodity for such marketing year.

APPLICATION OF TERMS IN THE AGRICULTURE ACT OF 1949

SEC. 1207. Effective only for the 1986 through 1989 crops of wheat, feed grains, upland cotton, and rice, section 408(k) of the Agricultural Act of 1949 is amended to read as follows:

"REFERENCES TO TERMS MADE APPLICABLE TO WHEAT, FEED GRAINS, UPLAND COTTON, AND RICE

"(k) References made in sections 402, 403, 406, 407, and 416 to the terms 'support price', 'level of support', and 'level of price support' shall be considered to apply as well to level of loans and purchases for wheat, feed grains, upland cotton, and rice under this Act; and references made to the terms 'price support', 'price support operations', and 'price support program' in such sections and in section 401(a) shall be considered as applying as well to the loan and purchase operations for wheat, feed grains, upland cotton, and rice under this Act.".

PAYMENT LIMITATIONS FOR WHEAT, FEED GRAINS, UPLAND COTTON, AND RICE

SEC. 1208. Notwithstanding any other provisions of law:

(1) The total amount of payments (excluding disaster payments) that a person shall be entitled to receive under one or more of the annual programs established under the Agricultural Act of 1949 for wheat, feed grains, upland cotton, extra long staple cotton, and rice shall not exceed $50,000 for each of the 1986 through 1989 crops.

(2) The total amount of disaster payments that a person shall be entitled to receive under one or more of the annual programs established under the Agricultural Act of 1949 for wheat, feed grains, upland cotton, and rice shall not exceed $100,000 for each of the 1986 through 1989 crops.

(3) The term "payments" as used in this section shall not include loans or purchases, or any part of any payment that is determined by the Secretary of Agriculture to represent compensation for resource adjustment (excluding land diversion payments) or public access for recreation.

(4) If the Secretary determines that the total amount of payments that will be earned by any person under the program in effect for any crop will be reduced under this section, any acreage requirement established under a set-aside or acreage limitation program for the farm or farms on which such person will be sharing in payments earned under such program shall be adjusted to such extent and in such manner as the Secretary determines will be fair and reasonable in relation to the amount of the payment reduction.

(5) The Secretary shall issue regulations defining the term "person" and prescribing such rules as the Secretary determines necessary to assure a fair and reasonable application of such limitation: *Provided*, That the provisions of this section that limit payments to any person shall not be applicable to lands owned by States, political subdivisions, or agencies thereof, so long as such lands are farmed primarily in the direct furtherance of a public function, as determined by the Secretary. The rules for determining whether corporations and their stockholders may be considered as separate persons shall be in accordance with the regulations issued by the Secretary on December 18, 1970, under section 101 of the Agricultural Act of 1970.

TITLE XIII—AGRICULTURAL CREDIT

SUBTITLE A—FARM CREDIT ASSISTANCE

SHORT TITLE

SEC. 1301. This subtitle may be cited as the "Agricultural Credit Act of 1985".

FEDERAL-STATE COOPERATIVE INTEREST BUY-DOWN PROGRAM

SEC. 1302. Effective for the period beginning on the date of enactment of this subtitle and ending September 30, 1986, the Consolidated Farm and Rural Development Act is amended by adding at the end thereof a new section 350 as follows:

"FEDERAL-STATE COOPERATIVE INTEREST BUY-DOWN PROGRAM

"SEC. 350. (a) To assist farmers and ranches whose debts are restructured by commercial or cooperative lenders, the Secretary may make grants to States for use in buying down the interest rates charged by such lenders.

"(b) The grant program established under this section shall—

"(1) be used to provide interest reduction payments on loans secured by real estate or other assets made to restructure debts;

"(2) provide for interest reduction agreements of not less than three years; and

"(3) except as provided in subsection (d), be administered by States that provide equal matching funds for interest reduction payments.

"(c) The Secretary shall provide, and the State may provide for the recapture of any assistance provided under this section from the assisted borrower or such borrower's heirs upon the disposition of, or other transfer of title or ownership to, the real estate or other assets. The amount to be recaptured shall be secured by a lien on the real estate or other assets.

"(d) The Secretary shall make grants for interest reduction payments under this section without requiring that a State provide equal matching funds whenever the Secretary determines that it would not be practicable for such State to provide matching funds.

"(e) Notwithstanding any other provision of this Act, the Agricultural Credit Insurance Fund established under section 309 of this Act may be used by the Secretary in implementing this section.

"(f) The total amount of funds used by the Secretary in making grants under this section shall not exceed $200,000,000.".

IMPROVEMENTS IN THE PROCESSING OF APPLICATIONS FOR FARMERS HOME ADMINISTRATION LOANS

SEC. 1303. (a) The Secretary of Agriculture shall immediately take steps—using authorities of law provided by the Secretary, including the Agricultural Credit Insurance Fund and the employment procedures used in connection with the emergency disaster loan program—to make personnel and other resources of the Department of Agriculture available to the Farmers Home Administration sufficient to enable the Farmers Home Administration to process applications from farmers for assistance expeditiously and in a timely manner with respect to farm operations relating to the planting and cultivation of the 1986 crops.

(b) Subsection (h) of section 309 of the Consolidated Farm and Rural Development Act is amended by—

(1) designating the existing text thereof as paragraph (1); and

(2) inserting at the end thereof a new paragraph (2) as follows:

"(2) In implementing the approved lender program established under section 339 of this Act on May 4, 1984, the Secretary shall ensure that each request of a lending institution for designation as an approved lender under the program is reviewed, and a decision made on the application, within fifteen days after the lending institution has submitted a completed application to the Farmers Home Administration.".

DISPOSITION OF FARM PROPERTY INVENTORY HELD BY THE FARMERS HOME ADMINISTRATION

SEC. 1304. Section 335 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1985) is amended by—

(1) amending subsection (b) to read as follows:

"(b)(1) Except as provided in paragraph (2) of this subsection, real property administered under the provisions of this title may be operated or leased by the Secretary for such period or periods as the Secretary may deem necessary to protect the Government's investment therein.

"(2) Farmland administered under the provisions of subtitle, A, B, C of this title, the sale of which is not immediately practicable under subsection (c) of this section, shall be leased by the Secretary to qualified family farmers and qualified limited resource farmers. The Secretary shall consider provicing, in conjunction with the provisions of subsection (c) of this section, leases that contain purchase options for qualified

family farmers or limited resource farmers and loans at the limited resource rate to such farmers to cover any payments due under the lease or the option. If no qualified family farmer or limited resource farmer is identified, the land shall be leased to other borrowers eligible for loans under subtitle A or B of this title. If the previous owner-operator of a particular tract of land is eligible for assistance under subtitles A or B of this title, such previous owner-operator shall be given special consideration, as appropriate, in the leasing of that tract. The Secretary shall implement the provisions of this section within sixty days after enactment of the Food and Agriculture Act of 1985.".

(2) amending the first sentence of paragraph (1) of subsection (c) to read as follows: "Except as provided in paragraphs (2) and (4) of this subsection with respect to the disposition of farmland, the Secretary may determine whether real property administered under this title is suitable for disposition to persons eligible for assistance under any law administered by the Farmers Home Administration.".

(3) amending paragraphs (2), (3), and (4) of subsection (c) to read as follows:

"(2)(A) Farmland administered under this title shall be, wherever practicable, sold by the Secretary to qualified family farmers and qualified limited resource farmers. The sale of such farmland may be through the exercise of a purchase option provided in a lease under subsection (b)(2) of this section. The Secretary shall provide, to the extent possible, financing for the sale of farmland to such qualified farmers from funds available for such purposes under this title and may, without regard to the availability of funds to finance the purchase of farmland under this title, sell such farmland to qualified family farmers and qualified limited resource borrowers through the use of installment land contracts, or similar devices, that contain such terms as the Secretary deems necessary to protect the Government's investment in such farmland. The Secretary shall offer such farmland for sale to family farmers and limited resource farmers at a price that reflects the average annual income that can be reasonably anticipated to be generated from farming such land. If more than one qualified candidate to purchase, or lease with the option to purchase, the farmland is identified, the county committee shall, by majority vote, select the final candidate on such basis as the Secretary by regulation may prescribe.

"(B) For the fiscal years 1985, 1986, and 1987, not less than 20 per centum of the farm ownership funds under subtitle A of this title shall be made available for loans at the limited resource rate for the purchase of suitable farmland from the inventory of the Farmers Home Administration by qualified limited resource borrowers. The amount provided under this subparagraph shall be in addition to the minimum use of funds at such rate required by section 346 of this title.

"(C) If suitable farmland is available for disposition under this subsection, the Secretary shall publish an announcement of the availability of such farmland in at least one newspaper that is widely circulated in the county in which the farmland is located and shall post an announcement of the availability of such farmland at a prominent place in the local office of the Farmers Home Administration that serves the county in which the farmland is located. The Secretary shall also identify and notify current borrowers under subtitles A or B, giving special attention to limited resource borrowers, who might be interested in purchasing inventory farmland.

"(3) Farmland that the Secretary determines is not suitable for sale or lease to limited resource or other eligible farm borrowers under subtitle A or B of this Act because such farmland is in a tract or tracts that the Secretary determines to be larger than that necessary for family-size farms shall be subdivided into tracts suitable for limited resource or other eligible borrowers under subtitle A or B of this Act. The disposition of such subdivided farmland shall be in accordance with paragraph (2) of this subsection.

"(4) If farmland used as security for a Farmers Home Administration loan is transferred to a party other than the Farmers Home Administration, the Secretary shall not permit any of the terms of the loan that are provided for in this title to be assumed by the party to whom the land is transferred unless such party is eligible for loan assistance under subtitle A of this title. If the party to whom the farmland is to be transferred is a limited resource farmer or a farmer who is otherwise eligible for loan assistance under subtitle A of this title, the Secretary shall take appropriate steps to provide such a farmer with reasonable assistance, including refinancing of the original loan, to help ensure that the transfer will occur. Within sixty days after the enactment of the Food and Agriculture Act of 1985, the Secretary shall adopt interim regulations to implement this subsection. Such interim regulations shall be subject to public comment and final promulgation as soon as practicable.".

IMPROVEMENT OF FARMERS HOME ADMINISTRATION APPEALS PROCEDURE

SEC. 1305. (a) The Secretary of Agriculture shall conduct a study regarding the administrative appeals procedure applicable to the farm loan programs of the Farmers Home Administration. In conducting the study, the Secretary shall examine—

(1) the number and type of appeals initiated by borrowers;

(2) the extent to which initial administrative actions are reversed on appeal;

(3) the reasons that administrative actions are reversed, modified, or sustained on appeal;

(4) the number of appeals in which the borrower is represented by legal counsel, and the extent to which such representation may affect the outcome of the appeal;

(5) the amount of time required to complete action on appeals and the reasons for delays;

(6) the feasibility of the use of administrative law judges in the appeals process; and

(7) the desirability of electing Farmers Home Administration county committee members.

(b) The Secretary shall submit a report containing the results of study required by subsection (a) of this section to the House Committee on Agriculture and the Senate Committee on Agriculture, Nutrition, and Forestry not later than September 1, 1986.

Subtitle B—Task Force on Agricultural Credit

SHORT TITLE

SEC. 1306. This subtitle may be cited as the "Agricultural Credit Task Force Act of 1985."

ESTABLISHMENT OF AGRICULTURAL CREDIT TASK FORCE

SEC. 1307. (a) There is established a National Task Force on Agricultural Credit to conduct a study of the credit problems confronting United States agricultural producers and related businesses.

(b)(1) The task force shall be composed of fifteen persons appointed or designated by the President and selected as follows:

(A) the President shall select five members; and

(B) the Speaker of the House of Representatives and the majority leader of the Senate shall each select five members.

(2) In selecting persons as members of the task force, the President, the Speaker, and the majority leader shall endeavor to ensure that the task force has a balanced membership representing all major functions in agriculture, such as farmers, suppliers, marketers, and lenders.

(c) A vacancy in the task force shall be filled in the manner in which the original appointment was made.

(d) The task force shall elect a chairman from among the members of the task force.

(e) The task force shall meet at the call of the chairman or a majority of the task force.

CONDUCT OF STUDY

SEC. 1308. The task force shall—

(1) identify and describe the components of the existing agricultural credit system;

(2) identify and describe the credit needs of agricultural producers and related businesses; and

(3) evaluate the ability of the existing agricultural credit system to meet the credit needs of agricultural producers.

SEC. 1309. (a) On the basis of its study, the task force shall make findings and develop recommendations for consideration by the President and Congress with respect to the agriculture-related credit policies, programs, and practices of the United States, and the manner in which such policies, programs, and practices can be improved to ensure that United States agricultural producers obtain adequate credit at interest rates conducive to debt servicing and profitmaking.

(b) The task force shall submit to the President and Congress—

(1) such interim reports on its work as may be requested by the chairman of the House Committee on Agriculture or the chairman of the Senate Committee on Agriculture, Nutrition, and Forestry; and

(2) a report containing the final results of its study and recommendations therefrom by July 1, 1986.

ADMINISTRATION

SEC. 1310. (a) The heads of executive agencies, the General Accounting Office, and the Congressional Budget Office shall, to the extent permitted by law, provide the task force such information as it may require in carrying out its duties and function.

(b) Members of the task force shall serve without any additional compensation for work on the task force. However, members appointed from among private citizens of the United States may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the Government service under sections 5701 through 5707 of title 5, United States Code.

(c) Upon request of the task force, the Secretary of Agriculture and the Governor of the Farm Credit Administration shall furnish the task force with such personnel

and support services as are necessary to assist the task force in carrying out its duties and functions.

(d) Upon request of the task force, the heads of other Executive agencies and the General Accounting Office are each authorized to furnish the task force with such personnel and support services as the head of the agency or office and the chairman of the task force agree are necessary to assist the task force in carrying out its duties and functions.

(e) The task force shall not be required to pay or reimburse any agency or office for personnel and support services provided under this section.

TERMINATION

SEC. 1311. The task force shall terminate sixty days after the transmission of its final report to the President and Congress.

Subtitle C—Farm Credit System

PROTECTION OF STOCK OF FARM CREDIT ASSOCIATIONS

SEC. 1312. Section 4.1 of the Farm Credit Act of 1971 is amended by adding at the end thereof new subsections (d), (e), and (f) as follows:

"(d) Notwithstanding any other provision of law—

"(1) the revolving funds referred to in subsections (a) and (b) of this section shall be available to the Governor of the Farm Credit Administration for the purpose of alleviating the effects of the impairment of (A) outstanding Federal land bank association stock that was required to be purchased by Federal land bank borrowers as security for Federal land bank loans under this Act and (B) any outstanding production credit association stock, or participation certificates issued in lieu of stock, that was required to be purchased by production credit association members-borrowers as security for financial assistance from production credit associations under this Act;

"(2) the Governor of the Farm Credit shall disperse money from the funds available under paragraph (1) of this subsection in such amounts as the Governor deems necessary to alleviate of effects of the impairment of borrower-owned stock of any Federal land bank association or borrower-owned stock or participation certificates of any production credit association to the Federal land bank or the Federal intermediate credit bank, respectively, that is responsible for the supervision of the association involved; and

"(3) money dispersed by the Governor under paragraph (2) of this subsection to a Federal land bank or a Federal intermediate credit bank shall be loaned on a nonrecourse basis by the bank under regulations prescribed by the Farm Credit Administration to the holder stock or participation certificates of an association in liquidation under this Act if—

"(A) the holder of the stock or participation certificates is not subject to any bankruptcy or other legal proceeding under which the stock or participation certificates have been attached or assigned to another person;

"(B) the holder pledges of such stock or participation certificates as security of the loan under this subsection and assigns all rights that the holder may have to any subsequent distribution from the assets the association on the basis of such stock or participation certificates to the bank; and

"(C) the holder of the stock agrees that the proceeds of any loan made under this subsection be applied toward the repayment of any outstanding obligation of the holder to the association, or any other association or the bank operating under the same title of this Act as the association involved, to the extent of such obligation.

"(e) Any amounts received by a bank from the distribution of association assets under subparagraph (3)(B) of the subsection (d) shall be deposited in one of the revolving funds referred to in subsection (a) or (b) in the manner that the Governor of the Farm Credit Administration may require.

"(f) Notwithstanding any other provision of law, if the Governor of the Farm Credit Administration distributes any of the funds available under subsection (d) of this section, the Farm Credit Administration shall, at the end of the fiscal year in which such distribution was made, determine the amounts by which such funds were depleted during such fiscal year and assess the Federal land banks and the Federal intermediate credit banks such amounts as to restore the funds to the level that they were on the date of enactment of the Agricultural and Food Assistance Act of 1985, except as otherwise provided in this subsection. Any assessment of the banks shall be collected by the Farm Credit Administration during the following fiscal year unless the Governor of the Farm Credit Administration finds that collection of the assessment, or any part thereof, during such fiscal year would adversely affect the interests of the Farm Credit System, in which case the assessment, or such part thereof, may be collected during any subsequent fiscal year as the Farm Credit Administration may require. The amounts so collected by the Farm Credit Administration shall be deposited in the funds referred to in subsections (a) and (b) of this section in the same ratio as amounts were dispersed therefrom. The Farm Credit Administration shall apportion the amounts to be assessed, and collected from, the banks under this subsection on such the basis Farm Credit Administration determines to be fair and reasonable taking into consideration, among other things, the financial condition of the banks to be assessed and the extent to which distributions were made under subsection (d) of this section to banks operating under the same title of this Act.".

TITLE XIV—AGRICULTURAL RESEARCH AND EXTENSION

SHORT TITLE

SEC. 1401. This title may be cited as the "National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1985".

FINDINGS

SEC. 1402. Section 1402 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101) is amended by—

(1) striking out "and" at the end of clause (10);

(2) striking out the period at the end of clause (11) and inserting in lieu thereof "; and"; and

(3) adding at the end thereof a new clause as follows:

"(12) The Nation's agricultural system is increasingly dependent on science and technology to maintain and improve productivity levels, manage the resource base, provide high quality products, and protect the environment; and a constant supply of food and agricultural scientific expertise is imperative to maintain this dynamic system.".

DEFINITIONS

SEC. 1403. Section 1404(8) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103(8)) is amended by—

(1) striking out "and" at the end of clause (II);

(2) adding "and" to the end of clause (I); and

(3) adding a new clause as follows:

"(J) international food and agricultural issues such as agricultural development, institution development, germ plasm collection and preservation, information exchange and storage, and scientific exchanges;".

JOINT COUNCIL OF FOOD AND AGRICULTURAL SCIENCES

SEC. 1404. Section 1407(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3122(a)) is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1989".

NATIONAL AGRICULTURAL RESEARCH AND EXTENSION USERS ADVISORY BOARD

SEC. 1405. Section 1408(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3123(a)) is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1989".

FEDERAL-STATE PARTNERSHIP AND COORDINATION

SEC. 1406. Section 1409A(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3124a) is amended by—

(1) striking out "and" at the end of clause (2);

(2) striking out the period at the end of clause (3) and inserting in lieu thereof ";", and

(3) adding a new paragraph (4) as follows:

"(4) international agricultural programs under title XII of the Foreign Assistance Act of 1961, as amended (22 U.S.C. 2220a).".

SECRETARY'S REPORT

SEC. 1407. Section 1410 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3125) is amended by—

(1) adding "and" immediately after the semicolon at the end of clause (2);

(2) striking out the semicolon and "and" at the end of paragraph (3) and inserting in lieu thereof a period; and

(3) striking out clause (4).

COMPETITIVE SPECIAL AND FACILITIES RESEARCH GRANTS

SEC. 1408. Section 2 of the Act of August 4, 1965 (7 U.S.C. 450i) is amended by—

(1) striking out the last sentence in subsection (b) and inserting in lieu thereof the following: "There are hereby authorized to be appropriated annually for the purpose of carrying out the provisions of this subsection, such sums as many be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, and not in excess of such sums as may be authorized by law for any subsequent fiscal year."; and

(2) adding at the end thereof a new subsection (i) to read as follows:

"(i) The Federal Advisory Committee Act and title XVIII of the Food and Agriculture Act of 1977 shall not apply to panels or boards created for the purpose of reviewing applications or proposals submitted under the provisions of this section.".

RESEARCH FACILITIES ACT

SEC. 1409. (a) Section 1 of the Act of July 22, 1963 (7 U.S.C. 390) is amended by—

(1) inserting "and equipment" after "finance physical facilities"; and

(2) striking out "an adequate research program" and inserting in lieu thereof "agricultural research and related academic programs".

(b) Section 3 of the Act of July 22, 1963 (7 U.S.C. 390b) is amended by—

(1) inserting "the District of Columbia, Guam, the Virgin Islands of the United States, American Samoa, and Micronesia" after "Puerto Rico" in clause (1); and

(2) inserting "forestry, or veterinary medicine" after "to conduct agricultural," in clause (2).

(c) Section 4 of the Act of July 22, 1963 (7 U.S.C. 390c) is amended by—

(1) striking out all after "in section 1 of this Act," in subsection (a) and inserting in lieu thereof: "such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, and not in excess of such sums as may be authorized by law for any subsequent fiscal year.

(d) Section 7 of the Act of July 22, 1963 (7 U.S.C. 390f) is amended by inserting "equipment and" after "multiple-purpose", and inserting "and related programs, including forestry and veterinary medicine," after "food and agricultural research".

GRANTS AND FELLOWSHIPS FOR FOOD AND AGRICULTURAL SCIENCES EDUCATION

SEC. 1410. (a) Section 1417(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3152(a)) is amended by—

(1) striking out "Such grants shall be made without regard to matching funds, but each" in paragraph (2) and inserting in lieu thereof "Each"; and

(2) striking out the last sentence in paragraph (3) and inserting in lieu thereof "Each recipient institution shall have a significant ongoing commitment to the food and generally and to the specific subject area for which such a grant is to be used.".

(b) Section 1417(d) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3152(d)) is amended by striking out all after "provisions of this section" and inserting in lieu thereof "such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, and not in excess of such sums as may be authorized by law for any subsequent fiscal year.".

STUDY

SEC. 1411. (a) Section 1424 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3174) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out "Sec. 1424. Study." and inserting in lieu thereof "Sec. 1424. Repealed.".

HUMAN NUTRITION RESEARCH AND INFORMATION MANAGEMENT SYSTEM

SEC. 1412. (a) Section 1427 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3177) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out "Sec. 1427. Report to Congress." and inserting in lieu thereof "Sec. 1427. Repealed.".

ANIMAL HEALTH SCIENCE RESEARCH ADVISORY BOARD

SEC. 1413. Section 1432 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3194) is amended by striking out "1985" and inserting in lieu thereof "1989".

APPROPRIATIONS FOR CONTINUING ANIMAL HEALTH AND DISEASE RESEARCH PROGRAMS

SEC. 1414. Section 1433(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3195(a)) is amended by striking out "1985" and inserting in lieu thereof "1989".

APPROPRIATIONS FOR RESEARCH ON NATIONAL OR REGIONAL PROBLEMS

SEC. 1415. Section 1434(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3196(a)) is amended by striking out "1985" and inserting in lieu thereof "1989".

EXTENSION AT 1890 LAND-GRANT COLLEGES, INCLUDING TUSKEGEE INSTITUTE

SEC. 1416. Section 1444(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3221(a)) is amended by striking out ", through the fiscal year ending September 30, 1985," in the third sentence.

AUTHORITY TO AWARD GRANTS TO UPGRADE 1890 LAND-GRANT COLLEGE EXTENSION FACILITIES

SEC. 1417. (a) It is hereby declared to be the intent of Congress to assist the institutions eligible to receive funds under the act of August 30, 1890 (7 U.S.C. 321, et seq.), including Tuskegee Institute (hereinafter referred to in this section as "eligible institutions"), in the acquisition and improvement of extension facilities and equipment so that eligible institutions may participate fully with the State Cooperative Extension Services in a balanced way in meeting the extension needs of the people of their respective States.

(b) There are authorized to be appropriated for the purpose of carrying out the provisions of this section $10,000,000 for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, such sums to remain available until expended.

(c) Four per centum of the sums appropriated under this section shall be available to the Secretary for administration of the grants program under this section. The remaining funds shall be made available for grants to the eligible institutions for the purpose of assisting them in the purchase of equipment and land, and the planning, construction, alteration, or renovation of buildings to provide adequate facilities to conduct extension work in their prospective States.

(d) Grants awarded under this section shall be made in such amounts and under such terms and conditions as the Secretary shall determine necessary for carrying out the purposes of this section.

(e) Federal funds provided under this section may not be used for the payment of any overhead costs of the eligible institutions.

(f) The Secretary may promulgate such rules and regulations as the Secretary may deem necessary to carry out the provisions of this section.

AGRICULTURAL RESEARCH AT 1890 LAND-GRANT COLLEGES, INCLUDING TUSKEGEE

SEC. 1418. Section 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3222) is amended by adding at the end of subsection (a) the following: "No more than 5 per centum of the funds received by an institution in any fiscal year, under the provisions of this section, may be carried forward to the succeeding fiscal year."

INTERNATIONAL AGRICULTURAL RESEARCH AND EXTENSION

SEC. 1419. Section 1458(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3291(a)) is amended by—

(1) striking out "the training" in clause (3) and inserting in lieu thereof "technical assistance and the training and advising"; and

(2) inserting "through the development of highly qualified scientists with specialization in international development" in paragraph (4) after "countries".

WEATHER AND WATER ALLOCATION STUDY

SEC. 1420. (a) Section 1460 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3302) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out "Sec. 1460. Weather and Water Allocation Study." and inserting in lieu thereof "Sec. 1460. Repealed.".

ORGANIC FARMING STUDY

SEC. 1421. (a) Section 1461 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3303) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out "Sec. 1461. Organic Farming Study." and inserting in lieu thereof "Sec. 1461. Repealed.".

AGRICULTURAL RESEARCH FACILITIES STUDY

SEC. 1422. (a) Section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3304) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out "Sec. 1462. Agriculture Research Facilities Study." and inserting in lieu thereof "Sec. 1462. Repealed.".

AUTHORIZATION FOR APPROPRIATIONS FOR EXISTING AND CERTAIN AGRICULTURAL RESEARCH PROGRAMS

SEC. 1423. (a) Section 1463(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3311(a)) is amended by striking out all after "of this section," and inserting in lieu thereof: "such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, and not in excess of such sums as may be authorized by law for any subsequent fiscal year.".

(b) Section 1463(b) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3311(b)) is amended by striking out "$120,000,000" and all that follows thereafter through "September 30, 1985" and inserting in lieu thereof: "such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, and not in excess of such sums as may be authorized by law for any subsequent fiscal year.".

AUTHORIZATION FOR APPROPRIATIONS FOR EXTENSION EDUCATION

SEC. 1424. Section 1464 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3312) is amended to read as follows:

"SEC. 1464. Notwithstanding any authorization for appropriations for extension and related programs administered by or funded through the Extension Service in this or any other Act, there are hereby authorized to be appropriated for such purposes such sums as may be necessary for each of the fiscal year ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989, and not in excess of such sums as may be authorized by law for any subsequent fiscal year.".

GENERAL AUTHORITY TO ENTER INTO CONTRACTS, GRANTS, AND COOPERATIVE AGREEMENTS

SEC. 1425. Section 1472 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3318), is amended by—

(1) redesignating subsections (b), (c), and (d) as (c), (d), and (e) respectively; and

(2) inserting a new subsection (b) to read as follows:

"(b) Notwithstanding the provisions of chapter 63 of title 31, United States Code, the Secretary is authorized to use a cooperative agreement as the legal instrument reflecting a relationship between the Department of Agriculture and State cooperative institutions, as defined in section 1404(16) of this Act, State Departments of Agriculture, all colleges and universities, other research or education institutions and organizations, Federal and private agencies and organizations, individuals and any other party, when the Secretary determines that the objectives of the agreement will serve a mutual interest of the parties to the agreement in agricultural research, extension, and teaching activities, including statistical reporting, and that all parties will contribute resources to the accomplishment of those objectives. Notwithstanding any other provision of law, any Federal agency may participate in such cooperative agreements by contributing funds through the appropriate agency of the Department of Agriculture or otherwise when it is mutually agreed that the objectives of any such agreement will further the authorized programs of the contributing agency.".

RESTRICTION ON TREATMENT OF INDIRECT COSTS AND TUTION REMISSION

SEC. 1426. Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3318) is amended by inserting at the end thereof the following: "The prohibition on the use of funds for the reimbursement of indirect costs shall not apply to funds transferred, advanced, or reimbursed to the Department of Agriculture under the provisions of the Foreign Assistance Act of 1961, as amended. For agreements involving the use of such funds, the amount of indirect costs to be reimbursed shall be negotiated on a case-by-case basis.".

AQUACULTURE ADVISORY BOARD

SEC. 1427. Section 1476 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3324) is amended by striking out "1985" and inserting in lieu thereof "1989".

AUTHORIZATION OF APPROPRIATIONS

SEC. 1928. Section 1477 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3324) is amended by striking out "1985" and inserting in lieu thereof "1989".

RANGELAND RESEARCH ADVISORY BOARD

SEC. 1429. Section 1482 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3335) is amended by striking out "1985" and inserting in lieu thereof "1989".

APPROPRIATIONS

SEC. 1430. Section 1483 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3336) is amended by striking out "1981" and inserting in lieu thereof "1986" and striking out "1985" and inserting in lieu thereof "1989".

AGRICULTURAL RESEARCH IN 1890 LAND-GRANT COLLEGES, INCLUDING TUSKEGEE INSTITUTE

SEC. 1431. Section 1432(b)(5) of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 3222 note) is amended by striking out all after "ending" through "September 30, 1985," and inserting in lieu thereof "September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989.".

AUTHORITY TO AWARD GRANTS TO UPGRADE 1890 LAND-GRANT COLLEGE RESEARCH FACILITIES

SEC. 1432. (a) Section 1433(a) of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 3223(a)) is amended by inserting ", including agricultural libraries", after "research facilities and equipment".

(b) Section 1433(b) of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 3223(b)) is amended by—

(1) striking out "and" before "September 30, 1986"; and

(2) inserting "and September 30, 1987," after "1986,".

SOYBEAN RESEARCH ADVISORY INSTITUTE

SEC. 1433. Section 1446 of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 2281 note) is repealed.

TITLE XV—FOOD STAMPS

SHORT TITLE

SEC. 1501. This title may be cited as the "Food Stamp Act of 1977 Amendments of 1985".

PREPARED MEALS FOR THE ELDERLY AND DISABLED

SEC. 1502. Section 3(g) of the Food Stamp Act of 1977 (7 U.S.C. 2012(g)) is amended by striking out "contract with the appropriate agency of the State to offer meals for such persons at concessional prices" in clause (3) and inserting in lieu thereof "offer meals to such persons at low or concessional prices under such terms and conditions as may be prescribed by the Secretary".

DEFINITION OF HOUSEHOLD

SEC. 1503. Section 3(i) of the Food Stamp Act of 1977 (7 U.S.C. 2012(i)) is amended by striking out ", if the income (as determined under section 5(d)) of the others, excluding the spouse, does not exceed the poverty line, as described in section 5(c)(1), by more than 65 per centum" in the second sentence.

THRIFTY FOOD PLAN

SEC. 1504. The section 3(o) of the Food Stamp Act of 1977 (7 U.S.C. 2012(o)) is amended by inserting after the first sentence the following new sentences: "Notwithstanding the preceding sentence, the Secretary shall increase the amounts of foods in the thrifty food plan in effect on the date of enactment of the "Agricultural and Food Assistance Act of 1985" in such a manner that the nutritional value of the plan is increased by five per cent. In so increasing the amounts of foods in the plan, the Secretary shall ensure that the increase in the amounts of foods in the plan is distributed among the various food groups in a manner that does not violate the nutritional integrity of the plan, and if the Secretary should subsequently revise the plan, the amounts of foods in any such revised plan shall not be less than the amounts in the thrify food plan under the preceding sentence.".

DEFINITION OF DISABLED MEMBER OF A HOUSEHOLD

SEC. 1505. Section 3(r) of the Food Stamp Act of 1977 (7 U.S.C. 2012(r)) is amended by—

(1) inserting "or" after the semicolon at the end of clause (1); and

(2) striking out clauses (2) through (5) and inserting in lieu thereof a new clause (2) as follows:

"(2) receives benefits, assistance, or payments under any Federal or State statute based on a determination of blindness or disability under criteria that the Secretary determines are the same as, or provide for substantially the same degree of disability or blindness as, the criteria for disability or blindness in sections 216(i) and 223(d) of the Social Security Act (42 U.S.C. 416(i) and 423(d)).".

CATEGORICAL ELIGIBILITY FOR CERTAIN HOUSEHOLDS

SEC. 1506. (a) Section 5(a) of the Food Stamp Act of 1977 (7 U.S.C. 2014(a)) is amended by inserting "(1)" after the subsection designation and adding at the end thereof a new paragraph (2) as follows:

"(2) Any household that has applied for assistance under this Act and in which each member is a recipient of benefits under a State plan approved under Part A of title IV of the Social Security Act, or supplmental security income benefits under title I, X, XIV, or XVI of the Social Security Act, shall be deemed to meet the requirements of this section and section 6 of this Act except for (A) the requirements set out in subsection (b), (f), and (g) of section 6 and (B) if the household contains an individual described in section 6(f)(2)(B), the income and resource requirements of subsections (a) through (i) of this section.".

(b) Section 11(i) of the Food Stamp Act of 1977 (7 U.S.C. 2020(i)) is amended by adding at the end thereof the following new sentence: "No household shall have its application to participate in the food stamp program denied or its benefits under the food stamp program terminated solely on the basis that its application to participate has been denied or its benefits have been terminated under any of the programs carried out under the statutes specified in section 5(a)(2) without a separate determination by the State agency that the household fails to satisfy the eligibility requirements for participation in the food stamp program under this Act.".

(c) Section 11(j) of the Food Stamp Act of 1977 is amended by adding at the end thereof a new sentence as follows: "The Secretary of Agriculture and the Secretary of Health and Human Services shall revise the memorandum of understanding in effect on the date of enactment of the "Agricultural and Food Assistance Act of 1985", regarding services to be provided in social security offices under this subsection and subsection (i), in a manner to ensure that applicants for and recipients of social security benefits are adequately notified in social security of-

fices of assistance that may be available to them under this Act and that applications for assistance under this Act from such applicants or recipients will be processed in such offices in an efficient and timely manner.".

(d) Section 17(d) of the Food Stamp Act of 1977 (7 US.C. 2026(d)) is repealed.

DEDUCTIONS FROM INCOME

SEC. 1507. Section 5(e) of the Food Stamp Act of 1977 (7 U.S.C. 2014(e)) is amended by—

(1) striking out "18 per centum" in the third sentence and inserting in lieu thereof "20 per centum";

(2) in the fourth sentence—

(A) striking out "or" at the end of clause (1) and inserting in lieu thereof "and"; and

(B) striking out ", or" at the end of clause (2) and all that follows down to the period at the end of the sentence; and

(3) striking out "exclusive of special diets, that exceed $35 a month" in clause (A) of the eighth sentence and inserting in lieu thereof "including any additional expenses resulting from physician-prescribed special dietary programs, that exceed 5 per centum of the household income".

PROSPECTIVE AND RETROSPECTIVE ACCOUNTING

SEC. 1508. (a) Section 5(f)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2014(f)(2)) is amended by—

(1) amending subparagraph (B) to read as follows:

"(B) Household income for all other households shall be calculated either on a prospective basis as provided in paragraph (3)(A) or on a retrospective basis as provided in paragraph (3)(B), as elected by the State agency under regulations prescribed by the Secretary."; and

(2) striking out subparagraph (C).

(b) the first sentence of section 6(c)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2015(c)(1)) is amended by inserting "that elect to use a system of retrospective accounting in accordance with section 5(f) of this Act" after "State agencies".

ASSETS

SEC. 1509. (a) Section 5(g) of the Food Stamp Act of 1977 (7 U.S.C. 2014(g)) is amended by—

(1) in the first sentence striking out "$1,500" and "$3,000" and inserting in lieu thereof "$2,250" and "$3,500", respectively; and

(2) in the second sentence

(A) striking out "$4,500" and inserting in lieu thereof "$5,500"; and

(B) adding before the period at the end thereof the following: "other than burial expense funds under conditions described in 42 U.S.C. 1382b(d) with respect to households with a member who is sixty years or older or a recipient of benefits under title XVI of the Social Security Act".

COUPON ISSUANCE

SEC. 1510. Section 11(e) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)) is amended by—

(1) redesignating paragraphs (20) and (21) as paragraphs (21) and (22), respectively; and

(2) inserting, after paragraph (19), a new paragraph (20) as follows:

"(20) at the option of the State agency, for the staggered issuance of coupons to recipients throughout the month: *Provided*, That, in the case of the initial or any subsequent change in the date of issuance to a household under this paragraph, there shall be no more than thirty-five days between issuances of coupons to the household;".

EDUCATIONAL ACTIVITIES FOR HOUSEHOLDS WITH ELDERLY, DISABLED, OR YOUNG MEMBERS

SEC. 1511. Section 11(e)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(1)) is amended by inserting after the word "activities" in subparagraph (A) the following: ", except those educational activities directed at households that include at least one member who is elderly or disabled or under six years of age,".

HOMELESS PERSONS

SEC. 1512. (a) The first sentence of section 3(i) of the Food Stamp Act of 1977 (7 U.S.C. 2012(i)) is amended by—

(1) striking out "home" in clause (1) and inserting in lieu thereof "his or hers"; and

(2) striking out "home" at each place it appears in clause (2) and inserting in lieu thereof "their own".

(b) Section 11(e)(5) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(5)) is amended by inserting, before the semicolon at the end thereof, the following: ", and the specific methods to be used by the State agency for certifying, and issuing coupons to, an eligible household that does not reside at a permanent dwelling or does not have a fixed mailing address".

HOURS OF OPERATIONS

SEC. 1513. Section 16(b) of the Food Stamp Act of 1977 (7 U.S.C. 2015(b)) is amended by inserting "including standards for periodic review of the hours that food stamp offices are to opened during the day, week, or month to ensure that persons who are employed are adequately served," after the comma at the end of clause (1).

REFUND OF STATE SALES TAX

SEC. 1514. Section 16 of the Food Stamp Act of 1977 (7 U.S.C. 2025) is amended by adding at the end thereof a new subsection (h) as follows:

"(h)(1) If a State participates in the food stamp program in any fiscal year and in such fiscal year imposes a tax on the retail sale of food purchased with coupons (other than a tax on prepared food sold by restaurants or similar establishments and purchased with coupons, as authorized by this Act), the State shall transfer to the Secretary of the Treasury as soon as practicable after the end of such fiscal year, but not later than the end of the following fiscal year unless a longer period of time is authorized for the transfer by the Secretary of the Treasury, an amount equal to the total value of coupons redeemed during the fiscal year by retail food stores in the State, as determined by the Secretary, multiplied by the rate of tax imposed by the State on the sale of food purchased with coupons. The amount required to be transferred by the preceding sentence may be adjusted by the Secretary to reflect (A) any change in the rate of the tax during the fiscal year, (B) the portion of any refund for overissuance of coupons collected by the State agency during the fiscal year that can be attributable to tax paid on food purchased in the State with such coupons, (C) the number of retail food stores in the State whose sales involving payment with coupons are not subject to the tax, and (D) the portion of the coupons redeemed in the State during the fiscal year that the Secretary determines were not redeemed for food purchases.

"(2) If a State fails to transfer to the Secretary of the Treasury the amount of funds described in paragraph (1)—

"(A) the Secretary of the Treasury shall notify the Secretary of such failure; and

"(B) the Secretary may withhold, from funds that the State would otherwise be entitled to receive under subsection (a), the amount that the State failed to pay.".

AUTHORIZATION FOR APPROPRIATIONS

SEC. 1515. The first sentence of section 18(a)(1) of the Food Stamp Act of 1977 is amended by—

(1) striking out "and" after "September 30, 1984"; and

(2) inserting before the period at the end thereof the following: "; and such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989.".

EFFECTIVE DATES

SEC. 1516. (a) Except as provided in this section, provisions of this title shall take effect on the October 1, 1985.

(b) The provisions of section 1504 shall take effect on the date of enactment of this title, and, within sixty days thereafter, the Secretary of Agriculture shall make the revision to the thrifty food plan required by such section.

(c) The provisions of section 1506(c) shall take effect on the date of enactment of this title, and, within sixty days thereafter, the Secretary of Agriculture and the Secretary of Health and Human Services shall make the revision to the memorandum of understanding required by such section.

TITLE XVI—COMMODITY DISTRIBUTION

EXTENSION OF THE COMMODITY DISTRIBUTION PROGRAM

SEC. 1601. Effective October 1, 1985, the first sentence of section 4(a) of the Agriculture and Consumer Protection Act of 1973 is amended by striking out "1982, 1983, 1984, and 1985," and inserting in lieu thereof "1986, 1987, 1988, and 1989,".

EXTENSION OF THE COMMODITY SUPPLEMENTAL FOOD PROGRAM

SEC. 1602. Effective October 1, 1985, the first sentence of section 4(a) of the Agriculture and Consumer Protection Act of 1973 is amended by striking out "1982, 1983, 1984, and 1985," and inserting in lieu thereof "1986, 1987, 1988, and 1989,".

DISTRIBUTION OF SURPLUS COMMODITIES

SEC. 1603. Section 1114(a) of the Agriculture and Food Act of 1981 is amended after the first sentence by inserting new sentences as follows: "Commodities made available under this section shall include, but not be limited to, dairy products, wheat or wheat products, rice, honey, and cornmeal. The Secretary shall furnish quarterly reports to Congress, beginning January 1, 1986, on the stocks of commodities and amounts thereof available for distribution under this section."

EXTENSION OF THE TEMPORARY EMERGENCY FOOD ASSISTANCE ACT OF 1983

SEC. 1604. Effective October 1, 1985, the Temporary Emergency Food Assistance Act of 1983 is amended by—

(1) in section 202(a), inserting at the end thereof new sentences as follows: "Commodities made available under this Act shall include, but not be limited to, dairy products, wheat or wheat products, rice, honey, and cornmeal. The Secretary shall furnish quarterly reports to Congress, beginning on January 1, 1986, on the stocks of commodities and amounts thereof available for distribution under this Act.";

(2) in section 203(B)(b), inserting after the first sentence a new sentence as follows:

"State agencies shall encourage distribution of such commodities in rural areas.";

(3) striking out section 204(a);

(4) redesignating subsection (b) and (c) of section 204 as (a) and (b), respectively;

(5) in section 204(a), as redesignated, striking out "$50,000,000 for each of the fiscal years ending September 30, 1984 and September 30, 1985" and inserting in lieu thereof "$65,000,000 for each of the fiscal years beginning October 1, 1985 and October 1, 1986";

(6) in section 210, amending subsection (c) to read as follows:

"(c) The Secretary shall, not later than October 1, 1985 and October 1, 1986, publish in the Federal Register an estimate of the types and quantities of commodities that the Secretary anticipates are likely to be made available under this Act during the fiscal years ending September 30, 1986 and September 30, 1987, respectively: *Provided*, That the actual types and quantities of commodities made available under this Act may differ from the estimates."; and

(7) in section 212, striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1987".

NATIONAL DONATED COMMODITY PROCESSING PROGRAMS

SEC. 1605. For the period beginning July 1, 1985 and ending October 15, 1987, whenever a commodity is made available without charge or credit under any nutrition program administered by the Secretary of Agriculture, the Secretary shall encourage consumption of such commodities through agreements with private companies under which the commodity is reprocessed into end food products for use by eligible recipient agencies. The expense of such reprocessing shall be paid by such eligible recipient agencies.

(b) To be eligible to enter into any agreement with the Secretary of Agriculture under subsection (a), a private company shall annually settle all accounts with the Secretary and any appropriate State agency regarding commodities processed under such an agreement.

SUMMARY OF FARM BILL

Title I. Amends section 416 of the Agricultural Act of 1949 to require that surplus commodities be channeled through U.S. nonprofit agencies in order to enhance the effectiveness of U.S. food assistance in developing countries; provides for additional mechanisms to promote U.S. trade interests; provides for a Presidential Special Assistant for Food Aid and Trade; and also extends Public Law 480 and the Food Security Wheat Reserve.

Title II. Contains provisions relating to soil conservation. Included among the provisions are the following:

(1) Sense of Congress supporting the Soil Conservation Service.

(2) Prohibition against persons who bring highly erodible land into agricultural production from receiving Federal agricultural program benefits.

(3) Authorization for a long-term conservation reserve to assist owners and operators to establish conservation practices on erosion-prone land.

(4) Establishment of a Soil and Water Conservation Fund in which individuals can direct a portion of their Federal income tax to be used for soil and water conservation purposes.

Title III. Extends wool and mohair price support program for four years and authorize foreign promotion for wool and sheep and products thereof.

Title IV. Extends wheat program for four years. Loan rate and target prices at 1985 levels with required adjustment in target prices for inflation.

Title V. Extends the feed grain program for four years. Loan rate and target prices at 1985 levels with required adjustment in target prices for inflation.

Title VI. Extends the rice program for four years. Loan rate and target prices at 1985 levels with required adjustment in target prices for inflation.

Title VII. Extends the upland cotton program for four years. Loan rate and target prices at 1985 levels with required adjustment in target prices for inflation.

Title VIII. Extends the peanut program, with certain changes, for four years. The national poundage quota for peanuts would be set at a level to meet domestic needs but could not be less than 1.1 million tons.

Title IX. Extends sugar price support program for four years with a quarter cent per pound annual increase.

Title X. Extends soybean price support program for four years.

Title XI. Extends dairy program for two years at level set on July 1, 1985, following two years will be indexed based on certain formula.

Title XII. Contains various miscellaneous provisions relating to the 1986 through 1989 crops. Included among these provisions are as following:

(1) Authorization of advance deficiency payments for wheat, feed grains, upland cotton, and rice.

(2) Extension of current payment limitation to the 1986 through 1989 wheat, feed grain, upland cotton, and rice programs.

(3) Extension of special grazing and hay program for four years.

Title XIII. Contains various provisions relating to agricultural credit. Included among these provisions are the following:

(1) Authorization for the Farmers Home Administration to use the resources of the Agricultural Credit Insurance Fund to provide $200 million in matching funds to States that implement a program to buy down the interest rate on loans made by commercial or cooperative lenders to limited resource farmers.

(2) Authorization for the Farmers Home Administration to use special financing terms—including leases with options to buy and low-interest, long-term financing—to dispose of farm property in inventory to limited resource farmers.

(3) Authorization for the Farm Credit Administration to use resolving funds currently available to the agency for investment in Farm Credit institutions to alleviate impairment of stock of Federal land associations and production credit associations.

Title XIV. Extends for four years certain agricultural research, extension, and teaching programs administered by the Secretary of Agriculture, including animal health and disease research programs.

Title XV. Extends food stamp program for four years with certain improvements to make the program more available to the elderly and disabled and to enact some of the recommendations of the President's Task Force on Food Assistance.

Title XVI. Extends the commodity distribution program; the commodity supplemental feeding program; national donated commodity processing programs; and the temporary emergency food assistance program. State administrative funds would be increased for the temporary emergency food assistance program to $65 million for each fiscal year.

By Mr. LEVIN (for himself and Mr. GRASSLEY):

S. 1120. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for additions to reserves for refunds of beverage container deposits; to the Committee on Finance.

TAX TREATMENT OF BEVERAGE CONTAINER DEPOSITS

● Mr. LEVIN. Mr. President, today I am introducing legislation along with Senator GRASSLEY to change the current tax treatment of refundable beverage container deposits received by wholesale beverage distributors in States with mandatory beverage container deposit laws. This bill is identical to the legislation we introduced during the last Congress. The effect of this legislation would be to eliminate an unfair tax liability now imposed on wholesale distributors in those States.

At present, nine States—Michigan, Iowa, Oregon, Massachusetts, Vermont, Maine, Connecticut, Delaware, and New York—have enacted laws requiring deposits on beverage containers in order to reduce the litter resulting from the discard of those containers. Because of the experience of these States and the success of the mandatory deposit laws in reducing litter, several additional States are considering adoption of similar laws.

It is obvious that the success of these laws is derived from the financial incentive of consumers to return the beverage containers to obtain their deposits. The refundable deposits were never intended to be a source of taxable income to wholesale distributors. However, the Internal Revenue Service, in Revenue ruling 78-273, is interpreting the Tax Code in a manner that treats deposits as taxable income and thereby increases the tax liability of distributors.

Under the IRS interpretation, deposits are taxable income when received; that is, when the retail store pays the deposit and purchases beverages in returnable containers from the wholesale distributor. The deposits refunded to the retailer are a deductible expense to the distributor only in the year when those containers are actually returned by the retailer to the distributor.

During most of the year, there is a "matching" of deposits collected on beverage containers with deposits refunded on the return of those same beverage containers. Consequently, there is no tax liability associated with the deposits—until the last 6 weeks or so of the year. Beverage containers sold during this period will generally not be returned until the following year. However, deposits collected on these beverage containers become fully taxable because the IRS allows

wholesale distributors a deductible expense for the deposits to be refunded on these containers only when the containers are actually returned in the following year. This requirement places wholesale distributors in the position of having to report a substantial amount of deposits as taxable income even though the deposits are soon to be refunded.

The IRS supports its interpretation by arguing that the sale of beverages in containers with a State-mandated deposit is also a sale of the beverage container; that is, the deposit represents the price of the container and not a true deposit in the sense that it secures a property interest in the containers by the wholesale distributor.

By the same token, according to the IRS, the return of empty beverage containers by the retailer constitutes a sale of the containers to the wholesale distributor, who "repurchases" the containers. Although the State laws require the wholesale distributor to refund the deposits when the containers are returned, the retailer is under no obligation to return the containers. Because the return of the containers is only a contingent liability to the wholesale distributor, the "all events test," which establishes the criteria for deducting an expense for tax purposes, is not met. Under the all events test, an expense is deductible if all the events have occurred that: First, determine the face of the liability, and second, the amount of such liability can be determined with reasonable accuracy.

The IRS's interpretation regarding the tax treatment of State-mandated beverage container deposits was not changed by the Deficit Reduction Act. Under the act, the general rule relating to "premature accruals" provides "that, in determining whether an amount has been incurred with respect to any item during the taxable year by a taxpayer using the accrual method of accounting, all the events which establish liability for such amount generally are not to be treated as having occurred any earlier than the time economic performance occurs." In general, "economic performance" occurs where the liability arises as a result of goods and services being provided to the taxpayer, or the taxpayer provides goods and services to another person. This provision is consistent with the IRS interpretation, and the exception to the general rule did not cover wholesale beverage distributors, because the return of the containers was a contingent liability and, as a result, did not satisfy the "fact of the liability" feature of the all events test.

While there is no legal obligation of the retailers to return the empty beverage containers, there is an "economic reality" for retailers to do so and reclaim their deposits. Return of the containers is not a contingency in fact. In the normal course of its business operation, the wholesale distributor would deliver full beverage containers and pick-up the empty containers on a regular basis. A retailer has no reason to retain the empty beverage containers since their only value—other than scrap—is the deposit previously paid. It is this economic reality that is the basis for the success of the mandatory beverage container deposit laws.

The legislation we are introducing today would allow wholesale distributors a current tax deduction for the deposits which must be refunded, even though the refund occurs in the following year. This would serve to offset the fully taxable deposits in the year received. The legislation would also properly require that distributors pay taxes on that portion of the deposits collected during the year from beverage containers that will never be returned because of loss or destruction.

By enacting this legislation, the Congress would remove an unintended tax consequence that would not exist in the absence of mandatory beverage container deposit laws. In addition, the legislation would be in keeping with a number of amendments to the Tax Code that help businesses comply with environmental laws.

Last year, we asked the Joint Committee on Taxation to prepare a revenue loss estimate for this legislation. The committee estimated that the revenue loss over 5 years would amount to $46 million for tax years after 1984.

During consideration of the Deficit Reduction Act, Senator GRASSLEY and I brought the issue of the tax treatment of State-mandated beverage container deposits to the attention of Senator DOLE, the then chairman of the Senate Finance Committee, who agreed to hold a hearing on this matter. However, time constraints did not permit that hearing. We intend to renew our request to the new chairman of the Finance Committee, and hope this legislation will provide the vehicle for hearings by the committee. I also hope that Members of the Senate from States with mandatory beverage container deposit laws will join us in cosponsoring this legislation.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1120

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. RESERVE FOR REFUNDS OF BEVERAGE CONTAINER DEPOSITS.

Section 162 (relating to trade or business expenses) is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (i) the following new subsection:

"(j) RESERVE FOR REFUNDS OF BEVERAGE CONTAINER DEPOSITS.—

"(1) IN GENERAL.—If—

"(A) all deposits received by a wholesale distributor of beverages with respect to any type of beverage container are included in the gross income of such distributor for the taxable year in which such deposits are received by such distributor, and

"(B) such distributor elects the application of this subsection,

there shall be allowed as a deduction a reasonable addition to a reserve for refunds of such deposits. Such deduction shall be in lieu of any deduction allowable to such distributor under subsection (a) with respect to such refunds.

"(2) LIMITATION ON AMOUNT OF DEDUCTION ALLOWABLE FOR INITIAL TAXABLE YEAR.—The Secretary shall prescribe regulations which—

"(A) limit the amount of the deduction allowable to the taxpayer under paragraph (1) for the first taxable year for which the taxpayer elects the application of this subsection, and

"(B) allow the excess of—

"(i) the amount of the deduction which would have been allowed the taxpayer under paragraph (1) for such taxable year if the limitation described in subparagraph (A) did not apply, over

"(ii) the amount allowed the taxpayer under paragraph (1) for such taxable year,

to be carried forward to each of the 9 taxable years succeeding such taxable year and, to the extent provided in such regulations, be allowed as a deduction under paragraph (1) for each of the taxable years to which such excess is carried.

"(3) ELECTION.—

"(A) IN GENERAL.—An election under this subsection shall be made at such time and in such manner as the Secretary shall prescribe by regulations. Once a distributor elects the application of this subsection for a taxable year, such election shall apply to all subsequent taxable years unless the Secretary consents to the revocation of such election.

"(B) METHOD OF ACCOUNTING.—Notwithstanding any other provision of this title, an election may be made under this subsection by any wholesale distributor of beverages without regard to the general method of accounting under which such distributor computes his taxable income.".

SEC. 2. EFFECTIVE DATE.

The amendments made by this Act shall apply to taxable years beginning after December 31, 1985.●

By Mr. ANDREWS:

S. 1121. A bill to amend the United States Grain Standards Act to encourage foreign agricultural trade by improving the quality of grain shipped from U.S. export elevator facilities; to the Committee on Agriculture, Nutrition, and Forestry.

HIGH QUALITY GRAIN FOR FOREIGN TRADE

Mr. ANDREWS. Mr. President, I rise today to introduce legislation which will help ensure that our export grain is of the highest possible quality. Our farmers, as well as their customers, should be able to rely upon the fact that our grain which is high quality when produced retains its quality when shipped overseas.

In the past, we all have heard horror stories about the quality of our exported grain. Sand, oyster shells, and gravel being mixed into the grain, and mixtures, and so forth. It is no wonder that potential customers would be reluctant to purchase our grain.

All farmers are greatly irritated by these stories of poor quality deliveries overseas. I know from my personal experience, that if I deliver inferior quality grain to my load elevator in North Dakota, I would be made painfully aware of that fact in a hurry—through a discounted price for that grain. I would like to say that my profit suffers, but we all know that the profit disappeared from agriculture several years ago.

Foreign purchasers of our grain should be able to purchase the same high quality grain delivered by our farmers to their load elevator. If they order clean, high quality American grain, they should receive it. Purchasers should not receive an inferior grade, or one mixed with foreign materials. Our farmers know that their livelihoods depend on satisfying the customer. Without customer satisfaction, good customers disappear. Loss of export markets is bad for all parties; the exporter, the local elevator, the producers, and the American economy.

Mr. President, the bill I am introducing today accomplishes two things. First, it prohibits the addition of any grain related material, such as grain dust, or frost damaged kernels to the export shipment unless required to conform to the specifications of the export contract. Second, it totally prohibits the addition of any nongrain material, except for treatments used to suppress dust, or for insect and fungi control.

Mr. President, there have been several bills introduced to deal with the quality problem over the past 10 years, but the grain industry has not viewed such legislation as an adequate solution to the problem. I believe that my bill provides a solution that all parties can find acceptable. This is accomplished by simply reasserting the sanctity of contract and preventing admixtures, the buyer and seller should determine the terms of a contract they can be comfortable with, and then abide by them.

Our agricultural export market is one of the few potential bright spots we have on the trade horizon. We must take pains to nurture that market, and I feel that this legislation is a definite step in the right direction.

By Mr. GRASSLEY:

S. 1122. A bill to modify the project for flood protection on the Chariton River, Iowa and Missouri, to direct the Secretary of the Army to sell storage space in Rathbun Lake, IA, to the Rathbun Regional Water Association, and for other purposes; to the Committee on Environmental and Public Works.

MODIFICATION OF FLOOD PROTECTION PROJECT AT RATHBUN LAKE, IOWA

● Mr. GRASSLEY. Mr. President, I am introducing today a bill that would lower the price at which the U.S. Army Corps of Engineers can sell water from the Rathbun Lake in Iowa to the Rathbun Regional Water Association. This bill would direct the Corps of Engineers to set the price of water at replacement costs in 1975, which was the year in which the Rathbun Regional Water Association first asked the corps to approve a 50-year contract to purchase water from Rathbun Lake. Because of the need to conduct a storage reallocation study for the reservoir, however, the corps instead offered an interim agreement almost 10 years ago and has only recently proposed a long-term contract.

I support the corps' policy of requiring users to pay reasonable costs for water sold from Federal impoundments. But I do not feel that the Rathbun region should be penalized for the corps' inaction in completing a study in a timely fashion. The Rathbun Regional Water Association should be allowed to purchase water at the cost that it would have paid when it first asked for a long-term contract for water, rather than at current costs when the corps is finally willing to move ahead with a contract.

Over 30,000 customers in southeastern Iowa rely on the Rathbun Lake for water for human and livestock consumption, many of which have suffered hardship as a result of recent drought. These residents should not be further disadvantaged by inequitable treatment by the corps for the price of water that they are forced to pay. This bill is identical to a measure that was introduced in the last Congress by my colleague, Mr. Jepsen, and it is my hope that this body can support the passage of the bill in the 99th Congress.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD as follows:

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1122

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the project for flood protection on the Chariton River, Iowa and Missouri, authorized by section 203 of the Flood Control Act of 1954 (68 Stat. 1262), is modified to authorize and direct the Secretary of the Army, acting through the Chief of Engineers, to sell to the Rathbun Regional Water Association, Incorporated, a sufficient number of acre-feet of storage space from Rathbun Lake, Iowa, to yield to such association one billion five hundred million gallons of water annually based on a 90 per centum chance of sufficient water being available from such lake. Such sale of storage space shall be subject to such terms and conditions as such Secretary and association may agree to under existing law, except that the construction costs of such project allocated to water supply required to be repaid under section 301(b) of the Water Supply Act of 1958 and the interest and amortization rate used to calculate the annual financial cost shall be the same as those used in contract number DACW41-76-C-0031 entered into by the United States and such association and approved by the Assistant Secretary of the Army for Civil Works on October 10, 1975.●

By Mr. GRASSLEY:

S. 1123. A bill to affirm the authority of the Congress to approve the design of currency; to the Committee on Banking, Housing, and Urban Affairs.

CURRENCY DESIGN ACT

● Mr. GRASSLEY. Mr. President, today I introduce the Currency Design Act of 1985. This measure would authorize Congress to approve the design of U.S. currency and coins.

The Department of the Treasury has been studying different currency design to thwart counterfeiting. As the present time, Treasury has not decided on a new currency or printed up new bills or minted new coins. Treasury is however considering background tints, holograms, and security threads as possible anticounterfeit measures. Other contemplated changes include the addition of a second color to our currency, making it more difficult to reproduce.

The technological advances in color copiers will make it possible for anyone with access to these machines to produce high-quality counterfeit currency. A recent study commissioned by the Federal Reserve System completed by the Battell Columbus Laboratories of Columbus, OH, estimates that 20 percent of those with access to such copiers would use them to supplement their income.

While I am concerned about the ease of producing counterfeit currency and the proliferation of counterfeit bills, I am also concerned about the ramifications of the Treasury Department approving a currency design without the approval of the people of the United States. The Constitution gives the Congress authority over the money of the United States. The opinions and concerns of the people should be represented by their elected legislators. In the past, currency changes have met with less than enthusiastic support of the people of this country. I am speaking of the Susan B. Anthony dollar and the $2 bill. Over half of the 497 million Susan B. Anthony coins minted are sitting idle. Millions of dollars have been spent in printing, distributing, and now storing the $2 bill. The public did not want this new currency and coin, but they did not have an opportunity to express themselves through their elected representatives.

I urge my colleagues to look carefully at the provisions of the Currency Design Act of 1985, and urge their support of this measure. I ask unanimous consent that the text of this legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S.1123

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Currency Design Act."

DESIGN OF CURRENCY

SEC. 2. The eighth paragraph of section 16 of the Federal Reserve Act (12 U.S.C. 418) is amended by adding at the end thereof the following: "Notwithstanding any other provision of law, the Secretary of the Treasury shall not adopt any new form, tenor, or design of such notes after January 1, 1984, unless such new form, tenor, or design has been authorized by law.".

DESIGN OF COINS

SEC. 3. Section 5112(d)(2) of title 31, United States Code, is amended by striking out the second and third sentences and inserting in lieu thereof the following: "The Secretary shall not adopt any new design for coins unless such new design has been authorized by law. The Secretary shall not mint any such new coin unless the design has been approved by the Commission of Fine Arts.".●

By Mr. BIDEN:

S.J. Res. 134. Joint resolution to designate "National Safety in the Workplace Week"; to the Committee on the Judiciary.

NATIONAL SAFETY IN THE WORKPLACE WEEK

Mr. BIDEN. Mr. President, today I am introducing a joint resolution that would designate June 16 through June 22, 1985, as "National Safety in the Workplace Week."

Current industry figures show that there are approximately 11,300 employee deaths and nearly 1.9 million injured employees in workplace accidents that cost American business more than $33 billion annually.

This year the American Society of Safety Engineers, one of the largest safety organizations in this country representing safety professionals from virtually every major corporation, has enlisted the support of the National Council on Safety and the Occupational Safety and Health Administration in providing a broader forum in which to promote safety programs. Working with management, they hope to increase awareness of safety programs, presenting the employer and employee with the risks and hazards in their workplace thereby reducing accidents, increasing job effectiveness, and ultimately increasing their financial benefits.

I applaud the efforts of the private sector in promoting the economic health of the Nation through effective safety programs.

Mr. President, I ask unanimous consent that the text of the joint resolution be printed in the RECORD.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

S.J. RES. 134

Whereas the National Safety Council statistics indicate that workplace accidents accounted for eleven thousand three hundred employee deaths and one million nine hundred thousand employee injuries during 1983;

Whereas such accidents caused immeasurable pain and suffering to victims and their families;

Whereas the cost of occupational accidents amounted to over $33,400,000,000 in losses to American industry during 1983;

Whereas the American Society of Safety Engineers and other safety and health organizations continue to promote occupational safety in all industries; and

Whereas this endeavor is worthy of support and cooperation so that the toll of workplace injuries and deaths will be reduced: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of June 16, 1985, through June 22, 1985, is designated as "National Safety in the Workplace Week," and the President is authorized and requested to issue a proclamation commemorating the efforts of organizations which promote safety and health for the American worker and calling upon all government agencies and the people of the United States to observe the week with appropriate programs, ceremonies, and activities.

ADDITIONAL COSPONSORS

S. 12

At the request of Mr. MOYNIHAN, the name of the Senator from South Carolina [Mr. HOLLINGS] was added as a cosponsor of S. 12, a bill to protect communications among Americans from interception by foreign governments, and for other purposes.

S. 68

At the request of Mr. PRYOR, the name of the Senator from Iowa [Mr. HARKIN] was added as a cosponsor of S. 68, a bill to prohibit the use of appropriated funds for the production of lethal binary chemical weapons; to express the sense of the Congress on achieving an international agreement to ban the production and stockpiling of chemical weapons; and to express the further sense of the Congress encouraging the improvement of defenses against the effects of the use of chemical weapons on the Armed Forces of the United States.

S. 415

At the request of Mr. WEICKER, the name of the Senator from Ohio [Mr. METZENBAUM] was added as a cosponsor of S. 415, a bill to amend the Education of the Handicapped Act to authorize the award of reasonable attorney's fees to certain prevailing parties, and to clarify the effect of the Education of the Handicapped Act of rights, procedures, and remedies under other laws relating to the prohibition of discrimination.

S. 491

At the request of Mr. QUAYLE, the names of the Senator from Wisconsin [Mr. PROXMIRE], and the Senator from Maryland [Mr. SARBANES] were added as cosponsors of S. 491, A bill to improve debt-collection activities and default recoveries and to reduce collection costs and program abuse under student loan programs administered by the Department of Education and for other purposes.

S. 657

At the request of Mr. THURMOND, the names of the Senator from New Mexico [Mr. BINGAMAN], and the Senator from New York [Mr. D'AMATO] were added as cosponsors of S. 657, A bill to establish the Veterans' Administration as an executive department.

S. 825

At the request of Mr. PRESSLER, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of S. 825, a bill to amend the Immigration and Nationality Act to provide for a program for the waiver of the visa requirement in the case of nonimmigrant tourists from certain countries.

S. 930

At the request of Mr. NICKLES, the name of the Senator from South Carolina [Mr. THURMOND] was added as a cosponsor of S. 930, a bill to amend the Commodity Credit Corporation Charter to exempt all agricultural exports from cargo preference requirements.

S. 945

At the request of Mr. THURMOND, the name of the Senator from Montana [Mr. BAUCUS] was added as a cosponsor of S. 945, a bill to recognize the organization known as the National Association of State Directors of Veterans' Affairs, Incorporated.

S. 975

At the request of Mr. DOMENICI, the name of the Senator from Massachusetts [Mr. KERRY] Senator from Oklahoma [Mr. NICKLES], and the Senator from Arkansas [Mr. BUMPERS], were added as cosponsors of S. 975, a bill to amend the Securities Exchange Act of 1934 to provide a moratorium on hostile corporate takeovers financed by "junk" securities, to prohibit federally insured institutions from holding "junk" securities, and for other purposes.

S. 1016

At the request of Mr. PROXMIRE, the name of the Senator from Pennsylvania [Mr. HEINZ], was added as a cosponsor of S. 1016, a bill to amend the Federal Deposit Insurance Act and the National Housing Act with respect to junk bonds.

S. 1039

At the request of Mr. CRANSTON, the name of the Senator from Arkansas [Mr. BUMPERS], was added as a cosponsor of S. 1039, a bill entitled the "Ocean Incineration Research Act of 1985".

S. 1093

At the request of Mr. MATHIAS, the name of the Senator from Nebraska [Mr. ZORINSKY], was added as a cosponsor of S. 1093, a bill to amend the patent law to restore the term of the patent grant in the case of certain products for the time of the regulatory review period preventing the marketing of the product claimed in a patent.

SENATE JOINT RESOLUTION 13

At the request of Mr. THURMOND, the name of the Senator from Kentucky [Mr. MCCONNELL], was added as a cosponsor of Senate Joint Resolution 13, a joint resolution proposing an amendment to the Constitution relating to a Federal balanced budget and tax limitation.

SENATE JOINT RESOLUTION 32

At the request of Mr. PRESSLER, the name of the Senator from Vermont [Mr. STAFFORD] was added as a cosponsor of Senate Joint Resolution 32, a joint resolution to authorize and request the President to designate September 15, 1985, as "Ethnic American Day."

SENATE JOINT RESOLUTION 34

At the request of Mr. QUAYLE, the name of the Senator from South Carolina [Mr. HOLLINGS] was added as a cosponsor of Senate Joint Resolution 34, a joint resolution to designate the week of October 6, 1985, through October 12, 1985, as "National Children's Week."

SENATE JOINT RESOLUTION 57

At the request of Mr. CHILES, the names of the Senator from Vermont [Mr. LEAHY], and the Senator from Vermont [Mr. STAFFORD] were added as cosponsors of Senate Joint Resolution 57, a joint resolution to designate the week of October 20, 1985, through October 26, 1985, as "Lupus Awareness Week."

SENATE JOINT RESOLUTION 67

At the request of Mr. QUAYLE, the names of the Senator from Mississippi [Mr. STENNIS], and the Senator from Montana [Mr. BAUCUS] were added as cosponsors of Senate Joint Resolution 67, a joint resolution to designate the week of October 6, 1985, through October 12, 1985, as "Mental Illness Awareness Week."

SENATE JOINT RESOLUTION 87

At the request of Mr. MURKOWSKI, the name of the Senator from Indiana [Mr. QUAYLE] was added as a cosponsor of Senate Joint Resolution 87, a joint resolution to provide for the designation of July 19, 1985, as "National P.O.W./M.I.A. Recognition Day."

SENATE JOINT RESOLUTION 88

At the request of Mr. LEVIN, the names of the Senator from Vermont [Mr. LEAHY], and the Senator from Nevada [Mr. LAXALT] were added as cosponsors of Senate Joint Resolution 88, a joint resolution to designate the week beginning September 8, 1985, as "National Osteopathic Medicine Week".

SENATE JOINT RESOLUTION 102

At the request of Mr. ZORINSKY, the name of the Senator from Washington [Mr. GORTON] was added as a cosponsor of Senate Joint Resolution 102, a joint resolution to establish a National Commission on Illiteracy.

SENATE JOINT RESOLUTION 108

At the request of Mr. WARNER, the names of the Senator from Indiana [Mr. QUAYLE], the Senator from Arkansas [Mr. PRYOR], the Senator from West Virginia [Mr. BYRD], the Senator from California [Mr. CRANSTON], the Senator from Maine [Mr. COHEN], the Senator from New York [Mr. D'AMATO], the Senator from Iowa [Mr. GRASSLEY], the Senator from Washington, [Mr. EVANS], and the Senator from New Mexico [Mr. BINGAMAN] were added as cosponsors of Senate Joint Resolution 108, a joint resolution authorizing the Secretary of Defense to provide to the Soviet Union, on a reimbursable basis, equipment and services necessary for an improved United States/Soviet Direct Communication Link for crisis control.

SENATE JOINT RESOLUTION 130

At the request of Mr. QUAYLE, the name of the Senator from Minnesota [Mr. DURENBERGER] was added as a cosponsor of Senate Joint Resolution 130, a joint resolution designating the week beginning on November 10, 1985, as "National Blood Pressure Awareness Week".

SENATE CONCURRENT RESOLUTION 24

At the request of Mr. MATTINGLY, the name of the Senator from Mississippi [Mr. COCHRAN] was added as a cosponsor of Senate Concurrent Resolution 24, a concurrent resolution to direct the Commissioner of Social Security and the Secretary of Health and Human Services to develop a plan outlining the steps which might be taken to correct the social security benefit disparity known as the notch problem.

SENATE CONCURRENT RESOLUTION 45

At the request of Mr. D'AMATO, the name of the Senator from Oklahoma [Mr. BOREN] was added as a cosponsor of Senate Concurrent Resolution 45, a concurrent resolution condemning the actions of the Nicaraguan Government that hinder freedom of religion.

SENATE RESOLUTION 112

At the request of Mr. COHEN, the name of the Senator from Oklahoma [Mr. BOREN] was added as a cosponsor of Senate Resolution 112, a resolution relating to bilateral discussions between the United States and the Soviet Union to ban chemical weapons.

SENATE RESOLUTION 148

At the request of Mr. HELMS, the names of the Senator from Alabama [Mr. DENTON], the Senator from Arizona [Mr. GOLDWATER], the Senator from Louisiana [Mr. JOHNSTON], the Senator from Alaska [Mr. MURKOWSKI], the Senator from Oklahoma [Mr. NICKLES], the Senator from Oregon [Mr. PACKWOOD], and the Senator from Ohio [Mr. GLENN] were added as cosponsors of Senate Resolution 148, a resolution commemorating the fiftieth anniversary of the Rural Electrification Administration.

AMENDMENT NO. 59

At the request of Mr. SPECTER, the names of the Senator from Maryland [Mr. SARBANES], the Senator from Pennsylvania [Mr. HEINZ], the Senator from Nebraska [Mr. EXON], the Senator from Rhode Island [Mr. PELL], the Senator from Nebraska [Mr. ZORINSKY], the Senator from Maryland [Mr. MATHIAS], the Senator from Michigan [Mr. LEVIN], the Senator from Minnesota [Mr. DURENBERGER], and the Senator from Delaware [Mr. ROTH] were added as cosponsors of amendment No. 59 proposed to Senate Concurrent Resolution 32, an original concurrent resolution setting forth the congressional budget for the U.S. Government for the fiscal years 1986, 1987, and 1988, and revising the congressional budget for the U.S. Government for the fiscal year 1985.

SENATE RESOLUTION 159—ORIGINAL RESOLUTION REPORTED TO ESTABLISH A SELECT COMMITTEE TO STUDY AND MAKE RECOMMENDATIONS WITH RESPECT TO A 2-YEAR BUDGET PROCESS

Mr. MATHIAS, from the Committee on Rules and Administration, reported the following original resolution; which was placed on the calendar:

S. RES. 159

Resolved, That (a) there is established, for the duration of the first session of the Ninety-ninth Congress, a select committee of the Senate to be known as the Select Committee on the Two-Year Budget (hereafter in this resolution referred to as the "select committee"). The select committee shall be composed of twelve members of the Senate, six from the majority party and six from the minority party, to be appointed by the President of the Senate upon the recommendation of the majority leader and the minority leader.

(b) Of the twelve members—

(1) two members shall be from the Committee on the Budget;

(2) two members shall be from the Committee on Rules and Administration;

(3) two members shall be from the Committee on Governmental Affairs;

(4) two members shall be from the Committee on Appropriations; and

(5) four members shall be from the Senate at large.

(c) The select committee shall select a chairman from among its majority members and a cochairman from among its minority members.

SEC. 2. (a) A majority of the members of the select committee shall constitute a quorum for the transaction of business, except that the select committee may fix a lesser number as a quorum for the purpose of taking sworn testimony.

(b) Vacancies in the membership of the select committee shall not affect the authority of the remaining members to execute the functions of the committee, and shall be filled in the same manner as original appointments are made.

(c) The select committee shall adopt rules of procedure not inconsistent with the rules of the Senate governing standing committees of the Senate.

(d) Service of a Senator as a member or as chairman of the select committee shall not be taken into account for the purposes of paragraph 4 of rule XXV of the Standing Rules of the Senate.

SEC. 3. (a) It shall be the duty of the select committee to—

(1) study and review legislative proposals to improve the operation of the congressional budget process, including proposals for the two-year budget; and

(2) recommend specific legislation to improve the operation and enforcement of the congressional budget process, including such components of two-year budgeting which the select committee finds to be desirable and feasible.

In carrying out clause (1) of this subsection, the select committee shall pay particular attention to the need to free the time of Senators from unnecessary repetitive operations, to encourage oversight of enacted legislation by committees, to provide stable funding expectations to State and local governments, and to maintain accurate budgetary estimates and assessments of national needs and priorities.

(b) The select committee shall report and make recommendations to the Senate within 180 days after the adoption of this resolution.

SEC. 4. (a) For the purposes of this resolution, the select committee is authorized (1) to employ personnel, (2) to make expenditures from the contingent fund of the Senate, (3) to hold hearings, and (4) to sit and act at any time or place.

(b) With the consent of the chairman and ranking minority member of any other committee of the Senate, the select committee may utilize the facilities and the services of the staff of such other committee of the Senate, or any subcommittee thereof, whenever the chairman and the cochairman of the select committee determines that such action is necessary and appropriate.

SEC. 5. Expenses of the select committee under this resolution shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman of the select committee, except that vouchers shall not be required (1) for the disbursement of salaries of employees of the select committee who are paid at an annual rate, or, (2) for the payment of long-distance telephone calls. Total expenditures for the select committee shall not exceed $300,000.

SENATE RESOLUTION 160—PROMOTING AGRICULTURE

Mr. MELCHER submitted the following resolution; which was referred to the Committee on Agriculture, Nutrition, and Forestry:

S. RES. 160

"Whereas farm income has declined precipitously, and

"Whereas all major agricultural commodity prices are lower in purchasing power now than in 1980, and

"Whereas agricultural exports declined in 1984 with indications of further declines in this calendar year, and

"Whereas agricultural banks and Production Credit Associations are classifying an increasing number of their agricultural operating loans and an increasing number of agricultural borrowers are being liquidated or foreclosed, and

"Whereas communities in rural agricultural areas are suffering from the effects of the loss of business from their hard pressed farm customers causing a rising number of local business closures, liquidations or bankruptcies, and

"Whereas these same farm and small business failures are causing financial losses in agri-business suppliers which results in additional curtailments or closures of these businesses, and

"Whereas these business curtailments or closures are resulting in loss of jobs, therefore, be it,

Resolved, That it is the sense of the Senate that the President should appoint a bi-partisan Commission composed of agricultural producers and organizations to consider during the next 120 days the urgent needs of agriculture and make recommendations to the President and the appropriate Committee of Congress to correct the crisis of declining net farm income.

AMENDMENTS SUBMITTED

FIRST CONCURRENT RESOLUTION ON THE BUDGET

GRASSLEY (AND OTHERS) AMENDMENT NO. 72

(Ordered to lie on the table.)

Mr. GRASSLEY (for himself, Mr. HATFIELD, and Mr. EAGLETON) submitted an amendment intended to be proposed by them to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32) setting forth the congressional budget for the U.S. Government for fiscal years 1986, 1987, and 1988 and revising the congressional budget for the U.S. Government for the fiscal year 1985; as follows:

On page 3, increase the amount on line 12 by $400,000,000.

On page 3, increase the amount on line 13 by $400,000,000.

On page 3, increase the amount on line 14 by $400,000,000.

On page 3, increase the amount on line 18 by $300,000,000.

On page 3, increase the amount on line 19 by $400,000,000.

On page 3, increase the amount on line 20 by $400,000,000.

On page 3, increase the amount on line 25 by $300,000,000.

On page 4, increase the amount on line 1 by $400,000,000.

On page 4, increase the amount on line 2 by $400,000,000.

On page 4, increase the amount on line 6 by $300,000,000.

On page 4, increase the amount on line 7 by $700,000,000.

On page 4, increase the amount on line 8 by $1,100,000,000.

On page 4, increase the amount on line 12 by $300,000,000.

On page 4, increase the amount on line 13 by $400,000,000.

On page 4, increase the amount on line 14 by $400,000,000.

On page 19, increase the amount on line 21 by $400,000,000.

On page 19, increase the amount on line 22 by $300,000,000.

On page 20, increase the amount on line 6 by $400,000,000.

On page 20, increase the amount on line 7 by $400,000,000.

On page 20, increase the amount on line 15 by $400,000,000.

On page 20, increase the amount on line 16 by $400,000,000.

On page 42, decrease the first amount on line 6 by $386,000,000.

On page 42, decrease the second amount on line 6 by $274,000,000.

On page 42, decrease the amount on line 7 by $409,000,000.

On page 42, decrease the amount on line 8 by $402,000,000.

On page 42, decrease the first amount on line 9 by $427,000,000.

On page 42, decrease the second amount on line 9 by $422,000,000.

On page 45, decrease the amount on line 21 by $386,000,000.

On page 45, decrease the amount on line 22 by $274,000,000.

On page 45, decrease the first amount on line 23 by $409,000,000.

On page 45, decrease the second amount on line 23 by $402,000,000.

On page 45, decrease the amount on line 24 by $427,000,000.

On page 45, decrease the amount on line 25 by $422,000,000.

On page 52, increase the amount on line 1 by $400,000,000.

On page 52, increase the amount on line 3 by $400,000,000.

On page 52, increase the amount on line 4 by $400,000,000.

DIXON (AND OTHERS) AMENDMENT NO. 73

Mr. DIXON (for himself, Mr. KENNEDY, and Mr. MOYNIHAN) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

On page 3, increase the amount on line 12 by $160,000,000.

On page 3, increase the amount on line 13 by $160,000,000.

On page 3, decrease the amount on line 14 by $160,000,000.

On page 3, increase the amount on line 19 by $144,000,000.

On page 3, increase the amount on line 20 by $160,000,000.
On page 4, increase the amount on line 1 by $144,000,000.
On page 4, increase the amount on line 2 by $160,000,000.
On page 4, increase the amount on line 7 by $144,000,000.
On page 4, increase the amount on line 8 by $304,000,000.
On page 4, increase the amount on line 13 by $144,000,000.
On page 4, increase the amount on line 14 by $160,000,000.
On page 19, increase the amount on line 21 by $160,000,000.
On page 20, increase the amount on line 6 by $160,000,000.
On page 20, increase the amount on line 7 by $144,000,000.
On page 20, increase the amount on line 15 by $160,000,000.
On page 20, increase the amount on line 16 by $160,000,000.
On page 42, decrease the first amount on line 6 by $160,000,000.
On page 42, decrease the amount on line 7 by $160,000,000.
On page 42, decrease the amount on line 8 by $144,000,000.
On page 42, decrease the first amount on line 9 by $160,000,000.
On page 42, decrease the second amount on line 9 by $160,000,000.
On page 45, decrease the amount on line 21 by $160,000,000.
On page 45, decrease the first amount on line 23 by $160,000,000.
On page 45, decrease the second amount on line 23 by $144,000,000.
On page 45, decrease the amount on line 24 by $160,000,000.
On page 45, decrease the amount on line 25 by $160,000,000.
On page 52, increase the amount on line 1 by $160,000,000.
On page 52, decrease the amount on line 3 by $160,000,000.
On page 52, decrease the amount on line 4 by $160,000,000.

DIXON (AND OTHERS) AMENDMENT NO. 74

(Ordered to lie on the table.)

Mr. DIXON (for himself, Mr. HEINZ, Mr. KENNEDY, Mr. KERRY, and Mr. MOYNIHAN) submitted an amendment intended to be proposed by them to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

On page 3, increase the amount on line 12 by $110,000,000.
On page 3, increase the amount on line 13 by $110,000,000.
On page 3, increase the amount on line 14 by $110,000,000.
On page 3, increase the amount on line 18 by $110,000,000.
On page 3, increase the amount on line 19 by $110,000,000.
On page 3, increase/decrease the amount on line 20 by $110,000,000.
On page 3, increase the amount on line 25 by $110,000,000.
On page 4, increase the amount on line 1 by $110,000,000.
On page 4, increase the amount on line 2 by $110,000,000.
On page 4, increase the amount on line 6 by $110,000,000.
On page 4, increase the amount on line 7 by $220,000,000.
On page 4, increase the amount on line 8 by $330,000,000.
On page 4, increase the amount on line 12 by $110,000,000.
On page 4, increase the amount on line 13 by $110,000,000.
On page 4, increase the amount on line 14 by $110,000,000.
On page 24, increase the amount on line 2 by $110,000,000.
On page 24, increase the amount on line 3 by $110,000,000.
On page 24, increase the amount on line 12 by $110,000,000.
On page 24, increase the amount on line 13 by $110,000,000.
On page 24, increase the amount on line 22 by $110,000,000.
On page 24, increase the amount on line 23 by $110,000,000.
On page 52, increase the amount on line 1 by $110,000,000.
On page 52, increase the amount on line 3 by $110,000,000.
On page 52, increase the amount on line 4 by $110,000,000.

CRANSTON (AND OTHERS) AMENDMENT NO. 75

Mr. CRANSTON (for himself, Mr. MATSUNAGA, Mr. DECONCINI, Mr. MITCHELL, Mr. ROCKEFELLER, Mr. INOUYE, Mr. SARBANES, Mr. KENNEDY, Mr. EXON, Mr. RIEGLE, Mr. LEAHY, Mr. BURDICK, Mr. BINGAMAN, Mr. ZORINSKY, Mr. HOLLINGS, and Mr. BYRD) proposed an amendment, which was subsequently modified, to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32) supra; as follows:

In the pending amendment, do the following:
On page 3, increase the amount on line 12 by $500,000,000.
On page 3, increase the amount on line 13 by $900,000,000.
On page 3, increase the amount on line 14 by $1,200,000,000.
On page 3, increase the amount on line 13 by $600,000,000.
On page 3, increase the amount on line 19 by $1,100,000,000.
On page 3, increase the amount on line 20 by $1,400,000,000.
On page 3, increase the amount on line 25 by $600,000,000.
On page 4, increase the amount on line 1 by $1,100,000,000.
On page 4, increase the amount on line 2 by $1,400,000,000.
On page 4, increase the amount on line 6 by $600,000,000.
On page 4, increase the amount on line 7 by $1,700,000,000.
On page 4, increase the amount on line 8 by $3,100,000,000.
On page 4, increase the amount on line 12 by $600,000,000.
On page 4, increase the amount on line 13 by $1,100,000,000.
On page 4, increase the amount on line 14 by $1,400,000,000.
On page 27 strike out the amount on line 4 and insert in lieu thereof "$27,600,000,000".
On page 27 strike out the amount on line 5 and insert in lieu thereof "$27,100,000,000".
On page 27 strike out the amount on line 13 and insert in lieu thereof "$28,200,000,000".
On page 27 strike out the amount on line 14 and insert in lieu thereof "$27,800,000,000".
On page 27 strike out the amount on line 22 and insert in lieu thereof "$28,700,000,000".
On page 27 strike out the amount on line 23 and insert in lieu thereof "$28,400,000,000".
On page 33, increase the amount on line 2 by $100,000,000.
On page 33, increase the amount on line 3 by $100,000,000.
On page 33, increase the amount on line 11 by $200,000,000.
On page 33, increase the amount on line 12 by $200,000,000.
On page 43 strike out the amount on line 7 and insert in lieu thereof "$292,000,000".
On page 43, strike out the amount on line 8 and insert in lieu thereof "$310,000,000".
On page 43, strike out the amount on line 9 and insert in lieu thereof "$199,000,000".
On page 43, strike out the second amount on line 9 and insert in lieu thereof "$199,000,000".
On page 43, strike out the amount on line 10 and insert in lieu thereof "$177,000,000".
On page 43, strike out the amount on line 11 and insert in lieu thereof "$253,000,000".
On page 50, strike out the amount on line 18 and insert in lieu thereof "$292,000,000".
On page 50, strike out the amount on line 19 and insert in lieu thereof "$130,000,000".
On page 50, strike out the amount on line 20 and insert in lieu thereof "$199,000,000".
On page 50, strike out the second amount on line 20 and insert in lieu thereof "$199,000,000".
On page 50, strike out the amount on line 21 and insert in lieu thereof "$177,000,000".
On page 50, strike out the amount on line 22 and insert in lieu thereof "$253,000,000".
On page 52, increase the amount on line 1 by "$400,000,000".
On page 52, increase the amount on line 3 by "$424,000,000".
On page 52, increase the amount on line 4 by "$461,000,000".

ABDNOR AMENDMENT NO. 76

(Ordered to lie on the table.)

Mr. ABDNOR submitted an amendment intended to be proposed by him to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:
On page 3, increase the amount on line 12 by "$200,000,000".
On page 3, increase the amount on line 13 by "$200,000,000".
On page 3, increase the amount on line 14 by "$200,000,000".
On page 3, increase the amount on line 18 by "$100,000,000".
On page 3, increase the amount on line 19 by "$100,000,000".
On page 3, increase the amount on line 20 by "$200,000,000".
On page 3, increase the amount on line 25 by "$100,000,000".
On page 4, increase the amount on line 1 by "$100,000,000".

On page 4, increase the amount on line 2 by "$200,000,000".
On page 4, increase the amount on line 6 by "$100,000,000".
On page 4, increase the amount on line 7 by "$200,000,000".
On page 4, increase the amount on line 8 by $400,000,000.
On page 4, increase the amount on line 12 by $100,000,000.
On page 4, increase the amount on line 13 by $100,000,000.
On page 4, increase the amount on line 14 by $200,000,000.
On page 19, increase the amount on line 21 by $200,000,000.
On page 19, increase the amount on line 22 by $100,000,000.
On page 20, increase the amount on line 6 by $200,000,000.
On page 20, increase the amount on line 7 by $100,000,000.
On page 20, increase the amount on line 15 by $200,000,000.
On page 20, increase the amount on line 16 by $200,000,000.
On page 42, decrease the first amount on line 6 by $187,000,000.
On page 42, decrease the second amount on line 6 by $148,000,000.
On page 42, decrease the amount on line 7 by $188,000,000.
On page 42, decrease the amount on line 8 by $174,000,000.
On page 42, decrease the first amount on line 9 by $209,000,000.
On page 42, decrease the second amount on line 9 by $205,000,000.
On page 45, decrease the amount on line 21 by $187,000,000.
On page 45, decrease the amount on line 22 by $148,000,000.
On page 45, decrease the first amount on line 23 by $188,000,000.
On page 45, decrease the second amount on line 23 by $174,000,000.
On page 45, decrease the amount on line 24 by $209,000,000.
On page 45, decrease the amount on line 25 by $205,000,000.
On page 52, increase the amount on line 1 by $200,000,000.
On page 52, increase the amount on line 3 by $200,000,000.
On page 52, increase the amount on line 4 by $200,000,000.

HAWKINS (AND OTHERS) AMENDMENT NO. 77

Mrs. HAWKINS (for herself, Mr. BOSCHWITZ, Mr. KENNEDY, Mr. BOREN, Mr. SARBANES, Mr. KERRY, Mr. FORD, Mr. DODD, Mr. BURDICK, Mr. RIEGLE, Mr. ROCKEFELLER, Mr. BYRD, and Mr. HOLLINGS) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:
On page 3, increase the amount on line 12 by $400,000,000.
On page 3, increase the amount on line 13 by $600,000,000.
On page 3, increase the amount on line 14 by $800,000,000.
On page 3, increase the amount on line 18 by $400,000,000.
On page 3, increase the amount on line 19 by $600,000,000.
On page 3, increase the amount on line 20 by $800,000,000.
On page 3, increase the amount on line 25 by $400,000,000.
On page 4, increase the amount on line 1 by $600,000,000.
On page 4, increase the amount on line 2 by $800,000,000.
On page 4, increase the amount on line 6 by $400,000,000.
On page 4, increase the amount on line 7 by $1,000,000,000.
On page 4, increase the amount on line 8 by $1,800,000,000.
On page 4, increase the amount on line 12 by $400,000,000.
On page 4, increase the amount on line 13 by $600,000,000.
On page 4, increase the amount on line 14 by $800,000,000.
On page 24, increase the amount on line 2 by $400,000,000.
On page 24, increase the amount on line 3 by $400,000,000.
On page 24, increase the amount on line 12 by $500,000,000.
On page 24, increase the amount on line 13 by $500,000,000.
On page 24, increase the amount on line 22 by $700,000,000.
On page 24, increase the amount on line 23 by $700,000,000.
On page 33, increase the amount on line 2 by $100,000,000.
On page 33, increase the amount on line 3 by $100,000,000.
On page 33, increase the amount on line 11 by $100,000,000.
On page 33, increase the amount on line 12 by $100,000,000.
On page 37, decrease the first amount on line 11 by $403,000,000.
On page 37, decrease the second amount on line 11 by $375,000,000.
On page 37, decrease the amount on line 12 by $529,000,000.
On page 37, decrease the amount on line 13 by $520,000,000.
On page 37, decrease the first amount on line 14 by $676,000,000.
On page 37, decrease the second amount on line 14 by $666,000,000.
On page 44, decrease the amount on line 10 by $403,000,000.
On page 44, decrease the amount on line 11 by $375,000,000.
On page 44, decrease the first amount on line 12 by $529,000,000.
On page 44, decrease the second amount on line 12 by $520,000,000.
On page 44, decrease the amount on line 13 by $676,000,000.
On page 44, decrease the amount on line 14 by $666,000,000.

DECONCINI (AND MITCHELL) AMENDMENT NO. 78

(Ordered to lie on the table.)

Mr. DECONCINI (for himself, Mr. MITCHELL, Mr. PELL, Mr. BOREN, Mr. BAUCUS, and Mr. SARBANES) submitted an amendment intended to be proposed by them to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con Res. 32), supra; as follows:

At the end of the pending amendment, add the following:

SEC. . It is the sense of the Senate that the amount of budget authority and outlays set forth in this concurrent resolution for the functional category of Income Security (600) for fiscal year 1985 are sufficient to ensure that $1,500,000,000 is apportioned among the States to carry out the Special Supplemental Food Program authorized by section 17 of the Child Nutrition Act of 1966 (commonly referred to as the WIC program); and it is assumed that the Office of Management and Budget should therefore release and apportion to the States the full amount of $1,500,000,000, which was appropriated for the WIC program for fiscal year 1985 since—

(1) Public Law 98-473 provided that, in carrying out the WIC program, funds shall be apportioned to the States based on an annual appropriation level of $1,500,000,000;

(2) the Conference Report on H.R. 5743 (H. Rept. 98-1071), the Agriculture, Rural Development and Related Agencies Appropriation Act, 1985, which was incorporated in Public Law 98-473, expresses the conferees' intent that the WIC program be carried out in such a manner as to fully obligate the $1,500,000,000 appropriated by Public Law 98-473 for such program for fiscal year 1985;

(3) such Conference Report also explicitly stated that any action to allocate funds inconsistent with a full-year appropriation level of $1,500,000,000 for the WIC program would be an improper withholding of funds; and

(4) the Office of Management and Budget has not made available to the Department of Agriculture for distribution to the States the full amount of funds intended by Congress to be allocated to the WIC program in any of the first three quarters of fiscal year 1985, and has not made funds available for such program during such quarters at the rate intended by the Congress.

SASSER (AND OTHERS) AMENDMENT NO. 79

Mr. SASSER (for himself, Mr. RIEGLE, Mr. SPECTER, Mr. STENNIS, Mr. HART, Mr. GORE, Mr. ROCKEFELLER, Mr. BURDICK, Mr. HOLLINGS, Mr. SARBANES, and Mr. BYRD) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:
On page 3, increase the amount on line 12 by $5,100,000,000.
On page 3, increase the amount on line 13 by $5,300,000,000.
On page 3, increase the amount on line 14 by $6,300,000,000.
On page 3, increase the amount on line 18 by $2,200,000,000.
On page 3, increase the amount on line 19 by $4,100,000,000.
On page 3, increase the amount on line 20 by $5,400,000,000.
On page 3, increase the amount on line 25 by $2,200,000,000.
On page 4, increase the amount on line 1 by $4,100,000,000.
On page 4, increase the amount on line 2 by $5,400,000,000.
On page 4, increase the amount on line 6 by $2,200,000,000.
On page 4, increase the amount on line 7 by $6,300,000,000.
On page 4, increase the amount on line 8 by $11,700,000,000.

On page 4, increase the amount on line 12 by $2,200,000,000.
On page 4, increase the amount on line 13 by $4,100,000,000.
On page 4, increase the amount on line 14 by $5,400,000,000.
On page 5, increase the amount on line 3 by $3,100,000,000.
On page 5, increase the amount on line 10 by $3,800,000,000.
On page 5, increase the amount on line 17 by $4,000,000,000.
On page 15, increase the amount on line 8 by $2,500,000,000.
On page 15, increase the amount on line 9 by $1,500,000,000.
On page 15, increase the amount on line 11 by $2,400,000,000.
On page 15, increase the amount on line 17 by $2,600,000,000.
On page 15, increase the amount on line 18 by $2,200,000,000.
On page 15, increase the amount on line 20 by $2,500,000,000.
On page 16, increase the amount on line 1 by $3,000,000,000.
On page 16, increase the amount on line 2 by $2,600,000,000.
On page 16, increase the amount on line 4 by $2,600,000,000.
On page 18, increase the amount on line 8 by $2,600,000,000.
On page 18, increase the amount on line 9 by $700,000,000.
On page 18, increase the amount on line 11 by $700,000,000.
On page 18, increase the amount on line 17 by $2,500,000,000.
On page 18, increase the amount on line 18 by $1,700,000,000.
On page 18, increase the amount on line 20 by $1,300,000,000.
On page 19, increase the amount on line 1 by $3,000,000,000.
On page 19, increase the amount on line 2 by $2,500,000,000.
On page 19, increase the amount on line 4 by $1,400,000,000.
On page 33, increase the amount on line 2 by $200,000,000.
On page 33, increase the amount on line 3 by $200,000,000.
On page 33, increase the amount on line 11 by $300,000,000.
On page 33, increase the amount on line 12 by $300,000,000.

GRASSLEY AMENDMENT NO. 80

Mr. GRASSLEY proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

In lieu of the language, insert the following:

That the Congress hereby determines and declares that the concurrent resolution on the budget for fiscal year 1985 is revised and replaced, the first concurrent resolution on the budget for fiscal year 1986 is established, and the appropriate budgetary levels for fiscal years 1987 and 1988 are set forth.

(a) The following budgetary levels are appropriate for the fiscal years beginning on October 1, 1984, October 1, 1985, October 1, 1986, and October 1, 1987:

(1) The recommended levels of Federal revenues are as follows:
Fiscal Year 1985: $736,200,000,000.
Fiscal Year 1986: $792,700,000,000.
Fiscal Year 1987: $864,300,000,000.
Fiscal Year 1988: $952,500,000,000.

and the amounts by which the aggregate levels of Federal revenues should be increased are as follows:
Fiscal Year 1985: $0.
Fiscal Year 1986: $0.
Fiscal Year 1987: $0.
Fiscal Year 1988: $0.

and the amounts for Federal Insurance Contributions Act revenues for hospital insurance within the recommended levels of Federal revenues are as follows:
Fiscal Year 1985: $44,800,000,000.
Fiscal Year 1986: $50,900,000,000.
Fiscal Year 1987: $56,100,000,000.
Fiscal Year 1988: $61,200,000,000.

and the amounts for Federal Insurance Contributions Act revenues for old-age, survivors, and disability insurance within the recommended levels of Federal revenues are as follows:
Fiscal year 1985: $186,200,000,000.
Fiscal year 1986: $200,400,000,000.
Fiscal year 1987: $216,800,000,000.
Fiscal year 1988: $248,000,000,000.

(2) The appropriate levels of total new budget authority are as follows:
Fiscal year 1985: $1,054,600,000,000.
Fiscal year 1986: $1,080,100,000,000.
Fiscal year 1987: $1,160,900,000,000.
Fiscal year 1988: $1,255,700,000,000.

(3) The appropriate levels of total budget outlays are as follows:
Fiscal year 1985: $949,500,000,000.
Fiscal year 1986: $979,800,000,000.
Fiscal year 1987: $1,041,400,000,000.
Fiscal year 1988: $1,106,900,000,000.

(4) The amounts of the deficits in the budget which are appropriate in the light of economic conditions and all other relevant factors are as follows:
Fiscal year 1985: $213,300,000,000.
Fiscal year 1986: $187,200,000,000.
Fiscal year 1987: $177,100,000,000.
Fiscal year 1988: $154,400,000,000.

(5) The appropriate levels of the public debt are as follows:
Fiscal year 1985: $1,849,700,000,000.
Fiscal year 1986: $2,101,000,000,000.
Fiscal year 1987: $2,354,000,000,000.
Fiscal year 1988: $2,607,400,000,000.

and the amounts by which the statutory limits on such debt should be accordingly increased are as follows:
Fiscal year 1985: $25,900,000,000.
Fiscal year 1986: $251,300,000,000.
Fiscal year 1987: $253,000,000,000.
Fiscal year 1988: $253,400,000,000.

(b) The Congress hereby determines and declares the appropriate levels of budget authority and budget outlays, and the appropriate levels of new direct loan obligations, new primary loan guarantee commitments, and new secondary loan guarantee commitments for fiscal years 1985 through 1988 for each major functional category are:

(1) National Defense (050):
Fiscal year 1985:
(A) New budget authority, $292,600,000,000.
(B) Outlays, $252,000,000,000.
Fiscal year 1986:
(A) New budget authority, $292,500,000,000.
(B) Outlays, $269,700,000,000.
Fiscal year 1987:
(A) New budget authority, $320,800,000,000.
(B) Outlays, $289,200,000,000.
Fiscal year 1988:
(A) New budget authority, $351,700,000,000.
(B) Outlays, $313,300,000,000.

(2) International Affairs (150):
Fiscal year 1985:
(A) New budget authority, $24,200,000,000.
(B) Outlays, $17,800,000,000.
Fiscal year 1986:
(A) New budget authority, $23,500,000,000.
(B) Outlays, $17,800,000,000.
Fiscal year 1987:
(A) New budget authority, $23,000,000,000.
(B) Outlays, $17,900,000,000.
Fiscal year 1988:
(A) New budget authority, $23,500,000,000.
(B) Outlays, $18,000,000,000.

(3) General Science, Space, and Technology (250):
Fiscal year 1985:
(A) New budget authority, $9,100,000,000.
(B) Outlays, $8,700,000,000.
Fiscal year 1986:
(A) New budget authority, $8,800,000,000.
(B) Outlays, $8,700,000,000.
Fiscal year 1987:
(A) New budget authority, $9,000,000,000.
(B) Outlays, $8,800,000,000.
Fiscal year 1988:
(A) New budget authority, $9,300,000,000.
(B) Outlays, $9,000,000,000.

(4) Energy (270):
Fiscal year 1985:
(A) New budget authority, $1,900,000,000.
(B) Outlays, $6,900,000,000.
Fiscal year 1986:
(A) New budget authority, $7,900,000,000.
(B) Outlays, $7,300,000,000.
Fiscal year 1987:
(A) New budget authority, $7,700,000,000.
(B) Outlays, $7,200,000,000.
Fiscal year 1988:
(A) New budget authority, $7,300,000,000.
(B) Outlays, $6,800,000,000.

(5) Natural Resources and Environment (300):
Fiscal year 1985:
(A) New budget authority, $12,600,000,000.
(B) Outlays, $13,000,000,000.
Fiscal year 1986:
(A) New budget authority, $13,000,000,000.
(B) Outlays, $13,000,000,000.
Fiscal year 1987:
(A) New budget authority, $13,300,000,000.
(B) Outlays, $13,000,000,000.
Fiscal year 1988:
(A) New budget authority, $13,600,000,000.
(B) Outlays, $13,200,000,000.

(6) Agriculture (350):
Fiscal year 1985:
(A) New budget authority, $24,800,000,000.
(B) Outlays, $21,000,000,000.
Fiscal year 1986:
(A) New budget authority, $20,400,000,000.
(B) Outlays, $17,700,000,000.
Fiscal year 1987:
(A) New budget authority, $20,800,000,000.
(B) Outlays, $19,800,000,000.
Fiscal year 1988:
(A) New budget authority, $20,900,000,000.
(B) Outlays, $20,200,000,000.

(7) Commerce and Housing Credit (370):
Fiscal year 1985:
(A) New budget authority, $12,600,000,000.
(B) Outlays, $5,600,000,000.
Fiscal year 1986:
(A) New budget authority, $9,700,000,000.
(B) Outlays, $5,200,000,000.
Fiscal year 1987:
(A) New budget authority, $10,300,000,000.
(B) Outlays, $5,800,000,000.
Fiscal year 1988:
(A) New budget authority, $10,700,000,000.
(B) Outlays, $7,700,000,000.

(8) Transportation (400):
Fiscal year 1985:
(A) New budget authority, $29,300,000,000.
(B) Outlays, $26,000,000,000.

Fiscal year 1986:
(A) New budget authority, $29,900,000,000.
(B) Outlays, $28,100,000,000.
Fiscal year 1987:
(A) New budget authority, $30,800,000,000.
(B) Outlays, $29,600,000,000.
Fiscal year 1988:
(A) New budget authority, $31,800,000,000.
(B) Outlays, $30,500,000,000.
(9) Community and Regional Development (450):
Fiscal year 1985:
(A) New budget authority, $8,400,000,000.
(B) Outlays, $8,700,000,000.
Fiscal year 1986:
(A) New budget authority, $8,000,000,000.
(B) Outlays, $8,300,000,000.
Fiscal year 1987:
(A) New budget authority, $8,300,000,000.
(B) Outlays, $8,500,000,000.
Fiscal year 1988:
(A) New budget authority, $9,200,000,000.
(B) Outlays, $8,700,000,000.
(10) Education, Training, Employment, and Social Services (500):
Fiscal year 1985:
(A) New budget authority, $31,600,000,000.
(B) Outlays, $30,300,000,000.
Fiscal year 1986:
(A) New budget authority, $31,300,000,000.
(B) Outlays, $31,000,000,000.
Fiscal year 1987:
(A) New budget authority, $32,400,000,000.
(B) Outlays, $31,500,000,000.
Fiscal year 1988:
(A) New budget authority, $33,300,000,000.
(B) Outlays, $32,300,000,000.
(11) Health (550):
Fiscal year 1985:
(A) New budget authority, $33,600,000,000.
(B) Outlays, $33,500,000,000.
Fiscal year 1986:
(A) New budget authority, $35,900,000,000.
(B) Outlays, $35,700,000,000.
Fiscal year 1987:
(A) New budget authority, $38,600,000,000.
(B) Outlays, $38,200,000,000.
Fiscal year 1988:
(A) New budget authority, $41,400,000,000.
(B) Outlays, $40,900,000,000.
(12) Medical Insurance (570):
Fiscal year 1985:
(A) New budget authority, $71,800,000,000.
(B) Outlays, $65,200,000,000.
Fiscal year 1986:
(A) New budget authority, $81,700,000,000.
(B) Outlays, $69,500,000,000.
Fiscal year 1987:
(A) New budget authority, $90,800,000,000.
(B) Outlays, $76,700,000,000.
Fiscal year 1988:
(A) New budget authority, $94,700,000,000.
(B) Outlays, $86,200,000,000.
(13) Income Security (600):
Fiscal year 1985:
(A) New budget authority, $163,100,000,000.
(B) Outlays, $128,800,000,000.
Fiscal year 1986:
(A) New budget authority, $157,500,000,000.
(B) Outlays, $121,000,000,000.
Fiscal year 1987:
(A) New budget authority, $166,300,000,000.
(B) Outlays, $126,300,000,000.
Fiscal year 1988:
(A) New budget authority, $174,800,000,000.
(B) Outlays, $132,300,000,000.
(14) Social Security (650):
Fiscal year 1985:
(A) New budget authority, $195,500,000,000.
(B) Outlays, $189,300,000,000.
Fiscal year 1986:
(A) New budget authority, $207,400,000,000.
(B) Outlays, $194,900,000,000.
Fiscal year 1987:
(A) New budget authority, $225,500,000,000.
(B) Outlays, $206,100,000,000.
Fiscal year 1988:
(A) New budget authority, $266,100,000,000.
(B) Outlays, $220,400,000,000.
(15) Veterans Benefits and Services (700):
Fiscal year 1985:
(A) New budget authority, $27,200,000,000.
(B) Outlays, $26,300,000,000.
Fiscal year 1986:
(A) New budget authority, $27,000,000,000.
(B) Outlays, $26,500,000,000.
Fiscal year 1987:
(A) New budget authority, $27,300,000,000.
(B) Outlays, $27,000,000,000.
Fiscal year 1988:
(A) New budget authority, $27,800,000,000.
(B) Outlays, $27,600,000,000.
(16) Administration of Justice (750):
Fiscal year 1985:
(A) New budget authority, $6,500,000,000.
(B) Outlays, $6,300,000,000.
Fiscal year 1986:
(A) New budget authority, $6,700,000,000.
(B) Outlays, $6,700,000,000.
Fiscal year 1987:
(A) New budget authority, $6,900,000,000.
(B) Outlays, $6,800,000,000.
Fiscal year 1988:
(A) New budget authority, $7,000,000,000.
(B) Outlays, $7,000,000,000.
(17) General Government (800):
Fiscal year 1985:
(A) New budget authority, $5,700,000,000.
(B) Outlays, $5,800,000,000.
Fiscal year 1986:
(A) New budget authority, $5,900,000,000.
(B) Outlays, $5,800,000,000.
Fiscal year 1987:
(A) New budget authority, $6,000,000,000.
(B) Outlays, $5,800,000,000.
Fiscal year 1988:
(A) New budget authority, $6,200,000,000.
(B) Outlays, $6,100,000,000.
(18) General Purpose Fiscal Assistance (850):
Fiscal year 1985:
(A) New budget authority, $6,400,000,000.
(B) Outlays, $6,400,000,000.
Fiscal year 1986:
(A) New budget authority, $6,500,000,000.
(B) Outlays, $6,500,000,000.
Fiscal year 1987:
(A) New budget authority, $6,800,000,000.
(B) Outlays, $6,700,000,000.
Fiscal year 1988:
(A) New budget authority, $7,100,000,000.
(B) Outlays, $7,000,000,000.
(19) Net Interest (900):
Fiscal year 1985:
(A) New budget authority, $129,700,000,000.
(B) Outlays, $129,700,000,000.
Fiscal year 1986:
(A) New budget authority, $141,300,000,000.
(B) Outlays, $141,300,000,000.
Fiscal year 1987:
(A) New budget authority, $152,400,000,000.
(B) Outlays, $152,400,000,000.
Fiscal year 1988:
(A) New budget authority, $156,800,000,000.
(B) Outlays, $156,800,000,000.
(20) Allowances (920):
Fiscal year 1985:
(A) New budget authority, $300,000,000.
(B) Outlays, $300,000,000.
Fiscal year 1986:
(A) New budget authority, $0.
(B) Outlays, $0.
Fiscal year 1987:
(A) New budget authority, $1,500,000,000.
(B) Outlays, $1,600,000,000.
Fiscal year 1988:
(A) New budget authority, $3,300,000,000.
(B) Outlays, $3,500,000,000.
(21) Undistributed Offsetting Receipts (950):
Fiscal year 1985:
(A) New budget authority, −$32,400,000,000.
(B) Outlays, −$32,400,000,000.
Fiscal year 1986:
(A) New budget authority, −$34,800,000,000.
(B) Outlays, −$34,800,000,000.
Fiscal year 1987:
(A) new budget authority, −$37,600,000,000.
(B) Outlays, −$37,600,000,000.
Fiscal year 1988:
(A) New budget authority, −$40,700,000,000.
(B) Outlays, −$40,700,000,000.

RECONCILIATION

SEC. 2. (a) Not later than June 30, 1985, the committees named in subsections (b) through (e) of this section shall submit their recommendations to the Committees on the Budget of their respective Houses. After receiving those recommendations, the Committees on the Budget shall report to the House and Senate a reconciliation bill or resolution or both carrying out all such recommendations without any substantive revision.

SENATE COMMITTEES

(b) The Senate Committee on Agriculture, Nutrition, and Forestry shall report (1) changes in laws within its jursidiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $430,000,000 in budget authority and $430,000,000 in outlays in fiscal year 1986, $446,000,000 in budget authority and $446,000,000 in outlays in fiscal year 1987, and $462,000,000 in budget authority and $462,000,000 in outlays in fiscal year 1988.

(c) The Senate Committee on Armed Services shall report changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to achieve savings of $0 in budget authority and $539,000,000 in outlays in fiscal year 1986, $0 in budget authority and $742,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $773,000,000 in outlays in fiscal year 1988.

(d) The Senate Committee on Finance shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combina-

tion thereof, as follows: $0 in budget authority and $8,608,000,000 in outlays in fiscal year 1986, $0 in budget authority and $11,758,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $12,306,000,000 in outlays in fiscal year 1988.

(e) The Senate Committee on Governmental Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)C) of the Congressional Budget Act of 1974, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, or (3) any combination thereof, sufficient to achieve savings in budget authority and outlays as follows: $0 in budget authority and $725,000,000 in outlays in fiscal year 1986, $0 in budget authority and $971,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $992,000,000 in outlays in fiscal year 1988.

(f) The Senate Committee on Veterans' Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $449,000,000 in budget authority and $404,000,000 in outlays in fiscal year 1986, $553,000,000 in budget authority and $552,000,000 in outlays in fiscal year 1987, and $575,000,000 in budget authority and $573,000,000 in outlays in fiscal year 1988.

HOUSE COMMITTEES

(g) The House Committee on Agriculture shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $430,000,000 in budget authority and $430,000,000 in outlays in fiscal year 1986, $446,000,000 in budget authority and $446,000,000 in outlays in fiscal year 1987, and $462,000,000 in budget authority and $462,000,000 in outlays in fiscal year 1988.

(h) The House Committee on Armed Services shall report changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to achieve savings of $0 in budget authority and $539,000,000 in outlays in fiscal year 1986, $0 in budget authority and $742,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $773,000,000 in outlays in fiscal year 1988.

(i) The House Committee on Energy and Commerce shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $0 in budget authority and $2,355,000,000 in outlays in fiscal year 1986, $0 in budget authority and $3,190,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $3,620,000,000 in outlays in fiscal year 1988.

(j) The House Committee on Post Office and Civil Service shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, or (3) any combination thereof, sufficient to achieve savings in budget authority and outlays as follows: $0 in budget authority and $725,000,000 in outlays in fiscal year 1986, $0 in budget authority and $971,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $992,000,000 in outlays in fiscal year 1988.

(k) The House Committee on Veterans' Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $449,000,000 in budget authority and $404,000,000 in outlays in fiscal year 1986, $553,000,000 in budget authority and $552,000,000 in outlays in fiscal year 1987, and $575,000,000 in budget authority and $573,000,000 in outlays in fiscal year 1988.

(l) The House Committee on Ways and Means shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $0 in budget authority and $8,608,000,000 in outlays in fiscal year 1986, $0 in budget authority and $11,758,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $12,306,000,000 in outlays in fiscal year 1988.

APPROPRIATIONS

SEC. 3. (a) It shall not be in order to consider any measure making appropriations in the Senate or House of Representatives, if the enactment of such bill or resolution, as recommended by the respective Committee on Appropriations, would cause the aggregate total budget authority for function 050, National Defense, to exceed $293,300,000,000 in fiscal year 1986; aggregate total budget authority to exceed $321,500,000,000. in fiscal year 1987; and aggregate total budget authority to exceed $352,500,000,000 in fiscal year 1988.

(b) It shall not be in order to consider any measure making appropriations in the Senate or House of Representatives, if the enactment of such bill or resolution, as recommended by the respective Committee on Appropriations, would cause the aggregate total budget authroity for nondefense discretionary activities to exceed $152,000,000,000 in fiscal year 1986; aggregate total budget authority to exceed $159,100,000,000 in fiscal year 1987; and aggregate budget authority to exceed $167,200,000,000 in fiscal year 1988.

(c) The provisions of subsection (a) or (b) of this section may be waived or suspended in the Senate by a majority vote of the Members voting, a quorum being present, or by unanimous consent of the Senate.

MISCELLANEOUS PROVISIONS

SEC. 4. If the Congress has not completed action by October 1, 1985, on the concurrent resolution on the budget required to be reported under section 310(a) of the Congressional Budget Act of 1974 for fiscal year 1986, then, for purposes of section 311 of such Act, this concurrent resolution shall be deemed to be the concurrent resolution required to be reported under section 310 of such Act.

SEC. 5. It shall not be order in the House of Representatives or the Senate during fiscal years 1986 and 1987 to consider any bill, resolution, or amendment, except proposed legislation reported in response to reconiliation instructions contained in this resolution, authorizing new direct loan obligations or new loan guarantee commitments unless that bill, resolution, or amendment also provides that the authority to make or guarantee such loans shall be effective only to such extent and in such amounts as are contained in appropriation acts.

SEC. 6. It is the sense of the Congress that the previous distinction between "unified budget" and "off-budget" spending be ended, and that budget authority and outlays for the so-called "off-budget" agencies be included in the budget totals.

SEC. 7. (a) The Senate finds that—

(1) the existing tax structure of the United States distorts economic activity, leading to an inefficient use of national resources and a weakening of our domestic economic vitality and competitive posture in international markets;

(2) the relative tax burdens among various taxpayer categories are manifestly unfair insofar as they arise from differences in the capabilities of taxpayers to take advantage of complicated tax laws;

(3) the ability of the Federal Government to plan and conduct rational fiscal policy is frustrated by elaborate schemes to avoid taxation and the unintended effects of tax incentives and penalties;

(4) progressive erosion of voluntary compliance threatens the fiscal integrity of our public finances and the confidence of our citizens in the Federal Government's capacity to govern; and

(5) a number of plans, each designed to simplify and reform the Tax Code, have been before the Congress for a time sufficient to allow for extensive analysis and evaluation.

(b) It is therefore the sense of the Senate that tax reform should be adopted as soon as possible, and that it should incorporate the following principles and objectives:

(1) efficiency and responsiveness to market conditions in the economic activities of American businesses and consumers;

(2) simplicity of structure and lower marginal tax rates;

(3) a fair and equitable distribution of the tax burden among all taxpayers, with relief for those below the poverty level, and incentives to bring them into the work force;

(4) a broader tax base, with deductions essential to avoid genuine hardship or to protect the economic security of the American people; and

(5) increased incentives for work, saving, and investment.

SEC. 8. It is the sense of the Senate that because the Senate requires timely report-

ing of legislative action on spending bills, and because the Senate requires continual control over the budget, the Director of the Congressional Budget Office shall issue a weekly report during periods when the Senate is in session detailing and tabulating the progress of congressional action on bills and resolutions providing new budget authority and changing revenues and the public debt for a fiscal year, including, but not limited to the requirements set forth in Public Law 93-344, section 308(b).

CHILES (AND OTHERS) AMENDMENT NO. 81

Mr. CHILES (for himself, Mr. BRADLEY, Mr. PELL, Mr. KENNEDY, Mr. MOYNIHAN, Mr. SARBANES, Mr. ROCKEFELLER, Mr. LAUTENBERG, Mr. HOLLINGS, Mr. BYRD, Mr. HART, Mr. DODD, Mr. KERRY, Mr. LEVIN, and Mr. EXON) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the preceding amendment, make the following changes:

On page 3, increase the amount on line 11 by $300,000,000.

On page 3, increase the amount on line 12 by $3,300,000,000.

On page 3, increase the amount on line 13 by $2,900,000,000.

On page 3, increase the amount on line 14 by $3,100,000,000.

On page 3, increase the amount on line 17 by $300,000,000.

On page 3, increase the amount on line 18 by $1,300,000,000.

On page 3, increase the amount on line 19 by $3,200,000,000.

On page 3, increase the amount on line 20 by $3,400,000,000.

On page 3, increase the amount on line 24 by $300,000,000.

On page 3, increase the amount on line 25 by $1,300,000,000.

On page 4, increase the amount on line 1 by $3,200,000,000.

On page 4, increase the amount on line 2 by $3,400,000,000.

On page 4, increase the amount on line 5 by $300,000,000.

On page 4, increase the amount on line 6 by $1,600,000,000.

On page 4, increase the amount on line 7 by $4,800,000,000.

On page 4, increase the amount on line 8 by $8,100,000,000.

On page 4, increase the amount on line 11 by $300,000,000.

On page 4, increase the amount on line 12 by $1,300,000,000.

On page 4, increase the amount on line 13 by $3,200,000,000.

On page 4, increase the amount on line 14 by $3,400,000,000.

On page 4, increase the amount on line 23 by $200,000,000.

On page 5, increase the amount on line 5 by $200,000,000.

On page 5, increase the amount on line 12 by $200,000,000.

On page 5, increase the amount on line 19 by $200,000,000.

On page 19, increase the amount on line 12 by $300,000,000.

On page 19, increase the amount on line 13 by $300,000,000.

On page 19, increase the amount on line 17 by $200,000,000.

On page 19, increase the amount on line 21 by $3,200,000,000.

On page 19, increase the amount on line 22 by $1,200,000,000.

On page 20, increase the amount on line 2 by $200,000,000.

On page 20, increase the amount on line 6 by $2,600,000,000.

On page 20, increase the amount on line 7 by $2,900,000,000.

On page 20, increase the amount on line 11 by $200,000,000.

On page 3, increase the amount on line 14 by $3,500,000,000.

On page 3, increase the amount on line 18 by $1,500,000,000.

On page 3, increase the amount on line 19 by $1,700,000,000.

On page 3, increase the amount on line 20 by $1,700,000,000.

On page 3, increase the amount on line 25 by $1,500,000,000.

On page 4, increase the amount on line 1 by $1,700,000,000.

On page 4, increase the amount on line 2 by $1,700,000,000.

On page 4, increase the amount on line 6 by $1,500,000,000.

On page 4, increase the amount on line 7 by $3,200,000,000.

On page 4, increase the amount on line 8 by $4,900,000,000.

On page 4, increase the amount on line 12 by $1,500,000,000.

On page 4, increase the amount on line 13 by $1,700,000,000.

On page 4, increase the amount on line 14 by $1,700,000,000.

On page 5, increase the amount on line 3 by $2,300,000,000.

On page 5, increase the amount on line 5 by $200,000,000.

On page 5, increase the amount on line 10 by $1,700,000,000.

On page 5, increase the amount on line 12 by $900,000,000.

On page 5, increase the amount on line 17 by $1,400,000,000.

On page 5, increase the amount on line 19 by $1,200,000,000.

On page 15, increase the amount on line 8 by $3,000,000,000.

On page 15, increase the amount on line 9 by $1,400,000,000.

On page 15, increase the amount on line 11 by $2,300,000,000.

On page 15, increase the amount on line 13 by $300,000,000.

On page 15, increase the amount on line 17 by $3,600,000,000.

On page 15, increase the amount on line 18 by $1,600,000,000.

On page 15, increase the amount on line 20 by $1,700,000,000.

On page 15, increase the amount on line 22 by $900,000,000.

On page 16, increase the amount on line 1 by $3,400,000,000.

On page 16, increase the amount on line 2 by $1,600,000,000.

On page 16, increase the amount on line 4 by $1,400,000,000.

On page 16, increase the amount on line 6 by $1,200,000,000.

On page 32, increase the amount on line 17 by $100,000,000.

On page 32, increase the amount on line 18 by $100,000,000.

On page 33, increase the amount on line 2 by $100,000,000.

On page 33, increase the amount on line 3 by $100,000,000.

On page 33, increase the amount on line 11 by $100,000,000.

On page 33, increase the amount on line 12 by $100,000,000.

On page 38, decrease the first amount on line 10 by $3,025,000,000.

On page 38, decrease the first amount on line 10 by $1,350,000,000.

On page 38, decrease the amount on line 11 by $3,645,000,000.

On page 38, decrease the amount on line 12 by $1,618,000,000.

On page 38, decrease the amount on line 13 by $3,427,000,000.

On page 38, decrease the amount on line 14 by $1,578,000,000.

On page 45, decrease the first amount on line 8 by $3,025,000,000.
On page 45, decrease the second amount on line 8 by $1,350,000,000.
On page 45, decrease the amount on line 9 by $3,645,000,000.
On page 45, decrease the amount on line 10 by $1,618,000,000.
On page 45, decrease the first amount on line 11 by $3,427,000,000.
On page 45, decrease the second amount on line 11 by $1,578,000,000.
On page 52, increase the amount on line 1 by $3,000,000,000.
On page 52, increase the amount on line 3 by $3,600,000,000.
On page 52, increase the amount on line 4 by $3,400,000,000.

ABDNOR AMENDMENT NO. 83

Mr. DOLE (for Mr. ABDNOR, for himself, Mr. PELL, Mr. BOREN, Mr. BAUCUS, Mr. SARBANES, Mr. FORD, Mr. MELCHER, Mr. DECONCINI, Mr. MOYNIHAN, Mr. BINGAMAN, and Mr. EXON) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

On page 4, decrease the amount on line 13 by $800,000,000.

On page 4, decrease the amount on line 14 by $900,000,000.

On page 16, decrease the amount on line 20 by $1,600,000,000.

On page 16, decrease the amount on line 21 by $600,000,000.

On page 17, decrease the amount on line 4 by $1,000,000,000.

On page 17, decrease the amount on line 5 by $700,000,000.

On page 17, decrease the amount on line 13 by $700,000,000.

On page 17, decrease the amount on line 14 by $700,000,000.

On page 33, decrease the amount on line 2 by $100,000,000.

On page 33, decrease the amount on line 3 by $100,000,000.

On page 33, decrease the amount on line 11 by $200,000,000.

On page 33, decrease the amount on line 12 by $200,000,000.

On page 38, increase the first amount on line 10 by $1,630,000,000.

On page 38, increase the second amount on line 10 by $621,000,000.

On page 38, increase the amount on line 11 by $1,096,000,000.

On page 38, increase the amount on line 12 by $705,000,000.

On page 38, increase the amount on line 13 by $729,000,000.

On page 38, increase the amount on line 14 by $763,000,000.

On page 41, decrease the amount on line 17 by $4,000,000.

On page 41, decrease the amount on line 19 by $15,000,000.

On page 41, decrease the amount on line 21 by $29,000,000.

On page 47, decrease the first amount on line 12 by $4,000,000.

On page 47, decrease the amount on line 13 by $15,000,000.

On page 47, decrease the second amount on line 14 by $29,000,000.

On page 49, increase the first amount on line 17 by $1,630,000,000.

On page 49, increase the second amount on line 17 by $621,000,000.

On page 49, increase the amount on line 18 by $1,096,000,000.

On page 49, increase the amount on line 19 by $105,000,000.

On page 49, increase the first amount on line 20 by $729,000,000.

On page 49, increase the second amount on line 20 by $763,000,000.

On page 52, decrease the amount on line 1 by $1,600,000,000.

On page 52, decrease the amount on line 3 by $1,000,000,000.

On page 52, decrease the amount on line 4 by $700,000,000.

BRADLEY (AND OTHERS) AMENDMENT NO. 88

Mr. BRADLEY (for himself, Mr. BINGAMAN, Mr. ROCKEFELLER, and Mr. BUMPERS) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra, as follows:

In the pending amendment, do the following:

On page 2, increase the amount on line 9 by $1,500,000,000.

On page 2, increase the amount on line 10 by $1,700,000,000.

On page 2, increase the amount on line 11 by $1,700,000,000.

On page 2, increase the amount on line 15 by $1,500,000,000.

On page 2, increase the amount on line 16 by $1,700,000,000.

On page 2, increase the amount on line 17 by $1,700,000,000.

On page 3, increase the amount on line 12 by $80,000,000.

On page 3, increase the amount on line 13 by $280,000,000.

On page 3, increase the amount on line 14 by $1,070,000,000.

On page 3, increase the amount on line 18 by $80,000,000.

On page 3, increase the amount on line 19 by $280,000,000.

On page 3, increase the amount on line 20 by $1,070,000,000.

On page 3, decrease the amount on line 25 by $1,420,000,000.

On page 4, decrease the amount on line 1 by $1,420,000,000.

On page 4, decrease the amount on line 2 by $630,000,000.

On page 4, decrease the amount on line 6 by $1,420,000,000.

On page 4, decrease the amount on line 7 by $2,840,000,000.

On page 4, decrease the amount on line 8 by $3,470,000,000.

On page 4, decrease the amount on line 12 by $1,420,000,000.

On page 4, decrease the amount on line 13 by $1,420,000,000.

On page 4, decrease the amount on line 14 by $630,000,000.

On page 22, increase the amount on line 16 by $180,000,000.
On page 22, increase the amount on line 17 by $180,000,000.
On page 22, increase the amount on line 24 by $480,000,000.
On page 22, increase the amount on line 25 by $480,000,000.
On page 23, increase the amount on line 7 by $1,270,000,000.
On page 23, increase the amount on line 8 by $1,270,000,000.
On page 32, decrease the amount on line 17 by $100,000,000.
On page 32, decrease the amount on line 18 by $100,000,000.
On page 33, decrease the amount on line 2 by $200,000,000.
On page 33, decrease the amount on line 3 by $200,000,000.
On page 33, decrease the amount on line 11 by $200,000,000.
On page 33, decrease the amount on line 12 by $200,000,000.
On page 40, decrease the first amount on line 16 by $180,000,000.
On page 40, decrease the amount on line 17 by $480,000,000.
On page 40, decrease the second amount on line 18 by $1,270,000,000.
On page 40, line 19, add the following new sentence: "The Senate Committee on Finance shall report changes in laws within the jurisdiction of the committee sufficient to increase revenues as follows: $1,500,000,000 in fiscal year 1986; $1,700,000,000 in fiscal year 1987; and $1,700,000,000 in fiscal year 1988.".
On page 46, decrease the amount on line 9 by $180,000,000.
On page 46, decrease the amount on line 10 by $180,000,000.
On page 46, decrease the first amount on line 11 by $480,000,000.
On page 46, decrease the second amount on line 11 by $480,000,000.
On page 46, decrease the amount on line 12 by $1,270,000,000.
On page 46, decrease the amount on line 13 by $1,270,000,000.
On page 51, decrease the first amount on line 7 by $180,000,000.
On page 51, decrease the amount on line 8 by $480,000,000.
On page 51, decrease the second amount on line 9 by $1,270,000,000.
On page 51, line 10 add the following new sentence: "The House Committee on Ways and Means shall report changes in laws within the jurisdiction of the committee sufficient to increase revenues as follows: $1,500,000,000 in fiscal year 1986; $1,700,000,000 in fiscal year 1987; and $1,700,000,000 in fiscal year 1988.".

DeCONCINI AMENDMENT NO. 89

Mr. DeCONCINI (for himself, Mr. CRANSTON, Mr. DODD, Mr. KERRY, Mr. MITCHELL, Mr. KENNEDY, Mr. BIDEN, Mr. CHAFEE, Mr. HOLLINGS and Mr. BENTSEN, and Mr. BOREN) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

At the end of the pending amendment, add the following:

SEC. . It is the sense of the Senate that the amount of budget authority and outlays set forth in this concurrent resolution for the functional category of Income Security (600) for fiscal year 1985 are sufficient to ensure that $1,500,000,000 is apportioned among the States to carry out the Special Supplemental Food Program authorized by section 17 of the Child Nutrition Act of 1966 (commonly referred to as the WIC program); and it is assumed that the Office of Management and Budget should therefore release and apportion to the States the full amount of $1,500,000,000, which was appropriated for the WIC program for fiscal year 1985 since—

(1) Public Law 98-473 provided that, in carrying out the WIC program, funds shall be apportioned to the States based on an annual appropriation level of $1,500,000,000;

(2) the Conference Report on H.R. 5743 (H. Rept. 98-1071), the Agriculture, Rural Development and Related Agencies Appropriation Act, 1985, which was incorporated in Public Law 98-473, expresses the conferees' intent that the WIC program be carried out in such a manner as to fully obligate the $1,500,000,000 appropriated by Public Law 98-473 for such program for fiscal year 1985;

(3) such Conference Report also explicitly stated that any action to allocate funds inconsistent with a full-year appropriation level of $1,500,000,000 for the WIC program would be an improper withholding of funds; and

(4) the Office of Management and Budget has not made available to the Department of Agriculture for distribution to the States the full amount of funds intended by Congress to be allocated to the WIC program in any of the first three quarters of fiscal year 1985, and has not made funds available for such program during such quarters at the rate intended by the Congress.

LAUTENBERG (AND OTHERS) AMENDMENT NO. 90

Mr. LAUTENBERG (for himself, Mr. DODD, Mr. MOYNIHAN, Mr. WEICKER, Mr. KENNEDY, Mr. RIEGLE, Mr. LEVIN, Mr. KERRY, Mr. SARBANES, Mr. BAUCUS, Mr. BRADLEY, Mr. ROCKEFELLER, and Mr. BYRD) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:

On page 3, increase the amount on line 12 by $2,000,000,000.
On page 3, increase the amount on line 13 by $2,500,000,000.
On page 3, increase the amount on line 14 by $2,900,000,000.
On page 3, increase the amount on line 18 by $800,000,000.
On page 3, increase the amount on line 19 by $1,400,000,000.
On page 3, increase the amount on line 20 by $2,100,000,000.
On page 3, increase the amount on line 25 by $800,000,000.
On page 4, increase the amount on line 1 by $1,400,000,000.
On page 4, increase the amount on line 2 by $2,100,000,000.
On page 4, increase the amount on line 6 by $800,000,000.
On page 4, increase the amount on line 7 by $2,200,000,000.
On page 4, increase the amount on line 8 by $4,300,000,000.
On page 4, increase the amount on line 12 by $800,000,000.
On page 4, increase the amount on line 13 by $1,400,000,000.
On page 4, increase the amount on line 14 by $2,100,000,000.
On page 16, increase the amount on line 20 by $1,600,000,000.
On page 16, increase the amount on line 21 by $800,000,000.
On page 17, increase the amount on line 4 by $2,100,000,000.
On page 17, increase the amount on line 5 by $1,200,000,000.
On page 17, increase the amount on line 13 by $2,500,000,000.
On page 17, increase the amount on line 14 by $1,600,000,000.
On page 18, increase the amount on line 8 by $400,000,000.
On page 18, increase the amount on line 17 by $400,000,000.
On page 18, increase the amount on line 18 by $100,000,000.
On page 19, increase the amount on line 1 by $400,000,000.
On page 19, increase the amount on line 2 by $200,000,000.
On page 33, increase the amount on line 2 by $100,000,000.
On page 33, increase the amount on line 3 by $100,000,000.
On page 33, increase the amount on line 11 and line 12 by $300,000,000.
On page 38, decrease the amount on line 10 by $1,315,000,000.
On page 38, decrease the amount on line 10 by $201,000,000.
On page 38, decrease the amount on line 11 by $1,839,000,000.
On page 38, decrease the amount on line 12 by $622,000,000.
On page 38, decrease the amount on line 13 by $2,212,000,000.
On page 38, decrease the amount on line 14 by $1,147,000,000.
On page 38, decrease the amount on line 24 by $684,000,000.
On page 38, decrease the amount on line 24 by $596,000,000.
On page 38, decrease the amount on line 25 by $684,000,000.
On page 39, decrease the amount on line 1 by $641,000,000.
On page 39, decrease the amount on line 2 by $684,000,000.
On page 39, decrease the second amount on line 2 by $684,000,000.
On page 41, decrease the amount on line 17 by $4,000,000.
On page 41, decrease the amount on line 19 by $16,000,000.
On page 41, decrease the amount on line 21 by $28,000,000.
On page 45, decrease the amount on line 8 by $440,000,000.
On page 45, decrease the second amount on line 8 by $22,000,000.
On page 45, decrease the amount on line 9 by $440,000,000.
On page 45, decrease the amount on line 10 by $111,000,000.
On page 45, decrease the first amount on line 11 by $440,000,000.
On page 45, decrease the second amount on line 11 by $221,000,000.
On page 46, decrease the amount on line 9 by $684,000,000.
On page 46, decrease the amount on line 10 by $596,000,000.
On page 46, decrease the first amount on line 11 by $684,000,000.
On page 46, decrease the second amount on line 11 by $641,000,000.
On page 46, decrease the amount on line 12 by $684,000,000.

On page 46, decrease the amount on line 13 by $684,000,000.
On page 49, decrease the first amount on line 17 by $875,000,000.
On page 49, decrease the second amount on line 17 by $179,000,000.
On page 49, decrease the amount on line 18 by $1,399,000,000.
On page 49, decrease the amount on line 19 by $511,000,000.
On page 49, decrease the first amount on line 20 by $1,772,000,000.
On page 49, decrease the second amount on line 20 by $926,000,000.
On page 52, increase the amount on line 1 by $2,000,000,000.
On page 52, increase the amount on line 3 by $2,500,000,000.
On page 52, increase the amount on line 4 by $2,900,000,000.

LEVIN (AND OTHERS) AMENDMENT NO. 91

Mr. LEVIN (for himself, Mr. DIXON, Mr. BINGAMAN, and Mr. SIMON) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit the concurrent resolution (S. Con. Res. 32), supra; as follows:

On page 2, increase the amount on line 9 by $1,500,000,000.
On page 2, increase the amount on line 10 by $1,700,000,000.
On page 2, increase the amount on line 11 by $1,700,000,000.
On page 2, increase the amount on line 15 by $1,500,000,000.
On page 2, increase the amount on line 16 by $1,700,000,000.
On page 2, increase the amount on line 17 by $1,700,000,000.
On page 3, decrease the amount on line 25 by $1,500,000,000.
On page 4, decrease the amount on line 1 by $1,700,000,000.
On page 4, decrease the amount on line 2 by $1,700,000,000.
On page 4, decrease the amount on line 6 by $1,500,000,000.
On page 4, decrease the amount on line 7 by $3,200,000,000.
On page 4, decrease the amount on line 8 by $4,900,000,000.
On page 4, decrease the amount on line 12 by $1,500,000,000.
On page 4, decrease the amount on line 13 by $1,700,000,000.
On page 4, decrease the amount on line 14 by $1,700,000,000.

HOLLINGS (AND BUMPERS) AMENDMENT NO. 92

Mr. HOLLINGS (for himself, Mr. BUMPERS, and Mr. MITCHELL) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI) to the motion to recommit the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:

On page 3, increase the amount on line 12 by $200,000,000.
On page 3, increase the amount on line 13 by $200,000,000.
On page 3, increase the amount on line 14 by $200,000,000.
On page 3, increase the amount on line 18 by $20,000,000.
On page 3, increase the amount on line 19 by $60,000,000.
On page 3, increase the amount on line 20 by $110,000,000.
On page 3, increase the amount on line 25 by $20,000,000.
On page 4, increase the amount on line 1 by $60,000,000.
On page 4, increase the amount on line 2 by $110,000,000.
On page 4, increase the amount on line 6 by $20,000,000.
On page 4, increase the amount on line 7 by $60,000,000.
On page 4, increase the amount on line 8 by $110,000,000.
On page 4, increase the amount on line 12 by $20,000,000.
On page 4, increase the amount on line 13 by $60,000,000.
On page 4, increase the amount on line 14 by $110,000,000.
On page 18, increase the amount on line 8 by $200,000,000.
On page 18, increase the amount on line 9 by $20,000,000.
On page 18, increase the amount on line 17 by $200,000,000.
On page 18, increase the amount on line 18 by $60,000,000.
On page 19, increase the amount on line 1 by $200,000,000.
On page 19, increase the amount on line 2 by $110,000,000.

DOLE (AND DOMENICI) AMENDMENT NO. 93

Mr. DOLE (for himself, Mr. DOMENICI, Mr. ABDNOR, Mr. ARMSTRONG, Mr. BOSCHWITZ, Mr. CHAFEE, Mr. DANFORTH, Mr. DURENBERGER, Mr. EVANS, Mr. GORTON, Mr. GRAMM, Mr. HATFIELD, Mr. HELMS, Mr. LAXALT, Mr. MCCONNELL, Mr. PACKWOOD, Mr. RUDMAN, Mr. SIMPSON, Mr. STAFFORD, Mr. SYMMS, Mr. THURMOND, Mr. TRIBLE, and Mr. WARNER) proposed an amendment to amendment No. 43 proposed by Mr. DOLE, (and Mr. DOMENICI) to the motion to recommit with instructions the concurrent resolution Senate Concurrent Resolution 32, supra; as follows:

In the pending amendment, strike all after the word "That", and insert in lieu thereof the following:

the Congress hereby determines and declares that the concurrent resolution on the budget for fiscal year 1985 is revised and replaced, the first concurrent resolution on the budget for fiscal year 1986 is established, and the appropriate budgetary levels for fiscal year 1987 and 1988 are set forth.

(a) The following budgetary levels are appropriate for the fiscal years beginning on October 1, 1984, October 1, 1985, October 1, 1986, and October 1, 1987:

(1) The recommended levels of Federal revenues are as follows:
Fiscal year 1985: $736,200,000,000.
Fiscal year 1986: $793,600,000,000.
Fiscal year 1987: $866,300,000,000.
Fiscal year 1988: $955,900,000,000.

and the amounts by which the aggregate levels of Federal revenues should be increased are as follows:
Fiscal year 1985: $0.
Fiscal year 1986: $900,000,000.
Fiscal year 1987: $2,000,000,000.
Fiscal year 1988: $3,400,000,000.

and the amounts for Federal Insurance Contributions Act revenues for hospital insurance within the recommended levels of Federal revenues are as follows:
Fiscal year 1985: $44,800,000,000.
Fiscal year 1986: $51,000,000,000.
Fiscal year 1987: $56,100,000,000.
Fiscal year 1988: $61,300,000,000.

and the amounts for Federal Insurance Contributons Act revenues for old-age, survivors, and disability insurance within the recommended levels of Federal revenues are as follows:
Fiscal year 1985: $186,200,000,000.
Fiscal year 1986: $200,700,000,000.
Fiscal year 1987: $216,900,000,000.
Fiscal year 1988: $248,300,000,000.

(2) The appropriate levels of total new budget authority are as follows:
Fiscal year 1985: $1,055,600,000,000.
Fiscal year 1986: $1,069,500,000,000.
Fiscal year 1987: $1,132,800,000,000.
Fiscal year 1988: $1,212,900,000,000.

(3) The appropriate levels of total budget outlays are as follows:
Fiscal year 1985: $949,100,000,000.
Fiscal year 1986: $965,000,000,000.
Fiscal year 1987: $1,011,100,000,000.
Fiscal year 1988: $1,060,200,000,000.

(4) The amounts of the deficits in the budget which are appropriate in the light of economic conditions and all other relevant factors are as follows:
Fiscal year 1985: $212,900,000,000.
Fiscal year 1986: $171,400,000,000.
Fiscal year 1987: $144,800,000,000.
Fiscal year 1988: $104,300,000,000.

(5) The appropriate levels of the public debt are as follows:
Fiscal year 1985: $1,849,300,000,000.
Fiscal year 1986: $2,086,500,000,000.
Fiscal year 1987: $2,312,700,000,000.
Fiscal year 1988: $2,525,200,000,000.

and the amounts by which the statutory limits on such debt should be accordingly increased are as follows:
Fiscal year 1985: $25,500,000,000.
Fiscal year 1986: $237,200,000,000.
Fiscal year 1987: $226,200,000,000.
Fiscal year 1988: $212,600,000,000.

(6) The appropriate levels of total Federal credit activity for the fiscal years beginning on October 1, 1984, October 1, 1985, October 1, 1986, and October 1, 1987, are as follows:

(B) Outlays, $8,700,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1986:

(A) New budget authority, $9,100,000,000.

(B) Outlays, $9,000,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1987:

(A) New budget authority, $9,000,000,000.

(B) Outlays, $8,800,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1988:

(A) New budget authority, $9,300,000,000.

(B) Outlays, $9,000,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(4) Energy (270):

Fiscal year 1985:

(A) New budget authority, $1,600,000,000.

(B) Outlays, $6,500,000,000.

(C) New direct loan obligations, $1,700,000,000.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1986:

(A) New budget authority, $5,200,000,000.

(B) Outlays, $5,100,000,000.

(C) New direct loan obligations, $2,100,000,000.

(D) New primary loan guarantee commitments, $4,100,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1987:

(A) New buget authority, $5,200,000,000.

(B) Outlays, $4,600,000,000.

(C) New direct loan obligations, $1,700,000,000.

(D) New primary loan guarantee commitments, $300,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1988:

(A) New budget authority, $4,900,000,000.

(B) Outlays, $4,200,000,000.

(C) New direct loan obligations, $1,600,000,000.

(D) New primary loan guarantee commitments, $600,000,000.

(E) New secondary loan guarantee commitments, $0.

(5) Natural Resources and Environment (300):

Fiscal year 1985:

(A) New budget authority, $12,700,000,000.

(B) Outlays, $13,100,000,000.

(C) New direct loan obligations, $100,000,000.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1986:

(A) New budget authority, $12,200,000,000.

(B) Outlays, $12,500,000,000.

(C) New direct loan obligations, $100,000,000.

(D) New primary loan guarantee comitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1987:

(A) New budget authority, $12,600,000,000.

(B) Outlays, $12,400,000,000.

(C) New direct loan obligations, $100,000,000.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1988:

(A) New budget authority, $12,800,000,000.

(B) Outlays, $12,500,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(6) Agriculture (350):

Fiscal year 1985:

(A) New budget authority, $24,800,000,000.

(B) Outlays, $21,000,000,000.

(C) New direct loan obligations, $13,800,000,000.

(D) New primary loan guarantee commitments, $5,700,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1986:

(A) New budget authority, $17,200,000,000.

(B) Outlays, $14,500,000,000.

(C) New direct loan obligations, $11,700,000,000.

(D) New primary loan guarantee commitments, $9,000,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1987:

(A) New budget authority, $17,700,000,000.

(B) Outlays, $15,800,000,000.

(C) New direct loan obligations, $10,200,000,000.

(D) New primary loan guarantee commitments, $9,000,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1988:

(A) New budget authority, $17,000,000,000.

(B) Outlays, $12,900,000,000.

(C) New direct loan obligations, $9,100,000,000.

(D) New primary loan guarantee commitments, $9,000,000,000.

(E) New secondary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

RECONCILIATION

SEC. 2. (a) Not later than June 30, 1985, the committees named in subsections (b) through (bb) of this section shall submit their recommendations to the Committees on the Budget of their respective Houses. After receiving those recommendations, the Committees on the Budget shall report to the House and Senate a reconciliation bill or resolution or both carrying out all such recommendations without any substantive revision.

SENATE COMMITTEES

(b) The Senate Committee on Agriculture, Nutrition, and Forestry shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $3,577,000,000 in budget authority and $3,860,000,000 in outlays in fiscal year 1986, $3,280,000,000 in budget authority and $5,097,000,000 in outlays in fiscal year 1987, and $3,571,000,000 in budget authority and $8,689,000,000 in outlays in fiscal year 1988.

(c) The Senate Committee on Armed Services shall report changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to achieve savings of $0 in budget authority and $539,000,000 in outlays in fiscal year 1986, $0 in budget authority and $942,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $1,073,000,000 in outlays in fiscal year 1988.

(d) The Senate Committee on Banking, Housing, and Urban Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $8,895,000,000 in budget authority and $3,959,000,000 in outlays in fiscal year 1986, $9,638,000,000 in budget authority and $5,937,000,000 in outlays in fiscal year 1987, and $10,905,000,000 in budget authority and $7,055,000,000 in outlays in fiscal year 1988.

(e) The Senate Committee on Commerce, Science, and Transportation shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $2,006,000,000 in budget authority and $1,679,000,000 in outlays in fiscal year 1986, $781,000,000 in budget authority and $471,000,000 in outlays in fiscal year 1987, and $987,000,000 in budget authority and $706,000,000 in outlays in fiscal year 1988.

(f) The Senate Committee on Energy and Natural Resources shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $3,014,000,000 in budget authority and $2,265,000,000 in outlays in fiscal year 1986, $2,836,000,000 in budget authority and $2,666,000,000 in outlays in fiscal year 1987, and $2,847,000,000 in budget authority and $2,925,000,000 in outlays in fiscal year 1988.

(g) The Senate Committee on Environmental and Public Works shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $723,000,000 in budget authority and $310,000,000 in outlays in fiscal year 1986, $1,221,000,000 in budget authority and $1,393,000,000 in outlays in fiscal year 1987, and $1,738,000,000 in budget authority and $2,066,000,000 in outlays in fiscal year 1988.

(h) The Senate Committee on Finance shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $0 in budget authority and $10,847,000,000 in outlays in fiscal year 1986, $0 in budget authority and $18,608,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $22,429,000,000 in outlays in fiscal year 1988.

(i) The Senate Committee on Foreign Relations shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $192,000,000 in budget authority and $47,000,000 in outlays in fiscal year 1986, $275,000,000 in budget authority and $109,000,000 in outlays in fiscal year 1987, and $282,000,000 in budget authority and $140,000,000 in outlays in fiscal year 1988.

(j) The Senate Committee on Governmental Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, or (3) any combination thereof, sufficient to achieve increases in contributions and savings in budget authority and outlays as follows: $375,000,000 in contributions, $0 in budget authority and $3,654,000,000 in outlays in fiscal year 1986, $1,325,000,000 in contributions, $0 in budget authority and $7,651,000,000 in outlays in fiscal year 1987, and $1,370,000,000 in contributions, $0 in budget authority and $8,889,000,000 in outlays in fiscal year 1988.

(k) The Senate Committee on Labor and Human Resources shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $1,380,000,000 in budget authority and $668,000,000 in outlays in fiscal year 1986, $1,808,000,000 in budget authority and $1,687,000,000 in outlays in fiscal year 1987, and $2,130,000,000 in budget authority and $2,242,000,000 in outlays in fiscal year 1988.

(l) The Senate Committee on Small Business shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within it jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $460,000,000 in budget authority and $504,000,000 in outlays in fiscal year 1986, $629,000,000 in budget authority and $1,028,000,000 in outlays in fiscal year 1987, and $1,117,000,000 in budget authority and $1,044,000,000 in outlays in fiscal year 1988.

(m) The Senate Committee on Veterans' Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $1,076,000,000 in budget authority and $986,000,000 in outlays in fiscal year 1986, $1,344,000,000 in budget authority and $1,534,000,000 in outlays in fiscal year 1987, and $1,741,000,000 in outlays in fiscal year 1988.

(n) The Senate Select Committee on Indian Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $148,000,000 in budget authority and $61,000,000 in outlays in fiscal year 1986, $153,000,000 in budget authority and $116,000,000 in outlays in fiscal year 1987, and $159,000,000 in budget authority and $137,000,000 in outlays in fiscal year 1988.

(o) The Senate Committee on Energy and Natural Resources, pursuant to section (f), and the Senate Committee on Agriculture, Nutrition and Forestry, pursuant to subsection (b), shall review (1) changes in laws

within their jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within their jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $52,000,000 in budget authority and $12,000,000 in outlays in fiscal year 1986, $113,000,000 in budget authority and $86,000,000 in outlays in fiscal year 1987; and $127,000,000 in budget authority and $111,000,000 in outlays in fiscal year 1988.

HOUSE COMMITTEES

(p) The House Committee on Agriculture shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $3,577,000,000 in budget authority and $3,860,000,000 in outlays in fiscal year 1986, $3,280,000,000 in budget authority and $5,097,000,000 in outlays in fiscal year 1987, and $3,591,000,000 in budget authority and $8,689,000,000 in outlays in fiscal year 1988.

(q) The House Committee on Armed Services shall report changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to achieve savings of $0 in budget authority and $539,000,000 in outlays in fiscal year 1986, $0 in budget authority and $942,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $1,073,000,000 in outlays in fiscal year 1988.

(r) The House Committee on Banking, Finance and Urban Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $7,932,000,000 in budget authority and $3,774,000,000 in outlays in fiscal year 1986, $8,490,000,000 in budget authority and $5,508,000,000 in outlays in fiscal year 1987, and $9,125,000,000 in budget authority and $6,303,000,000 in outlays in fiscal year 1988.

(s) The House Committee on Education and Labor shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $1,137,000,000 in budget authority and $821,000,000 in outlays in fiscal year 1986, $1,553,000,000 in budget authority and $1,784,000,000 in outlays in fiscal year 1987, and $1,861,000,000 in budget authority and $2,298,000,000 in outlays in fiscal year 1988.

(t) The House Committee on Energy and Commerce shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $4,205,000,000 in budget authority and $7,308,000,000 in outlays in fiscal year 1986, $2,900,000,000 in budget authority and $8,450,000,000 in outlays in fiscal year 1987, and $2,987,000,000 in budget authority and $10,994,000,000 in outlays in fiscal year 1988.

(u) The House Committee on Foreign Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $192,000,000 in budget authority and $47,000,000 in outlays in fiscal year 1986, $275,000,000 in budget authority and $109,000,000 in outlays in fiscal year 1987, and $282,000,000 in budget authority and $140,000,000 in outlays in fiscal year 1988.

(v) The House Committee on Government Operations shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $0 in budget authority and $64,000,000 in outlays in fiscal year 1986, $0 in budget authority and $3,699,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $5,203,000,000 in outlays in fiscal year 1988.

(w) The House Committee on Interior and Insular Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $540,000,000 in budget authority and $292,000,000 in outlays in fiscal year 1986, $559,000,000 in budget authority and $402,000,000 in outlays in fiscal year 1987, and $634,000,000 in budget authority and $526,000,000 in outlays in fiscal year 1988.

(x) The House Committee on Merchant Marine and Fisheries shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $405,000,000 in budget authority and $383,000,000 in outlays in fiscal year 1986, $206,000,000 in budget authority and $194,000,000 in outlays in fiscal year 1987, and $212,000,000 in budget authority and $204,000,000 in outlays in fiscal year 1988.

(v) The House Committee on Post Office and Civil Service shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, or (3) any combination thereof, sufficient to achieve increases in contributions and savings in budget authority and outlays as follows: $375,000,000 in contributions, $0 in budget authority and $3,590,000,000 in outlays in fiscal year 1986, $1,325,000,000 in contributions, $0 in budget authority and $7,502,000,000 in outlays in fiscal year 1987, and $1,370,000,000 in contributions, $0 in budget authority and $8,642,000,000 in outlays in fiscal year 1988.

(z) The House Committee on Public Works and Transportation shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $1,895,000,000 in budget authority and $469,000,000 in outlays in fiscal year 1986, $2,616,000,000 in budget authority and $1,833,000,000 in outlays in fiscal year 1987, and $3,820,000,000 in budget authority and $2,897,000,000 in outlays in fiscal year 1988.

(aa) The House Committee on Small Business shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $460,000,000 in budget authority and $504,000,000 outlays in fiscal year 1986, $629,000,000 in budget authority and $1,028,000,000 in outlays in fiscal year 1987, and $1,117,000,000 in budget authority and $1,044,000,000 in outlays in fiscal year 1988.

(bb) The House Committee on Veterans' Affairs shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget authority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or (3) any combination thereof, as follows: $1,076,000,000 in budget authority and $986,000,000 in outlays in fiscal year 1986, $1,344,000,000 in budget authority and $1,534,000,000 in outlays in fiscal year 1987, and $1,457,000,000 in budget authority and $1,741,000,000 in outlays in fiscal year 1988.

(cc) The House Committee on Ways and Means shall report (1) changes in laws within its jurisdiction which provide spending authority as defined in section 401(c)(2)(C) of the Congressional Budget Act of 1974, sufficient to reduce budget au-

thority and outlays, (2) changes in laws within its jurisdiction other than those which provide spending authority as defined in section 401(c)(2)(C) of the Act, sufficient to achieve savings in budget authority and outlays, or or (3) any combination thereof, as follows: $0 in budget authority and $10,330,000,000 in outlays in fiscal year 1986, $0 in budget authority and $14,370,000,000 in outlays in fiscal year 1987, and $0 in budget authority and $16,671,000,000 in outlays in fiscal year 1988.

APPROPRIATIONS

SEC. 3. (a) It shall not be in order to consider any measure making appropriations in the Senate or House of Representatives, if the enactment of such bill or resolution, as recommended by the respective Committee on Appropriations, would cause the aggregate total budget authority for function 050, National Defense, to exceed $303,200,000,000 in fiscal year 1986; aggregate total budget authority to exceed $324,100,000,000 in fiscal year 1987; and aggregate total budget authority to exceed $347,600,000,000 in fiscal year 1988.

(b) It shall not be in order to consider any measure making appropriations in the Senate and House of Representatives, if the enactment of such bill or resolution, as recommended by the respective Committee on Appropriations, would cause the aggregate total budget authority for nondefense discretionary activities to exceed $140,800,000,000 in fiscal year 1986; aggregate total budget authority to exceed $143,800,000,000 in fiscal year 1987; and aggregate budget authority to exceed $149,300,000,000 in fiscal year 1988.

(c) The provisions of subsection (a) or (b) of this section may be waived or suspended in the Senate by a majority vote of the Members voting, a quorum being present, or by unanimous consent of the Senate.

MISCELLANEOUS PROVISIONS

SEC. 4. If the Congress has not completed action by October 1, 1985, on the concurrent resolution on the budget required to be reported under section 310(a) of the Congressional Budget Act of 1974 for fiscal year 1986, then, for purposes of section 311 of such Act, this concurrent resolution shall be deemed to be the concurrent resolution required to be reported under section 310 of such Act.

SEC. 5. It shall not be in order in the House of Representatives or the Senate during fiscal years 1986 and 1987 to consider any bill, resolution, or amendment, except proposed legislation reported in response to reconciliation instructions contained in this resolution, authorizing new direct loan obligations or new loan guarantee commitments unless that bill, resolution, or amendment also provides that the authority to make or guarantee such loans shall be effective only to such extent and in such amounts as are contained in appropriation acts. This section shall not be applicable to agricultural price support and related programs of the type in operation on January 1, 1985, that are funded through the Commodity Credit Corporation.

SEC. 6. It is the sense of the Congress that the previous distinction between "unified budget" and "off-budget" spending be ended, and that budget authority and outlays for the so-called "off-budget" agencies be included in the budget totals.

SEC. 7. (a) The Senate finds that—

(1) the existing tax structure of the United States distorts economic activity, leading to an inefficient use of national resources and a weakening of our domestic economic vitality and competitive posture in international markets;

(2) the relative tax burdens among various taxpayer categories are manifestly unfair insofar as they arise from differences in the capabilities of taxpayers to take advantage of complicated tax laws;

(3) the ability of the Federal Government to plan and conduct rational fiscal policy is frustrated by elaborate schemes to avoid taxation and the unintended effects of tax incentives and penalities;

(4) progressive erosion of voluntary compliance threatens the fiscal integrity of our public finances and the confidence of our citizens in the Federal Government's capacity to govern; and

(5) a number of plans, each designed to simplify and reform the Tax Code, have been before the Congress for a time sufficient to allow for extensive analysis and evaluation.

(b) It is therefore the sense of the Senate that tax reform should be adopted as soon as possible, and that it should incorporate the following principles and objectives:

(1) efficiency and responsiveness to market conditions in the economic activities of American businesses and consumers;

(2) simplicity of structure and lower marginal tax rates;

(3) a fair and equitable distribution of the tax burden among all taxpayers, with relief for those below the poverty level, and incentives to bring them into the work force;

(4) a broader tax base, with deductions essential to avoid genuine hardship or to protect the economic security of the American people; and

(5) increased incentives for work, saving, and investment.

SEC. 8. It is the sense of the Senate that because the Senate requires timely reporting of legislative action on spending bills, and because the Senate requires continual control over the budget, the Director of the Congressional Budget Office shall issue a weekly report during periods when the Senate is in session detailing and tabulating the progress of congressional action on bills and resolutions providing new budget authority and changing revenues and the public debt for a fiscal year, including, but not limited to the requirements set forth in Public Law 93-344, section 308(b).

SEC. 9. It is the sense of the Senate that the amount of budget authority and outlays set forth in this concurrent resolution for the functional category of Income Security for fiscal year 1985 are sufficient to ensure that $1,500,000,000 is apportioned among the States to carry out the Special Supplemental Food Program authorized by section 17 of the Child Nutrition Act of 1966 (commonly referred to as the WIC program); and it is assumed that the Office of Management and Budget should therefore release and apportion to the States the full amount of $1,500,000,000, which was appropriated for the WIC program for fiscal year 1985 since—

(1) Public Law 98-473 provided that, in carrying out the WIC program, funds shall be apportioned to the States based on an annual appropriation level of $1,500,000,000;

(2) the Conference Report on H.R. 5743 (H. Rept. 98-1071), the Agriculture, Rural Development and Related Agencies Appropriation Act, 1985, which was incorporated in Public Law 98-473, expresses the conferees' intent that the WIC program be carried out in such a manner as to fully obligate the $1,500,000,000 appropriated by Public Law 98-473 for such program for fiscal year 1985;

(3) such Conference Report also explicitly stated that any action to allocate funds inconsistent with a full-year appropriation level of $1,500,000,000 for the WIC program would be an improper withholding of funds; and

(4) the Office of Management and Budget has not made available to the Department of Agriculture for distribution to the States the full amount of funds intended by Congress to be allocated to the WIC program in any of the first three quarters of fiscal year 1985, and has not made funds available for such program during such quarters at the rate intended by the Congress.

SEC. 10. It is the sense of the Congress that functional totals should be reduced to reflect a limitation on the amount of social security benefits paid to illegal and non-resident aliens. It is assumed that the Finance Committee will report legislation to accomplish the required changes in law. Such legislation may limit benefits to the amount of wage-earner's contribution plus interest, unless the wage-earner is a citizen of a country with which the United States has a treaty or totalization agreement and that this provision would apply to individuals becoming eligible on or after January 1, 1986.

SEC. 11. It is the sense of the Congress that overall Federal outlays should be reduced and it is assumed that legislation should be enacted to conform the overtime requirements under the Walsh-Healey Act and the Contract Work Hours and Safety Standards Act with the Fair Labor Standards Act and it is further assured that the resulting outlay reductions shall be utilized to achieve the previously agreed-upon program outlay savings.

SEC. 12. It is the sense of the Congress that tax legislation should be enacted to provide for payment of minimum taxes by corporations and individuals on the broadest feasible definition of income to assure that all of those with economic income will pay tax, and that the resulting revenues be used to reduce individual income tax rates and to increase the threshold amount for tax payments by individuals in connection with consideration of comprehensive tax reform legislation.

SEC. 13. It is the sense of the Senate that revenues should be increased and it is assumed that tax legislation will be enacted to limit to the national median family income the amount of farm loss which may be deducted against nonfarm income, and it is further assumed that revenues derived from enactment of such legislation be used to reduce individual income tax rates and to assure that full-time, family-size farm operators will not be disadvantaged by unfair competition from high-income taxpayers with substantial nonfarm income.

SEC. 14. It is sense of the Congress that revenues should be increased and it is assumed that the Finance Committee will develop legislation to reduce the tax enforcement gap, estimated by the IRS at $92 billion in FY 1986. It is further assumed that such legislation should provide for increased and improved enforcement and collection, through audits, examinations, and other steps designed to identify and eliminate tax cheating and increase revenue collections from individuals and corporations currently evading federal taxes, and that the legislation should include steps designed to increase voluntary compliance with tax laws and that such steps may include increased staff for taxpayer assistance, speedier proc-

essing of returns and provision of public information designed to build public trust and understanding of IRS enforcement efforts and that such legislation should also provide that the resources of the IRS shall be increased to accomplish full enforcement of U.S. tax laws, increasing voluntary compliance until such time as further marginal spending on IRS resources does not substantially increase tax yields and that such legislation is fully compatible with tax simplification, including but not limited to reductions in income tax rates or the deficit.

MOYNIHAN (AND OTHERS) AMENDMENT NO. 94

Mr. MOYNIHAN (for himself, Mr. RIEGLE, Mr. BYRD, and Mr. CRANSTON) proposed an amendment to amendment No. 43, proposed by Mr. DOLE (and Mr. DOMENICI), and subsequently amended, to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:

On page 3, decrease the amount on line 12 by $68,000,000.

On page 3, increase the amount on line 13 by $29,000,000.

On page 3, increase the amount on line 14 by $9,000,000.

On page 3, increase the amount on line 18 by $6,068,000,000.

On page 3, increase the amount on line 19 by $8,934,000,000.

On page 3, increase the amount on line 20 by $9,708,,000,000.

On page 3, increase the amount on line 25 by $6,068,000,000.

On page 4, increase the amount on line 1 by $8,934,000,000.

On page 4, increase the amount on line 2 by $9,708,000,000.

On page 4, increase the amount on line 6 by $100,000,000.

On page 4, increase the amount on line 7 by $900,000,000.

On page 4, increase the amount on line 8 by $2,400,000,000.

On page 4, increase the amount on line 12 by $100,000,000.

On page 4, increase the amount on line 13 by $800,000,000.

On page 4, increase the amount on line 14 by $1,500,000,000.

On page 24, decrease the amount on line 2 by $167,000,000.

On page 24, decrease the amount on line 3 by $55,000,000.

On page 24, decrease the amount on line 12 by $228,000,000.

On page 24, decrease the amount on line 13 by $66,000,000.

On page 24, decrease the amount on line 22 by $257,000,000.

On page 24, decrease the amount on line 23 by $76,000,000.

On page 25, decrease the amount on line 17 by $190,000,000.

On page 25, increase the amount on line 18 by $5,834,000,000.

On page 26, decrease the amount on line 2 by $740,000,000.

On page 26, increase the amount on line 3 by $8,003,000,000.

On page 26, decrease the amount on line 11 by $1,459,000,000.

On page 26, increase the amount on line 12 by $8,059,000,000.

On page 32, increase the amount on line 17 by $289,000,000.

On page 32, increase the amount on line 18 by $289,000,000.

On page 33, increase the amount on line 2 by $997,000,000.

On page 33, increase the amount on line 3 by $997,000,000.

On page 33, increase the amount on line 11 by $1,725,000,000.

On page 33, increase the amount on line 12 by $1,725,000,000.

On page 40, decrease the amount on line 16 by $5,943,000,000.

On page 40, decrease the amount on line 17 by $8,152,000,000.

On page 40, decrease the amount on line 18 by $8,213,000,000.

On page 51, decrease the amount on line 7 by $5,943,000,000.

On page 51, decrease the amount on line 8 by $8,152,000,000.

On page 51, decrease the amount on line 9 by $8,213,000,000.

AMENDMENT NO. 94

In the pending amendment, do the following:

On page 3, decrease the amount on line 12 by $68,000,000.

On page 3, increase the amount on line 13 by $29,000,000.

On page 3, increase the amount on line 14 by $9,000,000.

On page 3, increase the amount on line 18 by $6,068,000,000.

On page 3, increase the amount on line 19 by $8,934,000,000.

On page 3, increase the amount on line 20 by $9,708,000,000.

On page 3, increase the amount on line 25 by $6,068,000,000.

On page 4, increase the amount on line 1 by $8,934,000,000.

On page 4, increase the amount on line 2 by $9,708,000,000.

On page 4, increase the amount on line 6 by $100,000,000.

On page 4, increase the amount on line 7 by $900,000,000.

On page 4, increase the amount on line 8 by $2,400,000,000.

On page 4, increase the amount on line 12 by $100,000,000.

On page 4, increase the amount on line 13 by $800,000,000.

On page 4, increase the amount on line 14 by $1,500,000,000.

On page 24, decrease the amount on line 2 by $167,000,000.

On page 24, decrease the amount on line 3 by $55,000,000.

On page 24, decrease the amount on line 12 by $228,000,000.

On page 24, decrease the amount on line 13 by $66,000,000.

On page 24, decrease the amount on line 22 by $257,000,000.

On page 24, decrease the amount on line 23 by $76,000,000.

On page 25, decrease the amount on line 17 by $190,000,000.

On page 25, decrease the amount on line 18 by $5,834,000,000.

On page 26, decrease the amount on line 2 by $740,000,000.

On page 26, increase the amount on line 3 by $8,003,000,000.

On page 26, decrease the amount on line 11 by $1,459,000,000.

On page 26, increase the amount on line 12 by $8,059,000,000.

On page 32, increase the amount on line 17 by $289,000,000.

On page 32, increase the amount on line 18 by $289,000,000.

On page 33, increase the amount on line 2 by $997,000,000.

On page 33, increase the amount on line 3 by $997,000,000.

On page 33, increase the amount on line 11 by $1,725,000,000.

On page 33, increase the amount on line 12 by $1,725,000,000.

On page 40, decrease the first amount on line 16 by $5,943,000,000.

On page 40, decrease the amount on line 17 by $8,152,000,000.

On page 40, decrease the second amount on line 18 by $8,213,000,000.

On page 51, decrease the first amount on line 17 by $5,943,000,000.

On page 51, decrease the amount on line 3 by $8,152,000,000.

On page 51, decrease the second amount on line 9 by $8,213,000,000.

KENNEDY AMENDMENT NO. 95

Mr. KENNEDY proposed an amendment to amendment No. 43 proposed by Mr. DOLE (and Mr. DOMENICI), and subsequently amended, to the motion to recommit with instructions the concurrent resolution Senate Concurrent Resolution 32, supra; as follows:

On page 3, increase the amount on line 11 by $0.

On page 3, increase the amount on line 12 by $500,000,000.

On page 3, increase the amount on line 13 by $800,000,000.

On page 3, increase the amount on line 14 by $1,200,000,000.

On page 3, increase/decrease the amount on line 17 by $0.

On page 3, increase the amount on line 18 by $1,200,000,000.

On page 3, increase the amount on line 19 by $1,500,000,000.

On page 3, increase the amount on line 20 by $2,500,000,000.

On page 3, increase/decrease the amount on line 24 by $0.

On page 3, increase the amount on line 25 by $1,200,000,000.

On page 4, increase the amount on line 1 by $1,500,000,000.

On page 4, increase the amount on line 2 by $2,500,000,000.

On page 4, increase/decrease the amount on line 5 by $0.

On page 4, increase the amount on line 6 by $1,200,000,000.

On page 4, increase the amount on line 7 by $2,700,000,000.

On page 4, increase the amount on line 8 by $5,200,000,000.

On page 4, increase the amount on line 11 by $0.

On page 4, increase the amount on line 12 by $1,200,000,000.

On page 4, increase the amount on line 13 by $1,500,00,000.

On page 4, increase the amount on line 14 by $2,500,000,000.

On page 21, increase the amount on line 8 by $300,000,000.

On page 21, increase the amount on line 9 by $300,000,000.

On page 21, increase the amount on line 10 by $0.

On page 21, increase/decrease the amount on line 12 by $0.

On page 21, increase/decrease the amount on line 14 by $0.

On page 21, increase the amount on line 16 by $400,000,000.

On page 21, increase the amount on line 17 by $300,000,000.
On page 21, increase/decrease the amount on line 18 by $0.
On page 21, increase/decrease the amount on line 20 by $0.
On page 21, increase/decrease the amount on line 22 by $0.
On page 21, increase the amount on line 24 by $600,000,000.
On page 21, increase the amount on line 25 by $500,000,000.
On page 22, increase/decrease the amount on line 1 by $0.
On page 22, increase/decrease the amount on line 3 by $0.
On page 22, increase/decrease the amount on line 5 by $0.
Medical Insurance (570):
On page 22, increase/decrease the amount on line 8 by $0.
On page 22, increase/decrease the amount on line 9 by $0.
On page 22, increase/decrease the amount on line 10 by $0.
On page 22, increase/decrease the amount on line 12 by $0.
On page 22, increase/decrease the amount on line 14 by $0.
On page 22, increase the amount on line 16 by $200,000,000.
On page 22, increase the amount on line 17 by $900,000,000.
On page 22, increase/decrease the amount on line 18 by $0.
On page 22, increase/decrease the amount on line 20 by $0.
On page 22, increase/decrease the amount on line 22 by $0.
On page 22, increase the amount on line 24 by $400,000,000.
On page 22, increase the amount on line 25 by $1,200,000,000.
On page 23, increase/decrease the amount on line 1 by $0.
On page 23, increase/decrease the amount on line 3 by $0.
On page 23, increase/decrease the amount on line 5 by $0.
On page 23, increase the amount on line 7 by $600,000,000.
On page 23, increase the amount on line 8 by $2,000,000,000.
On page 23, increase/decrease the amount on line 9 by $0.
On page 23, increase/decrease the amount on line 11 by $0.
On page 23, increase/decrease the amount on line 13 by $0.
Senate Committee on Finance:
On page 40, decrease the amount on line 15 by $0.
On page 40, decrease the first amount on line 16 by $1,200,000,000.
On page 40, increase/decrease the second amount on line 16 by $0.
On page 40, decrease the amount on line 17 by $1,500,000,000.
On page 40, increase/decrease the first amount on line 18 by $0.
On page 40, decrease the second amount on line 18 by $2,500,000,000.

METZENBAUM (AND OTHERS) AMENDMENT NO. 96

Mr. METZENBAUM (for himself, Mr. HOLLINGS, and Mr. LEVIN) proposed an amendment to amendment No. 43 proposed by Mr. DOLE (for himself and Mr. DOMENICI), and subsequently amended, to the motion to recommit with instructions the concurrent resolution (S. Con. Res. 32), supra; as follows:

In the pending amendment, do the following:
On page 2, increase the amount on line 9 by $2,100,000,000.
On page 2, increase the amount on line 10 by $4,600,000,000.
On page 2, increase the amount on line 11 by $3,800,000,000.
On page 2, increase the amount on line 15 by $2,100,000,000.
On page 2, increase the amount on line 16 by $4,600,000,000.
On page 2, increase the amount on line 17 by $3,800,000,000.
On page 3, decrease the amount on line 12 by $100,000,000.
On page 3, decrease the amount on line 13 by $400,000,000.
On page 3, decrease the amount on line 14 by $800,000,000.
On page 3, decrease the amount on line 18 by $100,000,000.
On page 3, decrease the amount on line 19 by $400,000,000.
On page 3, decrease the amount on line 20 by $800,000,000.
On page 3, decrease the amount on line 25 by $2,200,000,000.
On page 4, decrease the amount on line 1 by $5,000,000,000.
On page 4, decrease the amount on line 2 by $4,600,000,000.

On page 51, line 10, add the following new sentence: "The House Committee on Ways and Means shall report changes in laws within the jurisdiction of the committee sufficient to increase revenues as follows: $2,100,000,000 in fiscal year 1986; $4,600,000,000 in fiscal year 1987; and $3,800,000,000 in fiscal year 1988.".

NOTICES OF HEARINGS

SUBCOMMITTEE ON FAMILY FARMS

Mr. WEICKER. Mr. President, I would like to announce that on May 22, 1985 the Senate Small Business Committee's Family Farm Subcommittee will hold a hearing on small issue industrial development bonds as a source of capital for small business expansion. The hearing will be held in room 428A of the Russell Senate Office Building and will begin at 2 p.m. Senator LARRY PRESSLER will chair the hearing. For further information, please contact Bob Wilson, of the committee staff, at 224-5175 or Tom Hohenthaner of Senator PRESSLER's staff at 224-5842.

SUBCOMMITTEE ON LABOR

Mr. NICKLES. Mr. President, the Subcommittee on Labor will hold a 1-day hearing on June 13, 1985, regarding S. 1105, the Federal Contractor Employees Flextime Act. This legislation reforms the Walsh-Healey Act to allow Federal contractors in the private sector to work flextime hours.

The hearing is scheduled for 9:30 a.m. in room 628 of the Dirksen Senate Office Building. Persons wishing to testify should submit a written request to Chairman DON NICKLES, Subcommittee on Labor, 428 Dirksen Senate Office Building, Washington, DC, 20510 by May 17, 1985. If you have any questions concerning the hearing, please contact Chuck Carroll or Charlene Abshire, on the subcommittee staff, at 202-224-5546.

TRIBUTE TO THE LATE JUDITH Z. ANDERS, WIFE OF CAPITOL POLICE OFFICER ANDY ANDERS

Mr. THURMOND. Mr. President, I rise today in memory of a fine lady and devoted wife, Judith Z. Anders, who passed away recently after a long illness.

Mrs. Anders was the wife of my good friend and fellow South Carolinian, Officer Andy Anders. Andy, from his strategic post outside the Senate Chamber, has rendered courteous and helpful service, and provided necessary security for Senators, staff and visitors to our Nation's Capitol Building for some 9 years. Andy is a native of Greer, SC, and he and his wife had hoped some day to retire there.

Andy's wife was a devoted partner and dedicated spouse who encouraged and inspired all who were fortunate enough to know her.

Mr. President, Judith Anders was loved and admired by many, and will be greatly missed by a large circle of friends and associates.

This is a difficult time for our friend Andy Anders, who also recently suffered the loss of his wife's father. Mrs. Thurmond and I want to extend our heartfelt sympathy to him and all the members of his and Judith's families.

ADDITIONAL STATEMENTS

THE INTERNATIONAL FINANCIAL SYSTEM

Mr. MATHIAS. Mr. President, the International Economic Policy Subcommittee of the Senate Foreign Relations Committee held a series of hearings in 1983-84 entitled "Stresses and Strains in the International Financial System." These hearings explored a range of problems afflicting the global economy and examined a variety of proposals to resolve these problems.

I was hopeful that the subcommittee findings could be summarized in a way that would make them available to a wider audience. Further, I wanted expert judgment on how the subcommittee might best proceed to fill any gaps in its inquiry and expand its efforts of the last 4 years.

I was enormously pleased, therefore, by the willingness of the Bay Area International Forum of San Francisco to undertake a two-phased effort to meet the needs of the subcommittee.

Phase I is complete and the subcommittee has been provided a superb and comprehensive review of its 1983-84 hearings. The Bay Area International Forum now has begun the second phase of its efforts.

Mr. President, I ask that my exchange of correspondence with the forum and its "Review of 1983-84 Hearings" be made part of the RECORD.

The material follows:

U.S. SENATE,
COMMITTEE ON FOREIGN RELATIONS,
Washington, DC, November 1, 1984.

MR. JOHN PLACE,
Chairman, Bay Area International Forum, c/o World Affairs Council for Northern California, San Francisco, CA.

DEAR MR. PLACE: The San Francisco Bay Area International Forum is in a position to render a unique service to the nation. Your own membership, together with your association with great universities such as Stanford and Berkeley and the other resources available in the Bay Area give you the capability to undertake a major study of international economic problems. The fact that California is now a major international trading community would lead me to hope that you might also have the help and support of public institutions.

The study to which I refer would supplement the examination of international economic issues now underway in the International Economic Policy Subcommittee of the Foreign Relations Committee of the United States Senate. Peter Jones is fully familiar with our concerns and so I will not repeat all that I have explained to him.

During the 98th Congress, our Subcommittee held extensive hearings on a number of high priority international economic issues confronting the United States. Developments in international trade, international debt and the international financial system and related recent major shifts in the U.S. position in these areas received particular attention. Because of the extremely important implications for the United States of developments in the international economic field, it has become clear that additional work on these and related issues is now needed to enable effective policy responses to be developed and successfully carried out.

Your study could make a significant contribution to this effort.

The study might usefully be divided into two parts. The first part should deal with the major questions and findings of fact and policy which our recent hearings covered. These should be analyzed, summarized and indexed. Where useful, findings of fact and forecasts that were well established should be separated from those which were not.

Building upon this base, part two of the study should first identify those important questions of fact and policy, including alternative courses of action, which you recommend be addressed by our Subcommittee during the new Congress in order to maximize major benefits and minimize significant costs to the U.S. in this area. Some of the broader questions which are of particular concern to me are set forth in the attachment to this letter. Each will require component questions to be developed, including those capable of quantification.

Most of these and related questions, including specific policy recommendations and priority concerns of major U.S. interests most directly affected by these issues, can best be pursued with the help of additional hearings. Thus part two of the study should also set forth your recommendations for the next round of such hearings. Issues and participants should be covered, including, of course, the very important ones in your part of the country, along with your recommendations as to location and format of hearings.

It should also cover your recommendations as to any other important means by which the Subcommittee should pursue these issues where further hearings alone would not suffice. And finally, it would also cover any other matters we mutually deem appropriate as the study progresses.

In order to best assist me with the planning and preparation of new hearings and other work as indicated, I would like to receive the completed part one of the study by March 31, 1985 and part two by June 30, 1985. That would greatly facilitate our staying on schedule in using the ensuing months to prepare for hearings toward the end of the first session and/or the beginning of the second.

The impact of this study and related hearings can be considerable. Parts of the executive branch, other parts of the Congress, members of the press, the private sector, universities and other non-profit organizations in the field all can benefit from the process. And they can often become more effectively and extensively engaged in it as a result. Therefore, I am confident you will be making a significant contribution to our ongoing efforts to advance the long term interests of the United States in this field.

Sincerely,

CHARLES MCC. MATHIAS, JR.,
Chairman, Subcommittee on International Economic Policy, Committee on Foreign Relations.

ATTACHMENT A—SUGGESTED BROAD PARAMETERS OF SOME QUESTIONS FOR FUTURE HEARINGS WHICH REQUIRE ELABORATION

PART I

1. Given increased U.S. dependence on international trade to promote growth at home, how vulnerable are we to increased protectionism world-wide?

2. How vulnerable are we to the decreased capacity to import and grow of third world and other countries trying to cope with heavy annual debt servicing requirements and related austerity?

3. Can America's own prosperity last—much less expand—unless others in the third world adequately share in it, providing markets for what we are able to produce?

4. Can we run fast enough even to stay in place if our would-be third world buyers do not run at our side by achieving an adequate level of sustained positive per capita growth?

PART II

1. If such sustained third world per capita growth is required to assure our own sustained growth, does it depend heavily on continuous transfers of funds from the industrial nations to the third world via export earnings, export credits, other private and public sector lending and direct investment? What are the approximate levels of such funds transfers needed to do their necessary part in achieving such third world growth? To what extent are such levels at risk over the next five to ten years?

2. If there are serious risks that adequate funds transfers to the third world will not take place, what are the best means of substantially reducing those risks?

3. Can this be done at a clearly acceptable level of cost to the U.S. whereby the reasonably expected short and long term benefits to us clearly outweigh that cost?

PART III

1. Over the next five to ten years, what are the probabilities that the needed level of funds transfers can be accomplished without substantially increasing the capacity of the International Monetary Fund, the World Bank and the regional development banks to loan and/or induce greater private sector lending and direct investment in key third world nations?

2. What are the downsides of this?

3. What role must the U.S. play in determining and implementing this?

4. What major interests in California, the West Coast and the rest of the country would be most directly damaged as a result of inadequate funds transfers or benefited by satisfactory levels of such transfers?

PART IV

1. What impact would various degrees of rising protectionism and contracting world trade have on the prospects of achieving sustained per capita growth in the third world and thus in the industrial world as well?

2. What major interests in California, the West Coast and the rest of the country would be most directly affected by such a contraction in world trade?

PART V

1. What measures can be taken to assist industries and workers in the United States facing increasing pressures from imported competition?

2. What are the relationships between U.S. budget deficits, high real interest rates, the relative strength of the dollar and the deteriorating U.S. trade position?

WORLD AFFAIRS COUNCIL
OF NORTHERN CALIFORNIA,
San Francisco, CA, December 28, 1984.

Senator CHARLES MCC. MATHIAS, Jr.,
Chairman, Subcommittee on International Economic Policy, U.S. Senate, Washington, DC.

DEAR SENATOR MATHIAS: Thank you for your letter of November 1. I have circulated it to the Executive Committee of the Bay Area International Forum and I am pleased to be able to reply that we will undertake the two-part study requested in your letter. Peter Jones will chair the B.A.I.F. Steering Committee responsible for completing the project and he will be in touch with you and your staff as it progresses.

The members of the Bay Area International Forum welcome this opportunity to make a contribution to the valuable work that you and your Subcommittee are doing on key international economic issues. I hope that you might eventually decide to hold some of your Subcommittee hearings in San Francisco where top corporate executives and others from the West Coast would have a chance to testify.

Sincerely,

JOHN B.M. PLACE.

SAN FRANCISCO, CA, *April 9, 1985.*

Mr. GEORGE M. KELLER,
Chairman, Bay Area International Forum, San Francisco, CA.

DEAR GEORGE: Attached is Part I of the two part study on certain international economic issues undertaken by the Bay Area International Forum for Senator Charles McC. Mathias, Jr., Chairman of the Subcommittee on International Economic Policy of the United States Senate Committee on Foreign Relations.

This first part is a review of the 1983-84 hearings which Senator Mathias chaired, primarily on the external debt problems of various developing nations and their financial and trade implications for these nations, the United States and the global economy.

This study represents extensive and most helpful input from members of the Steering and Research Committees of the study. It also reflects the substantial and, as always, excellent work of Professor Albert Fishlow, Director of our Research Committee and the briefing and discussions he held with the Executive Committee of the Bay Area International Forum.

Special recognition and thanks are due for the excellent research and written analysis of the hearings by U.C. Berkeley graduate student Carl Schmertmann and for first class editing by Frederick D. Baron and Michael Jacobson of the Cooley, Godward law firm which also provided us with conference facilities and other most helpful support.

Peter Tarnoff, Executive Director of the World Affairs Council of Northern California, also has our deep appreciation for the vision and positive support he has given this project from its very inception.

To all concerned, we are most grateful and hope Part I is as useful to others as it has been and will continue to be to all of us.

Sincerely,

PETER T. JONES,
Chairman, Steering Committee.

April 12, 1985.

Senator CHARLES MCC. MATHIAS, Jr.,
Chairman, Subcommittee on International Economic Policy, U.S. Senate, Washington, DC.

DEAR SENATOR MATHIAS: On behalf of the Bay Area International Forum and the Steering and Research Committees responsible for the work, I am pleased to send you Part I of the two-part study we undertook as requested in your letter to us of November 1, 1984. As indicated in the attached letter from Peter T. Jones, Chairman of the Steering Committee, many outstanding people contributed significantly to its successful completion. We already have started work on Part II, which should be ready for you in July.

I would like to express our appreciation to you for this opportunity to be of service. The review is proving very useful to those of us who participated in its preparation or were briefed on its findings. We trust that you will find it a helpful summary of what you have already accomplished and as a resource for future work on these most important international economic issues. In addition, we hope that the Subcommittee on International Economic Policy will consider holding hearings on these matters here in the Bay Area. Many of our business and community leaders would welcome a chance to give their views to the members of your subcommittee.

With best wishes,

Sincerely,

GEORGE M. KELLER,
Chairman, Bay Area International Forum.

REVIEW OF 1983-84 HEARINGS

(Subcommittee on International Economic Policy U.S. Senate Committee on Foreign Relations)

I. INTRODUCTION

Extensive hearings chaired by Senator Charles Mathias of Maryland were held by the Subcommittee on International Economic Policy of the Senate Foreign Relations Committee in 1983 and 1984. The hearings examined the debt crisis in the world financial system and international trade issues, with special emphasis on the economic relations between the United States and the less-developed countries ("LDCs").

Witnesses

Witnesses included prominent members of the financial and business communities, representatives of organized labor, present and former administration officials, economists, and members of Congress. Among others, the Subcommittee received testimony from George Schultz, Donald Regan, W. Michael Blumenthal, Robert McNamara, Henry Fowler, Rimmer de Vries, Felix Rohatyn, Robert Hormats, Charles Schultze, C. Fred Bergsten, and Senators Bradley, Laxalt, Domenici, Garn, and Bingaman.

Scope of review

Beyond the immediate crises on which the hearings focused, many witnesses raised broader questions that will continue to confront the United States and the world economy for years to come. This paper attempts to analyze and summarize the testimony to provide a foundation for further subcommittee analysis, hearings, and policy recommendations. The paper distills from the voluminous hearing record the areas of agreement and disagreement among witnesses, examining the assumptions underlying competing positions. The patterns in the testimony are summarized and tabulated below. A more detailed summary of the testimony of each witness is included in the Appendix.

Issues addressed

Before beginning, it is important to remember that the hearings were focused upon a discrete set of urgent, short-term policy questions that faced Congress at the time. The principal questions were whether to support an increase in the IMF quota in order to deal with the international debt crisis and at what level to fund World Bank International Development Agency loans.

By their nature, the hearings left some issues unaddressed and some points of view unrepresented. In particular, the hearings on trade problems centered on the difficulties faced by certain industries in the United States—the steel, copper and automobile industries. The financial hearings focused on pressing issues related to the IMF and World Bank. This focus limited the extent to which the hearings elicited neutral recommendations for an integrated international economic policy. The particular issues examined in the financial hearings highlighted certain viewpoints while others, such as those of regional banks and multinational corporations, were not reflected in the testimony.

II. EXECUTIVE SUMMARY OF TESTIMONY

A. Interrelationships between international finance and trade issues

Finance and trade issues were the subjects of separate hearings and will be analyzed separately in this paper. However, many witnesses emphasized that finance and trade questions are in fact closely related, and that the financial crisis of the early 1980s was in part a result of the recession in world trade. The picture that emerged from the testimony was that the debt problems of LDCs lower the potential for growth, exports, and jobs in the U.S. and other highly industrial nations. Increased trade with LDCs relieves debt problems and, thus promotes still further trade. Continued economic recovery in the U.S. is essential to any solution to LDC balance of payments and debt problems. Conversely, the economic health of LDCs is important for continued U.S. economic growth, including increased exports and jobs.

Virtually all of the witnesses in the financial hearings stressed the interrelationships between trade and finance. They noted that easing the international debt problems would bring the long-term benefits of increased U.S. exports. By contrast, testimony in the trade hearings, especially from industry witnesses, focused more on the costs of interdependence. Industry witnesses emphasized the immediate harm to their sectors of the economy caused by U.S. imports of LDC goods as borrowing countries attempt to ease debt service burdens by increasing their export revenues. These differences in perspective in the finance and trade hearings led to very different policy recommendations regarding protectionism and international lending.

Despite the difference in emphasis, both sets of hearings dealt with essentially the same question: How to find, both domestically and in the LDCs, a mix of policies that maximizes the important benefits of expanding international trade and related growth with requisite capital flows, while minimizing the associated costs.

B. Summary of finance hearings

The Subcommittee's 1983 hearings on stresses and strains in the international financial system produced substantial agreement among witnesses on the basic origins and causes of the debt crisis. In sum, the Subcommittee was told that banks had oil money to lend and, in the inflationary environment of the 1970s, debt was attractive to LDC governments, especially as a means of

avoiding immediate adjustment to oil price shocks. By the late 1970s the tables had turned. As real interest rates soared, export prices dropped. Anti-inflationary tight monetary policies were applied by the U.S. and other industrial nations and the world economy went into a deep recession.

Testimony about the impact of LDC debt problems on the U.S. economy focused on three broad topics: (1) the vulnerability of the U.S. banking system to financial collapse or panic; (2) the possibility of political radicalization in the LCDs; and (3) the effects of LDC debt on U.S. economic performance. The majority of those testifying saw the long-term impact on U.S. and world trade as the most serious of these prospects.

There was nearly unanimous agreement on the short-term policy that U.S. and international institutions should fund and support IMF efforts to ease the immediate crises. There was less agreement regarding the long-term prospects for resolution of world financial problems. Witnesses expressed fundamentally different ideas both about how seriously the debt situation would affect world lending, trade and growth in the future and what remedies should be adopted. The need for greater stability of the exchange rates of major trading currencies was also expressed, although no witness called for a return to fixed rates.

All witnesses agreed that, in the long run, the foreign private credit dependency of debtor countries must be reduced, primarily through internal structural adjustment. The point of debate was whether reduced private capital flows are compatible with structural adjustment, avoidance of major political upheavals, economic growth, and trade expansion in LDCs without increases in official lending. The Reagan administration witnesses believed that increased official lending would be unnecessary. Most others, including bankers and economists, took the opposite position. They favored continued commercial credit but forecast that it would diminish below the needed level. Therefore they strongly advocated increased multilateral and bilateral credit in furtherance of the interdependent economic interests of the U.S. and the LDCs.

The consensus among virtually all the witnesses in the 1983 financial hearings was that extremely tight U.S. monetary policy, large U.S. budget deficits, and high real interest rates would prevent any signficant immediate recovery. In hindsight, this view was overly pessimistic. The vigorous U.S. recovery which began in late 1982, combined with the growing strength of the dollar, increased American demand for imports. This pulled other industrial countries toward mild recoveries as well. Nonetheless, the longer range concerns over U.S. deficits that were expressed at the hearings obviously continue to be relevant.

C. Summary of trade hearings

Many of those testifying in the trade hearings had specific industry ties and called for tariffs and import quotas. Others argued against protectionism in any form.

The central trade issue was that of "fairness." Witnesses from the steel, copper, and auto industries offered a variety of reasons in support of their claims that the international trade deck was stacked against U.S. companies. Steel and copper industry witnesses also argued that U.S. contributions to multilateral institutions such as the IMF, the World Bank, and regional development banks harm U.S. companies and workers.

Little detailed analysis was offered for many of the concerns advanced at the trade hearings about the need for protection of U.S. industry due to unfair trade practices and official development lending programs. Claims of unfairness were strongest in the case of export subsidization by foreign governments.

Some witnesses suggested expanding GATT's coverage and improving its dispute settlement mechanism.

D. Summary of witnesses' views on principal policy issue

A clear overview of the testimony before the Subcommittee on International Economic Policy may be gained from a tabulation of the witnesses views on twelve of the principal policy issues considered at the hearings—eight relating to the world debt crisis and four relating to trade issues.

In summary, most witnesses thought that the most serious consequence of the world debt crisis would be lower levels of world trade. There was strong consensus among virtually all of the witnesses that lack of LDC growth would have a significant impact on U.S. economic performance. Smaller numbers of witnesses felt that the LDCs would react politically to the debt crisis and that private lending of the sort seen in the 1970's was not likely to resume.

Most of those witnesses who testified on the subject felt that banks and LDC borrowers were not irresponsible in their lending and borrowing prior to the onset of the debt crisis. Several other witnesses, including a representative of labor, a member of congress and an investment banker, disagreed. These same witnesses also felt that major institutional change was necessary to resolve the debt crisis, again in contrast with the testimony of the other witnesses.

The proposition that governments should increase their monitoring or control of international lending to LDCs received a mixed reaction, with administration officials being firmly opposed. Some witnesses also felt that some form of exchange rate control, either through intervention or agreement, would be appropriate, although no witness called for a return to fixed exchange rates.

Administration officials felt that no increased official lending would be necessary in order to reestablish LDC growth. Virtually all of the other witnesses felt that such increased lending would be necessary.

In the area of trade, labor and business witnesses were generally in favor of some form of managed trade while most of the other witnesses advocated free trade. There was a consensus, especially among members of Congress testifying, that official international lending programs should assess the impact on the U.S. economy before approving projects. Finally, only the representatives of labor felt that official international lending programs hurt U.S. exports.

1. Testimony Tabulated By Issue:

Listed below are the twelve principal issues for which testimony was tabulated. The results of the tabulation are set forth next to each issue.

Finance issues

(1) Would lack of LDC growth have a singificant impact on U.S. economic performance? (Yes 18; No 0).

(2) Will LDCs react politically to the debt crisis? (Yes 6; No 0).

(3) Which is the most serious consequence of the debt crisis: financial turmoil (F), lower levels of world trade (T), or political instability in LDCs (P)? (Financial turmoil 5; lower levels of trade 19; political instability 8).

(4) Were banks and countries irresponsible in lending and borrowing too much too fast? (Yes 3; No 0).

(5) Is 1970s-style bank lending likely to resume? (Yes 0; No 7).

(6) Should governments increase monitoring or control of international bank lending to LDCs? (Yes 4; No 3).

(7) Is a major institutional change necessary in order to resolve the debt crisis? (Yes 3; No 14).

(8) Will increased official lending be necessary in order to reestablish LDC growth? (Yes 16; No 2).

Trade issues

(9) Advocated free trade (F) or some form of managed trade (M). (Free trade 11; Managed trade 7).

(10) Should official international lending programs assess the impact on the U.S. economy before approving projects? (Yes 8; No 1).

(11) Do official international lending programs hurt U.S. exports? (Yes 2; No 6).

(12) Should exchange rates be controlled through either direct intervention or international agreements? (Yes 7; No 1).

2. Testimony Tabulated By Witness:

The tables on the following two pages characterize the testimony of individual witnesses on the twelve principle policy described in the preceding section.

E. Conclusions

The Subcommittee's hearings underscored three central themes. First, international trade and financial questions are so closely interrelated that U.S. policy must deal with them in a comprehensive, integrated fashion. Second, to be effective, both U.S. and international economic policy must be grounded in an objective understanding of the factors which motivate the borrowing, lending and trading behavior of governments and the investments of private multinational firms. Third, the economic health of the United States is increasingly dependent on the economic health of less developed countries because of their importance as trading partners as well as debtors to U.S. and international and financial institutions.

Despite the subsequent alleviation of the immediate crises that prompted the 1983 finance hearings, the underlying structural problems remain and will be aggravated again by any substantial decline in worldwide economic growth. Thus the general themes of the 1983–84 hearings are worthy of further consideration by the Subcommittee.

III. REVIEW OF TESTIMONY

A. Financial issues

1. Causes of the Debt Crisis:

In the 1983 hearings on strains in the world financial system, there was substantial agreement on the causes of the debt crisis. The double oil price shocks of the 1970s raised the import bills of many LDCs, while the availability of petrodollars in world financial markets lowered the cost of international borrowing. Under such conditions many LDCs chose to borrow large amounts from foreign banks to cushion the shock of higher energy prices. Many banks found such lending to be profitable.

Between 1973 and 1982, the total external debt of non-oil developing countries rose over 500 percent in nominal terms, with much of the increase being in the from of short-term, variable interest rate obligations to commercial banks. Commercial borrowing became an important mechanism for continued economic expansion in LDCs by allowing balance of payments deficits to be handled without major internal economic contractions and related political strains or structural adjustments.

Witnesses stressed that several developments in the world economy in the late 1970s aggravated the LDC debt picture dramatically. Nominal and real interest rates rose sharply as a result of anti-inflationary tight monetary policies in the U.S. and other industrial countries. The London interbank offer rate ("LIBOR"), the standard rate on which many private loans to LDCs were based, rose from an average of 8.85 percent in 1978 to 15.30 percent in the first half of 1982. During the same period, industrial country inflation went from 7 percent to about 8 percent. Thus real interest rates (LIBOR plus spread minus inflation rate) and interest payments on outstanding LDC debt rose significantly. For example, Robert Solomon testified that the increase in LIBOR increased the interest payments of one major debtor, Brazil, by approximately $4 billion per year, without any increase in its total debt.

Debt service difficulties were compounded by two other unexpected economic developments. First, the worldwide recession of 1980–82 lowered demand for LDC products. Second, world commodity export prices were further depressed due to the appreciation of the U.S. dollar against other currencies. Taken together, decreases in export volume and in export prices (in dollar terms) seriously impaired the ability of borrowing countries to service debt through exports. IMF statistics show that export revenues of non-oil LDCs were nearly stagnant in 1982 and 1983, after growing at an average annual rate of 7.5 percent over the previous 15 years.

While almost all witnesses agreed that this general course of events led to the debt crisis, several pointed to additional factors which were within the control of banks and borrowers.

A few witnesses suggested that banks had irresponsibly loaned money to LDCs under the false assumption that "companies can fail, but countries cannot." Financial community witnesses and some economists saw the situation differently. They emphasized that the major risk to lenders was not country default but rather failure to repay promptly. They suggested that banks' errors had been primarily in loaning funds without accurately appraising the ability of countries to repay on schedule. They also argued that individual banks lacked the data necessary to make such appraisals: without sharing of loan information among banks, any given bank knows only part of the total amount and maturity structure of a borrow-

ing country's external debt. Several witnesses from the financial area called for increased international cooperation between banks and between national banking authorities to improve the quality of loan information available to lenders and regulators.

A few witnesses argued that borrowing countries had contributed to the debt crisis by using debt as a means of continuing inappropriate domestic policies. These witnesses suggested that LDCs had used debt to postpone adjustments to the oil shocks rather than to smooth the transition to higher energy prices, and that LDCs were simply paying the price now for the disturbances of the 1970s.

Despite some variation in the details, the Subcommittee heard a consistent analysis of the reasons for the crisis. Banks had oil money to lend. In the inflationary environment of the 1970s, debt looked like a good deal to many LDC governments, especially since it was a means of avoiding immediate adjustment to oil price shocks. By the late 1970s the tables had turned as anti-inflationary monetary policies were applied, real interest rates soared, export prices dropped, and the world economy went into a deep recession.

2. Consequences of the Debt Crisis for the U.S.:

Discussion of the impact of LDC debt problems on the U.S. economy focused on three broad topics.

a. *Financial Consequences.*—First, several witnesses discussed the possible financial consequences of a default or repudiation by one or more of the large debtor countries. While the chances of outright formal default were dismissed as remote, witnesses noted the possibility that failure to service debt by any of a few large debtor countries—Brazil, Mexico, Argentina, or Poland—might ignite a serious financial crisis in the lending countries. Failure to make interest payments would force banks to write off loans as nonperforming. This, in turn, would force the banks to reduce their outstanding domestic loans to comply with banking regulations. The most arresting illustration came from William Cline of the Institute for International Economics. He estimated that a one-year moratorium on debt payments by Brazil, Mexico, and Argentina would cause losses amounting to one-third of the total capital of the nine largest U.S. banks. He estimated further that strict enforcement of banking regulations would produce a contraction of $150 billion in U.S. lending by these leading banks.

Faced with the possibility of default or debt repudiation by major debtors, many banks realized that continued lending to preserve the solvency of debtor nations was necessary to avoid disaster.

b. *Political Consequences.*—The political consequences of the debt crisis were also frequently mentioned. Several witnesses, including Langhorne Motley, the Assistant Secretary of State for Inter-American Affairs, pointed out the possibility that U.S. security interests would be compromised by political radicalization in LDCs brought on by the debt crisis. These witnesses argued that economic instability in the Third World is a fundamental source of political instability, and that resolution of world financial problems was therefore an important political and security goal as well as an economic one. Many also emphasized the role of official international lending in promoting free-market policies and American political interests in Africa and Asia.

c. *Trade Consequences.*—While recognizing the serious risks to the international financial system and the stability of foreign democracies, the majority of those testifying characterized the long-term impact on U.S. and world trade as the most serious and certain consequence of the LDC debt crisis. Administration officials, bankers and economists all stressed that trade with the LDCs, especially with the large borrowers, has become a very important factor in the growth of U.S. exports and U.S. employment. For example, John Sewell testified that LDCs represent a large and increasing share of total U.S. trade. From 1976–82 U.S. exports to middle-income developing countries rose at an average rate of 21 percent per year. LDCs as a whole accounted for 38 percent of all U.S. exports in 1982. Over half of these LDC exports go to Latin America, the region most severely affected by the debt crisis.

Many witnesses asserted that under continuing debt service difficulties, LDCs are likely to experience slow rates of real growth and to be a slowly growing or even declining market for U.S. exports. Without continued credit flows to these countries, the extreme reductions in imports necessary for them to meet debt obligations will mean significantly slower growth for the U.S. economy. For example, Lawrence Krause of the Brookings Institution calculated that the net effect of a cut-off of new international credit flows to large borrowers would be a 1.5 percent decline in the rate growth of U.S. income and a loss of approximately one million American jobs.

3. Short-term Policy Recommendations:

There was nearly unanimous agreement on the short-term policies that the U.S. and international institutions should follow. With few exceptions, witnesses argued strongly for increasing the resources available to the IMF and advocated IMF lending as the principal stabilization tool for overcoming the immediate aspects of the debt crisis. In 1981 and 1982 the IMF has played a leading role in averting financial chaos and promoting debt rescheduling. As the institution responsible for balance-of-payments lending and for international liquidity problems, the IMF seemed the logical choice for short-term debt service lending. Some witnesses expressed the belief that a defeat for the IMF $9 billion supplemental funding bill in the U.S. Congress would represent a serious isolationist move similar to the Smoot Hawley Act of the 1930s with its high tariffs.

An additional reason for strong support of the IMF was that, as a multilateral institution, the IMF was in a position to enforce conditions in its lending in cases where bilateral programs might be politically unable to do so. The IMF required adjustments in domestic economic policy in return for loans and private banking participation. IMF programs for balance of payments adjustments were seen by members of the financial community as crucial to restoring bankers' confidence in LDCs. IMF monitoring of debtor country performance was also viewed by commercial lenders as a vital source of economic data.

Many witnesses from outside the financial world stressed the IMF's importance for another reason as well. The IMF not only builds bank confidence in LDCs, it also encourages private banks to advance new credits to big debtors, by making such lending a prerequisite for IMF stabilization loans. By conditioning loans on continuation of commercial credit as well as on country compliance with stabilization programs, the IMF was able to induce heavily-exposed banks not to "bail out" of problem countries. Essentially the IMF offered banks a choice. They could loan money to a country under an official adjustment program to improve the debtor's balance of payments, or they could withdraw from the country and allow an almost certain default on existing loans. This policy was very successful at maintaining commercial credit flows to Mexico, Brazil, and other large debtor nations. Thus the IMF successfully "bailed in" the private banks rather than permitting them to "bail out."

As an additional policy for both short and long term, many witnesses emphasized the necessity of avoiding protectionist trade policies in the industrial countries. Several asserted that "beggar-thy-neighbor" protectionism would only aggravate an already bad situation, as it had in the 1930s. Others specifically recommended free trade in order to allow LDCs to find markets for their exports and thus ease debt service problems.

4. Long-term Policy Recommendations:

There was less agreement regarding the longer-term consequences of the heavy debt load of the LDCs. Witnesses expressed fundamentally different ideas about how seriously the debt situation would affect world lending and trade in the future. Nearly all witnesses testified that economic recovery in the U.S. was a prerequisite to any orderly resolution of these world financial problems. However, some, including administration officials, felt that U.S. growth, combined with LDC adjustment and private market responses to LDC capital needs, would be sufficient to ease debt problems. Others argued that without more fundamental changes the severe financial, economic and political problems of the early 1980s were likely to continue, and possibly grow, throughout the decade.

Continuation of commercial bank lending to LDCs was central to this debate. There was widespread agreement on the need for maintaining capital flows from the developed to the developing countries. However, there was also virtually unanimous agreement that private bank lending would not continue at the high growth rates of the 1970's. Witnesses had differing opinions on the desirability of continued reliance on private bank lending to transfer capital to the LDCs. Most agreed, however, that private bank lending would be curtailed thereby requiring increased official lending.

a. *Strong Interventionists.*—A small group of witnesses was extremely pessimistic about growth and bank response as a means of resolving the crisis. They pointed to the need for strong government intervention. These "strong interventionists" argued that banks were already overexposed in LDCs, that borrowing countries would not be able to repay private loans on the original terms, and that prompt government action was essential to the restoration of order in the international financial system. They regarded write-downs and restructuring of LDC debt as necessary steps for full world recovery. As part of this process, they recommended that lending country governments establish discount windows which would exchange LDC bank debt for long-term obligations at less than face value. This would simultaneously restructure debt and reduce the exposure of the commercial banking system in LDCs. For this group of witnesses, the idea that recovery in the industrial economies would permanently ease the debt

crisis and restore a 1970s-style lending atmosphere was simply wishful thinking.

b. *Non-Interventionists.*—Other witnesses, notably George Shultz and Donald Regan from the Reagan administration, were optimistic about the chances of resolving the debt situation through growth and private market response. These "non-interventionists" agreed that short-run steps such as strengthening the IMF were necessary to overcome the temporary liquidity problems of many LDCs. But they believed that, in the long run, LDC adjustment and a return to private credit worthiness at lower levels of borrowing were likely and desirable. This optimism was reflected not only in comments on IMF funding, but also in testimony on concessional lending by the World Bank. Administration witnesses expressed confidence that concessional lending through the Bank's International Development Agency (IDA) would not be necessary for countries which were already able to borrow in private capital markets.

c. *Moderate Interventionists.*—The largest group of witnesses took a position between these two extremes. They saw the need for a moderate degree of intervention by governments and international financial institutions. These "moderate interventionists" included most of the financial area witnesses and many academics. They did not see rescheduling and write-downs of debt as inevitable. However, they had little hope for a return to the extent of reliance on private lending as has existing in the 1970s. They pointed out that banks were increasing their lending to debtor countries under pressure from the IMF, but had already become extremely cautious about future LDC lending. Net private borrowing by non-oil LDCs had grown at 21 percent per year in 1978–81 but increased only 3 percent in 1983. Several financial industry witnesses projected a need for 7–10 percent annual growth in bank lending in the next few years. Although this rate of increase is far below the average of the 1970s, witnesses from the financial community stressed the transitional nature of such increases, indicating a desire to arrive eventually at even lower levels of debt growth and bank exposure.

Many of these "moderate interventionists" also questioned the desirability of continued reliance on private lending at levels similar to those seen in the 1970s. They pointed out that even if banks were willing to increase their exposure in LDCs, this increased lending would leave the U.S. financial system more vulnerable to future debt crises. There were several recommendations for increased monitoring and regulation of international lending by U.S. banks in order to reduce the possibilities of domestic financial disruptions caused by LDC debt problems.

It is important to note that most witnesses in the 1983 hearings were not optimistic about the short-term outlook for the world economy at that time. As it turned out, an unexpectedly strong U.S. recovery led to increased growth in world output and world trade, thus easing some of the stresses and strains discussed in the hearings. World output grew 2 percent in 1983 after remaining essentially stagnant in 1982. World trade volume rose 2 percent in 1983 after a decline of 2.5 percent in 1982. The recovery accelerated through 1984, with world output up 3.7 percent and world trade up 8.5 percent, according to IMF estimates.

LDC balance of payments deficits were also lower than anticipated, which eased debt service burdens for many countries. There were two principal factors behind these improvements. First, LDC adjustment programs aimed at import reductions were more immediately successful than many analysts had expected. Second, the strong U.S. recovery and the strength of the dollar on international money markets led to increased world demand for LDC exports in 1984, further improving trade balances.

5. Finance Overview: Areas of Agreement and Disagreement:

All witnesses agreed that in the long run the private foreign credit needs of debtor countries must be reduced through structural adjustment. The point of debate was whether reduced private capital flows are compatible with LDC structural adjustment, economic growth and trade expansion without increases in official lending. In the end, the central issue separating the administration's "non-interventionists" from others is not whether continued capital transfers to LDCs are necessary, but rather what is the "right amount" of such transfers and how to choose a policy which will provide it.

The administration's "non-interventionists" believe that too much international credit will reduce the incentives for LDC governments to restructure their economies along more rational, disciplined lines. They maintain that the shocks provided by the debt crisis will induce debtor countries to adopt more open, export-oriented free-market policies and that such policies, combined with economic growth in the U.S. and the industrial countries, will reduce LDC reliance on foreign commercial borrowing. The "non-interventionists" believe that these reforms will improve the credit standing of LDCs and at the same time reduce their need for foreign bank loans. This will restore balance between the supply and demand for commercial credit at a more sustainable level. They also suggest that more rational economic policies in LDCs will increase capital flows via direct foreign investment and reduce capital flight, both of which will further reduce the necessity for foreign private credit flows.

In contrast, the "moderate interventionists" in the financial community believe that without more foreign credit than is likely to flow without increased multilateral lending, LDC governments will be reluctant or even unable to pursue structural adjustment policies. They also argue that debt service difficulties will continue to restrain LDC growth if adequate credit flows are not maintained. They believe that, even with significant adjustment in LDC credit needs, private flows will not be sufficient to allow continued growth. They maintain that the long-term prospects for growth in world trade and U.S. exports depend on supplementing commercial credit with increased official capital flows to LDCs through international lending agencies such as the IMF, IDA, and the multilateral development banks.

The administration's "non-interventionists" point to the success of LDCs in reducing their balance of payments deficits, and to increases in bank lending to countries undergoing IMF stabilization programs. By contrast, the "moderate interventionists" stress that reductions in LDC trade deficits were achieved first through sharply contractionary domestic policies designed to reduce imports, and later through increased exports due to unprecedented and unsustainable U.S. trade deficits—neither of which leaves much hope for continued, adequate, long-term LDC trade or trade surpluses. These economists and investment bankers also note that while banks did increase lending to some countries under heavy IMF pressure, commercial credit flows have dried up for some LDCs and slowed down for many. IMF estimates show that bank lending has slowed dramatically, and that banks reduced their outstanding short-term loans to major debtor countries by approximately $46 billion in 1983–84.

Despite the boom in the U.S. economy, the LDCs have not yet experienced a strong recovery. Major borrowers in particular have done poorly relative to the rest of the world. LDC exports are up, but income has lagged behind. At present, debt service requirements and adjustment difficulties are in fact restraining LDC growth.

B. Trade issues

The Subcommittee's trade hearings were a source of wide differences of opinion regarding both fact and policy. Many of those testifying called for tariffs and import quotas, while others argued against protectionism in any form.

Bankers, administration officials, and academics nearly all insisted that avoiding protectionism was vital to the health of the world economic system. Business and labor representatives, in contrast, advocated various forms of protection for their own industries—autos, copper mining, and steel. Witnesses from the latter groups argued that trade restrictions were the rule rather than the exception in the world economy, and that their industries had been hurt by unfair competition from abroad.

The reasons for such a dichotomy are clear from the testimony. Liberal trade policies may be in the general interest of the nation as a whole while at the same time hurting particular industries or sectors of the economy. Those not tied to employment or production in a specific industry often see and share the true national benefits of expanding trade without bearing direct costs. For others, free trade is something that is favored by those whose jobs or products are unaffected.

1. Characteristics of Trade with LDC's:

To put the testimony of trade witnesses into a meaningful perspective, trade goods can be usefully separated into three categories, which are differentiated in terms of the level of the barriers to U.S.-LDC trade and the penetration of U.S. markets by LDC exports.

a. *Complementary Goods.*—First, some trade is "complementary," along the lines of classical comparative advantage. U.S. exports of industrial machinery to LDCs or imports of the primary products of LDCs which are domestically unavailable in the U.S. fall into this category. Trade in complementary goods benefits both sides.

b. *Competitive Goods.*—Second, LDCs also produce goods which are directly competitive with U.S. products in both domestic and foreign markets. In competitive sectors, an increase in sales by foreign producers may lower income and employment in the domestic industry. As a result, many LDCs maintain tariffs and import quotas to protect their "infant industries" in competitive sectors and the U.S. often limits market shares for LDC imports such as in the textile market.

Trade in competitive goods makes up an increasing part of U.S. Trade in LDCs, especially with the newly industrialized countries of Asia and Latin America. Approximately 20 percent of LDC exports are now manufactured goods. From 1970 to 1980 the share of OECD manufactured imports

coming from LDCs rose from 5 percent to 11 percent. Many of the LDCs which have successfully developed their competitive export industries are the same countries which have relied most heavily on commercial borrowing and are deepest in debt.

c. *High Technology Sector.*—A third general category of increasing importance—"high technology"—includes both goods and services. In this area, U.S. producers have substantial technological advantages. LDC barriers to "high-tech" trade are high, often to the extent of completely excluding imports from their domestic markets. These barriers are intended to stimulate foreign and joint investments in LDC domestic markets.

The Subcommittee heard exclusively from U.S. representatives of industries which produce competitive goods and are thus particularly threatened by foreign imports. The other trade witnesses were not from any particular industrial sector. The Subcommittee did not hear witnesses from complementary and high-technology industries. Such witnesses could present the case for substantially more liberal two-way trade policies, especially in relation to the LDCs.

2. Arguments for Protection:

a. *Copper Industry.*—Witnesses representing the copper industry, a group which included four Senators from Western States, were concerned that increasing copper production in Latin American and African countries had driven world prices down to extremely low levels, forcing the closure of U.S. mines and the lay-offs of thousands of U.S. workers. Testimony centered on the need to protect U.S. jobs through voluntary export restraints negotiated with major copper producers such as Chile, Zambia, Zaire, and Peru, and on the possibility of using U.S. influence on IMF lending policies to enforce such agreements.

b. *Steel Industry.*—Steel industry representatives from both labor and management shared the views of their counterparts in copper. U.S. steel companies face increasing import competition from LDC producers such as Brazil, Mexico, Argentina, and South Korea. They perceive such competition as unfair because of export and production subsidies offered by LDC governments to their domestic industries. They argue that import restrictions are necessary to maintain "fair" trade, given that free trade is not practiced by other steel-producing countries.

c. *Auto Industry.*—During the hearings on trade in the auto industry, there was agreement among industry representatives on the need for protective measures, but differences of opinion arose between labor and management as to the precise form that such protection should take.

These disagreements stemmed from the multinational character of the large U.S. auto producers. For management, the production of auto parts by foreign subsidiaries, particularly in LDCs, is an essential element of flexibility in the production process. From labor's point of view such practices simply represent the export of jobs overseas. Both labor and management view trade in automobiles as competitive. However, in parts and intermediate goods, management perceives trade as complementary and desirable, since it allows multinational sourcing patterns and increased flexibility in production decisions. Labor perceives it as competitive and undesirable, since it results in a loss of U.S. jobs.

This difference in perception was reflected in differences in policy recommendations. Labor supported domestic content legislation and voluntary quotas on autos by Japanese manufacturers. This policy combination offers maximum protection for U.S. jobs. Management, on the other hand, opposed domestic content legislation. However, it joined labor in supporting continued voluntary quotas—a policy which would protect final goods while maintaining open markets for auto parts and intermediate goods imported from LDC subsidiaries.

3. Fair Trade:

For all three industries represented in the subcommittee's hearings, the central trade issue was that of "fairness." Witnesses offered a variety of reasons in support of their claims that the international trade deck was stacked against U.S. companies in these industries.

a. *Auto Industry.*—In the case of the auto industry, the foremost charge was that foreign countries impose tariffs, quotas, and non-tariff trade restrictions on American cars, so that unilateral pursuit of free trade by the U.S. puts U.S. producers at a disadvantage. Professor Barry Bluestone presented considerable evidence of widespread trade restrictions. Of the 49 countries in the world which produce automobiles, 41 restrict auto imports and 27 have local content laws. However, the evidence did not show that U.S. automakers are locked out of foreign markets. U.S. auto companies have subsidiaries in 26 of the 41 countries with import restrictions and in 18 of the 27 countries with local content requirements.

Another important reason advanced as evidence of unfairness to U.S. producers was that much of the import competition faced by U.S. producers represents "uneconomic" production on the part of subsidized foreign industry. Auto executives pointed to the Japanese tax system as an example. Under Japanese tax law, automobile manufacturers are given incentives to export, particularly to the U.S. This effectively subsidizes Japanese exports and lowers the price at which Japanese companies can profitably sell their cars in the U.S. Witnesses offered no estimate of the quantitative impact of tax incentives on the price of Japanese imports, but there is no doubt that tax laws affect production and export decisions.

b. *Steel and Copper Industries.*—The discussion of "uneconomic" production in the steel and copper industries took a different tone. Here the focus was on direct production and export subsidiaries offered by foreign governments to their national industries, rather than on tax incentives. Witnesses aimed most of their criticism at some LDC governments which utilize export promotion policies in order to generate foreign exchange. In fact, the need for foreign exchange by some LDC producers is so great that some LDCs are selling their exports in international markets for less than the cost of production. This was documented by Senator Domenici in the case of copper production, where the international price was 56 cents per pound in August 1984, and among major producers only Chile (at 50 cents per pound) had lower production costs. The average production cost for the other major copper-producing countries was 71 cents per pound. Continued LDC copper production at current prices is certainly "uneconomic," in the sense that private firms would not and could not continue to produce and sell at a loss for as long as government owned or subsidized entities can.

That increased Third World production of copper and steel depresses prices and lowers U.S. production and employment levels in those industries is beyond doubt. It is also true that LDC producers often operate differently from private U.S. firms. However, whether the increased competition which U.S. producers face from LDCs is primarily the result of irrational, uneconomic, or unfair trade policies is a more difficult question to answer.

c. *Competitive Goods Generally.*—Much of the increased production of competitive goods by LDCs is a result of their development successes. U.S. producers of competitive goods would be forced to adjust to this new reality even in a completely fair and open international trading system. The emergence of LDC competition in industries such as steel has been a gradual process, but the world recession of 1980–82, coupled with the appreciation of the dollar against other currencies, aggravated the adjustment problems of U.S. producers and generated increased lobbying for protection from foreign competition. Industry witnesses did not consider the extent to which increased LDC exports simply reflect increased LDC growth and competitiveness.

On the other hand, debt servicing problems mean that LDCs place a premium on exports. Some Third World countries are attempting to increase their export earnings through means which might be considered "uneconomic" if practiced by private firms. Such policies may of course be rational in some broader sense, but this is little consolation for U.S. firms whose LDC competitors are able to sell at a loss for a substantial period and still stay in business. Foreign export subsidies and tax incentives give foreign producers some advantage over U.S. firms. The quantitative impact of export promotion policies is difficult to assess, but the effects are clearly detrimental to U.S. producers.

In addition to discussion of trade restrictions and uneconomic production policies practiced by other countries, some witnesses claimed that wage differentials and exchange rate fluctuations were sources of unfairness in international trade. Representatives from Ford and Chrysler stated that these factors give Japanese car producers a significant and "unearned" cost advantage of hundreds of dollars per car sold in the U.S.

Lower wages abroad and the sharp rise in the value of the dollar have hurt the competitive position of U.S. industry in world markets. But according to traditional tariff theory such factors do not warrant being characterized as the kind of basic unfairness in the international trading system which should be rectified by U.S. protectionist policies.

4. *International Lending and Trade:*

Steel and copper industry witnesses argued that the U.S. contributions to multilateral institutions such as the IMF, the World Bank, and the regional development banks harm U.S. companies and workers in three ways. First, development lending encourages the buildup of "excess capacity" in the Third World. Second, the access of LDC producers to international credits at low interest rates allows them to modernize production facilities at lower cost than their U.S. competitors. Third, the emphasis which IMF-imposed adjustment programs place on contractionary macroeconomic policies, import cuts, and export increases in LDCs hurt U.S. exports to important markets and increase LDC penetration into the U.S. domestic market.

a. *Excess Capacity.*—The principal target of copper producers was the IMF's compensatory financing facility ("CFF"), which

lends to countries experiencing temporary shortfalls in export earnings. They claimed that copper-producing countries were taking advantage of CFF loans to raise their production levels and increase their exports at a time when there was already a surplus of copper on world markets. Hearings centered on S. 2524, the Copper and Extractive Industries Fair Competition Act of 1984, which proposed altering the IMF Charter to prohibit CFF lending to countries which were experiencing export shortfalls due to low commodity prices "unless the borrowing country enters into an agreement with the Fund to adjust production and not to add further excess capacity and to take other necessary action to stabilize the market for such commodity."

The Administration believed that this particular bill would be ineffective. As George Hoguet of the Treasury Department pointed out in his testimony, IMF lending is for short-term balance of payments difficulties and does not go directly to development projects. Altering a small part of IMF lending policy will not seriously affect world copper production. Mr. Hoguet estimated that lending by multilateral development banks (which do make project loans) added only about 4 percent to world copper-producing capacity in the last 7 years. He also testified that forcing the IMF to determine what constitutes appropriate production levels and prices is also contrary to its free-trade orientation, and would open up a Pandora's box by making IMF loans the battleground for future trade disputes between member countries.

b. *Interest Rates.*—Substantial arguments that international lending has benefitted LDC producers by allowing them access to credit at below-market rates were advanced by senators from copper-producing states. Indeed, benefitting LDC producers is precisely the purpose of development loans. Development lending does not directly affect U.S. industries as long as U.S.-LDC trade is mostly in complementary goods. Protectionist lobbying against such loans has increased as LDCs have begun to produce more competitive goods for export. It was especially strong during the economic downturn of 1980–82. Lending by multilateral development banks promotes economic growth in LDCs, and this growth can simultaneously be beneficial to the overall U.S. economy and U.S. exports and threatening to particular industries which will face increased competition. Witnesses urged policy-makers to balance the general interest in increased growth, in the U.S. and worldwide, with the real costs of adjustment in certain U.S. industries.

c. *Adjustment Programs.*—Another major criticism of official lending policies was that IMF stabilization programs rely too heavily on contractionary policy, import cuts, and export increases and thus hurt the borrowing country and U.S. exports and jobs. IMF policies often encourage contractionary fiscal measures in borrowing countries in order to reduce the demand for imports by reducing the demand for goods in general. Several witnesses representing organized labor suggested that IMF conditions should emphasize price stabilization through export growth rather than through contraction of the domestic economy. By forcing rapid contraction of imports, IMF programs reduce the demand of LDCs for American products and thus hurt U.S. export prospects. These witnesses did not discuss the problems associated with this suggested change in IMF policies. IMF programs are designed to promote fairly rapid adjustments. Price stabilization through growth often would be a longer process. A reorientation of IMF programs toward longer adjustment cycles would also require additional resources for the IMF.

In sum, the lending policies of the IMF and the multi-lateral development banks clearly have an impact on U.S. trade, and that impact can be negative for individual sectors of the economy. However, in the long run such policies also promote U.S. exports, U.S. growth, and U.S. jobs through increases in LDC demand for American products. Development loans can cause adjustment problems for particular U.S. industries, but little concrete evidence was presented in support of the contention that the policies of multilateral lending institutions have created an international economic climate which is systematically unfair to U.S. firms.

5. Trade Overview.—Causes of Import Competition:

Some of the complaints advanced at the trade hearings about the need for protection of U.S. industry were not accompanied by strong evidence of unfair trade practices on the part of foreign competitors. Claims of unfairness were strongest in the case of export subsidization policies by foreign governments. When export subsidies, tax incentives, production targets, and other interventionist measures are in effect in other countries, the trading system is disadvantageous to firms which must operate according to private market rules.

However, not all import competition results from interventionist policies of foreign governments. Much of this new competition is a simple consequence of the growth of competitive industry overseas, particularly in LDCs which have instituted successful industrial development programs. The strong U.S. dollar has also contributed to the competitive difficulties of U.S. companies.

In addition, some of the adjustment problems of basic U.S. industries are not trade problems at all, but are direct results of low levels of domestic demand for their products, especially in times of slow economic growth. Adjustment difficulties are more acute when domestic markets are shrinking, and protectionist lobbying gains strength at such times.

Finally, certain witnesses stressed the importance of opening up foreign markets increasingly to U.S. exports rather than closing down U.S. markets to imports.

IV. CONCLUSIONS

The scope of the hearings and the variety of issues addressed are ample evidence of the complex and important interdependence between the problems of trade, debt, and growth. The political immediacy of some issues prevented the Subcommittee from devoting a great deal of attention in the hearings to other, longer-range problems of continuing significance to the nation and the global economy.

The testimony highlighted several facts which are critical for future policy. First, the success of international economic policy depends ultimately on understanding the economy and political motivations for the trading, borrowing and lending behavior of governments and the investments of private firms. Even the most well-designed policies can be ineffective in the face of political resistance.

Second, trade and financial questions are closely interrelated. The debt crisis cannot be solved without addressing the underlying trade problems and vice-versa. To be effective, U.S. policy must deal with trade and financial questions in a comprehensive, well-integrated fashion.

Finally, witnesses recognized that U.S. economic performance is increasingly dependent on economic performance in the rest of the world, with a number of LDCs having a growing impact on our own economic health. U.S. trade with LDCs has become an important factor in generating markets for U.S. goods and jobs for U.S. workers. In the long run, it is in the enlightened self-interest of the United States to recognize and take further advantage of the increasing importance of trade with the Third World.

APPENDIX A.—EXECUTIVE COMMITTEE OF THE BAY AREA INTERNATIONAL FORUM EXECUTIVE COMMITTEE AND THE STEERING AND RESEARCH COMMITTEES FOR THIS STUDY

EXECUTIVE COMMITTEE

George Keller, Chairman, Chevron Corporation.
Donald Guinn, Chairman & CEO, Pacific Telesis Group.
Peter T. Jones, Sr. Vice President, Levi Straus & Co. (rtd.).
Samuel H. Armacost, President & CEO, Bank of America.
Russell K. Burbank, President, Thermal Power Co.
James T. Clarke, Regional Managing Partner, Coopers & Lybrand.
Peter E. Haas, Chairman, Levi Strauss & Co.
Neil Harlan, Chairman & CEO, McKesson Corporation.
Calvin S. Hatch, President & CEO, The Clorox Co.
Angus MacNaughton, CEO, Genstar Corporation.
George T. McCoy, Chairman & CEO, Guy F. Atkinson Construction Co.
John B.M. Place, Chairman, Crocker Bank (rtd.).
George Sears, Managing Partner, Pillsbury, Madison & Sutro.
Gary Shansby, Chairman of the Board & CEO, Shaklee Corporation.
Paul Slawson, President & CEO, The Getz Corporation.
Peter Tarnoff, Ex officio, Executive Director, World Affairs Council.
Max Thelen, Jr., Ex officio, President, World Affairs Council.
Wil C. Wood, Executive Vice President, Crocker National Bank.
Alden Yates, President, Bechtel.

STEERING COMMITTEE

Study Project for Senator Mathias

Peter T. Jones, Chairman.
Fred Bergsten, Institute for International Economics.
William Bolin, Bank of America (rtd.).
Dorman Commons, Business Consultant.
Bob Heller, Bank of America.
Cordell Hull, Bechtel Group, Inc.
John Place, Crocker National Bank (rtd.).
Paul Slawson, The Getz Corporation.
John Wilson, Bank of America.
George McCoy, Guy F. Atkinson Construction Co.

RESEARCH COMMITTEE

Study Project for Senator Mathias

Albert Fishlow, Director, University of California at Berkeley, Department of Economics.
Frederick D. Baron, Esq., Cooley, Godward, Castro, Huddleson & Tatum.
Jeffrey A. Frankel, University of California at Berkeley, Department of Economics.

Tom Heller, Stanford Law School.

Michael R. Jacobson, Esq., Cooley, Godward, Castro, Huddleson & Tatum.

Tom Layman, Crocker National Bank.

Gerald Meier, Stanford Business School.

Clark Reynolds, Stanford University, Food Research Institute.

Carl Schmertmann, University of California at Berkeley, Department of Economics.

David Teece, University of California at Berkeley, Department of Economics.

Laura Tyson, University of California at Berkeley, Department of Economics.

Robert Wesson, Hoover Institution.

John Zysman, University of California at Berkeley, Department of Political Science.

APPENDIX B.—SUBCOMMITTEE ON INTERNATIONAL ECONOMIC POLICY UNITED STATES SENATE COMMITTEE ON FOREIGN RELATIONS

(Summary and Index of Testimony by Individual Witnesses, 1983–84 Hearings)

[Notes on Hearing by Senate Foreign Relations Committee, Subcommittee on International Economic Policy: Stresses and Strains in the International Financial System]

10 Jan 1983

HENRY FOWLER, chairman of Goldman Sachs International and former Sec. of Treasury

[S. HRG. 198-61, p. 3

Western economies face an international economic situation which is the most serious to arise since the 1930's. At the same time there are opportunities to move toward a more stable world system.

Two basic problems: [1] The imbalance in the policy mix in US and elsewhere. Fiscal excesses and wage increases greater than productivity increases persist in many countries and are one source of current problems. [2] Excessive dependence of many countries on foreign private borrowing as a source of foreign exchange.

Much of 3W borrowing was in unregulated Eurocurrency markets, through syndicated bank loans involving many small banks. Around 1500 US banks have loans to LDCs.

Major problems in DCs are inflation and exchange rate instability, inadequate private investment, excessive public expenditure, rising protectionism.

Double oil price shocks of 1970s severely affected the BOP situation for non-oil producing LDCs. Some nations just took it on the chin, but many others borrowed from banks in order to ease the shocks. Even some oil-producing countries borrowed heavily in order to accelerate pace of development. Fowler characterizes this borrowing as "relatively undisciplined."

Long-term debt service grew rapidly in late 1970s and early 80s as interest rates on floating rate loans rose to very high levels. This meant that an increasing proportion of new borrowing had to go to making interest payments on old debt.

Two-thirds of all bank claims on non-oil LDCs were in 6 countries at end of 1981: Mexico, Brazil, Argentina, S. Korea, Chile, and the Philippines.

Debt service requirements of Mexico, Brazil, Argentina, Chile, and Ecuador exceeded export earning in 1982.

"Current" decline in DC interest rates looks good for debtors.

Policy recommendations:

[1] Go ahead with IMF quota increase.

[2] Expand the General Agreements to Borrow (GAB) and allow IMF to use these resources for nations not participating in GAB.

[3] Establish capability for IMF to borrow in private capital markets.

[4] Enforce conditionality (stabilization programs) in IMF lending to major debtor countries.

[5] Encourage private banks to continue and expand their lending to major debtors, and encourage rescheduling of principal payments.

[6] Develop some standard procedures for rescheduling negotiations.

[7] Study recent debt problems to avoid recurrences.

[8] DC governments should take publicly visible steps to protect the liquidity of their private banking systems.

[9] Establish right mix of monetary/fiscal policy in DCs so as to resume growth without return to severe inflation.

W. MICHAEL BLUMENTHAL, Chairman and CEO of Burroughs Corp and former Sec. of Treasury.

[S. HRG 98-61, p. 25]

Current situation is "somber," but not unmanageable.

Raw material and food prices fell 30% from mid 1981 to early 1983, which severely hurt LDC export earnings. At the same time, the world recession lowered demand for LDC exports.

"Less than brilliant" economic management in developed countries has exacerbated international financial problems in recent years. Fiscal irresponsibility created inflationary situation, which required severe measures when the time came to curb inflation.

Current policy mix in US is too reliant on tight money. This has hurt growth, raised interest rates, and led to trade balance problems because of appreciation of the dollar relative to other currencies.

Exchange rate fluctuations have been aggravated by improvements in telecommunications which allow a 24-hr market in which vast sums can be transferred very quickly. Also, much of this flow of dollar-denominated securities is outside US control.

Lag between depreciation of the dollar and improvement in trade balance would be about 18 months.

Overvalued dollar limits US ability to export. Chemical exports down 17% from fall 1981 to early 1983; food exports down 30%, 20% of US industrial production is exported. One in 6 US jobs is due to exports. ⅓ of US corporate profits is derived from foreign activities. 40% of US farm acreage is dedicated to production for export. Growth in world economy is essential for US growth, as well as vice versa.

Bergston figures that from 1978–80, 60% of US economic growth is attributable to improving trade balance.

US can't solve all these problems by itself: international cooperation is important, especially through multilateral institutions (IMF, WB, OECD, GATT).

IMF has been able to induce banks to increase their lending to debtor nations, rather than "bailing them out".

Current debt crisis is one of liquidity, not of insolvency of large debtor countries.

Policy recommendations:

[1] US must get control of its budget deficits, and adjust its economic policies to a mix that is more favorable to growth in world economy.

[2] Other OECD countries must also contribute. In particular, Japan, Germany, and UK should loosen up on the fiscal side.

[3] Need to sustain credit flows to LDCs, especially through increased support for international institutions, including the World Bank in particular.

[4] Resist the temptation of protectionism.

[5] Treasury should intervene in currency markets to smooth fluctuations in the value of US dollar.

CHARLES SCHULTZE, Professor at Stanford and former chairman of the CEA [S. HRG 98-61, p. 35].

DCs are suffering the pain of getting rid of a stubborn inflation. US in particular is following a policy of overly tight monetary policy and overly loose fiscal policy, making the pain more severe than necessary.

In Europe and Japan, inflation of last 15 years has led to real wage increases in excess of productivity gains. Result has been a profit squeeze. This is a problem which will not go away even with a recovery.

In LDCs, need for credit is increasing at the same time that private credit worthiness is worsening. Without continued credit flows to debtor countries, their adjustment problems will also be more severe than is necessary.

US inflation is less under control than it appears. While inflation of CPI has fallen from 13.5% in 1979 to 5.5% in 2nd half of 1982, taking out food and energy prices shows a drop from a peak of 9.75% in 1980 to 6.5% in 1982:2 and 1982:3. Also, some of this decline was result of dollar appreciation in foreign currency markets. Main point: inflation is still with us and is extremely hard to get rid of.

In addition to alleviating current problems, international economic community should set up some institutional framework for coordinating public and private lenders (I guess he means for rescheduling).

Current BOP problems in LDCs are likely to persist for several years. Such intermediate-run structural adjustments fall inconveniently between the usual short-run programs of the IMF and the longer term projects sponsored by the World Bank. WB as well as IMF has an important role to play in stabilizing the current situation.

Banks were caught in a situation which was partly beyond their control—a general worldwide recession and liquidity crisis.

An overlooked consequence of LDC debt problems is the cutback in their capacity to import. This in turn hurts the DC economies. This makes continued credit flows important to the developed economies as well as to the LDCs.

Around 35% of US exports go to LDCs, 45% of Japanese exports.

Cites Krause as projecting that zero net credit flow to big debtors would lead to a 5.5% fall in Latin American economic growth, which would in turn lead to a 1.5% drop in US growth and a loss of 1 million jobs in US.

Policy recommendations:

(1) Reduce US budget deficit.

(2) Loosen monetary policy to accommodate a gradual recovery.

(3) Maintain credit flows to LDCs, through both private and public sources.

LAWRENCE KRAUSE, Senior fellow at the Brookings Institution

[S. HRG. 98-61, p. 70]

World recession is the root cause of debt crisis. Its severity was not anticipated, either by banks or by debtor countries.

Triple whammy on LDCs: world recession, high real interest rates, and low commodity prices. The appreciation of US dollar has affected commodity prices.

Most important factor in escaping crisis is industrial country recovery and growth. With a sustained upswing in world economy,

LDC exports could rise 20-30% per year; with stagnant world economy LDC exports could fall 10% per year.

20% of LDC exports are manufactured goods.

BOP deficits are normal and necessary for developing economies. Usually lending to cover these deficits is profitable for both borrower and lender due to high rates of return. Current situation is an anomaly.

US banks are not the only banks involved in the current problems. Many European and Japanese banks have large loans in 3W.

On 1 Dec. 1981, LDCs had $327 billion in bank debt, 49% of which was due to mature within 1 year.

IMF has noted a tendency toward "regionalization" by private banks—eg, when one country in Latin America begins having repayment difficulties, lending dries up for other countries in the region regardless of their credit standing.

IMF programs lend an aura of credit worthiness to problem debtors, which is essential to maintaining flow of private capital.

Policy recommendations:

[1] Lower US short-term interest rates by reducing out-year budget deficits.

[2] Encourage continued lending to LDCs, both through private banks and IMF.

[3] Resist protectionism.

[4] Closer scrutiny of private lending by international organizations such as IMF in order to avoid the overlending and overborrowing characteristic of the recent past. IMF should set guidelines as to what constitutes "responsible borrowing" by member countries.

[5] Cooperation among the various bank regulators in the lending countries (pooling data) in order to monitor banks' positions more accurately and avoid overexposures. Changes in US banking regulations alone would be insufficient to avoid future crisis, due to multinational nature of lending.

[6] Fiscal restraint + looser monetary policy in US.

JOHN SEWELL, President of Overseas Development Council

[S. HRG 98-61, p. 87]

Recovery in the DCs is by far the most important factor in restoration of healthy world economy, but world economic growth cannot be restored without the resumption of growth in developing countries. They have become an essential part of the world system and must be taken into account when planning recovery.

Essential character of financial flows to LDCs has changed dramatically: in 1960's of all flows were in form of aid; in 1980's of all flows were from private sources.

This change represented a failure of public policy. Short-term private loans were used for financial long-term development projects, which eventually led to serious liquidity problems for debtor countries.

LDCs purchase 39% of US exports. This is more than EEC, E Europe, USSR, and China combined. In the period since 1976 (until ???) exports to middle-income countries grew at 21% per year.

Sewell is pessimistic about prospects for US exports to LDCs in the next 10 years.

Policy recommendations:

[1] Maintain and expand financial flows to LDCs, especially through a strengthened IMF.

[2] Expand official aid programs and target them on the low-income LDCs.

[3] Cut US defense budget and put some of the resources into international aid—this is an alternative and more effective way of "buying security".

JOHN MELLOR, Director of International Food Policy Research Institute

[S. HRG 98-61, p. 97]

3W growth has become very important for US economy in recent years, especially for agricultural exports. Most of the growth in this trade had come from income rather than population growth in LDCs.

Maintaining and expanding financial flows to LDCs with high potential growth is very much in the interest of U.S. exporters.

19 Jan 1983

RIMMER DE VRIES, Senior vice president and chief international economist of Morgan Guaranty Trust

[S. HRG 98-61, p. 127]

Resolution of debt crisis requires mixture of moderate growth and some structural adjustment by LDCs. Debt problem is manageable, but it will take 3-4 years for the necessary structural changes.

Banks must increase their lending at around 7% per year in order to finance such a transition. This should be possible even if some smaller banks reduce their lending.

World Bank can play an important role in debt management. Countries may have to rely more on concessionary IDA-type financing, since private money is likely to become more scarce.

Bank for International Settlements (BIS) is a good source of debt information, not only about U.S. banks but also German, etc. Their information can be up to 6 months out of date, however. BIS can also be an important institution in debt management.

Regionalization is a fact. Poland's problems have affected lending to all of E. Europe, and Mexico and Argentina have affected Latin America.

Rapid increase in private lending in 1970s helped ease oil price shocks for many LDCs.

Much of this lending was in form of short-term loans. Although such loans appear safer to banks, in fact they increase the vulnerability of borrowers to a liquidity crisis or to a sudden unwillingness by creditors to roll over existing loans.

Dollar prices of LDC export commodities fell 11% (in what period?)

Cooperation between IMF and private banks in putting together loan packages has been good. The IMF has been able to induce banks to continue their lending to problem debtors. Banks have more confidence in repayment in presence of IMF adjustment programs and IMF monitoring of economic progress.

U.S. over-reliance on monetary policy to break inflation has had international repercussions.

Monetary policy should be relaxed in U.S., Canada, and UK. Fiscal policy should be relaxed in Japan, UK, and Germany.

Policy recommendations:

[1] Strong support for IMF, including an expansion of GAB and the possibility of GAB money for non-industrial countries.

[2] Bigger role for World Bank, as some countries may have to be "ungraduated" from private financing back to IDA loans.

[3] Bigger role for BIS, including the capacity to furnish very short term liquidity to countries which are in the process of negotiating with the IMF but have not yet settled.

[4] Increased role of BIS and IMF in establishing guidelines for sound international borrowing and lending.

ROBERT SOLOMON, Guest Scholar at Brookings Institution

[S. HRG 98-61, p. 157]

Growth of international debt has not in fact been explosive. In real terms, non-OPEC LDC debt rose at 10% per year in 1973-82. Ratio of (debt/exports of goods and services) rose from 89% to 109% for same group in 1973-82. Interest payments as a fraction of export earnings rose from 4-9%.

Moral: debt has increased, but not as much as we are often led to believe.

Qualification: these aggregate figures aren't necessarily representative of the big debtor countries. For Brazil and Mexico the interest/export ratio is much higher than for the average non-OPEC LDCs.

Interest payments are very sensitive to LIBOR. The fall in LIBOR from 1981-82 reduced Brazil's interest/export ratio from .29 to .16, and the increase in interest rates in 1978-mid 82 added $4 billion to Brazil's annual BOP deficit.

IMF seal of approval is important for keeping private lenders from pulling out of debtor countries.

Real interest rates on international loans rose quickly from 1978 on and have remained high. LIBOR average in 1978 was 8.85% while industrial country prices rose about 7%. In 1981 LIBOR was 16.78%, inflation 10%. In first half of 1982 LIBOR was 15.30, inflation 8.2%.

IMF is "bailing in" banks by inducing them to increase their lending to problem countries, rather than bailing them out by substituting public credit for private credit.

Only Argentina, Mexico, and Brazil are large enough debtors to cause a general financial crisis if they default.

Of the total $230 billion in bank loans to non-oil LDCs at the end of 1981, 39% was owed to US banks. US bank shares of loans to Argentina, Brazil, and Mexico were also in the 38-40% range.

Biggest danger to world economy is not default by major debtors, but rather a sharp reduction in lending to LDCs. This would force major contractors in LDC imports and aggravate the world recession, which would in turn worsen LDC economic prospects even further by reducing demand for their exports.

Policy recommendations:

[1] IMF and other international institutions—not commercial banks—are responsible for assuring that the world economic system stays healthy. Some banks may reduce their exposure in 3W, and the IMF has to be ready to fill the gap.

[2] IMF should be able to borrow in private markets in order to increase its resources in the event of a real crisis.

[3] Without growth and lower interest rates in DCs, IMF funding isn't going to turn the situation around.

JOHN HEIMANN, Cochairman of Warburg Paribus Becker Inc. and former Comptroller of the Currency

[S. HRG 98-61, p. 172]

No real solution to debt problems without world economic growth and especially not without US economic growth.

Current problems are ones of liquidity rather than solvency. Solvency questions can only be answered once the liquidity problems are handled.

Rescheduling of private loans has become much more difficult than it was in the past, because of the increasing number of banks involved in syndicated loans and because of

the greater amounts of money involved. eg, Poland was trying to reschedule debts owed to about 500 separate banks at once.

The "fair treatment" principle has guided most rescheduling negotiations: banks are expected to participate in rescheduling and in new lending in proportion to their existing exposure. This usually doesn't cover short-term trade financing, however, so some banks can reduce exposure by not renewing such loans.

Policy recommendations:

[1] Central banks in DCs need to establish more precise definition of their responsibilities to provide needed liquidity to their own banking systems. This is a problem for the BIS.

[2] IMF needs additional resources. IMF conditionality and monitoring are important for establishing the confidence necessary for private bank lending to problem debtors.

[3] Rescheduling negotiations should be carried out in a more coordinated fashion by higher-ups in big international banks, rather than on an ad hoc basis by junior bank officers.

[4] Rescheduling by calendar may be too rigid a technique. More flexible systems—such as rescheduling timed according to gains in export earnings—may be a better approach.

[5] Small banks shouldn't be allowed to shirk their responsibility for the debt problems. They helped create the problem and should be part of any solution.

[6] Banks should pool data in order to better assess the total liabilities of borrowing countries.

FELIX ROHATYN, Senior partner in Lazard Freres and Co.

[S. HRG 98-61, p. 271]

More pessimistic about future of world economy than other panelists.

IMF and BIS played key roles in averting crisis in summer of 1982.

Strong IMF and private bank reschedulings are the only means of avoiding a real financial crisis.

Poland, Mexico, and Brazil have already in truth defaulted. To call it otherwise is obfuscation.

There is a real danger of unilateral repudiation of foreign debt "by a country that is politically radicalized by depression or by IMF-imposed austerity, or a combination of both."

The standard relationship between trade and currency values has been reversed: currency fluctuations now determine trade patterns rather than vice versa.

Policy recommendations:

[1] New system to control wild fluctuations in exchange rates between major currencies.

[2] Long-term low-interest rescheduling of 3W debt, in order to allow debtor countries to recover. A subsidiary of the World Bank or the IMF or a totally new institution could be set up to trade existing commercial bank loans for long-term low-interest paper. (he doesn't really talk about how to allocate the losses).

[3] Liberal trade policies in industrial countries.

WILLIAM CLINE, Senior fellow at the Institute for International Economics

[S. HRG 98-61, p. 279]

There are essentially 2 debt problems: (1) liquidity problems of the "super debtors" which could trigger bank failures and financial crisis, and (2) debt service problems which will mean lower rates of growth in LDCs and thus a lower rate of growth for world trade and for DCs.

Debt problems caused by higher oil prices, high real interest rates, global recession, falling commodity prices. Domestic policies of LDCs have also been part of cause—eg, unrealistic exchange rates in Argentina and Chile and failure to adjust trade in Mexico. In addition, many countries used short-term loans to finance medium-term development projects.

World economic growth is a prerequisite to any solution of debt problems.

US monetary/fiscal policy imbalance has been a prime cause of high real interest rates worldwide.

IMF coercion of new lending from private banks is a hopeful sign.

IMF is already at lending ceilings for Mexico and Brazil.

Overvalued dollar has two negative effects on LDCs: dollar prices of commodities are depressed, which reduces LDC export earnings, and dollar value of debt rises.

Expansion of bank lending to LDCs at rate of 8-10% per year is critical to health of whole system.

In all but a few cases—eg, Peru and Zaire—bank lending has not been irresponsible or reckless.

IMF quotes don't show up on fed budget.

IMF is bailing banks in rather than out.

Only a few countries are big enough debtors to provoke a crisis if they don't repay: Brazil, Mexico, Argentina, Venezuela, and Poland.

Western financial system is too vulnerable to crisis at the present time: in the long run banks must reduce their exposure as a % of total capital.

Policy recommendations:

[1] Expand World Bank lending, and alter its policies to include more lending for shorter, structural adjustment projects.

[2] IMF must ignore its own quotas for lending to super debtors and go ahead and lend more to Mexico and Brazil.

[3] IMF should be able to supplement its official resources by private borrowing if necessary.

[4] No need for new institutions to fill the gap between the onset of financial trouble and the conclusion of negotiations with IMF. Only a few countries could cause enough trouble to worry about, and they can be handled on an ad hoc basis.

[5] It's worth considering possibility of an official international agency buying bank debt at 90 cents on the dollar as a means of restructuring loans. However this could only be done only with significant new capital contributions by member countries, and it might be exceedingly difficult to sell politically.

[6] "replacing banks as the principal vehicle for capital flows to developing countries will be the principal international financial challenge of the 1980s."

1 Feb 1983

BILL BRADLEY, US Senator from New Jersey

[S. HRG 98-61, p. 304]

Governments are responsible in large part for the current international recession and financial crisis, and are therefore responsible for solving it.

Ever-increasing bank lending isn't a viable long-term solution. It only increases the risks of overexposure and a banking crisis in DCs.

Banks loaned irresponsibly, without considering possibility of repayment problems.

US should act pre-emptively to ease the present crisis and thus help avoid the eventual formation of a "debtor cartel".

World recovery requires coordinated macro policies by DCs: US, UK, and Canada should ease money supply to lower interest rates, while Germany and Japan should relax on the fiscal side.

Policy recommendations:

[1] Increase IMF quotas to expand international liquidity.

[2] Establish an emergency fund which could respond quickly to an international liquidity crisis, probably under auspices of IMF.

[3] Clarify "lender of last resort" policies among major lending countries. Who helps banks in trouble and to what extent? What about offshore subsidiaries or consortium banks?

[4] Convert short-term international debt to long-term obligations, through official write-downs of loans with government participation (trade sort-term loans for long-term bonds).

[5] Improve the volume and quality of information available about international banking system.

[6] Coordinate monetary and fiscal policies in DCs.

[7] Modify exchange rate system to prevent wide fluctuations in major trading currencies.

G. WILLIAM MILLER, President of G. William Miller and Co., former Sec of Treasury, and former Chairman of Federal Reserve Board

[S. HRG 98-61, p. 320]

US economic growth is essential for world recovery.

Major change in US fiscal/monetary policy mix is essential for US growth.

Many US jobs depend crucially on exports to LDCs.

US contribution to IMF quota is in form of letter of credit, which is used only if it is needed. Thus it doesn't tie up idle funds (is this why someone else said quota didn't appear on budget???)

The focus of discussion should not be on whether or not LDCs can "pay off" their debts. We never expect nations to be completely debt-free, least of all our own. What matters is that nations should be in a position to service their debts in a reasonable fashion. Countries should be able to repay debtors, but not necessarily repay debt. Debt service is the crux of the present problem. quote: "It is not intended that the US government will pay off its debt. It is intended that it will continue to be credit worthy with the capacity to tax and raise revenues for its good and useful purposes, including many that involve long-term capital investments. As long as that is true, the US government will pay off individual lenders but it will incur new debt in the marketplace on current terms and conditions.

Policy recommendations:

[1] Strengthen IMF and GAB. This includes not only immediate quota increases, but also steps toward making SDRs a truly international currency for trade purposes, and establishment of a mandatory convertible currency deposit requirement for member countries so that IMF could act quickly in a crisis.

[2] Set up a system to smooth out exchange rate fluctuations among major currencies.

[3] Procedural change: remove IMF and World Bank appropriations from the foreign aid bill and put them in a separate bill titled "International Investments". This would clarify the purpose of such funding (and, not incidentally, make it easier to pass).

WILLIAM OGDEN, Vice chairman and chief financial officer of Chase Manhattan Bank.

[S. HRG 98-61, p. 324]

Present debt problems are ones of liquidity, not of solvency.

In short run increased credits are very necessary, but funding needs of big debtors must decrease in the future.

Major focus of concern of DSs should be on the possibility of a lower level of world trade caused by debt problems, rather than on the viability of the international banking system.

Vast majority of banks have continued to lend to countries experiencing liquidity problems, under leadership of IMF. In Agrentina, Brazil, and Mexico private banks provided new lending (in 1983?) equal to twice the amount of IMF funds provided and rolled over debt amounting to 6 times the IMF disbursements.

IMF bails banks in not out.

Banks have been hurt by the debt crisis in the form of lost flexibility in their loan portfolios.

Prerequisite to world recovery is lower real interest rates. This requires US budget deficits to come down.

Policy recommendations:

[1] Fund IMF.

[2] DON'T increase regulation of banks. Resolution of debt service problems must be done on a case-by-case basis and thus demand flexibility.

[3] DON'T punish banks through punitive measures. This will only impair their ability to aid in resolving debt problems. Banks are already hurting.

[4] Resist protectionism.

[5] IMF is not a lender of last resort. IMF borrowing in private capital markets would be contrary to its "spirit".

ROBERT HORMATS, Goldman Sachs International and former Assistant Sec of State for Business and Economic Affairs

[S. HRG 98-61, p. 333]

Steady deterioration in world economy is likely unless we make significant changes in policy and in the structure of the system.

Policy makers need to address the interrelationships among growth issues, financial issues, and trade issues—eg part of the reason for world recession and debt crisis is that several countries are applying anti-inflation remedies simultaneously.

New character of international currency markets means that exchange rates no longer necessarily move in the proper direction to restore trade balance between countries.

Policy recommendations:

[1] Stimulate US and world economic growth by lowering out-year budget deficits in US.

[2] Serious programs aimed at reducing structural unemployment in DCs.

[3] Strengthen IMF, including allowing private borrowing if necessary, and promote adjustment in problem debtor countries.

[4] Regular consultation among financial, monetary, and trade authorities in DCs.

[5] Resist protectionism.

[6] Political commitment at highest levels to sell public on necessity of foreign aid.

15 Feb 1983 (full committee hearing)

GEORGE SCHULTZ, Sec of State

[S. HRG 98-61, p. 371]

Trade is important to US economy. 20% of US jobs depend on trade in some way, and 40% of US cropland is in production for export.

Trade with 3W is important, but shouldn't be overstated. Largest trading partners of US are EEC, Canada, Japan, Mexico.

Causes of debt crisis are: high interest rates due to restrictive monetary policies in DCs after 1979 oil shock, strong dollar, world recession and simultaneous fall in commodity prices.

The US now finds itself in a "Switzerland position" where financial flows affect trade rather than vice versa.

Exchange rate fluctuations are a problem for US. exporters.

Policy recommendations:

[1] Insure sufficient international liquidity, through short-term bridge financing, IMF adjustment programs, continued bank lending, and an increase in GAB which will be available to all IMF members regardless of their contribution to GAB.

[2] Preserve open markets.

[3] Improve the international monetary system.

[4] Insure political stability in 3W.

[5] Cut out-year budget deficits.

[6] DON'T set up any government discount window where banks can unload LDC loans. Banks are an important part in financing the international economy, and such a system would encourage them to withdraw from the international arena.

23 Feb 1983 (full committee hearing)

DONALD REGAN, Sec of Treasury

[S. HRG 98-61, p. 404]

LDCs must take steps to reduce external borrowing and improve debt servicing capabilities, but there are both economic and political limits to the speed of such structural adjustments.

Major problems for banks with loans to LDCs could cause a cutback in domestic credit in US and thus drive up interest rates.

IMF lending both provides some breathing room for structural adjustment in LDCs and assures that such adjustments do in fact occur.

IMF serves US political and security interests as well as economic ones: it is a stabilizing force and a promoter of open, market-oriented economic systems.

US can draw on IMF resources and has done so heavily in the past. Cumulative US drawings on IMF are 2nd highest of any member country.

IMF quota increase isn't a bank bailout. IMF is including banks to increase their lending rather than decrease it. Furthermore, recent debt and liquidity problems are not wholly the result of mismanagement by commercial banks. Governments have had more to do with shaping the international economic environment that have banks.

LDC borrowing in the 1970s was a way of delaying adjustment to oil price shocks and commodity price slump.

Four out of five new jobs in 1970s were generated by foreign trade. US economy is very vulnerable to further cutbacks in imports by non-oil LDCs.

IMF adjustment programs do not hurt US exports. Although cutting imports to LDCs is often a goal of such programs. IMF financing may still allow higher levels of imports than would have been possible without IMF intervention. Also, IMF export expansion programs raise export earnings and thus allow higher levels of imports from industrial countries. Finally, IMF programs include relaxation of import restrictions by LDCs, which can open up markets for US goods.

Oil price drop would have two effects on debtor countries: [1] The direct effect on trade balance—positive for oil importers and negative for oil exporters; and [2] An indirect effect on interest payments through lower inflation rates and lower interest rates in lending countries—positive for all debtors.

Rapid fluctuations in currency values are due in part to improvements in telecommunications which allow a 24-hr global market.

Policy recommendations:

[1] Promote adjustment by debtor countries.

[2] Continue availability of IMP funding for BOP difficulties.

[3] Bridge financing by governments and central banks for countries whose failure to repay would cause serious problems.

[4] Continue commercial bank lending.

[5] Avoid protectionism.

[6] Establish a contingency borrowing power for IMF in case of crisis situations.

[7] US government should not act to restrict private lending to given countries. Banks are in a position to lend wisely and have powerful incentives to do so.

[8] Treasury intervention in currency markets won't work.

13 Apr 1983

HENRY SCHECHTER, Director of AFL-CIO Office of Housing and Monetary Policy [S. HRG 98-61, p. 492]

Tight monetary policy in US has caused appreciation of the dollar, a loss of exports, and a loss of US jobs.

Bulk of US bank lending to LDCs occurred at a time when domestic credit was scarce.

Many US-based multinational corporations used international bank lending to finance the construction of overseas plants, costing US jobs.

US merchandise trade balance was −$48 billion in 1982.

Large part of the drop in US exports is due to LDC financial problems.

Banks earned $800 million from Mexican rescheduling, in fees and interest rate premiums.

Policy recommendations:

[1] Make sure that banks suffer part of any losses caused by LDC rescheduling or defaults.

[2] Prohibit banks from charging fees for rescheduling.

[3] Federal Reserve Board should monitor international lending by US banks and evaluate its consequences both for domestic credit availability and for the US economy as a whole.

[4] LDC loans should be rescheduled by having central banks of lending countries buy up problem loans at a discount. Original lenders should have to suffer any losses, however.

[5] IMF policies should be altered to emphasize domestic market expansion rather than decreasing imports and increasing exports. This would benefit workers in the LDCs and in the industrial countries.

[6] IMF resources should not be used to aid in rescheduling debts of totalitarian regimes or regimes which abuse human rights.

[7] Increase IMF quotas, subject to the above conditions.

[8] Reduce U.S. budget deficit, through elimination of indexing of income tax brackets, and through defense cuts.

WILLIAM HOPE, Manager of economic studies, Bethlehem Steel Co., on behalf of the American Iron and Steel Institute

[S. HRG. 98-61, p. 501]

U.S. recovery is vital to world recovery. U.S. recovery is difficult without restoring health to basic industries such as steel.

Since 1975, there has been no expansion of steel production capacity in DCs, while LDCs have gone ahead with expansion plans even in the face of stagnant world demand.

IMF policies encourage LDC exports and discourage LDC imports. U.S. bears the brunt of such policies. Brazil, Mexico, Argentina, Trinidad, S. Korea, and S. Africa are all unfairly trading steel in U.S.

Policy recommendations:

[1] Cessation fo below-market export credits in LDCs, especially for capacity expansions (how can U.S. policy affect this? through IMF?)

[2] Suspension of plans for economic, surplus steel-making capacity—especially in Mexico, Brazil, and Pakistan.

[3] Some sort of agreement with other industiral countries under which all would accept equivalent amounts of steel from LDCs.

[4] Market share limits for LDC steel in U.S.

[5] Increase IMF quotas, subject to the above conditions.

[Notes on Hearings by Senate Foreign Relations Committee, Subcommittee on International Economic Policy: Brazilian Debt]

28 Sept. 1983

C. FRED BERGSTON, Director of Institute for International Economic.

[S. HRG. 98-601, p. 2]

Brazil is clearly at the center of global debt problem. Its external debt is about $90 billion, and several US banks have loans of 50-75% of their total capital exposed there.

Under fairly conservative assumptions about world economic growth, interest rates, and exchange rates, William Cline's study for IIE shows Brazil's BOP deficit shrinking rapidly for 1982-1986.

Under these assumptions Brazil would be credit worthy by market standards beginning in 1986.

Much of Brazil's recent cutbacks in imports was accomplished as big import substitution projects began producting. This is especially true in the energy sector (increased domestic oil production, hydroelectric projects, alcohol). Big projects also in steel and chemicals.

Main point: Brazil looks credit worthy in the medium- to long-run, and its current debt service problems are ones of liquidity rather than solvency.

Indexation is the chief cause of continuing Brazilian inflation.

To regain international credit worthiness Brazil must get rid of indexation and must cut its government budget deficit.

IMF agreement with Brazil provides $4 billion in new credits over 3 years, and includes an agreement with private banks that they will supply at least $10 billion in new loans over the same period.

IMF loans allow structural adjustments to be more gradual, and thus make adjustments politically more feasible.

Without IMF assistance there is a real possibility of Brazil defaulting on its debts, because without IMF and IMF-induced lending Brazil's interest payments on its existing debt would greatly exceed its net inflow of new capital.

Beginning in 1982, interest payments out of Brazil exceeded the inflow of new capital. This happened in the LDCs as a whole, and could have serious consequences for repayment of debt. If the primary reason for LDCs to worry about debt service is the need to maintain the flow of capital into their domestic economies, then this incentive is lost as soon as interest payments exceed new loans.

Policy recommendations:

[1] Strong congressional support for IMF quota increase. Without such support the IMF loses both funds and credibility, and defaults by "super debtors" such as Brazil become more likely.

[2] Possible authorization for IMF to supplement resources through borrowing in private markets.

[3] More resources for and more short-term financing from World Bank.

JACK GUENTHER, Senior vice-president of Citibank

[S. Hrg. 98-601, p. 10]

US exports to Brazil rose 900% over the past 20 years.

Brazil's current problems stem from three events, only one of which was under Brazil's control. Increase in world interest rates, decline in world demand for Brazilian exports, and lack of internal economic discipline (especially in controlling inflation) all played big roles in provoking debt crisis.

Indexation of wages is a major reason for acceleration of inflation.

Brazil's letter of intent to IMF has two major goals: [1] Reduction of inflation from 10% per month to 2.5% per month by end of 1984, [2] reduction of BOP deficit from $15 billion per year in 1982 to about $7.5 billion in 1983 and 1984.

An important part of anti-inflation policy is a change in indexing system, under which wages will still be adjusted every 6 months but only for 80% of rate of inflation for those 6 months, rather than the current 100% or 110%.

Policy recommendations:

[1] Support increase in IMF quotas. IMF involvement in resolution of Brazilian crisis illustrates its importance for stability of international financial system.

RIORDAN ROETT, Professor of Political Science, director of Latin American Studies program, and director of Center for Brazilian Studies at Johns Hopkins University School of Advanced International Studies

[S. HRG. 98-601, p. 14]

Current economic crisis in Brazil puts severe strain on the country's political system.

If Brazil shifts its foreign policy direction, the most likely alternative is a right-wing nationalist regime which would repudiate foreign debt and move against foreign economic interests.

Cost of basic food products has been rising faster than wages. Agricultural land has been shifted from production of food crops to production for export. Malnutrition is a serious problem nationwide.

Debt crisis is hurting the chances for political liberalization in Brazil.

Policy recommendations:

[1] Emergency food aid for urban and rural poor.

[2] US leadership in getting together IMF, Federal Reserve, private banks from lending countries, and Brazilian government for talks on short- and medium-term financing and on rescheduling debt.

[3] Recognition by US of its substantial political and security interests in resolving financial crisis.

MARC LELAND, Assistant Sec of Treasury for International Affairs

[S. HRG. 98-601, p. 32]

Self-imposed austerity programs in late 1980 led to a sharp contraction in Brazilian economy, improved trade performance, and deceleration of inflation. Despite these programs the debt servicing problem grew worse, and eventually Brazil had to go to the IMF.

Four-part program was instituted after negotiations with Brazil, BIS, Treasury, and commercial banks. This program called for rescheduling of medium-term debt, confirmation of short-term trade credits, $4.4 billion in new medium-term loans, and restoration of interbank credits. IMF extended an additional $4.9 billion over 3 years.

In long run world economic recovery, export-oriented policies by LDCs, and avoidance of protectionism are keys to stabilization.

Current debt problems are ones of short-term liquidity.

Financial authorities in LDCs recognize that a debt moratorium or repudiation would not be in their interest, because such a move would jeopardize all-important future credit flows.

Policy recommendations:

[1] Strengthen IMF and use it as the principal instrument for resolution of debt crisis.

LANGHORNE MOTLEY, Assistant Sec of State for Inter-American Affairs

[S. HRG. 98-601, p. 41]

Political situation in Brazil changed dramatically with 1982 elections.

Accepting IMF programs is seen by many Brazilians as a form of national humiliation. This is an important political fact.

Policy recommendations:

[1] Strengthen IMF. This isn't as critical in Brazil's case as it is in other countries, but it is an important sign of US interest and leadership in orderly resolution of international financial problems.

[Notes on Hearings by Senate Foreign Relations Committee, Subcommittee on International Economic Policy: IDA]

29 Feb. 1984

JOHN DANFORTH, US Senator from Missouri

[S. HRG. 98-908, p. 114]

IDA VI was 1981-83. Scheduled US contribution $3 billion over those 3 years (out of total of $12 billion), but US spread the payments out over 4 years instead of 3.

US proposal for IDA VII is a reduction in its contribution from $3 bill to $2.25 bill, and reduction of total program from $12 to $9 billion.

IDA contribution is a good deal for US for 2 reasons: (1) Contributions are "leveraged," in the sense that $4 are loaned for every $1 contributed by US, and (2) Since IDA is a multilateral institution it can pressure borrowing countries to undertake adjustment programs in cases where US pressure alone would be ineffective.

Administration's proposed FY1985 budget had $16 bil in foreign aid, of which only $1.5 bil is for multilateral programs.

US self-interest is well served by contributing to maintenance of a healthy world economy.

Policy recommendations:

(1) Authorization for a supplemental IDA VII contribution of $750 mil by US, if the administration finds that world economic conditions, especially in sub-Saharan Africa, warrant such a step.

DONALD REGAN, Sec. of Treasury

[S. HRG. 98-908, p. 119]

IDA can continue to be effective without growth in its budget.

IDA's main contribution to development is promotion of policies which encourage individuals to work, save, and invest.

IDA is not a balance of payments lender, and thus has only a marginal role in resolution of debt problems.

Highest priority for IDA VII lending is for sub-Saharan Africa.

Inter-American Investment Corporation (IIC) set up recently to complement the lending of the Inter-American Development Bank. IIC will concentrate on lending to small and medium private sector firms in Latin America.

Entrance of China into IDA programs means that India (which formerly received 32% of IDA money) will have to settle for less.

Countries which have demonstrated ability to borrow on private markets will not be eligible for IDA loans (eg, Brazil).

IDA must be sensitive to the repercussions of its lending on industrial countries, especially in sectors such as copper and steel in which LDCs compete directly with DCs.

Policy recommendations:

[1] Adopt the proposed administration cuts in IDA.

[2] Support creation of IIC.

ROBERT STRAUSS, Akin, Gump, Strauss, Hauer, and Feld

[S. HRG. 98-908, p. 131]

Reagan administration has deemphasized multilateral aid in favor of bilateral aid.

IDA funding is a moral as well as a political and economic commitment.

Development programs are competing with Central American security aid for the same scarce funds.

US participation in multilateral institutions is important also for its indirect political benefits. Strong US leadership translates into ability to promote democracy in rest of world.

RICHARD DEBS, President of Morgan Stanley International, on behalf of US Chamber of Commerce

[S. HRG. 98-908, p. 138]

Chamber prefers contined funding of IDA at $1 bil per year but supports Administration proposal for $750 mil per year.

US involvement in multilaterals promotes our economic, security, and humanitarian interests. It can be an important stabilizing influcence in other countries, and in long run it promotes development of overseas markets for US goods.

US contributions are truly leveraged, since US essentially controls policy while contributing only a fraction of the funds.

LDCs are an important and growing market for US products. In 1982 almost 40% of US exports went to LDCs, and from 1970-82 exports to LDCs grew from $11 to $83 billion per year.

IDA recipients account for 15-20% of US exports.

IDA promotes free-market policies (eg, opening oil sector to foreign bidding in India, liberalizing trade laws in India, Pakistan, and China) and thus helps US business.

As of 1983 US companies received 14% of IDA procurement contracts.

If other members create a supplemental fund for IDA due to US cutbacks, US contractors will probably be excluded from procurement contracts generated from lending out of that fund.

CRISTOPHER PHILLIPS, President of National Council for United States-China Trade

[S. HRG. 98-908, p. 155]

Supports IDA program for China for 2 reasons: [1] It offers commercial opportunities to US exporters, and [2] It promotes China's development in a manner favorable to US national interests.

WB and IDA loans should amount to around $2 bil per year under IDA VII. This represents important opportunities for US companies, especially in commercial agriculture and forestry, transportation, and energy. US companies have been very successful to date in winning contracts for these projects.

WB and IDA lending help integrate China into the world economic community, which will have long-term positive effects for US commercial and security interests.

IDA funds in China go for long-run projects with rates of return which are too low to interest commercial lenders. Therefore they don't really compete with private banks.

Main point: IDA is an important vehicle for advancing US political and commercial interests in China, and should be funded.

JOHN RICHARDS, Vice-president of M.W. Kellogg Co.

[S. HRG. 98-908, p. 161]

Kellogg Co. supports IDA strongly, due to successful experiences working with multilateral development banks (MDBs) in Indonesia.

WB project evaluation is thorough and its seal of approval induces other MDBs to participate in lending for good projects.

IDA and other concessionary lenders effectively promote growth of world trade and therefore of US exports of goods and services.

OSCAR LIPSCOMB, Archbishop of Mobile, on behalf of US Catholic Conference

[S. HRG. 98-908, p. 165]

Supports IDA VII replenishment at current levels—$1 bil per year—rather than a reduction.

US share of IDA funding has fallen from original 42% to current 25%.

Multilateral institutions are important because they are more free from political considerations than are bilateral aid programs, and thus target aid more effectively on those who need it most.

EDWARD FRIED, The Brookings Institution

[S. HRG. 98-908, p. 172]

Administration proposal for IDA VII is below what was originally negotiated by 25% in nominal terms, 35% in real terms.

Reduction in IDA is mistake in terms of US national prorities and runs contrary to US interests.

IDA has been an extremely successful program in terms of developing physical infrastructure and improving skills in the poorest LDCs.

IDA is also important for its promotion of economic efficiency and free-market policies.

Geographical breakdown of IDA loans shows their importance to US political goals: 40% to India and China, 33% to sub-Saharan Africa.

JOHN SEWELL, President of Overseas Development Council

[S. HRG. 98-908, p. 175]

Cutback in IDA came at US insistence and represents an abdication of US leadership and a mistake in terms of long term priorities of US. IDA VII funding should be significantly higher than the current $12 bil, not cut to $9 bil.

Reagan administration has made a big switch from multilateral aid to bilateral security programs. From 1983-85 total international economic and financial aid went from $4.7 to $4.9 bil while international security assistance rose from $4.6 to $10 bil.

US political as well as economic interests are hurt by a retrenchment on IDA. Development aid is a stabilizing force in 3W. Also, US reluctance to participate in international programs is an irritant in relations with Europe.

Guarded optimism about international liquidity problems obscures long-term problems which have yet to be addressed. Specifically, can we get back to situation where LDCs can simultaneously manage their debt service and still continue to expand their share of world trade?

WB started a program of structural adjustment landing for BOP problems in 1980

WB has tried to promote co-financing of its projects by commercial banks, with little success

IBRD's current charter limits its "gearing ratio" of loans/total capital to a very conservative 1:1. More lending would be possible if this were altered to 2:1. (Commercial banks may risk exposure of greater than 25:1)

Graduation of countries from concessionary to commercial borrowing is difficult in the current international climate. This makes WB and IDA more important than ever.

27 Mar. 1984

ROBERT MCNAMARA, Former president of World Bank and IDA

[S. HRG. 98-908, p. 1372]

Recent shift from economic development aid toward security aid is shortsighted and regrettable.

Recovery in middle-income LDCs depends on four factors: [1] Recovery in industrial countries, [2] Resistance to protectionism in DCs, [3] Continued access to commercial credit, and [4] More efficient domestic policies.

WB and IMF capital flows will be an essential part of resolution of debt problems, both in short and medium run, since private banks are reducing their exposure and are reluctant to return to their previous pattern of constantly increasing lending.

US security interests are well served by economic development in 3W, and strengthening military institutions is a poor substitute for strengthening economic institutions.

Cutting back on multilateral programs will eventually render bilateral programs more costly and less effective.

Multilateral aid can enforce conditionality, while bilateral aid often cannot. In addition multilateral aid has the advantage of greater continuity.

At the margin a dollar spent on foreign economic development buys more security than a dollar spent on foreign military assistance.

No need for institutions for "bridge financing" and emergency BOP lending. IMF and WB can handle this quite well.

C. FRED BERGSTON, Director of Institute for International Economics

[S. HRG. 98-908, p. 1408]

Proposed IDA VII funding level is inadequate.

Overvaluation of dollar effectively lowered the value of the IDA VI contributions made by other members.

Addition of China to IDA rolls means that proposed cutback amounts to a reduction of 60% in per capita terms ($ per person in borrowing countries).

The world recovery has not significantly eased the economic problems of many LDCs. Commercial funding has dried up at a time when continued lending is critical, and protectionism in the industrial countries has limited their possibilities for export expansion.

High dollar means higher real debt burden and lower commodity prices for LDCs, and also reduces the real value of foreign assistance they receive in other currencies.

Global economic problem is a long term problem. IDA funding of long term projects is therefore a part of the solution.

Cutting IDA funding means that more World Bank (hard loan) money will have to go to poorest countries and less to middle income LDCs. This will further aggravate debt problems since middle income LDCs are biggest borrowers (Brazil, Mexico, Yugoslavia, Argentina).

Main point: cutting IDA funds not only hurts low income LDCs directly, but also means less hard loan money for big debtors.

Major problem in intermediate run in world economy is how to continue credit flows to big debtors at a time when commercial banks will be reluctant to increase their exposure. Multilateral public institutions are the obvious answer. World Bank in particular needs to play a much bigger role than it has.

BRUCE RICH, on behalf of the International Project of the Natural Resources Defense Council

[S. HRG. 98-908, p. 1427]

Supports IDA replenishment in the belief that economic development and improved world resource management are closely related issues

IDA project evaluation pays to little attention to environmental impact of proposed projects, and thus ignores questions of long-term sustainability of such projects

[Notes on Hearings by Senate Foreign Relations Committee, Subcommittee on International Economic Policy: Free Trade in Auto Industry]

27 Jun 1984

STEPHEN YOKICH, Vice-president of UAW International and LEE PRICE, International economist at UAW International

[S. HRG. 98-937, p. 2]

All auto producing countries limit imports in one manner or another. Free trade is a myth except in countries like Norway and Switzerland.

Pursuit of free trade by US alone would be disastrous for US economy and for US employment.

$25 billion trade deficit in 1983 just in autos. This was ⅗ of total trade deficit in manufactured goods.

Imports take 25% of US market compared to 1% in Japan.

Auto employment down 23% in past few years. Increasing sales and profits have not translated into more jobs.

Over 30 countries have local content laws in auto industry.

Auto industry is dynamic, research-intensive, high-tech, and has important linkages with other basic industries.

Policy recommendations:

[1] Support local content legislation

[2] Don't pursue a unilateral free trade policy as long as other countries restrict imports of US autos

[3] Don't bail out banks at the expense of US exports and jobs

LEON LYNCH, Vice-president for Human Affairs, United Steel Workers International

[S. HRG. 98-937, p. 29]

Decline in auto industry has hurt steel employment severely

Policy Recommendations:

[1] Free trade is only free in US. Protect steel, copper, and auto industries from import competition.

ERNEST GRECCO, COPE Director for Maryland and Dist. of Columbia, AFL-CIO

[S. HRG. 98-937, p. 36]

Deterioration of US trade balance has cost 2.5 million US jobs. 75% of which are in manufacturing sector

Overvaluation of US dollar has had 2 injurious effects on US exports: [1] direct effect of lower import prices and higher export prices hurting trade balance, and [2] The indirect effect of draining capital from other countries and thus lowering their economic growth and their demand for US products (I don't know if [2] Is really a result of overvalued $. It might be the other way around.)

High US interest rates have increased LDC debt burden. This has slowed LDC growth rates and thus hurt US exports.

Policy recommendations:

[1] Increased trade adjustment assistance programs for displaced workers.

[2] Expand role of Exim Bank in promotion of US exports.

[3] US should use its influence to alter IMF policies which require borrowing countries to curb exports. IMF should instead support expansionary policies in LDCs.

NB: Sen. Biden expressed concern about the possibility that US import restrictions in the auto industry would lead to new protectionist measures by other countries against US agriculture. None of the panelists had much to say on this issue, with the exception of Mr. Price, who noted that Japanese imports of agricultural goods from Australia, France, Italy, Germany etc. had not declined after those countries enacted protectionist measures against Japanese auto imports.

BARRY BLUESTONE, Professor of Economics and director of the Social Welfare Research Institute at Boston College

[S. HRG. 98-937, p. 51]

12 of 49 countries which produce autos have export requirements. 41 of 49 have some form of import requirements. 27 have local content laws.

Free trade doesn't really exist outside of an economic textbook.

With exception of textiles, most protectionist laws in industrial countries are aimed at products from other industrial countries.

In 1970 5% of OECD manufactured imports came from LDSs. By 1980 this was 11% and growing.

GEORGE EADS, Professor at School of Public Affairs of University of Maryland

[S. HRG. 98-937, p. 74]

Trade restrictions on autos are an attempt to delay what may be painful but inevitable adjustments.

Free trade is a myth in autos.

US auto industry is uncompetitive compared to Japanese industry, mostly because of big differences in productivity.

Despite the breathing room allowed by recent voluntary quota system for Japanese imports, US industry has not been able even to keep pace with Japanese productivity gains.

Domestic content won't protect US industry in the long run, although it may have the effect of inducing Japanese companies to transfer their production facilities to the US.

Main point: trade restrictions may smooth adjustment somewhat, but big adjustments can't be avoided in the long run.

ROBERT CRANDALL, Senior fellow at Brookings Institution

[S. HRG. 98-937, p. 79]

Job protection in autos is costing US about $100,000 per job saved. The beneficiaries of protectionism are primarily Japanese auto manufacturers who can charge higher prices in US market because of quotas, and the losers are US consumers.

Empirical evidence shows that tariffs would be better for consumers than voluntary quotas.

GAR ALPEROVITZ, Codirector of National Center for Economic Alternatives

[S. HRG. 98-937, p. 110]

In long run it's in every country's interest if US relinquishes its share of world production in less technically sophisticated industries to 3W producers.

Trade barriers can be important transitional steps in such adjustment, but they should not be regarded as permanent or as a way of shielding industries from inevitable structural adjustment.

ROBERT MILLER, Executive vice-president for finance and administration of Chrysler Corp.

[S. HRG. 98-937, p. 130]

"International playing field is still far from level."

Some sources of unfairness in trade with Japan are [1] Overvalued dollar and undervalued yen, and [2] Japanese tax system which gives too much incentive for firms to export autos to US.

About ½ of competitive problems are due to exchange rate imbalances.

Policy recommendations:

[1] Oppose domestic content, but "level the international playing field."

[2] Government intervention is essential, in order to enforce exchange rate agreements, alter tax differentials, and to make sure import restraints stay in place until these problems are solved.

KENNETH WHIPPLE, Vice-president for corporate strategy and analysis of Ford Motor Co.

[S. HRG. 98-937, p. 134]

Export restraint by Japanese has played a key role in US recovery.

Same arguments as above for Japan's cost advantage in auto production

Policy recommendations:

[1] Maintain voluntary quotas.

[2] Do something to get yen/dollar exchange rate to a more realistic level.

[3] Lower budget and trade deficit.

MARINA WHITMAN, Vice-president and chief economist, General Motors Corp.

[S. HRG. 98-937, p. 137]

GM is trying hard to alter the way it produces small cars for US market. This includes joint project with Toyota, and immediate import of small cars from Daewoo Motor Co. of S. Korea and from Isuzu and Suzuki.

Main point: voluntary restraints have not changed GM's plans to retool and restructure, they have smoothed the way.

[Notes on Hearings by Senate Foreign Relations Committee, Subcommittee on International Economic Policy: IMF Resources in Copper-Producing Countries]

2 Aug. 1984

PAUL LAXALT, US Senator from Nevada

[S. HRG. 98-7, p. 9]

Copper prices are very low. Unemployment in US copper industry is over 40%.

This unemployment is caused by imports. IMF, WB, African Development Bank, Inter-American Development Bank have contributed to the problem by loaning over $4 bil to Chile, Peru, Zaire, and Zambia from 1975-83. Such funding allows modernization of facilities at subsidized rates of interest while US producers have to pay market rates.

Policy recommendations:

[1] Voluntary production restraints on part of LDCs.

PETE DOMENICI, US Senator from New Mexico

S. HRG. 98-7, p. 9]

Cooper imports up 240% from 1979-83.

LDCs continue to increase production in the face of falling prices in order to gain foreign exchange and to maintain employment.

IMF adjustment programs encourage overproduction by LDCs.

Policy recommendations:

[1] Alter IMF charter to discourage unprofitable exports of copper. Replace current system with something like the US payment-in-kind program—ie, authorize the IMF to pay countries for *not* producing or *not* exporting copper.

[2] Voluntary restraint agreements with Chile, Zambia, Zaire, and Peru.

JAKE GARN, US Senator from Utah

[S. HRG. 98-7, p. 16]

Expansion of LDC production facilities were financed at below-market interest rates with loans from development banks.

Policy recommendations:

[1] No approval of next IMF quota increase without a change in IMF policy.

JEFF BINGAMAN, US Senator from New Mexico

[S. HRG. 98-7, p. 18]

Copper is a strategically important metal for US defense production.

US is aiding in financing overproduction in LDCs through multilateral banks.

Policy recommendations:

(1) Approve bill altering IMF charter and requiring periodic reports to Congress on the lending activities of MDBs.

GEORGE HOGUET, Principal Deputy Assistant Sec of Treasury for International Affairs

[S. HRG. 98-7, p. 30]

Treasury Dept opposes the bill altering IMF charter.

IMF loans are short-term in nature and do not contribute to financing particular sectors of LDC economies. Main target of bill before Senate is the Compensatory Financing Facility, which accounts for roughly 30% of total IMF lending.

IMF lending promotes fair trade competition by forcing countries to relax import restrictions and export subsidies. This helps US producers.

MDB loans have added about 4% to total world copper production capacity in last 7 years. This is really not an important factor in explaining current trade patterns.

RICHARD OSBORNE, President of ASARCO Inc.

[S. HRG. 98-7, p. 40]

Supports bill.

IMF (CFF) loans hurt copper industry in two ways: (1) IMF rules require that a country must be able to demonstrate that loss of commodity export earnings was due to factors beyond its control. This encourages overproduction by eliminating eligibility for countries which try to maximize foreign exchange earnings by limiting production. (2) IMF conditions generally include export targets and devaluations.

Loans to countries have lower interest rates than loans to companies. This gives nationalized 3W industries an unfair advantage.

L. DANIEL MAXIM, President of Everest Consulting Associates

[S. HRG. 98-7, p. 46]

Problem in copper indusry is that no country has a sufficiently large market share to be able to influence world price very much. This means everyone tries to export as much as possible, which drives price down.

His econometric model shows that a 15% production cutback by CIPEC countries (major producers) would lead to a 30% increase in price and a 10% increase in copper export revenues. Main point: 3W copper producers should organize to cut production and drive up prices.

IN RECOGNITION OF NATIONAL SMALL BUSINESS WEEK

● Mr. WEICKER. Mr. President, we are currently celebrating National Small Business Week, a 21-year tradition of recognizing the importance of small enterprise to the economy, and the achievements of individual small business owners who, through their dedication and accomplishments, personify the spirit of American entrepreneurship.

I would like to acknowledge, during this appropriate time, the contributions of our 14.5 million small businesses which represent the building blocks of our Nation's economic structure. Small businesses comprise 97 percent of the total number of U.S. businesses, and generate over 80 percent of all net, new jobs. The President's 1984 report on the state of small business notes that all of the 1 million net, new jobs created during the recent recession were generated by companies with fewer than 20 employees. While small firms created 2.6 million new jobs between 1980 and 1982, large businesses lost 1.6 million jobs. The small business sector helped to drive the recent economic recovery through its superb job creation capacity, excellent growth rate, and ability to change with the economic times. Small firms now employ one-half of the private sector labor force, and furnish two out of three workers with their first jobs. Many of these jobs are in the service sector, which currently accounts for two-thirds of the economy, and which provides hundreds of thousands of employment opportunities for Americans who have the most difficulty finding jobs, including minority workers, veterans, senior citizens, the handicapped, and women reentering the work force.

Mr. President, it gives me great pleasure at this time to note that Vincent A. Amato, the owner of Amato's, Inc., located in Middletown, CT, has been named Connecticut's "Small Business Person of the Year" by the Small Business Administration. Mr. Amato had been a veteran flier of home-built wooden airplanes with gasoline motors for several years before deciding to open his own hobby shop at the age of 14. He convinced his father to permit him to set up a hobby shop in the corner of his plumbing and appliance store back in 1940, and that business has been in continuous operation ever since. Mr. Amato used his profits to help pay for his engineering studies at the Massachusetts Institute of Technology, but later decided to pursue entrepreneurship rather then engineering. Amato's, Inc., with its three branch stores in New Haven, Waterbury, and New Britain, now boasts a sales volume of $800,000. In this age of super technology, Mr. Amato thinks his hobby business will continue to fare quite well. This is a reflection of his solid belief in the enjoyment generated by his balsa wood airplanes and electric trains, and his prediction that people will always find satisfaction in making things with their own hands.

I would also like to recognize at this time the firm of Delta Industries, Inc., located in East Granby, CT, which has been named a "Small Business Subcontractor of the Year" by the Small Business Administration. Delta Industries, Inc., was selected for its outstanding record as a Federal procurement subcontractor for region 1, which encompasses Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, and Connecticut.

Richard Jaquith, the company's president, will be honored for the high standard of service, performance, and quality set by Delta Industries, which was nominated for the award by the manufacturing division of Pratt & Whitney, defense contractors located in East Hartford, CT.

Mr. President, the individuals I have mentioned are Connecticut's business leaders. They deserve our praise and respect, for they have reached their personal goals and are setting a fine example for others to follow. They represent small entrepreneurs throughout Connecticut and across America who are proving every day that small businesses are making major contributions to our communities and our national economy.●

CONTROL OF IDEAS

● Mr. SIMON. Mr. President, one of the things that is happening increasingly again in our society is the attempt to control ideas.

It is coming from the left, among students who try to keep Jean Kirkpatrick from speaking on a campus or a CIA representative from speaking on the campus, and it comes from the right in this administration when it denies people, who want to come into this country to express opinions, the opportunity to do so.

Anyone who hampers the free flow of ideas strikes at the very fundamentals of what this country stands for.

Stephen Chapman, an editorial writer for the Chicago Tribune, who also does a column for them, had a column recently titled, "Thought Police at the Border."

It "hits the nail on the head."

Clearly, people who are coming into this country to sell drugs or to cause violence should be kept out. But people who express views many of us disagree with should not be kept out.

Stephen Chapman concludes his column by writing:

The political exclusions in the law serve only to punish people for having the wrong opinions. If we're going to do that, let's start with the people who enacted it.

I agree. I urge my colleagues to read his statement and ask that the column appear in the RECORD.

The article follows:

THOUGHT POLICE AT THE BORDER

(By Stephen Chapman)

To the ramparts, men! Mothers, lock up your daughters! Farley Mowat's on his way! This infamous Canadian writer had been denied entry to the United States by a vigilant sentinel guarding our border, but the cowardly Reagan administration, faced with complaints from the Canadian government, lamely decided on appeasement.

An avowed socialist and environmentalist who writes on wildlife issues, Mowat had planned to fly to Los Angeles late last month to promote his latest book. He was denied entry under a McCarthy-era law that says foreign communists and anarchists aren't welcome here.

After a couple of embarrassing days, Washington agreed to let Mowat in for his book tour. But now he's miffed and refuses to come.

In any case, he stoutly denies any communist connections, past or present. But the Immigration and Naturalization Service, our border thought police, apparently had another excuse for keeping him out. Back in 1968, Mowat was quoted in a Canadian newspaper as saying he had fired a 22-caliber rifle at a U.S. Air Force plane. Sound dangerous? Well, a .22 might do some damage to a rabbit, but it wouldn't be much use against a B-52.

Mowat also says that in 1956 he and some friends had publicly threatened to steal an American atomic bomb from a Strategic Air Command base in Newfoundland and detonate it in a nearby lake. Given evidence like this I will concede that Mowat may be a fool. But the INS has no business keeping people out for premeditated silliness.

Besides, Mowat isn't nearly as foolish as the law under which he was excluded. It tries to isolate Americans from anyone who is not normal is every way—the mentally retarded, the insane or formerly insane, sexual deviates, drug addicts, alcoholics, beggars, prostitutes and the ever-present polygamists.

That's just for starters. The law disinvites foreigners with unacceptable political views, which includes anarchists, communists, members of "totalitarian" parties, anyone who favors overthrowing the U.S. government and those advocating "opposition to all organized government." The latter clause would keep out some of my fellow libertarians, who don't even like the disorganized kind. In case we've missed anyone, those of you contemplating activities "prejudicial to the public interest" can also get lost.

All this would be funny if it didn't have the full power of the U.S. government behind it. Certainly we ought to keep out terrorists, KGB agents and other truly dangerous people. But the point of this law is not to prevent violence. It has been used to keep out such frightening characters as novelist Gabriel Garcia Marquez, the widow of Chilean President Salvador Allende, and a middle-aged British economist who had briefly been a member of the Communist Party in the 1930s.

The authors of this law, and the people enforcing it, obviously regard ideas as communicable diseases. Foreigners carrying microbes of anarchism or communism or other alien creeds have to be quarantined lest they infect healthy Americans.

But unlike measles germs, ideas have other ways of transmission—like books. As the law stands, the U.S. government can't ban Marquez's writings, which have sold millions of copies. Doing so would violate the 1st Amendment. It can't even prevent him from personally arguing his case for American ears, since he can do that via telephone, tape recording or broadcast transmission. All it can do is keep his body from crossing the border. What on earth does that accomplish, except making the INS a fit object of ridicule?

It would make sense to keep Mowat out if there were any evidence that he is dangerous to the U.S. government or anyone else. But there isn't. The political exclusions in the law serve only to punish people for having the wrong opinions. If we're going to do that, let's start with the people who enacted it.●

APARTHEID

● Mr. GOLDWATER. Mr. President, every afternoon, as I drive back from work at the Senate, providing we get out before the sun goes down, I see many people gathered near the South African Embassy protesting apartheid.

I don't like apartheid. I have been to South Africa five or six times and I have told the rulers of that Government that I do not, but I think that kind of action will accomplish far more good for South Africa than what we are going through.

If the Congress is silly enough to disallow investment by American firms in South Africa, who are they really hurting? Do they think they are hurting the well-off white man in South Africa? Do they think they are hurting the Government of South Africa? No. What they are doing is creating massive unemployment among blacks who have been hired by American firms investing in South Africa.

Now, everybody in this country has the right, under our Constitution, to do what he or she wants to do or say, as long as it does not do harm to another American. But our people are so wrapped up in human rights—and nobody can fault our people for that—that they sometimes overlook harm they might do while arguing for rights.

Just as a small example, we hear almost daily preachments on the floor about genocide and what we should do about it, but nothing is ever mentioned about the millions of people the Soviet Union has killed in their country or the millions of people the Red Chinese have killed in their country. If we are going to be consistent in these approaches, and if people are going to protest apartheid by public demonstration, why do they not protest publicly the murderous operations of the Soviet Union in Afghanistan, or the attitude of the Red Chinese Government against their own people?

Let us think this whole thing out carefully because, just as sure as the sun is coming up tomorrow, if we make American investors withdraw from South Africa, we are going to do more harm than good.

I ask that an article appearing in the Thursday, May 9, Washington Times, on this subject be inserted at this point in my remarks.

The article follows:

What comes next after disinvestment?

H.E.J. Van Rensburg is a white South African parliamentarian who has been a vocal opponent of apartheid for 33 years. He is an opposition member of the South African Parliament. He is also impassionedly against disinvestment, the newest rallying point for American activists.

"American multinational companies operating in South Africa have made remarkable and laudable contributions to the upliftment of South African black people by introducing equal employment practices, extensive training programs for blacks, equal pay for equal work, advancement opportunities, housing programs, and opportunities for education," he argued.

"This fine example has been followed by European and South African companies and has made a major contribution to the creation of a large component of well-trained and well-paid skilled black laborers in South Africa.

"Proponents of disinvestment may not appreciate the fact that their actions will result in more people becoming unemployed in a continent already racked by unemployment and mass starvation."

Mr. Van Rensburg, a member of the Progressive Federal Party, is not by any means alone.

Indeed, when one begins to put together the curious weave of "moral" statements vs. "practical" actions, it seems that the whole rhetorical scheme for disinvestment—or American companies, in effect, withdrawing

their investment from South Africa—exists mostly on the level of self-righteous activism in Washington and on American campuses.

Black businessman Mxolisi Mgojo, of Sperry Rand in Johannesburg, was asked what effect the disinvestment issue and the marching in front of the South African Embassy had on the people of South Africa. He answered, at a luncheon given by the conservative Ethics and Public Policy Center:

"Virtually none. Most in South Africa are concerned only with the day-to-day affairs, property rights, education."

And a prominent South African black labor leader, Lucy Mvubelo, wrote in a study published by the same center: "To proponents of isolation, disinvestment, and embargoes, I must say: Don't break off contact, and don't advocate disengagement and withdrawal of foreign investments. Only indigenous movements—the trade unions, the political groupings, the schools, the business associations within South Africa—can bring about significant, positive change."

Lucy Mvubelo, who is general secretary of the important national union of clothing workers, pleaded, "The vitality of South Africa's economy offers more hope to South African blacks than destructive forms of pressure from abroad."

If these were voices in the wilderness or if these were self-interested white conservatives in South Africa, they would not deserve attention. But they are not. These are the voices of the real "liberals"—black and white—who desperately want change in South Africa, but who want real and lasting change.

Why then the sudden passion of "liberal" activist groups and demonstrators on campuses in the United States over the complex issue of disinvestment? (There are now 20 different bills and resolutions before Congress calling for disinvestment.) Does it have much to do with the real issues or with real change in South Africa?

What we are seeing is something very self-righteous and very dangerous. Marching in front of the South African Embassy (and maybe even getting arrested because you know you'll be out in an hour, unlike in South Africa) is emotionally satisfying. Demonstrating is a way of joining protest of what goes on across the seas with that all-American display of "feeling good about yourself," which goes on here.

But would disinvestment, which after all is the bellwether for the new wave of American anti-South African activism, help blacks? No; it would hurt them.

It would cut the economic and international rug out from under the present government of President Pieter Botha because he can continue with the present reform system only as long as he can retain the confidence of much of the electorate. That necessitates international support.

Even more disinvestment would destroy precisely that skilled and upward-moving black population that alone makes a decent future there possible. Disinvestment would make revolution—the most violent and destructive revolution—inevitable because there would be quite simply no other way.

Maybe that is what the new generation of American activists really want in South Africa. If so, they should say so, for it is not what the South African liberals and blacks want.●

AMENDING THE IMMIGRATION AND NATIONALITY ACT—S. 1108

● Mr. D'AMATO. Mr. President, I rise today to cosponsor S. 1108, introduced by my distinguished colleague from Arizona, Senator DECONCINI, to amend the Immigration and Nationality Act with respect to the definition of immigrant. This bill will expand an existing category of persons considered nonimmigrant aliens because of the brief duration and limited transportation purpose of their entry into the United States.

Under current law, alien crewmembers serving in good faith on board a vessel or an aircraft who intend to land temporarily and solely in pursuit of their calling as crewmembers and to depart from the United States with the vessel or aircraft on which they arrived or some other vessel or aircraft are considered nonimmigrant aliens, rather than immigrants. The legislation which I am cosponsoring will broaden this exception to include the operators of motor carriers of passengers.

This legislation is necessary to correct a gap in existing law and to terminate an inequitable situation regarding the entry into the United States of passenger busses driven by non-U.S. citizens. As an example, I would like to discuss the present Immigration and Naturalization Service policy for classification of Canadian Greyhound bus drivers engaged in transporting passengers between Montreal and New York City. Point-to-point pickup and delivery of passenges in upstate New York is part of that service.

For the past several years, INS and the Department of Labor have been considering the proper classification of the drivers who have been permitted to hold parole visas while operating buses on this route. The bus company and the drivers argued that the route from Montreal to New York City is international travel and that the point-to-point service in the United States is merely incidental to the primary purpose of international trade. Their goal was to secure proper nonimmigrant visas and labor documentation for those Canadian drivers who needed them.

INS determined that the transportation of passengers across international borders is clearly international trade. However, INS also indicated that point-to-point pickup and delivery within the United States is not a necessary incident to the transportation. Because of this finding, INS would not grant nonimmigrant visas to the drivers who needed them or agree to indefinitely extend the parole visas currently held by some of the drivers. At the same time, U.S. employees of Greyhound, Inc., have worked in Canada without any visa requirement on a day-to-day basis.

I have been assured by both the bus company and by the drivers' union that, if Canadian citizens were able to obtain nonimmigrant visas in order to operate buses on the Montreal-to-New York City route, they would in no way deprive the resident labor force of employment opportunities since Greyhound's American-based employees would continue to enjoy the privileges of working in Canada and added coaches required to properly service the public demand.

I believe this bill, which is extremely narrow in scope, will help to correct an anomalous situation, while enabling the continuation of bus service to many upstate New York communities which depend upon it. This bill is designed simply to restore balance and fair play regarding international passenger motor carrier service. I urge my colleagues to support this measure.●

SENATE JOINT RESOLUTION 130—NATIONAL BLOOD PRESSURE AWARENESS WEEK

● Mr. DURENBERGER. Mr. President, I am pleased to join my colleague from Indiana, Mr. QUAYLE, in sponsoring Senate Joint Resolution 130, a joint resolution to designate the week of November 10, 1985 as "National Blood Pressure Awareness Week."

Health promotion and disease prevention is one of the most important challenges facing our society today. We know that preventive health care can save lives, improve the quality of life for millions of Americans, and reduce overall health care costs.

All of our priorities in health care systems in America have been oriented to sick care. It is time we reset our priorities. We should focus attention on preventing disease rather than waiting until people become sick to treat it.

The control of high blood pressure is a proven example of how the incidence of illness can be reduced simply by identifying the problem and encouraging people to take responsibility for their preventive medication.

It is cheap, simple and painless to test for high blood pressure. But, 15 million out of the 60 million Americans with hypertension go untreated. This resolution is important because it points to a major health and lifestyle problem which can be reduced through prevention.

High blood pressure significantly increases the risk of stroke, cardiovascular disease, and kidney failure. It is estimated that 20 percent of those needing kidney dialysis, at a cost of close to $100,000 a year, suffered from high blood pressure and that the hypertension was the primary cause of their kidney failure. It is ironic that Medicare will pay for high-cost kidney dialysis when it will not pay for the relatively inexpensive hypertension medi-

cines which would greatly reduce the need for dialysis.

As chairman of the Senate Finance Subcommittee on Health, I am actively committed to examining and revising our priorities in the area of health promotion and disease prevention. Earlier this year I introduced a package of health bills designed to provide incentives for elderly Americans to reduce their risk of illness and to establish a framework for Medicare to reach its potential in the area of health promotion.

One of my bills, S. 358, provides Medicare beneficiaries with assistance in meeting the cost of identifying high blood pressure and other problems through health screening and controlling hypertension through medication by counting both toward their Medicare Part B deductible. This is a token subsidy at this point but opens the door to investing our Medicare dollars more wisely to obtain long term savings.

A second bill in the package, S. 359, directs the Secretary of Health and Human Services to set up demonstration projects designed to test the usefulness of providing Medicare beneficiaries with preventive health care services. Under these demonstration projects, a variety of preventive health services could be made available to Medicare beneficiaries including care for identifying and controlling hypertension. The demonstration projects could also include instruction in self-medication and other services to promote better use of preventive care.

I should add that the relationship between high blood pressure and poverty is very disconcering.

There is a clear relationship between high blood pressure and race and economic class. A Veterans' Administration study conducted in Michigan indicated that blacks with end-stage renal disease were 18 times more likely than whites to have hypertension as the cause of their kidney failure. A recent Georgia study has revealed that there is a link between high blood pressure and low income. Why? Because the poor, among them many blacks, cannot afford to consult a physician as often as most American, or buy the medicines they need even if they are found to have high blood pressure. After all, as hypertension has no visible or apparent symptoms, why should people spend limited financial resources on going to a doctor, or spend their money on hypertension medicines, when they don't even feel bad or don't even know they are ill? It is time we focus attention on this problem. Much of the cost of sick care to the indigent could be avoided if we provided the means for receiving better preventive health care.

I am, therefor, pleased to sponsor National Blood Pressure Awareness Week. National Blood Pressure Week is an important measure. It will help increase the public awareness of the potential health risks posed by hypertension. In part, prevention means better awareness and education, and National Blood Pressure Awareness Week is an excllent way to inform the public about this important health care issue.

Mr. President, I urge my colleagues to join Senator QUAYLE and me in this effort by cosponsoring this important joint resolution.●

SUPPORT FOR SURCHARGE ON JAPANESE IMPORTS

● Mr. HEINZ. Mr. President, on March 28, 1985, I introduced S. 770, providing for a 20-percent surcharge of Japanese imports for 3 years. I took this step because of my belief that only strong action by the United States can break the cycle of American complaints followed by Japanese meaningless reform packages followed by renewed complaints that have so plagued our bilateral trade relations.

There are those, of course, who would prefer to continue talking about this problem rather than acting. But their number is shrinking as more and more people are confronted with the fundamental reality of Japan's unwillingness to make any meaningful changes in its trade policy. Now, however, comes additional support for this kind of targeted surcharge as a necessary catalyst for healthier trading relations from Morgan Guaranty Trust Co. in its March/April issue of World Financial Markets. That publication comes to a conclusion similar to mine on dealing with Japan, and I ask, Mr. President, that an excerpt from this report be printed at this point in the RECORD.

The excerpt follows:

TARGETED SURCHARGES

The objections to an import surcharge apply with persuasive force to a levy on all, or most, U.S. imports. A surcharge might instead be confined to specific products. For example, petroleum, imports are mentioned for surcharge or special duty treatment, both on grounds of high revenue potential and in support of long-term conservation. An oil import tax is sometimes represented as an almost painless tax increase, given the slide since 1981 in real oil prices to U.S. consumers. However, it could be seriously destabilizing to already troubled oil markets. And, as an approach to the budget problem, it shares the defect of all tax increases in that it fails to tackle basic spending issues.

Alternatively, a surcharge might be targeted on imports from countries deemed to engage in widespread and persistently unfair trade practices. In this context, the spotlight is on Japan. Much of Japan's $37 billion trade surplus with the United States is concentrated in sensitive sectors, such as autos, electronics, and capital goods (see Table 8). Japan's propensity to pile up surpluses with almost all its major trading partners, excepting some oil and raw material suppliers (see Table 9), is a long-standing well of acrimony and frustration in international trade relations. Some complaints against Japanese trade policies are simply the predictable litany of foreign competitors vulnerable to Japan's dynamism and technological strengths. Merited or not, however, the political response of Japan's trade partners is vitally affected by perceptions of Japan's own lack of openness to imports and its restrictions on technology transfers. Even where otherwise competitive, many would-be exporters to Japan are frustrated by Japan's resistant cultural attitudes, entrenched domestic interests, traditions of administrative controls, and assorted tariff and nontariff barriers to imports. Japan's tariff structure militates against successful market penetration by nontraditional exports of its Asian trading partners, such as Indonesian plywood and boneless chicken from Thailand. Those nations have other access grievances concerning technology transfers. Nor has Europe resolved its access problems.

U.S. negotiators are currently targeting Japanese import barriers in four areas: telecommunications and satellites; computers and electronics; pharmaceuticals and medical equipment; forest products, pulp, and paper. This last area, in which the United States (and Indonesia) have superior resource endowments, involves tariff walls protecting large numbers of Japanese mills. Their political power inhibits restructuring without compensation.

The other areas all involve non-tariff barriers. These have been fundamental to Japan's strategy for nurturing the commercial success and technological dynamism of what it sees as industries of the future. Seen from abroad, that strategy has depended heavily on "infant industry" protection, often maintained until such time as Japanese firms have secured enough competitive edge to dominate both home and global markets; belated removal of protection has then left minimal opportunities for remaining foreign competitors in the Japanese internal market. Japan now seems to be targeting the same high-technology industries in which the United States finds most promise, industries in which the U.S. trade record is quite liberal with respect to foreign participation, at least when national security considerations are secondary. With reciprocity arguments hardly below the surface, the United States is urging a correspondingly liberal regime upon Japan, taking exception, for example, to Japan's apparent intention to debar foreign ownership interest in NTT, its telecommunications utility—on national security grounds that the British did not find compelling.

Nothing less than a powerful shock—on the order of the Nixon and oil shocks of the 1970s—is likely to jolt Japan into radical reordering of its trade strategy. Its number-two rank among free-world economies now demands that Japan shed a self-image that allows imports of raw materials, but of the fewest foreign manufactures possible. That self-image is deep-rooted in Japan's bureaucracy and society at large. In this light, the just-announced last minute "concessions" on telecommunication, while welcome in themselves, are primarily of symbolic value. They mark no more than a first step toward correcting Japan's huge trade surpluses, globally and vis-a-vis the United States. Heavy and continuing pressure will be needed to change Japanese values and practices in a fundamental way in order to achieve real progress on the trade front. New instruments of pressure may have to be employed. A targeted surcharge on U.S. im-

ports from Japan, for example, would speak volumes. Insofar as it would avoid the binding distortions and irrational incidence of costs and benefits that arise under quotas or "voluntary" restraints, it would be the least protectionist of evils. Moreover, it would not be imposed with protectionist intent. Rather, a substantial targeted surcharge, with standby authority for a still higher levy, could play a highly constructive bargaining role in opening up Japan's sheltered markets and in making a reality of the two-way trade on which a liberal world trade order must ultimately rest.●

TRIBUTE TO SISTER GIOVANNI

● Mr. DURENBERGER. Mr. President, 10 years ago, while a corporate public affairs officer and community volunteer, I first met a 5-foot bundle of energy and commitment known to nearly everyone on the West Side of St. Paul as Sister Giovanni.

Dressed in the traditional black and white habit of the School Sisters of Notre Dame, Sister Giovanni Gourhan was already into her fourth decade of service to her Lord and in her 15th year as director of the Guadalupe Area Project.

I still remember the boundless energy and enthusiasm which she brought to what is now known as one of the Nation's most successful alternative high schools for students who don't make it in the confines of a traditional high school setting.

Just this past week, hundreds of Sister Giovanni's present and former students, coworkers, and other admirers gathered to help celebrate two important anniversaries: 50 years as a School Sister of Notre Dame and 25 years since she founded the Guadalupe Area Project.

Mr. President, to recognize the outstanding contributions made by this amazing woman, I ask that the following article on Sister Giovanni, which was printed recently in the Twin Cities Catholic Bulletin, be printed at this point in the RECORD:

The article follows:

NUN'S "DEALS" WITH GOD AND MARY HAVE SAVED DROPOUTS FOR 25 YEARS

(By Mary Hannernan)

Sister Giovanni Gourhan is teaching science on the last day before Easter vacation with new textbooks which, to her delight, just arrived six months early.

Her class at the Guadalupe Area Project (GAP) looks at pictures of "the lowly little earthworm," as she calls it, a tapeworm, and other creatures of the underground.

Then comic shots of sea animals, and then the starfish, for which Sister diverts from the text—as she has done several times already in the past hour—to relate an anecdote.

It seems someone once had the nerve to say to her that although "there are lots of drop-outs in St. Paul, you're only helping 40 or so" at GAP, an alternative high school for students who don't survive in the mainstream education system.

Sister's reply to the remarks was to tell the story of the starfish, how hundreds of them are washed up on a shore each evening when the tide goes out, and how a man once began throwing them back into the sea to save them from dying from lack of water.

"He was throwing them back one by one and somebody said to him, 'What are you doing that for? There's hundreds of starfish. You can't help them all'," Sister Giovanni said to the students.

But as the man picked up each starfish, "He said, 'It matters to this one. It matters to this one'," she added.

MADE A DEAL WITH THE LORD

Each student that has passed through the halls of GAP matters to the founder, Sister Giovanni, a School Sister of Notre Dame who began the school 25 years ago based on "a deal with the Lord."

"The first one was that if he wants this program to succeed, I'll have to get the green stuff. And he's never let me down," the nun said, grinning. "The other deal I have is with the Blessed Lady. I told her send me the good ones."

By "good ones," Sister Giovanni means skilled teachers, and this year she has eight good ones—five with master's degrees—who teach, in addition to the basic reading, writing and algebra, subjects including linguistics, computer literacy and Spanish.

"They're always thinking about how they can improve their departments. You can't stop them," she said.

25TH ANNIVERSARY APRIL 18

The founder of GAP has recruited other "good ones" for her cause—good students, good staff workers, good volunteers and good friends. In fact, the walls of her assistant Linda Vasquez's office are covered by a painted tree with nearly 500 paper leaves, each bearing the name of a person who has worked for Sister Giovanni.

It is these people who planners hope will come to Sister's anniversary party on Thursday, April 18, marking her 25 years at GAP and her 50 years as a School Sister of Notre Dame.

To celebrate her anniversaries, Sister's friends will be holding a reception beginning at 7 p.m. in the social hall of St. Matthew Church, 507 Hall Ave. in St. Paul.

"She is always involved in everything," according to St. Paul City Councilman Jim Scheibel, who became acquainted with Sister Giovanni 14 years ago while working on the West Side Voice newspaper. "I've never not seen her at a precinct caucus."

Former House Rep. Frank Rodriguez agreed. "Sister always is coming, going or gone."

OBJECTIVES ADMIRED

Rodriguez served with Sister Giovanni on the original board of a federal housing project for the west side of St. Paul which just received funding approval, and worked with her on several other political projects.

"I have always admired her objectives. I don't know if I always agreed with the manner in which she presented them, but she is one of the most enthusiastic persons I have ever worked with," he said.

"If you have a friend in Sister, you have a good one," he added.

And the kids at GAP—her number one project—have her as a lifelong friend. Parole officers as well as parents bring these students in, as an answer to their troublesome lives at home and at their former schools.

"I really love to teach troubled kids," Sister Giovanni said, adding later, "They like it here. They realize they learn here."

Sister Giovanni takes them in, but doesn't coddle them or replay their past sorrows to shame them. She and her staff have few disciplinary problems with the students.

"They (the students) fool around every once in a while, but that's pepper in your soup," she said.

If forced to expel students from GAP, Sister assures them they are not forgotten.

"We don't threaten them here. If we do, we carry it out. If we throw them out, they know I pray for them every day," Sister Giovanni said. "I also told them when I kick the bucket, get in touch with me 'cause I'll be close to him."●

SECURITIES SAFETY AND SOUNDNESS ACT OF 1985

● Mr. DOMENICI. Mr. President, yesterday the Chairman of the Federal Reserve, Mr. Paul Volcker, told the Senate Banking Committee that junk bond investments and other extremely risky or speculative investments are of concern. A few weeks ago, April 23, Federal Reserve Vice Chairman, Mr. Preston Martin, told a House Energy Subcommittee that all federally insured banks and savings institutions should be prohibited from purchasing junk bonds and that the increased use of high-yielding bonds to finance corporate mergers could pose serious risks to the economy.

Mr. Edwin Gray, Chairman of the Federal Home Loan Bank Board, strongly urges measures that would change the current irrational system in which the FSLIC shoulders the new risks of below investment grade bonds. I would like to share with my colleagues some direct quotes from Mr. Gray:

Unfortunately, high-yielding below investment grade bonds are likely to prove most attractive to distressed institutions that need high yields but can least afford losses . . . From the perspective of the institution in question, it represents a "heads I win, tails the FSLIC loses" proposition.

The basic question is whether funds acquired with the aid of FSLIC insurance should be used in a manner wholly unrelated to the home financing mission the FSLIC was expressly created to support . . . public policy questions (are) raised by the role of savings institutions—that is to say, home mortgage lending institutions that enjoy a preferential position in the marketplace deriving from special federal subsidies and other advantages which were expressly fashioned to support a commitment to housing finance—becoming players in the corporate takeover arena.

Below investment grade bonds are a matter of concern because they may be an inherently high-risk investment . . . particularly vulnerable in an economic downturn.

There really are no truly effective ways to hedge the risk of loss from high-yield bond purchases.

While the safety and soundness questions raised by these investments are important, the trend in thrift involvement in the below investment grade bond market also presents a fundamental policy issue regarding the integrity of the entire thrift regulatory structure, and the FSLIC insurance system which undergirds it.

Mr. President, I hope that we will listen to the sage advice of the experts of our regulatory agencies. Let's take the rationale approach and protect accountholders, as well as the taxpayers' money.●

SENATORS' PAY

● Mr. LAUTENBERG. Mr. President, I voted against the Helms amendment to reduce congressional pay by 10 percent, although on other occasions I have supported and voted for proposals to reduce Member's pay. I am as concerned as any Senator about the need to reduce the Federal deficit. This amendment, however, was not a serious proposal for dealing with either the deficit or the pay of Members of Congress.

Last year I voted with 66 of my colleagues to rescind the 3.5-percent increase which had gone into effect on January 1, 1984. More recently, during Budget Committee deliberations on funding for the operations of the Congress and other legislative branch functions, I supported a cut in Members pay. I supported an amendment to cut the legislative branch budget, including pay, by 5 percent. These amendments were serious efforts, reflecting a desire by Senators and Congressmen to share in budget restraint and sacrifice.

In particular, I supported the 5-percent cut when it was considered in the Budget Committee. At a time when I was voting for spending freezes in programs I consider important to the economy and people in my State, I thought it appropriate that Senators also take a pay reduction. I think that the American people are willing to accept cutbacks in valuable Federal programs, if they believe that the cuts are being distributed fairly. All segments of society must share in fiscal restraint. This includes Members of Congress.

The Helms amendment called for a 10-percent cut in Member's pay, twice the reduction originally supported by the Budget Committee. Why did the Senate reject this amendment? Many Members felt it was offered more as a political gesture than as a fiscal measure. More importantly, Members were concerned that this approach might deter outstanding individuals of only moderate means from seeking to serve in this body.

A person should not have to be rich to serve here in the first place. If no one but the affluent can afford to be in the Congress, then the country is illserved. Small businessmen, teachers, lawyers, housewives, people from all walks of life should be able to come to the Congress without bankrupting themselves.

Other belt-tightening measures can be taken to improve administration and management. A General Accounting Office study undertaken at my request found that the executive branch can save $54 million a year by consolidating its payroll systems. That savings alone is 10 times greater than the congressional pay cut proposal of $5 million. Next week, another GAO report I requested will document a waste of hundreds of millions of tax dollars through fraud in HUD programs. These are the issues that should be examined for fiscal restraint. Long-term management improvements will prove more important in our fight to reduce the deficit than short-term political gestures.●

WAUSAU—COMING BACK IN STYLE

● Mr. KASTEN. Mr. President, over the past decade or so, demographers have been decrying the fall of the Midwest by citing its loss of business and population to the Sun Belt due to its supposed inability to adapt to changing times.

Fortunately, not everyone is waiting for the Midwest's demise. As is usually the case, the people of Wisconsin are again at the forefront in showing the rest of the Nation that there is quite a bit of life in America's heartland. Through the imagination and innovation of the people of Wisconsin, some previously "written-off" communities are enjoying a renaissance.

One community that has come back in style is Wausau. In Wausau, the public and private sectors have worked long and hard to polish and improve the community's image. It's no wonder that Wausau was designated as one of 1984's "All American Cities."

I am proud of the people of Wisconsin and Wausau, and I call the attention of my colleagues to an article from the May 1, 1985, Milwaukee Sentinel on how the people of Wausau came together. Mr. President, I ask that the article be printed in the RECORD.

The article follows:

[From the Milwaukee Sentinel, May 1, 1985]

COOPERATIVE THRUST SET IN WAUSAU'S JOB SEARCH

(By John Torinus, Jr.)

WAUSAU.—The City of Wausau and Marathon County have a reputation as a community that pulls together, witnessed by the large-scale renewal of the city's downtown and the development of the east channel of the Wisconsin River as a white water kayak course of international caliber.

The central business district is thriving. And the river channel, once a city eyesore, is the site of annual races that attract significant tourism dollars to the county.

Now, the same kind of partnership efforts that made Wausau an All-American City are being brought to bear on job creation through the Committee of 100, an umbrella organization of business, government and labor interests.

That kind of thrust demonstrates the cooperative approach being mounted in any number of communities around the State. Taken collectively, the efforts represent one of the major reasons for optimism that the Wisconsin economy can be brought back to robust health.

Lane Ware, chairman of the Committee of 100, reminded the members at their annual banquet this week that Marathon County still has an unemployment rate higher than the none-too-attractive state average of 7.6%. He urged the members to be ready to act when called on for a business development project.

The county has had some of the same kinds of plant closings that have affected other parts of Wisconsin, and it has had the same kind of shift from high-paying manufacturing jobs to lower-paying service jobs.

A survey of 15 manufacturers in the county showed their employment had dropped from a total of 9,510 jobs in 1978 to 7,014 in 1983. In the same period, the service and utility sector had an increase from 3,558 to 4,172 jobs.

The Wausau chamber spent three years developing 16 economic strategies to be implemented through Ware's committee. They include: development of ready-to-go, reasonably priced industrial land; lobbying for better transportation system in and out of the county; promotion of tourism; stimulation of greater cooperation among business, government and academia; and expansion and retention of existing businesses.

Wausau leaders are coming to grips with the reality that the American economy is changing rapidly, and that they must change with it. A recent newsletter from the Committee of 100 said:

"The process that companies follow in deciding to move or shut down is seldom scientific. Most companies conditions. It's either intuitive or incident-inspired.

"However, it's change that brings opportunities. We in Marathon County cannot let these opportunities slide by because we're uncomfortable.

"We've got just as much inventive and innovative genius here as there is anywhere. Probably more."

The reservoir of innovation was a major factor in the kayak course project. Most races sponsored by the American Canoe Association are off in the boondocks where it's hard to draw a crowd. The Wausau course has the advantage of being near an attractive community with hotels and restaurants.

Wausau community leaders recognized a market opportunity.

The east channel was unused until about 10 years ago, when a group of white water enthusiasts convinced the Wisconsin Public Service Corp. to open one of its sluice gates so they could have a little fun.

From there it became a community project. Thousands of hours of volunteer work, substantial investment and unending amounts of cooperation were required to bring the course to where it could attract an international event.

The reward was the Pan American Races last year, which drew 10,000 people through two days.

That's not the end, though. The next goal for the Wausau innovators is to bring in a world cup race.

The 10-year effort to build the kayak course is not dissimilar to the kind of effort facing the Committee of 100, or similar organizations in other Wisconsin communities, in their search for new jobs.

As with the unused east channel, Wisconsin has many assets that can be put back to

work with imagination and a collective act of will.●

PERSPECTIVES ON THE HOLOCAUST

● Mr. RIEGLE. Mr. President, the most important message that survivors of the Holocaust have brought us is that the lessons of that tragic chapter in the history of mankind must never be forgotten—that the memory of the horrors of the Nazi death camps, which took the lives of over 6 million Jews must never be erased. For it is only by recalling the mistakes of the past that we ensure against repeating them in the future.

Recently, Americans reflected on the lessons of the Holocaust. On April 18, as part of the statewide commemoration of the Holocaust in Michigan, Dr. Walter Adams, formerly president of Michigan State University, shared his own thoughts on the Holocaust.

I commend Dr. Adams' remarks to the attention of my colleagues, and ask unanimous consent that his speech entitled "Harvest of Hate: Some Perspectives on the Holocaust," be printed at this point in the RECORD.

The speech follows:

HARVEST OF HATE: SOME PERSPECTIVES ON THE HOLOCAUST

(By Dr. Walter Adams)

Forty years ago, almost to this day in April 1945, as the tanks of the U.S. 11th Armored Division rolled into Mauthausen, a German concentration camp about 10 miles outside the Austrian city of Linz, astride a blood-stained river that I once thought of—but never since—as the Blue Danube, we came upon an inferno that would forever leave us with an indelible vision of man's cruelty and an ineradicable smell of putrefying corpses. We found piles of unburied bodies emaciated into bony skeletons. We found animal-like creatures—caricatures of human beings once resembling the image of their divine creator—lying helplessly on filthy, lice-infested sacks of straw, on wooden bunks, amidst the stench and disease of their urine and excrement. We found the half crazed, starved remnants of one of the notorious extermination camps of Nazi Germany, designed not only for the liquidation of European Jewry but for the elimination of Russians, Poles, Yugoslavs, Gypsies—anyone whom the Nazi state considered sub-human. We found captives from practically every conquered nation of Western Europe.

Battle hardened veterans who had fought their way from the Ardennes through Southern Germany into Austria and who thought that they had experienced all the cruelty and misery of modern total war were unprepared for what they found at Mauthausen. Some averted their countenance in horror; others sobbed silently and uncontrollably; others, in sheer frustration, shook their fists to the unresponsive heavens. This was the quintessence of man's inhumanity to man. This, as some of us were to learn later, was the sort of crime that was—and only could be—perpetrated by pathologically criminal individuals with the sanction of criminally bestial laws promulgatd by a criminal state.

Often since that traumatic discovery at Mauthausen, I have pondered how this criminal state came into being. Its origins, I submit—and few analysts would dispute this—can be traced to the convergence of 3 major interest groups: the Nazi party, the army officer corps, and big business—interest groups which under the impact of the Great Depression of the 1930's coalesced into a symbiotically unholy alliance.

The Nazi party—literally the National Socialist German Workers Party—was dedicated to a revival of Imperial Germany's erstwhile glory; to rearmament; to the protection of the common man—the little shopkeepers, the petty tradesmen, the minor clerks and bureaucrats; to the welfare of the industrial workers and the reemployment of the millions of unemployed; and finally to the purification of the German race by the liquidation of Jews and the elimination of their alleged influence in German society.

The army, smarting from its defeat in 1918 and the punitive provisions of the Versailles Treaty, sought to recover its position of dominance in the German state. It wanted to rearm. It sought to reverse the outcome of the "war to end wars."

Big business, for its part, feared the social and economic instability generated by the depression. It wanted to break the power of the trade unions. It wanted to stem what it perceived as the growing tide of Bolshevism. It lusted for the lucrative profits that would come with rearmament and a war economy. It yearned for the authoritarian discipline that only a totalitarian state could assure. It hated the Weimar Republic despite the fact that its successive, nominally socialist administrations had left the wealth and power of big business substantially intact.

The turning point—if there was a single turning point—in the rise of Hitler to power was February 20, 1933. Elections were scheduled for March 5, but the Nazi treasury was near total depletion. Goering, as presiding officer of the Reichstag, invited some 20 leading Ruhr industrialists to a dinner with Hitler. Among those in attendance were the top officials of I.G. Farben, Krupp, Thyssen, and Siemens. Hjalmar Schacht, the financial wizard, acted as Goering's host.

Hitler told the gathering that in backing his dictatorship, they would be backing themselves. "Private enterprise," he said, "cannot be maintained in a democracy." Trade unionism was one of the prime evils of democracy. The Reich, if left to such institutions, would "inevitably fall." The nation needed leadership to bind the German people together under the banner of nationalism and strength. He promised not only to eliminate the communist threat but to restore the Wehrmacht to its former glory. He said he would liquidate the Weimar republic, but to do so he needed their financial support.

Goering then reminded the assembled big business moguls that "the sacrifices asked for will be so much easier to bear if industry realizes that the election of March 5 will surely be the last one for the next ten years, possibly for the next 100 years." Schacht put it more bluntly: "And now, gentleman, pony up!" (Und nun, meine Herren, an die Kasse!)

Krupp von Bohlen rose to thank the Führer and pledge the unanimous support of those present. He contributed 1 million marks. The others chipped in an additional 2 million. With this act, the leaders of big business not only financed the terror election of 1933, but became full-fledged partners of the Third Reich.

Now the beer hall bully-boys and brown shirt thugs could once more be paid. On February 27, 1933, they set fire to the Reichstag, proclaiming that this was the work of the "Reds." With Nazi storm troopers sworn in as special police, tens of thousands of anti-fascists of all stripes were beaten, arrested, tortured, or murdered. With the opposition terrorized, Hitler won the largest number of Reichstag seats (though not a majority) in the March election. Within a few months, the opposition parties were banned and the trade unions broken. Within a year, after the famous blood purge of 1934, Hitler has also eliminated the socialist elements in his own ranks—i.e. those whose who were opposed to the great cartels, to monopoly capitalism, and to the rearmament profiteering of big business. The Nazi victory was complete, and the Ruhr industrialists could join the government in planning for rearmament, territorial expansion, and ultimately WW II.

Although the ultimate cost of this big business support of the Nazi state was a Germany reduced to rubble and ashes and 20 million victims of all nations who died in WW II, the short-run benefits to the Ruhr industrialists were concrete and impressive.

First, rearmament (a top priority of the new Nazi state) meant an immediate and impressive increase in industrial production and profits, especially in the steel, chemicals, and machinery industries. At Krupp, for example, profits after taxes, gifts and reserves increased from 57 million marks in 1935, to 97 million in 1938, to 111 million in 1940. The reason was plain: once more Krupp had found that being German's leading manufacturer of war material was a lucrative business indeed.

Second, German expansionism provided an unparalleled opportunity for plunder in the annexed territories and conquered nations. The Anschluss of Austria and the occupation of Czechoslovakia in 1938, the invasion of Poland in 1939, the defeat of France, Belgium and Holland in 1940, and the subjugation of Denmark and Norway in 1941, were not only military but also economic operations. The cartelists of the Ruhr entered these countries hard on the heels of the German army—their shopping lists at the ready—coercing former cartel partners and competitors alike to sell their properties at bargain basement prices. I.G. Farben was particularly adept at playing the jackal to Hitler's lion. By 1941, through plunder, acquisition, and expropriation, it had gained control of a chemical empire extending from the Barens Sea to the Mediterranean, from the Channel Islands to Auschwitz—an industrial imperium the likes of which the world had never before seen.

Third, after the outbreak of war in 1939, big business was accorded a privileged position in the recruitment of a labor force seriously depleted by the military draft. The obvious answer was forced labor, to be supplied by deportees, prisoners of war, and concentration camp inmates. Krupp put the matter in the bluntest terms. Every party member, he told the Führer, favored liquidation of "Jews, foreign saboteurs, anti-Nazi Germans, Gypsies, and antisocial elements," and Krupp could see no reason these people shouldn't contribute a lifetime of work in the few months before they were dispatched. The Führer agreed, and Gestapo chief Himmler issued the appropriate orders.

And so, new concentration camps were built near old factories in the Ruhr, and new industrial plants were set up near established concentration camps. Krupp, Sie-

mens, and I.G. Farben, for example, built giant industrial complexes near Auschwitz to capitalize on its apparently inexhaustible supply of slave labor.

It was a straight business deal between the industrialists and the S.S. which was in charge of the concentration camps. The S.S. computed the capital value of each inmate at roughly 1630 RM, calculated as follows:

Daily rental charge to industry: 6 RM, Minus: daily rations, 60 PF. Amortized daily clothing cost, 10 PF.

Net proceeds per inmate per day: 5.30 RM, Multiplied by 9 months of service (Thought to be the average survival prospect of the inmates): 1431 RM, Minus disposal cost of the corpse: 2 RM, Plus the personal effects of the deceased (valuables, gold teeth, etc.) 200 RM. Net embodied human capital of the inmate: 1629 RM.

The business relations between the S.S. and the industrialists was obviously of mutual advantage. The S.S. collected sizable sums for its human chattel and the industrialists procured an otherwise unobtainable labor supply. As one I.G. Farben official wrote to the home office from Auschwitz: "Our new friendship with the S.S. is proving very profitable."

Of course, there were problems. Early in the relationship—in August, 1941—an I.G. Farben official complained that the treatment of the Auschwitz prisoners was interfering with productivity: "We have drawn the attention of the officials of the concentration camp to the fact that in the last few weeks the inmates are being severely flogged on the construction site in increasing measure, and this always applied to the weakest inmates who really cannot work harder. The exceedingy unpleasant scenes that occur on the construction site because of this are beginning to have a demoralizing effect on the free workers (Poles), as well as on the Germans. We have therefore asked that they should refrain from carrying out this flogging on the construction site and transfer it to the concentration camp."

A few months later, however, the weekly report from Auschwitz exhibited greater appreciation of the difficult problems faced by the S.S. "The work, particularly of the Poles and inmates, continues to leave much room for improvement. Our experience so far has shown that only brute force has any effect on these people. As is known, the commandant always argues that as far as the treatment of inmates is concerned, it is impossible to get any work done without corporal punishment."

Aside from constant physical abuse, torture, and sadism both by the factory foremen and S.S. guards, the inmates were subjected to systematic starvation. In Auschwitz, at the end of one month, there was a marked change in the prisoner's appearance; at the end of two months, the inmates were not recognizable except as caricatures formed of skin, bones, and practically no flesh; after three months, they were either dead or so unfit for work that they were marked for release to the gas chambers. As two physicians concluded after studying the effects of I.G. Farben's diet at Auschwitz: "The prisoners were condemned to burn up their own body weight while working and—providing no infections occurred—finally died of exhaustion.

A Krupp slave laborer, who survived his ordeal, put it this way: "We were not slaves; our status was much lower. True, we were deprived of freedom and became a piece of property which our masters put to work. But here the similarity with any known form of slavery ends, for we were a completely expendable piece of property. We did not even compare favorably with Herr Krupp's machinery, which we tended. The equipment in the shop was well maintained. It was operated with care, oiled, greased and allowed to rest; its longevity was protected. We, on the other hand, were like a piece of sandpaper which, rubbed once or twice, becomes useless and is thrown away to be burned with the waste." Obviously, neither the S.S. nor Germany's leading industrialists chose to heed Cato's admonition that one's oxen and slaves should always be properly fed.

What, then, are the lessons to be drawn from this 12 year nightmare in German history—from this experiment in totalitarianism which joined the Nazi party, Big business, and the army into a morganatic alliance?

The answer, to the extent that there is an answer, I think, can be found in the wisdom of our Founding Fathers and their distrust of concentrated power. To them, the primary object was to make the state the servant of man rather than man a servant to the power and glory of the state. That is why they insisted that all forms of power be decentralized—that power be scattered into many hands—so that it could be used as an instrument to oppress the individual. They believed, as Walter Lippmann said, "in governments which were under the law, in the rights of man rather than the sovereignty of kings and majorities. They held that the improvement of the human lot was to be achieved by releasing thought, invention, enterprise, and labor from exactions and tolls, from the rule of princes, monopolists, great landlords, and established churches."

The master plan of the Founding Fathers, as embodied in the U.S. Constitution, was not to promote efficiency in government but to create a decentralized power structure, replete with comprehensive checks and balances, which would protect the people from the summum malum: concentration of power and the abuses which inevitably flow from it. This means that powerful interest groups—like the military-industrial complex against which President Eisenhower so eloquently warned—must be prevented from capturing control of the state. It also means that the state—through systematic limitations of its power—must be deprived of the weapons to oppress individual citizens. Finally, it means that the separation of church and state must be uncompromisingly preserved.

As Jefferson put it: "The time to guard against corruption and tyranny is before they shall have gotten hold of us. It is better to keep the wolf out of the fold than to trust to drawing his teeth and talons after he shall have entered."

It is a thought worthy of our prayerful consideration.●

HAROLD C. SCOTT, NEW MEXICO SMALL BUSINESS PERSON FOR 1985

● Mr. DOMENICI. Mr. President, innovation, expansion, and profitability are words that come to mind when one hears about Scott Air, Inc., of Alamogordo, NM. President Harold C. Scott explains the company's beginnings during the oil embargo of 1973. At a time when the failure of small businesses was high, this small company that manufactures air conditioners for buses had no orders, no potential customers, and no financing. Yet the firm remained undaunted. An old schoolbus was purchased and within a weekend's time was painted, refurbished and air-conditioned and took to the road. Within 2 weeks over $100,000 in orders was obtained.

And it has been growing ever since. After capitalizing on the needs of the mass transit system, Scott Air, Inc., in 1974, applied for an SBA loan, and moved to Alamogordo, in 1975. The company reached into new markets in the late 1970's by developing systems for use by small courtesy buses. From a firm of 5 employees and $160,000 in sales, the company now employs 200 and sales exceed $7.5 million. Today, Scott Air, Inc., has substantial control of the large activity bus air systems market in the United States and Canada.

The same dedication to a goal that converted an old schoolbus to $100,000 in order is leading Scott Air into new areas of growth. Taking advantage of the strong U.S. dollar, Scott started planning a Technology Export Program. After many months of negotiations, a joint venture with a Bombay, India based company is underway. Opportunities for collaborating with other third world countries are being explored.

New Mexicans are proud to have Mr. Harold C. Scott as the State's small business person of the year. Sponsored by the Las Cruces, NM, chapter of SCORE, Mr. Scott is an image of what SCORE is all about—dedicated participation with employees. His achievements also exemplify our State's enterpreneurial spirit and represent the dedication and commitment of "America At Work" during National Small Business Week.●

CAPT. JEFFREY H. TUSET

● Mr. DURENBERGER. Mr. President, it is always difficult to discuss the loss of a young and promising life, and that is particularly true in the case of Capt. Jeffrey H. Tuset.

Captain Tuset was one of 17 marines killed in a helicopter crash on Monday off the southwestern coast of Japan. His helicopter crashed while en route to its base in Futemma, Okinawa from the U.S. Marine station at Iwakuni on Honshu Island. An extensive search by United States and Japanese ships and aircraft failed to find any survivors or wreckage.

I think it's important that we know a little about the life that Jeff led and the family that raised him. His parents, John and Nina Tuset, lived for many years in Coon Rapids, just north of Minneapolis. Friends of the Tusets describe them as having been very active in the Coon Rapids community, particularly in their support of sports

programs. One friend characterizes the Tusets as "the kind of regular folks that make a community like Coon Rapids work."

By all accounts, John and Nina passed on this love of life and commitment to community to their three children. The Tusets encouraged their kids to participate in sports. Jeff, born in 1959, especially enjoyed baseball and was good at it, from playing in little league to starring on Coon Rapids High School's team in the mid 1970's. He was a good student—in fact, good enough to get into the U.S. Naval Academy. At Navy, he majored in math and graduated in the top half of his class in 1980. While there, he developed a love for flying. It was this attraction to flying that led him to apply for an officer's appointment in the Marines. Following his graduation, Jeff was assigned first to officers' training school in Quantico and then to flight training school in Pensacola. During this time, he met his future wife, Etta Mae, whom he married in April of 1982. His most recent assignment came in late May of last year in Okinawa. He enjoyed Okinawa and loved the military life which he had chosen as a career.

Captain Tuset leaves behind his wife, Etta, his parents, his brother, John, his sister, Julie, and many, many friends. John Tuset described his brother as "easygoing and outgoing * * * Jeff made friends easily." A close friend described him as "a very bright, beautiful young man." Another characterized him as "a very exceptional young man." Having spoken with some of his friends and family, I know this to be true. Jeff will surely be missed. We are all poorer for his loss.

Mr. President, I ask that articles from the Minneapolis Star and Tribune on Captain Tuset's death be printed into the RECORD.

The articles follow:

ST. PAUL MAN AMONG 17 LOST IN HELICOPTER

TOKYO.—A United States military helicopter carrying 17 Marines crashed into the Pacific Ocean Monday off the southwestern coast of Japan. All those aboard, including a St. Paul man, were missing and presumed dead.

One of the victims was identified as Capt. Jeffrey H. Tuset, 26, of St. Paul.

The cause of the crash, one of the most serious in years during routine operations, was not known.

A Marine spokesman said the aircraft was one of two heavy-duty, twin-engine transport helicopters known as CH-53Ds that were flying from the Japanese mainland to Okinawa at midday. It developed mechanical problems over the ocean, officials said, and turned back toward land. The other craft soon followed.

By then, the first CH-53D was nowhere to be seen. "As I understand it," an American official said, "it just stopped working at about 500 feet above the water, and fell right in."

Those in the second helicopter were said to have spotted only an oil slick. The second craft dropped a blue dye marker and a life raft and summoned help.

American military ships and aircraft were joined by vessels and helicopters from the Japanese Maritime Safety Agency in a search for survivors and wreckage that continued far into the night. Shortly before midnight, 11 hours after the accident, Marine spokesmen said that no survivors or bodies had been found.

"We, of course, consider this a major disaster," Capt. Daniel Trout, a Marine public information officer on Okinawa, said in a telephone interview.

(Tuset entered the U.S. Marine Corps in May 1980 and was assigned to Marine Heavy Helicopter Squadron 462.

(Capt. Mark Hough of Marine Corps public affairs said he was not certain if Tuset was a passenger or member of the crew in the accident.

(A native of Coon Rapids, Tuset played baseball while attending Coon Rapids High School. After graduation, he entered the U.S. Naval Academy.

("He was easy-going and outgoing," said his brother, John Tuset of Eagan. "He made friends easily."

(John Tuset said he had not seen his brother since Christmas of 1983.

(Survivors also include his wife, Etta Tuset of San Diego; parents, John and Nina Tuset of Saudi Arabia; and a sister, Julie Foster of San Francisco.)

All those aboard the helicopter were described as Marines assigned to various units on Okinawa, which was an American territory for 27 years after World War II. It is now Japan's southernmost province, but it remains dominated by U.S. military installations, with 34,000 military personnel.

The helicopters had been flying to their base in Futemma, Okinawa, from the United States Marine station at Iwakuni, on the western end of the main Japanese island of Honshu. The crash occurred at about 1 p.m., nearly three hours after takeoff, at a point 15 miles south of Yakushima, off the large western island of Kyusou.

Because of the distance from U.S. military bases, the first rescue ships at the scene were Japanese, not American. Through the day, the maritime agency assigned at least two vessels and two helicopters to the search, joining American rescue planes flown from an air base at Kadena, Okinawa.

The CH-53, manufactured by Sikorsky Aircraft, a division of United Technologies Corp., comes in several models, including the recent CH-53E, which has three engines. In its many versions, the CH-53 has been involved in other crashes in recent years.

The helicopter that crashed in 1980 during the abortive mission to rescue the American hostages being held in Iran was a CH-53.

In September 1981 five Marines were killed when a CH-53C went down in the Mediterranean. In June 1984 another crashed off the California coast, killing four Marines. In November 1984 a CH-53 caught fire at Camp Lejeune in North Carolina, killing three soldiers.

Early this year an Air Force HH-53, yet another version, crashed near Hawaii as it was trying to aid a Panamanian ship. Six crew members were killed.

MARINE FROM COON RAPIDS DIED DOING WHAT HE LOVED—FLYING

(By Randy Furst)

Jeffrey Tuset, 26, loved to fly, his mother said Tuesday.

Tuset, a graduate of Coon Rapids High School, was the captain of a helicopter that ferried other Marines who were stationed at Okinawa. He was to finish his second six-month tour of duty at the end of May, she said.

Tuset was flying the U.S. Marine helicopter that crashed into the ocean off southern Japan Monday, killing 17 Marines, including Tuset.

"He enjoyed life very much," said Nina Tuset, his mother. "He and his wife had just finished taking diving lessons in Japan. He liked to fish and he liked to hunt. He was just an all-round-type guy."

A memorial service will be held Friday at the Marine Base in Tustin, Calif., where Tuset was based. His wife, Etta Mae, returned there only last week after spending a month in Japan with her husband. They had no children.

The Marine Corps said the crash apparently was due to mechanical failure.

Maj. Tony Rothfork, a Marine Corps spokesman in Washington, said the crew aboard another helicopter saw the rotor blade on Tuset's helicopter turn slower and slower and stop as the aircraft entered the water. No bodies were recovered and the search has been called off, he said.

"All aboard are missing and presumed dead," read a statement issued by the Marine Corps Command on Okinawa.

Tuset was born in Minneapolis and grew up in Coon Rapids.

"He was a good student and a member of the National Honor Society and on the baseball team," said James Rainbow, principal at Coon Rapids High School.

Both of Tuset's parents were in the armed services during the Korean War, his mother in the Navy and his father, John, in the Marines.

Tuset's brother, John, applied to the U.S. Naval Academy, but he broke his kneecap and was ineligible, so Jeffrey decided to apply.

"It was his decision," his mother said. "He came to us and said he was going to do it. We said go for it and he did."

Leonard Koe, Coon Rapids' city attorney, wrote a recommendation, and the application was supported by U.S. Rep. James Oberstar.

"He was one of those all-around boys," Oberstar said yesterday, "both academically superior and concerned about his community. "He had leadership qualities," Oberstar said.

"He really wanted to go to Annapolis," said Leslie McLaughlin, a friend of Tuset's who lives in Minneapolis. "He was really excited when he was appointed."

Tuset was a math major at the academy and graduated in 1980 in the top half of his class. He was commissioned in the Marines.

He chose the Marine Corps rather than the Navy because he wanted to get into the flying program and there were greater flying opportunities in the Marines at that time, his mother said. "His father was in the Marine Corps and that helped," she said.

Tuset went to officers training school in Quantico, Va., and then took his flight training in Pensacola, Fla. He was married in April 1982.

Tuset's parents have been living for the past seven years in Saudi Arabia, where his father works for an oil company. His sister, Julie Foster, lives in Fremont, Calif.

Beverly McLaughlin, Leslie McLaughlin's mother, knew Tuset and the Tuset family and said she was very upset.

"He was a very bright, beautiful young man," she said. "It's just a shame his life would be lost like that."

Jim Phillips, Coon Rapids, had been a neighbor and a close friend of the Tuset family.

"He was like a son," Phillips said of Jeffrey. "We were very, very close. We are very saddened. It was a tremendous shock. He was a very exceptional young man."●

S. 1049—THE AGRICULTURAL FAIR TRADE ACT OF 1985

(By request of Mr. DOLE, the following statement was ordered to be printed in the RECORD:)

● Mr. WILSON. Mr. President, today I rise to discuss S. 1049, the "Agricultural Fair Trade Act of 1985" which I introduced on May 1. I believe that the use of the term "fair" in its title is appropriate for two reasons: First, because the intent of the legislation is to provide a variety of tools to the Secretary of Agriculture and opportunities to agricultural exporters, the collective purpose of which is to achieve fair trade for U.S. farms products; and second, because the scope of the bill goes beyond the basic commodities, which are the traditional focus of Federal farm bills, and includes, in fairness, all of the hundreds of agricultural commodities produced by our Nation's farmers.

In other words, Mr. President, I not only believe that the U.S. Government should adopt and pursue an aggressive trade policy whose objective is to increase our agricultural exports, but that the Federal assistance, contained in my bill, should be available to every farmer throughout our land—whether he grows Kansas wheat or North Carolina peaches, Nebraska rye or California avocados.

Moreover, the export assistance which is contained in my bill will not require an increase in Federal spending and can be achieved within the proposed budget framework.

Previous farm bills, which derived from actions taken in the 1930's in response to the Great Depression, have focused on the basic commodities, such as wheat, corn, and rice. The 1981 farm bill, which was no exception, has provided a degree of stability in our domestic markets; however, its costs have been very high. Loss of foreign markets, rising Federal costs, and accumulation of Government-held stocks have accompanied the 1981 bill. The huge stocks of surplus commodities which developed by 1982 were cut substantially by the "payment-in-kind" program, however, while U.S. farmers reduced their acreage, our worldwide competitors expanded production and took traditional U.S. market shares.

I believe that past farm legislation has failed because it has not adequately recognized that American agriculture must maintain and expand upon export markets. At one time, the United States was less reliant on overseas markets, and we had greater internal freedom to set price supports and production controls without secondary market effects. Today, our price supports form an umbrella for the rest of the world, and our production cuts make room for increased production by our competitors.

The failure of existing farm policy has been compounded by the growth of the Federal deficit and its related impact on the strength of the dollar. Farmers throughout the country know all too well that the value of U.S. currency has increased significantly in recent years and presently constitutes both an import subsidy on foreign-grown farm products with which they compete and an export surtax on their own commodities when they attempt to sell them abroad. I know that each of my distinguished colleagues is well aware of the adverse impact which the strength of the dollar has had upon agricultural businesses within their respective States. In California, for example, my State's agricultural exports have plummeted twice in as many years.

For that reason, I believe that the best farm bill that Congress could enact this year would mention neither farmers nor commodity programs. In fact, the best farm bill has been the focus of the Senate during the past 2 weeks and will continue to be for the foreseeable future. If we can succeed in reducing Government spending and decreasing the Federal deficit, then we will ease pressure on interest rates and the value of the dollar. In my opinion, this is the best program that we can offer to our Nation's farmers.

During the first 4 months of the 99th Congress, a variety of farm bill proposals have been introduced, and I suspect that there are more on the way. While each one differs in its detail, there are recurring themes of market orientation at home and market expansion abroad. I believe that the two elements go hand-in-hand. We cannot devise domestic commodity programs with an eye toward world markets unless the trade provisions of the farm bill can effectively assist our farmers in acquiring fair and competitive access to those international markets. Because it is essential that the 1985 farm bill provides our Government with the requisite tools to assure fair trade opportunities for the American farmer, I have introduced the "Agricultural Fair Trade Act of 1985."

I believe that this legislation is of relevance and importance to any farmer in our county who wishes to export his agricultural products. I know that it will be of assistance to the farmers in my State, which is the Nation's No. 1 agricultural-producing State and ranks in the top three in farm exports. Twenty-eight of California's more than 250 different commodities are dependent upon export markets to absorb over 50 percent of their production. Eleven of these export-dependent crops are grown only in California. One of every 3 acres in my State produces for overseas markets, and nearly 25 cents of each agricultural dollar is derived from export sales.

Yet, as important as export sales are to the farmers in my State, California exports account for less than 10 percent of America's total agricultural exports. Therefore, effective trade legislation, as embodied in my bill, is of significant importance for all of my colleagues representing farm States.

The "Agricultural Fair Trade Act of 1985" contains provisions that will benefit exporters of wheat, cotton, rice, soybeans, and feed grains, as well as growers of fresh fruits, vegetables, and nuts. The production and export of these high-value, horticultural crops are an important component of our Nation's agriculture. They are grown in every State of the Union, excepting Alaska, and amount to approximately 8 percent of U.S. agricultural exports. Until now, they have not been covered in previous farm bills.

Specifically, S. 1049 authorizes the Secretary of Agriculture to extend intermediate export credit guarantees, to target export credit assistance to commodities which have been adversely affected by unfair trading practices, to carry out an export PIK program utilizing any surplus commodities, including horticultural crops, to include processed fruit, vegetable, and nut products in the existing PL 480 Program, and to encourage private, commercial barter activities.

In addition, my bill urges the President to initiate a new round of multilateral trade negotiations which will address and clarify numerous agricultural trade issues arising under GATT. It exempts from cargo preference requirements commercial sales made by USDA under its blended credit program and assures the sanctity of contracts to supply U.S. farm products to foreign purchasers.

S. 1049 requires specific consultations within USDA and with the office of the U.S. special trade representative, as well as with newly-established industry advisory committees, prior to implementing changes in agricultural trade arrangements. Also required is an annual report prepared by our agricultural attaches for submission to the Secretary of Agriculture. The reports will identify agricultural subsidies present in the host countries and market development opportunities for U.S. farm products.

My bill instructs the General Accounting Office to evaluate the feasibility of applying U.S. chemical resi-

due and food sanitation standards on imported food products and to evaluate the appropriateness of applying current data and documentation requirements to agricultural petitioners before the U.S. International Trade Commission. It also provides agricultural producers with standing to petition the ITC for relief when processed products are harmed by unfair trading practices.

My legislation instructs the Secretary of Agriculture to study the feasibility of requiring country of origin labels on imported agricultural commodities and to give agricultural research priority to specific areas, including compliance with foreign plant quarantine requirements and improvement of international distribution methods for perishable products, which will increase export sales of U.S. farm commodities.

Finally, Mr. President, the "Agricultural Fair Trade Act of 1985" authorizes our Government to donate basic or specialty crops to countries willing to reform their agricultural economic policies and to improve their infrastructure. One specific improvement cited in S. 1049 would be the development of storage facilities and a distribution system necessary to import perishable agricultural commodities.

In summary, I want to reiterate that I am an advocate of a "market oriented" farm policy and believe that the 1985 farm bill, which the Committee on Agriculture will begin to mark up next week, should set Government loan rates at levels that reflect world market realities. The artificially high rates of recent years have led to predictable price undercutting by our international competitors, resulting in the loss of foreign markets and the costly expansion of Government-held inventories. In my opinion, any new farm legislation needs to emphasize worldwide market expansion, not producer cutbacks, in order to improve this Nation's image as a reliable supplier of a wide variety of high quality foods and fibers.

It is for these reasons that I have introduced S. 1049, the "Agricultural Fair Trade Act of 1985," and I am gratified to learn that the same legislation will be introduced in the House of Representatives during this week. I hope that the Members of both chambers will act favorably upon it and ask unanimous consent that my full remarks, the text of the bill and a section-by-section analysis be printed in the RECORD.

The material follows:

SECTION-BY-SECTION ANALYSIS, S. 1049, THE AGRICULTURAL FAIR TRADE ACT OF 1985

Section 1. *Purpose:* States that the purpose of the Act is to assist in expanding and increasing foreign markets for U.S. agricultural commodities and the products of such commodities.

Section 2. *Intermediate Export Credit:* Revises the intermediate export credit financing authority as follows—

Authorizes the Secretary of Agriculture to guarantee loans of 3 to 10 years in length that are made to finance export sales of agricultural commodities;

Requires that export sales financed or guaranteed under this provision be made to purchasers from countries that (1) previously received assistance on title I of Public Law 480 and (2) are unable to use other Department of Agriculture short-term export credit programs;

Expands the uses for which export credit financing and guarantees may be made available to include promotion of export sales of agricultural commodities;

Requires the Commodity Credit Corporation to make available not less than $1,000,000,000 for each of the fiscal years 1986, 1987, and 1988 and not more than $1,000,000,000 for each of the fiscal years 1989, 1990, and 1991 for purposes of financing or guaranteeing export sales of agricultural commodities under the intermediate credit provision.

Section 3. *Expansion of Markets for U.S. Agricultural Commodities and Products:* Authorizes the Secretary of Agriculture to establish and carry out an export Payment-in-Kind (PIK) program using surplus commodities that are either in the stocks of the Commodity Credit Corporation, including wheat, feed grains, cotton, rice, and dairy products, or available for purchase by the Secretary with funds from Section 32, including fruits, vegetables and nuts. Also authorizes the Secretary to make available supplemental distribution of U.S. surplus commodities to countries that have utilized receipts from sales of previously received U.S. commodities under this section to improve the handling, marketing, storage and distribution facilities for importing agricultural commodities.

Section 4. *Export Transportation of Agricultural Commodities:* Provides that the cargo preference laws of the United States will not apply to future commercial sales of agricultural commodities made by the U.S. Department of Agriculture under its blended credit program.

Section 5. *Agricultural Trade Negotiations:* Expresses the sense of Congress that the President should initiate a new round of multilateral trade negotiations with U.S. trading partners to (1) strengthen the General Agreement on Tariffs and Trade (GATT), (2) improve the dispute settlement procedures of the GATT, (3) bring agricultural trade issues within the purview of strengthened and more effective GATT rules and procedures, and (4) clarify the intent of and bring uniformity to the interpretation of Article XVI of the GATT, including the subsidies code.

Section 6. *Targeted Export Assistance.* Requires the Secretary of Agriculture to use not less than $325,000,000 of Commodity Credit Corporation funds in each of the fiscal years 1986 through 1988 (or an equal value of CCC-owned commodities) to assist in the export of U.S. agricultural commodities and products that have been adversely affected by price or credit subsidies or unfair marketing arrangements or trading practices employed in connection with foreign agricultural exports. The Secretary is directed to provide export assistance under this section on a priority basis to agricultural commodities and products that have demonstrated unfair trading practices under Section 301 of the Trade Act of 1974. For fiscal year 1989 through 1991, the Secretary is required to use CCC funds or commodities as are necessary to assist in the export of affected U.S. agricultrual commodities and products.

Section 7. *Value-added, Processed and Protein-Fortified Products:* As part of the donation of commodities under the Public Law 480 program, requires the President to consider the advantages to be gained from the donation of processed and protein-fortified products, including processed milk, plant protein products, and fruit, nut and vegetable products, as well as the nutritional needs of the recipients. Also requires the President to take steps to ensure that an appropriate part of the commodities donated under Public Law 480 is in the form of processed and protein-fortified products. Expresses the sense of Congress that the Secretary fund export market development programs for value-added farm products and processed foods at higher levels than during fiscal year 1985.

Section 8. *Barter of Agricultural Commodities:* Requires the Commodity Credit Corporation, to the maximum extent practicable, in consultation with the Secretary of State, to use CCC commodities to barter for strategic and critical materials. Also instructs the Secretary to encourage bartering of agricultural products by U.S. exporters and to provide technical advice and assistance to such exporters upon request.

Section 9. *Contract Sanctity:* Declares that the policy of the U.S. is to foster and encourage agricultural exports and limits any prohibition or restriction of such exports to reasons of national security and only under extraordinary circumstances.

Section 10. *Trade Consultations:* Directs the Secretary of Agriculture to require intradepartmental consultation regarding agricultural trade matters, as well as consultation with the Office of the U.S. Special Trade Representative, prior to relaxation or removal of restrictions on importation of agricultural commodities or products into the U.S. Also requires the Secretary to establish industry advisory committees with respect to specific agricultural commodities, whose purpose is to make recommendations regarding agricultural practices and industry procedures to USDA personnel negotiating trade agreements, trade protocols or trade procedures.

Section 11. *Agricultural Attache Reports:* Directs the Secretary of Agriculture to require appropriate personnel of the Department stationed in foreign countries to prepare and submit an annual report on agricultural subsidies in the host countries and on market development opportunities for the export of U.S. agricutural commodities and products into the host countries. Also instructs the Secretary to compile the annual reports and to make them available to Congress and other interested parties.

Section 12. *Study of U.S. Sanitation Standards for Importation of Agricultural Commodities:* Directs the Comptroller General to study the effectiveness and consistency of current regulations, inspection and enforcement programs regarding the application of chemical residue and food sanitation standards to imported food products and to report to Congress on its finding and recommendations within one year after the date of enactment of this Act.

Section 13. *Import Relief Study:* Directs the Comptroller General to study the appropriateness of the data and documentation requirements of the U.S. International Trade Commission for obtaining relief

against the unfair importation of agricultural commodities and their products and to report its findings and recommendations to Congress within one year after the date of enactment of the Act.

Section 14. *Label of Origin Study:* Instructs the Secretary of Agriculture to study the desirability and feasibility of requiring country of origin labels on imported agricultural commodities and to report his findings and recommendations to Congress within one year after the date of enactment of the Act.

Section 15. *Agricultural Research:* Directs the Secretary of Agriculture to increase and intensify research programs directed at developing technology to overcome barriers to expanded export sales of U.S. agricultural commodities and their products, such as developing procedures to meet plant quarantine requirements and improving transportation and handling of perishable agricultural commodities.

Section 16. *Food for Progress:* Authorizes the Secretary of Agriculture to donate basic or specialty crops to countries willing to reform their agricultural economic policies and improve their infrastructure, including the development of storage facilities and distribution systems necessary to import perishable agricultural commodities.

Section 17. *Processed Agricultural Products:* Amends the Tariff Act of 1930 to allow domestic producers of processed agricultural products and their principal raw agricultural commodity to seek countervailing duties and antidumping remedies before the U.S. International Trade Commission.

Section 18. *Authorization of Appropriations:* Allows appropriations of such sums as may be necessary to carry out this Act.

S. 1049

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Agricultural Fair Trade Act of 1985".

INTERMEDIATE EXPORT CREDIT

SEC. 2. Section 4(b) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)) is amended—

(1) by adding at the end of paragraph (1) the following new sentence: "In addition, the Corporation may guarantee the repayment of loans made to finance such sales.";

(2) in paragraph (2)—

(A) by inserting ", and no loan may be guaranteed," after "financed";

(B) by striking out "or" at the end of clause (A);

(C) by striking out the period at the end of clause (B) and inserting in lieu thereof "; or"; and

(D) by inserting at the end thereof the following new clause:

"(C) otherwise promote the export of United States agricultural commodities.";

(3) by redesignating paragraphs (3) through (9) as paragraphs (4) through (10), respectively;

(4) by inserting after paragraph (2) the following new paragraph:

"(3) Export sales of agricultural commodities financed or guaranteed under the provisions of this subsection must—

"(A) to the maximum extent possible, be made to purchasers from countries that are previous recipients of credit extended under title I of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1701 et seq.); and

"(B) be made to purchasers from countries unable, as determined by the Secretary, to utilize other short-term export credit programs offered by the Secretary or the Commodity Credit Corporation.";

(5) in paragraph (4) (as redesignated by paragraph (3) of this section)—

(A) by inserting "or guarantees" after "financing";

(B) by striking out "and" at the end of subparagraph (C);

(C) by striking out "credit" in subparagraph (D);

(D) by striking out the period at the end of subparagraph (D) and inserting in lieu thereof "; and"; and

(E) by adding at the end thereof the following new subparagraph:

"(E) otherwise to promote the export sales of agricultural commodities.";

(6) in paragraph (5) (as redesignated by paragraph (3) of this section)—

(A) by inserting "or guarantees" after "financing"; and

(B) by striking out "to encourage credit competition, or";

(7) in paragraph (6) (as redesignated by paragraph (3) of this section)—

(A) by inserting "(A)" after the paragraph designation;

(B) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively; and

(C) by adding at the end thereof the following new subparagraph:

"(B) Contracts of guarantee under this subsection shall contain such terms and conditions as the Commodity Credit Corporation shall determine.";

(8) by inserting "or guarantees" after "financing" in paragraph (7) (as redesignated by paragraph (3) of this section);

(9) in paragraph (8) (as redesignated by paragraph (3) of this section)—

(A) by inserting "or guarantee" after "finance" each place it appears; and

(B) by inserting "or guarantee" after "financing" in subparagraph (B);

(10) by inserting "or guaranteed" after "financed" in paragraph (9) (as redesignated by paragraph (3) of this section); and

(11) by inserting at the end thereof the following new paragraph:

"(11) For purposes of financing or guaranteeing export sales under this subsection, the Commodity Credit Corporation shall make available—

"(A) no less than $1,000,000,000 for each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988; and

"(B) no more than $1,000,000,000 for each of the fiscal years ending September 30, 1989, September 30, 1990, and September 30, 1991.".

EXPANSION OF MARKETS FOR UNITED STATES AGRICULTURAL COMMODITIES AND PRODUCTS

SEC. 3. (a) Notwithstanding any other provision of law, the Secretary of Agriculture may formulate and carry out a program under which agricultural commodities, including but not limited to wheat, feed grains, upland cotton, rice, and milk, and the products thereof, acquired through price support operations by the Commodity Credit Corporation, and any other agricultural commodities that are determined by the Secretary of Agriculture to be in surplus supply and that can be purchased with funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c), are provided to United States exporters and users and foreign purchasers at no cost to encourage the development, maintenance, and expansion of export markets for United States agricultural commodities and the products thereof, including value-added or high-value agricultural products produced in the United States.

(b) In carrying out the program authorized by this section, the Secretary of Agriculture shall—

(1) take such action as may be necessary to ensure that the program provides equal treatment to domestic and foreign purchasers and users of United States agricultural commodities and the products thereof in any case in which the importation of a manufactured product made, in whole or in part, from a commodity or the product thereof made available for export under this section would place domestic users of the commodity or the product thereof at a competitive disadvantage;

(2) to the extent that agricultural commodities and the products thereof are to be provided to foreign purchasers during any fiscal year, consider for participation all interested foreign purchasers, giving priority to those who have traditionally purchased United States agricultural commodities and the products thereof and who continue to purchase such commodities and the products thereof on an annual basis in quantities greater than the level of purchases in a previous representative period;

(3) ensure, insofar as possible, that any use of agricultural commodities or the products thereof made available under this section be made in such manner as to encourage increased use and avoid displacing usual marketings of United States agricultural commodities and the products thereof; and

(4) take reasonable precautions to prevent the resale or transshipment to other countries, or use for other than domestic purposes in the importing country, of agricultural commodities or the products thereof made available under this section.

(c)(1) If a foreign purchaser sells in the importing country agricultural commodities or the products thereof received from the Secretary of Agriculture, under the authority of this section, and uses the receipts from the sale of such commodities or the products thereof for the construction or rehabilitation of facilities in the importing country to improve the handling, marketing, storage, or distribution of United States agricultural commodities or the products thereof in such importing country, such purchaser shall be eligible to receive supplemental distributions of agricultural commodities or the products thereof under this section.

(2) Supplemental distributions under this section shall be made with such commodities or the products thereof, at such intervals and in such amounts as the Secretary determines appropriate, taking into account—

(A) the extent to which facility improvements have been made,

(B) the capability of the importing country to distribute or otherwise use additional commodities or the products thereof, and

(C) such other factors as are determined appropriate by the Secretary that are consistent with the purposes of this section.

(d) The Secretary of Agriculture shall carry out the program authorized by this section through the Commodity Credit Corporation.

(e) The Secretary of Agriculture may issue such regulations as the Secretary deems necessary to carry out this section.

(f) The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary of Agriculture or the Commodity Credit Corporation under any other provision of law.

EXPORT TRANSPORTATION OF AGRICULTURAL COMMODITIES

SEC. 4. (a) Except as provided in subsection (b), section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) and the Joint Resolution of March 26, 1934 (48 Stat. 500, 46 U.S.C. 1241-1) (commonly referred to as the "cargo preference laws") shall not apply to export activities of the Department of Agriculture or Commodity Credit Corporation under which commercial credit guarantees are blended with direct interest-free credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities and the products thereof.

(b) This section shall not apply to any export activity undertaken to carry out any agreement entered into prior to the date of enactment of this Act.

TRADE NEGOTIATIONS

SEC. 5. (a) Congress finds that—

(1) open and fair trade is essential to economic growth and prosperity in the world today;

(2) unfair trade practices of many countries have had adverse effects on exports of United States agricultural commodities, United States producers, and the international trading environment;

(3) many of these practices have been predatory in nature and constitute gross violations of free and fair trade principles;

(4) such unfair trade practices include export price subsidies, export credit subsidies, predatory marketing arrangements, and tariff and nontariff trade barriers;

(5) such unfair trade practices distort market signals, add volatility to the trading environment, increase government expenditures, inhibit economic development abroad, and discourage or prohibit the importation of United States agricultural commodities and the products thereof;

(6) the United States trading system is the most open in the world, as is evidenced by the continuing merchandise trade deficits of this country;

(7) all other major grain producing nations have refused to join the United States in attempts to reduce surpluses of agricultural commodities, and such nations have, in fact, taken advantage of United States efforts by increasing production of major agricultural commodities;

(8) the United States holds and stores a disproportionate level of supplies of agricultural commodities in time of surplus;

(9) the United States world market-share in the case of many agricultural exports has been reduced as a result of unfair trade practices;

(10) in order to establish market oriented domestic farm policies in the United States, American producers must be assured of equity in the international trading environment;

(11) more effective rules governing international agricultural trade must be established to provide greater market access for all countries and to curb the use of export subsidies that have hindered agricultural exports of the United States and other countries; and

(12) failure to find multilateral and bilateral solutions to international trade problems, the most desirable form of trade conflict resolution, will increase the likelihood of unilateral action on the part of the United States to protect American markets and producers.

(b) It is the sense of Congress that the President should, at the earliest practicable time after the date of enactment of this Act, initiate a new round of multilateral trade negotiations with the trading partners of the United States for the purposes of—

(1) strengthening the General Agreement on Tariffs and Trade (GATT) in a manner that promotes a more open and fair world trading system;

(2) improving the dispute settlement procedures of GATT such that industries suffering from unfair trade practices will receive more expeditious relief and that affected contracting parties will abide by the decisions reached under GATT;

(3) bringing agricultural trade issues within the purview of strengthened and more effective GATT rules and procedures; and

(4) clarifying the intent of and bringing uniformity to the interpretation of Article XVI of GATT.

TARGETED EXPORT ASSISTANCE

SEC. 6. (a) For export activities authorized to be carried out by the Secretary of Agriculture or the Commodity Credit Corporation, the Secretary of Agriculture shall use—

(1) for each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988, not less than $325,000,000 of funds of, or an equal value of commodities owned by, the Corporation; and

(2) for each of the fiscal years ending September 30, 1989, September 30, 1990, and September 30, 1991, such funds of the Corporation as the Secretary deems necessary or an equal value of commodities owned by the Corporation.

(b) The funds or commodities specified in this section shall be used by the Secretary for export assistance only in connection with agricultural commodities or the products thereof (1) which are determined by the Secretary of Agriculture to be in surplus supply in the United States and for which price support is made available under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.), or (2) for which exports have been adversely affected, as determined by the Secretary, by price subsidies, credit subsidies, or unfair marketing arrangements or trading practices used by other countries in connection with their agricultural exports.

(c) The Secretary shall provide export assistance under this section on a priority basis in the case of agricultural commodities and the products thereof with respect to which there has been a favorable decision under section 301 of the General Agreement on Tariffs and Trade (GATT).

VALUE-ADDED, PROCESSED, AND PROTEIN-FORTIFIED PRODUCTS

SEC. 7. (a) Section 201 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721) is amended by adding at the end thereof the following new subsection:

"(c) In distributing agricultural commodities under this title, the President shall—

"(1) consider—

"(A) the nutritional assistance to recipients and benefits to the United States that would result from distributing such commodities in the form of processed and protein-fortified products, including processed milk, plant protein products, and fruit, nut, and vegetable products;

"(B) the nutritional needs of the proposed recipients of the commodities; and

"(C) the purposes of this title; and

"(2) take all feasible steps to ensure that an appropriate portion of such commodities distributed each fiscal year be in the form of processed and protein-fortified products.".

(b) Subclause (B) of section 1207(a)(5) of the Agriculture and Food Act of 1981 (7 U.S.C. 1736m(a)(5)(B)) is amended to read as follows: "(B) funding an export market development program for value-added farm products and processed foods at a higher funding level than that provided during the fiscal year ending September 30, 1985; and".

BARTER OF AGRICULTURAL COMMODITIES

SEC. 8. (a) Section 4(h) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714b(h)) is amended—

(1) in the fourth sentence—

(A) by striking out "is authorized," and inserting in lieu thereof "shall, to the maximum extent practicable, in consultation with the Secretary of State, and"; and

(B) by striking out "to";

(2) in the fifth sentence, by striking out "normal commercial trade channels shall be utilized and priority shall be given" and inserting in lieu thereof "the Secretary shall: (1) use normal commercial trade channels; (2) take action to avoid displacing usual marketings of United States agricultural commodities and the products thereof; (3) take reasonable precautions to prevent the resale or transshipment to other countries, or use for other than domestic use in the importing country, of agricultural commodities used for such exchange; and (4) give priority";

(3) in the seventh sentence, by striking out "Secretary of the Treasury" and inserting in lieu thereof "Administrator of General Services"; and

(4) by inserting after the seventh sentence the following new sentence: "If the volume of petroleum products (including crude oil) stored in the Strategic Petroleum Reserve is less than the level prescribed under section 154 of the Energy Policy and Conservation Act (42 U.S.C. 6234), the Corporation shall, to the maximum extent practicable, with the approval of the Secretary of Agriculture, and in consultation with the Secretary of Energy and the Secretary of State, accept petroleum products (including crude oil) produced abroad in exchange for agricultural commodities acquired by the Corporation and shall transfer the petroleum products, without reimbursement, to the Secretary of Energy to be placed in the Reserve.".

(b)(1) The Secretary of Agriculture shall encourage United States exporters of agricultural commodities and the products of such commodities to barter such commodities and products for foreign products needed by such exporters.

(2) The Secretary shall provide technical advice and assistance relating to the barter of agricultural commodities and the products of such commodities to any United States exporter who requests such advice or assistance.

CONTRACT SANCTITY

SEC. 9. It is hereby declared to be the policy of the United States—

(1) to foster and encourage the export of agricultural commodities and the products of such commodities;

(2) not to restrict or limit the export of such commodities and products except under the most compelling circumstances;

(3) that any prohibition or limitation on the export of agricultural commodities or the products of such commodities should be imposed only for reasons of national security and not for reasons of foreign policy; and

(4) that contracts entered into before the imposition of any prohibition or limitation

on the export of agricultural commodities or the products of such commodities should not be abrogated except under extraordinary circumstances.

TRADE CONSULTATIONS

SEC. 10. (a)(1) The Secretary of Agriculture shall require consultation between the head of the Foreign Agricultural Service and the heads of other appropriate agencies and offices of the Department of Agriculture, including the Administrator of the Animal and Plant Health Inspection Service, before relaxing or removing any restriction on the importation of any agricultural commodity or the product of any such commodity into the United States.

(a)(2) The Secretary of Agriculture shall consult with the United States Special Trade Representative before relaxing or removing any restriction on the importation of any agricultural commodity or the product of any such commodity into the United States.

(b)(1) The Secretary of Agriculture shall establish an advisory committee composed of three persons to advise, and make recommendations to, personnel of the Department of Agriculture who are to negotiate trade agreements, trade protocols, or trade procedures with the government of a foreign country with respect to a specific agricultural commodity or class of agricultural commodities or with respect to a specific product of an agricultural commodity. The Secretary shall appoint persons to any such advisory committee from the private sector who represent the interests of the agricultural industry concerned with such agricultural commodity, class of commodities, or product.

(2) The Secretary of Agriculture shall require personnel of the Department of Agriculture assigned to negotiate trade agreements, trade protocols, or trade procedures with the government of any foreign country with respect to a specific agricultural commodity or class of agricultural commodities or with respect to a specific product of an agricultural commodity to consult with the advisory committee established under paragraph (1) regarding agricultural practices and industry procedures before concluding any agreement with any foreign government on any agricultural trade matter pertaining to such agricultural commodity, class of commodities, or product.

AGRICULTURAL ATTACHÉ REPORTS

SEC. 11. (a) The Congress hereby finds—

(1) that aggressive trading practices on the part of foreign competitors are eroding the sale of United States agricultural commodities and the products of such commodities in traditional foreign markets of the United States and are inhibiting the expansion of sales of such commodities and products in other foreign markets;

(2) that export subsidies by foreign governments have severely undercut the sale of United States agricultural commodities and products in Third World country markets; and

(3) that accurate, adequate, and current data on the nature and extent of such subsidies has not been readily available to appropriate United States officials or to affected agriculture sectors in the United States.

(b) The Secretary of Agriculture shall require appropriate officers and employees of the Department of Agriculture stationed in foreign countries to prepare and submit annually, directly to the Secretary, detailed information documenting the nature and extent of programs in such countries that provide direct government support for the export of agricultural commodities and the products of such commodities. The Secretary shall also require such reports to identify opportunities for the export of United States agricultural commodities and the products of such commodities to the foreign countries in which the officers and employees are stationed.

(c) The Secretary shall compile the information contained in the reports each year and make such information available to the Congress and to other interested parties.

STUDY OF UNITED STATES SANITATION STANDARDS FOR IMPORTATION OF AGRICULTURAL COMMODITIES

SEC. 12. (a) The Comptroller General of the United States shall conduct a study of Food and Drug Administration standards that are currently in effect for imported food and agricultural products with a view to evaluating the effectiveness of such regulations and inspection procedures of the Food and Drug Administration to detect prohibited chemical residues and foreign matter in or on raw agricultural commodities and in packaged or prepared food products.

(b) The Comptroller General shall include in such study an analysis of the consistency of the Department of Health and Human Services and Department of Agriculture regulations prescribing food sanitation requirements and chemical residue standards for imported agricultural commodities and products and the adequacy of the procedures to enforce such requirements.

(c) The Comptroller General shall submit a report containing the results of the study to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives within one year after the date of the enactment of this Act together with such recommendations for administrative or legislative action as he considers necessary or appropriate.

IMPORT RELIEF STUDY

SEC. 13. (a) The Comptroller General of the United States shall conduct a study and evaluation of the data and documentation requirements of the United States International Trade Commission for obtaining relief against the importation of agricultural commodities and the products of such commodities, including relief under the so-called escape clause of title II of the Trade Act of 1974 (19 U.S.C. 2251 et seq.) and under the antidumping and countervailing duties provisions of section 303 and title VII of the Tariff Act of 1930 (19 U.S.C. 1303; 1671, et seq.).

(b) The Comptroller General shall submit a report containing the results of such study and evaluation to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives within one year after the date of the enactment of this Act together with such comments and recommendations as he considers appropriate. The Comptroller General shall also make the report available to all other interested parties.

LABEL OF ORIGIN STUDY

SEC. 14. The Secretary of Agriculture shall conduct a study to determine the desirability and feasibility of requiring all imported agricultural commodities and the products of such commodities to bear a label stating the country of origin of such commodities and products. The Secretary shall submit a report containing the results of such study to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives within one year after the date of the enactment of this Act together with such comments and recommendations as the Secretary may consider appropriate.

AGRICULTURAL RESEARCH

SEC. 15. The Secretary of Agriculture shall increase and intensify research programs conducted by or for the Department of Agriculture that are directed at developing technology to overcome barriers to expanded sales of United States produced agricultural commodities and the products of such commodities in foreign markets, including research programs for the development of procedures to meet plant quarantine requirements and improvement in the transportation and handling of perishable agricultural commodities.

FOOD FOR PROGRESS

SEC. 16. Section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431) is amended by adding at the end thereof the following new subsection:

"(d) Notwithstanding any other provision of law—

"(1)(A) In order to use the food resources of the United States more effectively in support of countries that have made commitments to introduce or expand free-enterprise elements in their agricultural economies through changes in commodity pricing, marketing, input availability, distribution, and private sector involvement, commodities and the products thereof acquired by the Commodity Credit Corporation, which the Secretary determines meet the criteria specified in subsection (a), may be furnished by the Secretary to carry out agreements entered into by the President under paragraph (2) of this subsection.

"(B) Not more than 500,000 metric tons of commodities may be furnished under this subsection in each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989.

"(C) The Commodity Credit Corporation may purchase agricultural commodities and the products thereof for use under this subsection if—

"(i) the Commodity Credit Corporation does not hold stocks of such commodities and the products thereof, or

"(ii) Commodity Credit Corporation stocks are insufficient to satisfy commitments made in agreements entered into under this subsection and such commodities and the products thereof are needed to fulfill such commitments.

"(D) No funds of the Commodity Credit Corporation in excess of $30,000,000 (exclusive of the cost of commodities) may be used to carry out this subsection unless authorized in advance in appropriation Acts.

"(2)(A)(i) The President may enter into agreements with developing countries to furnish commodities and the products thereof made available under paragraph (1) of this subsection to such countries to promote the implementation of private, free-enterprise agricultural policies for long-term agricultural development.

"(ii) Such commodities shall be furnished under this subsection on such terms and conditions as the President deems are in the public interest and will promote the objectives of this subsection. Agreements may provide for commodities to be furnished on a multi-year basis.

"(B) In determining whether to enter into agreements with countries for the furnish-

ing of commodities under this subsection, the President shall consider whether a potential recipient country—

"(i) is carrying out, or is committed to carry out, policies that promote economic freedom, private, domestic production of food commodities for domestic consumption, and the creation and expansion of efficient domestic markets for the purchase and sale of such commodities, including policies that may provide for—

"(I) access, on the part of farmers in such country, to private, competitive markets for their products;

"(II) market pricing of commodities to foster adequate private sector incentives to individual farmers to produce food on a regular basis for the domestic needs of the country;

"(III) establishment of market-determined foreign exchange rates;

"(IV) timely availability of production inputs, such as seed, fertilizer, or pesticides, to farmers;

"(V) access to technologies appropriate to the level of agricultural development in the country; and

"(VI) construction of facilities and distribution systems necessary to handle perishable products; and

"(ii) is able to use the amount of commodities being considered for donation without disruption of the internal market of the country for domestically produced agricultural commodities and products.

"(3) An agreement entered into under this subsection shall prohibit the resale or transshipment of the donated commodities to other countries.

"(4) In entering into agreements with countries for the donation of commodities under this subsection, the President shall take reasonable precautions to avoid displacement of any sales of United States agricultural commodities that would otherwise be made to such countries.

"(5)(A) The provisions of section 203 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1723) shall apply to commodities furnished under this subsection.

"(B) The cost of the commodities furnished under this subsection, and the expenses incurred in connection with furnishing such commodities, shall be in addition to the level of assistance programmed under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.) and may not be considered expenditures for international affairs and finance.

"(6)(A) The President shall carry out the duties imposed on the President under this subsection through the National Security Advisor in the Executive Office of the President.

"(B) The National Security Advisor, with the approval of the Secretary, may use personnel of the Department of Agriculture in carrying out this subsection.

"(7) Section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) and the Joint Resolution of March 26, 1934 (48 Stat. 500, 46 U.S.C. 1241-1) (commonly referred to as the 'cargo preference laws') shall not apply to any export activity authorized under this subsection.

"(8) Within one hundred and twenty days after the close of each fiscal year in which an agreement entered into with a country under this subsection is in effect, the President shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the status of such agreement and the progress being made to implement private, free enterprise agricultural policies for long-term agricultural development in such country.

"(9) This subsection shall be effective during the period beginning on October 1, 1985, and ending on September 30, 1989.".

PROCESSED AGRICULTURAL PRODUCTS

SEC. 17. (a) Section 771(4) of the Tariff Act of 1930 (19 U.S.C. 1677(4)) is amended by adding at the end thereof the following new subparagraph:

"(E) SPECIAL RULE FOR PROCESSED AGRICULTURAL PRODUCTS.—

"(i) IN GENERAL.—In the case of a processed agricultural product, the term 'industry' means—

"(I) the domestic producers of such product; and

"(II) the domestic producers of the principal raw agricultural commodity which is a part of such product (as determined on the basis of the volume or value of such commodity produced), but only if producers of such raw agricultural commodity allege that they are materially injured, or threatened with material injury, by reason of the imports concerned.

"(ii) PROCESSED AGRICULTURAL PRODUCT DEFINED.—For purposes of clause (i), the term 'processed agricultural product' means any product of farm, forest, or fishery which has undergone processing beyond that customarily required to prepare such product for marketing in such product's natural form.".

(b) Notwithstanding any other provision of law, any petition for relief under section 702 or section 732 of the Tariff Act of 1930 which was filed before the date of the enactment of this Act may be refiled under such section.

AUTHORIZATION OF APPROPRIATIONS

SEC. 18. There are hereby authorized to be appropriated such sums as may be necessary to carry out this Act.●

SOVIET HUMAN RIGHTS TREATY VIOLATIONS IN AFGHANISTAN

● Mr. HUMPHREY. Mr. President, our Nation and the world has just passed an historic landmark, the 40th anniversary of V-E Day in Europe. As part of our commemoration of the events and significance of that day, President Reagan visited the death camp at Bergen-Belsen, West Germany on May 5, where 64,000 people died by murder, torture, starvation, and disease.

In his speech at the wreath-laying ceremony at this camp, the President declared, "Beyond the anguish, the pain, and the suffering and for all time, we can and must pledge: Never again."

This moving and entirely appropriate response to the horror of the Holocaust will only have meaning if we keep that pledge. But unfortunately, despite our good intentions and many efforts to prevent it, the Holocaust is still with us—in Afghanistan today, where the Soviet Union is attempting to eliminate this ancient and free people from the face of the Earth and to destroy utterly their country.

Since 1945, there have been many attempts to prevent the repetition of the terrible crimes against people that occurred in the Nazi death camps, through the drafting of human rights and laws of war documents: The Geneva Conventions of 1949, the United Nations Universal Declaration of Human Rights of 1948, the Genocide Convention of 1948, the Helsinki accords of 1975, among others.

The Soviet Union, a signatory to each of these documents, is also a violator of each and every one of them in its planned extermination of the nation of Afghanistan, where it is employing the same tactics of murder, torture, starvation, and disease that were used in the Nazi death camps.

In an attempt to heighten our awareness of the continuing holocaust in Afghanistan, I intend to submit on a regular basis examples of violations of Soviet human rights treaties. We must face this new holocaust before it is too late and take concrete action to honor our pledge of "never again."

One of the foremost human rights documents is the Geneva Conventions of 1949, which was ratified by the Soviet Union in 1954. Article 3 to all four of the conventions prohibits the following acts against persons taking no active part in the hostilities: "Violence to life and person, in particular murder of all kinds, mutilation, cruel treatment and torture."

"The Report on the Situation of Human Rights in Afghanistan" prepared for the United Nations Commission on Human Rights by Mr. Felix Ermacora and submitted on February 12, 1985, states that according to eyewitnesses, there has been a planned campaign against civilians in violation of article 3 for the purpose of eliminating the population or driving them out of the country.

Mr. President, I ask that a section of the aforementioned report, entitled "Bombardment and Massacre of Civilians," appear in the RECORD.

The section follows:

REPORT ON THE SITUATION OF HUMAN RIGHTS IN AFGHANISTAN; UN COMMISSION ON HUMAN RIGHTS

BOMBARDMENT AND MASSACRE OF CIVILIANS

Eye witnesses told the Special Rapporteur of alleged massacres of civilians during the bombardment of villages. According to these witnesses, such acts were part of a deliberate policy, especially over the last two years, to force the people to take flight. In this connection, one witness declared that the country's economy had been completely destroyed by the systematic bombing of rural areas housing about 85% of the population, and in fact occupied by the resistance and regarded as liberated zones.

Situations were brought to the notice of the Special Rapporteur concerning the bombing of refugees escaping from Afghanistan into Pakistan. For example, 300 families on their way to Pakistan had been bombed in the village of Ghagheharan in the province of Ghowr in October 1984.

The Special Rapporteur heard allegations concerning massacres, and he feels it neces-

sary to draw the attention of the Commission by way of examples, to the following alleged cases:

a. On September 13, 1982, approximately 105 persons were killed in the village of Padkhwab-e-Shana in the province of Logar, including 61 victims from the village itself. In the course of an infantry operation in the village, the population, consisting of children, old people and a few combatants, took fright and hid in an underground channel used for irrigation (Karez). To dislodge them, troops poured a whitish liquid mixed with white powder into three outlets of the channel and set fire to it. Charred and decomposed bodies were brought out by the villagers. The corpses were said to include 12 children;

b. On October 12, 1983, in the villages of Kulchabat, Bala Karz and Mushkizi in the province of Kandahar, 360 persons were executed in the village square, including 20 girls and about 20 old people;

c. In March 1984, several hundred civilians were massacred in the villages of Dash-e-Bolokhan and Dash-e-Asukhan in the Kohistan region;

d. In November 1984, some 40 civilians were massacred in the village of Zirvq situated in the Urgun region after two weeks of steady bombardment. According to the witnesses, several houses were destroyed and the cattle decimated.●

NATIONAL DOWN SYNDROME MONTH

● Mr. D'AMATO. Mr. President, I rise today to join as a cosponsor of Senate Joint Resolution 40 introduced by my good friend and distinguished colleague, the senior Senator from Indiana. This resolution would designate the month of October 1985 as National Down Syndrome Month.

Down Syndrome is a genetic defect that causes mental retardation and is often associated with certain distinctive physical characteristics. Approximately one out of every 1,000 children is born with Down Syndrome. Medical researchers are aware that the defect occurs when one extra chromosome is attached during gestation of the fertilized egg. There is presently no known cure and this disease can strike anyone regardless of genetic or social background.

The Federal Government has responded to the needs of the handicapped, but much more needs to be done. We must improve upon our two pronged approach of providing assistance to those affected with Down Syndrome and the continuation of extensive research into this tragic disease.

Individuals born with the genetic disability have realized much improvement in the quality of life in the last two decades. Increased public sensitivity to the unique problems of educating and mainstreaming people has positively influenced teaching methods and facilities for people afflicted with Down Syndrome. This public awareness has also made available new and diverse special programming while personal and occupational therapy have enabled Down Syndrome victims to live longer and more productively.

It is my strong hope that the gains we have made in caring for sufferers of Down Syndrome will continue as we make inroads into the causes and possible prevention of Downs Syndrome in the future. For this momentum to continue, there must be public awareness and support. I urge my colleagues to join me as a cosponsor of Senate Joint Resolution 40.

BITBURG

● Mr. BIDEN. Mr. President, the visit to Bitburg is officially over, though in some ways it will not be over for many years. When I spoke on this floor prior to the President's departure for Germany, I joined 75 of my colleagues in passing a resolution that called for him to cut Bitburg out of his itinerary. He ignored our request, bipartisan though it was, and he ignored the entreaties of millions of Americans, not all of them Jews.

When I spoke in this Chamber 3 weeks ago, I was concerned about the distorted message that the Bitburg visit would convey to the generations responsible for the future. I had in my mind a photograph: It is a picture of the President of the United States standing in a cemetery that contains graves of Nazi troopers, the notorious Waffen SS. The caption under the photograph explains that the President has just laid a wreath at this cemetery. And the photograph and caption appear in a history book, a history book that one of my children, perhaps a grandchild, is holding in front of me. And they will ask me a simple question: "Why?".

I have no answer to that question, Mr. President. And when I spoke on April 26, I explained why I could not answer that question. It was wrong to go to Bitburg, and I cannot and will not, now or ever, try to imagine some rational explanation for the President's decision.

But I find now that I have an additional concern. It was not enough that President Reagan even journeyed to that cemetery. I now find out, for Americans who traveled to Germany at the same time as the President, that people who had survived the Holocaust while many of their loved ones did not, were actually prevented from attending the ceremonies at the Bergen-Belsen concentration camp site, or even merely voicing their sentiments at the Bitburg gravesite.

At Bitburg, at the main crossroads of the small town, policemen with antiriot shields confronted an advancing crowd of Jews, many of them wearing the badge that accompanied their parents and their grandparents to their deaths: The six pointed yellow star bearing the word Jude. Others were kept far from the cemetery by the fences that had been erected around the town. The New York Times reported that the area declared off limits to demonstrations was enlarged by a jittery White House advance team. This was done even though permits for demonstrations were apparently not being issued anyway.

The scene at Bergen-Belsen was even more disturbing. Hundreds of West German policemen, with our own Secret Service agents at their side, sealed off the camp the night before the visit. One infuriated American rabbi, Rabbi Avraham Weiss of the Hebrew Institute in the Riverdale section of the Bronx, accused the White House of having ordered the West German police to seal the camp and bar Jews from protesting. One man, a 71-year-old survivor of Bergen-Belsen, was prevented from his weekly visit to the memorial—an act he has performed every Sunday since he was liberated in April 1945.

Mr. President, I am sensitive to the demands of security for the President of the United States. But I am concerned that in this case, the excuse of security was employed to expand the sealed off areas—and thereby to preserve the neat television imagery. And I am outraged that someone like Dimitri Pluchator, a survivor of Bergen-Belsen, was stopped from visiting the memorial, a ritual he has observed for 40 years of Sundays.

Norbert Blum, the West German Minister for Social Affairs, is reported to have approved the physical removal of some protestors with the words, "Quiet is important; dignity must prevail." If this administration does not realize that dignity can never prevail when the very people who suffered at these sites are prevented from participating in ceremonies 40 years later, then I am afraid that the moral amnesia, which is responsible for this trip in the first place, is far, far deeper than any of us imagined.

It would have been difficult for me to answer the child who asks me why the President went to Bitburg. It is impossible to explain why survivers and their children were not allowed at Bergen-Belsen. "It would have ruined the TV pictures" is the honest answer, and that is no answer at all for the 50,000 who died at Bergen-Belsen or for the millions who were a part of their suffering.●

ORDERS FOR TUESDAY, MAY 14, 1985

ORDER FOR RECESS UNTIL 2 P.M. TUESDAY, MAY 14, 1985

Mr. DOLE. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until 2 p.m., Tuesday, May 14.

The PRESIDING OFFICER. Without objection, it is so ordered.

NO ROLLCALL VOTES ON TUESDAY

Mr. DOLE. Mr. President, for the information of the Senators here, there will be no Monday session of the Senate next week, and there will be no rollcall votes on Tuesday unless it is a procedural matter beyond 5 p.m.

ORDER FOR RECOGNITION OF SENATOR PROXMIRE

Mr. DOLE. Further, Mr. President, I ask unanimous consent that following the two leaders under the standing order on Tuesday, there be a special order in favor of the Senator from Wisconsin [Mr. PROXMIRE] for not to exceed 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR PERIOD OF ROUTINE MORNING BUSINESS

Mr. DOLE. Following the special order just identified, Mr. President, I ask unanimous consent there be a period for the transaction of routine morning business not to extend beyond 3 p.m. with statements therein limited to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

SENATE SCHEDULE

Mr. DOLE. Following routine morning business, Mr. President, it will be the intention of the majority leader to begin consideration of Calendar No. 84, S. 960, foreign aid authorization, and possibly turn to Calendar No. 47, S. 408, small business authorization.

RECESS UNTIL 2 P.M. ON TUESDAY, MAY 14, 1985

Mr. DOLE. Mr. President, there being no further business to come before the Senate, I move that the Senate stand in recess until 2 p.m. on Tuesday, May 14.

The motion was agreed to, and at 3:44 a.m. the Senate recessed until Tuesday, May 14, 1985, at 2 p.m.

51-059 O-86-12 (Pt. 9)

EXTENSIONS OF REMARKS

A HOLOCAUST SURVIVOR'S LETTER TO THE PRESIDENT

HON. GARY L. ACKERMAN
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. ACKERMAN. Mr. Speaker, I rise today to bring to the attention of my colleagues in the U.S. House of Representatives a letter written to President Reagan by Mr. Charles Feldman, who resides in my congressional district, in Rego Park, NY.

Mr. Feldman survived the Holocaust, although many of his family members did not. He wrote to the President several weeks ago, urging him not to visit the Bitburg military cemetery in Germany, where 49 of Hitler's elite SS stormtroopers are buried.

Mr. Speaker, this letter is unlike any I have ever read. Today is May 9, and President Reagan has been to Bitburg. But I bring Charles Feldman's letter to the attention of the Members of this body because we cannot afford to forget the atrocities of the Holocaust or who its true victims were.

The President has equated the SS guardsmen with the millions of innocent people butchered in Nazi death camps. Like many of us, Charles Feldman differs with the President. He saw Nazis shoot down entire families lined up in front of freshly dug graves. He was forced to load the dead and half-dead bodies of his friends and neighbors and their children into mass graves. He lived through the nightmare known as the Holocaust, and he does not equate the Nazi murderers with the children, adults, and elderly who were marched into gas chambers or firing squads.

In his letter, which follows, I have deleted the names of the victims he speaks of, to protect their families and friends still alive who may be unaware of the episodes Mr. Feldman recounts.

Mr. Speaker, it is not easy to read this letter, but I urge all of my colleagues to do so. It certainly was not easy to write, and Mr. Feldman is to be congratulated for his courage.

APRIL 23, 1985.

DEAR MR. PRESIDENT: The furor which your forthcoming trip to Germany has evoked has finally prompted me to put down on paper a true story which I have been carrying inside for the past 42 years.

In the Fall of 1942 (end of September/beginning October) I was in the Zwolin Ghetto. The Nazis made an announcement that all Ghetto inhabitants were to assemble in the market square at a certain hour, bringing with them a small valise with personal belongings. Anyone not appearing as ordered would be hunted down and shot. As soon as this announcement was made, all the Jews in the Ghetto panicked. We were so tightly boxed in that no one could possibly escape without notice. I had Polish non-Jewish papers (forged, of course), but even so I could not escape from the Ghetto.

On the day everyone had been ordered to congregate in the market square a great panic broke out because Germans began shooting and terrorizing everyone haphazardly, just for the fun of it. When order was restored and the people were standing in the market square, the Ghetto was strewn with dead bodies and the streets were full of blood. The Germans organized the tens of thousands of Jews into lines and marched them out of the Ghetto and the town to a train station called Garbatka where they were herded and packed like cattle into train cars and sent to Treblinka. Ten members of my immediate family were among those sent away at that time.

While the people were marching, the Germans were shooting at them. How do I know this? Before the people were formed into lines to be marched away to the train station, the Germans picked out about 65 of 70 strong young men and kept them to one side. I was among them. After all the other Jews has been taken away from the Ghetto, we young men were still waiting in the market square, wondering what our fate would be and why we had been left behind.

Suddenly, from out of nowhere came a small child—a pretty, blond, girl aged about 4 or 5 years—clutching a piece of bread and an apple. She ran over to a young man in our group whom she recognized as being a neighbor from her town. She called out to him, . . . (his name) and ran to him, crying, "where is my Mama and Papa?". The man, . . . told her to go away, and he gave her a gentle push. The child went, but came back a little while later to Sumer. Again he gently pushed her away, but she continuously kept returning to him because she had nowhere else to go and no one else to go to.

Soon we found out why we had been kept back from marching with the others. The Germans ordered us to clean up the Ghetto and remove the dead bodies and take them for communal burial in a nearby cemetery. We rounded up about 150 bodies and took them to an already prepared communal grave, and threw them in. The little girl accompanied us all the time.

When I came up to the grave I saw several bodies already lying on the edge—not thrown in. These were people who had been caught outside the Ghetto, were marched back into the Ghetto and taken alive to the grave and had then been shot. One of these people was a man I knew from my home town—a neighbor by the name of . . . He was still alive but was unable to move. He recognized me and called my name. I could hardly recognize him as he had been shot and was covered with blood. He asked me if I knew anything about his parents, and said he couldn't die without knowing what had happened to his family. But I could not stand talking to him because the Germans were watching and I had to go back and pick up more bodies from the Ghetto.

Finally our task was finished and the last of the dead had been thrown into the grave. The little girl was still accompanying us. Then one of the guards picked up his rifle and aimed it at her, and fired. He missed, so he fired again, this time hitting her. She fell on the edge of the mass grave; her body motionless, ready to be thrown in with the rest.

I learned from the man she called . . . that this child was from a wealthy Jewish family who had entrusted her to a Polish non-Jewish family. They had paid with everything they had for this Polish family to keep and hide their child, but apparently after the parents had been sent out of the Ghetto the child was left to fend for herself.

Surprisingly enough we 70 young men were not killed and buried in that mass grave. The Germans kept us to clean up the Ghetto and help them remove all the Jews' belongings from the empty Ghetto houses. This took a few weeks. During that time on a particular afternoon I saw a wagon pulled by two horses and being driven by two Polish policemen whom I knew well, pass by the Ghetto. In the wagon was a young woman and a small child. The woman was . . ., a girl from my home town who I knew, and the child was her son. She spoke to me and said she and the little boy (not more than two years old) had been caught hiding, and she asked if I knew where she was being taken. I knew that she was being taken to Gestapo headquarters. However, as the wagon did not stop there was no opportunity for me to have any conversation with her. But I knew anyway what her fate would be.

Included in the 70 young men who had been kept for the clean-up work were a few Jewish policemen. One of them, the leader, was a man we had nick-named . . . As he was the lead and in close contact with the Gestapo to receive orders for us I asked him if he could help this mother and child. He told me there was nothing he could do to save them, and that in all probability they would both be shot. Then I asked him if he could arrange for me to be the one to bury them and say a quiet prayer for them, and he agreed.

The next day another prisoner and I went to dig a grave for this mother and her baby boy. We had nearly finished it and I was still in the hole when I heard movement above and a voice yelling at me in German, "hurry up, hurry up". I climbed out and saw . . . and the baby together with two civilian non-Jews and a Gestapo officer, whose name I knew was Heidt. When she saw me and the newly-dug grave, . . . became hysterical and began screaming to me that I should tell the world and her family what was happening. Then the German, Heidt, shot her dead and shot the baby in the neck. He then ordered me to bury them and I started first with . . . because her son was still alive. All the while I was silently reciting Kaddish, the memorial prayer for the dead, for her, but was loath to cover the child while he was still alive and I took my time. This did annoy Heidt and he began to kick the child and stomp him, crying out at him, "you cursed Jew, you don't deserve an-

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

other bullet, I'll finish you off with my boots". And he did!

This is the first time I have related this story—which is just a part of what happened to me during the 66 months and 7 days I suffered during the Holocaust. I was herded from concentration camp to concentration camp, including the infamous Buchenwald, as well as several slave labor camps, and can recall many more harrowing experiences.

I have occasionally seen . . . sisters, . . . who are still alive and live in . . . New York, and I did see her brother . . . before he passed away two years ago, but I was unable to mention the story of . . . to any of them.

I have such a feeling of guilt, that is why I have been silent for over 40 years. But, hearing you speak on television last week and listening unbelievedly to you equate the SS men buried at Bitburg with my fellow Jews who were so horrendously put to death during the Holocaust, pushed me to let you know exactly how I feel. I just cannot be silent any longer, and I suppose I should thank you for your insensitivity which has made me speak up at last.

Mr. President, I regard your office with great admiration and esteem, because I feel that you represent all of the American people. As my President, as President of the thousands of Holocaust survivors and their families who are American citizens, as President of the hundreds of thousands of United States servicemen who imperiled and gave their lives to fight the maniacal Nazi regime, and as President of a freedom-loving, compassionate nation which has, through its social policies given new meaning to the very word "humanity", I sincerely implore you to now rise above political expediency. The cancellation of your plan to visit the cemetery at Bitburg will once again affirm the unique place of the United States of America among all nations in its persistent search for morality, human rights and individual dignity.

Respectfully,

CHARLES FELDMAN.●

ROSALIE CARTWRIGHT HONORED

HON. GENE CHAPPIE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. CHAPPIE. Mr. Speaker, it is with great pleasure and pride that I am able to honor Mrs. Rosalie Cartwright today. Mrs. Cartwright is a first grade teacher from Durham Elementary School in California, and she will be retiring this year after 35 years of outstanding and dedicated service. Mrs. Cartwright has served as a model to her fellow colleagues, as well as to future teachers.

Mr. Speaker, Rosalie's dedication is exemplified by the long hours she puts in to help a child who may be struggling in school, or the extra time she spends to look for new ways to further challenge her students. If all teachers had the skills, dedication and love for kids that Rosalie has, our country's schools would rank higher than those of any other country. As a result of her outstanding teaching abilities, Rosalie earned the honor of the 1983 Durham Elementary School Teacher of the Year.

Mrs. Cartwright is well-respected and active in her community. In fact, it was her contributions toward the improvement of Durham, that moved her peers to name her "Woman of the Year" in 1984. Through her contributions she has instilled in her students the need for community service, participation in Government, and education.

Mr. Speaker, it is an understatement to say that Mrs. Rosalie Cartwright's presence will be missed in the halls of Durham Elementary School. I am proud to know, however, that unlike many who have passed through various work places, Rosalie will leave behind her a legacy of love, patriotism, and goodness. Rosalie, through her magical teaching touch, has enriched many lives. Her style and dedication is a challenge to us all.●

PROVIDING HUMANITARIAN AID FOR CENTRAL AMERICA

HON. FREDERICK C. BOUCHER

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BOUCHER. Mr. Speaker, during the debate on aid to the Contra forces in Nicaragua, I supported the Barnes-Hamilton proposal, which I believe would have provided the parameters for an effective U.S. policy toward Nicaragua.

The question of aid to the Contras apparently has not been put to rest. It appears that the failure of this body to approve an alternative plan and the untimely visit of Nicaraguan President Daniel Ortega to the Soviet Union are causing some Members who earlier opposed the Michel proposal for direct aid to the Contras to rethink their positions. While I share the dismay of many of my colleagues about Mr. Ortega's Moscow visit, I am also concerned that we may be led to respond to the visit by adopting a faulty policy of direct support for the Contras.

This Congress has an obligation to protect America's security and to enhance the security of our Latin American allies.

We can ensure that the Nicaraguan revolution is not exported beyond its borders by supporting the promising negotiations of the group of Contradora nations. This effort is our best hope of promising long-term Central American security in a way that is consistent with U.S. treaty obligations.

As we anticipate another round of debate on direct aid to the Contras, I would like to draw the attention of my colleagues to a statement signed by the executives of eight private and voluntary organizations. This statement sets forth the generally agreed-upon definition of humanitarian aid and may help to lend greater precision to our continuing discussions.

A STATEMENT ON THE NATURE OF HUMANITARIAN ASSISTANCE BY U.S. PRIVATE AND VOLUNTARY ORGANIZATIONS

As a contribution to the appropriate framing of discussions of humanitarian aid, we as American private and voluntary organizations wish to state our views on the nature of humanitarian assistance and on the safeguards needed to protect its integrity in complex situations.

1. Under the Geneva Conventions, which have come to provide the established international understanding of humanitarian assistance, only civilians and not combatants have a claim on such aid. While there may be difficulty in certain circumstances in distinguishing between the two, providing humanitarian assistance to a military force is a contradiction in terms.

2. The Geneva Conventions recognize the role of third-party governments in assuring the rights of persons to humanitarian aid only in the case of such governments as are recognized as neutral by the parties to a conflict. The difficulties inherent in conflict situations have created problems for individual governments seeking to provide aid bilaterally and have resulted in greater reliance on the International Committee of the Red Cross and other impartial intergovernmental and non-governmental organizations whose activities are also recognized by the Conventions.

Such organizations are required by the Conventions to meet the following tests for humanitarian assistance: That the aid be provided strictly on the basis of need; that the aid be offered impartially to both parties; and that the organization provide guarantees of efficacy based on proven experience, independence from parties to the conflict, and recognized authority in the international community.

We believe that, particularly in complex and highly politicized situations, international organizations such as the International Committee of the Red Cross and the United Nations High Commissioner for Refugees offer the best hope of delivering assistance in non-political fashion to those in need. Their role needs protection and encouragement.

3. In international custom and convention, therefore, humanitarian aid is fundamentally aid which is provided because people are in need, not to accomplish certain political objectives. It is inconsistent with the nature of humanitarian assistance to condition its provision on achieving a ceasefire or on bringing warring parties to the negotiating table.

4. On many past occasions the U.S. government has provided humanitarian aid to those in need. We hope and expect this long and proud tradition to continue. In situations in which the U.S. government is not accepted as neutral by both parties to a conflict, U.S. bilateral assistance, even if provided exclusively through its disaster, refugee, or development offices, can hardly meet the international test of impartiality.

5. Similarly, American private and voluntary organizations such as ours have provided, and plan to continue to provide, humanitarian assistance as an expression of the concerns of private contributors. In doing so, many of us have used and will continue to use resources provided by governments, including the U.S. government.

Given the difficulties we frequently face in providing humanitarian assistance in highly conflictual situations, governments need to take special care not to compromise the impartiality of private agencies, expatriate or indigenous alike. We would also point out that just because an organization calls itself "private" and is channelling contributions from American citizens to people in other countries, its work does not thereby necessarily qualify as humanitarian.

6. Finally, we support the generous provision of humanitarian assistance by the United States through appropriate channels to refugees wherever they are in need.

Bob Ainsworth, Director, World Vision Relief Organization.

Norman E. Barth, Executive Director, Lutheran World Relief.

Asia A. Bennett, Executive Secretary, American Friends Service Committee.

J. Richard Butler, Executive Director, Interim, Church World Service.

Chris Cartter, Africa Program Coordinator, Grassroots International.

W. Eugene Grubbs, Executive Director, Interchurch Medical Assistance, Inc.

Peter Gubser, President, American Near East Refugee Aid, Inc.

John Hammock, Executive Director, Oxfam America.

Alden R. Hickman, Executive Director, Heifer Project International, Inc.

James MacCracken, Executive Director, Christian Children's Fund, Inc.

Theodore Wilde, Executive Director, Board of World Mission of the Moravian Church.●

QUOTA CLUB OF CORNING-PAINTED POST, NY, ASSISTS HEARING IMPAIRED

HON. STAN LUNDINE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. LUNDINE. Mr. Speaker, today, I have the honor of announcing a special occasion in my district. The Quota Club of Corning-Painted Post, NY, a nonprofit service organization of business and professional women, is spreading out across its own local district to raise money for the hearing impaired. The International Quota Club has proclaimed this week "Shatter Silence" week and made a concerted effort to raise our consciousness and understanding about those who suffer from deafness, hearing difficulties and speech impairments.

We in Congress can learn a valuable lesson from this group's efforts because they do not merely seek to remind us of those disadvantaged by hearing impairments, but also try to educate us about the problems that these fellow Americans must face daily. In a time when we are constantly thinking about budget numbers, it is also important to remember the implications of these numbers. I hope we all make an effort to better understand the implications of our rhetoric. I commend the local Quota Club for their diligent efforts:

QUOTA CLUB OF
CORNING-PAINTED POST,
April 17, 1985.

Representative STANLEY N. LUNDINE,
Rayburn House Office Building,
Washington, DC.

DEAR MR. LUNDINE: Again this year we would like your support in proclaiming "Shatter Silence" week, May 6-12th for the Quota Club of Corning-Painted Post.

As you are aware, Quota is a non-profit service organization of business and professional women dedicated to the service of the hearing and speech impaired. Through "Shatter Silence" week we hope to create an understanding of deafness and hearing and speech impaired through our activities.

This is a world wide appeal through International Quota Clubs to raise funds for the hearing impaired. We are making a concentrated effort on May 9th. We will be located in various areas for contributions, all to be donated to the hearing impaired through our District 17.

We would appreciate your support in proclaiming the week of May 6-12th as "Shatter Silence" week and helping us to truly Shatter Silence.

Thank you in the name of Quota.

Sincerely,

JOSEPHINE WARREN,
Shatter Silence Chairman.●

WE SHOULD ENACT H.R. 445, TO PERFORM THE PRICE-ANDERSON ACT

HON. JOHN F. SEIBERLING

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. SEIBERLING. Mr. Speaker, this year the Congress must address the issue of what reforms are necessary in the Price-Anderson Act. I am very pleased that the House Interior and Insular Affairs Committee has scheduled hearings on this important issue for the first week of June.

First enacted in 1957 when the nuclear industry was in its infancy, the Price-Anderson Act placed a temporary $560 million limit on total liability for an accident occurring at a nuclear powerplant or during the transportation of nuclear materials, regardless of the number of people injured or the severity of the injuries or property damage. As more nuclear plants have become operational, the limit has increased to $620 million.

However, this temporary limit is still on the books after 25 years of inflation, and despite the fact that the industry is now mature. If the Three Mile Island accident had been more serious, the Federal Insurance Administration has estimated that property loss alone could have come to $17 billion. The Price-Anderson Act probably would have prevented many people from recovering more than a few pennies on the dollar for their damages.

Uncertainties remain about the chances of a major accident occurring at a nuclear powerplant. But it is certain that in the case of a major nuclear accident, the Price-Anderson Act forces the public to bear the burden of paying for whatever damages go beyond the arbitrary $620 million liability limit. I have introduced legislation, H.R. 445, which would remove this outdated limit on liability. Removing this limit would improve safety consciousness in the nuclear industry, and it would help provide adequate compensation to victims of a nuclear accident. I think that the following letter to the editor of the New York Times expresses the concerns of the public that reform of the Price-Anderson Act is absolutely necessary this year.

NUCLEAR INDUSTRY ACCOUNTABILITY

To the Editor:

More than 25 years after the first commercial nuclear power plant began generating electricity, the Nuclear Regulatory Commission still can't determine with certainty the chances of a meltdown ("By 2005, Nuclear Unit Sees 50-50 Chance of Meltdown," news article, April 17). One commission estimate states that over 20 years, the crude probability of such an accident is 45 percent, yet one commissioner estimates the risk between 6 percent and 99 percent.

The consequences of severe accidents also remain uncertain. Many analyses predict that some accidents could result in little or no release of radiation, while others could result in hundreds of billions of dollars in personal injury and property damage. Although the nuclear industry contends that the health effects of nuclear accidents are overstated, a recent study by a panel of scientists ("Scientists Question Studies on Nuclear Accidents," Feb. 24) concluded that several more years of review are necessary before estimates can be reduced for how much radiation would be released in a nuclear accident.

In the midst of this uncertainty, one point is clear. The public, not the nuclear industry, bears the burden of these risks. If an accident releasing large amounts of radiation occurs, damages suffered by victims of the nuclear accident could go uncompensated. Under the Price-Anderson Act, the nuclear industry is responsible for only about $620 million in damages. The financial consequences of a catastrophic accident at Indian Point 3, 25 miles north of New York City, have been estimated by a Government study at more than $300 billion.

No one, not even the Federal Government, is required to provide a single penny beyond the Price-Anderson limit. The Price-Anderson Act leaves the public unprotected and subsidizes the nuclear industry by shielding it from responsibility for its actions.

This year, Congress will consider the renewal of the Price-Anderson Act—which expires in 1987. The real questions should not be when, or how often, serious nuclear accidents will occur. Rather, Congress should be asking how to prevent these accidents, and if they do occur, how to compensate victims for damage to life and property.

Removing the Price-Anderson Act liability limits would both increase safety incentives and help insure public compensation. It is time that the burden of the risks and uncer-

tainties be shifted off the backs of individual citizens and onto the nuclear industry.

Consumer Lobbyist,
U.S. Public Interest Research Group.●

KEN BRAUN: A FRIEND AND A LEADER

HON. JACK F. KEMP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KEMP. Mr. Speaker, one of America's greatest strengths is its allegiance to the rule of law—law that is made by and for the people.

Our respect for the law is, to a large degree, engendered by the men and women who enforce it. We know what can happen to a country where the enforcers of the law exceed reasonable limits and punish the citizenry with excesses of every kind.

Yet, where there is respect of law by those who administer it, a society becomes not only well protected but ever appreciative of the law and those who are bound to uphold it.

Erie County has been truly blessed because for the past 9 years it has had a sheriff who epitomizes the very best in law enforcement. Kenneth Braun began his career in law enforcement 35 years ago. Several months ago, he decided to retire from his current post as Erie County Sheriff at the end of this year.

I have no doubt that there will be many tributes to Ken Braun as he completes his tenure in office—and deservedly so.

His awards, citations, and honors are many and distinguished. This soft spoken gentleman will humbly deny the significance of these designations but everyone in western New York knows better. Ken Braun is and always will be a model by which excellence in law enforcement is measured. He is a Sheriff's Sheriff.

On the occasion of his 35th year in law enforcement, I extend my warmest regards to Ken Braun and his family on behalf of the grateful people of Erie County. We wish him godspeed, and I am honored to call him a friend.●

JAMES MARKHAM CELEBRATES 30 YEARS IN RADIO

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. LEWIS of California. Mr. Speaker, I would like to take this opportunity to ask my colleagues to join with me, family and friends in honoring a truly remarkable man, Mr. James R. Markham. This year marks the 30th anniversary of Jim's outstanding participation in the radio business.

For the last 4 years, Markham has been doing an exceptional job for Best Communications, Inc. As vice president/general manager for Best, Markham's responsibilities covered four broadcast properties: KWG, Stockton; KWGF, Stockton; KNTF, Ontario; and KCKC, San Bernardino. His administrative expertise and creative management skills have helped to make Best's stations some of the leading stations in the area.

Jim's broadcast career began in 1956 when he worked as chief engineer for WAPL in Appleton/Green Bay, WI. At the same time, young Markham doubled as an air personality. His fascination with radio and the media grew from there. He worked in many radio stations across the country, from Hudson, NY, to Honolulu, HI, before he settled down in the San Bernardino area. In 1964, Jim went to Hong Kong for a year to work as director of engineering for Trans World Media, Inc. There he designed and built studios and installed two 10-kilowatt transmitters in Hong Kong and Macau, Asia.

In 1966, Jim returned to the United States and became an account executive for KMEN in San Bernardino, CA. From that point, Markham's career skyrocketed into administration and management, leading him to his present position at Best and culminating a 30-year involvement in radio.

An active community leader, Jim holds memberships in the San Bernardino Sister City League, the Louisville Foundation for the Arts, the Inland Empire Cultural Foundation, he is the president of the Inland Empire Broadcasters, a board member of the Inland Empire Basketball Officials Association, and in 1977, was chosen Boss of the Year by the American Business Women Association.

As the current general manager for KCKC in San Bernardino, Jim has demonstrated respect and admiration for the station's owner, Jerry Smaltz. Smaltz' foresight in purchasing the station and constructing its new headquarters in the heart of the Inland Empire is to be congratulated.

Mr. Speaker, I have always been filled with pride by the accomplishments of the people of my district. Jim Markham is another example of the kind of dedicated, hard working and professional citizens I represent. I am sure that the people of California's 35th District would agree that James Markham is a caring man, one who deserves to be recognized for his outstanding contributions to his community, his State, and the Nation.●

CAMBODIA: HUMANITARIAN, NOT MILITARY, AID

HON. JIM LEACH

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. LEACH of Iowa. Mr. Speaker, when the House considers H.R. 1555, the foreign aid authorization bill, I plan to offer an amendment to strike section 206 which authorizes military assistance for the non-Communist Cambodian resistance and to substitute instead an authorization for humanitarian aid to the non-Communist Cambodians.

This issue is one of profound philosophical as well as practical implications. All Americans concerned with events in Indochina are sympathetic to the cause of the non-Communist Cambodians. However, it is not enough to conclude a cause is just. An assessment must also be made that U.S. involvement advances just goals. The first premise is met in the proposal by the House Foreign Affairs Committee to provide military aid to the non-Communist Cambodians; the second remains unproven.

Accordingly, in the strongest possible terms I would urge this body to reconsider whether military aid is justified at this time. It is my view that it may prove unconscionably costly in the toll exacted on human lives and from a geostrategic perspective it may prove to be tragically counterproductive. That conclusion, Mr. Speaker, is based on a number of considerations.

First, the need for U.S. military assistance has not been demonstrated to Congress. A recent letter to the House Foreign Affairs Committee from the Department of State reads in part:

> It is our understanding that the non-communist resistance is being provided with all the military equipment it can effectively absorb at this time. We do not believe, therefore, that it is necessary or appropriate for the United States to give weapons to the resistance now.

Second, U.S. military aid, no matter how small, will inevitably alter the indigenous character of this resistance movement and elevate it another notch to the level of a superpower confrontation.

Third, it is hard to believe that $5 million in military-oriented aid will really make a difference in the ability of the resistance to counter the world's third largest army. But while such publicly committed assistance is nowhere near enough to make much of a dent in the struggle, it is clearly more than enough to invest the national reputation and military prestige of the United States in an operation over which we have virtually no control.

Fourth, even the pledge of token U.S. military assistance at this point will raise unrealistic expectations among the resistance forces that the United States is committed to provide ongoing and increasing levels of military aid.

Fifth, and perhaps most tragically, the injection of a U.S. military component into the Cambodian struggle might provoke an unprecedented backlash by the Vietnamese forces against the resistance. U.S aid could in effect become an invitation to the genocide of the very people with whom we sympathize most. It may also invite Vietnamese aggression against Thailand, through whom, it is proposed we funnel U.S. military aid.

Sixth, ASEAN has taken the lead in this regional conflict and ought to continue to do so. The United States has demonstrated its awareness that it is in our national interest to promote the strength and stability of ASEAN by providing security assistance to various ASEAN member states for their national defense. The United States has no need to prove anything in this regard, and certainly not by reinvolving itself directly in Cambodia.

Seventh, U.S. military aid might hurt—rather than help—the prospects for a negotiated settlement. The Washington Post on April 2, 1985, quoted State Department spokesman Bernard Kalb as saying:

> U.S. supply of weapons to the resistance could create difficulties in reaching a negotiated settlement and in sustaining international support for the Cambodian cause by highlighting Cambodia as a U.S.-Vietnam conflict.

We do not need to give Vietnam an even greater rationalization to fight in Cambodia, nor should we happily welcome even the remotest possibility of associating ourselves once again with a failed venture against the Vietnamese Communists.

Eighth, it is ill-advised to provide economic support funds for military use when the policy, now in law, is to bar the use of economic aid for military purposes. It is also a dangerous precedent to provide aid through a third entity—in this case, Thailand—because the United States then loses sovereign control over how such aid is used.

Ninth, it is fantasy to believe the fledgling democratic resistance to the Vietnamese occupation will not be dominated by Pol Pot's forces. Yesteryear's war criminals are alive and well in Southeast Asia and despite high-minded desires to the contrary, there is no way at this time for the democratic resistance to avoid complicity with Khmer Rouge atrocities when they are in tactical alliance.

Tenth, there has not been reflected, to my knowledge, any great understanding in the American public that Congress is giving serious consideration to a military—albeit through support of proxy forces—reinvolvement in Indochina. I have grave doubts that the public would be enthused about such a policy and if Congress cannot commit the United States to aid of a determinative magnitude for the long haul, caution would seem, the wiser course. It is better to head off an explosive entanglement early than late.

The initiative for the change in U.S. policy regarding military assistance to the Cambodian resistance, presented by the House Foreign Affairs Committee, comes from the subcommittee of jurisdiction, with the initial opposition of the administration. Subsequent to subcommittee and full committee markup, the administration gingerly welcomed the approach of the committee but the language used by the administration reflected obvious misgivings.

It would appear that the committee put the administration in a catch-22. If it failed to give a sympathetic response to this congressional initiative, it might appear that it was undercutting the non-Communist forces. If it acceded to the committee fully, it risked reinvolvement in Indochina in ways that neither it nor the public seemed prepared to accept. Hence it chose the language of welcoming the Solarz initiative, but without abandoning its stated concerns about providing military assistance at this time. It was an understandable response but one that neither side in this debate should take as vindication for its policy approach.

While supporters of military assistance would argue that we cannot forever be paralyzed by our experiences in Indochina, skeptics can rightfully suggest that neither should we attempt to assuage our national guilt over our past involvement in Vietnam by embarking on a new military venture without a clear definition of the national interest involved and an equally clear concensus among the executive branch, the legislative branch, and the American public that the proposed course of action is in that interest.

A couple of weeks ago, a conservative administration disregarded the importance of law, domestic as well as international, in pressing Congress to provide military aid to the Nicaraguan Contras. It lost. Now, a liberal Congress may be prepared to disregard history in pressing the Executive to provide military aid to the non-Communist forces in Cambodia. It, too, should lose.●

MISSISSIPPI FARMER KEEPS VOW TO EDUCATE HIS CHILDREN

HON. WEBB FRANKLIN

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. FRANKLIN. Mr. Speaker, one of my constituents, Robert Johnson of Hinds County, MS, has set an example that all parents could follow.

Mr. Johnson did not have the opportunity to attend college, but he made it a point to see that all his 14 children went. Mr. Johnson and his late wife sacrificed a great deal to see that all their children would have the opportunity to get an education. Last year, he saw his dream come true as his youngest son, Nathaniel, received his degree from Alcorn State University.

The Johnson family is quite a success story, and their story was recently recorded in Ebony magazine. I am pleased to have this opportunity to share it with my colleagues:

MISSISSIPPI FARMER KEEPS VOW TO EDUCATE HIS CHILDREN—FAMILY DISCIPLINE WAS THE KEY TO A BETTER LIFE

No one ever had to tell Robert Johnson Sr., anything more than once. Even as a young husband and father trying to bring up a family in dirt-poor Mississippi, he knew right from the start that he didn't want to work at the local sawmill. It was hard, bone-crunching work and the pay was poor and the hours long. Still, he did it. After all, Robert Johnson had a growing family to feed and educate and clothe. But he had an independent streak about him, too, and more than anything else he wanted to be his own man. The only way he knew to do that was to farm the land his grandfather had divided among his three sons. A piece of the land was passed on to Johnson and over the years he had added to it. By Mississippi standards, the land was nothing to snicker at—175 acres between Bolton and Edwards near the Champion Hill Civil War battlefield—yet it was nothing to stagger the imagination either. But it was Johnson's land—free and clear. On it he would grow cotton, his money crop; sweet potatoes and peas for canning, and corn to feed the livestock. And he would be his own man and have the wherewithal to educate his children. That was important. Still, it was a chancy proposition at best, particularly for the small, independent Black farmer trying to survive in Mississippi's hostile racial climate of the 1930s and 1940s.

Robert Johnson looked evenly at the odds and made himself a promise—that none of his children, not one, would ever have to eke out a living from Mississippi dirt. Johnson and his wife, Ella Lorean Marshall, both strong, proud people, made a pact with each other which was no less curious than the two steel wills behind it—to send each of their children to college, no matter the personal sacrifice. Mrs. Johnson saw all but three of her 14 children graduate from college. She died in 1976 at age 58. And so the task fell to her husband Robert to do the witnessing for both of them. Last year, when Johnson, stooped and up in years, his hair now completely white, saw 22-year-old

Nathaniel receive his degree from Alcorn State University (the college where all but one of the Johnson brothers and sisters received their degrees) a dream had come true and Robert Johnson had lived to see it. He was 77 years old. The old man still farms, but now he doesn't have the same desire to work the land that he once had. "Now I can grow as much cotton as I want to, but I ain't got nobody to do it with. She's gone."

Education was a powerful motivator in the Johnson household. "We wanted to send the children to college to get them out from under the foot of others," Johnson says today. "We wanted them to stand on their own two feet."

None of this is to suggest, however, that Robert Johnson did it all himself. The truth is that he will be the first to tell you he had help—a lot of help. First, the chidren helped, all 14 of them, whose ages range from 22 to 50. "After college, I remained home," says Robert Jr., 45, a math teacher and assistant principal at Utica High School in Utica, Miss. "We had the task of seeing the other family members get an education. It was a team effort."

He recalls the time his mother had to sell her favorite cow, "O'Proudy" (the mother would always say how proud she was to own the cow), which had been given to her by her father a wedding present, to raise money for Robert Jr.'s first-year tuition at Alcorn State. The cow had been in the family 24 years. "My parents told me to take the money, pay my tuition and then to make the best of it," Robert Jr. remembers.

The children, for the most part, all worked while going to college, although in recent years the family made greater use of college loan and college grant packages.

There was special help, too. "I kept a switch in the corner and used it whenever there was a need to," Robert Sr., says. "I wasn't a mean parent, just strict."

The little white frame house that sits high atop a knoll between Bolton and Edwards was always abustle with the shrieks and the excitement and the laughter of children growing up. And if the work became too hard, or the mules pulled too far, the children had only to look at their parents, who worked twice as hard and twice as long as any of them, to dash any thoughts of complaining about doing too much. It was a tough discipline, but the children learned well.

Others would see it, too, the Johnson discipline, and the way the Johnsons children went about their college studies and then on about their lives. "To me, what stands out was that they were always studious," says Dr. Walter Washington, president of Alcorn State University and a former president of Utica Junior College, where all 10 Johnson brothers and four Johnson sisters attended. Thirteen later transferred to Alcorn State, the oldest historically Black land grant college in the nation (established in 1871), and one, Henry, the oldest son, transferred to Mississippi Valley State University. "They were good college citizens," the president continues, "always polite. There was never any disciplinary problem. And I don't remember any of them ever being out of school. They attended school every day. And I would see the father every time at every event the institution had." And for many years Mrs. Johnson was president of the local school P.T.A.

Education was always important to Robert Johnson, and it is not hard to understand why. He had excellent role models—his father and two uncles attended Alcorn State and his mother was a graduate of Tougaloo. When time came for Johnson himself to go to college, the opportunities just weren't there. "There was no high school for Blacks in Hinds County then," he explains. "Man, I had a time. But, I said, if I couldn't go to college I was going to walk proud; I was going to send my kids through school."

That, he did. "I remember when it was time for the two oldest girls [Marilyn and Earlean] to go to school," says son Bernard, 34, the postmaster at Alcorn State. "The girls needed money and papa went to the bank to get the money to send the girls to school. The banker asked papa, 'Robert, why don't you send them girls up north somewhere. They ain't got no business with an education.' Papa was mad. So we did a lot of extra work, picked peanuts and chopped cotton, because papa was determined to see those girls through school."

Robert Johnson was determined to see all 14 of his children through school. First, there were the two oldest girls, Earlean, 47, and Marilyn Lynn, 48. Both graduated from Alcorn State in 1959. Henry, the oldest boy, stayed back to help with the farm. When it was his time to go, after seeing most of his brothers and sisters through, he chose Mississippi Valley State, graduating in 1980. Today, he teaches industrial arts in Inverness, Miss. Earlean went on to get her master's in English from Tennessee State University and is now teaching in the Leighton (Ala.) Public School System. Marilyn got her master's from North Carolina A&T State University in Early Childhood Education and is an elementary school teacher in Indianola, Miss.

Robert Jr., graduated from Alcorn State the year after Marilyn and Earlean finished and later received a master's from Indiana University in education administration. Today, he teaches math and is an assistant principal at Utica High School in Utica. Two years after Robert Jr., graduated came Walter, 43, who now has a master's from Mississippi State University and teaches biology in Kosciusko, Miss. Emanuel graduated from Alcorn State in 1964, received his master's and Ph.D from North Carolina State University, and works for the U.S. Dept. of Agriculture. R.C., 40, finished Alcorn State in 1965, and went on to earn both his master's and Ph.D. from the University of Minnesota. He is currently an assistant principal at a junior high school in Minneapolis. Next out of Alcorn State was W.C., 38, who graduated in 1968, and would later receive a master's from Indiana State University. He is now working toward his doctorate's at the University of Minnesota in industrial planning.

Two years after W.C. graduated from Alcorn State, H.C., 36, finished. Today, he is working toward a Ph.D. in industrial arts education at the University of Southern Mississippi. Thirty-four-year-old Bernard finished Alcorn State in 1972, got a master's in education administration, and then returned to Alcorn as the college's postmaster. Mary, 32, graduated from Alcorn State in 1974, and Evelyn, 30, came out two years later. Today, Mary, with a master's from the University of Minnesota and another from Alcorn State, is a contract specialist with the Dept. of the Navy. Evelyn, who stayed at Alcorn State to get a master's in agronomy, is now an underwriter with the Federal Crop Insurance. In 1978, Carl came out of Alcorn State and four years later he received a master's from the University of Maryland. He is currently working for General Electric in Schenectady, N.Y. Nathaniel, the baby of the family, graduated from Alcorn State in 1983 and is working on a master's in agronomy at the University of Maryland.

"Mostly we managed by just working hard," says Robert Johnson Sr. "And I've kept my faith in God. He'll bless you. God blesses His people. We raised 14 children and none was ever sick. If I ain't been blessed, ain't nobody ever been blessed."●

FIFTIETH ANNIVERSARY OF THE RURAL ELECTRIFICATION ADMINISTRATION

HON. AUSTIN J. MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 7, 1985

● Mr. MURPHY. Mr. Speaker, it is with great pride that I rise to praise the accomplishments of the Rural Electrification Administration (REA). I am pleased to join my colleagues in celebrating the 50th anniversary of the REA, established by President Franklin Roosevelt on May 11, 1935.

When the REA was established in 1935, only 6 out of every 100 Pennsylvania farms received electric service. Today, there are 13 rural cooperatives in Pennsylvania and virtually every corner of the Nation enjoys electric service, largely because of the work of the REA. In Pennsylvania, electric service has been extended to 99 percent of the Commonwealth's farms, where rural electric co-ops serve over 600,000 consumers.

My 22d Congressional District, a predominately rural region, is located in the southwestern corner of Pennsylvania. The presence of electricity made our rural area more attractive to business and industry, and helped stem the migration of young people to the city. The absence of electricity had kept rural economies tied almost exclusively to agriculture. Factories and businesses naturally preferred to locate in cities where electric power was available. If a rural person wanted more money than farming offered, he had no choice but to move to the city to locate other employment.

Today, like yesteryear, the rural electric co-ops are involved in their communities, helping with economic development and encouraging important services from transportation to health care. I commend this group of rural electric pioneers for their past and present dedication to a better quality of life for rural people. Thank you for your 50 years of service.●

FUELING THE U.S. ECONOMY

HON. JIM KOLBE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KOLBE. Mr. Speaker, as the debate and discussion preceding the second White House Conference on Small Business scheduled for August 1986 take place, it is important to consider the conference agenda from a number of perspectives.

One such perspective is presented by Virginia Littlejohn, executive director of the Professional Services Council, Washington, DC, and president of the National Association of Women Business Owners, in a recent article in Inc. magazine.

Ms. Littlejohn suggests that the conference should focus on "a growth agenda" that emphasizes market forces and incentives, thus leading to fueling the U.S. economy for the rest of this centry and beyond.

She outlines an approach that would link specific Federal policies to critical national strategic goals. What is needed, Ms. Littlejohn asserts, is consensus on "overarching strategic objectives," rather than a "laundry list" of tactical recommendations.

Her thoughtful, stimulating comments are worthy of consideration by planners of the conference and those Members of Congress concerned with small business and the role it plays in the American economy.

THE SECOND WHITE HOUSE CONFERENCE

(By Virginia Littlejohn)

At the second White House Conference on Small Business, which is planned for August of next year in Washington, DC, we in the entrepreneurial community can stake out a dynamic growth agenda that will fuel this country's economy for the rest of this century and into the next. Or we can complain about this or that injustice, carp about this or that regulation, and fight for more federal handouts.

It all depends on how we answer one question: Is the conference about smallness, or is it about growth?

A conference focused on smallness would worry about the future of the Small Business Administration loan program, about how to define "small," and about bigger procurement set-asides for small business.

A conference devoted to a growth agenda, on the other hand, would emphasize market forces and incentives. It would seek to link specific tax, grant, and procurement policies to such national strategic goals as technological innovation, managerial ingenuity, productivity, job creation, industrial competitiveness, increased trade, and greater economic opportunity. Conversely, it would avoid further tinkering with programs that foster a business-welfare mentality and that treat the entrepreneurial sector as just another special interest rather than as a powerful engine of growth.

To formulate such an aggressive agenda, however, we will have to change the way we think. Five years ago, delegates to the first White House Conference on Small Business, myself included, formulated a laundry list of 60 tactical recommendations, many of which arose from narrow small-business themes, such as providing special consideration to veterans in business.

At the next White House Conference, we need to do more than draw up another laundry list. We need to think strategically about the future and its opportunities.

Establishing a consensus on overarching strategic objectives—and developing both an annual and a longer-range plan to achieve them—would give the entrepreneurial sector a strong and coherent voice in national debates over, for example, tax, foreign trade, and economic policies. This is the sort of influence we have never had before—because, divided and cacophonous, small-business factions have, in the past, effectively canceled out each other's lobbying efforts.

This strategy of consensus will require courage on the part of the small business associations. Each of them—the National Federation of Independent Business, National Small Business Association, National Association of Women Business Owners, Small Business United, the U.S. Chamber of Commerce, and others—will have to sacrifice some of its own pet issues for the larger goal. The strategy will demand self-discipline on the part of the individuals who help shape the conference agenda in the state meetings scheduled to take place during the next 18 months, and on the part of the conference delegates themselves.

All the parties involved will need some criteria by which to separate the narrow from the broad, the trivial from the significant. They will need to ask themselves:

Does this policy proposal meet the needs of the entrepreneurial sector? Does it foster economic growth? Will it encourage job creation, risk-taking, innovation, competition, more international trade, and enhanced industrial competitivesness?

Does it rely on incentives rather than regulations, carrots rather than sticks?

Does it mean more federal spending? If so, is there a substantial return on that investment?

Proposals that encourage smallness for its own sake, that discourage growth or emphasize regulations, that reward inefficiency and dependency, or that are too costly would be thrown out. Those that pass muster would become our national agenda for entrepreneurship and economic growth.

Concentrating on a few items of overriding strategic value, rather than on our usual plethora of issues, will enable the entrepreneurial sector not only to shape the public-policy debate, but to be far more effective in getting its agenda enacted as well.

Likewise, Congress should be urged to think in strategic terms. Our challenge is to educate policymakers to the fact that risk, entrepreneurship, innovation, and growth are not liberal or conservative issues; rather, they represent an urgent national priority that Congress must address if we are to maintain our industrial competitiveness, create jobs, and expand economic opportunity.

The 1980 White House Conference on Small Business developed visibility for small business issues, provided a grassroots education for a large number of people who had never before been involved in shaping public policy, and stimulated a wave of reform measures in Congress. The second White House Conference should aim to do more than just repeat the accomplishments of the first. It shoud embolden Congress to elevate risk, innovation, entrepreneurship, and growth to the status of national policies that propel the American economy into the twenty-first century.●

MOST DANGEROUS BILL OF THE YEAR

HON. RICHARD ARMEY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. ARMEY. Mr. Speaker, in Tuesday's Dallas Times Herald, James Kilpatrick, a respected columnist, wrote about H.R. 700. I want to share this wisdom with my colleagues.

[From Dallas Times Herald, May 7, 1985]

MOST DANGEROUS BILL OF THE YEAR

(By James Kilpatrick)

Very soon now, the House of Representatives will take up the most dangerous bill of the year. If last year's precedent is any guide to this year's action, the House will whoop its approval. The bill is the marvelously named "Civil Rights Restoration Act of 1985."

That title is truly marvelous, is it not? It was deviced by the Leadership Conference on Civil Rights, and we can imagine the knee-slapping and the cries of "Hoo, boy!" that arose with this delightful invention. The Civil Rights Restoration Act of 1985! Who could vote against it?

Well, if the principle of federalism still has meaning, if separation is to be maintained between the public and private sectors of American life, if the heavy hand of federal regulation is not to be laid upon the whole of our society, members of Congress had better vote against this devious and deceptive little sleeper.

Let me explain. In 1972 Congress passed a law prohibiting sexual discrimination in "any education program or activity receiving federal financial assistance." In 1984 the Supreme Court considered a case involving Grove City College in Pennsylvania. The college did not discriminate against anyone; it accepted no direct federal aid; but it did enroll students who had received federal grants.

The Grove City case presented two questions: (1) By accepting students who received federal aid, was the college itself a recipient of federal aid? (2) If so, would anti-discrimination provisions of the 1972 act apply throughout the entire institution?

The high court said yes to (1) and no to (2). It held that the grants received by many Grove City students did not trigger "institution-wide coverage." The grant affected only the college's program of financial aid. The court's program of financial aid. The court's opinion set off an uproar among civil rights activists who yearned for a broader reading, and it led to the introduction last year of a bill to overturn the court's decision not only as the 1972 education act but as the opinion might affect three other civil rights acts as well. The bill roared through the House 370–32 but died in the Senate.

Now the bill is back. It is cosmetically disguised with fresh lipstick and an innocent wig. It wears this darling new title. It is being sold by its sponsors—chiefly Sen. Edward Kennedy, D-Mass., and Rep. Augustus Hawkins, D-Calif.—as just a little harmless measure that no friend of civil rights could oppose. The many sponsors do not ac-

knowledge—perhaps they do not even know—the drastic reach of the bill to which they have given their names.

The bill is a tricker. Its ostensible purpose is merely to define what is meant by "program or activity receiving federal financial assistance." It says that for the purpose of enforcing civil rights laws, the term applies to "all of the operations" of various "entities."

Thus, if "any part" of a state or local government receives federal aid, every part becomes subject to the entire panoply of enforcement procedures. The bill would embrace "all the operations of a corporation, partnership, or other private organization." It would spread its net over every classroom in the nation. Its enforcement would demand whole armies of federal inspectors and bureaucrats to review compliance reports.

The bill contains a slippery clause that slides easily past the eye. The bill's purpose is to restore the interpretation of the several civil rights acts "as previously administered." The effect of that sly little provision is to write into statutory law thousands of regulations contrived by the brueaucracy over the past 20 years. These interpretations, once validated by the pending bill, would be greatly strengthened and broadened. Utah's Sen. Orrin Hatch, who led the battle against the 1984 bill, says the 1985 version is "even worse." He is absolutely right.

The bill is not a bill "to restore" anybody's civil rights, for no civil rights were taken away by the Grove City case. It is a bill to expand federal power into every aspect of our public and private life.●

PENNSYLVANIA AMERICAN LEGION AUXILIARY HONORS NATIONAL PRESIDENT HELEN ADAMS GARDNER

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. GEKAS. Mr. Speaker, on Wednesday, May 22, the Department of Pennsylvania in the American Legion Auxiliary will honor their national president, Mrs. Helen Adams Gardner.

Mrs. Gardner was the 64th person elected to the post of national president for the auxiliary last September. At that time she emphasized her goal of bringing national attention to the issue of adult illiteracy in our country. She also stressed the importance of teaching reading and writing fundamentals to our students. Her theme in this regard is "Invest in America."

It appears that Mrs. Gardner's theme for herself has always been "Invest in America." She has invested her time and effort to many causes in her work with the auxiliary, as well as in hospital, church, and community affairs. Certainly the investments of her time have benefited many Americans, and we express our gratitude for her hard work.

It was in 1955 that Mrs. Gardner first joined the auxiliary, and she began her tenure in a leadership position as the charter president of Greenacres City Unit No. 258. She has been the chairperson of several committees, and was leadership development chairman in 1969-70. Before her election last September, she served as national vice president. As we have come to see, this woman has been in the forefront of developing the American Legion Auxiliary into what it is today.

As mentioned earlier, this energetic woman has also been deeply involved in hospital work, as she recently retired as assistant director of nursing at John F. Kennedy Memorial Hospital in Atlantis, FL. Her work now will be devoted to auxiliary work, and for that I know the Department of Pennsylvania is thankful. The national presidency is indeed in capable hands.●

REA—A PENNSYLVANIA SUCCESS STORY

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KANJORSKI. Mr. Speaker, earlier this week I engaged in a colloquy with my friend and colleague from Missouri on the importance of explaining the national benefits of REA's work to Members from urban districts. All of the Nation, urban, rural, and suburban alike benefits from universal telephone and electric service.

Today, as REA enters its second half century of service to our Nation, I'd like to highlight the benefits that REA has brought to my district in northeastern Pennsylvania.

It is difficult to imagine a life without electricity. But only 50 years ago, less than 10 percent of all Americans did not enjoy the many benefits that electricity provides. The private power companies that served the cities and towns did not find it technically possible or economically feasible to run lines into the country. "The countryside is too rugged and too sparsely populated to run electric liens," they said. They added, "even if we did run lines, the farmers would not use enough electricity to make the investment pay for itself."

The people who wanted electricity—who needed electricity—knew, however, that, if they worked together, they could get electric service. They decided to form their own electric utilities and to organize them as nonprofit, consumer-owned cooperatives. They were very familiar with the cooperative form of doing business. For decades, they had purchased seed and equipment from supply cooperatives and had sold the fruits of their labors through marketing cooperatives. They knew that, by joining together in cooperatives, they could bring the weight of their collective strength to bear on the problems that faced them. They knew that cooperatives could provide them with strength beyond their numbers.

Although the Rural Electrification Administration had been established by FDR on May 11, 1935, it took a while for news about the new Federal program to spread and for local community groups to get organized. In my district, the Sullivan County Rural Electric Cooperative had its first REA loan approved on October 3, 1936, and the first line was organized more than a year later in December 1937. It is interesting to note that Sullivan County REC was 1 of only 2 of Pennsylvania's 15 rural electric cooperatives to have a college-educated manager. In most cases, a local resident or member of the construction crew that built the cooperative's first lines was chosen to be its manager.

The conditions Sullivan County Rural Electric Cooperative had to deal with when it was established and, indeed, continues to deal with, highlight the need for the Rural Electrification Administration.

The area Sullivan serves is extremely remote and rugged. The area is known as Pennsylvania's Endless Mountains, and includes World's End State Park. That gives you an idea of what the countryside is like there. Sullivan's service territory includes dairy farms nestled in the valleys and sawmills that process the stands of large native hardwoods. If it were not for the financing programs of the Rural Electrification Administration, I believe it's fair to say that there might still today be some areas of Sullivan County without electric service.

Another situation that creates problems for Sullivan County REC is the fact that about half of its members are seasonal. By and large, they are city people who own summer homes and hunting camps so that they can enjoy nature's bounty in this beautiful area. Despite the fact that seasonal members' dwellings are not their full-time residences, they expect to have electricity available when they flip the switch. It is not uncommon to see a single phase distribution line stretch for miles down an isolated mountain road serving only a few consumers. But the cooperative is dedicated to the concept of area coverage, providing electric service to everyone who wants it and at uniform rates.

Rural electric cooperatives, with the help of the Rural Electrification Administration, have done much to change the face of rural America. They have increased the standard of living of all rural people and have vastly increased the productivity of American farmers so that they today feed our Nation and help feed a hungry world. We all owe a debt of

gratitude to America's rural electric cooperatives for the work they have done and for their willingness to stand ready to meet the challenges of the future.●

ONE HUNDRED YEARS OF UKRAINIAN IMMIGRATION

HON. JOSEPH J. DioGUARDI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. DioGUARDI. Mr. Speaker, I rise before this body today to celebrate 100 years of Ukrainian immigration to the United States.

The Ukrainian people have made great contributions to business, to the arts and culture, and to the religious heritage of our Nation.

As we honor the sons and daughters of the Ukraine, let us not forget that the homeland of their ancestors remains under the grip of Soviet tyranny.

I am honored to represent an area that has many Ukrainian-American families. In particular, the city of Yonkers is an area where Americans of Ukrainian descent have enriched our lives. From my friends there, I have learned a great deal, not only about the culture of Ukrainian-Americans, but also of the suffering they have endured in their quest for freedom.

The Ukrainian people have found America to be a land where they can fulfill their dreams, worship as they please, and participate in a representative democracy. In the old country, the Ukrainian people enjoyed these freedoms, but only for a few short years after the independence of their nation on January 22, 1918. Then came the invasion by the Soviet Red army followed by actions of the Stalin dictatorship to collectivize the agricultural regions of the Ukraine. A massive famine in the Ukrainian nation was the result of this policy. As the famine ended, the Ukrainian people were subjected to a litany of horrors; the horrors of armies marching through their homeland and the horrors of the Nazi occupation. After the conclusion of World War II, the Soviet dictators tried repeatedly to quash the national spirit of the Ukrainian people.

In the Ukraine today, the Soviet invaders have outlawed the practice of religion. They have outlawed the right of the Ukrainian people to speak their native tongue in their classrooms. They have sought to destroy the Ukrainian nation, but the Ukrainian people fight on. Their dreams of freedom, while a reality in America, cannot be destroyed by the tyranny of the Soviet dictatorship.

I join with my friends of Ukrainian ancestry to share that dream. I know one day that dream will come true. The Ukraine will live again. Thank you, Mr. Speaker.●

IT WAS NOT "MORALLY RIGHT" MR. PRESIDENT

HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BORSKI. Mr. Speaker, on Sunday, we shared a sense of sadness that President Reagan went through with his decision to visit the cemetery at Bitburg. It was wrong, morally wrong.

Congress knew it was wrong. We told him so in letters and telegrams and resolutions. In fact, both the House and the Senate passed resolutions by overwhelming margins urging that this visit not be made.

The American people knew it was wrong. But the voice of American veterans and Holocaust survivors and many other good Americans were not heard by President Reagan.

That is why Sunday was a day of sadness.

The presence of the President of the United States at the gravesites of Nazi SS soldiers speaks louder than any words President Reagan might say as explanation.

That visit defamed the honor of our veterans who fought and died against Nazi tyranny to bring freedom to the world. It disgraced the memory of the millions of Holocaust victims by honoring their murderers.

That is why Sunday was a day of sadness.

President Reagan's visit to Bitburg was designed to be a symbol or reconciliation; it was a symbol, but not of reconciliation. There can be no reconciliation with the genocide of the death camps. There can never be reconciliation with the evil that was manifested by the Nazi SS. Instead of being a symbol of reconciliation, President Reagan's visit was a symbol of insensitivity, pain, and sadness.

What makes the visit to the cemetery at Bitburg even more striking is that a symbol of reconciliation could have been easily achieved without the anguish that characterized the President's chosen action. The appropriate symbolism required to show reconciliation between two democratic allies would have been a Presidential visit to a site manifesting democratic ideals. Many possibilities were available, including the gravesite of Konrad Adenauer whom many consider the father of modern democratic West Germany, but the possibilities were all ignored. Adenauer's gravesite was added as an afterthought but not as a replacement for Bitburg.

That is why Sunday was a day of sadness.

As the son of a World War II veteran, I was appalled that President Reagan would choose to bring honor to the very enemy my father fought 40 years ago. Fortunately, my father returned home from the war, but 405,399 other fathers, brothers, and husbands did not. More than 19,000 American soldiers lost their lives in the Battle of the Bulge, but the President chose to lay a wreath at the cemetery where Nazi soldiers they fought are buried. Was the President so certain that not one of the Nazi SS soldiers buried at Bitburg had taken part in the massacre of bound American POW's at Malmedy?

In planning the visit to West Germany, the President announced that he would lay a wreath at the cemetery in Bitburg, but that he would not visit the site of a concentration camp because it would "reawaken memories" of the Holocaust. Later, Bergen-Belsen was added to the itinerary. The presence of the American President at Bergen-Belsen is a very important symbol of remembrance. Its importance should not have been diminished by using Bergen-Belsen to balance the stop at Bitburg.

The President made the situation even more painful by equating, as victims of Nazi tyranny, the German soldiers buried at Bitburg with the millions who were murdered in the death camps. I was outraged by this breach of President Reagan's moral responsibility as the leader of the free world and immediately sent him a telegram to tell him so.

I have been to Yad Vashem—the Holocaust memorial in Israel—and participated a few weeks ago in the Yom Hashoa memorial service for the 6 million—which included the Inaugural American Gathering of Holocaust Survivors—in Philadelphia. These experiences reinforced my belief that the balancing of Nazis and their victims, or of Bitburg and Bergen-Belsen, is a moral impossibility. Remembrance was the only reason to go to Bergen-Belsen, and was the reason not to go to Bitburg.

That is why Sunday was a day of sadness.

Mr. Speaker, the impact of the President's decision will not pass merely because the event is over. The hurt is very deep and the sadness will not go away.●

SACRAMENTO CHAMBER VISITS HILL

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. FAZIO. Mr. Speaker, this week marks a milestone in the history of the Sacramento Metropolitan Cham-

ber of Commerce. One hundred and thirty-two volunteer lobbyists from the greater Sacramento region devoted 3 grueling days to furthering our shared goal of educating Capitol Hill and the administration about the needs and hopes of our community.

This visit marks the 15th year of this important and valuable venture. In its 15-year history, this trip has grown from five chamber members and one topic to the scores of activists and dozens of topics that comprise it today. On this trip, 15 separate teams kept 110 appointments to discuss 77 subjects. The topics ranged from military matters to the arts.

The chamber of commerce and the community leaders here this week represent the finest tradition in democratic governance. I know of no community in this great Nation that surpasses in diligence and commitment the citizenry represented by this delegation. Sacramento's wisdom in sending this group to Washington is evidenced by the positive response they receive. This annual event is one that has served our community well and I trust it will continue to do so far into the future.●

CUYAHOGA VALLEY NATIONAL RECREATION AREA

HON. JOHN F. SEIBERLING

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. SEIBERLING. Mr. Speaker, I would like to draw Members attention to a recent article by David B. Cooper in the Akron Beacon Journal about the Cuyahoga Valley National Recreation Area, a beautiful park in Ohio which Congress created and which is currently celebrating the 10th anniversary of its formal dedication by the National Park Service.

In his article, Mr. Cooper eloquently describes the history of the park and some of the many natural and historic treasures of the Cuyahoga Valley itself.

Last year, according to National Park Service figures, an estimated 900,000 people visited the park, and this does not include attendance at other State or local parks or privately run recreation facilities—such as the Blossom Music Center, Hale Farm and Homestead, Brandywine or Boston Mills ski areas—which are located within the park boundaries. From my own calculations, adding in these and other sites within the park, the Cuyahoga Valley attracts between 5 and 6 million visitors each year.

As Mr. Cooper notes, the park has been planned and organized well by the National Park Service. And he gives appropriate credit to Lewis Albert, the Park Service superintendant of the Cuyahoga Valley National Recreation Area under whose able leadership the park has flourished in recent years.

Although Mr. Cooper kindly gives credit to me and our colleague, Mr. REGULA, for our efforts on behalf of the park, I would like to note that several others also deserve much credit, including our current Senators GLENN and METZENBAUM, former Senator Taft and former Represenative Charles Vanik, to name a few. The park was and still is a bipartisan effort in the Congress.

Clearly, the Cuyahoga Valley National Recreation Area serves not only present generations but future ones as well. Mr. Cooper states it thoughtfully:

In 2075, as the Cuyahoga Valley Park is nearing its 100th anniversary, its creation will be thought of universally as one of the wisest and most enduring decisions made by this region. In the meantime, it is a place of beauty to visit often, a place in which to refresh the body and soul and to enjoy the richness of the land.

Mr. Speaker, following my remarks at this point I would like to insert the full text of Mr. Cooper's excellent article.

THE BEAUTIFUL VALLEY BECKONS

(By David B. Cooper)

We walked through the whispering wonder of the woods, enjoying a beautiful day and the marvels of spring bursting forth from every limb and bush.

We had taken the Boston Run Trail, just off route 303, across from the Happy Days Visitor Center in the Cuyahoga Valley National Recreation Area.

It is a gentle, interesting trail that makes you puff only a time or two. Boston Run takes the walker, jogger or cross-country skier on a flattened circle of a route 2.5 miles long, according to the map provided by the National Park Service.

Our walk—it could hardly be called a hike—made us thankful once again for the Cuyahoga Valley Park, which strikes me as one of the rich treasures of Northeast Ohio.

We lived almost 10 years in the Detroit metropolitan area before moving to Akron in 1977. We liked Detroit, but something we missed greatly there was the ability to get out into the country. Michigan is a beautiful state in many ways, but the land for miles around Detriot is flat. You have to go almost halfway upstate before you really get to woods and streams, valleys and hills.

In Northeast Ohio, we're about to enter the 10th year of the operation of "The Park," as it is called by almost everyone who does not want to deal with its longer name or acronym, CVNRA.

June 26, 1975, was the date on which the park was officially established and began operations under the aegis of the National Park Service.

President Gerald Ford had signed the congressional act creating the park on Dec. 27, 1974, six months earlier.

Last year, the Park Service has said, about 900,000 people visited the Cuyahoga Valley—not counting all those who came through to go to Blossom Music Center, Hale Farm and Homestead, or to golf, or to ski at Brandywine or Boston Mills.

As we headed home from our weekend visit, we saw joggers and hikers and bikers and people just out for a picnic.

It is an unusual park, as parks go, because it exists both for enjoyment and for preservation of the landscape, the valley, the Cuyahoga River, and the remnants of the Ohio and Erie Canal. It is not Yosemite or Yellowstone, with squadrons of tour buses and phalanxes of tents.

It is uniquely the Cuyahoga Valley, designed primarily as a passive day experience—an oasis of history and woods and water—in the vast metropolis of Northeast Ohio.

All things considered, it has been planned and organized well so far by the National Park Service.

There has been some controversy, to be sure, but remarkably little when one considers the size of this federal project. A new highway of this magnitude might well cause more dislocation and unrest.

Some residents did resent being bought our and moved; others accepted Park Service offers for their property without grudging. The Park Service's initial land agent, the Army Corps of Engineers, probably was too heavy-handed with some. However, a leader of Park Service opponents wound up getting more than $600,000 for his property.

Whatever one's view in the park's first 10 years, the few land controversies that arose now appear as old history. The park is a fact of life today, there are few disputes, and under the able leadership of Lewis Albert, the Cuyahoga Valley superintendent, the Park Service looks ahead to gradual development and improvements that will make the valley an even finer experience for all who live in Northeast Ohio.

There are few cities in the United States, and virtually none in the older industrial states east of the Mississippi, blessed with such vast and treasured protected breathing space just outside their boundaries.

An increasing number of activities and programs are offered in the park, all designed to give those who take part an appreciation of the majesty of nature and of the rich history of this unusual part of America.

But one need not take part in any organized program to enjoy the valley. It is there for a Sunday drive, for a twilight walk along a ridge, for a fishing trip with eager-eyed children, or just for a rest in the sunshine in a meadow. And it acts as green space—a buffer and a protector—between two metropolitan areas, Akron and Cleveland.

Many people deserve credit for the foresight that not only created the Cuyhoga Valley National Recreation Area but nurtured it along the way.

Of all those involved, however, two in my judgment stand out especially. They are congressmen John Seiberling, the Akron Democrat, and Ralph Regula, the Stark County Republican. Without them, the park would likely not exist today.

Someday, in some reasonable way, their contributions ought to be permanently memorialized in the valley by the naming of separate special features or projects there that acknowledge their efforts on behalf of all the people of Northeast Ohio.

In 2075, as the Cuyahoga Valley park is nearing its 100th birthday, its creation will be thought of universally as one of the wisest and most enduring decisions made by this region.

In the meantime, it is a place of beauty to visit often, a place in which to refresh the body and the soul and to enjoy the body

and the soul and to enjoy the richness of the land.

Just a short walk through the woods in the Cuyahoga Valley on a gorgeous day can provide both exercise and enchantment.●

SENATOR SAM J. ERVIN, JR.

HON. GLENN M. ANDERSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 6, 1985

● Mr. ANDERSON. Mr. Speaker, I rise today and join with my colleagues in paying tribute to the late Senator from North Carolina, the Honorable Sam J. Ervin, Jr.

As we all know, Senator Ervin, who liked to describe himself simply as an "ole country lawyer," was thrust into the national spotlight a decade ago during the Watergate crisis. He, of course, was selected as chairman of the Select Committee to Investigate Campaign Practices, whose job it was to investigate and find out the truth behind Watergate.

Long before Watergate, however, "Senator Sam" had earned the respect of his colleagues in that hallowed body. His quick wit, his ability to cite Bible verses, and to quote Shakespeare, made him one of the Senate's greatest orators of all time. He relished in telling a story or tale to make his point. As he once said, "I have always found if you got a good story that sort of fits things, a good story is worth an hour of argument."

Born on September 27, 1896, in Morganton, NC, Senator Ervin graduated from the University of North Carolina, then served 1½ years in France during World War I. He was wounded twice in battle and was cited twice for gallantry, including the Distinguished Service Cross and the Silver Star.

After the war, he returned home, earned a degree from Harvard Law School and, shortly thereafter, married his hometown sweetheart, Margaret Bruce Bell.

In 1925, he served in the North Carolina General Assembly, later became a county court and superior court judge, and served in this Chamber in 1946 and 1947. The following year, he was named to the North Carolina Supreme Court and, in 1954, was selected to serve in the Senate. He held this position until he voluntarily retired from public service in 1974. Although many urged him to serve another 6-year term in the Senate, which, I'm sure, he could have easily won, he followed the advice of his wife who said, "The time to quit is when people want you to stay."

Mr. Speaker, Senator Sam Ervin was a great scholar whose integrity and personal charm made him a favorite of all those who had the pleasure of working with him. Although I didn't agree with the Senator on every issue, I always walked away knowing that he had put much thought behind a decision without any preconceived bias.

My wife, Lee, joins me in saluting Senator Sam Ervin for many years of dedicated public service. We offer our sincerest condolences to his wife, Margaret, their two daughters, Leslie and Laura, and son, Sam III.●

UNIVERSITY OF ARIZONA CELEBRATES ITS CENTENNIAL ANNIVERSARY

HON. JIM KOLBE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KOLBE. Mr. Speaker, the expanding frontier of 19th century American presented opportunities to people who were willing to sacrifice comfort for the risk of independence and those who couldn't resist the lure of discovery. But it also presented formidable difficulties. One was the lack of a developed educational system. Thus, the land-grant college system was established by Congress and President Lincoln to fill that need for institutions of higher education in the isolated areas of the American frontier. To the credit of these 19-century pioneers, who struggled to bring industry, culture, and educational excellence west of the Mississippi River, institutions like the University of Arizona now pay tribute to these ideals.

Arizona Territory's 13 legislature established Arizona's first 4-year, university at Tucson in 1885. This year, the University of Arizona celebrates its centennial anniversary.

The early accomplishments of the University of Arizona in mining and agriculture led the way to early development of the Arizona Territory. From the early days of the Phelps-Dodge mining operation in Bisbee, AZ, became the leading producer of domestic copper. The University of Arizona Agriculture Department, long noted for its achievements in agricultural research, shares the responsibility for Arizona's position as this country's third largest cotton producer and as the leading exporter of Pima cotton, a high-quality variety developed at the University of Arizona.

Today, at its centennial celebration, the University of Arizona stands as one of the major academic and research universities in the world. Of the many fields of study prominent at the universtiy, native American studies, engineering, optical sciences, arid land studies, astronomy and archeology are among the most noted. The University of Arizona Health Sciences Center is one of the medical schools pioneering artifical organ transplants and nuclear medicine. The new cancer research center will be second to none in the Nation.

As a contributer to America's national security, the University of Arizona has played a major role in the development of laser technology and in the space program.

The vitality of the university's academic community has provided continuity during the rapid growth of southern Arizona. As political activists, artists, writers, civil leaders, and community volunteers the university faculty, staff and students have made important contributions to the intellectual life of Tucson and communities throughout Arizona.

In one hand, the University of Arizona holds our past—the Indian tribes who irrigated the desert and the Spaniards who brought with them their knowledge of trade and commerce. In the other is our link to the future—the minds of our young people. Much like a parent, the University of Arizona is responsible for guiding each new generation to maturity. This great responsibility is shared by all who are concerned that education is more than a 12-year accumulation of data. It encompasses the ability to make decisions, to respect our peers, to care for and improve our institutions, and to add reason to problem-solving.

I ask that my colleagues in the U.S. House of Representatives join me today in expressing thanks and best wishes to the University of Arizona, founded in 1885, in its celebration of the beginning of its second 100 years of service to Arizona and to the Nation.●

AMERICAN BUSINESS ACTIVITY IN NICARAGUA

HON. PATRICIA SCHROEDER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mrs. SCHROEDER. Mr. Speaker, in view of the Reagan administration's imposition of a trade embargo on Nicaragua, I commend to the attention of my colleagues the following article, "American Business Interests in Nicaragua," by Jason Adkins, a research associate with the Council on Hemispheric Affairs, which appears in the April 1985 issue of the monthly Multinational Monitor.

AMERICAN BUSINESS INTERESTS IN NICARAGUA

(By Jason Adkins)

MANAGUA, NICARAGUA.—Most American tourists here would have difficulty concluding that the United States and Nicaragua are at odds with one another. On one corner rests a Sandy's hamburger franchise and near-by, a branch of the Bank of America and an Avis Rent-A-Car outlet do business. Indeed while the Reagan administration may have lost patience with the Sandinistas, many U.S.-based corporate interests have not.

Though their numbers have declined by 25 percent since the Somoza regime col-

lasped in 1979, many American multinationals are still operating in Nicaragua, Canada Dry and Mennen Company have gone home but United Fruit, Monsanto and over 30 other U.S. businesses either still base themselves here or do business with the Nicaraguans from neighboring Central American nations (see adjacent list).

U.S. companies also hold major interests in a dozen or more Nicaraguan firms; 50 percent interest in the Gemina flour mill, 75 percent interest in B.C.I. Chemicals and a 30-percent interest in the Polycasa plastics company.

In a random survey of American companies operating here, few U.S. business representatives advocated the overthrow of the Sandinista regime. To the contrary, a majority, though not all, offered a favorable opinion of their business relationship with the Sandinistas.

Monsanto, for example, has been operating a herbicide formulation plant here since 1967, developing chemical sprays that are used to protect cotton crops against pests and disease.

"The Sandinistas have been very friendly to us," said Richard Vance, director of the Latin American division of Monsanto. "Essentially the government is our only major purchaser, Vance said in a telephone interview from St. Louis, Mo. "We couldn't have it any easier."

Representatives of IBM and Nabisco expressed similar sentiments. IBM has had a plant in Managua since 1953. Its operation consists of three facilities: a branch office, a data center and an educational center. From these facilities, the company's 50 employees sell processing systems and typewriters. According to a company spokesperson, the government and other multinational businesses are IBM's chief customers.

"We have no complaints about doing business in Nicaragua," added the spokesperson, who requested anonimity. "Unlike many companies operating in Nicaragua, we are permitted to repatriate a small percentage of our profits to the United States in order to purchase 'critical parts' for our machines."

Similarly Nabisco, which has operated a plant in Managua since 1965, has had favorable relations with the Sandinistas. The company employs more than 250 people to produce cookies and crackers. While Nabisco would like to take more of its earnings out of the country, it believes it will have that opportunity when the economy improves. After all, a shortage of foreign exchange is common in many developing nations.

Other U.S. concerns describe their relations with the Sandinistas as being "purely professional." Exxon, which has been operating a large refinery in Nicaragua since the 1930's, is the largest corporation here. It employs 200 workers and distributes all of the refined oil in the country. While Shell, Texaco and Chevron together operate some 100 service stations here, Exxon manages 60 of its own. Jeff Higgens, Exxon's Latin America chief in Coral Gables, Florida, doesn't forsee his company leaving Nicaragua.

"We're permitted to repatriate profits when there are dollars available in the national treasury." he said. "As you know, the Nicaraguan government is our principle customer."

Ironically, Exxon's most recent setback in Nicaragua, was not at the hands of the Sandinistas, but at the hands of the U.S. backed Contras. Eighteen months ago, the Contras set an Exxon storage tank at the Port of Corinto on fire, forcing the evacuation of 20,000 citizens.

Though several U.S. companies have left Nicaragua, many still do business here by operating from neighboring Guatemala or Costa Rica. Stanley Works, for example, has salespeople who travel throughout Central America selling tools. Likewise, Union Carbide sends its salespeople into Nicaragua to corner the battery market through local retailers. Manhatten Industries is another company that produces its dress and sports shirts in Costa Rica, and then distributes them in Nicaragua. According to Ed Herman, Director of Licensing for Manhatten Industries in New York, "business is more or less the same now in Nicaragua as it was for us in the 1970's. The volume is as good as it has always been. there are dollars available."

Naturally, not all U.S. concerns are pleased with events in Nicaragua. A sluggish economy has forced Evans Products of Portland, Oregon to close its hardwood mill in Matagalpa. Similarly, Standard Fruit and Steam Shipping Company of San Francisco no longer market Nicaragua's bananas. And the Bank of America has recently asked the Sandinistas to deactivate their business license so they can close the branch office that they have operated here since 1964.

The director of one of the largest multinational subsidiaries here agreed to be interviewed on the condition that neither he nor his company be identified. The Nicaraguan operation has gross annual revenues of $85 million, including duties and taxes.

The only solution to the economic crises, the official insisted, was a change of government, but even if that doesn't happen, he said his company has no intention of leaving. "We are making money now," he said. And even though it's in cordobas, it's still a 15 percent profit, he said.

Since the company is financially self-sufficient, the parent company in the U.S. is determined it is in their best interests to keep the operation here. Their hope is that sooner, not later, the company will be able to repatriate profits without limitations. But, he concluded, "We're doing alright in the mean time."

The United States remains Nicaragua's largest trading partner, purchasing 18 percent of the country's exports. Last year the U.S. consumed dozens of different Nicaraguan products: bananas, meat, shrimp, coffee, tobacco, garments, sugar and furniture. And Nicaragua imports insecticides, paper goods, animal oils, fertilizer, and agricultural machinery here.

Ironically, some of Nicaragua's best U.S. trading partners have included some unlikely candidates. Take the case of Pandol Brothers, Inc., a large agricultural conglomerate based in California's San Joaquin Valley. Sons of Yugoslavian immigrants, the Pandol's total corporate sales in 1983 exceeded $200 million. Jack Pandol, 61, a former member of the California Board of Food and Agriculture (appointed by then Governor Ronald Reagan), and his brother, Matt, 47, distribute all of Nicaragua's bananas in the United States.

Since December of 1982, a freighter from San Francisco has been picking up 2,000 tons of bananas from the Port of Corinto weekly and shipping them to Port Hueneme, California. There the Pandols distribute the produce to grocery stores in California, Oregon, Washington and Western Canada.

"We make about $10 million a year off Nicaragua's bananas," explained a Pandol Brothers spokesperson, who asked not to be identified. "The Nicaraguans come out of this deal with less than $5 million," he added, "But they're still ahead."

Indeed, the Nicaraguans speak fondly of this fruitful if not unusual partnership (the Pandol's ranch was the first to be struck by Ceasar Chavez of the United Farm Workers in 1965 because of their notorious labor practices). The Pandols, who have assisted the Sandinistas in acquiring badly needed farm equipment, agricultural chemicals and other supplies, received token assistance from the Reagan administration. Bill Deaver, administrative assistant to Rep. Charles (Chip) Pashayan Jr. (R-Cal.) and younger brother of White House aide Michael Deaver, set up a national security council briefing for Jack Pandol on Nicaragua.

In spite of occasional assistance for a few American friends and the private sector in Nicaragua (a Reagan-inspired organization, the National Endowment for Democracy, contributed $150,000 to COSEP, an opposition private sector organization and $100,000 to La Prensa, Nicaragua's privately held opposition newspaper, among other groups), the Reagan administration prefers a policy of economic disengagement from Nicaragua. For example, in 1983, the U.S. reduced Nicaragua's sugar quota by 90 percent, forcing it to sell the bulk of its product at the lower world market price.

U.S. officials here contend there won't be an upsurge in American trade until greater confidence is felt from the private sector. This is despite the fact that only two major U.S. companies have been expropriated since the Nicaraguan revolution, according to Paul Reichler, a Washington lawyer who represents Nicaragua. The Neptune Mining Corporation and Rosario Mining Company were nationalized in 1980 as part of the government's efforts to control "critical" natural resources. The Nicaraguans are currently paying a settlement fee of $15.5 million to these mining companies. No other pending litigation or outstanding judgements exist between U.S. companies and the Sandinistas.

As former President Jimmy Carter pointed out in a recent interview, a greater percentage of industry is in private hands in Nicaragua than in Britain. Indeed, Nicaragua has a greater percentage of industry in private hands than either France or the Scandinavian countries.

Ever mindful that it must increase its trading base with the United States, the Nicaraguans are preparing to unveil a new foreign investment law that has been three years in the making. Its purpose is to attract U.S. and foreign trade. This new law, which was written in part by a group of New York lawyers, may bolster the financially pressed Nicaraguan economy.●

KILDEE PAYS TRIBUTE TO THE CHARLES STEWART MOTT FOUNDATION

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KILDEE. Mr. Speaker, a new and exciting trend within the private foundation community is the formation and growth of community founda-

tions. These community foundations can be effective in addressing a broad range of charitable concerns and unmet needs in the home area.

The momentum for this trend was sparked by the Charles Stewart Mott Foundation of Flint, MI. Mott initiated a nationwide program to encourage the formation and growth of community foundations in 1979. By 1981, it had committed $750,000 to community endowments to six areas, from the District of Columbia to North Dakota.

Mr. Speaker, the Mott Foundation has long been recognized in Flint, in Michigan, and indeed, around the world as a philanthropic organization with strong qualities of leadership and foresight. Under the capable leadership of President William S. White, the Mott Foundation, has blazed an impressive course of charitable generosity which has made the decisive difference in literally countless worthwhile projects.

I want to take this opportunity to bring to Members' attention an article which recently appeared in Foundation News. Entitled "Seed Planting, Community Foundation Style," the story highlights this new trend within the private foundation community.

[From the Foundation News, January-February 1985]

SEED PLANTING, COMMUNITY FOUNDATION STYLE

At first glance there is nothing special about this front page headline from the Evening Telegram of Superior, Wisconsin. It reports a 1983 grant by The Bush Foundation of St. Paul, to the Duluth-Superior Area Community Foundation formed earlier that year.

But in fact, that event is something special. For the Bush grant reflects a trend in which a growing number of private foundations are helping to start community foundations.

Last July, indeed, The Kresge Foundation announced a grant of $5 million to the recently formed Community Foundation of Southeastern Michigan. That was the largest grant ever by a private foundation to start a community foundation.

The Kresge Foundation and The Bush Foundation have assets of $792 million and $265 million, respectively. Why should they want to start community foundations in their states?

One answer comes from Kresge Chairman William H. Baldwin. Noting that Detroit is one of the last major metropolitan areas without a large community foundation, Baldwin says that having a strong United Way, and having "strong educational, health and cultural institutions, which we do, is not enough. There remain unmet needs which the community foundation can help to meet."

As a foundation with a national program that directs most of its grants to construction and renovation projects outside of its home area. The Kresge Foundation will, with this single grant, reach a broad range of charitable concerns in Detroit.

As for The Bush Foundation, its grant provides a way to address the needs of a greatly depressed area while relying on the board and staff of the Duluth-Superior Community Foundation, who know their territory.

Duluth-Superior's application to The Bush Foundation described the new community foundation as a way to respond to changing needs of the Mesabi Iron Range communities whose economics have been in decline, to break down long-standing rivalries between Duluth and Superior, to introduce a broadened sense of community, to bridge the gap between the public and the private sector, and to offer a neutral forum in which to respond to area-wide issues and attract outside dollars into a poor region.

Some 2,000 miles to the west, Hugh Burroughs, program officer for The William and Flora Hewlett Foundation of Menlo Park, California, explains Hewlett's grants of $500,000 to each of four community foundations in the San Francisco Bay and Monterey Peninsula areas in this way:

"We are interested in increasing private philanthropy and in having a body to deal with community problems in ways that we, as a private foundation, are not staffed to do."

TREND BEGAN WITH MOTT

The momentum for these important new community assets was sparked by the Charles Stewart Mott Foundation of Flint, Michigan. Mott initiated a nationwide program to encourage the formation and growth of community foundations in 1979. By 1981, it had committed $750,000 to community endownments in six areas, from the District of Columbia to North Dakota.

But the program really reached high gear when Mott budgeted another $1,400,000 to enable the Council on Foundations to start a five-year program of extensive technical assistance to developing community foundations. By far the largest portion is reserved for monetary grants to challenge the growth of some 16 to 20 community foundations, each of whom will receive extended technical assistance.

Since most locations now receiving Mott-sponsored assistance from the Council are themselves foundation-poor, they genuinely need both the flexible endowment and the philanthropic leadership that a community foundation provides.

CORPORATE PARTICIPATION GROWING

Corporate contributors are becoming increasingly involved as well. Over the past five years, the Levi Strauss Foundation and the Aetna Life and Casualty Foundation have instituted grant programs to start and revitalize community foundations in areas where their related business corporations have facilities and interests.

Another major catalyst from the private foundation sector is the Gannett Foundation. From early 1983 through September, 1984 Gannett made $422,000 worth of start-up or revitalization grants to 12 community foundations. Amounts ranged from $8,200 in Fremont, Nebraska to $58,000 in Santa Fe, New Mexico.

"Our purpose" says Gannett President Eugene C. Dorsey, "is to ease the administrative and publications cost burdens of these fledgling foundations so that they can concentrate on obtaining the endowment and other gifts necessary to project new philanthropic resources into their communities." Gannett committed another $300,000 in 1984, which it has repeated this year.

As early grantees in the program are phased out, Gannett will fund start-ups in other of the 170 locations served by subsidiaries of the Gannett Co., Inc., the nationwide communications firm. And as its start-up mission is accomplished, Gannett may shift focus to established community foundations.

MOTT PLUS GANNETT EQUAL MOMENTUM

The incentive to local residents to build community endowments is increased where Gannett Foundation and Mott Foundation interests coincide, as they do in Tucson, Phoenix and the state of Delaware.

The community foundations in such places can hope for up to $100,000 worth of help from these two exterior foundations to defray initial costs of operation—and even more when other corporations or foundations, such as Levi Strauss or the Aetna Life and Casualty Foundation, also take interest. The happy byproduct is more incentive for local action.

Using its Mott grant, the Council on Foundations is able to send into these communities board and staff members from successful community foundations and a technical assistance consultant. Knowing they can call upon outside expertise without cost, local leaders more readily take part in the development of community foundations for their areas.

PRIVATE-COMMUNITY CHALLENGES

Foundations with national and regional programs directed to educational or other specific concerns increasingly are giving support for establishing or revitalizing community foundations in their headquarters areas.

Within the past five years, the Bremer Foundation, Northwest Area Foundation and The Bush Foundation in the Twin Cities, Minnesota, challenged North Dakotans to initiate the community foundation that now serves that state; the Boston-based Jessie B. Cox Charitable Trust has given the new Hampshire Charitable Fund a $200,000 grant to energize community foundations for Maine and Vermont, and a $400,000 grant to stimulate a $1 million fund for depressed counties in Northern New Hampshire; and the Irvine Foundation added $100,000 to a $50,000 gift of the Sacramento Junior League to start a community foundaton for California's capitol area.

Challenge grants from private foundations and corporations provide a classic illustration of leveraging at its strongest. The new Albuquerque Community Foundation has agreed to raise $230,000 to qualify for $45,000 from the Mott Foundation.

The seven-county Coastal Bend Community Foundation of Corpus Christi, started by the Paul and Mary Hass Foundation, asked for and received from the Mott Foundation a nine for one match. It is raising $300,000 to qualify for $27,000 from Mott.

Such challenge grants by foundations and corporations outside a community exert a powerful incentive within it. Once extended, local pride and the desire to draw funds into the community take hold.

Within 12 months of receiving its $750,000 challenge from The Bush Foundation, for example, the Duluth-Superior Community Foundation had in hand gifts and firm pledges of $500,000 to meet the dollar for dollar challenge to build $500,000 in unrestricted endowment. In addition it had $100,000 in donor-advised funds.

Duluth-Superior will receive the remaining $250,000 from The Bush Foundation if it succeeds in raising an additional $1.75 million in gifts.

Even the Kresge grant to Detroit, looming large at $5 million, has an arduous challenge mixed in with so obvious an endorsement. The first $3 million is an outright

gift, but Detroit must raise $4 million to claim the remaining $2 million from Kresge.

INCENTIVE IS ONLY FIRST STEP

Incentive grants to spur a community to create a start-up endowment can yield a rich reward, but they do not by any means guarantee automatic success. The key—as in most of life's undertakings—is still plenty of plain, hard work. No group knows this better than the Greater Tacoma Community Foundation, which was formed in 1981.

The Incentives.—Technical assistance and the carrot of a possible $45,000 toward operating costs extended by the Mott Foundation drew a challenge grant of $270,000 in late 1983 from an anonymous Tacoma foundation.

To meet the local foundation's matching requirements, the board of the Greater Tacoma Community Foundation, within four weeks of the challenge, pledged $330,000 to create an operating endowment that would total $600,000 if a second condition could be met by year-end 1984.

The second condition was that the $270,000 challenge be double matched to establish also a permanent endowment for unrestricted grants.

The Rewards.—If it could meet those challenges, the Greater Tacoma Foundation would add $1,140,000 to its endowment in only 15 months.

Adding to the excitement, a local bank with fiduciary responsibilities expressed its intention to convert $2.3 million of the charitable trusts it administers into component funds of the Tacoma foundation early in 1985—if the challenges were met.

In sum, if all the pieces fell (or could be pushed) into place, the Greater Tacoma Community Foundation would hold assets of nearly $4 million within less than five years of its incorporation—virtual insurance of long term success.

The Risk.—There was, of course, a very real risk that Tacoma would not meet the challenge. Indeed, by last November just two months from the 1984 year-end deadline for raising the $870,000 required to qualify for $270,000 more only $510,000 had been raised.

More than $300,000 still had to be raised within those final 60 days. Board, staff and volunteers scrambled to close pledges already solicited and to reach new prospects.

The Result.—This story has a happy ending. Just before Christmas, Tacoma Executive Director Paul Bender reported that $887,000 had been raised, putting the foundation $17,000 beyond its goal and qualifying it for the $270,000.

Perhaps the most heartwarming moment in that hectic stretch drive come in the form of a $25,000 gift from Tacoma's nearby sister, the Seattle Community Foundation.

The Lessons.—Tacoma's strong closing demonstrate that great value of a challenge grant as a spur to productive action. It also demonstrated that a challenge is indeed hard work, requiring pursuit of immediate pledges from living donors, businesses and private foundations.

The appeal must be to the prospect's vision of the community foundation's potential for service. It requires that the board, staff and volunteers have sufficient commitment, tenacity and clout to convince community leaders that pledging one-time, lifetime gifts to build the foundation's endowment to its take-off point is "the thing to do."

PSYCHOLOGICAL THRESHHOLD

Tacoma's story also illustrates the Catch-22 difficulty of all such community endowments. Before they have $1 million in assets, they lack local credibility. Residents hesitate to make wills in favor of an agency whose permanence, stability, grant and investment capacities may not be assured.

But experience shows that the more the assets of a newly formed or revitalizing community foundation rise above $1 million, the more credibility it has as an enduring organization.

This in turn illustrates the great value of seed grants as well as challenges. "In one year," says Greater Tucson Foundation executive director Donna Grant, "we raised over $1 million when it usually takes five, and now we're close to our second million. It was Mott's investment that gave us credibility for our fundraising in the community."

The seed money from Mott was also important, adds Grant, because Arizona is "foundation poor," making credibility all the harder to establish.

NEED FOR PROMPT ACTION

Recognizing the need to reach the "credibility level" as soon as possible, corporations and private foundations that are funding start-up or revitalization of community foundations are requiring that they plan immediate fund-development campaigns and engage staff to implement them.

To meet the matching requirements that qualified it for the $270,000 challenge grant, leaders of the Greater Tacoma Community Foundation conducted a select-prospect, pyramidal campaign.

"Select prospect" means that only about 100 financially capable donors are asked to contribute. "Pyramidal" means that a few donors at the apex are asked to give in six figures, while at the very base of the pyramid some 40 donors are asked to give in the $5,000 to $10,000 range.

ACCEPTANCE BY LOCAL CHARITIES

Spurred by start-up challenge grants and technical assistance from private foundations, a number of recently formed community foundations have hit the ground running.

This contrasts with the style of earlier decades in which community foundations formed and then patiently waited for benefactors to die. In the process, many of the foundations died before any benefactors were persuaded to bequeath their estates.

Another reason for the faster growth of new community foundations is the demise of the notion that community foundations should not compete with the charitable agencies they are formed to help.

Most agencies now recognize that until a community foundation raises endowment, it cannot help at all.

A good example of this new community understanding is the story of The Heritage Fund of Bartholomew County, Indiana. Several years after its formation in 1977, Heritage began a select prospect, pyramidal campaign to bring its permanent, unrestricted endowment to $3 million.

Within 24 months it had exceeded its goal in pledges from some 85 donors of named funds, payable within three to five years—this in a community with only 65,000 residents! With community leadership clearly favorable to the new enterprise, no opposition developed from other charitable institutions.

Since three Fortune 500 companies are headquartered in Bartholomew County, it is of course not typical of areas of comparable population. As a general rule, the further an area's population is below 250,000, the greater the difficulty a community foundation is likely to have in building an endowment.

Less populous communities do better by attaching themselves as local funds of larger community foundations.

GROWTH NEED NOT WAIT

The traditional assumption that a community foundation must wait patiently for decades to reach an effective size is now being rejected by many, among them the 12-year-old Community Foundation of the Greater Baltimore Area.

Baltimore had accumulated only $3 million by 1983, and less than 2 percent of that was unrestricted. With Mott Foundation administrative support, Baltimore began a select prospect, pyramidal campaign to bring endowment to $10 million within five years. At least half of that was to be subject neither to donor designation nor advice.

The goal of $10 million was selected because the history of nearly all community foundations shows that once they reach that figure, their growth takes off markedly.

With the moral support of local charities and the financial support of businesses—some of whom have contributed unrestricted capital of $200,000 each—Baltimore's community foundation had already attracted 42 named funds totaling over $4 million by early 1985.

Better still, $3 million of this endowment is either unrestricted or committed to broad fields such as the aged or mental health.

Besides Baltimore's strong business support, six private foundations are providing three-year operating support, while another 14 have added more than $1.5 million to the endowment.

EXCEPTIONS

Once of the latter, the Morris Goldseker Foundation, always targets its grants to specific program areas, yet contributed $150,000 in unrestricted funds to the community foundation.

The exception, says Goldseker Director Timothy Ambruster, was made in light of the value of having a public foundation "to respond to needs from all segments of the community in ways which private foundations like ours typically cannot."

Other impressive evidence that a community foundation need not be dependent on the slow growth of maturing wills is provided by the Oregon Community Foundation. Formed in 1973, The Oregon Community Foundation has obtained $28 million from multiple sources in only 11 years—irrefutable evidence that the $10 million "take-off" point can be reached, and passed, in a relatively few years.

Nor is the degree of unrestricted endowment in Baltimore, including that contributed by corporations, necessary unique.

The Cummins Engine Company of Columbus, Indiana and the Mott Foundation also have made significant contributions in this category, as has the Minnesota Power Company, which donated $75,000 of unrestricted funds to the newly formed Duluth-Superior Foundation.

OTHER KEYS TO SUCCESS

In Duluth-Superior, Baltimore and other areas where community foundations are actively campaigning to reach their take-off point for growth, a select prospect, pyramidal campaign is not the exclusive funding method. It is only a means to more rapid start-up growth, or growth to the take-off point.

The community foundations in such places are also seeking bequests and deferred gifts, managing agency endowments and pursuing other traditional ways of building endowments over the long term.

Fulltime staffing by community foundations from their outset, immediate campaigns to bring capital to seven and eight figures, start-up gifts to $5 million by national foundations, unrestricted six-figure grants by locally headquartered businesses, active encouragement by local United Ways and other charitable institutions, purposeful capital campaigning by both new and older community foundations to reach the "take-off" point for growth and service—these are trends that are propelling the growth of the community foundation field in the 1980s.

NOT FOR CITIES ONLY

Such trends promise over the next decade to extend community foundations into most areas with populations over 250,000, including areas that are foundation-poor and hard to reach such as Northern New England, Montana, Mississippi, New Mexico, South Dakota, the Rio Grande Valley of Texas and a host of other places.

Private foundations and corporations are to be commended for enabling these bypassed areas to accumulate and attract charitable capital.

By conditioning their support on the inclusion of less served communities that surround the richer core of a city, Mott and other funders also encourage new community foundations to provide for less wealthy satellite areas.

Aided by the Mott Foundation and joined in community foundation extension by a growing number of its members, the Council on Foundations is pushing to entrench this form of philanthropy in all regions of the United States.

From Tacoma to San Diego on our West Coast and Maine to Palm Beach County on our East Coast, the Council is currently offering start-up help to community foundations and to citizen groups working in Billings, Wilmington, Peoria, and many other areas not currently served.

To minimize false starts and risks of failure, Mott has set the pace among funders that now are requiring local matching funds, and are reserving their help for communities that can demonstrate the resolve, the leadership, the staying power, the resources and the larger population bases needed for successful development.

FOUR GOALS

These are the directions in which the community foundation field is headed: a community foundation to be put in place in every significant population center, revitalization of community foundations whose growth has slowed, purposefully accelerated growth to its take-off point for every community foundation with assets under $10 million, and an increase in permanent unrestricted endowment to give each community foundation a greater capacity to respond to changing needs in its area.

These are objectives of the community foundation field and of the growing number of private foundations and corporations that see community foundations as the prime device for the formation of flexible, private, charitable capital for our nation's communities.

Their ultimate goal is the long-term strengthening of each community's capacity to respond to its own need with private resources raised from local donors.●

MARIANNE MELE HALL RESIGNS

HON. HOWARD WOLPE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. WOLPE. Mr. Speaker, Marianne Mele Hall resigned from the Copyright Royalty Tribunal yesterday after a weeklong public outcry over her role in editing a book that was insulting to blacks—and offensive to all Americans.

Ms. Hall is to be commended for her decision to step down, but in the aftermath of this sad episode, there is a larger and far more important question that needs to be asked.

Mr. Speaker, what has happened to the process by which administration personnel are selected for office?

This latest episode involving Ms. Hall is far from an isolated incident. Over the course of the last 5 years, the list of individuals appointed to positions of influence and responsibility—only later to be found unfit to serve—has grown exponentially.

It all began in the first months of President Reagan's administration when his National Security Adviser, Richard Allen, was forced to resign under a cloud of scandal and controversy. And since that time, the parade of disappointment and disillusionment has continued—seemingly without end. One official after another has been discovered to be unfit or unable to serve.

EPA Administrator Anne Burford. Deputy Secretary of Commerce Guy Fiske. Acting EPA Administrator John Hernandez. Superfund Chief Rita Lavelle. CIA Deputy Director Max Hugel. Veterans Administrator Robert Nimmo. A slew of directors at the Synthetic Fuels Corp. Secretary of the Interior James Watt. Education Department officials Eileen Gardner and Lawrence Uzzell. And now Marianne Hall.

All of these people were put in place through political appointment procedures. And all of these people were later forced to resign under public charges of malfeasance, or incompetence, or gross insensitivity.

Mr. Speaker, something is wrong. Over the course of the next several months, we are all going to have to take a long, hard, sobering look at the procedures by which top administration officials are selected.

When the White House appoints individuals it has selected to "get the job done," we must be assured that those people know what "getting the job done" entails. Senate confirmation hearings must become more than perfunctory exercises, and our own responsibility for congressional oversight cannot be overlooked.●

BITBURG VISIT CAUSES GREAT SADNESS

HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Ms. KAPTUR. Mr. Speaker, President Reagan's visit to the Bitburg Cemetery last Sunday has caused great sadness throughout our Nation. Citizens of Ohio's Ninth Congressional District—which I represent—from all walks of life and all religious and ethnic backgrounds have come to me to express their profound disapproval of our President's visit to the grave site of SS troopers.

In a letter to President Reagan, Rev. George M. Rinkowski, president of the Toledo Chapter of the Polish American Congress and a former military chaplain, articulates some of the reasons many Americans were viscerally opposed to the Bitburg visit. I commend Reverend Rinkowski's letter to my colleagues:

TOLEDO, OH.

PRESIDENT OF THE UNITED STATES,
White House,
Washington, DC.

DEAR MR. PRESIDENT: Please avoid paying homage or giving honor to the members of the German Armed Forces who were rational instruments of an aggression to destroy freedom all over the world. We fought a just war, a Crusade for Freedom, against a ruthless enemy who intended to impose his will over his opponent. Karl Von Clausewitz proclaimed that "Warfare therefore is an act of violence intended to compel our opponent to fulfill our will". The intention is survival of the fittest with no consideration given to the value of human life. In the theory of Clausewitz, the success in war is measured by the amount of materiel captured and the number of prisoners taken. The practice of enslaving prisoners by the World War II Germans is proven in history.

Our principle in war is one of the reasons for our existence as a nation, under God: namely, to provide for the common defense. This is the principle that guarantees that the war is a just war. In warfare it is possible for both sides to be wrong. That would be an unjust war. World judgment condemns Germany as aggressor, and acclaims the Crusade for Freedom as a just war fought by the allies.

The amnesty granted to prisoners and members of the German armed forces was an act of reconciliation which we would not have received from the aggressors. This amnesty was not given to those leaders who were judged as criminals, condemned and executed or imprisoned, some to this very day. They were condemned because they committed crimes against humanity. One of every five, over twenty percent of Polish Citizens were killed by the aggression. Half of that number in concentration camps.

War is not a game in which opponents are striving for a legitimate prize. A nation is not allowed to expose itself to annihilation. It must fight for its existence. We justly fought for our own continued existence and that of many other nations and secured that existence.

To give honor to the aggressor soldiers would validate the aggression in which they were human instruments making it possible for the inhumanities in the war and in the concentration camps to happen. We destroyed the material instruments of war. We granted amnesty to the human instruments. If we honor the aggressor warrior in the acts of aggression, we equate those acts with the heroism of those who won the crusade for freedom.

Mr. President, please do not validate the aggression of forty years' ago by exonerating them from the stigma of an unjust war and honoring them for aiding and abetting the terrible inhumanities whose evil effects will not be erased in the foreseeable future.

The wounds of wars suffered by 28.5 million veterans in our land would be opened again. Their acts of heroism would be rated as equal to acts of aggression perpetrated by war criminals. It seems that the correct evaluation of the request by Mr. Kohl might be a politically calculated act to validate a former aggression and exonerate their actions. The presence of SS troops makes any consideration of giving honor far worse. It seems that the only reason for the existence of the SS troops was to perform acts of atrocity against human beings.

You are Commander in Chief of the Armed Forces and chief of all the veterans. Consider what effect an act honoring the former aggressors would have on these men and women who now serve and those who formerly served to guarantee freedom in our world.

Sincerely and respectfully submitted,
REV. GEORGE M. RINKOWSKI,
Former Chaplain in the Army and Air Force of the United States of America.●

PAULETTE PIDCOCK HONORED

HON. MARJORIE S. HOLT

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mrs. HOLT. Mr. Speaker, I am proud to call attention to an outstanding woman in government relations, Paulette Carnicelli Pidcock, who justifiably won recognition from the Women in Government Relations, a national organization, in the following article from its 1984 annual report. Ms. Pidcock is employed with the Baltimore Gas & Electric. Co.

1984 DISTINGUISHED MEMBER

Selection of WGR's Distinguished Member requires extensive research into the depth and diversity of the nominees' of service. Both quantitative and qualitative contributions are considered. Personal leadership, initiation of ideas and enhancement of WGR's visibility and reputation in the Washington community are all criteria toward the selection decision.

Paulette Pidcock has provided consistently outstanding service to Women In Government Relations since becoming a member in 1977. Her leadership and vision became obvious early on when, as chair of the fledgling Member Relations Committee, she recommended and produced the first member handbook, one of our most valuable tools to this day. As editor of the WGR Newsletter, Paulette professionalized its appearance, upgraded and enlarged its news content and set up a system to attract outside subscribers to promote the organization and generate new revenue.

Paulette was elected WGR Treasurer at a critical time in the organization's growth. Under her leadership, WGR's financial picture improved markedly, primarily because of her development of investment and budget planning. She instituted a Finance Committee, quarterly financial statements and committee review and audit procedures.

As chair of a specially-appointed Special Projects Committee, Paulette produced the first of several Public Policy Forums which provided visibility for the organization among colleagues, government officials and the media unparalleled in our history. Her service as an elected Board member and as member of numerous committees has been outstanding, innovative and constant.

As WGR's President in 1982-83, Paulette brought a fine sense of both organization and leadership to the group during a period of intense growth. She brought WGR to a new level of service to its members. Her dedication to detail, planning and administrative efficiency stand us in good stead today.

Paulette's service to profession and community go well outside the bounds of WGR. She is a recognized leader within her industry and at the forefront of women's activities in Washington's professional community. She is an example to all as she constantly seeks to learn new things, try new dedications and share her talents in so many areas.

Beyond her outstanding record in very visible service, Paulette has always offered those special qualities which distinguish her among her peers. Her gracious and calm manner—with a flash of Italian Pizzazz—along with her personal style of confidence, curiosity and originality have long made her a role model among us. She is always willing to share her advice and counsel with younger women looking for ways to advance. She is just as generous with her time among long-time friends and colleagues.

She has truly distinguished herself as leader, participant, student, teacher, counselor and friend. She is a very special woman.●

THE POTENTIAL HARM OF THE TREASURY DEPARTMENT'S TAX SIMPLIFICATION PROPOSAL

HON. MICKEY EDWARDS

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. EDWARDS of Oklahoma. Mr. Speaker, President Reagan is scheduled soon to receive the Treasury Department's tax simplification proposal.

I have many reservations about the original draft of the Treasury plan because of its potential harm to the energy industry through the elimination of tax incentives for oil and gas producers.

Someone else who shares my concerns about the adverse effects of this proposal is Donald Lambro, a commentator for National Public Radio.

Because he and I are of like mind on this important issue, I am inserting in the RECORD a transcript of his commentary which was broadcast on March 25, 1985.

Treasury Secretary James Baker is now in the midst of quiet negotiations to work out a compromise tax reform plan.

Every provision in the Treasury's tax simplification plan, Baker says, is negotiable. But he warns that every loophole that stays in the tax code adversely affects how far tax rates can be lowered.

He also warns that reducing tax rates and closing loopholes will mean higher taxes for businesses.

And that is exactly what's in store for many businesses if the Treasury's misguided plan is adopted.

One of the major reasons for tax reform is to improve incentives for work, savings, investment and economic growth.

But some of the administration's proposals to broaden the business tax base would in fact impede economic growth.

For example, if proposes eliminating the 10 percent investment tax credit which has allowed businesses to cut nearly $30 billion a year in investment costs from their tax bills.

And it would replace the system of accelerated depreciation of plants and equipment with a much lower tax deduction schedule.

The effect of this says supply-side economist Paul Craig Roberts, "is to worsen [investment] incentives and to raise the cost of new capital."

True, the Treasury plan would reduce corporate tax rates by 28 percent. But that would be more than offset by a 170-percent increase in the business tax base for new investments.

This will hit America's aging industrial plants right in their smokestacks, robbing them of the new investment they must have to become competitive both here and abroad.

Eliminating current tax preferences for new investment will also hit small, unincorporated businesses.

What all of this means is that the income base on which businesses can be taxed will be raised at the expense of new capital investment. This will discourage investment and that in the long run will stunt economic growth.

Somewhere along the way to President Reagan's desk the Treasury's tax reform plan lost sight of one of its chief purposes: encouraging new investment and business expansion.

If the president's tax reform plan is to win public support, it must meet at least three tests.

It must retain and expand incentives for increased capital investment.

It must encourage new business formations and job creation.

And it must broaden incentives for savings.

Unfortunately, the administration's reform plan fails to pass these tests.

This is Donald Lambro . . . in Washington.●

ALFRED D'ALESSANDRO, MASSACHUSETTS SMALL BUSINESSPERSON OF THE YEAR

HON. NICHOLAS MAVROULES

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MAVROULES. Mr. Speaker, I would like to take this opportunity to acknowledge Mr. Alfred D'Alessandro of Gloucester, MA, who is in Washington this week being honored as the small businessperson of the year from Masssachusetts.

Mr. D'Alessandro, owner and president of AID-PAC Corp., brings credit not only to our State and his profession, but also to all small business men and women in the United States.

Mr. D'Alessandro is a leader in the packaged liquids field. Using technology first developed overseas, his company has successfully marketed a process whereby raw plastic is blown into molded bottle shapes, is then filled with the liquid to be packaged, and is finally hermetically sealed, all in one continuous operation.

Most importantly, AID-PAC Corp. has developed a number of innovations such as the first plastic bottle approved by the FDA for packaging biological solutions used in reconstituting human blood.

When a large domestic food corporation refused to develop Mr. D'Alessandro's packaging techniques, he formed AID-PAC in 1971. Today, the company has grown to employ over 100 persons with projected sales of over $5 million this year.

Mr. Speaker, all Americans can take pride in the accomplishments of Mr. Albert D'Alessandro and the other small businesspersons of the year who are being honored here this week. They are continuing the tradition of innovation which has served to place the small business sector in the forefront of the Nation's economic growth.●

BONN DRUG TALKS

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. RANGEL. Mr. Speaker, as chairman of the Select Committee on Narcotics Abuse and Control, I was pleased to read accounts in the press last weekend that the seven heads of government meeting at the Bonn economic summit held impromptu discussions on international drug trafficking.

These unscheduled talks apparently took place when President Reagan raised the issue as he and his summit partners were sitting down to a state dinner. Noting the First Lady's strong interest in the problem of drug abuse, the President reportedly told the other world leaders that stopping "international drug trafficking requires international cooperation." What followed was a spontaneous, hour-long discussion during which, according to the Washington Post, "It was noted that harvests of opium and coca, as well as the seizure by police of their addicitve derivatives heroin and cocaine, have reached record levels." British Prime Minister Margaret Thatcher, "echoed by other leaders," reportedly called for strengthening international cooperation against drug trafficking. Afterward, a happily surprised President Reagan was reported to have said that, "Never have I seen my summit partners so united and determined on a single subject."

Mr. Speaker, four reports issued earlier this year, by the U.N. International Narcotics Control Board, the State Department, the House Foreign Affairs Committee, and the House Select Committee on Narcotics Abuse and Control, all indicate that worldwide production of illicit narcotics crops is expanding. Our Select Committee on Narcotics estimates that in 1984, 85 tons of cocaine, 10 tons of heroin, 15,000 to 16,000 tons of marijuana, and 200 tons of hashish entered the United States. We are not the only vicitms of this trade, however. Heroin, and now ever increasing amounts of cocaine, are finding a ready market in Western Europe. Producing and transshipment countries around the world are discovering that they, too, are victims of the drug traffic as growing numbers of their citizens fall prey to drug abuse.

Clearly, nothing short of an all-out, concerted international assault on narcotics trafficking will succeed in stemming the worldwide drug trade and the misery of drug abuse it causes. I commend the President for raising this issue at the recent summit and elevating narcotics control to the top priority it requires if we are to make any progress against the scourge of drug abuse and drug trafficking. I hope the conference in Bonn was just a start. I hope the President, encouraged by the strong interest and concern of the other world leaders, will continue to use every international forum available to him and our country, including the United Nations, to press for strong international action against drug trafficking. I hope that, following the successful example of the First Lady's meetings in Washington to discuss drug abuse with the first ladies of 17 other nations, President Reagan will give serious consideration to convening a summit conference to devise effective international strategies for attacking the drug trade.

At this point, I insert in the RECORD for the information of my colleagues articles from the Washington Post and the New York Times describing the drug talks at Bonn summit.

[From the Washington Post, May 4, 1985]

UNSCHEDULED TOPIC OF DRUG TRADE FINDS RARE UNITY AMONG LEADERS

(By William Drozdiak)

BONN.—As the summit's seven heads of government sat down last night to a sumptuous dinner of salmon and veal in lavender honey sauce, they bewildered their aides by launching into a spirited discussion of international problems posed by the proliferation of drug trafficking.

In what White House spokesman Larry Speakes called an "unexpected twist" in their first group encounter, the seven leaders spoke for nearly an hour about the urgent need to tame the blight of drug addiction in all of their countries.

The catalyst happened to be Nancy Reagan's antidrug campaign, which she is pursuing in Rome while her husband participates in the seven-nation economic summit here. The first order of business among the industrialized world's leaders, even before soup was served, evolved out of Reagan's offhand comments about his wife's trip.

The first lady drew praise for her crusades, which has enlisted the help of numerous spouses of foreign leaders, including the wives of Prime Minister Brian Mulroney of Canada and Bettino Craxi of Italy. Mrs. Reagan's recent summit of first ladies in Washington publicized the common threat that industrialized as well as developing countries now face from widespread drug abuse.

British Prime Minister Margaret Thatcher, echoed by other leaders, said it was now all the more imperative to strengthen international cooperation in fighting the drug trade.

It was noted that harvests of opium and coca, as well as the seizure by police of their addictive derivatives heroin and cocaine, have reached record levels.

Reagan, happily surprised by the intense interest shown in the subject, remarked that "never have I seen all my summit partners so united and determined on a single subject."

Before tackling their normal agenda of trade and political issues, the seven leaders decided to instruct their foreign ministers to hold a special discussion today to find ways of enhancing cross-border cooperation among drug enforcement agencies.

"We have picked up another assignment, which was unexpected." Secretary of State George P. Shultz told reporters today. "It wasn't on our agenda, particularly. It emerged from the discussion by the heads of state on this subject, and it may very well be that one of the most important people to this meeting is not here—namely, Nancy Reagan."

[From the New York Times, May 4, 1985]

PROBLEMS OF DRUGS IS RAISED IN BONN—U.S. AND BRITAIN LEAD SESSION ON STRONGER BATTLE AGAINST NARCOTICS TRAFFICKING

(By John Tagliabue)

BONN.—Participants in the seven-nation economic conference here spent much of their time today discussing the worldwide battle against drug abuse.

A Reagan Administration official voiced doubts that "anything specific will come out of this meeting."

But he said the foreign ministers, attending the conference had already "made a good deal of progress in just raising the international consciousness on the subject."

West Germany's Foreign Minister, Hans-Dietrich Genscher, said experts from the seven nations would continue the discussions within the framework of international organizations, like the United Nations.

The White House spokesman, Larry Speakes, said drugs emerged as the major topic at a state dinner Thursday evening when President Reagan raised the issue, telling the world leaders that stamping out "international drug trafficking requires international cooperation."

TOPICS OF CONCERN TO MRS. REAGAN

The President was evidently following up on an issue that his wife, Nancy, has shown a major interest in as First Lady.

Last month, Mrs. Reagan was host to a White House meeting of 17 first ladies from around the world that she called to discuss ways of battling drug abuse. On Thursday, as part of the Reagans' official state visit to West Germany, the First Lady presented a check for $5,000 from the National Federation of Parents for Drug-Free Youth to the Parents' Circle, which represents West German parent groups, to be used in the fight against drugs.

Later on Thursday, Mrs. Reagan went to Rome, where she will meet Pope John Paul II on Saturday for talks that will include a discussion of the drug problem.

Referring to Mrs. Reagan's efforts, Secretary of State George P. Shultz said at a news conference that "one of the most important people in this meeting is not here—Nancy Reagan."

MINISTERS ALSO MEET ON DRUGS

Mr. Shultz said a Friday morning discussion by foreign ministers, centered on drug production and trafficking and its connection with international terrorism. That issue has occupied leaders at the conference several times in the past, and led to a declaration on fighting terrorism that was issued at the 1984 meeting in London.

Mr. Shultz said the foreign ministers' discussions produced "a general raising of the perception on this problem."

"It was not on the agenda particularly," Mr. Shultz said, "it just emerged."

Although such statements gave the impression that the talks were spontaneous, officials indicated that delegations from several countries, including the United States and Britain, arrived prepared to tackle the issue.

Mr. Speakes said the President told a staff meeting afterward, "Never have I seen my summit partners so united and determined on a single subject."

THATCHER EXPRESSES ALARM

British officials described Prime Minister Margaret Thatcher as being particularly alarmed by the rapid spread of drug trafficking. The Prime Minister, they said, pointed out that production and seizures of heroin and cocaine were at a record high and said the price of heroin was higher than the price of gold.

Officials said Mrs. Thatcher painted a decidedly gloomier picture about the world drug problem than Mr. Reagan, who seemed optimistic that some progress was being made in the fight against traffickers.

A British official said an idea was raised to have the seven-nation economic meeting next year, planned for Tokyo, formally take up the drug problem, just as the 1984 economic meeting in London dealt with terrorism.

Italian officials said Italy's Foreign Minister, Giulio Andreotti, describing drug abuse a scourge "worse than war," called on the seven nations to increase cooperation among lawmakers and police officials, to improve education efforts to teach people about the dangers of drugs and to increase aid to organizations like the United Nations that are fighting drug trafficking.●

SALUTE TO INDIANA'S RURAL ELECTRIC SYSTEM

HON. JOHN T. MYERS

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MYERS of Indiana. Mr. Speaker, any celebration of the 50th anniversary of the creation of the Rural Electrification Administration would not be complete without an account of Indiana's role in taking electricity to rural America.

The Indiana General Assembly first approved the Indiana Rural Electric Membership Act on May 5, 1935, 6 days before the Presidential proclamation that established a nationwide program.

Indiana's law became the model for other States passing rural electric legislation. I. Harvey Hull, general manager of Indiana Farm Bureau Cooperative at that time, spearheaded the effort to bring electricity to rural Indiana.

Hull's quest for rural power may have begun when his own farm was electrified in 1922. By 1933, he was discussing with congressional leaders the feasibility of a farm cooperative taking electricity to rural area. The following year, 1934, Hull and other Farm Bureau personnel traveled to Europe for an international cooperative conference. When he learned that 65 percent of rural Norway and Sweden could be electrified, compared to only 10 percent in America, Hull decided that Indiana could do as well and he began drafting the necessary legislation.

Immediately after Gov. Paul V. McNutt signed the Indiana REMC Act, the Farm Bureau board created the Indiana Statewide REMC [now REC] to promote local electric co-ops and provide them with various services.

Men and women from throughout the State volunteered their time and powers of persuasion to sign their neighbors up for electricity. All it took was $5 and you were a member of the rural electric cooperative.

Today, Hoosier REMC's have a total membership of more than 323,000. The largest REMC system in the State is Morgan County REMC with 19,910 members; the smallest is Newton County REMC with 1,312.

In the past 50 years Hoosier REMC's have built 48,566 miles of line, enough to circle the Earth twice. In 1935, only 11 percent of Indiana's rural areas had central station electricity. Today, 99 percent have power.

Being energized is perhaps the fondest memory of many rural folks in Indiana. "It improved our lives 100 percent," one member said. "It was just like a new world. Just like opening the door into something that you never expected to have, " another echoed strongly.

Yet they had it, thanks to Hull and the other Indiana pioneers who acted on their dreams of electrifying the countryside. And 50 years later, Indiana statewide is still out front in service to the people of Indiana.

Congratulations on your 50th birthday. May you have many, many more.●

HONORING FRANK PASQUERILLA

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MURTHA. Mr. Speaker, on May 19 the Sons of Italy will honor Mr. Frank Pasquerilla in Johnstown, PA. Frank Pasquerilla's service to his family, his community, and his Nation are in the highest American tradition, and symbolize what our great Nation stands for in the world.

Frank was born in Johnstown and raised by old Italian traditions stressing a close family and devotion to community, family, and religious strength. At age 12 he was selling newspapers, as a teenager he was working as a short-order cook, as an adult he owned the building where he sold papers as a child.

In thinking about Frank Pasquerilla, I am reminded of a quote used by Senator Robert Kennedy during his 1968 Presidential campaign. "Some men see things as they are and ask why; others dream of things as they should be, and ask why not?"

In his personal life, Frank Pasquerilla embodies the American dream. An individual who made his own way, reached success, and has used his success to help others achieve their own potential.

In his public life, I have worked with Frank Pasquerilla on project after project to benefit the community. Saving Bethlehem Steel in Johnstown. Attracting Metropolitan Life to the area. Keeping the Flight Service Station at the Johnstown-Cambria County Airport. Not a year has gone by that I have not been involved with Frank Pasquerilla in some community project; and not a year has gone by that we have not been successful.

In his private, unpublicized contributions to the community, he contributes his time to church and community activities, and uses the facilities at his disposal such as a corporate jet to transport patients and injured individ-

uals to hospitals and to help the community leaders travel to promote Johnstown and attract jobs to the area.

There will be a long, and very deserved list of accomplishments, positions attained, and signs of success noted at this dinner. But having known Frank Pasquerilla, and having enjoyed the opportunity to work with him, I am confident in closing by saying that what we appreciate most, and what we join in honoring Frank for tonight, is because of the individual he is, his friendship, his kindness, his consideration, and his thoughtfulness.

In participating in this tribute, I hope we are saying a proper appreciation for those qualities that we have all enjoyed so much and benefited from over many years. We look forward to continuing the partnership for many more years.●

CASE STUDY OF A FAILED LOAN: IDEAL WIRE'S COSTLY COLLAPSE

HON. DAVID DREIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. DREIER of California. Mr. Speaker, today I am submitting for the RECORD part 3 of a five-part investigative series, published in the May 7 issue of Newsday, on improper loan practices involving Long Island small businesses which were financed by the Federal Small Business Administration. I recognize that it is impossible for the SBA to insure that all of its loans are being used for legitimate business purposes. However, I think that Congress has a particular responsibility to see that the taxpayer's hard-earned dollars are being used to benefit the nation as a whole, rather than just a select few individuals—whether it be through improper dealings, agency mismanagement, or a lack of legislative foresight.

[From Newsday, May 7, 1985]

CASE STUDY OF A FAILED LOAN: IDEAL WIRE'S COSTLY COLLAPSE

Two phone calls made by the right people show how politics and money can facilitate Small Business Administration loans on Long Island.

The first call was placed late in 1982 by former Suffolk Republican leader Robert Curcio Sr., paid consultant to a Holbrook company seeking a $500,000 SBA loan. Curcio called Peter Neglia, the Reagan administration's new SBA regional director and son of an old political contact. Curcio wanted to know why the SBA wasn't making the loan.

Neglia made the second call. He said he phoned one of his subordinates, Walter Leavitt, the SBA's top official on Long Island, and asked the same question—why wasn't the company getting the loan?

After Neglia's call, records show, Leavitt and another senior SBA official overruled an SBA loan officer and approved the loan to Curcios' client, the Ideal Wire Manufacturing and Coating Corp., whose president, Walter R. Lehmann, had a history of failed businesses and unpaid debts.

Curcios' services didn't come cheap. Newsday has traced a series of checks totaling $28,000 issued by Ideal Wire to Curcio—checks described by Lehmann as payment for Curcio's help in getting the SBA loan. These payments were not disclosed to the SBA as required by federal law. Leavitt said that the sum was excessive for SBA consulting—"out of sight," in his words—and that the SBA would have investigated if the proper disclosure had been made.

The transaction also was costly in another way—for the taxpayers and dozens of companies, large and small, that did business with Ideal Wire. Ideal made four payments on the loan after the SBA approved it in January, 1983, then defaulted with $498,512 of principal still owed. The company filed for protection from creditors under the Bankruptcy Act. Besides the SBA debt, Ideal's collapse left behind $158,104 in unpaid taxes and $527,447 in unsecured debts to creditors, the companies that sold materials or services to Ideal.

The Ideal Wire story provides a case study of a failed SBA loan that mirrors some of the arguments in the current national debate over whether Congress should go along with the administration's efforts to abolish the agency.

SBA critics charge that the agency has approved loans to companies with questionable financial backgrounds; that some loans have been influenced by politics or payoffs; and that banks and other financial institutions that fund SBA-guaranteed loans don't always screen applicants carefully because 90 percent of any loss is covered by the government.

The Ideal Wire loan came from an SBA-certified lender, the Money Store of New York, which screened the initial application and recommended it to the SBA for approval. The Money Store of New York was then headed by Steven Gurian. He also is president of the Long Island Development Corp., a quasi-governmental corporation set up by Nassau and Suffolk counties to facilitate SBA and other government loans for Long Island businesses. Newsday reported Sunday that Gurian has had consulting deals and other financial involvement with borrowers described as improper by county and SBA officials.

Court and SBA records, internal Ideal Wire records, bank memos, and interviews disclose a number of irregularities that pose ethical questions about the Ideal Wire loan:

Gurian has acknowledged that he knew, and failed to tell the SBA, that Curcio had been a consultant to Ideal on the loan. He also concedes that Curcio's role was not disclosed on the government forms as required by law. And, Newsday has learned, a year after the Ideal loan, Gurian and Curcio were trying to form an SBA-certified lending company of their own. Curcio, however, says that he abandoned that plan when he learned that Newsday was looking into Gurian.

The Money Store and SBA approved the loan despite public records that raise questions about the collapse of Lehmann's previous company, Ideal Fence Supply Co. Inc. Records show that in 1981 the company claimed an inability to pay $250,000 in debts. During the year before the company failed, records show that Lehmann and his father took $459,829 more than their salaries out of the company. They explained the extra money as loan repayments. The bankruptcy file contains no further documentation of such loans. A judge eventually dismissed the bankruptcy petition because of Lehmann's failure to provide the required financial reports and reorganization plan for the company.

When the Money Store and SBA approved the $500,000 loan to Ideal Wire, Lehmann's personal credit rating was so poor that court records show he had to make his 20-year-old daughter the company's sole stockholder. He had an unsatisfied $168,000 judgment against him, and an official of his main bank, Long Island Trust Co., said in an internal memo that Lehmann's personal guaranty on loans "had no value."

Although SBA officials say the loan is secured by solid collateral—Lehmann's house, some vacant property and Ideal's machinery and inventory—other documents raise doubts. Lehmann moved Ideal's machinery and inventory to a suburb of Buffalo without notifying the SBA, and Leavitt has conceded that the SBA probably won't recover anything from it. Leavitt said SBA efforts to foreclose on Lehmann's real estate have been snagged—court records show competing claims from another debtor and a counter-suit by Idea.

In that suit, Lehmann charges that most of the SBA money he thought he was getting to revive his business was instead illegally diverted by the Money Store to pay debts Lehmann owed to banks. SBA rules forbid granting loans for what they call a "bail out"—in other words, to "pay off creditors who are in a position to sustain a loss." Gurian denied that was done, but records show that during the loan closing, two checks were issued to satisfy old bank debts; $162,212 to Long Island Trust and $50,000 to Barclay's Bank.

Lehmann has not responded to numerous phone calls and a letter requesting an interview, but he has given his version of events in court depositions and testimony during the ongoing Ideal Wire bankruptcy proceeding. Records show Lehmann came to the loan-closing with Curcio but without an attorney. Lehmann said he expected to get most of the money "for new inventory and equipment and working capital for Ideal." However, he said, "as soon as I signed over the check from the SBA, the Money Store took its fees and then oversaw the passing out of checks to various prior secured creditors, almost totally exhausting the available funds."

Lehmann said: "As it turned out, all I received was a sort of loan consolidation, which hopelessly encumbered my property, and as no capital was transferred to Ideal, its demise was assured, thus leaving me with no income to repay these obligations."

Records of the loan-closing do not fully support that assertion, but they do show that Lehmann did not get all the money supposedly earmarked by SBA for working capital. The records show that checks totalling $110,600 were issued for machinery and equipment for Ideal and that $386,840 was deposited into an Ideal bank account for working capital. However, the checks to clear the old bank debts, totaling $212,212, were then drawn from that account. Lehmann said the Money Store's lawyer, Roslyn Goldmacher, "stated to me words to the effect, 'This won't leave much for Ideal, will it?' " Goldmacher has not returned repeated calls from Newsday.

Gurian said he first met Curcio when the former Republican leader, who is a real

estate broker, approached him about the Ideal Wire loan. "He represented himself as their business consultant," Gurian said.

Federal law allows SBA loan applicants to hire consultants to help them get loans, but their identity and the fee must be disclosed on the application, and the SBA must make a ruling that the fee is reasonable in comparison to work done by the consultant. Leavitt said the SBA would almost certainly have rejected a fee as high as Curcio's. The SBA also prohibits contingent fees in which the size of the fee depend on the success of the application.

Gurian said he told Curico about these rules: "I warned him just like I warn everybody else . . . right in front of the client. The client has to sign in three places, and if he puts you down as a business consultant, nothing wrong with it, perfectly all right, but then you must fill in a compensation agreement form which says this is what you did, this is how long it took you, this is what you normally charge to your best customer . . . Then the government approves or disapproves."

Gurian was shown copies of the $28,000 in Ideal checks to Curcio. Two of them, totaling $13,000 are marked "consultant for SBA," the others do not bear any notation as to their purpose. One check for $4,000 bounced for insufficient funds. The checks began in August, 1982, and continued into April, 1983, spanning the period in which the loan was considered and approved by the Money Store and SBA. Ideal's books for August, 1983, show an additional $500 payment to Curico.

Of the checks, Gurian said: "If the FBI picks this up, or the U.S. Attorney's office picks this up, they have a basis for going against him on a fraudulent statement in order to induce us to make the loan." Gurian added: "I knew that he [Curico] had received a large amount of money in comparison to what a business consultant would normally charge or have approved by the SBA. I had no idea it was this amount."

Why hadn't he required that the application disclose Curcio's role? Gurian replied: "I'll tell you something, you know—I don't want to know. I'm not the keeper of the keys. I'm here as an advocate of a small businessman. If I had to be the keeper of the morals of all the small businessmen and what they do and how they do it. I couldn't."

The SBA's Leavitt said Gurian's silence was improper in view of the close working relationship between the Money Store and the SBA. "I don't agree with him," Leavitt said. "Technically, he's not a policeman. But we're partners, and one partner should tell the other partner what's going on."

Newsday tried to interview high-ranking officials of the Money Store—the largest maker of SBA-guaranteed loans in the country—about the Ideal Wire loan and others issued by its New York subsidiary formerly headed by Gurian. Gurian retired as president of the Money Store of New York last year but says he remains a paid consultant to the parent company.

Alan Turtletaub, president of the Money Store, initially agreed to an interview. But then he broke two appointments and failed to return several phone calls. Then he said that no interviews would be allowed, that the company would only answer written questions, and that he would not comment further.

Lehmann's court papers allege that the Ideal Wire loan is under federal investigation, and Newsday has independently confirmed that federal prosecutors are looking into that loan and others made by the Money Store of New York.

Curcio, Ideal's consultant, is a veteran of Suffolk Republican politics but has not been publicly active in recent years. He became Babylon GOP leader in 1964 and county leader two years later. In 1967 Newsday published a series of stories on Islip land and zoning scandals that involved some of Curico's closest political allies. In that years' elections, the GOP lost three towns—Islip, Babylon and Huntington—and the party ousted Curcio as chairman.

Curcio said he has continued attending political affairs and through them became friends with Joseph Neglia, the father of Peter Neglia. The elder Neglia is a Republican district leader in Brooklyn. "I'd go to the Brooklyn dinners; they'd invite me. That's how I met Joe. . . We're old friends." He said their friendship goes back at least 15 years.

Curcio said he couldn't recall any details of his phone conversation with Peter Neglia about the Ideal Wire loan. Neglia, who has been promoted to acting SBA chief of staff, confirmed that Curcio called him about the loan and that he called Leavitt to ask him about the loan and that he called Leavitt to ask what was the problem. But Neglia said he never pressured his subordinates to approve the loan.

SBA records show that loan officer Frank Guarino had rejected the Ideal loan for "lack of reasonable assurance of ability to repay loan (and other obligations) from earnings."

Curcio said his consulting work for Ideal Wire involved more than just the SBA loan. "I did a million things for this guy over a three- or four-year period," he said, including taking Lehmann to private lending institutions and trying to find investors for the company. Curcio said that at his suggestion, he and Lehmann and their wives went to a Republican testimonial dinner for Neglia; Ideal records show the company paid $250 for tickets.

During a hearing, Jules Speciner, the lawyer handling the bankruptcy case, asked Lehmann under oath about Curcio's role. Lehmann replied: "He was an adviser for—during the period I was looking for an SBA loan."

"What kind of advice did he give you?" Speciner asked.

"Packager, a go-between, between me and the SBA or Money Store structure, as an adviser," Lehmann said.

Later in his testimony, however, Lehmann added: "I think this was an ongoing thing for other things. It was not only for the SBA."

SBA officials defended their handling of the loan and said they expected to recover all of the loss from collateral. "We felt that based on the information submitted, the projections seemed reasonable, and the fact that the previous business went under doesn't mean it will be repeated," Leavitt said. "We felt we were pretty well secured and he had a reasonable chance of making it."

The collateral is Lehmann's East Islip home, which he testified is worth about $300,000, and some vacant industrial land in Holbrook, which he valued at about $95,000. The SBA also holds a lien on the company's machinery and equipment.

But for now, the collateral situation is confused. Last year, Leavitt said, SBA officials were surprised to discover that Lehmann, without notifying the SBA or bankruptcy court, had suddenly moved all of Ideal's property to Tonawanda, a Buffalo suburb. "Over the weekend, he moved everything he owned," Leavitt said. There is an Ideal Fence Co. office in Buffalo, and a woman who answered the phone confirmed that Walter Lehmann worked there. He did not return calls.

Leavitt said he was not familiar with Lehmann's Buffalo activities. He added, though, that the SBA probably would not recover anything on the machinery because Long Island Trust holds the right to collect the first $150,000 from any liquidation sale. Lehmann has debts to the bank stemming from the collapses of Ideal Fence on Long Island and Starfish Marine, an earlier Lehmann business that also failed.

Leavitt said he was confident, however, that the SBA would make out well in the resale of Lehmann's house and real estate. But court records show that foreclosure attempts have been complicated by a lien on the property, also held by Long Island Trust. Leavitt said he did not know when the case would be resolved.

Curcio and Gurian said their efforts last year to form an SBA lending company of their own had nothing to do with the Ideal Wire loan. Gurian said they wanted to form a small business investment corporation, a form of licensed SBA lender that makes loans combining SBA and private funds.

As part of their efforts, Curcio said, he went to Suffolk County Executive Peter Cohalan and asked that Gurian be named an unsalaried financial adviser to the county. Gurian said he thought that such a title would enhance his chances of getting SBA approval for the new investment corporation. But the county appointment never came through.

Gurian said he had been seeking at least $3 million in investment capital for his joint venture with the former Suffolk GOP leader. "Curcio suggested that he would raise the funds because he had heavy hitters in his entourage," Gurian said. Both men said no money was ever raised. Curcio said: "I tried to put some people together and I put an awful lot of time in on the thing, and when I heard that Gurian was being investigated [by Newsday] I stopped pursuing it . . . I certainly didn't want people that I was approaching to make an investment to be embarrassed."●

RECOGNITION OF CARES

HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Ms. KAPTUR. Mr. Speaker, this month Lucas County, my home county, is recognizing one of its finest civic organizations. Its name is Toledo-Lucas County CARES. The acronym, ever-so fitting, stands for chemical abuse reduced through education and services. CARES is a coalition of concerned citizens working within Lucas County to reduce chemical abuse among youth.

Formed in 1982, as a result of the alarming increase in the level of drug and alcohol abuse among our communities' young people, CARES facilitates the development, implementa-

tion, and evaluation of countywide efforts to reduce the drug and alcohol problem through the application of prevention, treatment and rehabilitation programs. The organization is chaired by volunteers from the Junior League of Toledo, Inc., with staff support from the Criminal Justice Coordinating Council.

CARES has been tremendously successful because parents, educators, service providers, law enforcement officials, concerned citizens, and young people themselves have come together for the common good. Our community is a better place because of CARES and the people who make it work. On behalf of all the people of Ohio's Ninth District, I offer CARES the congratulations, best wishes, and appreciation of a grateful community.●

CONGRESS WANTS THE PRESIDENT TO PRODUCE A NICARAGUA POLICY

HON. MICHAEL D. BARNES

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BARNES. Mr. Speaker, on April 28 the New York Times ran a very thoughtful editorial on our Nicaragua debate. As the Times points out, the administration does not have a Nicaragua policy, and the actions it is taking will not lead to the achievement of the objectives it professes to be pursuing.

Pressure is a tactic, not a policy. What is our policy? What do we want, and what price are we prepared to pay to get it? Does it make sense to seek the overthrow of a government, when the means that we are prepared to employ will not accomplish that objective, but will instead work against other objectives that we should be seeking, such as a political opening in Nicaragua and a diplomatic settlement in Central America? As the Times asks, "Where are the lists of American demands, distinguishing between intolerable threats to our security, justifying war, and lesser interests to be sought with lesser sanctions or rewards?"

Congress "has not rejected a President's policy," the Times says. "It asks that he produce one." Mr. Speaker, I agree with that. If the President will seek a bipartisan consensus, based on full and real consultation, behind a policy that makes sense, the Congress will support him. Meanwhile, it continues to be our obligation to reject funding for the Contras—an unwise tactic that would not achieve the objectives we would be seeking if we had a policy.

The editorial follows:

[From the New York Times, Apr. 28, 1985]

VIETNAM IN AMERICA

To the cry of "No More Vietnams," the United States has tied itself into knots over Nicaragua. The President wants a virtual declaration of war against the Sandinistas—no more piecemeal humiliations by Soviet proxies. Congress, in a stunning demurral, says no more piecemeal investments of prestige in a war we're unwilling to send American boys to finish.

Some of the Vietnam echoes are evoked by the calendar. It is 20 years to the day since American ground troops went into battle in Vietnam, and 10 years since their final ignominious withdrawal. But there's a simpler explanation for our present ambivalence: ignorance. Americans, even those in authority, are obviously unsure about the conditions and stakes in Nicaragua. Where the facts seem so perplexing, how much easier to try the case by analogy.

For Congress, the overriding lesson of Vietnam is do less: sign no blank checks for warmaking. It is not convinced that the Sandinistas pose a threat justifying war. And if they did, it sees no plausible plan for overthrowing them.

For the Administration, the lesson is do more. Here it is, as rendered by Secretary of State Shultz: "Broken promises. Communist dictatorship. Refugees. Widened Soviet influence, this time near our very borders. Here is your parallel between Vietnam and Central America." He says the failure in Vietnam not only betrayed the people of Indochina but led Congress to hobble the President's authority, thus emboldening the Russians and "destabilizing" the globe.

These readings of history are not all wrong or irrelevant. But they are woefully oversimplified. Americans did not need Vietnam to learn the nature of Communism. They did not go into Vietnam to diminish Soviet influence but what they ignorantly thought was China's. And just what was it that cast so much doubt on America's wisdom and power, restraint or excess?

Nicaragua is closer than Vietnam, and arguably a more vivid American interest. But it is in no sense a Soviet power. Precisely because it is nearby, America could quickly snuff out any real security threat. Nicaragua's Marxists may yearn to spread revolution, but their opportunities to do so depend more on American behavior than Soviet ambitions. Like Vietnam, Nicaragua may be too heavily armed for its size, but it has had much more reason to fear invasion.

The ultimate lessons of Vietnam for all Americans should be evident. This country will not effectively wage war unless it understands the reason for the pain. Even a hesitant resort to force creates uncontrollable imperatives. It soon requires exaggerating the stakes, then destroys the balance between ends and means and finally forecloses diplomacy and compromise. When America stands in peril, that price has to be paid. Where less-than-vital interests are at stake, the path away from force needs to be as clearly marked as the path in.

For an astute appreciation of America's interests and dilemmas in Nicaragua, read the report in today's New York Times Magazine by Mario Vargas Llosa, the Peruvian novelist.

"The kind of massive, and bloody, military intervention that will be needed to overthrow the Sandinistas will not result in a democracy," he says. "Only a dictatorship can impose order in a country devastated by terrorism and civil war. To maintain the existing fragile freedoms under the present regime, the only choice for the opposition is to reach some kind of an agreement with the Sandinistas. Although the regime has traveled far down the road toward totalitarianism, the challenges and difficulties it faces are an inducement to compromise."

That may be wrong. So may be the author's judgment that the Soviet Union has decided against paying the price of taking Nicaragua under its wing, like Cuba; or that Nicaragua's revolution looks a lot like Mexico's. But where are the comparably clear-eyed analyses by the United States Government? Where are the lists of American demands, distinguishing between intolerable threats to our security, justifying war, and lesser interests to be sought with lesser sanctions or rewards?

The lesson of Vietnam is simply that, when in doubt, look a dozen times before leaping. Congress, which cannot have its own diplomacy, has not rejected a President's policy. In its justified confusion, it asks that he produce one.●

JANE BOECKMANN HONORED

HON. HOWARD L. BERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BERMAN. Mr. Speaker, I rise today to pay tribute to an outstanding leader of our community, Mrs. Jane Boeckmann. On May 17 of this year, she concludes her term as president of the Panorama City/Sepulveda Chamber of Commerce.

During her tenure, as the result of her tremendous talent, dedication, and effort, the chamber of commerce has experienced great growth.

Mrs. Boeckmann's contributions to the community extend way beyond the chamber of commerce. Her seemingly infinite energy has bettered the quality of life for all who live and work in the San Fernando Valley.

As founder, publisher, and editor-in-chief of Valley magazine, she has given valley residents a forum for discussing issues of particular interest to them. As a philanthropist, humanitarian, religious and civic leader, wife, and mother, she has been an example for all of us.

She was cofounder of the San Fernando Valley Cultural Foundation. From 1982 through 1984, she served as honorary mayor of the San Fernando Valley. And in the past, she has been vice president of the San Fernando Valley Arts Council, director of World Opportunities, member of the board of trustees for California Lutheran College, and served on countless commissions and committees.

She has earned many well-deserved awards; among them are the Patriotic Citizen of the Year Award, State of California Mother of the Year, and Newsmaker of the Year, just to name a few.

It is my honor to ask my colleagues to join me in paying tribute to Mrs. Jane Boeckmann, a tremendous asset to the community and a truly remarkable woman.●

LEGISLATION TO IMPROVE UNDERSTANDING OF NUTRITION

HON. DOUG WALGREN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. WALGREN. Mr. Speaker, I want to join with a number of our colleagues in cosponsoring the National Nutrition Monitoring and Related Research Act of 1985. Congressman MACKAY, Congressman BROWN of California, and I introduced a similar bill last year.

These bills result from hearings held over the past 6 years by the Subcommittee on Science, Research and Technology, which I chair, and by the Subcommittee on Department Operations, Research and Foreign Agriculture, chaired by Mr. BROWN. H.R. 2436 creates no new Federal activities in nutrition monitoring and related research, but seeks to organize the numerous activities presently being conducted in a piecemeal fashion into a more effective, priority program. Thus, the program would make more effective use of current resources and improve the contribution that nutrition monitoring information and research can make.

As a result of previous hearings, the Department of Health and Human Services [DHHS] and the U.S. Department of Agriculture [USDA] finally submitted the long-overdue implementation plan for a National Nutrition Monitoring System to the Congress. That plan fails to identify a number of essential factors such as a structure to coordinate independent activities, allocation of agency responsibility, and the availability of personnel and other resources needed to accomplish the tasks involved. Because of these deficiencies, the goal of the plan, to carry out the first coordinated Nationwide Food Consumption Survey [NFCS] and National Health and Nutrition Examination Survey [NHANES], cannot now be accomplished in 1987. In addition, the report on the nutritional status of our people, which was to be submitted to the Congress in November 1984 has been delayed for at least 1 year.

The following excerpts from testimony at our committee's June 1984 hearing demonstrates the need for this legislation:

> Presently the need for a comprehensive nutrition monitoring system is not being met even though many of the elements of the system exist.
>
> There is little practically-oriented epidemiologic research to develop shorter and cheaper methods of monitoring nutritional status, food consumption, nutrition knowledge, and food scarcity suitable for use by states, localities, and others needing such methods.
>
> In addition, a coordinated effort among the various agencies would enhance standardization of data collection, analysis and reporting, thereby facilitating comparison and interpretation of the surveys and also providing a more comprehensive picture of the nutritional status of the population.
>
> Currently most information we have is 6-10 years old, and therefore is not very useful in identifying current problems, such as the increasing incidence of hunger and malnutrition resulting from the strains of the recent economic recession and cutbacks in Federal food assistance programs.
>
> Nutrition surveys must be continuous, and they must be accountable to policymakers and the public. Even the President's Task Force on Food Assistance made this point. Yet the current system does not ensure continuity or accountability.

In addition, without this legislation, the Congress has no means to evaluate the effectiveness of the executive branch in carrying out nutrition monitoring activities. Last February, Congressman GEORGE BROWN and I wrote the Secretary of Health and Human Services to request a summary of fiscal year 1985 funds expended and the fiscal year 1986 budget request for nutrition monitoring activities by each agency within the Department. The response from DHHS stated, "It is difficult to respond to your request for dollar amounts spent on nutrition monitoring activities because often costs are contained not in one but several line items within the DHHS agency's budgets." The bill we are introducing today will make it possible for the Congress and all Federal agencies to better understand expenditures for this important activity.

We can no longer afford a nutrition monitoring system that provides data 6 to 10 years after the fact. Nutrition and health indicators are as important, if not more so, than current economic indicators. What we do in the area of food, nutrition, and health requires timeliness. I urge my colleagues to join in cosponsoring this bill and working toward its early passage.●

POSTSCRIPT TO BITBURG

HON. BARBARA A. MIKULSKI

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Ms. MIKULSKI. Mr. Speaker, I rise today to offer a postscript to the President's visit to Bitburg Cemetery. It is too late to change his deplorable action. But I want to make clear that when President Reagan laid a wreath at Bitburg, he did not represent the American people.

Mr. Reagan claims that he went to Germany seeking reconciliation. But my question is: With whom does he want to reconcile—with modern-day Germany, or with the Nazis of World War II? By placing a wreath at Bitburg Cemetery, President Reagan in effect, honored the Nazi killers and the Germans who massacred American prisoners. The American people are anxious to mend our fences with Germany of 1985, but public outcry made clear that going to Bitburg would not accomplish this.

Last week, President Reagan claimed that it would be a sign of weakness to change his itinerary in the face of public pressure. That, to me, is an incredible statement. It is not weak to admit you are wrong; rather, it takes strength and courage to publicly correct a mistake. The controversy surrounding the Bitburg trip was an expression of the will of the American people. The President should take seriously such public pressure and respond with sensitivity.

When I visited Poland several years ago, I made sure I went to Auschwitz. I wanted to see firsthand the legacy of the Nazis. That trip made clear to me the importance of remembering the Holocaust and the unspeakable horror of the Nazi genocide. Even as we improve relations with Germany of 1985, we can never forget what happened 40 years ago.

It was an affront to the American people that the President felt it was more important to please the Germans than the thousands of American veterans, Gold Star Mothers, and Jews everywhere who asked him not to go to Bitburg. Never forgetting the Holocaust means never honoring those who tortured and killed millions. President Reagan's itinerary was not a question of strength or weakness, but a moral issue of good and evil.

I am indebted to my friend, Rabbi Manuel Poliakoff, of Baltimore, for his wise counsel regarding the Bitburg trip. It was he who pointed out to me that the President was not representing the American people when he went to Bitburg. Based on the reaction of the public and here in Congress, I agree. I, and many of my colleagues in the House of Representatives and in the Senate, wrote to President Reagan urging him to cancel his trip to Bitburg Cemetery. The response of the American people was overwhelming in their opposition to the Bitburg event. Elie Wiesel eloquently pointed out that the President's place is with the victims, not the perpetrators, of the Holocaust. I am personally outraged that all our pleas could not make President Reagan change his itinerary. Although it is too late to change his action, I want the record to show that the spirit of America was not with him on that day in Bitburg.●

STATEMENT OF CONGRESSMAN TED WEISS ON THE 50TH ANNIVERSARY OF THE APOLLO THEATRE

HON. TED WEISS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. WEISS. Mr. Speaker, this is the 50th anniversary year of Harlem's renowned Apollo Theatre. On this occasion I want to pay tribute to the Apollo for its contribution to 20th century American culture. I wish the Apollo continued success as its doors open once again to established and especially new artists as well as appreciative audiences.

The Apollo Theatre's greatest accomplishment was to bring music by black artists to the attention of the public and the record industry. The Apollo was a vehicle for artists who otherwise had limited access to the entertainment world. We are grateful to the Apollo for presenting people who were not allowed to appear elsewhere because of racial discrimination and for providing the necessary support for large numbers of talented black musicians, vocalists, comics, and dancers who brought us the best in popular entertainment. After the civil right laws eased segregation in the entertainment industry and black stars were welcomed in "downtown" theatres and nightclubs, the Apollo continued to provide them a special home as well as a showcase for newcomers.

The list of Apollo performers reads as a "Who's Who" in American music and as a lesson in American cultural history. The theatre was built in 1912, and by the 1930's, it became the foremost talent showcase for black entertainers. Blues greats Duke Ellington, Louis Armstrong, and Ethel Waters have graced its stage. During the 1940's, its big band talent included Count Basie, and Earl Hines. Out of this era emerged Miles Davis, Charlie Parker, Sarah Vaughan, and Billie Holiday, among others.

Be-bop and rhythm and blues dominated the Apollo's stage after World War II. It presented the sounds of Charlie Parker, Dizzy Gillespie, and Bud Powell. The 1950's brought rock and roll, and audiences were treated to the music of Bo Didley, the Drifters, and the Dominoes. The Temptations, Diana Ross, the Supremes, and Stevie Wonder were all a part of the Motown sound that was headlined by the Apollo in the 1960's.

The Apollo's famous amateur night was the stomping ground for talent agents and members of the entertainment business. In the 1970's the Jackson Five competed in Amateur Night. Ella Fitzgerald, James Brown, Dionne Warwick, and Stephanie Mills credit the Apollo with launching their careers. The Apollo offered hope to young people who dreamed of show business success. For many, those dreams were fulfilled.

In 1976, the Apollo closed its doors to live performances. This vital cultural resource went under when it was forced to compete with cultural facilities seating large audiences and sophisticated, inexpensive entertainment alternatives—television, radio, records and tapes.

Now, after a change in ownership the Apollo is reopening. The theatre building received landmark status in 1983, and has been refurbished. It is in a new and stronger financial position with support from local and Federal agencies and the private sector. On May 20th, the reopening is being publicly celebrated with a national television special.

It is heartening to see that the Apollo and its progeny are receiving such well-deserved attention and best wishes. I am confident that this theatre will continue to contribute to the cultural life of this Nation and continue to launch the careers of talented young people. All of New York City, indeed the entire nation, welcomes the rebirth of the Apollo.●

ARMS CONTROL AND NUCLEAR TESTING

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BROOMFIELD. Mr. Speaker, the House Foreign Affairs Subcommittee on Arms Control, of which I am a member, has been considering legislation which would urge the ratification of the Threshold Test Ban Treaty [TTBT] and instruct the President to immediately propose negotiations on a comprehensive test ban [CTB]. In this regard, I commend to my colleagues the following statement by Don Kerr, director of Los Alamos National Laboratory, who testified before the subcommittee on May 8.

Mr. Chairman, Members of the Committee, I am Donald M. Kerr, Director of the Los Alamos National Laboratory. It is a pleasure to have the opportunity to discuss the issues of arms control and test limitations with you; I hope that what I say will assist in understanding this difficult and important subject. Our Laboratory is run by the University of California for the Department of Energy. We have a staff of 8,000 employees. The first nuclear and thermonuclear weapons were designed at Los Alamos. Over two-thirds of the nuclear weapons currently in the US stockpile were designed by our Laboratory. We know the tremendous destructive power of these weapons, and we have long hoped that the world's leaders would find ways to reach effective arms control agreements. We were the pioneers of technical means of verification, including the ground-based Vela detectors followed by the space based Vela. I also, however, bear the responsibility of personally signing certification documents that state that the weapons we design will work and that they have appropriate safety features. That responsibility weighs heavily.

For three decades, bans or limitations on testing of nuclear weapons have been one of the most frequently suggested and widely supported forms of nuclear arms control. Yet, testing restraints constitute a highly technical approach to arms control. And they have often been advocated as an alternative to political approaches and agreements when this avenue appeared to be closed by political controversy or concern over military-strategic problems.

At this moment of considerable concern about the future of arms control, many voices from within the United States and outside are encouraging the US Government to move ahead on restraining nuclear weapons testing—by ratifying the Threshold Test Ban Treaty (TTBT) and the Peaceful Nuclear Explosives Treaty (PNET), by reopening negotiations on a Comprehensive Test Ban (CTB), and perhaps even by moving boldly in advance of nuclear arms control negotiation with a unilateral moratorium on US nuclear weapon tests. H.J. Res. 3, which urges the President to submit the TTBT and PNET to the Senate for its advice and consent to ratification, and to propose to the Soviet Union the immediate resumption of negotiations on a CTB, appears to indicate congressional support for this approach. However, nuclear test bans and testing moratoria could have an adverse effect on US national security, and it is not certain that they can significantly advance the cause of nuclear arms control or be a substitute for direct reductions of nuclear weapons.

In the 1970s, the Threshold Test Ban Treaty and the Peaceful Nuclear Explosives Treaty were negotiated. The PNET included an extensive protocol on verification methods to assure compliance, negotiated with scientific input from both sides. This protocol has not entered into force since the treaty remains unratified. However, compliance with the PNET has not been questioned. On the other hand, Soviet compliance with the 150 kiloton (kt) limit on underground nuclear weapon tests specified in the TTBT has been hotly debated within the United States for some time. The United States has depended upon seismic measurements from remote stations to monitor Soviet compliance with the 150 kt limit. These measurements are sometimes ambiguous and have led to controversy about Soviet behavior under the TTBT.

REASONS FOR NUCLEAR TESTING

As long as we rely on nuclear weapons, we must test them. Our nuclear weapon test program is essential in designing, engineering, manufacturing, maintaining, and certifying weapons.

Certification

Certification is a guarantee from the nuclear weapons design laboratories that weapons will perform to specifications throughout their stockpile life, in peacetime as well as in war. Equally important, it is a promise that they will be safe and resistant to unauthorized attempts to use them by terrorists or others.

Nuclear research and development

Nuclear tests are essential for determining the proper functioning of nuclear explosives. Calculations do not suffice, and there is no way experimentally to simulate the

total performance of a nuclear weapon. Without testing, no new designs ought to be put into stockpile. In some cases, however, existing designs can be adopted for use in other delivery systems. We are concerned that, given real life pressures and fallible human nature, we might occasionally stockpile new designs or inadequately reasoned changes in old ones. Serious unreliability could result.

Of course, preventing the development of new generations of nuclear weapons—which are generally viewed as inherently more dangerous, destructive and destabilizing—is precisely what the proponents of testing limits have as their objective. However, testing has been and continues to be necessary for reducing the dangers and destructiveness of nuclear weapons. Indeed, testing is necessary for advancing our knowledge in desirable areas, without at the same time taking unreasonable risks. Nuclear testing allows us to make nuclear weapons safer, and to improve controls to prevent or deny unauthorized use. It allows us to improve design efficiency and to reduce the cost and special nuclear material requirements of warheads, as well as to design weapons to reduce collateral damage. And nuclear effects tests, primarily carried out by the Defense Nuclear Agency, contribute significantly to our ability to study the effects of nuclear weapons on our weapons systems, as well as on our command, communications, reconnaissance and other assets. This knowledge is essential for responding to the threat posed by Soviet offensive nuclear systems by, among other means, hardening our command, control, communications and intelligence (C^3I) capabilities. We increasingly rely on such capabilities to avoid war, to manage crises, to maintain the credibility of our deterrent and, in the event of war, to assure our defense.

Maintenance of the stockpile

Nuclear testing is essential for the maintenance of the stockpile. Nuclear weapons are affected significantly by aging and obsolescence; over an extended period the materials used in warheads deteriorate physically. Expected stockpile lifetimes for warheads are typically between 15 and 25 years, but some designs have required corrective measures much sooner. In the past, new weapons usually replaced those in the stockpile before the older weapons deteriorated. But without nuclear testing, the possible effects of physical deterioration would become increasingly important.

Maintenance of nuclear design capability

Not only is nuclear testing essential to the maintenance of the nuclear stockpile, but the US nuclear weapons laboratories have maintained for years that testing programs are essential in maintaining the nuclear weapons capability of the nation. Without an experimental testing program, which challenges our nuclear weapon designers and tests their designs, we would lose our best designers. Those remaining would not be able to demonstrate the validity of their theories. This was our experience during the test moratorium. In effect, over a period of years, we would expect the technical base of knowledge and experience required for developing and maintaining weapons to dissipate and disappear.

RATIFICATION OF TTBT

The TTBT, signed in 1974, establishes a nuclear "threshold" by prohibiting tests with a yield exceeding 150 kt. The US, as I have indicated, observes the 150 kt threshold scrupulously. Within this limit, the Laboratory is able to maintain the present stockpile and our nuclear design capability. Without testing over 150 kt, we can within limits undertake risk-free modifications of nuclear weapons to enhance safety, improve efficiency (yield-to-weight ratio), reduce cost, tailor effects to reduce collateral damage, and achieve other design improvements. As well, needed nuclear effects testing can be undertaken. The Laboratory can design, produce and certify new weapons with high confidence if they are 150 kt or less, or with lessening confidence if they are not larger than the threshold by approximately a factor of two (2) and if the design has been tested in the past at higher yields. The Laboratory will not be able to design and develop high-yield weapons based on designs that depart significantly from those of the past. Unless the US established new, high-yield weapons requirements, we can live with such restrictions on our own program. However, we are concerned about what the Soviets can do under the TTBT.

Soviet compliance

Under the TTBT, there is a serious potential for Soviet violations. Without knowledge of the procedures employed by the Soviets to develop and certify their weapons, and with the intrinsic uncertainties of the methodology we use to verify Soviet compliance with the Treaty, they could test at levels that might allow them to execute proof tests of the weapons believed to comprise the bulk of their stockpile or test new designs with even higher yields. Even if they conducted one or two high-yield tests every few years, it might be possible for them to develop totally new high-yield weapons. Thus, potential Soviet noncompliance with the provisions of the Treaty could create a serious asymmetry with military significance.

Verification of a TTBT

In the Protocol to the TTBT, the US and the USSR agreed:

For the Purpose of ensuring verification of compliance with the obligations of the Parties under the Treaty by national technical means, the Parties shall, on the basis of reciprocity, exchange the following date:

a. The geographic coordinates of the boundaries of each test site and of the boundaries of the geophysically distinct testing areas therein.

b. Information on the geology of the testing areas of the sites (the rock characteristics of geological formations and the basic physical properties of the rock, i.e., density, seismic velocity, water saturation, porosity and the depth of water table).

c. The geographic coordinates of underground nuclear weapon tests, after they have been conducted.

d. Yield, date, time, depth and coordinates for two nuclear weapon tests for calibration purposes from each geophysically distinct testing area where underground nuclear weapon tests have been and are to be conducted. In this connection the yield of such explosions for calibration purposes should be as near as possible to the limit defined in Article I of the Treaty and not less than one-tenth of that limit. In the case of testing areas where data are not available on two tests for calibration purposes, the data pertaining to one such test shall be exchanged, if available, and the data pertaining to the second test shall be exchanged as soon as possible after the second test having a yield in the above-mentioned range. The provisions of this Protocol shall not require the Parties to conduct tests solely for calibration purposes.

The parties agreed that these data (a, b, d) would be exchanged simultaneously with the exchange of instruments of ratification, and the data exchange provisions of the TTBT have not yet come into effect. Consequently, we do not know how valuable this geophysical data would be. But it is by no means certain, as some would have us believe, that the exchange of geophysical data upon ratification of the TTBT will reduce ambiguities about the size and site of Soviet tests, or that it will increase confidence in Soviet compliance with the provision of the TTBT. If we were certain that exchange of these data would effectively result in effective ratification, it would indeed be ironic and, I believe, insupportable to hold up verification of the TTBT on the grounds of inadequate provisions for vertification. However, any possible reduction of uncertainty that might result from data exchanges and calibration shots specified in the Protocol to the TTBT would depend, in part, on our confidence in the accuracy of the data provided by the Soviets and the value of the technical data themselves. The Treaty does not provide for confirmation of the data supplied. We would have to trust the Soviets on this vital matter to a far greater degree than we have in other areas.

It has on occasion been suggested in public that Los Alamos believes that the Soviets have violated the 150 kt limit, while Livermore disagrees. Los Alamos has analyzed the compliance issue statistically, using models believed to be consistent with official positions and actions. We concluded that the issue of Soviet compliance is unresolved and, with the methods of vertification that are presently available, unresolvable. In essence, the problem involves uncertainties in measurement (encompassing both the nature of statistical measurement and the amount and accuarcy of data available) and the difficulties of translating these uncertainties into high-confidence conclusions about compliance. To resolve this problem, at Los Alamos and elsewhere there are explorations of improved and new verification methodologies that have the potential for increasing confidence in our ability to determine Soviet compliance with the TTBT.

Would a CTB equally constrain the Soviets?

We cannot be certain that a CTB would equally constrain the Soviets. Since we do not know the specifics of Soviet nuclear weapon design, we are simply unable to say whether they would be affected by a CTB in the same manner and to the same extent that we are. It is by no means certain that a CTB would prevent the Soviets from developing a new generation of nuclear weapons, although that would assuredly be the effect of a total testing ban on the United States. More important, it has been recognized, even by proponents of a CTB, that in the long-term some degree of testing would be necessary to assure the credibility of the deterrent. This is true, and it is quite possible that the Soviet military nuclear technology base and most of their nuclear stockpile could be preserved and maintained indefinitely with tests of a few tens of kilotons in violation of a total testing ban.

Verification

Equally important, or perhaps more important in this context, are verification uncertainties. I cannot share the view of those who agree that an effective, verifiable CTB is within our grasp. Even with monitors on Soviet soil and on-site inspections, verification of a CTB would involve considerable

uncertainties. Verification concerns with a CTB involve a different range of yields than with a TTBT. In essence, the problem of verifying a CTB is detection of relatively small seismic events and the unequivocal identification of their source. As seismic magnitude decreases, the number of naturally occurring events during any period increase dramatically. Given this fundamental fact, under a CTB even greater verification difficulties would beset us than under a TTBT, especially if we were largely dependent upon remote teleseismic monitoring.

All experts agree that there is some lower limit below which nuclear tests in hard rock cannot be detected with remote seismic monitors; the usual figures cited are one, two, or at most a few kilotons. Proponents of a CTB argue that this is sufficient to assure compliance. But it is possible to disguise tests of relatively large nuclear weapons to make them appear (to remote monitors) relatively small or as something other than a nuclear test. By exploding a device inside a hollow underground cavity, for example, most of the energy from the explosion is not "coupled" into the earth and does not initiate seismic signals. Hiding explosions in earthquakes, or using shock-mitigating materials, may confuse the issue of decoupling even further. It is conceivable to conduct an extensive nuclear test program in this way, one that would go undetected by a network of remote teleseismic monitoring stations. Further, a CTB could require a much more extensive monitoring network than now exists, because we would have to protect against the possibility of a violator conducting tests clandestinely underwater, in the atmosphere, and in outer space, as well as underground.

It is also questionable whether a CTB would significantly improve the non-proliferation regime. Domestic advocates of a strong non-proliferation policy, along with non-nuclear-weapon states, frequently argue that the failure of the superpowers to end testing provides a stimulus for other states to build weapons. They call for a CTB and point out that in the preamble to the 1968 Nuclear Non-Proliferation Treaty the nuclear-weapon states recalled their determination to seek the cessation of all test explosions.

The real and known technical costs of a CTB, then, appear more compelling than anticipated political benefits. It is certain that we must continue to test if we intend as a nation to rely upon nuclear forces in our defense posture, as we expect to do for the foreseeable future. From the technical point of view as a laboratory Director, who has responsibilities for developing the nuclear weapons in which the U.S. relies for deterrence and defense and is required annually to sign a document certifying the performance of many of the nuclear weapons in our stockpile, I have difficulty foreseeing conditions coming into existence that would allow me to support a comprehensive testing ban. My judgment, the principle reasons behind which I have attempted to offer you today, reflects the accumulated experience of the weapons laboratories during and since the 1958-61 moratorium.●

SOVIET JEWRY

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 1985

● Mr. SMITH of New Jersey. Mr. Speaker, I thank the gentleman from New York, Mr. GILMAN, for hosting this special order on this crucial human rights issue: the plight of Soviet Jews. In addition, I would like to commend Mr. GILMAN for his leadership and sponsorship of House Resolution 127, a resolution expressing congressional support for Solidarity Sunday for Soviet Jewry. I am proud to be a cosponsor of this worthy piece of legislation.

Mr. Speaker on May 5, 1985, more than 100,000 people will gather outside the United Nations in New York City to reaffirm their unity with approximately 3 million Soviet Jews who have been striving to freely practice their religion and live in accordance with their own personal, cultural, and traditional values. Unfortunately, in the Soviet Union, Jews are finding it harder and harder to pursue any freedoms in the face of increasingly repressive behavior of the Soviet authorities. Solidarity Sunday for Soviet Jewry is an appropriate and effective way for the western world to bring this issue to the forefront, and demonstrate to the Soviet authorities that their harassment, abuse, and unconscionable persecution of Soviet Jews is unacceptable and cannot be tolerated.

Mr. Speaker, the situation in the Soviet Union has gone from bad to worse. Emigration levels are their lowest ever. We recall that 1984 was the most deplorable year since emigration began. Only 896 Jews were permitted to emigrate last year, down from over 51,000 in 1979. It is clear that anti-Semitism has become an inherent part of Soviet policy, with 22 Jewish prisoners of conscience, thousands confined to labor camps and millions forcibly threatened if practicing their faith openly. Through programs like Solidarity Sunday, we can voice our unity and our solidarity with those people who bravely endure systematic harassment because of their faith.

Mr. Speaker, I would like to take this opportunity to highlight one of the most recent and blatant examples of the anti-Semitic trend within the Soviet governing body.

In late July 1984, Soviet authorities began a major, sustained crackdown on Hebrew teachers. Since that time four well-known Hebrew teachers have been arrested and convicted on trumped-up charges. Similarly, six prominent Jewish cultural activists have been convicted on equally specious charges.

In addition to this wave of arrests, reports filtering back to the United States indicate that scores of Hebrew punishment. There are numerous reports of beatings, raids, job loss, interrogations, confiscation of religious articles and literature, and other forms of systematic harassment.

The U.S. State Department has been monitoring these disturbing developments with concern since the crackdown began in July 1984. There can be no doubt that the campaign has been consciously directed by Soviet authorities to discredit and destroy the revival of Jewish culture in the Soviet Union. The methods used—arrests, beatings, planting false evidence, and using the media to slander refuseniks—have created a renewed atmosphere of crisis in the Soviet Jewish community and heightened international concern about what may next lie in store for Soviet Jewry.

Mr. Speaker, the Soviet campaign against Hebrew teachers like all its other anti-Semitic programs, violates the commitments the U.S.S.R. has made to respect individual human rights. Their actions are not only contrary to the international laws defined in a series of Accords from the Universal Declaration of Human Rights through the Helsinki Final Act, but they also contradict Soviet internal standards as stated in articles 26 and 52 of the Soviet Constitution.

Mr. Speaker, it is fitting that on this occasion of the 14th anniversary of Solidarity Sunday, we recount the offensive human rights violations of the Soviet authorities and reaffirm our commitment to do everything possible to let them know that we, as a people, expect more from them. We demand, Mr. Speaker, that the Soviet authorities elevate themselves to a higher standard of conduct and adhere to their own vows to respect the fundamental human rights of Soviet Jews.

Through the mass participation in Solidarity Sunday, let our repressed Jewish family members and friends within the Soviet Union know that their plight and indeed their courage, is not and will not be forgotten.●

VETERANS' HEALTH CARE BUDGET CANNOT BE REDUCED FURTHER

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MONTGOMERY. Mr. Speaker, within the next few weeks, the House and Senate will be making major decisions on the budget for fiscal year 1986. Many Federal programs will be affected. The decisions we must make will not be easy. We all have different priorities.

A very high priority of mine is veterans' health care. I want my colleagues

to fully understand the impact of any budget reductions in funds to operate the VA's health care system. Who is better able to relate the problems in the field than the people in the field?

According to the chiefs of staff at VA hospitals nationwide who responded to a recent survey, inadequate budgets are already taking their toll. More cuts in the budget will mean longer waiting lists, the turning away of certain non-service-connected veterans, and delays in many surgical procedures.

There follows a report from the chief of staff at the VA Medical Center in Salt Lake City, UT:

VETERANS' ADMINISTRATION,
MEDICAL CENTER,
Salt Lake City, UT, December 26, 1984.

HOWARD GREEN, M.D.,
Chief of Staff (11), VA Medical Center, White River Junction, VT.

DEAR HOWARD: I am responding to our conversation last week with this letter which identifies problems that are specific to our own institution but generic to VA Medical Centers throughout the system.

1. We are facing A $1,000,000 deficit in FY 1985. What have we done to date and what is the impact of the same?

a. We maintain an employment lag of 7% of our authorized staffing (85 out of 1208 authorized FTEE). This results in slower patient care, low morale, lower patient satisfaction, and reduced patient confidence in the quality of care.

b. Reduction of accessibility to 30 high cost drugs has resulted in poorer patient care (e.g., poor control of pain in severe arthritis and use of some less effective, but cheaper antibiotics).

c. We backlog orthopedic surgery, ophthalmology and open heart surgery from 2-4 months. This is detrimental to those individuals with painful hips, knees, and to those who cannot see because of cataracts. Delay of surgery is potentially a lethal factor for those patients requiring open heart surgery.

d. We are restricting the follow-up visits of non service-connected patients to one visit with the exception of cancer, hemodialysis and total joint patients. This has the potential of poor care since complications could develop unnoticed.

e. As of January 1, 1985, we will proceed to control elective surgery in all fields, in spite of the fact that our operating load has increased 23% during the first quarter of FY 85 and had increased 15-18% in FY 84 over FY 83.

f. The acuity of our patients on surgery, medicine, psychiatry and neurology all have markedly increased in the past 18 months which is probably due to:

1. Aging population;

2. Reduction in Medicare/Medicaid payments. This has generated a new group of patients accessing the VA system (10% at minimum);

3. Impact of DRGs on non-federal hospitals has increased the number of patients being moved from non-federal to VA hospitals.

g. The cost of pharmacy, prosthetics, etc. all continue to rise at 15-30% annually.

h. We have initiated selective restriction of home oxygen to non service-connected patients.

i. We have maintained our seven bed Alcohol Detoxification Unit on an Acute Medical Ward instead of moving it to the Alcohol Rehabilitation Unit which has saved four nurses but has placed an additional load on acute medical nursing.

j. We have replaced two technician positions with outside drug company money. These technicians render some patient care and thereby save the hospital two positions.

k. We have reduced our inhalation therapy staffing, placing part of that responsibility on the nursing staff and we are also selectively ordering respiratory therapy treatments.

The rate of inflation in non-salary areas continues to average between 14-20% annually. Some high cost items such as pharmacy have increased 30% per year during the past three years. This station's recurring, non-salary budget for FY 85 is $14,470,581. Even a minimal 14% rate of inflation justifies an increased cost allowance of $2,025,881. We received only $535,787 for FY 85 target allowance or approximately 26% of what was actually needed to maintain our previous level of services. This underfunding precipitated a large cut in the level of employment which this Medical Center cannot sustain.

2. The delay in open heart surgery can have serious implications in patients who often are unstable or are rapidly becoming unstable. The delays in other surgeries are inconvenient to the patient and cause physical suffering (for patients needing joint replacement) and anguish (for older patients requiring cataract surgery).

The increasing lack of non-professional personnel (we have given precedence to protect persons delivering direct patient care) has created serious and increasing difficulties. To enumerate a few: Delays in pharmacy to fill prescriptions (Pharmacy understaffing); Delays in discharging patients (MAS understaffing); Delays in the support work necessary to maintain the functioning of the institution (2337s, Personnel Actions, reports, manuscript typing); Delays in procurement of supplies (Supply understaffing). These all reduce the effectiveness of the professional staff. Perhaps more important is the effect that is being seen in morale. VA people—nurses, physicians, non-professionals—are all as dedicated a group as exists, but their willingness to devote the extra time and energy over and above their prescribed tours of duty is being over taxed. Having been in several VA's and also closely affiliated with several other hospitals (non-federal), I can assure you of the markedly superior attitude of federal health care employees. I believe this attitude cannot be maintained in the face of the problems listed above.

3. What questions should we ask of COSs in our VA Medical Centers regarding similar problems. The following are some suggestions which I am sure can be expanded.

a. Size of hospital;

b. Affiliated (yes/no);

c. Projected dollar deficit as of January 1, 1985;

(1) Personnel Services;

(2) All Others;

d. Impact of dollar deficit;

(1) Personnel;

(2) Supplies;

(3) Equipment;

(4) Backlog of patient surgery (specific numbers, types and length of delay);

e. Solutions you have devised (please be as specific as possible).

In conclusion I say that "enough is enough." For the past five years we have been funded for increases in product cost at less than ⅓ the actual increase. Increased benefits to veterans have further added pressure to provide services from inadequate dollars. Additionally, new technology also has impacted our dollars. This adds up to the fact that we are no longer able to render the best of care to all eligible veterans.

Regards,

MARK W. WOLCOTT, M.D.,
Chief of Staff (11).●

MY PLEDGE TO AMERICA

HON. THOMAS R. CARPER

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. CARPER. Mr. Speaker, each year the Veterans of Foreign Wars of the United States and its Ladies Auxiliary conduct the Voice of Democracy scriptwriting contest. The contest theme this year was "My Pledge to America."

The winner of the Delaware competition this year was Beth Reister of Ocean View, DE. She is an 11th grade honor student at Indian River School in Frankford, DE.

Beth's essay concludes with a quote from Richard E. Byrd, "Democracy, backed by unity, and sweat, and sacrifice is the most potent idea in the history of mankind." In her essay, Beth recognizes the truth of this idea and pledges to work for our country—our democracy. I believe we all can benefit from her thoughts and actions.

MY PLEDGE TO AMERICA

The Greek philosopher Aristotle once said, "If liberty and equality, as is thought by some, are chiefly to be found in democracy, they will be best attained when all persons alike share in the government to the utmost."

These words, though spoken by Aristotle centuries ago, are interesting to note with reference to the more modern history of the British Empire. It was a lack of democracy, a lack of equal representation and sharing in the government, that led to the tension between England and the colonies.

After years of struggling from the powerful grip of England's tyranny, the colonies declared their independence and broke free of British control. The people of this new nation, known as the United States, were forced to establish a new government; a government that was just and fair.

The founders of America worked for many days devising a suitable plan of government. The high point of their meetings was reached with the formation of the Constitution of the United States. This single, great document epitomized America's thirst for freedom and liberty. It outlined the democratic ideals of participation and equality in government.

The new government, as stated in the Constitution, would become a system in which the supreme power would be vested in the people. It would be a system in which the government derived by holding periodic elections of both the President and members of Congress.

In order to preserve the democratic ideas of our forefathers, I pledge service to the American form of government. I will contin-

ue the support of our democracy by participation in local, state, and federal government.

I will vote, and persuade others to do so, for voting by all citizens enables us to ensure the principle of equal representation in our government.

As I've done this election year, I will continue to be politically active. By endorsing candidates, distributing pamphlets, and attending political party functions, I can motivate others to become active in our government and vote. This is perhaps the most important democratic ideal; that every person can participate and that every person has an equal share in government.

As a future leader, whether as a chairperson of a community organization, as a representative in my state legislature, or as a senator in the United States Congress, I will fight to uphold the democratic ideals, freedoms, and civil liberties granted in the Constitution.

In addition to my advocation of democratic constitutional principles, I pledge to protect and preserve our beautiful country for future generations. After all, one cannot respect the government of the United States if it fails to preserve the environment.

It is of great importance that we keep America's waters and air clean and free from pollution. Toxic and hazardous waste disposal areas should be limited and free from leakage. It is the responsibility of the federal government to see that pollutants are kept to a low minimum and to make sure that the natural resources of this country are not misued.

In order to attain this country's preservation, I will join national and community efforts to stop pollution and stop the exploitation of our land and water.

I will protest illegal dumping by writing to my representative and my senator. I will demand that the Environmental Protection Agency raise its standards and create regulations concerning pollution control. I'll suggest that companies that do not comply with the new regulations be penalized heavily.

It took millions of years for the rivers, lakes, mountains, and wilderness of this country to evolve. Within the last 100 years, however, pollutants have destroyed many of these beautiful areas. This statement seems paradoxical, for a nation whose government endorses equality, freedom, and liberty should be more humane and more caring for the environment.

In conclusion, a quote from Richard E. Byrd, "Democracy, backed by unity, and sweat, and sacrifice, is the most potent idea in the history of mankind".

Because of my love and respect for America, for the country itself, and for its fair government, I am ready to unite, to sweat, and even to sacrifice for the principles of democracy, and the preservation of our resources; in essence, the betterment of the United States as a whole.●

GRADY COLUMNS ON EL SALVADOR AND HONDURAS

HON. BOB EDGAR

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. EDGAR. Mr. Speaker, during the past 2 days, I have shared with my colleagues reflections on Nicaragua written by Sandy Grady, reporter for the Philadelphia Daily News. Sandy was part of the delegation I led to El Salvador and Nicaragua during the April recess.

Sandy's fourth article, reprinted here, describes well the atmosphere of fear which pervades El Salvador. The final article in Sandy's series focuses on Honduras, which Sandy visited after he left my delegation. It also recapitulates Sandy's feelings about the entire trip. These pieces reinforce the point that the view of Central America on the ground is different from the view from the United States. I do encourage my colleagues to visit Central America to find out for themselves. But, in the meantime, I recommend a short tour of Central America through Sandy Grady's eyes. The articles follow:

[From the Philadelphia Daily News, Apr. 25, 1985]

SALVADOR: ARMED AND IN DANGER

SAN SALVADOR, EL SALVADOR.—You know you're in Paranola Country when you're met at the airport by a van with bullet-proof windows and a guy in the front right seat cradling a sawed-off shotgun.

On the 60-mph ride into San Salvador, Senor Shotgun's eyes flicker across the ditches and shrubs.

"Guerrillas hit and burned a truck here last week," he says at one crossroad.

This is a country in which three things dominate: guns, guns and guns. This is the National Rifle Association's dream society. Everybody packs heat, or hires body-guards to do it. I don't know where El Salvador is headed—but it's going there fully armed.

Put it this way: At the Camino Real hotel, on the sixth floor, where two U.S. congressmen were staying, three young men in T-shirts sat all night on the hallway floor. They had .45s and eyed everyone who got off an elevator.

"We have to protect our guests," said a hotel manager.

Another scene: A family browses through a supermarket. Mama, papa and 13-year-old son are all carrying weapons.

You're in a country the size of New Jersey that has lost 50,000 people in a civil war. I noticed that in San Salvador's only shopping mall, ironically the biggest stores sell kid's toys—and cemetery lots.

Sure, there is a veneer of prosperity here. Joggers in running shoes thump up the streets. There are McDonald's golden arches. But gunships roar overhead. And people nervously eye the four-wheel-drive Cherokee Chiefs with darkened windows, the vehicle of choice for death squads.

The U.S. Embassy line is that things are "working out" in El Salvador. There aren't as many corpses each week. The U.S.-trained army is getting slicker. And Jose Duarte, our man in the President's House, won a surprisingly big mid-April election.

But the mood I detected was of grim resignation toward the war, and a pervasive fear that hangs in the air like gray smog. Nobody trusts nobody—right, left or center. A U.S. newsman finds Salvadorans back away, a furtive look in their eyes, when asked if they can be quoted by name.

"Don't even print the name of my university,"says a professor after giving an analysis of the country. "They'll track me down."

"The best jobs here," half-jokes a bearded young San Salvadoran, "are bodyguard and informant."

I wasn't convinced El Salvador's scary Wild West shoot-'em-up was real until the lights went out in the middle of a session with President Duarte—and everyone suspected a guerrilla attack.

This was upstairs at the *Casa Presidencial*, a sort of Central American version of Tara, with flowers in the courtyard and huge paintings of El Salvador's historic moments.

Jose Napolean Duarte, a stocky 58-year-old in a blue blazer and red tie, was doing a monologue for four U.S. congressmen. Duarte is a political animal with a bullish energy. He was bouncing in his chair, talking in slow rumbling English, chopping the air with his left hand.

You notice the hand because two middle fingers are missing, a symbol of Duarte's resistance against the junta in the early 1970s.

Duarte's gabbing away about the mandate his Christian Democrats won, backed up by the military. For the first time in a 25-year career, Duarte has solid clout. He talks of judicial reform, of land reform, of making peace with the rebels—always sliding away from real promises.

"I'm ready for sincere dialogue," says Duarte imperiously, "but I will not listen to them [the guerrillas] harangue me."

Suddenly the chandeliers go dark. The air conditioner groans to a stop. Swiftly, Duarte aides throw open windows. The president keeps talking in the semi-twilight.

"Damn guerrillas," whispers a Duarte aide. "Probably shot up a transformer."

So now we're sitting in the dark *Casa Presidencial*. And Duarte is on an impassioned roll. The subject that steams him up is guns, of course. He's raving about the two C-47 gunships the United States has provided—versions of "Puff the Magic Dragon" planes used in Vietnam, with special night sights and machine guns that can rattle 1,500 rounds a minute.

When guerrillas attacked TV towers atop a volcanic peak overlooking San Salvador last month, Duarte strolled out to this tennis court to watch the C-47 do its stuff.

We would have lost 90 soldiers in the attack if not for the gunship," says Duarte. "It can fight in the middle of the night, so our troops can take over at daylight. The gunships will destroy the initiative of the rebels."

The congressman listen stonily. They know Duarte is pitching for six more of the C-47 gunships—controversial because they're dangerous to civilians. Duarte already has four rapid-fire Hughes 500 helicopters coming from the United States. He also has a fleet of 39 U.S. transport choppers, plus nine A-37 Dragonfly jets with bomb racks. A nice little air force.

Politicians like Duarte talk of democracy. But in El Salvador, it always comes down to guns.

The next day, I was in a refugee camp named Domus Mareae. This was eight miles from the President's House. But another world—corrugated tins roofs, dirt floors, 560 people packed behind wire fence, plenty of flies, chickens and children.

They talked here also of the C-47s. They were not so enthused as Duarte. Peasant women who had fled the war zone called the plan *Los Despacitoz*—The Slow One.

"Every night they drop flares, then the Slow One starts firing," said a woman, 26, with four kids hanging to her. "We were in San Vicente province. The mortars, the big

plane, the army sweeps—if we don't get away, we'll be killed. We walked here in eight days."

A dozen women sat in the stifling hut and told similar stories. A blind father killed in aerial bombardment. A daughter imprisoned as a rebel. A husband blindfolded and pushed screaming off a cliff by soldiers. The refugees seemed more terrified by the army and its planes than by the FMLN (Farabundi Marti Liberation Front).

"We're seeing a lot of trauma and civilian deaths from aerial machine-gun fire," said a U.S.-born woman psychiatrist, who wanted to be anonymous. "People working with the peasants see the C-47s as instruments of terror."

Nonsense, says Thomas Pickering, the U.S. ambassador here before his transfer to Israel. The rangy, fast-talking Pickering was in the basement of the U.S. Embassy—probably the most expensive bunker in Central America, surrounded by soldiers behind sandbags, metal windows, concertina wire and a rocket screen.

"I'm guardedly optimistic," said Pickering. "Duarte tells me the guerrillas are demoralized. The El Salvador military is much better now. It can fight at night in small, mobile units. I think we can make 80 percent of the country secure. The horrors of 1980 to '82, the disappearances and killings of civilians by both sides, are over. I think we're turning the corner."

But other diplomats, encountered at a poolside party at Pickering's home, were far less cheerful.

"The U.S. will have to prop up this country for a long time," said embassy official David Passage. "Those 10,000 boys in the hills [the guerrillas] aren't going away quickly."

El Salvador has a high level of weirdness. Duarte seems isolated, alone in his palace. The cities are full of noise, glittery junk and poverty. Tough-looking mugs with Uzi machine guns were everywhere. The tabloid El Prenza headlines, SUBVERSIVOS MASSACRAN 20 CIVILES."

Ho-hum, 20 more deaths. It was like a baseball score.

In El Salvador, it always comes down to guns.

HONDURAS: THE U.S. ARSENAL

TEGUCIGALPA, HONDURAS.—"Welcome to the USS Honduras," says a U.S. Special Forces captain drinking beer in the dark Holiday Inn cocktail lounge.

That's the standing joke about this hot, sparsely populated country—that it's the only U.S. aircraft carrier propelled by bananas.

Such Yankee humor makes sensitive Hondurans bristle.

But the U.S. jets roaring over narrow streets, the out-of-uniform Green Berets playing roulette in the local casino, the U.S. air fields and contra camps a few hours away, the M-60 tanks on maneuver—they stamp Honduras as the U.S. arsenal for any future Central American war.

If House Speaker Tip O'Neill was right when he grumbled to President Reagan, "You're not going to be satisfied until you go into Nicaragua," this will be the launching pad.

I doubt if even the Sandinista leaders who prattle constantly about a U.S. invasion think it's a likely event. They're sophisticated enough to know that Reagan would need a dramatic excuse, such as a Soviet military base. And they're careful students of U.S. opinion polls.

"An invasion with U.S. troops would be a double tragedy," said U.S. Ambassador Harry Bergold over drinks at his Managua home. "It would devastate Nicaragua. And public opinion in the U.S. would go sky-high against it."

But if tempers suddenly flared—they did in Washington last year amid rumors of Soviet MIGs in Nicaragua—the U.S. military buildup in Honduras would be a powerful right hook waiting to be thrown.

"If somebody dials 911 [a police call] that is where the phone will ring," said a Green Beret Officer.

You only have to spend a couple of days here to sense that Honduras is a nervous host to what amounts to a massive Yankee SWAT team.

Sixty miles north in a deserted valley is Palmerola air base, where U.S. pilots take off each night in OV-1 Mohawks. They run surveillance flights over El Salvador, checking guerrilla movements with infrared scopes.

Eight miles south on a dusty plain, M-60 tanks and M113 personnel carriers rumble. Off the Atlantic Coast, Marines and paratroopers have been practicing an amphibious landing. All together, there have been about 10,000 U.S. troops maneuvering in jungle warfare here in April.

That doesn't count the 1,000 U.S. Special Forces, military advisers, CIA agents and air personnel operating here. Or the eight U.S. airstrips, four base camps and two radar sites.

"We're well aware of the message Reagan is sending us," Sandinista commandante Dora Tellez said.

If Honduran politicians and generals get jittery, they're assured this hardware is for their protection. As Gen. Paul Gorman, then head of the U.S. Southern command, told them last year: "You can stick with us or go with the Cubans."

Even the stunning defeat given Reagan in the U.S. House on $14-million military aid for the contras operating out of Honduras base camps will probably have no quick effect. By all reports, the 15,000 anti-Sandinista rebels plan to keep operating on private U.S. money.

"We take the president at this word when he says he won't walk away from the contras and they'll somehow be funded," said a man in the U.S. Embassy here.

I stopped in Honduras after a weeklong tour through El Salvador and Nicaragua, talking to a spectrum of people in those war-torn countries with a group that included Rep. Bob Edgar, D-Pa., and Rep. Ted Weiss, D-N.Y.

You don't come away from such a trip singing "Yankee Doodle Dandy"—or rosily confident that a U.S. policy built on gunships and military pressure will ever work in Central America.

It looks different from here. The Washington stereotype—that this is a Soviet vs. U.S. superpower showdown, that keeping the Russkies out of the region is the only goal—breaks down when you see the region's poverty.

Gunships, troops and anti-Red rhetoric won't change that. You wonder if anyone in the Reagan administration has a feel for the history, the hungers of the *campesinos* in the tin-roofed shacks. The Kissinger Commission's suggestion of putting $8 billion over five years into Central America has been flatly ignored.

So what happens next? More of the same, more guns, more poverty?

Curiously, I came away mildly optimistic about Nicaragua. Yes, Daniel Ortega & Co. walk and talk like homemade Marxists. Yes, they're fast consolidating everything under the red-and-black Sandinista flag. Yes, there's tons of Soviet military stuff around. Yes, their economy's going to hell.

"I'm shocked how fast the country's gone downhill in six months," Dr. John Chilton, a U.S. sugar expert who's made 44 trips into Nicaragua over 20 years, told me. "Poor crops, people being killed in the war, farm trucks out of parts. They're headed for a blowup in two years."

Maybe. But there was a mood of hope in Nicaragua you didn't feel elsewhere. Whatever they are—Marxists, Christians, nationalists, who knows?—the Sandinistas are indisputably doing something for the people's health, literacy and pride.

The question is whether the Reagan honchos will be shrewd enough to use diplomacy, pressure and U.S. aid to keep Nicaragua nonaligned. Beats war. And it's not too late.

El Salvador, where the embassy line is that democracy is working, that the U.S. is "back in control," left me queasily pessimistic.

Yes, thanks to C-47 gunships, Huey choppers and U.S. trainers, the El Salvadoran army is quicker and meaner. But civilians are still dying. The guerrillas are more vicious. President Jose Duarte is still the army's figurehead. Army brutality goes unpunished. The country's population is exploding. El Salvador felt like an armed state. Many guns, much fear.

The most impressive man I met in San Salvador was a young professor who keeps records on his country, which he obviously loves. He spent an hour brilliantly analyzing El Salvador's politics and economy. Because of possible retribution, he wouldn't let me use his name, even his university's name.

The last question was: "Where's this country going to be in 10 years?"

Long silence. Then he spoke slowly.

"The war will be going on, with neither side winning. The economy will still be going down. And we will still be dependent on the United States, probably for all my life."

When he stopped, he was near tears.

In Washington, the men behind the Central America desks talk of more gunships, of free-fire zones, of winning hearts and minds, of the Red menace. Sounds familiar.

It looks different from here.●

HAWAII VFW WINNING ESSAY

HON. CECIL (CEC) HEFTEL

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. HEFTEL of Hawaii. Mr. Speaker, the Veterans of Foreign Wars of the United States and its Ladies Auxiliary conduct the Voice of Democracy scriptwriting contest each year. This year more than 300,000 secondary school students throughout the Nation participated in the contest. The contest theme was "My Pledge To America." I am pleased to submit Hawaii's winning essay written by Craig Okamura.

My Pledge to America cannot be described by one idea alone, because it is more than one thing that I contribute to my country.

Like any other citizen of a country, I am loyal to it and I shall help to defend it in time of war. I'm proud to be a citizen of the United States and show this by celebrating Independence Day (July 4), the day America became independent and free.

I also go to school to acquire knowledge of various subjects so that later on in life I can get a job to support myself and my family. Obtaining a good education may also help me apply what I've learned in school, to my career choice. I wish to pursue a career in engineering. This way, I can help design machinery which may benefit the people of the United States in some way. I could invent some kind of new transportation which won't use up the natural resources we have, or maybe invent some new type of air conditioner which could give you the climate that you want from anywhere in the world.

When I become 18 years old, I will vote for the people who I feel should be in office running our country. This way, I know my voice is being heard when I vote for the people who I think should be the leaders of my country. In the United States, my vote counts!

I support my country whenever I pay the tax on the goods and services that I purchase. I really don't mind paying these taxes because I know these taxes are used to help provide essential services for the people. At least these taxes aren't as bad as the ones the British placed upon the Americans in the 1700's.

I also place my faith in America when things are bad, like the time when Americans were held hostage in Iran. I kept on hoping that they would be released and safely returned home, and they were after their long stay in the Iranian prisons.

I'm patriotic to my country, too. I have an American Flag which I display in my room on the Fourth of July and I stand when our country's National Anthem is being played. I know what these symbols represent. When I watch the Olympics, no matter how terrific the other countries may be, I always feel a sense of pride when our athletes perform.

There is one last thing that I contribute to my country. And this is probably the greatest thing that I have to give to America. That's my love. I love this great country for all the opportunities and protection that it has to offer me. In this land, anyone's "American Dream" can be achieved if you try hard enough to get it, no matter what color, race, or sex you may happen to be. It is a land of freedom, where whatever I wish to do or become is my choice, and I may pursue it. It is a land where I receive a fair trial when accused of a crime of any nature. It is a land where my basic human rights are protected by the first ten amendments to the Constitution.

Our democratic society is preferable to all other forms of governments. It requires the participation of all its citizens. Therefore, my pledge to America is to do my part in keeping her strong, prosperous, and free!●

COMMUNITY COLLEGES: A TRAINING GROUND FOR THE NEW TECHNOLOGY

HON. DOUG WALGREN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. WALGREN. Mr. Speaker, the high technology revolution in the workplace can mean new jobs; It can also mean lost jobs. Technology can offer great promise; it can also bring great pain. We must try to make sure we have the training resources workers need to adapt to the new technologies.

On May 2, I introduced H.R. 2353, the National Advanced Technician Training Act [NATTA], to establish a program in community and technical colleges for training young people and adults in advanced technology fields. This bill can draw on the unique resources of the Nation's community college network—the largest, most flexible arm of higher education with strong ties to local employers.

THE WORKPLACE OF THE FUTURE

Employment in high technology areas is expected to increase more than 100 percent by 1990—more than four times the employment growth rate in all other kinds of occupations. Some have said that today's technological transition is comparable to the industrial revolution. Pat Choate, in "Retooling the American Work Force," has observed:

> The speed and force of * * * change will be awesome * * *. Consequently, millions of jobs and workers will become obsolete * * *. In this decade virtually all of the nation's workers will need to be retrained or have their skills sharpened.

Some projections: Data processing jobs will grow by 148 percent, programming jobs will jump by 74 percent; computer analysts will increase by 108 percent. By 1990, almost half of American workers will use technical equipment daily.

What does all this mean? In some cases, it means new jobs. In some cases, it means "old" jobs eliminated. In some cases, it means jobs take a new form. In almost all cases, it means that workers will have to learn new skills and knowledge. Most of these workers are now in the work force.

The National Advanced Technician Training Act attempts to adjust to this job revolution by creating a matching grant program in the National Science Foundation to help community colleges develop model programs to train and retrain workers of all ages; $20 million would be authorized for the first year; each grant would be matched by non-Federal funds, such as local government or private industry. In my own home area, Allegheny County government has contributed $1 million to our local community college to a program for displaced workers. Funds would be used to develop programs and courses, train faculty, organize cooperative training programs with local industry, and purchase necessary equipment.

The bill would direct NSF to consider several important criteria in awarding grants: people in need of retraining or upgrading to retain their jobs; workers dislocated by plant closings and technological change; working people and parents who need flexible scheduling; young people just out of high school; high school dropouts; and handicapped people with special needs.

WHY COMMUNITY COLLEGES?

Community colleges are the ideal places for retraining. They can offer low-cost programs with flexible scheduling. This is particularly important to adults with jobs and families—almost 50 percent of present community college students are noncollege age. Community colleges can design programs with local industry—often on-the-job training—specifically designed to meet local industry's needs. They can attract faculty from industry, people to teach part time in a field related to their work.

The community college is an especially good training ground for displaced workers, people whose jobs are eliminated because of a plant shutdown, retooling with new equipment, or changes in the economy. From 1979 to 1984, 5.1 million jobs were lost in the United States. By 1984, 25 percent of those unemployed were still looking for jobs. In areas like mine, we are still wading through the aftermath of the recession. Steel industry employment has been cut in half. Studies of automation in the workplace tell us that technological innovations in manufacturing industries will exacerbate unemployment in the Northeast, where manufacturing industries like metalworking are concentrated.

STAYING COMPETITIVE

We are awash with studies and headlines decrying the decline of our industries and products in the international marketplace and the fact that many of our products are not competitive with those from Japan or other Third World producers. We are told that Japan's steel mills produce an average of 700 to 1,000 tons per year per employee, twice the rate of American steelworkers in traditional American plants. The hope of many of our industries is modernization, technological and process innovations to put our products back in competition with those from other countries. This country's trade deficit has reached unprecedented levels, almost $130 billion this year. Without a skilled technical work force, we will never catch up. This bill could be a good start.

The Red Queen in "Alice in Wonderland," gives us guidance: "* * * it takes all the running you can do to keep in the same place. If you want to get somewhere else, you must run at least twice as fast as that." We had better get moving.

I hope my colleagues will lend their support to this bill to make a major effort in technician training through community colleges and trade schools.●

U.S. SMALL BUSINESS WEEK, 1985

HON. MAJOR R. OWENS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 7, 1985

● Mr. OWENS. Mr. Speaker, today we note the contributions of small businesses to our society and to our economy. In 1983, small businesses employed one-half of the private sector work force and created two out of three new jobs. In the same year, 38 percent of the gross national product was generated by small businesses.

In addition to the economic impact, small businesses generate at least half of all major innovations. This creativity contributes much to our society. It also helps in keeping America competitive in a fast-paced technologic world.

Small businesses, which give so much to the society, need our support. The creation of the Small Business Administration in 1953 provided the means by which small businesses could begin and be supported through loans—direct, participant, and guaranteed—development aid, aid to small and minority business investment companies, management counseling, assistance in obtaining Government contracts, revolving lines of credit and surety bond guarantees. Unfortunately, the work of the Small Business Administration has been curtailed as a result of the spending cuts for domestic programs included in the Omnibus Reconciliation Act of 1981. The act reduced the direct lending and the guaranteed loan program. Direct loans which were made, were made at higher interest rates.

Small businesses will continue to need our support. That support has resulted in jobs and in the development of products which are essential in trying to keep up with other nations in the world marketplace. If the deficit continues to eat up capital, they will need our support in order to compete with large established businesses for capital. This is particularly true for newly established businesses. It would be poor public policy if we were to shut out new businesses now. We have just begun to see more significant participation by minority and women's businesses in our economy. This trend has provided opportunities and jobs in many of our communities which have been hardest hit by unemployment.

I appreciate this opportunity to commend the entrepreneurs who have risked so much and worked so hard to start their own businesses. They deserve our support.●

WE'RE RUNNING OUT OF OIL FASTER THAN PREDICTED; THIS IS NO TIME TO LOWER AUTO EFFICIENCY STANDARDS

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. STARK. Mr. Speaker, everyone knows there is a finite amount of liquid petroleum. Or to put it more bluntly: We're running out of gas.

This morning's news is that we're running out of gas faster than we thought.

The Department of Interior now estimates that there is 55 percent less oil and 44 percent less gas in our offshore waters than was estimated just 4 years ago. The estimates of resources off the Alaskan coast were cut by a crushing 70-plus percent.

The Office of Technology Assessment reported yesterday that "oil imports, which have declined in recent years, are expected to gradually increase and may again reach the high levels of the 1970's" which "would make the country more vulnerable to supply interruptions and would increase the trade deficit."

I mention all of this as more evidence why the administration should reject requests by Ford and GM to lower the fuel mileage efficiency standards on new car fleets from 27.5 mpg to 26 mpg. Those two companies—despite nearly a decade of warning—have been unable to reach the 1985 standard of 27.5 mpg. Chrysler has made the standard. So, rather than pay a fine of hundreds of millions, they want the standard lowered.

Lowering the standard will be a ripoff of consumers—but it will be a future disaster for the Nation. It will increase our future oil consumption by millions of barrels per year—hastening the day when we reach another oil crisis, soaring prices and gasoline lines for everyone.

I urge Members to cosponsor my bill setting a 27.5 mpg minimum standard and removing the administration's authority to lower the standard.

Let's think about the morning energy news and say no to weakening energy efficiency standards.●

FED GOVERNOR WORRIED ABOUT THE EFFECT ON POOR OF RECENT BANK MOVES

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Ms. OAKAR. Mr. Speaker, in today's dynamic and deregulated financial marketplace, many low-income working Americans, senior citizens, and young people can lose access to basic banking services through a regressive fee structure imposed by banks and other depository institutions.

Recently, I introduced the Financial Services Access Act—H.R. 2011—to direct banks and other federally insured depository institutions to offer new accounts to meet the basic banking needs of lower income consumers.

On May 7, the American Banker publication printed an article entitled: "Fed Governor Worried About Effect on Poor of Recent Bank Moves." I commend to my colleagues' attention the thoughtful words of warning by Emmett J. Rice, Federal Reserve Board Governor, and ask that the article be printed in its entirety.

FED GOVERNOR WORRIED ABOUT EFFECT ON POOR OF RECENT BANK MOVES

(By David Ahearn)

WASHINGTON.—It is time for close scrutiny of "the possible adverse effects on low- and moderate-income individuals of some of the changes taking place in our financial system," Emmett J. Rice, a Federal Reserve Board governor, said last week.

Such individuals, including young and old Americans, have been harmed by bank branch closings, moves by banking institutions to serve "upscale" instead of low-balance customers, higher fees and reduced services at many banks, and other banking developments, Mr. Rice told a Banking Law Institute conference.

Fed studies show that bank fees rose two to four times as fast as the cost of living from 1980 to 1983, he said, and "there is some evidence that certain groups may not be using the banking system as much as they once did.

"The number of younger people with checking accounts went down significantly from 73% to 63% between 1977 and 1983—perhaps at least partially because of these increased fees," he said.

The studies also show that the lowest-income individuals surveyed dropped from 56% having checking accounts to 44%. Young families with neither a checking nor savings account doubled, from 11% to 22% of those surveyed. Those who have no account may never be able to obtain credit, he said.

While some technological advances may provide new services to replace lost traditional services—such as banking through home computers replacing the loss of bank branches—Mr. Rice questioned whether low- and moderate-income individuals will be able to take advantage of such innovations. Many might not be able to afford home computers, or might not be sufficiently literate to use them, he said.

He also criticized other recent innovations in the banking industry.

"We must continue to give careful attention to issues such as the propriety of banks and others using loopholes in our banking laws and the efforts of the agencies or the Congress to close these loopholes, as well as the wisdom of granting new powers and allowing full interstate banking," he said.●

SAM J. ERVIN, JR.—A GIANT HAS FALLEN

HON. JAMES T. BROYHILL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 6, 1985

● Mr. BROYHILL. Mr. Speaker, in further tribute to Senator Sam J. Ervin, I would like to submit the statements of two former colleagues of mine, Mr. Basil L. Whitener and Mr. Hugh Q. Alexander.

SAM J. ERVIN, JR.—A GIANT HAS FALLEN

(By Basil L. Whitener, Former Member of Congress)

Sam J. Ervin, Jr., an unrelenting champion of the great constitutional principles on which our democracy is forged, has gone to his Eternal Home. Those of us who have been privileged to know and serve with him are particularly saddened by his passing and are mindful of the void which his death has created among us.

Throughout his very fine and distinguished service in the military during World War I (for which he received the Silver Star and numerous other honors), and as a lawyer, legislator, superior court judge, Member of Congress, justice of the North Carolina Supreme Court, and United States Senator, Ervin displayed the attributes of character, ability, integrity, and devotion to State and Nation which mark a great patriot.

As a private citizen, Ervin was a truly devoted son to his distinguished parents and a fiercely loyal husband and father to his wife and children. His characteristic modesty and humor have also contributed to the legend of the man, and that legend will assuredly continue to grow in the generations to come.

I would like to express my sentiments of highest esteem for Senator Ervin and the legacy which we, as North Carolinians and Americans, have received from him—the duty and honor of preserving the Constitution and our American way of government, to which he devoted his life.

Mrs. Whitener joins me in extending our sympathy to Mrs. Margaret Ervin and to the Senator's children and grandchildren in the very great loss which they feel so keenly and which is certainly shared by our State and Nation.

TRIBUTE TO SENATOR SAM J. ERVIN, JR.

(By Hugh Q. Alexander)

It was a great honor for me to serve in the Congress of the United States with Senator Sam J. Ervin, Jr. The opportunity to learn from a man of such great wisdom and intellect was a special privilege for which I shall always be grateful. His famous stories and humorous illustrations brought forth not only laughter but also a lesson to ponder.

Senator Ervin was a hero to millions of Americans because he exemplified those qualities which characterize the ideals of democracy. Throughout his long, distinguished career, he demonstrated the highest degree of honor, integrity, and the golden rule.

In both his public and personal life, Senator Ervin lived by a creed which placed duty and service before self. His devotion to God and country, his love of family, his sense of time and place, and his warm, caring personality all combined to set this great and good man apart as an example for all mankind.

One of life's richest experiences for my wife, Myrtle, and me has been the personal friendship of "Senator Sam" and his lovely and gracious wife, "Miss Margaret". In 1973, our son, Stephen, was critically injured in a highway accident while on his way from Alexandria, Virginia, to the University of North Carolina at Chapel Hill. Stephen was in the Fairfax Hospital for many months, and the medical bills were enormous. One day, Senator Ervin stopped by my office on Capitol Hill and said that he had come to inquire about Stephen and my wife, who was spending most of her time at the hospital. "Hugh", he continued, "I am not a wealthy man, but I want you to know this: if you have any financial difficulty because of this unfortunate tragedy, please let me know. If I don't have enough money, I'll see that you get it."

This was Senator Sam J. Ervin, Jr., a man who "walked with kings but never lost the common touch"—a truly great American hero.●

ANTI-SANDINISTA PRESS CONDEMNS U.S. EMBARGO

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MILLER of California. Mr. Speaker, after failing to win the support of Congress for its covert war against Nicaragua, the Reagan administration has moved unilaterally to punish the Sandinista regime.

In imposing trade sanctions against Nicaragua, President Reagan is once again demonstrating his lack of a policy. A policy requires thinking through the likely consequences of one's actions. President Reagan's embargo is going to hurt the private sector in Nicaragua, one of the very groups U.S. policymakers say we should be supporting.

Private sector leaders in Managua oppose the embargo, and feel caught in the middle of President Reagan's economic war on Nicaragua.

Most of Nicaragua's principal exports are agricultural products. Of the principal crops, private producers account for the bulk of production. According to private sector leaders, 70–80 percent of the cotton is produced privately, 80 percent of the coffee, 70 percent of the cattle, and 50 percent of the sugar.

According to the private sector, 60 percent of manufacturing production is still in private hands.

President Reagan's embargo against Nicaragua strikes its biggest blow against private producers, who are dumbfounded as to why our country has done this to them.

I call your attention to the following critical editorial from La Prensa, Nicaragua's opposition paper which is stridently anti-Sandinista:

[FROM LA PRENSA, MAY 2, 1985]

The breaking of the nonalignment commitment, the surrender of Nicaraguan's international policy to the interests and expediencies of the Russian-Cuban-Communist bloc, and to top it off President Ortega's trip to Russia after the Congressional blow to Reagan, have placed us, as we had foreseen editorially, in an extremely serious situation of an economic war for which there would have been no motive if we had an honorable but prudent, revolutionary but democratic government.

We denounce the position of the Sandinista government as "irresponsible and imprudent," as the vice-chairman of the Social Christian Party termed it. But we feel that President Reagan's response is an unjust response, because an economic embargo has equally harmful effects on all the people. The defense of democracy can not be carried out with indiscriminate measures that would bring discredit to the very cause that they seek/claim/to defend.

The great majority of Nicaraguans in the interior of the Republic resist the diverting of the revolution and the totalitarian inclination of the government: but that majority would be the one punished by the embargo.[1] And the risk would be run of repeating the result of the economic embargo in recent world history: the sacrifice of the sacrificed and the consolidation of the sacrificers.●

POLISH CONSTITUTION DAY

HON. DENNIS M. HERTEL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 8, 1985

● Mr. HERTEL of Michigan. Mr. Speaker, I rise to recognize the celebration of Polish Constitution Day. On May 3, 1791, Poland declared herself a free and sovereign state. However, this declaration arrived too late, as it could not prevent the third partition of Poland in 1795 by Russia, Prussia, and Austria. Even though the May 3d Constitution never achieved its designed intentions, it is still considered one of the great events in Polish history. Poland experienced other invasions and partitions which prevented the development of her democratic ideals. These many setbacks did not destroy the spirit of the people of Poland. Poles everywhere dream of a united and free Poland which will reflect the philosophies and ideals of her citizens.

Poles have experienced the joys of democracy and the perils of Soviet rule; and by celebrating Polish Constitution Day, a clear message is sent by Polish people of their commitment and desire for basic human rights. As a nation, Poland has long been remembered for her progressive ideas relating to political freedom and religious toleration, and this celebration is an expression of a nation of people and their will to achieve freedom, justice, equality and individual liberty.

[1] The Spanish text uses the word "bloqueo," which means "blockade." The word for "embargo" would be embargo or prohibición. "Bloqueo económico," however is translated as "embargo."

We all know Poland remains under Soviet control and its people are inflicted with a continued suppression of basic human rights. All democracies look to the vigorous spirit and dedication of the Polish people for strength as we uphold our ideals which coincide with the hopes of Poles everywhere. Even Soviet suppression does not darken the hopes of the Polish people in looking forward to the day a truly independent Polish nation can enjoy the individual liberties which have long been associated with her democratic ideals.

It is with great pleasure that I extend my best wishes to the people of Poland, to Polish-Americans and to those everywhere of Polish descent, as Polish Constitution Day is celebrated.●

SENATOR SAM ERVIN

HON. E de la GARZA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, May 6, 1985

● Mr. DE LA GARZA. Mr. Speaker, Sam Ervin once said that when he retired from Congress, he told his colleagues, "I've been with you 20 years, and I have given you trillions and trillions of dollars' worth of good, sound advice and you've taken about 15 cents' worth of it. So I'm going home."

That was in 1974 when Senator Ervin retired from the Senate. He was going home then to Morganton, NC. Now, that great American has truly gone home, and this Congress and this country will miss him.

We miss that good, sound advice he talked about. We miss his leadership in legislation, and in efforts to keep our Government from getting too big. But perhaps more than anything else, we will miss him for two of his most distinguishing qualities.

The first of these was his uncompromising honesty and determination to stand up for the principles he believed in.

The second was his uncompromising devotion to the Constitution of the United States, and to the freedom it conferred on all of us.

Senator Ervin was a man who was not afraid to face hard jobs or assignments that carried a lot of political risk. He served on the Committee that investigated the late Senator McCarthy, and he wound up his career heading the Watergate investigation. But I find it typical of the man to read this in a UPI account of Senator Ervin's life:

He accepted the Watergate assignment because "it was my duty." Although he fast became a folk hero when his quick wit, dancing eyebrows and fondness for telling a tale were televised during the Watergate hearings, he never sought the limelight. He preferred to research issues himself, and often attended Senate debates armed with stacks of lawbooks. Watergate focused the Nation's eye on North Carolina's Senator, but Ervin himself is perhaps proudest of his role in drafting legislation allowing Congress to write its own Federal budget.

On this issue we worked together, and I am proud.

Mr. Speaker, Senator Ervin's great devotion to our country and its Constitution was founded on a love of freedom. That is a legacy he leaves to all of us. He was a great American, and he will be remembered with fondness and gratitude by the Congress in which he served, and by history.●

U.S. SMALL BUSINESS WEEK, 1985

HON. JOSEPH M. McDADE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 7, 1985

● Mr. McDADE. Mr. Speaker, I applaud the President for proclaiming May 5 to 11, 1985, as Small Business Week. The theme for this week is "America at Work." We are a nation of 14 million strong small businesses at work. Small business makes up 99 percent of the total number of businesses in the United States, creates the majority of new jobs in our economy and employs over half of the American work force. Small businesses are more likely than large firms to hire women, youths, older and part-time workers, and people who are out of work. In addition to leading in job creation, small firms furnish two out of three workers with their first jobs.

Small businesses create more than new jobs, they create new opportunities, industries, and innovations. They are involved in high technology, construction, transportation, communications, wholesale and retail trade, services, and much more. All these are important to our economic growth. Small businesses have contributed to the growth of the U.S. economy. With each entrepreneur's perseverance and creativity more opportunities are available than ever before. We should continue to encourage and support our Nation's small business owners. We all benefit from their contributions.

This week, as we celebrate U.S. Small Business Week, I hope everyone will recognize the importance of small business to our economy. I ask my colleagues to join with me in saluting our Nation's small businesses. They are, indeed, America at work.●

FREE POSTAGE ELECTION PARTICIPATION ACT

HON. WILLIAM D. FORD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. FORD of Michigan. Mr. Speaker, I rise to announce that I have added my name to the list of cosponsors of H.R. 2216, the Free Postage Election Participation Act, as introduced by my distinguished friend and colleague, the Honorable MORRIS K. UDALL.

I fully recognize and appreciate the apparent futility of sponsoring legislation to create a program which entails new costs in a year when we are trying so desperately to save money. But I feel so strongly about this subject that I believe the effort must be made, even if it only turns out to be a symbolic effort.

Voting and registering to vote are the very core of our system of government. The acts of registering and voting set in motion the wheels which make our democratic system run. Yet, participation in elections remains alarmingly low. Only 68.3 percent of the eligible U.S. population was registered to vote in the 1984 general election.

I am convinced that a central part of the problem is the role played—or not played—by the Federal Government. Federal law requires State and local governments to provide ballots and registration materials for Federal elections, but does not provide any financial assistance for carrying out this extremely expensive task. In 1984, State and local governments spent $350 million administering the Presidential election.

H.R. 2216 would ease this burden in a small but hopefully significant way. In effect, the postage for absentee ballots and registration materials mailed by State and local governments would be paid by the Federal Government. State and local officials who have endorsed H.R. 2216 agree that the easing of their financial burden, and a more active Federal role, could well result in increased participation in future elections.

Implementation of the bill's provisions would cost the Treasury about $4.6 million during a Presidential election year, and $3.5 million in an "off-year"—a worthwhile and cost-effective expenditure, in my opinion. I realize, however, that I cannot be optimistic that Congress will approve this new expenditure while faced concurrently with proposed cuts in (or total elimination of) programs which already exist, such as social security benefits, education funding, revenue sharing, community block development grants, and currently-authorized postal rate

subsidies—including free postage for the blind and handicapped.

Nonetheless, I am proud to be a cosponsor of H.R. 2216. It is legislation which is much needed—and, hopefully, whose time inevitably will come.●

NEVADA LULAC HONORS HISPANIC EDUCATORS

HON. HARRY REID
OF NEVADA
IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. REID. Mr. Speaker, it was George Santayana who once said, "The great difficulty in education is to get experience out of ideas." With this focus on putting education to work, the challenge for today's teachers is probably the greatest it's been in our Nation's history.

Along with many of the necessary educational transitions that have taken place during the past several years is an awareness that our Nation must adjust to the needs of our population. We recognize that the cultures, languages and uniqueness of many nations must be preserved and integrated into our own Nation's learning foundation.

In order to do this most successfully, we need to look to leaders who are an integral part of these cultures—people who can transmit this firsthand knowledge to our children.

That is why it is such a pleasure for me to take this opportunity to congratulate the distinguished members of Nevada's LULAC, our State and Nation's largest Hispanic advocacy organization, as they honor nine exceptional Nevada educators with the 1984-85 Nevada Hispanic Educator Recognition Awards.

Under the direction of Robert Rivas, Nevada LULAC selected these nine outstanding educators for their contributions to the quality of education in Nevada's public instructional system. Rating criteria in the selection process involved the following categories: Role model, leadership, community involvement, commitments to students, prior awards and recognition, and academic achievements.

In this, the first year for Nevada Hispanic Educator Recognition Awards, LULAC has made a special dedication to Alfred P. Baca, who was a tenured professor with the University of Nevada system until his untimely death in July 1984. I also want to pay tribute to this fine educator, who was more than a unique Hispanic teacher. He was a friend, a leader and role model for the children of Henderson and the entire State. I am pleased to recognize that his influence will continue to impact on the children and adults of Nevada for years to come.

Just as proud as Alfred Baca would be now, I am pleased to have this opportunity to introduce you to this year's outstanding Hispanic educators.

Edward Arciniega has been named Hispanic Educator of the Year for 1985, as well as Hispanic Male Educator With the Most Years of Service. He is a Spanish teacher with 34 years of teaching experience. The Churchill County High School educator also contributes his talents to extra-curricular coaching duties in basketball, baseball and football. Through his dedication, he has contributed significantly to the development of the Spanish language in the area, as well as stressing the cultural contributions Hispanics have made to this country and the world. Though eligible for retirement, he has declined to leave teaching because of his commitment to teaching and his love for the students.

Dr. Agustin A. Orci, associate superintendent of Administrative and Special Student Services of the Clark County School District, is the Hispanic Administrator of the Year. A professional educator for 19 years, Dr. Orci is the highest ranking Hispanic within all of Nevada's schools districts. In addition to administrative duties and classroom teaching experience, Dr. Orci has worked on such programs as: The Interlanguage Core Program; curriculum development for special education and the vocationally handicapped; instructional management systems; minimum competency testing legislation; and other diversified programs and projects for the State of Nevada.

Dr. Stella L. Romero Helvie is the 1985 Hispanic Female Administrator of the Year. As the principal of Robert E. Lake Elementary School in Las Vegas, Dr. Helvie exhibits exemplary managerial skills and possesses a very high level of knowledge in the area of instructional supervision, courage and directness. The 12-year veteran of classroom instruction works with her teachers and students to reach peak performances in the education experience. Her diverse background, which includes, but is not limited to, teaching and administration in basic education, special education, home-school education and higher education, makes her an excellent role model for both students and teachers.

Ray Espinoza, a business teacher at Pershing County High School in Lovelock, has been named the Hispanic Secondary Educator of the Year. His 17 years of instruction at the county high school level have been instrumental in preparing business foundations for thousands of students. He is responsible for providing progressive education for tomorrow's business leaders by introducing a successful computer education into the school's curricula. In addition to teaching, he has also served as president of the Classroom Teachers' Association and as a member of the Meet and Confer Committee.

The Hispanic Junior High School Educator of 1985 is Elsie Jimenez. The Humboldt County junior high school teacher has spent 7 of her 18 years in teaching as a special education teacher at Winnemucca Junior High School. Recognized by her peers as an outstanding teacher, Ms. Jimenez's primary concern is to prepare her students for high school thoroughly enough to enable them to complete 4 years and graduate. She works with her students on every aspect of their school lives and encourages them to participate in extracurricular activities and enter school contests. She considers each student to be a special and unique person and develops her programs individually to their needs. Outside the classroom, Ms. Jimenez assists families with obtaining legal help, handling medical problems and dealing with citizenship matters. She also serves as an interpreter whenever needed.

A fourth-grade teacher from Las Vegas's Pat Diskin Elementary School is the Hispanic Elementary Educator of 1985. Alma Garcia Vining has the personality, ambition and instructional ability that make her an outstanding professional. She works effectively and efficiently with students and parents and is an excellent role model for all her students, especially minority students. Her attitude demonstrates to her students that all people can be successful in this country. To help her perpetuate this sense of self-awareness, Ms. Vining brings forth her teaching experiences, especially those where she taught English to non-English speaking adults.

Henry Jojola is 1985's Hispanic Vocational Educator of the Year. The department coordinator at the Southern Nevada Vocational-Technical Center in Las Vegas has expertise that goes far beyond his 7 years of teaching. His own educational and professional experiences include graduations from nearly 1 dozen electronics programs and schools. He has translated this knowledge into an instructional format that helps him and his students maintain and expand their vocational standards and reach their vocational goals.

Rita Aragon is the 1985 Hispanic Female Educator With the Most Years of Service. She is a second-grade teacher at Rose Warren Elementary School in Clark County. The 27-year teaching veteran has spent most of her teaching career with predominantly Mexican-American students in inner-city schools in Los Angeles. However, for the last 9 years, she has taught in southern Nevada. Ms. Aragon has a great love for teaching and working with children. She takes pride in seeing them learn and grow to

become good and valuable citizens. She always stresses and demonstrates the importance of self-esteem in helping a child develop fully.

The Most Promising Hispanic Educator of 1985 is Miriam Smyth, a foreign language teacher at Valley High School in Las Vegas. Recognized for her enthusiasm and innovative teaching techniques, Ms. Smyth adds energy to everything she does in foreign language instruction. During her 6 years of teaching, she has continued to use exciting and creative methods to challenge her students. She is the type of role model that LULAC encourages other Hispanic students to follow in pursuing a teaching career.

Again, I am pleased to congratulate LULAC for this recognition program and these nine Hispanic educators for their outstanding contributions.

As a Congressman from a southwestern State, I am especially aware of the positive influence Hispanics can have toward the development of this region and the Nation. Understandably, there is no place that this impact is and will continue to be felt more strongly than in our school systems. After all, it is during our formative years that we lay the foundations for our futures.

Through the influence of these outstanding educators we can find new and renewed reasons to be proud * * * to reinforce our belief in education as one of the institutions we most cherish in this great Nation.

To these outstanding Hispanic educators I say thank you for jobs well done and service abundantly rendered. Indeed, the House of Representatives salutes you.●

THE RICHNESS OF THE UKRAINIAN-AMERICAN EXPERIENCE

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BROOMFIELD. Mr. Speaker, I want to take this opportunity to pay tribute to the Ukrainian community in the United States. This month the Ukrainian National Association, the oldest Ukrainian organization in the United States, is celebrating 100 years of Ukrainian immigration to the United States. The culture of America has been greatly enriched by their presence in this great country. We have been most fortunate in inheriting their drive, their skills and the rugged independence of those Ukrainians who could no longer put up with life without freedom.

As all of you know, the Ukraine is one of the most important of the captive nations. It is unfortunate that because the independence of the Ukraine lasted but a short time, between the fall of the czar and the military takeover of the Ukraine by the Bolshevik government under Lenin, some people tend to forget that the Ukraine was indeed, at one time, free. For 5 years, it had a separate political identity of its own. Since 1918, however, it has been incorporated into the territory of the U.S.S.R.

The Ukraine has had a long and distinguished history, with geographic and ethnic identities of its own. Of special importance has been the Ukraine's excellent agricultural production. For centuries, it has been the target for the aggression on the part of numerous European power. Who can forget the 7 million Ukrainians in the Ukrainian Soviet Socialist Republic who died of starvation during the period of 1932 to 1933. This was the result of the Soviet Russian Government targeting the Ukrainian people for genocide by directing special draconic decrees against Ukrainian peasants as enemy class, and against Ukrainian intelligentsia as bourgeois Ukrainian nationalists. Yet throughout all of these invasions and occupations, including the current one, the people of the Ukraine have maintained their fierce love of freedom, their bold sense of independence, and their individual integrity.

To seek their freedom, millions of Ukrainians came to America. They had firsthand knowledge of how communism can enslave men. They were poor and unschooled, but shared the dream of living in a free land. They worked hard in factories, mines, and on farms and helped to build America into an economic giant.

They have made significant contributions to enrich American life and our society. Americans of Ukrainian descent distinguished themselves in the academic world and in science as well as in the corporate sector. Americans of Ukrainian descent have entertained millions of television and movie viewers while others have had exemplary careers serving the Nation in our military.

They have transplanted their rich culture from their mother country to this new land and have enhanced the fascinating cultural mosaic of America. I admire them for their efforts to preserve their rich heritage for the future generations of Ukrainian-Americans. I salute the Ukrainian-American community and their celebration of 100 years of Ukrainian immigration to the United States.●

AMTRAK—TWO FOR THE PRICE OF ONE

HON. GERRY E. STUDDS

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. STUDDS. Mr. Speaker, if the administration has its way, the United States will be the only developed nation in the world without a national passenger rail service. Despite increasing ridership and decreasing reliance on Federal subsidies, Amtrak is slated for extinction under the proposed budget for fiscal year 1986.

A review of Amtrak's recent record and the effect of its elimination reveal the administration's plan to be penny wise and pound foolish. Over the last 14 years, the Federal Government has spent $5.2 billion in upgrading the system's infrastructure and improving the service in the Northeast corridor between Boston and Washington. This investment is now beginning to pay off, with Amtrak transporting over 20 million passengers in 1984, an 18-percent increase over 1983 ridership, with its best ever on-time performance. This has come while the Federal Government's share of operating expenses has decreased, dropping from $896 million in fiscal year 1981 to $684 million in fiscal year 1985.

And what will it cost to dismantle the system? As The Boston Globe points out in the following editorial, 25,000 Amtrak employees, including over 700 in Massachusetts, would be laid off, costing the Federal Government an estimated $2.1 billion in labor protection benefits.

The administration is giving the country a real bargain with this proposal—imprudent fiscal policy and short-sighted transportation policy—two for the price of one.

SAVING AMTRAK

The Amtrak rail passenger system was one of the achievements of the Nixon administration. Under the leadership of former Massachusetts Gov. John Volpe, who was then Secretary of Transportation, the Federal Government took over passenger service from the railroads, which had found it a money loser.

The arrangement has worked well. After a difficult transition, Amtrak's employees and managers have cooperated admirably to hold down costs and improve service. Last year the system carried 20 million passengers.

The Reagan administration proposes to shut down Amtrak to save $684 million in annual subsidies. There would be no savings for some years, since the Government would have to pay more than $2 billion in severance to the 25,000 employees who would lose their jobs, and it would have to write off more than $3 billion in equipment and other assets.

It is misleading for the administration to assert that Amtrak competes unfairly with unsubsidized rival forms of transportation. All modes of transportation are subsidized, directly or indirectly. Buses do not pay for the full cost of the highways and streets that they travel. The Government subsi-

dizes airlines by providing air traffic control.

Because air service is so much faster than rail service, Amtrak does not complete with the airlines for business passengers except on very short trips. The much higher price of air travel shows that business travelers would rather save time than money. The ordinary weekday fare between Boston and New York is $25 for a 5-hour trip on Amtrak compared to $65 for a 30-minute flight on the Eastern shuttle.

Amtrak, however, does compete with airlines for the business of low-income travelers of families with small children. It also competes with bus companies, which charge slightly less for a slightly faster trip. If it were to be put out of business, the bus lines would be free to raise their fares substantially, and low-income travelers would have no choice.

W. Graham Claytor, Jr., the chairman of Amtrak, points out that it is the only form of transportation that could move large numbers of people in a national emergency, and that in many small communities, it is the only transportation. If it were abolished, the United States would be the only industrial nation without a rail passenger system. Claytor has promised to wage a battle to save Amtrak. He deserves public and congressioal support.●

MS. WALMAR GRAY CELEBRATES 50 YEARS OF SERVICE WITH AMERICAN RE-INSURANCE CO. IN NEW YORK

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. ACKERMAN. Mr. Speaker, I would like to take this opportunity to publicly acknowledge the accomplishments of Ms. Walmar Gray of Forest Hills, NY, who on May 13, 1985, will celebrate her 50th year of service with American Re-Insurance Co.

Mr. Speaker, American Re-Insurance Co. is a subsidiary of the Aetna Casualty & Surety Co., a well-respected firm in New York. The company has reaped many benefits from Ms. Gray's years of service, and from the enthusiam with which she approaches her job. As the retrospective premium accountant in the underwriting accounting department, Wally Gray performs the vital task of accumulating data needed for corporate financial reports, as well as servicing clients on an individual basis. Her top-notch work has made a significant contribution to the smooth and efficient operation of the underwriting accounting department, in conjunction with the leadership and direction of Assistant vice President Kenneth Shefcik and the company's other fine officers.

Mr. Speaker, one of the many talents wally has brought to American Re-Insurance is her skill in dealing with people. All of us have had occasion, in our interactions with businesses and institutions, to be put off or experience frustration with "the system." But clients of American Re-Insurance who work with Ms. Gray have had a very different experience. Her people-oriented approach to doing business has served the company well, and has been of great benefit to many New Yorkers. Walmar Gray, who is preparing to retire after her 50 years of invaluable service, will be greatly missed by American Re-Insurance and its clients.

I would like to congratulate Ms. Gray on her 50th anniversary with the company, and extend to her my best wishes for the future. She has made an important contribution to the city of New York, and I ask all of my colleagues in the U.S. House of Representatives to join me in celebrating with her 50 years of service with American Re-Insurance.●

DR. WILLIAM J. REID

HON. JOE MOAKLEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MOAKLEY. Mr. Speaker, it is my privilege to call to the attention of the House the outstanding contributions by Dr. William J. Reid, to the Boston school system in particular South Boston High School, and the South Boston neighborhood itself.

Since 1936, Dr. Reid has taught in the Boston school system, beginning as a substitute teacher and working his way through the ranks to become headmaster of South Boston High School in 1965, where he set standards of education, and principles that further enriched the school, it's students, and it's reputation.

In addition to lecturing at various colleges around the State of Massachusetts, Dr. Reid to his credit, has also published a number of books dealing with Massachusetts history and government, and the Cape Cod Canal. Dr. Reid's highly respected reputation in the education field has been recognized with high honors, among them the Distinguished Service to Youth from the Massachusetts Secondary School Principals Association, and also the Award of Merit from the Youth Activities Commission from the city of Boston along with many others too numerous to name.

Dr. Reid's devotion to the Boston school system can only be surpassed by one element, and that is his commitment to the youth and the community of South Boston. Many residents of South Boston have seen first hand the involvement that Dr. Reid has shown with the South Boston Boys & Girls Clubs, and the South Boston Youth Hockey League.

Both of these programs on which Dr. Reid had quite a positive impact, help nurture and guide young children on the road to adulthood.

Mr. Speaker, I am proud to present Dr. Reid, my fellow South Bostonian, and I know that my colleagues will join me in congratulating a most thoughtful man, whose devotion and generosity of spirit can always be counted on in the cause of education and the assistance to his community—South Boston.●

ESPARANZA GUERRERO

HON. JIM KOLBE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KOLBE. Mr. Speaker, this month, during National Small Business Week, a Hispanic woman from Arizona's Fifth Congressional District will be honored as National Minority Small Business Advocate of the Year by the U.S. Small Business Administration. Esparanza M. Guerrero, a senior consultant with Price Waterhouse in Tucson, AZ, was selected because of her dedication and work in helping minority small businesses gain access to financial and management assistance.

Esparanza Guerrero's achievements begin with community action. As a native Arizonian, she understands that the Hispanic community has a long history of contributions to the cultural and economic development of the Southwest. Professionals and volunteers like Ms. Guerrero remind us of our past, as well as our responsibility to the future. She is currently a member of the Hispanic Professional Action Committee and a volunteer at Casa de los Ninos, a crises nursery for children. Ms. Guerrero is a consultant with Chicanos Por La Causa, helping minority firms interested in security debt financing and has worked with local financial institutions to help firms get needed financing. She has worked for the Tucson Economic Development Corp. in relocating businesses to the area and with the Southwest Border Regional Commission as a liaison with business and government agencies on both sides of the United States-Mexico border.

The 14.2 million small businesses recognized during National Small Business Week are the foundation of our economy. This foundation crumbles unless men and women representing all ethnic and socioeconomic backgrounds are welcome participants. The goal of the Federal Government should be to work as a partner with

communities, local leaders, and small businesses to foster the independence and entrepreneurship needed in a dynamic economy. For Hispanics, community and independence are not contradictory concepts—they form the basis for relationships that give people the support to realize their full potential

I ask my colleagues in the U.S. House of Representatives to join me in congratulating Esparanza Guerrero on her outstanding contributions to American small business. The Hispanic community can be proud of her work, and all of us can learn from her as a professional and as a volunteer who represents our dreams for free enterprise and community involvement.●

BACH CHOIR OF BETHLEHEM, PA

HON. DON RITTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. RITTER. Mr. Speaker, today I would like to bring to the attention of my House colleagues the accomplishments of the Bach Choir of Bethlehem, PA, which is commemorating the 300th anniversary of the birth of Johann Sebastian Bach this weekend and next with its 78th Annual Bach Festival. Sir David Willcocks, director of music at King's College, Cambridge, England, director of the Royal College of Music in London, and also director of the Bach Choir of London, will be the guest conductor for the festival's performance of the B Minor Mass.

The Bach Choir of Bethlehem was founded in 1898 by Dr. J. Fred Wolle for the purpose of encouraging a greater interest in, appreciation of, and aesthetic and spiritual benefit from the choral and instrumental works, both sacred and secular, of Johann Sebastian Bach. The choir organization works to educate both its own members and the public in the works of Bach through the performance of his works under competent musical direction, to the end that the highest standards of performance may be achieved and the perfection of creative art may be maintained. The Bach Choir of Bethlehem is the oldest Bach Choir in the United States performing only the works of Johann Sebastian Bach. The first complete American performance of Bach's Mass in B Minor was given in Bethlehem in 1900.

The annual Bach Festival in Bethlehem is attended by music lovers from more than 30 States. The office of the choir serves as the national office for the American Chapter of the New Bach Society.

Mr. Speaker, I would like to include an article on the unique tercentenary program that the Bach Choir of Bethlehem will be offering at the festival.

TERCENTENARY PROGRAM HAS HISTORIC ROOTS

(By Alfred Mann)

It has been argued that anniversary programs pay artificial rather than genuine homage to the great composers, but history refutes this. Bach anniversaries have provided major impetus to the cultivation of Bach's work, and the first Festival of the Bach Choir of Bethlehem (on April 2, 1900), marking the sesquicentennial of Bach's death, was in itself an anniversary observance.

We have become more conscious of the Choir's own anniversary dates in recent years—the Choir's one hundredth performance of the Mass in 1972 and the seventy-fifth anniversary of the Choir's founding in 1973 were commemorated with programs of special significance—and the historic journey the Bach Choir of Bethlehem undertook in 1976 to perform at the International Bach Festival in Berlin and at Bach's church in Leipzig was in turn prompted by the country's Bicentennial.

When the time came to plan for the observance of this year's Bach Tercentenary—the three-hundredth return of Bach's birthday—the Bach Choir decided that the anniversary should be linked to Bach Choir history. It was eighty years ago that the Choir's founder, Dr. J. Fred Wolle, staged a Bethlehem Bach Festival different in format from all others because it was guided by a plan of performances that spanned the entire church year, celebrating the major feasts of the season with works Bach had written for the corresponding phases of the year.

Dipping into Choir history. Greg Funfgeld, Bach Choir director, has recreated this design, but with a different approach. The most notable departure reaches back to another gesture from the annals of Bethlehem Bach Festivals. Dr. Wolle was organist at Bethlehem's Central Moravian Church when the Choir was established, and on occasion he included in the Festivals some programs consisting entirely of organ music which he presented himself. The conclusion of this year's cycle of Bach concerts in Bethlehem will be marked by an organ recital of Marie-Claire Alain, famed French organist known in this country as "the first lady of the organ".

There is also a new point of view from which the works for the other programs were chosen. While there is some obvious overlap with Dr. Wolle's programs eighty years ago—the Magnificat will be heard at Christmas and the St. John Passion in a Lenten program—the other works to be performed were scheduled by an ingenious process of selection involving the whole Choir.

With appropriate pride in the extraordinary performance history of the Bach Choir of Bethlehem, its members were asked to cast a vote indicating their individual preferences from the eighty-five years of Bach programs. The results were integrated into the scheme of the year cycle, so that each work to be given represents a milestone in Choir history.

In the Christmas program, Cantatas 140 and 63 were included, the former being one of the works heard also in the Bethlehem Christmas program of 1904, and the latter having opened the program of 1971, which traced the outline of Bach's own first Christmas service in Leipzig.

The works of the May Festival program are a summary of high points from all Bethlehem programs: the B Minor Mass, preceded by cantatas and motets that stand out in Bach Choir memory.

There is a remarkable point of comparison between the Bethlehem Festival cycle of eighty years ago and the anniversary program of 1984–85. Dr. Wolle's project proved in the end too vast to be adjusted to the Bethlehem Festival format, and there was no further goal to attain. Dr. Wolle accepted the call from the University of California, and the Festivals came to a temporary end. With their eventual resumption in 1912, a pattern was established that in time has proved so sound and enduring that today's Bach Choir director was able to enter upon a full year's anniversary celebration with assurance of a firm tradition and many more special programs and anniversary celebrations to come.

I encourage my colleagues, especially those who represent neighboring districts, to visit Bethlehem, PA, during the 78th Annual Bach Festival to enjoy this fine muscial event. The program for the festival follows:

1985 FESTIVAL PROGRAM

Friday Afternoons, May 10 and 17

Cantata BWV 78, Jesu, der du meine Seele
Cantata BWV 147, Herz und Mund und Tat und Leben
Cantata BWV 137, Lobe den Herrn, den mächtigen König der Ehren

Friday Evenings, May 10 and 17

Cantata BWV 11 (Ascension Oratorio)
Motet BWV 229, Komm, Jesu, komm
Cantata BWV 74, Wer mich liebet, der wird mein Wort halten*
Motet BWV 225, Singet dem Herrn

Saturday Mornings, May 11 and 18

A program of chamber and orchestral works

Saturday Afternoons, May 11 and 18

The Mass in B Minor

*Festival premiere.●

RETURN RAILROAD UNEMPLOYMENT TO SOLVENCY

HON. JACK FIELDS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. FIELDS. Mr. Speaker, I am privileged to represent a district with a large number of railroad employees. In fact, my State, the State of Texas, is one of six States in the Nation with over 20,000 railroad workers. Consequently, I am keenly interested in the welfare of rail employees and retirees.

Unfortunately, one component of the rail system is currently facing financial distress. The railroad unemployment program has been chronically underfunded. In fact, the railroad unemployment fund has been forced to borrow from the railroad retirement fund for 19 of the past 24 years. Railroad unemployment now owes railroad retirement over $700 million and the figure is growing.

On September 30, 1985, the authority for railroad unemployment to borrow from railroad retirement expires. We, in Congress, have two choices: We can act to return rail unemployment to solvency or we can do nothing and deny unemployed railroad workers their just compensation. No one supports the latter choice. Clearly, we must act and we must act rapidly.

As I explored the various proposals to return railroad retirement to solvency, I kept three basic criteria in mind. One, the plan must be fair to the unemployed. Two, the plan must be fair to railroad retirees. And, finally, the plan must be fair to the general taxpayers. I was distressed to find that the so-called consensus package, which has the support of rail carriers and rail labor, failed two of those three tests. The plan is not fair to rail retirees not to the taxpayers. I found it particularly difficult to stomach the plan's lack of fairness to railroad retirees.

The consensus package would require the forgiveness of the interest on railroad retirement's loans to railroad unemployment. While forgiveness of interest may seem minor, it is not. The dollar figure of interest due railroad retirement may ultimately range from its current low of $200 to $300 million to nearly $3 billion. I cannot support a plan which would rob railroad retirees of money which is rightfuly theirs. While some may claim that railroad retirement is in good financial condition and can spare the funds, my memory is not that short.

I remember a few short years ago when railroad retirement was on the brink of financial collapse. Railroad retirees faced drastic reductions in their benefits if Congress did not act to salvage the system. We, in Congress, passed legislation which required railroad retirees to take benefit reductions to gain the retirement system's solvency. I think it is unconscionable that a few short years after requiring benefit reductions from rail retirees, we would allow up to $3 billion to be siphoned from the railroad retirement fund.

So, I am delighted to be an original cosponsor, today, of alternative legislation which meets all three of the criteria I originally set. First, the plan is fair to unemployed rail workers. Our bill would raise the daily benefit of an unemployed rail worker from its current maximum of $25 per day to a maximum of $35 per day. This figure is much more in line with the benefits of other unemployed workers in my State of Texas who receive up to $37.20 per day.

Second, the plan is fair to rail retirees. It requires that all the principal and the interest on railroad retirement's loans to railroad unemployment be repaid. And, third, it is fair to the taxpayers who are not required to bailout the system at a time when our Nation is facing record budget deficits.

Our bill makes rail carriers shoulder the burden of their own rail unemployment system, as it should be. An average Texas employer with a similar workforce employment history to the railroad industry is required to pay approximately $64 per employee, per month in unemployment taxes. In comparison, rail carriers, currently pay only $30 per employee per month in unemployment taxes. Rail carriers are paying too little tax to fund rail unemployment. While raising rail unemployment taxes is unpleasant, it is necessary if railroad unemployment is to remain independent and to become financially sound. Our bill would increase the wage base on which unemployment tax must be paid from $600 to $1,300 per month, thus bringing rail carriers more in line with other businesses.

Mr. Speaker, this plan is balanced and realistic. It protects the interests of the unemployed, the retirees and the general taxpayer. I urge my colleagues to join us in cosponsoring this legislation.●

PUBLIC HOUSING COMPREHENSIVE GRANT PROPOSAL

HON. STEVE BARTLETT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BARTLETT. Mr. Speaker, today, along with my colleagues CHALMERS WYLIE, the ranking member of the House Banking Committee and STEWART MCKINNEY, the ranking member of the Housing Subcommittee, I am introducing the Public Housing Comprehensive Grant Proposal. I am introducing this bill by request of the Secretary of the Department of Housing and Urban Development, Secretary Pierce. This proposal has two purposes in reforming capital improvement funding for public housing.

(1) Deregulation.—It would give local public housing authorities the authority to develop their own comprehensive modernization plan, subject only to limited HUD review and an annual statement of work. This procedure contrasts with current detailed regulatory oversight by HUD.

(2) Formula Funding.—The bill would also replace the current application method with formula funding. Operating subsidies would continue to be funded with the performance funding system but the capital improvements funds would be distributed by a formula that includes a replacement reserve. This new disbursement system would allow fungibility between operations and capital budgets.

I personally commend Secretary Pierce and Assistant Secretary Lindquist for their leadership in proposing this initiative. The concept of this proposal is one that I and many others involved in public housing policy have been interested in for some time and I applaud the Department for its efforts.

The current modernization program, commonly referred to as a CIAP, is a highly regulated and cumbersome process for local public housing authorities. A public housing authority [PHA] must now ask HUD for permission before even deciding what kind of doorknobs to install. This proposal will allow PHA's the discretion to make those decisions while maintaining limited HUD oversight through an annual review process. By removing detailed HUD oversight public housing authority will be better able to implement a modernization process suited to its own local needs.

The second important feature of this proposal is a formula funding system that will replace the present application process for modernization funds for individual public housing authorities. Through formula funding, a public housing authority will receive reliable funding each year. This process will ensure that an individual public housing authority will receive funding on a regular basis. That funding would be predictable, reliable, and simplified.

I have discussed this proposal with many of my colleagues in the House on both sides of the aisle. I have also discussed this proposal with those involved in the day-to-day running of public housing authorities, and the comments and initial reaction have been favorable. I am introducing this proposal today to seek further comments and suggestions for changes, additions, deletions, and improvements.

I invite comments from my colleagues and those in the housing industry. Over the next several weeks and months, I will be considering improvements and I look forward to working with my colleagues in Congress as well as the Department of Housing and Urban Development to prepare final legislation.

This legislation is sound in its present form, and substantially better than the current highly regulated system. I do anticipate refinement and improvements in a number of areas before final passage. For example, I believe fungibility between operating subsidy and capital improvements should be permitted, but limited; the 97 percent occupancy rate requirement should be examined; and distinction could be made between current needs and replacement reserve; and Congress should be involved in setting the criteria for the funding formula.

I will offer this proposal or a similar proposal as a part of the housing authorization bill that is being developed in the House Banking Committee. To further acquaint my colleagues with the purpose of this proposal I am inserting a summary of the provisions and the bill itself for the RECORD.

SUMMARY OF THE PUBLIC HOUSING COMPREHENSIVE GRANT PROPOSAL

WHAT IS IT?

The Public Housing Comprehensive Grant Program is a major reform proposal to the existing Comprehensive Improvement Assistance Program [CIAP]. CIAP was created by the Housing and Community Development Act of 1980. Basically, CIAP was created to provide financial assistance to PHAs for the purpose of undertaking comprehensive improvements (i.e. modernization) in the physical condition, energy conservation and management of PHA-owned rental projects. This program is commonly referred to as Comprehensive Modernization—i.e. COMP MOD.

WHAT IS THE RATIONALE FOR THE PROPOSAL?

Two Major Objectives:

(1) Significant Deregulation of the Comprehensive Modernization Program by returning the program to local control—i.e. the local public housing authority.

(2) Greater reliability of funding for capital improvements through use of formula funding for future capital improvements and for current needs.

PROBLEMS WITH EXISTING PROGRAM

The current modernization program is an inefficient way to distribute resources for the capital improvement needs of the public housing inventory. It denies PHAs the flexibility and responsibility essential for setting priorities for capital improvement expenditures, weighing the needs of all projects against each other and the options of repair and major maintenance against capital replacement. Because HUD presently decides what to fund and when to fund it, PHAs cannot do rationale multi-year planning for the capital improvement needs of the existing public housing inventory now estimated to be worth in excess of $60 billion.

The present program now imposes rigorous application requirements and applies them to all PHAs, regardless of management capability or the size of the PHA. The present program requires HUD scrutiny of the application and intensive HUD monitoring of the modernization activities. This overregulation creates unnecessary paperwork and delays, which in turn can drive up the costs of the rehabilitation work.

Funds from the capital improvement program and operating subsidies will be fungible (interchangeable) within the PHA.

The entire comprehensive grant is to be spent to make physical and management improvements, according to the needs and priorities locally set by the PHA.

The concept of local management flexibility will permit efficiency in the use of funds which cannot be achieved under a system dictated in detail from Washington.

The freedom from pervasive regulation and the increased reliability of funding will provide opportunity and incentives for efficient management.

The PHA will be able to set their own priorities, to choose among projects, to determine whether maintenance or capital improvements is most cost-effective in a particular instance and to realistically plan on a multi-year basis knowing that they will have control in carrying out the plan.●

ISSUES BRING BLACKS AND JEWS TOGETHER

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. FRANK. Mr. Speaker, I am very proud of the work that the Anti-Defamation League of B'nai B'rith is doing in New England, under the leadership of Director Leonard Zakim, to highlight the many things which united the black and Jewish communities.

In the face of extremists on both sides who would prefer to see tensions between these two groups, Mr. Zakim has worked with black leaders in the Boston area and with other Jewish leaders to stress the many issues that draw black and Jewish Americans together. Recent articles in the Christian Science Monitor and the Boston Globe highlight the important work that the Anti-Defamation League is doing in this regard and I ask that they be printed here.

[From the Christian Science Monitor, Apr. 22, 1985]

THEATER SERVES AS A RALLYING POINT FOR BLACKS AND JEWS IN BOSTON

(By Luix Overbea)

BOSTON.—The racially mixed audience stood and applauded as the cast of "Martin" took its bows.

Offstage, the two men responsible for bringing the play about Dr. Martin Luther King to Boston beamed. To Leondard Zakim, New England director of the Anti-Defamation League of B'nai B'rth, and the Rev. Charles A. Stith, the evening marked another step toward healing a rift that has grown between blacks and Jews.

Two issues, affirmative action and the Rev. Jesse L. Jackson's presidential campaign, triggered misunderstanding between the two groups during the past year. This rift was particularly disturbing to leaders of both groups, which were closely allied during the civil rights struggles of the 1960s and '70s.

Blacks want affirmative action "with specific [usually numerical] job goals," says the Rev. Mr. Stith, pastor of the Union United Methodist Church here. Jews favor affirmative action "without quotas or numbers," Mr. Zakim says.

In addition, Jewish leaders and organizations openly opposed Mr. Jackson's candidacy. Their reasons: Jackson allegedly made an anti-Jewish epithet "off the record" during his campaign; and he never refuted one of his major supporters, Minister Louis Farrakhan, leader of the Nation of Islam, whom Jews criticize as anti-Semitic.

Zakim and Stith have worked together nearly five years to close what both call "a widening gap between two allies of the civil rights struggle." They have been supported by the Greater Boston Civil Rights Coalition, which Zakim helped found in 1979 after a series of racial incidents in Boston.

Dr. Martin Luther King, Jr. is as much a "drum major for peace" today as he was when he was leading nonviolent civil rights and peace protests in the 1960s, say Zakim and Stith.

"Presenting 'Martin' is part of our ongoing efforts to enhance our relationships," Zakim said after its final performance recently. "Certainly we disagree at times, more often than we like, but we have much more in common than in conflict."

The performance of "Martin" before three integrated audiences—including one at a high school—was the third major cultural event within the past year initiated by Zakim and Stith to bring blacks and Jews together. And it marked the play's first performance outside of Atlanta, where it was written by Lamar Alford, playwright-in-residence of the Martin Luther King Jr. International Chapel at Morehouse College.

The other two cultural events were a pilgrimage of 19 Jews and blacks to Israel last September, and a Jewish Seder (commemorating the Passover, the exodus of the Children of Israel from Egypt) conducted earlier this month at Union United Methodist Church.

"Historically, blacks and Jews have had a unique relationship, but recently our friendship has been strained because of mistrust, misinformation, and lack of communication," Stith said of the two-week visit to Israel by a group from across the nation. "No one expected the tour to resolve our problems.

"We went to listen, to learn, and to appreciate each other's views," he said.

The two men say they hope to sponsor a national conference to bring blacks and Jews together, a project they hope will lead to a national movement. Both say they have received inquiries from other cities on how to start local reunification projects.

They brought "Martin" to the Hub "regardless of cost," Zakim says. "We saw the play in Atlanta and sought backing in Boston."

Local businesses responded with financing; congregations of all faiths and civil rights, community, and civic groups recruited the audiences, he says.

[From the Boston Globe, Apr. 10, 1985]

A MUSICAL DRAMA REITERATES KING'S MESSAGE

(By Wil Haygood)

Because he lived in times that were both virulent and passionate, and because like most leaders, he was complex, scholars, biographers, and playwrights will continue to examine the life of Rev. Martin Luther King Jr., the civil rights leader who walked across the bridges, inspired thousands, and was awarded a Nobel Peace Prize.

Lamar Alford, an Atlanta playwright, brings his musical drama. "Martin," to Boston for its first showing outside that city since it opened there four years ago. The drama will be presented tonight and tomorrow at Union United Methodist Church in the South End. It is being sponsored by a coalition of Boston civil rights groups and underwritten by the Bank of New England.

The life of King, who was assassinated on April 4, 1968, is a compilation of his times, and yesterday Alford discussed his work's genesis and King's soul.

The playwright, who has a pencil-thin mustache and was dressed in a dark blue linen suit, sat in the Cafe Tremont yesterday and, over breakfast, discussed the genesis of his play and the soul of King. He laid his straw hat to the side.

"I've tried to create the chronicle of a era—to deal with a community that was not

prepared to deal with history at that time," Alford said, adding that he deals with King as a historical figure, and also as a family man.

The play, which has a cast of 60, traces King's Atlanta childhood, then goes on to give life to the moments that galvanized the civil rights movement: King's 1964 March on Washington and "I Have A Dream" speech; his jailings; his pronounced opposition to the Vietnam War; and, finally his fateful trip to Memphis in 1968.

Alford, who was born in Montgomery, Ala., says of his birthplace: "Montgomery is a sleepy little southern town. And yet, in spite of itself, it answered the knock on its door when King came."

He says Montgomery's black community, particularly church leaders, backed King as he led the boycott of the city's segregated bus system. Alford's father was one of the people arrested during a protest.

"I remember my elementary school teacher pulling me and my sisters out of class. She said, 'Your father has been arrested.' I felt so proud. I'm sure I didn't truly understand what was going on in Montgomery but I felt proud that my father had been arrested for what he believed in."

Alford would enter Morehouse College in 1962. King attended Morehouse and upon his graduation in 1951, entered Boston University to do graduate work in theology.

"It is so important for people to be conformed with King's philosophy of nonviolence," Alford said. "And, in that respect", he continued, "the play is like a history lesson that comes alive."

The play, he said, has music in it from the '60s: some Supremes, some rock.

Alford was in the original 1971 cast of "Godspell" on Boardway and has also been a member of the New York City Opera. He is now dramatist-in-residence at Morehouse College.

He leaned over the breakfast table. His hands were folded in front of him, as if in prayer. "Now does not seem a popular time for groups to come together. Perhaps this play will bring about more of this needed coming together."

The 10 groups bringing "Martin" to Boston have long worked to promote racial harmony. Among them are the Anti-Defamation League of B'nai B'rith, the NAACP, the Black Ecumenical Commission, and the Lawyers Committee for Civil Rights.

It all began with a trip to Atlanta.

"In January, Rev. Charles Stith, [pastor of Union United Methodist Church], and I went down to Atlanta with some other church leaders to visit the King Center." Leonard Zakim, who was also at the breakfast, said. Zakim, executive director of the New England Chapter of the Anti-Defamation League and co-chairman of the Greater Civil Rights Commission, sat across from Timothy W. Kilduff, vice president of public affairs for the Bank of New England.

"Well," Zakim continued, "we were taking this tour through Morehouse College. We ran into Lamar (Alford) and he said, 'Hey, I have this play showing on campus, why don't you come over and check it out.' "

They went. They were "amazed and moved," Zakin said. "And," he continued, "I said to myself that this play should come to Boston." He said he saw it as a way to rekindle memories of the "very positive" relationships blacks and Jews have had through history.

"Sure, blacks and Jews have had their differences recently. But that's like any two communities. In general we are much more together than we are apart. But most of the coverage last year [during Jesse Jackson's presidential bid], was negative and only focused on what blacks and Jews did not agree on."

During his presidential run last year Jackson was strongly critized by the Jewish community for anti-Semitic comments and his refusal to denounce Louis Farrakhan, the Muslim leader who embraced the policies of the Palestinian Liberation Organization.

"King," said Zakim, "was a strong opponent of anti-Semitism.

"Relations in the South between blacks and Jews," said the playwright, "have always been strong." So they both hope the play will help heal any wounds.

Kilduff, of the Bank of New England, said his bank chose to underwrite the play because of the "collaboration" of the groups involved.

Some New York City Off-Broadway producers, Alford said with a flourish of his hands, are now interested in the play. That would, of course, put it right in the neighborhood of Broadway itself. Alford smiles and dreams of what the future may bring.

[From the Boston Globe, Mar. 29, 1985]

BREAD OF AFFLICTION

At sundown next Friday, Jews will observe the ancient rituals of the Passover seder. Throughout the ceremony there reverberates a call to remember. Those who take part recall not personal experience, but an ancestral memory of suffering and redemption. The seder enacts, in familial form, the historical consciousness of a people.

"This is the bread of affliction which our ancestors ate in the land of Egpyt," the celebrants have said for millenia, to explain the symbolic significance of the unleavened matzoh. The unleavened bread, the bitter herbs and shankbone of a lamb—these are symbols of a story that Jews refuse to forget, even when they find themselves in relative safety. It is a story about slavery and liberation.

The Passover story contains a historical memory that Jews and black Americans can share, and this may be why the seder for Black-Christian Clergy and Laity, celebrated last night at St. Mark Congregational Church in Roxbury, has become an annual occasion for fellowship and dialogue between the black and fellowship and dialogue between the black and Jewsih communities of greater Boston.

At a time when black and Jewish Americans are feeling the intense divisive pressures that most minority groups have felt in American history, it is a *mitzvah* (blessing) for them to be sitting down to the Passover meal as members of the same family.

The seder is sponsored by the Jewish Anti-Defamation League and the Black Ecumenical Commission. Five years ago, the first time it was held, only seven clergymen attended it. It has grown each year, and last night 250 people attended it. Rev. Charles Stith and Rabbi Richard Yellin led them through the rituals and the telling of the Passover story. Participants were able to speak about the common problems of two peoples who have known the meaning of enslavement and persecution.

In this setting, the captivity of South African blacks can be a Jewish concern; the oppression of Soviet Jews can be felt as an affront to black Christians. The night of seder should not be entirely different from all other nights.

HAMMERSCHMIDT ADDRESSES THE AMERICAN LEGION

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. MONTGOMERY. Mr. Speaker, last night my good friend, the gentleman from Arkansas [Mr. HAMMERSCHMIDT], the very able ranking minority member of the Committee on Veterans' Affairs, was the principal speaker at the banquet session of the National Executive Committee Meeting of the American Legion in Indianapolis, IN.

There have been many articles written and much debate has taken place pertaining to benefits and services for veterans. I call to the attention of my colleagues the remarks made by our good friend from Arkansas because I think he has stated clearly not only his position, but the position of the overwhelming majority of Members of the House, relating to our commitment to our Nation's veterans.

Mr. Speaker, it is appropriate that these remarks be placed in the CONGRESSIONAL RECORD in view of the action in the House yesterday when we paid tribute to veterans in observance of the 40th anniversary of V-E Day:

Commander Bacon, distinguished members of the National Executive Committee of the American Legion, past national commanders, distinguished guests, and ladies and gentlemen: May I first of all thank you sincerely for inviting me to come to the banquet meeting of your National Executive Committee. It is good for me to be able to pause in the midst of a congressional session and to reflect with each of you on a number of matters of mutual concern.

I am sure that your excellent legislative staff led by Phil Riggin and Paul Egan—together with your rehabilitation and economic staff—have advised you on the current status of these issues. Just yesterday, our House Committee on Veterans' Affairs acted on many of them. They involved compensation, medical care, jobs for veterans, G.I. loans, and national cemeteries. They also involved the Administration of Veterans Programs by the Veterans' Administration. In one meeting of the committee, we acted on some 40 separate and distinct proposals, most of which are subjects of American Legion official positions. Let me mention just a few of them that I consider very important and upon which your organization has mandates from your last national convention.

Firstly, our committee doesn't intend to let the 58 regional offices of the Veterans' Administration be consolidated into 3 locations. Just the opposite is true. If we prevail through the entire congressional process, at least one regional office in every State will exist as a matter of law and once and for all this consolidation proposal that comes to us every few years will have been put to rest.

Our committee has also expressed its will on two other matters of more than passing interest to the American Legion. In sense of the Congress resolutions we reported to the

full House of Representatives our opposition to any increase in fees on the origination of G.I. loans, and we made it very clear that any idea of taxing the compensation of disabled service connected veterans has absolutely no support in the Congress of the United States.

As to this latter proposal, I must state to you that it is not even officially before the Congress. It is merely someone's thought over at the Treasury Department in terms of making a recommendation to the President. It is my hope that the idea will never even go to the White House from Treasury, but if it does, I trust it will be summarily discarded. In any event, I can tell you that it will never see the light of a legislative day in the Congress. Of that you can be certain.

In a more positive vein, other legislation reported by our committee is intended to improve the VA Medical Program in several different ways. We want to pass legislation to meet medical needs of the aging veteran. We know that these needs are going to require a dynamic approach as veterans reach their golden years and we want VA to be ready to meet the challenge.

I know that the Legion is very concerned about a crisis situation in VA medicine with respect to recruitment of certain medical and administrative employees. An otherwise good governmentwide attempt to reduce the number of high-grade employees and thereby save Federal money has failed to take into account that VA's Department of Medicine and Surgery already had a good record in this regard. By applying a total Government reduction to such employees equally in both the agencies with good records and those not so good, VA has been very adversely affected, particularly as to psychologists, social workers, and pharmacists. The legislation we reported yesterday is designed to correct this situation. The Legion can take considerable credit for this action. Your national survey about the crisis gave our committee valuable information that gave impetus to our action.

In the compensation area, we are delaying action for the moment on a cost-of-living increase. We have determined in our committee that such increases should be consistent with all other entitlement programs. For instance, if Social Security goes up by a certain percentage, it is our view that compensation, which holds an even higher priority on the national agenda, should also go up by at least that same percentage.

Let me dwell on this subject for just a moment. When the various veterans' organizations have had representatives before our committee over these past few months we have asked repeatedly, "What would be your view if all entitlements were frozen?" Almost without exception, these representatives said that their organizations understood the tremendous deficit problem of our country and that if all these other entitlements were frozen—including Social Security—they would be willing to do their part and that their organizations would forgo COLA increase requests. The American Legion was in the forefront of these kinds of statements and I want to commend you not only for your view but for your leadership in a most difficult area. It is an example of patriotism at its very best and in the finest traditions of the American Legion.

Quite frankly, I don't want to predict how this issue will finally be resolved. But no matter what is finally decided, the record will clearly show that the Legion was in the forefront of being willing to sacrifice one of its major goals in order to assist in achieving national fiscal responsibility.

I said earlier that I know that your legislative representatives keep you well informed. I know therefore that you are up to date on the G.I. loan issue, the national cemetery issue, the servicemen's group life issue, and all the rest. I know, too, that you are up to date on VA's budget.

With respect to the budget, in my opinion VA has fared rather well—thus far at least. All of us know that our Nation is faced with a huge deficit problem. We do ourselves no justice if we ignore it. But we also do ourselves and the agency of Government called the Veterans' Administration no justice either if we ignore its special needs. For my part, those special needs require special consideration by the Congress. When I say special, I do not mean that we ought not to be financially frugal in our recommendations. But I have often stated and I now repeat my philosophy of Government as it pertains to the veterans of this Nation.

This Member of Congress believes that:

Those who served our country in time of war deserve a special status among our citizenry.

Adequate benefits for those who were disabled by their military service must be the prime concern of the Congress and the people of this Nation.

Benefits for America's disabled veterans are not a drain on the American taxpayer; those benefits are a continuing cost of war.

Veterans of our Nation's wars must never become public charges.

And finally, I state to you that any position on any matter that is inconsistent with what I have just said will have my unrelenting opposition and any position that is in accord with it will have my unrelenting support.

Mr. Commander, our Nation lives in difficult and challenging times. Representative Government always does. But in terms of benefits for veterans, I believe our country has every reason to be very proud of itself. We have the best veterans program of any Nation in the world. We do more for our veterans than anyone else. History clearly shows that we do not shrink from our responsibilities nor from our challenges. We accept those responsibilities and we welcome those challenges.

In this land called the United States of America, there are those who often have divergent military, social and economic agendas. There are those who have fortunately not actually been personally involved in war and on occasion perhaps they lack full understanding of what the Nation owes to those who have fought those wars. But, we ought to note that these are not bad or evil people nor—in my view—are they anti-veteran people. They may be uninformed and they may need education, and if that be true, our task—yours and mine—is clear. We must inform, and we must educate.

You of the American Legion have been doing this for generations and you will be doing it for generations to come. And I applaud you for that.

And now, let me mention a little bit of philosophy which I am certain you share in great abundance.

America has a soul and because of this she finds nothing pleasant about war. After the Spanish-American War, Secretary of State Hayes is quoted as having said that is was a "splendid war." On still another occasion, he described it as a "jolly war." I do not know what promped those remarks and perhaps I take them out of context, but to me nothing about war is splendid and nothing about it is jolly. On the contrary, you and I are reminded daily of the horror of war for we deal with its most tragic consequences * * * all involved with horrible memories, heartache and suffering. Both personally and officially, we know war for what it really is and we have a bitter distaste for it.

But with that distaste we also have a quiet confidence that our Nation has waged war only when it had no other choice.

We also have a quiet confidence that when war is ended our Nation has a conscience that is second to none in the world. That conscience has created an unequaled program for our Nation's veterans. The American Legion has been a grand architect of that program and it has a right to an unequaled pride. You need never be ashamed to proclaim the goodness of that great effort. You have greatly assisted in creating the best medicine; the best benefits; the best ideal; and yes, too, the best dream.

And it is not bad to dream. When we have had imperfections in the past you have dreamed of their correction, and corrections have come about. When there have been doubts about VA's future, VA has survived and become stronger, and had more vitality, and the doubts have subsided. The record is clear that your efforts and the efforts of those of kindred spirits have been primarily responsible.

Commander Bacon, you and your associates meet at a time of historical memories. Today, May 8, we commemorate the 40th anniversary of the allied victory in Europe. A few months later the war far across the world from Europe also came to an end. These worldwide conflicts to overcome unspeakable tyranny saw our Nation enter a period of uneasy peace that was to be shattered later in Korea and then in Vietnam. From these three wars, and the one of a generation before, came the membership of the American Legion. That membership is a bulwark of strength for our country. Your motto speaks of God and country and expresses a deep respect and reverence for each. That respect and that reverence—and the actions to which they have given birth—are the essence of the goodness of a Nation that is truly blessed.

And now let me conclude, Mr. Commander, by mentioning a statement you recently made concerning the President's visit to Germany. During that visit he placed a wreath at a cemetery where German soldiers are buried. The advance word of this ceremony caused consternation in many areas, including the ranks of your organization. The ceremony is now over and in its wake you publicly commented that the President's statement at the wreath laying was excellent. You said that he mentioned his hopes for friendship with the German people, his hopes for freedom in the world, his hopes for reconciliation, his understanding and grief concerning the great trials and tribulations suffered by the Jewish community at the hands of the Nazis and finally his gratitude for the constributions of the veterans of this Nation. Finally, Mr. Commander, you stated your belief that the President would never purposely show insensitivity to any group. These remarks were to the point, and I associate myself with them. Strong feelings have been expressed about this entire event. Pent up emotions in such a situation are perfectly understandable. Speaking for the American Legion, you said forcefully what you had to say before the President's visit to Germany and now you have said what needed to be said in its aftermath. I congratulate you for

your forthrightness in both of these instances.

These recent events and the commemoration of V-E Day remind us that the American Legion is a creature of America's wars. You have a solemn resolve which is captured by Lincoln's precious words as to the veterans of those wars. I share that resolve and I share your belief in the greatness of the American people. I also share your resolute determination to assure that our Nation's veterans will always have a benefits program that will be—and ought to be—the very definition of the American ideal. This is an ideal which says that we are all—each in our own way—the disciples of a spendid hope for those who have defended freedom here at home and around the world. It is a hope that there will be complete fulfillment of your very legitimate aspirations for a good today but a better tomorrow. Those who have honorably worn the uniform of our land in its times of national and international peril deserve no less from all of the American citizenry.

The blessings of our land are perhaps not always fully appreciated by some; but I know that they are fully appreciated by those who are in this audience. It is an honor indeed to be asked to speak to the leaders of the American Legion and I am most grateful that you would ask that I share these moments with you.

Thank you—each of you—so very much.●

THE CHILDREN OF THE WORLD

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Ms. OAKAR. Mr. Speaker, every day, we witness troubling events throughout the world. War, terrorism, famine, poverty, and countless other ills make up the bulk of daily newscasts. In such an environment, it is useful to take time to reassert certain values that provide the young people of today with guidelines for a better world and hope for a brighter future. Two distinguished Americans from my community of Cleveland, Dr. Nicholas A. Bucur and Dr. Nolen Ellison, have written a "Manifesto to the Children of the World" that I comment to my colleagues' attention and I ask that it be printed in the RECORD.

MANIFESTO BY AND FOR THE CHILDREN OF THE WORLD

To: Ronald Reagan, President of the United States, and the people of the United States,

And to the people of the world,

Be it known to one and all, and to whom it should concern:

That the authors of this Manifesto, having been born into this troubled and violent world, and once having been children of the world, do hereby take it upon themselves to speak in the name of all of the children of the world, whoever and wherever they be, regardless of their race, nationality, creed, origin, personal situation and political or economic circumstances, and hereby do speak in one voice:

"Having been born into this life I am an heir to all that has happened before and to all that is. This life is mine. This world is mine. The future is mine. I was born as an innocent, vulnerable and impresssionable infant, with an open mind and pure heart. My elders molded me into what I am now. But in many ways they have failed. Worse, some of them, who are fanatics and terrorists, have infected me with hatred and violence. I am appalled by the economic imbalance of my world and by the violence, prejudice, discrimination, crime and terrorism rampant in my world. I yearn to live in peace with my fellow human beings. I seek to contribute of myself to my world, if I am allowed, in an atmosphere of peace.

I believe that I have been endowed with certain natural and inalienable rights, the enjoyment of which impose upon me corresponding duties to my community, to my world and to myself. I believe that I am entitled to basic and adequate food, shelter, care, security, training and love; and that I have not only the duty to share my knowledge and experience with my peers, but I have a right to do so.

I declare that I have the right to be respected for what I am, and that my right to believe as I choose must be respected by others, just as I must respect similar rights of others. My cultural heritage and beliefs are mine and sacred to me and I recognize that each person is entitled to hold her and his origin and beliefs equally sacred.

I have the right to be trained to my highest potential and to learn basic human values and thus be able to grow intellectually and ethically. I have the right to be taught the ways of peace, even in my infancy and my earliest stages of growth, and to learn the techniques of discussion and persuasion so as to be able to use such methods in my daily life. I must learn to express compassion, with good will, for these qualities are human and naturally mine. Thus, even as a very young child I should be instructed by gentle means to talk, listen, and negotiate, rather than resort to the use of violence, so that as adults I and others like me would use peaceful means to resolve our differences.

On a larger scale, I have the right to live in a free nation and in a world where the larger nations respect the rights of the small nations. But this does not always happen, and while I long for and shall work for peace I know that I have the duty to defend my family, my nation, and myself, against unjust agression and invasion.

Although I intensely desire peace and seek universal disarmament, I recognize that no single nation can unilaterally disarm in a world full of suspicion. Nevertheless, I urge my elders and peers to stop the present irrational dash to self-destruction before it is too late. Let it be done now, so that I may live.

I respectfully and urgently call upon the leaders and the peoples of the world to take such steps as will halt terrorism and wars, and at the same time, to establish such organizations as will undertake the task of implementing the goals of this Manifesto; and to create that methodology which can be utilized to train those who can teach children everywhere the ways of peace so that I, and other children, can invent, create, and dream, and so that we can all attend to the real tasks of the world, instead of arming for war, such as the care of the ill, the disabled and elderly human beings.

As a child my world is free of malice and the world is full of wonder. Let it so remain. Teach me to choose what is good, and to love beauty, truth and justice. Endow me with character, good-will and compassion. Teach me to reject falsehood, hatred, suspicion and violence. Teach me to improve the quality of our lives. Teach me to love knowledge and the communication of it to others. Help me to create a world free of fear, illness, pollution, want, and insecurity. Teach me the great principles of peace espoused by great men of the past and the present.

Teach me to dream great dreams. I want to dream. I want to aspire to greatness. From my ranks have come the giants of humanity. If I live, many more like them will inevitably arise.

I call upon my parents, my family, my peers, my teachers, my elders, and my leaders, to join me in this cause.

Children of the world, join me so that we may live.

Elders of the world, heed me now. For I am the future.

Listen to me. Now.

Let me live, so that you may live."

The authors of this Manifesto, in the name of the children of the world, call upon the leaders and the peoples of the world to join together, to unite their efforts, and to do what is necessary, in order to seek world peace through education and the cultivation of our humanity.

The task is long and hard, but the cause is crucial. Humanity's survival is at stake. It is not impossible.

Let all individuals and groups support the goals of this Manifesto so that every child, and all children, can grow and flourish, like flowers of every hue and kind, in a future world which can truly be a garden.

DR. NICHOLAS A. BUCUR.
DR. NOLEN ELLISON.[1]

RAILROAD UNEMPLOYMENT INSURANCE SOLVENCY ACT OF 1985

HON. DON RITTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. RITTER. Mr. Speaker, today I am pleased to join with my colleagues in introducing legislation to establish a more equitable and financially viable railroad unemployment insurance system while at the same time retaining the independent nature of the present system. The future of this system is crucially important to the approximately 41,000 furloughed rail workers who currently are receiving benefits, including over 3,600 workers in my State of Pennyslvania. In addition, the financial health of the unemployment system has a direct impact on the financial security of railroad retirees since the unemployment system has often been able to pay benefits only by borrowing money from the railroad retirement pension fund.

The financial problems facing the current railroad unemployment system are nothing new. The system has had to borrow from the railroad retirement account in 19 of the last 24 years. We cannot afford, and our railroad retirees cannot afford, to delay addressing these problems any longer. The indebtedness of the unemploy-

ment system to the railroad retirement account now exceeds $700 million. Despite the strength of our current economic recovery, the unemployment system's indebtedness is expected to grow to over $780 million by the end of this fiscal year, when existing borrowing authority expires. Prospects for repayment of the loans extended by the railroad retirement account, much less the interest owed on the loans, appear dim. In my opinion, the situation truly is reaching crisis proportions.

The financial problems with the railroad unemployment system are further complicated by a serious underfunding of unemployment benefits by rail carriers. Railroad carriers pay only about $30 a month per employee to fund the railroad unemployment system. This is far below the contributions employers with employment records comparable to the rail carriers must pay under the Federal-State unemployment systems. In Pennsylvania, the cost to these employers is over $81 a month per employee.

The inequity of the current railroad unemployment insurance system extends to the amount of benefits paid to rail workers. Under the current system, unemployed rail workers receive a maximum benefit of $25 a day or $125 a week. This amount has not been increased since 1972 and actually is lower than the unemployment benefits paid under 42 of the 50 State unemployment programs. Again, in Pennsylvania, the daily benefit in comparison is $46.40, or $232 per week.

In an attempt to remedy these obvious inequities, Congress must enact legislation to establish a financially sound system to fund railroad unemployment benefits by October 1. Congress must find a real solution that is fair to rail pensioners, rail employees, the rail industry, and the American taxpayer. The final solution cannot include open-ended borrowing from either the general treasury or the railroad retirement account, add to the Federal deficit, rely on Federal subsidies or grants, suppress unemployment benefits, or fail to provide for the repayment of loans from rail pensioners, including all interest.

Rail carriers admit their support for an independent unemployment system, as opposed to the administration's proposal to merge the current system with the Federal-State unemployment system. However, if rail carriers are to maintain an independent unemployment system, they should expect to pay for its full costs, including worker unemployment benefits comparable to the States' programs, all of the interest owed to the rail pension fund, and repayment of the principal within a reasonable term. Rail carriers should not expect a free ride from the American taxpayer or the railroad retirees.

The legislation we are introducing today would establish financially viable railroad unemployment insurance system that is fair to railroad workers and pensioners, the railroad carriers, and the American taxpayer. It retains the independent nature of the current system but makes two important changes.

First, it increases the maximum daily benefit afforded unemployed rail workers to $35 from its current, unrealistically low level of $25. While still below the level of Federal-State unemployment benefits paid in my State of Pennsylvania, it is an important step toward having railroad workers receive benefits comparable to what they would have received under the Federal-State system. The benefit increase also ensures that rail carriers pay the accurate costs of an independent unemployment insurance system.

Second, this legislation increases the wage base for the unemployment tax from $600 per month to $1,300 per month, with a conforming increase in the wage base for the repayment tax that is scheduled to start in July 1986. Increasing the wage base from $600 to $1,300 should increase receipts sufficiently to pay for the increased benefit and the interest owed annually on the outstanding loan from the railroad retirement account, to repay the moneys owed the retirement account within the next 15 years, and to make the railroad unemployment insurance system solvent. This increase in receipts eliminates the need for the unemployment system to borrow from the railroad retirement account or any other fund.

The legislation we are introducing today places the full burden of supporting the railroad unemployment system on the rail carriers. At first glance this may seem harsh, but this is exactly what occurs for every other business in America. In light of the successes of railroad deregulation, there is no reason to continue to shelter rail carriers and to expect railroad workers and retirees to continue to shoulder the burden of an independent railroad unemployment insurance system. The tax increases contemplated by this legislation are large, but not excessive when compared with the taxes paid by other employers with comparable employment experience and the fact that the railroad unemployment insurance system has been chronically underfunded.

Mr. Speaker, Congress must act soon to develop a financially sound railroad unemployment system before the borrowing authority expires this fall. We need reform in this area, not an extension of the status quo. We invite our colleagues to join us in fashioning a solution that will be sensitive to all of the interests involved in this matter, particularly those of the railroad worker, the railroad pensioner, and the American taxpayer. We urge our colleagues to study this issue and become cosponsors of this important legislation.●

LAKE GASTON PIPELINE PROJECT

HON. TIM VALENTINE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. VALENTINE. Mr. Speaker, today I am reintroducing legislation to prohibit the Secretary of the Army from issuing certain permits in connection with a proposed water pipeline project until an environmental impact statement for that project has been completed.

My colleagues, Mr. JONES of North Carolina, Mr. HEFNER, Mr. NEAL, and Mr. DAN DANIEL of Virginia, join me in reintroducing this legislation.

This project is the controversial Lake Gaston pipeline project, a proposal to divert 60 million gallons of water per day from Lake Gaston, NC, a part of the Second Congressional District, to be used as a water supply for the residents of the city of Virginia Beach, VA.

My constituents and I are very concerned about the proposal to divert such a large quantity of water out of the Roanoke River basin. We are particularly concerned that the U.S. Corps of Engineers has handled the permit for this massive project with haste, partiality, and completely inadequate documentation of its environmental and economic effects.

Because the Lake Gaston pipline project will have widespread environmental impact, because it involved irretrievable commitment of more water than is presently used by any city in either North Carolina or Virginia, because it could set a major water use precedent, and because it is the subject of great public concern and controversy, it seems clear to me that an environmental impact statement should be required before a permit would be issued. I would also like to add that the State of North Carolina requested an environmental impact statement on the project at the very beginning of the permit process. For reasons that I cannot understand, the Norfolk District of the Corps of Engineers made a decision that an environmental impact statement would not be required even before the public was consulted about the project.

After making this initial decision, the Corps of Engineers has stuck to this position despite the documentation provided by many interested parties and despite the calls for an environmental impact statement by dozens of elected officials and by hundreds of citizens.

Mr. Speaker, last year, the House Appropriations Subcommittee on Energy and Water Development directed the Army Corps of Engineers not to spend funds available to it for administering the Lake Gaston pipeline project permit until the completion of a careful environmental study, that is, an environmental impact statement. I have been dismayed to learn that the corps, speaking through its acting chief counsel, said last September—1984—that it intends to complete absolutely no environmental impact statement in the absence of the full Congress and the President.

My constituents and I know that using Kerr Lake water storage for the Lake Gaston pipeline will cause additional fluctuations in the level of Kerr Lake. We are already having some severe problems during dry periods with low water levels which cause boat ramps to be unusable and create navigation hazards. There have been several different studies of the effect of the pipeline. The estimates of the additional drawdown in Kerr Lake differ widely. We badly need an environmental impact statement to determine what the effects of this project on Kerr Lake will be.

We are also greatly concerned about the effects of the project in reducing flows in the Roanoke River downstream, from Roanoke Rapids Lake. We have some rapidly growing needs for water in this area for industry, municipal use, and for agriculture irrigation. We are frustrated that the Corps of Engineers has not even attempted to make a basinwide projection of water use over the 50 year planning period. The Corps of Engineers has granted a permit that will permanently commit a large amount of water to a user approximately 100 miles away without really determining how much water is needed in the basin. We are also concerned that the reduction in flows of water during dry periods will aggravate some water-quality problems that we are already experiencing.

Further, Mr. Speaker, we are very concerned about the real economic and environmental impact that the Lake Gaston project will have on the Roanoke River basin. We are also upset about the way in which this fundamental decision is being made. Since the beginning of our efforts requesting the corps to undertake a full, impartial environmental impact statement, I think that we have shown that the Corps of Engineers has attemtped to rush this through rather than giving the public the materials that it needs to really understand what is being done.

Mr. Speaker, I am asking support for the bill we are reintroducing today which will do just one thing: it will give interested citizens in both Virginia and North Carolina a fair and objective assessment of this project.

Virginia Beach is a fine city and has a serious need for water. Yet, in this case, adequate study has not been given to the impact of the project and the alternative sources of water supply. Instead of a careful decisionmaking process, the Corps of Engineers has taken a hasty and careless approach with total disregard for public concern. This imprudent action by the corps forces us to come to the Congress for a remedy that should have been granted by administrative decision.

Mr. Speaker, I would like to ask unanimous consent that the text of the bill appear in the CONGRESSIONAL RECORD following my statement.

Thank you, Mr. Speaker.

H.R. 2467

A bill to prohibit the Secretary of the Army from issuing certain permits in connection with a proposed water pipeline project until an environmental impact statement for that project has been completed

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, Notwithstanding any other provision of law, the Secretary of the Army may not issue a permit under section 10 of the Rivers and Harbors Appropriation Act of 1899 (30 Stat. 1121; 33 U.S.C. 403), or under section 404 of the Federal Water Pollution Control act (33 U.S.C. § 1344) for the construction of a water supply pipeline and related structures for removing water from Lake Gaston (a lake within the States of North Carolina and Virginia) and transporting water to the city of Virginia Beach, Virginia, or the surrounding area, before a full environmental impact statement as described in section 102(2)C of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C) is completed for the pipeline project.●

A VETERAN'S MEMORIES OF V-E DAY

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. YOUNG of Florida. Mr. Speaker, for many Americans, the celebration this week of the 40th anniversary of Victory in Europe Day brought back memories of elation over the allied victory in Europe and at the same time feelings of sorrow for the thousands of brave Americans who were killed and injured in this great effort.

Nash Stublen, a reporter for the Tampa Tribune, recalled in a column Wednesday, some of his personal experiences while serving in the 29th Infantry Division during the final days and hours before V-E Day. Nash reminds us that even in victory, it's impossible to forget the horror of death and destruction associated with war. His words are a powerful reminder of the great toll that was taken in World War II, and I would like to share his column with my colleagues.

The article follows:

[From the Tampa Tribune, May 8, 1985]

ON THE BANKS OF THE ELBE, V-E DAY ANTICLIMATIC FOR THESE SOLDIERS

(By Nash Stubler)

It was a relatively easy advance for the 29th Infantry Division on April 25, 1945, to its final World War II stop at Germany's Elbe River.

WWII, as Archie Bunker called it, was winding down in Europe. The jig the Fuehrer had danced when the Germans occupied Paris was almost up for Adolf Hitler and Nazi Germany would surrender to the Allies within two weeks.

The 29th had come a long way across Western Europe since its landing on the Normandy beaches on D-Day, June 6, 1944.

While I missed the invasion, the hedgerow-to-hedgerow fighting across the French countryside and the capture of the heavily fortified Port of Brest, I was assigned to the Blue and Gray division as a replacement in time for the bloody battle for Aacken in the first assault across the German border from Holland.

We were prepared to fight across the Roer River to the northeast in December 1944 when the Germans made their final thrust in what is known as the Battle of the Bulge.

We escaped the German onslaught but were left exposed on the left flank of the bulge. We dug in on a farm for a month's delay.

My heavy machine-gun squad virtually dug a small, two-room apartment underground, outfitted with a stove, adjacent to the machine-gun emplacement.

Just before midnight on Christmas Eve, we heard the Germans singing carols and joyous shouts apparently from soldiers who had had too much to drink.

This irritated one American officer who got a map of Julich, the city across the river, and designated targets for every weapon available. "We're going to break out their window panes," was the word from the top.

At midnight, everyone fired toward the other bank for 15 minutes. When my ears stopped ringing, there was silence across the river.

What had sounded like a good idea left me depressed. At least someone was getting to celebrate Christmas Eve and we had spoiled it.

We finally fought our way across the river. No one had time to see whether we had actually broken out any window panes.

The rest of the push to the Elbe was downhill compared to previous battles.

We were in the town of Klatze on the Elbe when a group of ragged Polish people seemed to come out of the woodwork.

Remembering a men's clothing store I had seen earlier, a couple other guys and I gathered up about a half-dozen of the Poles and marched them to the store.

Without hesitation I threw a brick through the window and we outfitted the Poles with new clothes.

Three days later, on April 30, I was on duty at my gun emplacement on the bluff overlooking the Elbe when I spotted a white flag on the other side. I radioed to my company headquarters what I saw.

It was an advance party of a German V-2 rocket division that had outrun the Russians to surrender to the Americans. On the same day, Hitler had married his long-time mistress, Eva Braun, and they both had committed suicide.

After the surrender was officially executed, an engineering battalion made arrangements to bring the 10,000-man division across the Elbe on May 1 and 2. Disappointed that I couldn't take part, a fellow soldier, who spoke fluent German, and I found a rowboat and crossed the river. We sneaked up the road on which the German convoy was traveling. In German, my cohort shouted "throw out your weapons."

More than 25 did from German Lugars to what looked like a six-shooter from the Wild West days. When one German threw out an unarmed hand grenade, we decided it was time to take leave.

We placed the guns in a towbag and headed back across the river in the boat, which almost sank from the new weight.

When our platoon lieutenant heard what we had done, he was so mad I thought we would surely be court-martialed. He eventually cooled down, though, after we gave him and other members of the platoon souvenir weapons.

Victory in Europe was proclaimed May 8, the day after the surrender. While there were big celebrations on the home fronts, it brought no shouts of joy in that small town on the Elbe. The announcement was anticlimatic to the men of the Blue and Gray.●

CONGRESS MUST ACT TO HELP IN THE FIGHT AGAINST DRUGS

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. TRAFICANT. Mr. Speaker, on May 8, 1985, 2 tons of cocaine—worth more than $1 million—were confiscated within 2 hours Wednesday in two of this country's biggest narcotics seizures ever. On Biscayne Bay, FL, the U.S. Coast Guard chased three smugglers until they jumped overboard and abandoned their speedboat. The Coast Guard found the speedboat packed with 1,909 pounds of cocaine. One man was arrested, but two escaped. Later that day, in Miami, police stopped a camper and found 2,100 pounds of cocaine inside. Two men were charged. A routine police check of a second camper turned up 2,094 pounds of marijuana and resulted in two additional arrests.

Mr. Speaker, I am proud of our law enforcement officials involved in these record drug busts. As a former sheriff, I am well aware of the dangers and bodily risks involved in such operations. The amount of drugs involved in these cases is a vivid example that drug trafficking and drug smuggling in this country remains a serious problem. Action must be taken to isolate the big-time drug dealers.

I have introduced legislation, H.R. 994, the Controlled Substances Penalties Act of 1985, that would address this problem head on. My bill would deny bond in cases involving bulk amounts of narcotic drugs. In the case of cocaine, if one is arrested for dealing or smuggling a kilogram or more, bond would be denied and if convicted, the penalties would be increased. For other narcotic drugs the no-bond provision and the stiffer penalties would apply in those cases involving 2 or more kilograms. Under my bill, first offenders in these categories would be subject to up to 30 years in prison or up to $500,000 in fines. Second offenders would be subject to up to life imprisonment or, if the offender kills someone, he or she would be subject to the death penalty option.

My bill may seem too harsh or severe for some of my colleagues. But when one examines the scope and nature of domestic and international drug trade, one will discover how large this problem has become. Drug abuse in this Nation continues to ravage our youth and drain our society. In addition to being a sheriff, I was also a drug counselor for 10 years. I have seen the tragic consequences of drug abuse. Those ultimately responsible for the poisoning of our youth and the ravaging of our way of life are the kingpin drug dealers who are responsible for the massive influx of narcotic drugs into this country.

In too many instances these drug kingpins—if apprehended—post bond, which is usually set quite high, and then flee the country. My bill would ensure that these drug kingpins stand trial and that, if convicted, they pay dearly for their crimes. Recent events have shown that these drug kingpins have openly declared war against our law enforcement officers in the field. We need to enact tougher laws to protect our law enforcement officers and to protect our society from poisonous drugs. We are in a war—whether we like it or not. It is a war we must win. Passage of H.R. 994 would send a powerful message to the entire world that America has had enough and that we are serious about fighting drugs.

I urge all of my colleagues to take a good look at H.R. 994 and lend it their full support.●

LEGISLATION TO PROVIDE FOR THE SOLVENCY OF THE RAILROAD UNEMPLOYMENT INSURANCE SYSTEM

HON. DAN COATS

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. COATS. Mr. Speaker, I am pleased to join with my distinguished colleagues in introducing legislation to address the financial problems facing the railroad unemployment insurance system. The future of this system is crucially important to the approximately 41,000 furloughed rail workers who are currently receiving benefits. Further, since the unemployment system has often been able to pay benefits only by borrowing money from the railroad retirement pension fund, the financial health of the unemployment system has a direct impact on the financial security of railroad retirees.

The financial problems facing the railroad unemployment system are nothing new. The system has had to borrow from the railroad retirement account in 19 of the last 24 years. But we cannot afford to delay addressing these problems any longer. The indebtedness of the unemployment system to the railroad retirement account now exceeds $700 million. Despite the strength of our current economic recovery, the unemployment system's indebtedness is expected to grow to over $780 million by the end of this fiscal year. Prospects for repayment of the loans extended by the railroad retirement account, much less the interest owed on the loans, appear dim. The situation is truly reaching crisis proportions, which will be only further aggravated when the unemployment system's borrowing authority expires September 30, 1985.

Congress must enact legislation to establish a financially sound system to fund unemployment benefits by October 1. Congress must find a real solution which is fair to rail pensioners, rail employees, the rail industry, and the American taxpayer. By this, I mean that the solution cannot include open-ended borrowing from either the General Treasury or the railroad retirement account, add to the Federal deficit, rely on Federal subsidies or grants, suppress unemployment benefits, or fail to provide for the repayment of loans from railroad pensioners, including all interest.

The administration's proposal to remedy this situation is to merge the railroad unemployment system with the Federal-State unemployment system. While I have not reviewed this possibility in great detail, I understand that merger would yield some significant advantages over the current system. First, under the current railroad unemployment system, a beneficiary receives a maximum of $25 a day or $125 per week. This amount has not been increased since 1972 and is lower than the unemployment benefits paid under 42 States' unemployment programs. Additionally, merger would end the rail unemployment compensation discrimination against rail employees with less than 10 years' service. Railroad pensioners would also benefit by relieving the financial burden on the railroad retirement system.

However, during the hearing on the administration's proposal before the Subcommittee on Commerce, Transportation, and Tourism, it was quite evident that the rail carriers had withdrawn their support for merger, and are now supporting retention of an independent railroad unemployment

system under a "consensus" package presented to Congress by the Railroad Unemployment Compensation Committee.

After reviewing the "consensus" package, I find it fails the litmus test of fairness and places undue burdens on railroad workers, railroad pensioners, and the American taxpayer. Under the "consensus" package, the General Treasury would grant $135 million to the railroad unemployment account. Additionally, the interest which should be paid on loans extended to the unemployment system by the railroad account would be forgiven. This would, in effect, be a grant to the railroad unemployment account at the expense of the railroad pensioners which could potentially cost the railroad retirement system almost $3 billion.

Under the circumstances, for Congress to enact the proposal put forward by the rail industry would be most unwise. Congress has already acted twice to pull the railroad retirement account back from the brink of bankruptcy. While the financial situation of the retirement account appears to be much improved, it would be foolish to jeopardize the financial future of 1 million railroad pensioners by continuing to drain the fund to keep the unemployment system afloat.

The financial problems with the railroad unemployment system are the result of a serious underfunding of unemployment benefits by rail carriers. Railroad carriers only pay about $30 a month per employee to fund the unemployment system. This is far below the contributions employers with employment records comparable to the rail carriers must pay under the Federal-State systems. The cost to employers under the State systems range from approximately $53 to almost $100 per month per employee.

If rail carriers are to retain an independent unemployment system, they should expect to pay for its full costs, including worker unemployment benefits comparable to the States' programs, all of the interest owed to the rail pension fund, and repayment of the principal within a reasonable term. Rail carriers should not expect subsidies from the American taxpayer, an acceptance of suppressed unemployment benefits by railroad workers, or the forgiveness of interest on the debt owed to the rail pensioners.

The legislation we are introducing today would establish a financially viable railroad unemployment insurance system that is fair to railroad workers and pensioners, the railroad carriers, and the American taxpayer. It retains the independent nature of the current system but makes two important changes.

First, it increases the maximum daily benefit afforded unemployed rail workers from its current, unrealistically low level of $25 to $35. The weighted average of the maximum daily benefits provided unemployed workers in the six States with over 20,000 railroad workers is over $40 or $200 per week. Increasing the maximum daily benefit level to $35 is an important step toward having railroad workers receive benefits comparable to what they would have received under the State-Federal system, and ensuring rail carriers pay the accurate costs of an independent unemployment insurance system.

Second, this bill increases the wage base for the unemployment tax from $600 per month to $1,300 per month, with a conforming increase in the wage base for the repayment tax which is scheduled to start in July 1986. Increasing the wage base from $600 to $1,300 should increase receipts sufficiently to pay for the increased benefits and the interest owed annually on the outstanding loan from the railroad retirement account, to repay the moneys owed the retirement account within the next 15 years, and to make the railroad unemployment insurance system solvent. This increase in receipts eliminates the need for the unemployment system to borrow from the railroad retirement account or any other fund.

The legislation we are introducing today places the full burden of supporting the railroad unemployment system on the rail carriers. At first glance, this may seem harsh, but this is exactly what occurs for every other business in America. In light of the successes of railroad deregulation, there is no reason to continue to shelter rail carriers and to expect railroad workers and retirees to continue to shoulder the burden of an independent rail unemployment insurance system. The tax increases contemplated by this legislation are large, but not excessive when compared with the taxes paid by other employers with comparable employment experience and the fact that the railroad unemployment insurance system has been chronically underfunded.

Mr. Speaker, Congress must act soon to develop a financially sound railroad unemployment system before the borrowing authority expires this fall. We invite our colleagues to join us in fashioning a solution that will be sensitive to all of the interests involved in this matter, particularly those of the railroad worker, railroad pensioner, and the American taxpayer. We urge our colleagues to study this issue and to become a cosponsor of this legislation.●

CABINET STATUS FOR SMALL BUSINESS

HON. ANDY IRELAND

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. IRELAND. Mr. Speaker, it seems everybody thinks small business is just wonderful. We have all heard the virtues of small business extolled again and again. Yet when it comes to a crucial decision and big business, big labor, and big government all weigh in on an issue, it is the interests of small business that lie crushed in the dust after all is said and done.

To survive and to be allowed to prosper in an appropriate economic environment, small business needs a strong voice that must be heard in every crucial discussion conducted within the Federal Bureaucracy. It seems to me after some reflection that a good permanent place to start is the Cabinet.

Recently, our present Cabinet was reorganized. The new Cabinet has no slot for the Small Business Administrator. For most of our recent history, this has been the rule rather than the exception. Today, I am introducing legislation which would correct this situation both for now and for the future.

My bill calls for the recognition of the Cabinet status of the Administrator of the Small Business Administration. It will provide for the Administrator's full participation in the activities of this and all future Cabinets. It specifies that the Administrator will be the President's principal adviser on all matters relating to Small Business. Finally, it will make his pay status commensurate with Cabinet status.

This is "Small Business Week." I can think of no better time to get this permanent initiative underway. I welcome my colleagues' support on both sides of the aisle.●

CONDEMNING THE MURDER OF MAJOR NICHOLSON

HON. JAMES H. SCHEUER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. SCHEUER. Mr. Speaker, I would like to take a moment to explain why I voted against the unproductive and unprecedented amendment to the State Department authorization bill which called on the administration to expel from the United States the Soviet Chief of Missions unless the Soviet Union apologizes for the murder of Maj. Arthur Nicholson.

I was shocked and outraged by the brutal murder of Major Nicholson by a Soviet thug in East Germany. I was

even more infuriated that the Soviet authorities refused to allow Major Nicholson's driver to administer first aid that could well have saved the life of this bright young soldier. The death of Major Nicholson was nothing less than cold-blooded murder and it deserved condemnation.

On April 22, I joined with an overwhelming majority of my House colleagues in approving 394 to 2 House Resolution 125 condemning the Soviet Union for the murder of Major Nicholson. It was an appropriate action by the Congress and I wholeheartedly supported it.

The amendment considered today by the House, however, was totally inappropriate not because it expressed outrage over the tragic death of Major Nicholson, but because it flies in the face of our great Constitution.

Today's amendment disregarded the hallowed tenet of our Constitution which establishes a clear separation of powers between the legislative and executive branches. Congress has no right to intervene in what is clearly a diplomatic decision that rests with the President and the State Department.

I will support any resolution condemning the Soviet Union for this barbaric act of wanton murder, so long as the resolution is within the purview of the Congress.

But I will not vote for ill-considered resolutions or amendments that clearly violate the constitutional prerogatives of this body, regardless of the good intentions behind such a measure. I respect my colleagues' bona fide outrage over this tragic event, but I could not support the method they chose to display their anger.

Mr. Speaker, this was not an easy vote for me to cast. I strongly condemn the Soviet Union for this brutal slaying and I firmly believe the Soviets should issue an apology and compensate Major Nicholson's family, although nothing can truly compensate for the pain his grieving wife and child must feel.

I know I am going to have to spend many hours explaining my vote on this amendment and spelling out my reasons for not joining a majority of my colleagues in approving this amendment. But we in the House also must honor the rules and in this case we were dealing with a very important rule—the separation of powers among the three branches of our Federal Government.

I will continue to criticize and condemn the Soviets for this act of brutality, but I will do so in the proper forum.●

H.R. 2257

HON. HAROLD E. FORD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. FORD of Tennessee. Mr. Speaker, I would like to announce today that I am sponsoring H.R. 2257, the Frequent Flyer Information Reporting Act. This legislation will require information reporting to the IRS for airline passes provided under frequent flyer or similar programs.

H.R. 2257 will require that any company which is in the business of providing transportation by air, and provides patronage passes to any customer shall file an information return, setting forth the name, address, and tax identification number of such customer and the aggregate value to such customer. The Secretary of the Treasury will prescribe the forms and regulations. Each company filing a return listing a customer shall furnish to each customer listed, a written statement forth the name of the company making the return and the aggregate value of the patronage passes provided to such customer as reported to the IRS. A patronage pass means any document which entitles the holder to a certain amount of air transportation at no charge or at a reduced charged, and which is provided to the customer on the basis of the customer's patronage.

The frequent flyer programs have been operating for the past 4 years and it is estimated that more than 7 million people are participating in at least one program. Today, virtually every major U.S. carrier has in place a marketing program based on free passes, ticket upgrades, including a variety of free goods and services from "tie-in" groups such as automobile rental companies, hotels as well as foreign airlines. These programs have millions of individuals as participants and they serve to exacerbate two serious problems facing the Nation's voluntary tax collection system.

These two problems are, first, the view of most taxpayers that businesses take advantage of loopholes and that the average taxpayer is therefore treated unfairly. Obviously the occasional air traveler cannot benefit from these programs and certainly all of the American who never fly should not be expected to subsidize those who do through the tax system. Second, taxpayers are concerned about the deficit and lost revenues. It is even a greater problem when the lost revenues are blatantly, even brazenly, bandied about and called effective marketing. Indeed, the absolute size of the lost revenue, while substantial, may not be as important as the message sent to millions of taxpayers.

We know that some travelers fly out of their way, in spite of increased cost to their companies, in order to get free passes. Some of those in the frequent flyer programs have qualified for more passes than they can use and are selling them for cash. Michael Boynton, manager of marketing programs for Delta Air Lines, reinforces the point regarding employees traveling out of their way to pick up bonus points by saying: "We've seen customers flying from New York to Los Angeles by way of Atlanta and Dallas even though our competitors offer nonstop flights at comparable rates."

It has been suggested that companies are paying a premium of 5 to 7 percent of their total travel budget as a result of these programs. Business spent $66.5 billion on travel last year and the sums involved are large enough to merit the concern of Congress. While the Internal Revenue Service is aware of the lost revenue, this legislation will give the IRS congressional direction, so that additional revenues can be raised and the deficit reduced. The general manager of the American Society of Travel Agents, Robin Gray, has recognized that the personal use of frequent flyer coupons derived from business travel is taxable. It is not too much to ask the IRS to do the same and to give the IRS the tools to do so. I look forward to hearings and I encourage comments from major carriers, regional, and small carriers as well as those concerned with tax fairness and equity.●

THE STATE OF FLORIDA AGAIN APPEALS TO CONGRESS TO DEAUTHORIZE THE CROSS-FLORIDA BARGE CANAL

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. YOUNG of Florida. Mr. Speaker, the Florida State Legislature yesterday once again appealed to Congress to finally deauthorize the long dormant cross-Florida barge canal project.

By a vote of 33-3, the Florida State Senate agreed to a statehouse bill urging Congress to take whatever steps necessary to complete the deauthorization process.

The State senate's action yesterday is particularly gratifying to this Member, because 24 years ago, as a member of that body, I first raised the issue of deauthorizing the cross-Florida barge canal when I offered an amendment to delete money for the project from the State budget. My amendment created a great furor in the legislature and was soundly defeated, but from that spark evolved a

statewide movement to deauthorize the barge canal.

Following my election to the U.S. House of Representatives in 1971, one of my first items of business was to personally request that President Nixon stop funding construction of the barge canal. He agreed to my request, and as a result, work has been suspended for more than 14 years on this now obsolete project.

After many years of work in this regard, I was elated last year when the question to deauthorize the barge canal was finally placed before this body. Unfortunately, our amendment failed by just three votes. But, as I learned 24 years ago in the Florida State Senate, it is just a matter of time until we are successful in convincing a majority of our colleagues that the cross-Florida barge canal, first conceived more than 40 years ago, has outlived its usefulness.

Mr. Speaker, it's my hope that we will have the opportunity again this year to consider this issue so that we may once and for all fulfill the desire of an overwhelming majority of Florida's residents and deauthorize the cross-Florida barge canal.●

THE "JUSTICE" DEPARTMENT

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. HUBBARD. Mr. Speaker, last Thursday, May 2, 1985, I received in my office a news release and information packet from E.F. Hutton & Co., Inc., regarding its pleading guilty in Federal court in Scranton, PA, to a U.S. Justice Department criminal information charge of 2,000 counts of mail and wire fraud in connection with a $4.35 billion scheme from July 1980 to February 1982.

E.F. Hutton was fined the maximum $1,000 on each charge of mail and wire fraud by the Federal judge, or a total of $2 million, and was ordered to pay $750,000 in court costs.

I ask my colleagues today what kind of justice is being doled out by our U.S. Justice Department? Certainly, Federal officials have explained that company employees have been granted immunity in order to push the investigation along. Another reason given for not prosecuting individuals who were participating in the bad check-writing incidents was that "it didn't seem fair to subsequently charge other individuals for doing identical acts."

I say it is another example of questionable justice when a deal is made to any company which has pleaded guilty to 2,000 felony counts of mail and wire fraud that has involved kiting checks worth more than a billion dollars to 400 American banks.

Recently the U.S. Justice Department indicted, convicted and sent to jail a Washington, DC, woman for "shoplifting four sweaters for a total value of not more than $200."

Many Americans realize that the most politically conscious and active agency in our Federal Government is the U.S. Justice Department.●

STERLING HEIGHTS: A SAFE PLACE TO LIVE

HON. DENNIS M. HERTEL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. HERTEL of Michigan. Mr. Speaker, I rise today to extend a hearty congratulation to a city in my district, Sterling Heights, for their efforts in combating crime. I would like to mention in particular the crime prevention division of the Sterling heights police department which was recently named "outstanding unit" by the Crime Prevention Association of Michigan. This honor, incidentally, is an annual award given to members who have demonstrated an outstanding contribution to the citizens of Michigan in the field of crime prevention.

Prior to this recognition, Sterling Heights was named as one of the safest cities in the country. A large part of this achievement can be attributed to the work of the police department's crime prevention division which, together with the citizens of Sterling Heights, has worked on ways to prevent crime.

The community watch program which began a few years ago has been a highly successul anticrime venture between the city and the community. The low crime rate in Sterling Heights is due largely to the cooperation of the three faceted crime watch program. The first phase of the program is operation identification where residents engrave all valuable objects in the home. Second, is the neighborhood watch where residents make a concerted effort to familiarize themselves with their neighbors and learn to recognize suspicious individuals or actions. Third, city and local business employees are trained to recognize criminal activities so they can report any wrong doings they might encounter.

At this time, I would like to give special thanks to the mayor, members of the city council and the police officers who worked so hard to organize and successfully carry out this program: Chief Alan Nallepa, Sgt. Ken Ford—head of the crime prevention division—and officers Jack Sherby, Lee Hartson, Mike Rumps, and Andy Newcombe. Special praise also is in order for the block captains and neighborhood volunteers who dedicate a great deal of time and energy to make this program work.

The best way to beat crime is through prevention. Under the direction of the crime prevention division, the residents, businesses and government employees in Sterling Heights have worked together to make their community a safer place to live.●

KEYNOTE ADDRESS OF VLADKA MEED TO THE INAUGURAL ASSEMBLY OF THE AMERICAN GATHERING OF JEWISH HOLOCAUST SURVIVORS

HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BORSKI. Mr. Speaker, I would like to commend to all my colleagues the remarks of Vladka Meed in her keynote address to the Inaugural Assembly of the American Gathering of Jewish Holocaust Survivors. Her speech is a forceful and timely restatement of the horrors Jews suffered at the hands of Nazi Germany, and a reminder that now we all share the responsibility to see that such crimes never again occur. I insert her speech in the RECORD:

KEYNOTE ADDRESS BY VLADKA MEED

They wanted us to remember them.

In their last moments before death, they wrote it with their own blood, on walls—or carved it into the stones of the ghetto. "Remember us. Remember our lives. Remember our deaths."

And we, who survived, carry their memory within us wherever we go. We search for ways to inscribe it into the consciousness of our people and the world around us so that twisted minds of Nazi historians should not dishonor their memory.

I can still see the Warsaw Ghetto uprising before my eyes—the flames from burning Jewish houses, leaping over the ghetto walls and through the clouds of the thick smoke. I can still hear the sounds of explosions and the firing of Jewish guns. In its glare, I see the Jews of Warsaw, of Vilno, of Riga—of all the other ghettos. I see their life, their struggle, their resistance, during all the years of the Nazi occupation. I recall the crowded ghetto streets with hungry people, corpses laying unclaimed on the sidewalks; my neighbor standing in the doorway of our house to watch out for approaching Germans, while upstairs, her daughter held secret classes for children.

I recall the political groups of our idealistic youth—the Bundists, Zionists, Communists, religious groups—their illegal publications, the secret libraries, synagogues, yeshivas.

Yet, beyond the horrible suffering and terror, there was pulsating life in the ghettos—a life filled with meaning, with hope, with dignity.

This was resistance with a will to survive as a people and a spirit that refused to be crushed.

Then the final solution. . . .

I can still remember the thousands of Jews forced to line up in the narrow streets of the ghetto—and the German officer at the head of the line—pointing with a stick. "Left, right—left, right." I can still feel the dread as we stood in that line. Left—to the trains. Right—a few more days of survival in the ghetto. I still see them—our ghetto Jews—among them my dearest ones, walking on their last march to the trains—silent. As their footsteps echo in my mind, I can hear their unuttered outcry to God, and to a world that allowed all this to happen.

Yet, even then, many still nourished the hope against hope—that they would somehow survive. Even I, who knew, from my work in the underground, the actual destination of the trains—I could not believe when my mother and my brother were taken away—that they would be killed. I found myself hoping that maybe, after all, they had been sent—as the Germans claimed—to another city for resettlement.

How could our people, who for generations believed in human values, imagine such an utter madness as that of an enemy who planned our total annihilation? How could we grasp the scope of such a huge apparatus installed by German scientists—supported by trained military and civilian death squads with the cooperation and participation of its industry—of its people?

Yet, we, the survivors, are the witnesses—not only of murder and destruction, but also of the spirit of Jewish life under Nazism.

It is worthwhile to remember how inmates in the Estonian camp Narva, conducted illegal literary evenings. In Varvara Camp, Jews secretly observed Yom Kippur and organized minyans to say "Kadish" for those who perished. And even in the pit of hell in Auschwitz, surrounded by the smell of burning flesh, members of the Sonder Komando, buried scripts next to the ovens, so if everyone perished, let the written word tell what happened to them.

While the world closed its eyes so as not to see the smoke of the cremetoria, our people struggled to remain "menschen"—to preserve their beliefs in humanity—in God.

Those who view the Holocaust from a distance—often claim that organized Jewish resistance came too late. They would do well to remember that it came earlier than that of any other oppressed people in Europe. But the Jews—the most persecuted in the most hopeless position, were the first to revolt.

They were led by our youth. They were at the forefront of the Jewish struggle everywhere. The historic role of these idealistic young ghetto people has yet to be fully told.

It was my destiny to work with them—to see their determination—their spirit—their commitment and their dedication.

When I came on a mission with a small smuggled-in parcel of dynamite to one of the ghetto fighters' units—the young would approach me—their eyes burning with excitement—with interest. They would repeatedly ask me about our relations with the outside world. "When will we receive more arms? When will the Polish underground give us help? Hiding places for our ghetto children?"

And I would stand there, forlorn, unable to give them the answer they so desperately sought. Pitiful was the response from the Polish underground.

None of the young expected to survive a Nazi attack. Nor did they expect to influence in the smallest way the outcome of the war. But they were fueled by the conviction that their cause was just. The enemy must be fought. This is what drove them on.

I recall another Sunday in April, when the German soldiers marched in full gear, into the Warsaw Ghetto, to make it Judenrein.

Suddenly they came under fire. From buildings, from windows, from rooftops of houses, the Jews were shooting. The Germans withdrew. They set up artillery around the ghetto walls and from there, they systematically bombarded our positions. The ghetto did not yield. We were so poorly equipped—only a handful of grenades and revolvers and home-made Molotov Cocktail bottles against the combined might of the Wehrmacht. A gun against a tank. A revolver against a flame-thrower. One side street after another.

How can I forget the towers of flame? The smell—the stench of burning houses and the agonizing screams for help? And, in the midst of this flaming hell, the resistance went on—until the ghetto was charred rubble.

Those final days united them all. Those who had fallen with arms in hands—those who were gassed, and those who suffocated in the smoldering ruins—they were all united in one great chain of resistance against their enemy.

During the days of the uprising, the Jewish underground sent radio messages to the world—to our representatives in the Polish Government in exile stationed in London. We pleaded for ammunition. We begged for help. But, we were alone—abandoned.

Those of us who survived, can never forget the feeling of isolation and loneliness. History will never be able to explain our abandonment during those final hours.

Only one year later, I was in the uprising of Polish Warsaw. I remember at that time, the planes flying over the city, dropping arms and medical supplies to the Polish fighters; but when we fought, the skies over the ghetto were empty. In the months afterward, we learned of organized Jewish resistance in other ghettos and camps.

Today, we know that the world knew what was happening to us. London knew. Washington knew. The Vatican knew. And even the leaders of the Jewish community in the free world knew. As Hitler unleashed his murderous machine, systematically, and step by step, he always waited for an outcry of world opinion, but such an outcry never came. The world paid attention only to the military battle—and not to the war against the Jews. Thus, Auschwitz was not bombed. The gates of America and Palestine were kept closed and few spoke out, until it was too late.

Now, as world leaders gather to celebrate the end of World War II, we the survivors of the war against the Jews, think not only of military valor and of victory—but we think of our Jewish world that was cut down—of Jewish suffering and resistance. Yes, we will remember, with gratitude and respect, the decency of the few—of some righteous people and nations. And we will remember, above all, the moral meaning of that victory and its implication for our future.

The world is now eager to forget our tragic past—to pretend it never happened.

However, we know that the world is not free of the horror, of the poison which bore Auschwitz and Teblinka. Even today, Israel stands threatened. Soviet Jewry remain oppressed, and even in many free countries—Neo-Nazis try to poison the air with their hatred and lies.

For us, the news of today constantly evokes echoes of the past:

The Austrian Defense Minister greeting a freed Nazi war criminal as if he were a returning dignitary, rather that a mass murderer.

The Toronto trial, where the question as to whether the Holocaust actually existed was to be decided by a court.

The gathering of the Allies will mark the end of World War II—and to avoid a possible offense to Germany, President Reagan did not intend to visit the death camps and pay tribute to our Jewish martyrs in Dachau. But at the same time, a visit is planned by him to a German military cemetery where Nazi murderers are buried. Shocked and bewildered, we asked in dismay: Is not Dachau liberated 40 years ago by American troops, the place of symbolic historic significance? To be remembered and honored by our President?

The leaders of the World do not wish to be reminded of the past. But the past remains a constant warning of the challenges of survival that lie ahead. And what has seen us through history and will also see us through the future, are the indestructible bonds created by the suffering, remembrance and hope by all of those who cherish freedom.

And we, who survive, shall continue to tell and retell the story of a people who refused to yield—the story of a people who would never say that they were marching on their last road.

[Vladka Meed, author of "On Both Sides of the Wall," chairwoman, Cultural Commission.]●

UNITED STATES-ISRAEL FREE TRADE AGREEMENT BENEFITS BOTH NATIONS

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. LANTOS. Mr. Speaker, the economy of Israel is currently facing serious problems, but the Israeli Government is making the difficult choices that are necessary to restore its economic health. Emergency assistance, which I am certain Congress will approve later this year, will provide interim help.

In the long term, however, Israel needs two things to maintain its economic viability. First, it needs peace; second, it needs access to larger markets. While we are all hopeful that the United States will play a constructive role in bringing an end to hostilities in that troubled region, access to larger markets is an important element that the United States can provide now.

Mr. Speaker, in a historic step on April 22, representatives of the United States and Israel signed the United States-Israel Free Trade Area Agreement—the first free trade area agreement ever entered into by the United States. The Congress has just approved the legislation necessary to implement that agreement.

While this free trade agreement is an important first step, it will not provide an immediate fix for the Israeli economy, since the agreement's provi-

sions will be phased-in gradually over the next 10 years. In the long run, however, it will be vitally important. Israeli manufacturers can now think in terms of serving a market of 237 million people—60 times the size of that of Israel. Efficiencies that result from large-scale production, that could not be considered for the Israeli market alone, are now possible. Specialization in technologies and products that are important for the American market can now be expanded by innovative Israeli entrepreneurs.

The Israeli leaders have made a tough decision by deciding to enter into this free trade agreement, but they have made the right decision. For the first time, Israeli companies will have to compete head on with American companies. The Israeli economy has been protected from American competition by high tariff barriers, and subsidy programs have shielded the Israelis from direct competition.

Important changes will take place in the Israeli economy as it adjusts to competition with American firms. Israeli firms will become more efficient as they face American competition. I am confident that they will meet the challenge that the free trade agreement will bring.

Mr. Speaker, it is important to emphasize that this is not a one-sided agreement. There are significant economic benefits for the United States. The European Economic Community, which next to Japan is our second most important trade competitor, already has a free trade arrangement with Israel that has been in effect for over a decade. Our agreement will put American exporters on an equal footing with their European competitors in the Israeli market.

Furthermore, about 90 percent of Israeli exports to the United States are already duty free, whereas our duty-free exports to Israel constitute only about 35 to 40 percent. Thus, new opportunities will become available for American exporters. While Israel will benefit from this agreement, it is also clear that the United States has as much to gain.

The free trade agreement, by removing trade barriers, will strengthen the economic relations between the United States and our strategic and stable ally in the Middle East. Strengthening our economic ties will contribute to the important political and strategic relationship we share. It will make for a stronger and more prosperous Israel and United States.●

MATT AND ROSE LAMB

HON. MARTY RUSSO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. RUSSO. Mr. Speaker, recently two outstanding citizens in the Third Congressional District were honored by being invested as Papal Knight and Lady of the Equestrain Order of the Holy Sepulchre of Jerusalem. Mr. Matt Lamb and his wife Rose, among the 100 men and women from 14 Midwestern States to be invested, were named by the Holy Father Pope John Paul II, "from among persons of a deep and practical Catholic faith and of unblemished moral conduct."

Joseph Cardinal Bernardin, himself a Papal Knight, presided at the April 28 ceremony and Archbishop Micheal McAuliffe, Grand Prior of the Knights, invested the Knights and Ladies.

The order is the oldest existing Order of Knighthood in the world. Serving 25 countries today, it stems from the first Crusade when knights were made guards of honor for the Holy Sepulchre—the partially restored basilica on the site of Jesus' tomb—by Pope Pascal II in 1113. The purpose of the order today is to "revive in a modern manner the spirit and ideal of the Crusades."

Practical work of the order has included creation, support, and maintenance of an educational system for the Chritian minority in the Holy Land. In 1981, a school for youngsters of the Christian faith was built in Beit Sahour and the University of Bethlehem for Christians was established. The order also supports medical facilities, orphanages, and homes for the aged in the Holy Land. A modern institution for the care of congenital deaf-mutism, a common disorder in the Middle East, has been developed near Bethlehem by the order.

It has been my privilege to know Matt and Rose Lamb for many years and I am not surprised at their being chosen for this high honor—a reflection of the involvement and compassion and concern they bring to people and to their community. Such people can remind us of what is good within us, and inspire us to live a life that reflects enduring values and faith. I know my colleagues join with me in commending them for their fine work and for this singular honor.●

CARGO PREFERENCE

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. BEREUTER. Mr. Speaker, on March 31 of this year, the National Commission on Agricultural Trade and Export Policy issued its first report to the President and Congress regarding U.S. agricultural export policy. The Commission is comprised of 32 members—a majority and minority member from each of the agriculture, foreign affairs, and tax-writing committees of both Houses of Congress and 20 members from the private sector who represent interests that are involved in either the production, processing or exportation of agricultural commodities. The purpose of the Commission is to review past and current U.S. policies that affect agricultural exports and make policy recommendations to the administration and Congress that will encourage the growth of foreign agricultural sales and markets.

As a member of the Commission, I would like to share with my colleagues the section of the March 31 report pertaining to cargo preference. It was a unanimous decision by all of the private sector members of the Commission and by most of the congressional Members that the export of agricultural commodities, including the shipments of food aid under the Public Law 480 program, should be exempt from cargo preference requirements.

As the following excerpt from the Commission's report illustrates, the bulk of the cargo preference subsidies are received by a handful of U.S. maritime shipping companies. It is worth noting that the top 16 maritime recipients of cargo preference subsidies received a total of 59,623,499 in cargo preference freight differentials for shipment of food aid under titles I and III of Public Law 480 because of cargo preference requirements.

I submit for my colleagues the complete text of that section of the Commission's report which relates to cargo preference. I would urge my colleagues that Congress act now to exempt from cargo preference requirements not only the USDA's blended credit programs, but also the shipment of Public Law 480 food aid.

CARGO PREFERENCE SECTION

(First Report (March 31, 1985) National Commission on Agricultural Trade and Export Policy)

POLICY STATEMENT

The Commission strongly opposes the concept of cargo preference as currently applied to food aid programs and, potentially, to other programs designed to expand sales of U.S. products.

The Commission recognizes that other interests may be served by cargo preference, but has seen little evidence that the objec-

tives of the program are being met. While the Commission does not take issue with the need for maintaining a strong U.S. maritime industry, it does not believe that cargo preference applied to exports of U.S. farm products is the appropriate means to achieve this objective. The Commission believes that U.S. agriculture would lend its support to the maritime industry to strengthen the industry if cargo preference requirements on agricultural products were eliminated. However, cargo preference is not supported by the U.S. agricultural community. The method of financing the program should not be by appropriation to the U.S. Department of Agriculture. Appropriations to carry out the program should be provided by Congress directly to the Maritime Administration. The Commission encourages the U.S. maritime industry to cooperate with agricultural interests toward a goal of greater viability for both industries, as a first step, through exempting agricultural exports from existing cargo preference requirements.

RECOMMENDATION

1. The Commission recommends that Congress immediately enact legislation to exempt all agricultural exports and export programs from existing cargo preference requirements.

2. Congress should direct the Director of the Office of Management and Budget (OMB) to reflect subsidy payments deemed necessary to support the maritime industry in the appropriate function of the Federal budget, other than Functions 150 or 350. Appropriations to carry out assistance to the maritime industry should be provided by Congress directly to the Maritime Administration.

COMMENTARY

Cargo preference requirements result in Federal government outlays incurred by the U.S. Department of Agriculture (USDA). The USDA budget, already facing criticism as a result of the exceptionally heavy cost of farm programs, should not have to bear the cost of ocean freight differentials required to ship agricultural commodities and products on U.S. vessels.

A major share of the cost of cargo preference results from exports under U.S food aid programs. In the thirty years since the enactment of P.L. 480, the total cost of cargo preference has been more than $1 billion. Currently, costs are running around $75 million annually and are expected to exceed $100 million in 1985.

Costs associated with cargo preference in the Title II program generally are lower than those incurred under Title I because the volume of commodities is lower and there is less use of bulk carriers. In 1984, $20.2 million was spent on ocean freight differentials under that Title II program. This included $1.3 million for processed grain products, $0.8 million for bagged grain and $18.1 million for bulk commodities.

PUBLIC LAW 480 TITLE I/III, EXPENDITURES

[In million of dollars]

	Commodities	Ocean freight differential	Total
1977	723.1	75.5	798.6
1978	67.1	62.6	733.7
1979	754.5	122.5	827.0
1980	845.8	63.0	908.8
1981	781.3	65.1	846.4
1982	712.0	120.1	832.1

PUBLIC LAW 480 TITLE I/III, EXPENDITURES—Continued

[In million of dollars]

	Commodities	Ocean freight differential	Total
1983	766.0	77.2	843.2
1984 (estimate)	781.0	69.5	850.5
1985 (estimate)	997.0	109.0	1,106.0
1986 (estimate)	921.5	108.5	1,030.0

The subsidized flour sale to Egypt in early 1983 was subject to cargo preference because the price of the flour was reduced to meet the EC level of prices of approximately $160 per metric ton. Since a subsidy was involved, cargo preference was applicable. The sale was made using Commodity Credit Corporation stocks of wheat. U.S. flour millers placed bids on wheat stocks from CCC holdings as to the volume of "free" wheat needed in order to sell the flour to Egypt at a reduced price. Since the flour mills were aware that the cost of shipping to Egypt would be increased by the requirement that half the flour go on U.S. bottoms, they increased the volume of wheat needed. ASCS estimates that an additional 6 million bushels of U.S. wheat from CCC stocks were used to offset the increased cost of U.S. bottoms. Based on prices at the time, the estimated cost to CCC was $24 million.

In late February 1985, a court ruling was handed down that cargo preference laws were applicable to the blended credit program. Blended credit is a mixture of direct Government loans and credit guarantees to banks. Under the program, the blend was generally 20 percent direct credit at zero interest rate and 80 percent of guarantees at the prevailing commercial interest rate. The direct credit portion was ruled by the courts to constitute a subsidy and, therefore, cargo preference laws were applicable. This means, of course, that 50 percent of the shipments under blended credit must be in U.S. bottoms at rates $20 to $50 per ton above non-U.S. flag carrier rates. (Only wheat sales to North Africa and a small wheat flour sale to Iraq were programmed under the blended credit program.) Cargo preference would add between 8 percent and 15 percent to the cost of a ton of wheat (approximately $150). The 20 percent interest subsidy will hardly offset the 8-15 percent increase in the landed price of the commodity. In this instance, cargo preference effectively kills a successful effort to combat unfair EC trade practices and reduces the export volume for U.S. wheat farmers.

According to USDA, companies that received payments in 1984 for ocean freight differentials under Titles I and III of P.L. 480 are:

Company:	Payments
Lykes Steamship Co., Inc	$9,356,765
Ultimar Shipping Co., Inc	8,934,407
Central Gulf Lines, Inc	7,561,504
Phoenix Bulkship, Inc	7,395,741
American President Lines, Inc	5,311,396
Equity Carriers III, Inc	2,863,950
Waterman Steamship Co	2,781,852
Delta Steamship Lines, Inc	2,633,032
Apex Marine Corporation	2,449,000
A.P. St. Philip, Inc	1,981,650
Asco-Falcon II Shipping, Inc	1,650,949
Ogden Missouri Transport Inc	1,587,832
Archon Marine Co	1,434,160
Universal American Barge Corp	1,298,500
Ocean Barge Corp	1,267,537
Transbulk Carriers, Inc	1,115,224

A total of 14 other companies received payments for ocean freight differential in 1984 for shipments under P.L. 480, with amounts ranging from $13,869 up to $852,066.●

TRIBUTE TO THE HONTERUS EVANGELICAL LUTHERAN CHURCH OF YOUNGSTOWN, OH

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. TRAFICANT. Mr. Speaker, on June 2 of this year, the Honterus Evangelical Church of Youngstown, OH, will be celebrating its 75th anniversary. At this time, I would like to pay tribute to this church and its congregation, and congratulate them for reaching this significant milestone.

Mr. Speaker, the congregation of Honterus Evangelical Lutheran Church consists of American citizens of German heritage who trace their family origins back to Transylvania, in the Carpathian mountains of Europe. Many of them came here at the turn of the century to flee persecution and oppression. They brought with them a thirst for freedom and they have added significantly to the rich immigrant heritage of this country.

The membership of the Honterus Evangelical Lutheran Church has made significant contributions to the Mahoning Valley area over the past 75 years and has been a vibrant part of the community in my home district. They have always reached out and joined with the community in times of need and have run many programs for youth, seniors, and the less fortunate.

The accomplishments and contributions of the congregation of Honterus are a rich example of the diverse ethnic quality of America. They symbolize the greatness of this Nation and its source of strength: Hard-working people who came to this country with a dream and desire for freedom. Through dedication, unbending faith, and laborious effort, they helped build the world's strongest democracy. The longevity and vitality of the Honterus Evangelical Lutheran Church is not only symbolic of the dedication and faith of its membership, it is also reflective of the enormous pride and spirit of this nation of immigrants.

I am proud to pay tribute to the congregation of Honterus and it gives me great pleasure to extend my sincere congratulations to them on the occasion of their 75th anniversary.●

BOB BARROS: A FRIEND FOR ALL SEASONS

HON. JACK F. KEMP
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KEMP. Mr. Speaker, when Bob Barros retires as headmaster of Mater Dei this year, an era will come to an end. Bob founded Mater Dei 25 years ago, and today it stands as a fine example of the excellence that can be achieved in the field of education and training for our youth. His absence will be deeply felt by all those whose lives have been touched by Mater Dei—most especially the young people who have learned so much under his tutelage and leadership.

Bob is a man of integrity and dedication. I am proud to say that he has been a real friend to our family for many years. We wish Bob, Carol Ann, and his lovely family all the best in the years to come, and I commend the following article to the attention of my colleagues as a tribute to a friend for all seasons.

On behalf of all the parents whose children's lives have been touched in one way or another by Mater Dei and Bob Barros, this article is submitted.

BOB BARROS—HEADMASTER

MATER DEI FOUNDER RETIRES AFTER 25 YEARS; SCHOOL GREW FROM HUMBLE BEGINNINGS AND FAITH

(By Judith Scioli)

On the eve of Bob Barros' retirement as headmaster of Mater Dei, the school for boys he founded 25 years ago, memories are stirring. Some reach back to the school's humble beginnings as a yet-to-be refurbished barn in Silver Spring.

"Picture it," Barros marvels as if glancing backward at his own daring. "I was interviewing the families of prospective students in one of the rooms where they put the mare on one side and the stallion on the other! Those parents had to be courageous!"

"I remember it well," laughs Louis Boland, one of those "courageous" parents. "Bob took us into the classrooms. They had earthen floors and the heat was questionable. But I had confidence in the man. As my wife and I left, I turned to her and commented, 'Well, I always said education wasn't just brick and mortar.' "

Eventually, the brick and mortar came too. But even with the school's move to its serene campus off Seven Locks Road, there has never been any doubt among parents that Bob Barros was offering something to their children more solid than a building. He was offering himself. And that has not made his retirement easy to accept.

For Bill McMurtrie, president of the school's board of trustees last year when Barros made his decision to leave, it was particularly difficult. A close friend, McMurtrie considers Barros' stewardship of Mater Dei unparalleled and was heartsick at the thought of his leaving. Yet, because of his position on the board, it fell to him to prepare the letter accepting Barros' resignation.

"Make it short," requested Barros. "One page."

Some days later, Barros asked for the letter. McMurtrie hedged but finally produced it. He admitted it did not exactly fit Barros' specification. Instead of the brief reply suggested, McMurtrie had written two full pages.

"Bob, I just can't condense it," said McMurtrie, handing over the letter.

"Sure you can," responded Barros and sat down to read it. Some moments later, Barros looked up from the two pages of eloquent prose full of heartfelt admiration of Barros. Suppressing a schoolboy grin, the headmaster sighed, "You know you're right, Bill. There's not a single thing you can cut out!"

The anecdote is telling. His peers—many of whom are themselves highly placed and highly regarded—find Barros worthy of the highest praise for his work in the most serious of fields—the education of their sons. Barros accepts that praise not as his due, but with the kind of humor that alone makes exceptional people accessible to the rest of us.

Barros started Mater Dei in 1960. He was a former marine captain with six years teaching experience and, rumor has it, $300 in his pocket. But he was ready to strike out on his own.

"It was a time that happened to coincide with a period of my life when I was getting a little closer to my faith," said Barros, who felt disturbed that the youngsters he was teaching were "growing up with nothing."

His own religious revival and the conviction that religion should play a role in education combined to draw him quite naturally into Catholic education, and he sought permission from the archdiocese to open a school.

His wife, Carol Ann, found the old farm in Silver Spring which became the first site of Mater Dei. Barros opened with four teachers and 37 youngsters in grades one through six. A few years later, at about the time of the move to the Seven Locks location, Barros extended the school through grade eight.

"I gave the school 10 years to see if it were going to float or not, and after 10 years, I knew we had something going," said Barros, patient, it seems, even in his lean days.

Once Mater Dei hit the decade mark, progress went swiftly. In 1970, Barros established the board of advisors, which incorporated and became the board of trustees. Their first act was to build a gymnasium, which the school paid for in a year and a half.

According to Barros, a school's success can be measured in a number of ways. From the purely practical standpoint, he notes, enrollment is a good yardstick. "You either have a full school or you don't. If you have a full school, the community is giving you a message," he said, "particularly when you don't advertise. It's all word of mouth."

From a business standpoint, adds Barros, the bills have to be paid. "You certainly have to show that you're a viable business proposition, at least if you're privately owned," he said.

"And then there is the intangible: If more people are telling you you're doing a good job than there are whispers that you're doing a bad job, then you assume you're doing something right!" he declared.

Barros attributes the success of Mater Dei to the selection process for students, the quality and calibre of teachers, and an atmosphere where teachers are free to teach.

"To the extent that we can, we are selective in the kind of youngsters who are invited to attend the school," said Barros. "In that selectivity, we are taking youngsters whose parents want for their children what we are providing. In different schools that can be different things," he said.

He added that the selection process does not mean that the school is looking for so-called "gifted" students. "I think there's a misconception that private schools cater only to the brightest. The truth is, we cater to the community at large. And there are more average kids who, if made to work, do well, than there are gifted kids. Every school, public or private, has its share of gifted kids. But no school can cater just to them," he explained.

As for selecting teachers, Barros is forthright in what he expects. "I have always been a big believer that if a youngster has to sit in front of somebody for five to six hours a day, that person ought to be attractive and vibrant," insists Barros.

Perhaps no one is more cognizant for Barros' ability to attract and keep an exceptional faculty than attorney Edward Bennett Williams. Williams sent his sons to Mater Dei and served on the board of trustees for several years. "My boys all had a great fondness for the place," he commented. "One of them, in fact, had such great affection for the school and for Bob that he is now teaching there."

Williams attributes much of Mater Dei's success to its staff and to Barros' appeal as a role model.

And indeed, impeccably dressed and handsome, Barros is a man who invites the respect of students and the confidence of mothers.

He is a man who learns the names of each first grader because he thinks that when a child says, "Hi, Mr. Barros," he deserves a hello back using that little boy's name.

He is a man who reminds his faculty each September that when a teacher is talking to a parent about his child, he is talking about the only thing in the world that really makes a difference to him.

At the same time, he is a man who is not hesitant to draw a line between what he considers parental "interest" and parental "intrusiveness." He has strong views on "letting teachers teach" and doesn't tolerate parents treading on his faculty turf.

"He's first class," said attorney Joseph Califano, who sent his two sons to Mater Dei and served on the board with Williams. "I think he has run the most superb school for young men in the area."

For all the praises heaped upon him, Barros does not consider himself indispensable to the future of Mater Dei. On the contrary, he is confident that the school will do well, and he intends to stay out of the way of the new headmaster, Christopher Abell, a man who Barros says, has served "with distinction" on the faculty for years.

Barros believes the school will stay as it is, with modifications that will be "evolutionary, not dramatic."

Nor does he anticipate a change in the students. Barros sees little difference between the youngsters of a quarter of a century ago and those of today.

"I think the most profound change that I have seen in 25 years has come over me and not the children. I think the children are pretty much today the way they always were," mused Barros. "But when I was younger, I had all the answers for all of the children and all of their problems. Twenty-five years later, I have very few of the answers, more questions, and perhaps a little more sensitivity that problems are more

complicated than they seem on the surface."

Barros will continue to run Mater Dei's summer camp program and to serve on the board of trustees of both Georgetown Prep and Worcester State College in Massachusetts.

He also intends to "learn to love to play golf," to take courses at the Smithsonian, and to spend time at his summer house of Kent Island on the Eastern Shore. He and his wife, Carol Ann, have four children: Mariesa, who works in Georgetown; Carla, a sophomore at the University of Notre Dame; Stephen, a junior at Gonzaga; and Mike, a junior at Georgetown Prep.

He is retiring as headmaster of Mater Dei—what he calls, "the best job in the world"—with no regrets. In his own words, "There comes a time for even the 'best' to come to an end and June of '85 will mark 25 years—it has a nice ring to it."●

THE U.S. ACADEMIC DECATHLON ASSOCIATION

HON. JIM KOLBE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. KOLBE. Mr. Speaker, academic excellence is alive and thriving in America, thanks to the dedication of hundreds of volunteer teachers and professionals who have organized the U.S. Academic Decathlon Association. Together with financial supporters from business, community organizations, and concerned individuals, these volunteers have reached into public and private high schools to encourage students to compete in an effort to raise their level of intellectual pursuit.

The academic decathlon promotes thinking in an age of instant gratification. Technological advancement, over specialization, and abbreviated communications processes have forced policy and decisionmakers to concentrate on short-term answers to escalating problems. In assessing needs in society, educators have devised a program to motivate students intellectually and to develop their mental discipline in order to prepare our young people for the rigors of solving society's complex problems.

The academic decathlon is a competition involving 10 events in economics, language and literature, fine arts, mathematics, science, social science, and super quiz—a team event held before an audience. In addition, each student is required to write an essay, to deliver a prepared and an impromptu speech, and to undergo an oral interview. Based on the accumulated points of the individual schools, each State sends its winner to the national competition.

The 1985 Arizona Academic Decathlon is the first year the competition involved students from throughout the State. The winner of the State competition, Chaparral High School from Scottsdale, AZ, went on to place 10th overall in the national competition in Los Angeles this April and won the national super quiz. I join with the parents, teachers, and friends of these students to congratulate them on their victory. I hope the medals and plaques that serve as tangible reminders of their efforts will also remind the Chaparral Academic Decathlon Team of their responsibilities to their peers. They have opened doors for students who will follow them and who will work that much harder to represent Arizona next year.

The runners-up in the State competition—from Saguaro and university high schools in Tucson—and the students at Douglas High, Florence High, and the other schools who participated for the first time, also share the responsibility for continuing the academic excellence embodied in the decathlon. They will carry with them throughout their lives the knowledge and mental discipline to serve society as leaders and to challenge their fellow citizens.

I urge my colleagues in the U.S. House of Representatives to join me in applauding the work of all those associated with the U.S. Academic Decathlon Association. I would like to add my thanks to Anita Lohr, Pima County school superintendent and the Arizona Department of Education, for their faith in the intellectual abilities of Arizona's young people and their commitment to academic excellence.●

HOUSE ARMED SERVICES COMMITTEE ZEROS 30 DEFENSE PROGRAMS

HON. LES ASPIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1985

● Mr. ASPIN. Mr. Speaker, the House Armed Services Committee has cut $18.9 billion and terminated 30 procurement programs from the administration's defense budget for fiscal year 1986. Let me present here some details of our work on the bill.

I believe this is the largest number of procurement programs ever terminated in the committee's history. The actions cut almost $2 billion.

Overall, the reduced budget provides no real growth—and a real cut of more than 2 percent in weapons procurement.

This budget is but one step down the road we must travel to tighten up the military budget. We eliminated many systems here. A lot of them are very small programs that no one has heard of, but that's the best time to stop a program. In other cases, we have killed a program for this year, but indicated we may be willing to fund it in the future.

Our intentions here are clear:

We want more defense, not more production lines.

We seek to fund military requirements, not bureaucratic wish lists.

Our goal is to increase the level of deterrence, not the number of contracts.

The President's budget request represented a real increase for defense—that is, an increase over and above inflation—of about 6 percent. The committee's actions would trim the real growth rate down to zero—that is, provide the same level of funds as in fiscal year 1985 plus an amount necessary to cover inflation in the intervening months.

In making its reduction, the committee made a conscious effort to protect the personnel and operations accounts by taking the bulk of the cuts from the investment accounts—procurement and R&D.

I would like to quote the ranking Republican member of the committee, Representative WILLIAM L. DICKINSON. He has said.

With the huge Federal deficit staring us in the face, we cannot afford to buy all the systems the Pentagon wants. A weapon that may sound very reasonable when you're running a surplus does not necessarily sound so reasonable when you're running a deficit. In other words, we have tried to set some priorities. We have funded necessities, not nice-to-haves.

Targets set in the annual budget resolutions apply to appropriations bills, but not to authorization bills. It has, however, been the policy of the House Armed Services Committee in past years to be consistent with the budget resolution. No budget resolution has yet been passed or reported out by the House Budget Committee, so the House Armed Services Committee chose the zero real growth mark itself.

The committee voted to approve the reduced bill on a vote of 39 to 7. The nay votes were cast by—Democrats: RONALD V. DELLUMS of California, PATRICIA SCHROEDER of Colorado, and DENNIS M. HERTEL of Michigan; and Republicans: BOB STUMP of Arizona, JIM COURTER of New Jersey, LARRY J. HOPKINS of Kentucky, and WILLIAM CARNEY of New York.

Table 1 provides a summary and budget track for the entire national defense function of the budget—function 050—for fiscal year 1986.

TABLE 1.—BUDGET TRACK, FUNCTION 050, FISCAL YEAR 1986—BUDGET AUTHORITY

[In billions of dollars]

	Requested	Authorized	Change	Percent Cut
1. Defense Authorization Act	230.5	216.2	−14.3	−6.2
2. Nonauthorized personnel	73.4	69.1	−4.3	−5.9
3. Military construction	10.3	9.6	−.7	−6.9
4. DOE—Military	8.0	7.7	−.3	−3.0
5. Selective Service and other	.1			
Total	322.2	302.6	−19.6	−6.1

Line 1 is the Defense Authorization Act, which is described in this report.

Line 2 is military personnel. Congress does not authorize dollar figures for military pay and other personnel provisions. The House Armed Services Committee implicitly controls the dollar figures, however, by authorizing the size of the services and the annual pay raise. Line 2 reflects the dollar impact of the committee's personnel actions. This report uses the dollar figures explicitly although they do not appear in the bill itself. The dollar figures are used in the appropriations bill, accounting for the huge difference between the two bills.

Line 3 covers military construction, which is a separate bill. The committee has not yet approved this bill. The reduction indicated in table 1 is the target the committee has set. The figure in the first paragraph of a reduction of $18.5 billion does not include any reductions in military construction since the bill has not been reported.

Line 4 is the national security programs contained in the Department of Energy budget—primarily nuclear warhead and atomic reactor programs. This has normally been a separate bill. This year it is appended to the Defense Authorization Act. The committee action is described at the end of this report.

Line 5 covers miscellaneous programs such as the Selective Service System that have minor budgetary impact.

The committee spent 9 hours marking up the bill Tuesday and Wednesday, considering 43 amendments to the drafts submitted by its subcommittees. The scale of the work was extensive; for example, the committee made changes to 266 lines in the procurement section and 249 requests in the R&D section of the administration request.

The major actions taken by the committee included:

MX MISSILE

On a rollcall vote of 13 to 32, the committee defeated an amendment to cap deployment of the MX at 40. On a voice vote, the committee defeated an amendment to delete all procurement money, which would have the effect of capping deployment at 33. The committee cut the administration's quantity request from 48 to 21 and its budget request from $3.2 billion to $2.1 billion for procurement.

CHEMICAL WEAPONS

The committee defeated on a voice vote an amendment to delete all funds for building binary chemical weapons. The committee approved the procurement request of $124.5 million.

STRATEGIC DEFENSE INITIATIVE

The administration requested $3.7 billion for SDI. The committee took the following four votes on the funding level:

Motion of: Representative JAMES COURTER, of New Jersey; $3.1 billion; defeated 11 to 35. Representative RONALD V. DELLUMS, of California; $0.9 billion; defeated on voice vote. Representative NICHOLAS MAVROULES, of Massachusetts, and Representative DENNIS HERTEL, of Michigan; $1.4 billion; defeated 6 to 40. R&D Subcommittee recommendation; $2.5 billion; approved on voice vote.

MILITARY RETIREMENT

The committee deleted $4 billion from the funds requested for military pay and pensions in order to force the Defense Department to draft a new retirement program. The committee grandfathered everyone currently in uniform or retired. In other words, the program of reduced retirement benefits will apply only to those persons entering the Armed Forces after the date of enactment of the changes.

AMRAAM

The principal weapon system killed by the committee was the joint Air force/Navy advanced medium-range air-to-air missile [AMRAAM], which was designed as a follow-on missile to the Sparrow. The committee felt that projected costs had risen more than excessively, warranting termination. While the Defense Department had requested authorization to buy the first 90 of the missiles in fiscal year 1986, it was estimated AMRAAM would still require another half-billion dollars to complete R&D. The committee estimated that unit costs for the AMRAAM could end up at triple the original projected cost. Additionally the program schedule has slipped by almost 2 years.

Table 2 summarizes the committee's action for both procurement and research and development on the 25 largest weapons programs in the budget request. These 25 programs represent 24 percent of everything requested for RDT&E, and 38 percent of everything requested for procurement. The programs are listed in order of the size of their total R&D and procurement request.

At $6 billion, the B-1 bomber is by far the largest program, consuming 2 percent of the entire defense budget. This year's request for 48 aircraft completes the planned buy of 100. No request was made—and no authorization was provided—to buy the long-lead parts that would be required in fiscal year 1986 in order to procure more B-1's in fiscal year 1987.

The second largest program, the MX, was discussed earlier. The third largest program is the Air Force's F-16 Falcon. The committee reduced the order from 180 to 150 to keep production steady at the same level as fiscal year 1985.

TABLE 2.—25 MAJOR WEAPONS SYSTEMS IN FY 86 BUDGET—LISTED IN ORDER OF SIZE OF REQUEST

[In millions of dollars]

	Fiscal year 1986 request			HASC			Change

TABLE 2.—25 MAJOR WEAPONS SYSTEMS IN FY 86 BUDGET—LISTED IN ORDER OF SIZE OF REQUEST—Continued

[In millions of dollars]

	Fiscal year 1986 request			HASC			Change		
	R&D	Quantity	Procurement	R&D	Quantity	Procurement	R&D	Quantity	Procurement
Total	9,414.8		40,322.2						

Note.—NC=No charge; NR=No request.

Table 3 summarizes the action taken by the committee on the Defense authorization bill. It is a breakdown of the first two lines of table 1—which outlines the entire national defense function 050. Actions of the Senate Armed Services Committee [SASC] are shown for comparison.

TABLE 3.—DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1986—SUMMARY TABLE

[In billions of dollars]

	Requested	Approved	Change	Percent cut	SASC
Procurement (less ships)	95.4	88.7	−6.7	−7.0	91.5
Shipbuilding	11.4	10.7	−.7	−5.9	10.8
RDT&E	39.3	34.2	−5.1	−13.1	37.5
O&M	82.5	80.7	−1.8	−2.2	81.3
Revolving funds	1.9	1.8	−.1	−5.4	1.9
Military personnel [1]	73.4	69.1	−4.3	−5.9	72.1
Civil Defense	.1	.1	([2])	+18.7	.1
Total	303.9	285.3	−18.6	−6.1	295.2

[1] These figures reflect the dollar impact of end strength provisions, pay raises, and other personnel matters, and are added to the total to reflect budget reality.

[2] The request of $119,100,000 was increased by $22,300,000.

Note.—$530,000,000 was transferrred from O&M to procurement. The transfer is explained in the O&M section of this report.

PROCUREMENT

Table 4 summarizes the committee's procurement actions by major category of weapons. As the table shows, the committee authorizes less for aircraft and ships in fiscal year 1986 than was appropriated in fiscal year 1985. Altogether, the procurement portion of the budget would grow only 2.5 percent in fiscal year 1986—the procurement authorization approved by the committee represents a real difference of about 2.1 percent compared with the procurement appropriations for fiscal year 1985. The administration had requested a real increase of 5.1 percent.

TABLE 4.—SUMMARY OF PROCUREMENT ACTIONS

[Dollar amounts in billions]

	Appropriation fiscal year 1985	Request fiscal year 1986	Percent Change over 1985	HASC fiscal year 1986	Percent Change over 1985	HASC change	Cut as percent of request
Aircraft	$41.0	$42.1	+2.7	$38.6	−6.0	−$3.5	−8.4
Missiles [1]	14.4	19.9	+37.8	17.9	+24.2	−2.0	−9.8
Ships	11.7	11.4	−2.8	10.8	−8.5	−.7	−5.9
Weapons and tracked combat vehicles	5.0	5.8	+17.8	5.5	+10.9	−.3	−5.9
All other procurement	25.0	27.6	+10.5	26.7	+6.9	−.9	−3.2
Total procurement	97.1	106.8	+9.9	99.4	+2.4	−7.4	−6.9

[1] Including Navy weapons.

Note.—Totals may not add due to rounding.

In one of its key initiatives, the committee directed a competitive procurement program for tactical fighters to begin in fiscal year 1986. The Air Force was directed to set a minimum number of F-16 and F-20 fighters that it would procure and then institute a competition for the remaining tactical fighter aircraft requirements among all suitable aircraft, to include the F-16 and F-20. In directing the competitive program, the committee specifically directed that the competition be carried out in accordance with all the procurement reforms recently enacted—such as those requiring competition in contracting, independent testing, and the development of independent cost estimates.

The executive branch has frequently criticized Congress for loading up the defense budget with "political" add-ons. On the other hand, the House Armed Services Committee has frequently criticized the Pentagon for neglecting the needs of the National Guard and Reserve. Table 5 demonstrates how those two concerns join head-on. As table 5 indicates, the House Armed Services Committee has increased the quantities requested by the Pentagon for nine different weapon systems. Seven of those systems, however, were specifically earmarked by the committee for assignment to the National Guard or Reserve—indicated by the notation NG in table 5. The explanations for the other two add-ons are contained in the footnotes to table 5.

TABLE 5.—PROCUREMENT QUANTITIES INCREASED BY HASC

[Dollar amounts in millions]

	Request		HASC	
	Quantity	Amount	Quantity	Amount
Chaparral (missiles/fire units)	300/0	$110.4	[1] 300/36	$197.4
Improved TOW vehicle mod	0	0	[1] 138	30.0
A-6E intruder	6	202.6	[1] 11	293.3
CX (C-20)	0	0	[2] 2	44.0
KC-130T	0	0	[1] 2	40.0
UH-60	0	0	[1] 4	25.0
M198 155-mm towed howitzer	35	21.0	[3] 60	32.0
C-130H Hercules	0	0	[1] 8	150.0
C-12 Huron	0	0	[1] 12	30.0
Total		334.0		841.7
Net increase from HASC action				507.7

[1] Increases assigned to the National Guard or Reserves.

[2] The Navy was planning to start from scratch to obtain a mediumsized passenger aircraft. The committee wants the services to use more equipment standardized across the services and here tells the Navy to use the Air Force C-20.

[3] The Marine Corps planned to buy 35 of these howitzers in fiscal year 1986 and 119 in fiscal year 1987. The committee added to the buy for 1986 to reduce the procurement spike in 1987.

The executive branch talks as if any additions to the budget are pure pork. I certainly won't deny that some add-ons have been prompted over the years by other than military merit. Contrary to the Pentagon's posture, however, that is not true of all add-ons. The job of Congress is to set priorities. One of our priorities has long been the Guard and Reserve. The Pentagon is run by the active forces and tends traditionally to neglect the Guard and Reserve. We are trying to counter that bias.

The committee directed the Defense Department to develop an equipment requirements document for the Guard and Reserve to pinpoint weapons shortfalls so that the Congress and Pentagon can approach this issue more rationally in the future and reduce the need for ad hoc add-ons by the committee.

Apart from the MX missile and AMRAAM missile, which were discussed earlier, probably the most controversial weapon system in this year's procurement budget was the Sergeant York Division air defense system

[Divad]. The committee reduced the requested procurement funding of $480 million for Divad by $197 million, and the quantity of 117 requested was reduced by 45. The committee, however, included language in the bill fencing the remaining money so that it cannot be spent until and unless the Secretary of Defense certifies that testing has demonstrated conclusively that the Divad "fulfills the performance specifications of the contract," and a warranty to that effect has been signed by the contractor and submitted to Congress. This warranty is in addition to the warranties required by current law.

The committee also strengthened the selected acquisition reports [SAR's]—which are the main vehicle for alerting Congress to potential problems in weapons systems. The SAR's have been trimmed in recent years to the point where they are mere snapshots, with little historical data showing cost and engineering changes in a weapon, and virtually no information of the costs of operating, manning, and maintaining weapons. The committee language requires that the data on the past be restored and on the future be added so Congress can take life-cycle costs into consideration.

SHIPBUILDING

The committee approved the Navy's request for authorization of 23 new ships and conversions of 5 others. It reduced the shipbuilding budget request, however, by $672.4 million or 5.9 percent.

The committee was able to achieve the bulk of this reduction without any cut in the number of ships authorized as a result of three factors:

Lower than anticipated inflation;

A highly competitive shipbuilding industry, which has produced lower than anticiapted bids for shipbuilding contracts; and

Prudent Navy management.

The committee wishes to emphasize the last point. While budget cuts often are indicators of the committee's displeasure with the progress of a weapon program, in this case the reduction should be taken as a compliment for the successful management of major programs by the current Navy leadership team.

As a result of the three points listed above, the committee located $437.6 million that had been appropriated in fiscal years 1981 through 1984 for shipbuilding that are not required to carry out the programs authorized in those years. That allowed a reduction of that amount in the 1986 budget request.

The committee points out that had the Navy not saved almost a half billion dollars in these ways, the committee would undoubtedly have had to delete one or more vessels from the Navy's shipbuilding request this year.

There's an old complaint heard in all executive agencies that Congress punishes you for saving money by chopping your budget. I want it known that's not what we're doing here. Good management is being rewarded by our preserving every ship the Navy requested.

The committee also took note that ship launching ceremonies have become major events in which lavish gifts are frequently presented. The committee, therefore, voted to place a limitation of $100 on the value of any gifts that Government employees—including members of Congress—or their families may receive at such ceremonies.

The committee required that half of all the major U.S. Navy ship repair work now scheduled to be done in Japanese shipyards in the next 3 years be shifted to American shipyards—excluding ships homeported in Japan. This would have the effect of moving $95 million of work to American yards.

REDUCTIONS AND TERMINATIONS

In reviewing the procurement requests this year, the committee made a conscious effort to reduce the number of production lines.

This was done by completely eliminating some production lines, by continuing others with a view to completing procurement of those items, and by deferring until later the start of a number of new programs.

Table 6 lists the 30 different procurement programs where the committee reduced procurement quantities to zero in fiscal year 1986.

This is a dramatic change from the past. For example, last year, the House Armed Services Committee killed only two procurement programs, for a savings of $136 million. While no history of program kills exist in the committee files, the committee believes that this year's action zeroing 30 programs for a total savings of $1.9 billion is almost certainly a record.

The largest program terminated, the AMRAAM, was discussed earlier.

The second largest termination was the P-3C Orion submarine hunter. The committee was disturbed by the soaring costs of the aircraft. Those bought through fiscal year 1985 had an average unit cost of $19.4 million, while the 1986 buy would cost $55.2 million each. The committee did authorize some funds for long-lead items in case the program can be satisfactorily restructured to allow for a cheaper subhunter aircraft.

The third largest program killed was the E-6A Tacamo [take charge and move out], which is designed to replace the EC-130 that now serves as an airborne platform for communicating with missile subs in the event of emergency. The Navy program would have the Congress fund all 14 production aircraft in the next 3 years—before the Navy has even completed the test the service itself says "will provide the basis for an assessment of the E-6A's operational effectiveness and operational suitability." This schedule effectively evades the testing policy established by Congress. The committee accepts the need for such a communications platform but the task is being done satisfactorily now and, according to testimony, can be performed for years to come with the existing equipment.

TABLE 6.—PROCUREMENT PROGRAMS REDUCED TO ZERO QUANTITY

[Dollar amounts in millions]

	Fiscal year 1986 request	
	Quantity	Amount
AMRAAM	90	$539.9
P-3C Orion	9	[1] 496.5
E-6A	2	400.2
10 different cartridge programs	23,852	152.8
Laser bomb guidance kit	2,575	103.7
VH-60 helicopter	9	[1] 102.8
MC-130H combat talon	1	79.5
AGM-130 powered GBU-15 tactical missile	97	[2] 48.5
Truck, forklift, 6,000 lb	250	26.3
Laser guided bomb kits	652	22.2
Semitrailer, low bed HET, XM1000	144	11.2
FMU-130 low drag bomb fuze	10,500	8.4
65-ton Crane	11	6.2
XM252 81-mm mortar	187	6.1
Motorcycle, GED, 2W, rough terrain	1,413	5.6
120-mm mortar	63	5.0
Charger, radiac detector	2,840	3.8
Fast attack vehicle	88	3.1
5.56 carbine XM4	4,685	2.8
Tactical dosimeter	5,543	2.4
Time activator, fin fuze [TAFF]	5,000	2.0
Total		1,931.4

[1] Some funds were approved for advanced procurement of long-lead components for aircraft in fiscal year 1987.

[2] $16 million of this request was approved, but no procurement of these missiles in FY 86 was authorized.

While the committee took a total of 266 actions in procurement, most of those were small. The bulk of the money was confined to a relative handful of programs. Table 7 lists the 10 largest reductions made in procurement programs; these account for $4 billion or more than 50 percent of all the reductions made in procurement.

TABLE 7.—LARGEST REDUCTIONS MADE IN PROCUREMENT

[Dollar amounts in millions]

	Request		HASC		Change	
	Quantity	Amount	Quantity	Amount	Quantity	Amount
MX	48	$3,180.2	21	$2,117.8	−27	−$1,062.4
F-16 Falcon	180	3,693.4	150	3,050.7	−30	−642.7
AMRAAM	90	539.9	0	0	−90	−539.9
P-3C Orion	9	496.5	0	81.6	−9	−414.9
E-6A	2	400.2	0	0	−2	−400.2
F-15 Eagle	48	2,224.4	42	1,918.1	−6	−306.3
Divad	117	480.0	72	283.0	−45	−197.0
LHD-1 amphibious ship	1	1,507.2	1	1,314.2	NC	−193.0
F-18 Hornet	84	2,849.6	84	2,743.0	NC	[1] −106.5
C-5B Galaxy	16	2,380.6	16	2,278.6	NC	−102.0

[1] Reduction achieved mainly by cutting advance procurement funds for 1987 from 102 to 84 aircraft.

Note.—These 10 reductions total $4,000,000,000 and exceed 50 percent of all the reductions made in procurement, including shipbuilding. N-No Change.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION [RDT&D]

The R&D request for fiscal year 1986 showed by far the largest per-

centage real increase of any title in the bill, as shown in table 8.

TABLE 8.—BUDGET AUTHORITY GROWTH IN MAJOR TITLES

[In billions of current dollars]

	Fiscal year			
			1985–86	
	1985	1986	Change	Percent real growth
Military personnel	68.9	73.4	$4.5	1.3
O&M	78.2	82.5	4.2	6.1
Procurement	96.8	106.8	10.0	5.1
RDT&E	31.5	39.3	7.8	20.1

In just 4 years, the RDT&E account has grown by 100 percent. There has been an increased emphasis on developing systems, rather than on technology. Each service shows a preference for developing unique equipment, even where the missions of two services are similar or even identical.

The committee is concerned that the R&D growth has been excessive and threatens to generate bureaucratic pressures for huge numbers of new weapon systems in the late 1980's and 1990's.

Mr. DICKINSON, the ranking minority member of the R&D Subcommittee as well as the full committee has said:

The committee is also concerned that the overemphasis on developing systems could tend to erode the technology base. American strength is in its innovative technology and this capability must be preserved.

Finally, the committee finds far too many development programs in the Defense Department with inadequate emphasis on joint programs to cut down on duplication.

Accordingly, and following the same philosophy demonstrated in the procurement area, the committee has eliminated a number of proposed new starts and terminated several existing programs in the early stages of development.

For example, the committee deleted all funds for the Navy and Air Force joint tactical information distribution system [JTIDS]—a reduction of $276.3 million—and added $150 million for a common JTIDS system.

The committee terminated the Air Force joint surveillance and target attack radar system [JSTARS], for a reduction of $260 million. This program was intended to develop an airborne battlefield radar for use in a Boeing 707. The committee believes there are other less costly alternatives for this mission. Additionally, the Defense Department has failed to comply with congressional guidance to develop a plan for a more survivable JSTARS platform than the Boeing 707.

After all actions, the committee cut the RDT&E request of $39.3 billion by a total of $5.1 billion or 13.1 percent.

The committee recommended that one Defense Department request be raised by 700 percent. The administration requested $25 million for the University Initiative Program; the committee authorized $200 million.

The number of American students enrolled in graduate schools has declined dramatically over the past decade, and university facilities and instrumentation are in many cases obsolete. Graduate students are not being exposed to the kind of high technology projects that are important to national security programs during their graduate training. The committee also wishes to see a better exchange of ideas and technology among universities, industry, and Federal laboratories. For these reasons, the committee dramatically increased the authorization for the University Initiative Program.

The committee also fenced $450 million in funding for the high-speed antiradiation missile [Harm] until the Secretaries of the Navy and the Air Force certify that Harm will work. The Pentagon should be getting the quality of weapons the taxpayer is paying for and stop tacking on additional payments so that contractors can make systems work the way they promised at the outset.

OPERATION AND MAINTENANCE [O&M]

While the O&M budget was cut by $1.8 billion, very few of the reductions will have any impact on military operations, in keeping with the committee's emphasis on maintaining military readiness.

For example, $530 million of the total cut, was actually shifted from O&M to procurement. The Defense Department had shifted funds from other procurement to O&M in its request as part of a proposal to allow local commanders to begin buying with O&M funds any article not centrally managed. Capital goods should be procured with procurement funds and operations should be paid for with operating funds. The Pentagon proposal violates this division and was rejected. The half billion dollars was shifted back to procurement.

Another $1.3 billion was trimmed from the budget as a result of: First, the fall in the price of the dollar—which makes purchases abroad cheaper—second, lower fuel prices since the budget was drafted, and third, revised calculations that show stock fund cash flow exceeding what is deemed necessary.

The sum of $290 million was eliminated from the request based on audits and investigations by the General Accounting Office and Defense Department auditors that pinpointed dozens of examples of savings ranging from better computer management to elimination of year-end spending sprees.

Another $32 million fell out as a result of the committee action denying the full additional end strength increases requested by the services.

The committee then made $451 million in cuts from requested program growth and added $318 million for program increases. A third of the program increases were dedicated to the Guard and Reserve.

In addition, about $475 million in personnel benefit increases—described in the next section—are funded in O&M.

The committee also wrote language allowing a role for Air Force Reserve special operations aircraft in Federal drug interdiction efforts. The tasks these units practice in peacetime to maintain readiness are the very tasks required to support drug interdiction efforts. The bill language allows us to kill two birds with one stone—maintaining readiness and aiding interdiction at the same time.

MILITARY PERSONNEL

The committee approved a pay raise for all military personnel of 3 percent to take effect on January 1, 1986. This is the same raise and date approved by the Senate Armed Services Committee. The administration had requested a raise of 3 percent effective July 1, 1985.

Even with the tight budget, we felt it was important to provide a pay raise for all the ranks.

As shown in table 9, the committee approved two-thirds of the end strength increases requested by the administration.

TABLE 9.—MILITARY END STRENGTHS

	Approved 1985	Increase requested	HASC	SASC
Army	780,800	0	0	0
Navy	571,300	15,000	10,000	10,000
Marine Corps	198,300	1,200	1,200	500
Air Force	602,100	9,430	6,430	4,400
Total	2,178,100	25,630	17,630	14,900

The strength increases the committee approved are associated directly with the manning of ships in the Navy and with force structure modernization in the Air Force—for example, such programs as the B–1B bomber, air-launched cruise missile, and ground-launched cruise missile.

As cited earlier, the committee made a reduction of $4 billion from the pay and pension accounts, and directed the Defense Department to draft language altering the military retirement program to conform to the lowered amount.

Military retirement is administered through a trust fund. Each year, the services pay into the trust fund an amount sufficient to cover the pension obligations taken on for the persons joining the military in that year. The trust fund, meanwhile, is paying out funds to current retirees.

The retirement reduction adopted by the committee will have no impact on anyone currently retired or cur-

rently serving in uniform. Benefits will be changed only for those who enter the service after the date of enactment of the new retirement program. The amount in the budget request for payment into the trust fund was $18.2 billion; therefore, the $4 billion reduction will equate to a reduction in benefits of about 22 percent.

The Pentagon was directed to submit its draft of new retirement legislation as quickly as possible for enactment by Congress. It was also directed to look at reform proposals that would have the effect of encouraging longer careers by service personnel.

While reducing retirement benefits, the committee raised benefits available to active-duty personnel. The bill includes about $1.4 billion in additional benefits, mostly for what are commonly called family programs. Half of the additional money will go to better compensate service personnel for the costs incurred when they are transferred from one installation to another.

The committee also voted to change the title of one-star flag officers in the Navy. For many decades, these officers were known as rear admirals—lower half. In 1980, this was changed to commodore admiral, and soon thereafter, to commodore.

The Navy objected that the term commodore is not standard, in that few navies use the title. However, a check of the NATO equivalent rank chart shows that of the 11 NATO countries with a one-star naval rank, 6 use the term commodore, 2 use the term contre admiral, while the remaining 3 use other terms. Germany uses Flotillenadmiral, Greece uses archipliarchos, and Turkey uses tugamiral.

While some consideration was given to identifying one-star U.S. Navy officers as tug admirals, the committee decided to return to the old standard American term, rear admiral—lower half.

CIVIL DEFENSE

The budget approved for fiscal year 1985 for civil defense was $181 million. The request for 1986 is $119 million—a reduction of one-third based on a new policy to shift those programs still 100 percent federally funded to a 50–50 matching basis with the States. The calendars of many State legislatures make it impossible for them to act in time. Therefore, the committee added $22 million to the request to allow adequate time for the States to convert to the new matching system.

DEPARTMENT OF ENERGY NUCLEAR PROGRAMS

The committee reduced the request of $7,959 million by a net of $241 million. The major change was the addition of $145 million to restore R&D work on the Inertial Confinement Fusion Program and $13.3 million to restore R&D work on the plasma separation process.

A total of $175 million in new and ongoing construction projects were deferred due to budgetary constraints. A few were accelerated: An instrumentation systems laboratory at Albuquerque, NM; and an environmental cleanup facility at Livermore, CA. The basic weapons research and development activities were preserved with no real growth.

CIVILIAN PAY

The House Armed Services Committee does not act on civilian pay raises. They are handled by the Post Office and Civil Service Committee. This bill necessarily includes the administration request for a 5-percent civilian pay cut. Any later action by the Congress to change that will automatically increase the authorizations provided in this bill.●

HOUSE OF REPRESENTATIVES—*Monday, May 13, 1985*

The House met at 11 a.m. and was called to order by the Speaker pro tempore [Mr. WRIGHT].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
May 9, 1985.

I hereby designate the Honorable JIM WRIGHT to act as Speaker pro tempore on Monday, May 13, 1985.

THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives.

PRAYER

Rev. Edward Gardiner Latch, D.D., L.H.D., former Chaplain of the House of Representatives, offered the following prayer:

You shall do that which is right and good in the sight of the Lord.—Deuteronomy 6:18.

Eternal God, our Father, on this day of days when we assemble with our former companions we pause in your presence to offer unto You the gratitude of our hearts, to receive the ministry of Your grace and to listen to Your quiet voice. You are ever calling us to live with You and to work for You to keep justice and freedom and good will alive in our world. Prosper us in our planning, encourage us in our endeavors, and strengthen us as we step forward for the good of our country and the benefit of the world in which we live.

We pray for our President, our Speaker, the Members of this body, past and present, and for all who labor with them on Capitol Hill. Together may they lead our people in right paths, toward great goals, by noble means, and doing it all with clean minds and pure hearts. To this end we commit ourselves to the guidance of Your spirit for the greater good of our Nation and the brighter benefit of all mankind. Amen and amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

RECESS

The SPEAKER pro tempore. Pursuant to the order of the House of May 9, 1985, the Chair declares the House in recess, subject to the call of the Chair, to receive the former Members of Congress.

Accordingly (at 11 o'clock and 4 minutes a.m.), the House stood in recess subject to the call of the Chair.

RECEPTION OF FORMER MEMBERS OF CONGRESS

The SPEAKER pro tempore (Mr. WRIGHT) presided.

The SPEAKER pro tempore. May I say on behalf of the House, and then I should like to recognize the gentleman from Mississippi [Mr. LOTT], to make such comments as he might desire, what a wonderful pleasure it is for us on this day of days to welcome so many of you whose faces are so familiar to us back into this historic Chamber.

You renew our youth as we look out and see you looking so well; you bring back many nostalgic memories, trips taken together, committee sessions held together, conference committees endured together, and so many wonderful memories of things that have gone on.

I understand today that you are honoring a former colleague, former Senator "Bill" Fulbright in a very special way.

I should like to express my own recollections about "Bill" Fulbright.

I first became aware of him when I was in the service in 1943, perhaps it was early 1944, when I was in Australia and would get the abbreviated edition of Time magazine.

I discovered that it was his penmanship that had reduced to an acceptable bit of language a commitment for the United States following that terrible war to accept its responsibilities in the world and not to walk away as it had done following World War I and refused to participate with the other nations of the world.

There had been a Ball and a Burton and a Hill and a Hatch and others who had tried to formulate language. I remember reading that "Bill" Fulbright, then a freshman Member of the House, as I recall, had succeeded in doing that and someone asked him, I think it was about a 25-word declaration that became bipartisan in acceptance, someone asked him how long it had taken him to write it, and Mr. Fulbright said, characteristically, in his somewhat philosophical way, "I think perhaps about 25 years."

Well, he spent more than 25 years among us as did others here and many, many things have happened as a result.

I welcome you on behalf of the House and our colleagues and I will yield at this time and recognize the gentleman from Mississippi, the acting minority leader, Mr. LOTT.

Mr. LOTT. I thank the gentleman for yielding.

Mr. Speaker, I would like to join on behalf of the Members on this side of the aisle in the House of Representatives, on behalf also of "BOB" MICHEL, our leader, who could not be here today, in extending a bipartisan welcome to our former Members who are here today.

It is good to see so many of you back.

I have done this on a couple of other occasions for our leader, and I have noticed that I am getting a little nervous, actually, because there are more and more of you here as former Members with whom I served, even though this is only my 13th year. I think about half of you here in the Chamber today I have had the pleasure of serving with. I do not know whether that is a message to you or a message to me.

But I will tell you, your ears should be burning because we have been talking a lot about you lately as we get into our various rigors of serving in the House of Representatives.

There are a number of us that somewhat look longingly at you when you come back and look rested, tanned, prosperous, and we wonder whether maybe there really is life after service in the House. That is a fleeting thought; do not mistake me at all. But some of us have been talking a little bit about this tremendous talent, some tremendous people on both sides of the aisle who have served in this House over the years and have gone on to other employment, other avocations in life. We would like maybe to call on you to help us with some of the prickly problems that we deal with in the House. Maybe as we look at trying to find ways to deal with such problems as contested elections or Rules of the House, maybe we could call back a gentleman like the gentleman from Arizona, Mr. Rhodes, or the former distinguished chairman of the Committee on Rules, Mr. Bolling; some of you gentleman could come back and help us confront these problems.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

Maybe we should have some former Members, some present Members, and some prospective Members who could sit with us and help us deal with these problems on House reform and contested elections, budget reform and maybe former Members in a bipartisan effort would help to remove some of the partisanship and could give us a clearer vision of where we have been, but more importantly where we should be going.

So we may be calling on you. Maybe through the Republican Research Committee, we may ask for a task force that would include people like Jerry Ford and John Rhodes and John Rousselot and Dick Bolling and others, to give us some guidance and some counsel of your past experiences.

I am pleased to be here on this occasion, to see good friends again, and thank you for what you've done in the past and warn you that we may be calling on you for the future.

We are glad to have you here, and we will look forward to visiting with you the rest of the day and in the future, and Mr. Speaker, the gentleman from Texas, I appreciate your yielding for my opportunity to participate in this activity today.

The SPEAKER pro tempore. I am going to ask the Clerk to call the roll of former Members of the Congress, but first I am going to ask if John Rhodes of Arizona might like to come and sit here. I remember he said once, on a famous occasion, "I've had my eye on that chair for a long time," and I remember Speaker O'NEILL said, "John, that's all you'll ever get on it."

Now, I wonder if you would like to come and sit here, John, and preside over this occasion.

Mr. RHODES (presiding). Mr. Speaker, I thank you for this great honor. Speaker O'NEILL did this a year ago, as you may recall, and he gave me the same quote which he had given me before, and he was absolutely correct. I have had my eye on this chair, and before long, I am going to put something else on it, thanks to you.

The Chair recognizes the gentleman from Mississippi [Mr. LOTT].

Mr. LOTT. Mr. Speaker, I would like to say what a great pleasure it is to see the distinguished gentleman from Arizona in that chair. It really seems to become him. He may want to reconsider and maybe rejoin his old ranks, but also to say that I hope that the gentleman from Texas will be so generous and make the same offer to me when he returns to the chair later today.

Mr. RHODES (presiding). The Chair directs the Clerk to call the roll of former Members of Congress.

The Clerk called the roll of former Members of Congress, and the following former Members answered to their names:

ROLLCALL OF FORMER MEMBERS OF CONGRESS ATTENDING 15TH ANNUAL SPRING MEETING, MAY 13, 1985

Hugh Q. Alexander of North Carolina;
William H. Avery of Kansas;
William H. Ayres of Ohio;
Lamar Baker of Tennessee;
Laurie Battle of Alabama;
J. Glenn Beall, Jr. of Maryland;
John Blatnik of Minnesota;
John Buchanan of Alabama;
J. Caleb Boggs of Delaware;
David R. Bowen of Mississippi;
Daniel B. Brewster of Maryland;
Charles B. Brownson of Indiana;
William T. Cahill of New Jersey;
Elford A. Cederberg of Michigan;
Charles E. Chamberlain of Michigan;
Don Clausen of California;
James C. Cleveland of New Hampshire;
Jeffery Cohelan of California;
Albert M. Cole of Kansas;
W. Sterling Cole of New York;
David Cornwell of Indiana;
James Coyne of Pennsylvania;
William C. Cramer of Florida;
Paul W. Cronin of Massachusetts;
David Dennis of Indiana;
William Jennings Bryan Dorn of South Carolina;
Michael A. Feighan of Ohio;
L. H. Fountain of North Carolina;
J. Allen Frear, Jr. of Delaware;
J. W. Fulbright of Arkansas;
Edward A. Garmatz of Maryland;
Harlan Hagen of California;
Robert P. Hanrahan of Illinois;
James Harvey of Michigan;
Wayne L. Hays of Ohio;
Jack Hightower of Texas;
Chet Holifield of California;
A. Oakley Hunter of California;
Roman L. Hurska of Nebraska;
August E. Johansen of Michigan;
Jed Johnson, Jr. of Oklahoma;
Walter H. Judd of Minnesota;
Horace R. Kornegay of North Carolina;
Theodore R. Kupferman of New York;
John V. Lindsay of New York;
Robert McClory of Illinois;
Ray J. Madden of Indiana;
George Meader of Michigan;
D. Bailey Merrill of Indiana;
John S. Monagan of Connecticut;
William S. Moorhead of Pennsylvania;
Thomas E. Morgan of Pennsylvania;
Frank E. Moss of Utah;
F. Jay Nimtz of Indiana;
Alvin E. O'Konski of Wisconsin;
Shirley N. Pettis of California;
James M. Quigley of Pennsylvania;
Henry S. Reuss of Wisconsin;
John J. Rhodes of Arizona;
J. Kenneth Robinson of Virginia;
John M. Robsion, Jr. of Kentucky;
J. Edward Roush of Indiana;
John Rousselot of California;
Fred D. Schwengel of Iowa;
William L. Scott of Virginia;
Armistead Selden of Alabama;
Carlton R. Sickles of Maryland;
Alfred Sieminski of New Jersey;
Henry P. Smith III of New York;
William L. Springer of Illinois;
Lynn Stalbaum of Wisconsin;
Roy A. Taylor of North Carolina;
John H. Terry of New York;
Herbert Tenzer of New York;
Charles A. Vanik of Ohio;
Charles W. Whalen, Jr. of Ohio;
Larry Winn, Jr. of Kansas;
Ralph W. Yarborough of Texas.

□ 1120

Mr. RHODES (presiding). The Chair would like to invite those former Members who did not respond when the roll was called, or whose names were not called, to go give their names to the reading clerk so that they may be included in the roll.

The Chair wishes to thank the other former Members of the House for their presence here today.

The Chair now recognizes the distinguished president of the U.S. Association of Former Members of Congress, the former Senator from Maryland, J. Glenn Beall.

Mr. BEALL. I thank the Speaker. I must say that the gentleman looks very natural in the chair.

Mr. Speaker, former Members of the Congress and sitting Members of the Congress, we are genuinely pleased to be back in the Capitol today, and we are highly honored that the majority leader, Mr. WRIGHT, and the minority whip, Mr. LOTT, and the Members who are on the floor this morning are sharing this occasion with us.

We are grateful to you Mr. Speaker, and to the minority leader, Congressman BOB MICHEL, for arranging this visit so that we can present, in person, the annual report to the Congress required by our Federal charter.

As you know, the U.S. Association of Former Members of Congress is a nonprofit, educational, research, and social organization. Launched 15 years ago by cofounders, Dr. Walter H. Judd, who is here with us today, and the late Brooks Hays, the membership is now more than 600. Each Member has served in either the U.S. Senate or the House of Representatives, and some have served in both.

When Congress granted a Federal charter to the association, it gave official approval to our purpose. Our main reason for being is to promote the cause of representative government by improving public understanding of the Congress, as an institution, and of democracy as a system of public life.

The association is bipartisan. We select one-half of our Board of Directors from Republican members and one-half from Democratic members. We also balance our officers in the same way and between the 500 former

House Members and the 100 former Senators who form the association.

We come from many places throughout the country. A good number of us are now active in business, professional, or other pursuits, but we continue to have one interest in common: The pursuit of ways to be of service to the institutions of a free society.

Let me assure the current Members of Congress that our association has not come back to Capitol Hill today on a recruiting mission. We wish you as long an active legislative life as you desire. But we promise, Mr. Speaker, to give a warm welcome and to provide opportunities for service on behalf of our country to any Member of Congress who chooses to join us in the future. For those who, like yourself, have announced or are contemplating retirement, we are ready to receive you with rewarding friendships and useful activities.

It is on those activities that I wish to report to you at this time. With encouragement from you and the chairmen of the two foreign policy committees, we have expanded our activities to include a liaison service in this country for members of foreign parliaments and other foreign dignitaries who visit the United States. This new service of the association, as combined protocol and surrogate host, is being funded by a 2-year grant of $135,250 from the Ford Foundation. We hope that the endeavor is the basis for lightening the burden of protocol on those who are already overburdened. At the same time this service makes it possible to extend a warmer welcome and to enhance the utility of visits from the members of legislative bodies of other nations.

I am pleased to report, and I know the Congress will be happy to learn, that our Congressional Fellows Program is growing in scope and content. This program makes available congressional alumni for brief visits to colleges and universities throughout the Nation. It provides both faculties and students with an insider's view, so to speak, of their government, and especially their Congress. Initiated over 6 years ago, the program is being warmly and widely received as an enriching educational experience. Visits have now been completed to 178 campuses in 49 States. These visits have been made possible by support from institutions such as the Charles Stewart Mott Foundation, as well as the universities and colleges themselves.

In previous years, our then presidents, Charles E. Chamberlain and Frank E. Moss, reported on the initiation of an international campus fellows program with a grant from the Ford Foundation. We began by bringing four former Parliamentarians—Alan Lee Williams of the United Kingdom, Georg Kahn-Ackermann of the Federal Republic of Germany, former Minister Alastair Gillespie of Canada and Dr. Jacques Soustelle of France—to participate in seminars at 20 of our colleges from coast to coast. During the present academic year, with support from the Rockefeller Foundation, we have programmed visits for an additional four parliamentarians from other democracies who will meet with American college students, faculty, and townspeople. Visits have been completed by Dr. Celio Borja of Brazil, Peter von der Heydt of Germany, and Karin Hafstad of Norway. A program is being set up for next fall for Harri Holkeri, a former member of the Finnish Parliament. These foreign legislators provide a resource heretofore unknown particularly on many of the smaller American campuses and they contribute to a greater understanding of other countries among students, faculty, and in local communities. On the reverse side of this coin, with financial support from the Exxon Education Foundation, the Japan-U.S. Foundation and other sources, we have also begun to send former Members to foreign campuses. Last year, for example, former Representative Catherine May Bedell and Senator Frank Moss visited a half-dozen campuses in Japan.

Mr. Speaker, I have here a list of the colleges and universities visited by our U.S. Congressional Fellows together with the names of the former members who were fellows at these campuses. I believe it would be of interest to the current Members of Congress, many of whose States and districts are reflected in the list. I am including it for the RECORD and also some of the comments we have received from the campuses as well as a list of the sponsors who have made our work possible.

COLLEGES AND UNIVERSITIES VISITED UNDER THE CONGRESSIONAL ALUMNI CAMPUS FELLOWS PROGRAM

COLLEGE/UNIVERSITY, STATE, AND FELLOW

Alaska Pacific University, Alaska, William S. Mailliard (California).

Albion College, Michigan, David S. King (Utah).

Albion College, Michigan, Ted Kupferman (New York).

Albion College, Michigan, Martha Keys (Kansas).

Alfred University, New York, Frank E. Moss (Utah).

Arizona State University, Arizona, Gale W. McGee (Wyoming).

Arizona State University, Arizona,[1] Jacques Soustelle (France).

Assumption College, Massachusetts, Gale W. McGee (Wyoming).

Atlanta University[2], Georgia, William Mailliard (California).

Atlanta University[2], Georgia, William Hungate (Missouri).

Auburn University, Alabama, William L. Hungate (Missouri).

Avila College[1], Kansas, Karin Hafstad (Norway).

Bainbridge Jr. College, Georgia, Gilbert Gude (Maryland).

[2] These were part of a set of visits to the Atlanta University Consortium.

[3] Pilot project funded by Exxon Education Foundation.

SAMPLE COMMENTS ON 1984 CONGRESSIONAL FELLOWS PROGRAM

"We were absolutely delighted with James Symington. We worked him hard, perhaps too hard . . . Comments I have received have all been positive. Faculty members found him well-informed, students found him to be an effective and personable lecturer . . . We look forward to participating in the program next year."—Eugene Bennett, Executive Director, Miami University-Middletown, Middletown, Ohio, March 29, 1984.

"Having Pete McCloskey on our campus was a most enriching experience for us. The faculty and students have all expressed how important and positive his visit was for everyone . . . His insights into the Middle East were also appreciated. He provided a rare opportunity for Kansas State University students to learn and interact with someone with a wide range of political experience."—Naomi B. Lynn, Professor and Head, Department of Political Science, Kansas State University, Manhattan, Kansas, April 23, 1984.

"I also want to add my personal commendation for the remarkable leadership which Catherine Bedell gave to this seminar group. The students were overwhelmed with her as a person and impressed with her knowledge of the workings of government, the global issues of trade and international relations, the role of corporations nationally and internationally, the domestic issues such as gender bias. She gave herself to the group totally, and they exploited her intellectually and personally with endless questions and discussion."—Mrs. Audrey E. Maehl, Associate Director, Scholar-Leadership Enrichment Program, The University of Oklahoma, Norman, Oklahoma, May 9, 1984.

"I should like to express the appreciation of the various academic programs of the University of Alaska, Anchorage for Judge Hungate's stimulating exchanges with students and faculty during his visit as a Congressional Fellow last month. The opportunity to listen to and talk with a legislator of his deep experience gave life to the processes of the U.S. Congress, the judicial system, and political life in general."—Dr. John A. Brownell, Vice Chancellor for Academic Affairs, University of Alaska, Anchorage, Alaska, May 17, 1984.

"Martha Keys, our first 'Politician-In-Residence' at St. Norbert College, was largely responsible for our program being so very successful in its first year. She also participated in our Model Congressional session which we sponsor for Wisconsin high school students. Her in-depth knowledge on some of the significant issues of the day, warm personality, rapport with students and faculty and general professionalism were the key ingredients for success during her visit."—Dr. David G. Wegge, Assistant Professor of Political Science, St. Norbert College, DePere, Wisconsin, May 24, 1984.

"We had an excellent visit from Mr. John Rhodes last week on this campus . . . Feedback from the visit has been very favorable from both faculty and students. Mr. Rhodes provided us with new and important insights on national politics, especially the Congress. We really had an enjoyable time, and we hope he did, too."—Kenneth T. Palmer, Interim Chair, University of Maine at Orono, Orono, Maine, October 1, 1984.

"Students, faculty and staff enjoyed and learned from Gale McGee's visit, and join in sending thanks to you and him . . . It was very useful. He captivated the class and held their interest. I heard students discussing his talks afterwards. His synopsis of 50 years of American foreign policy was very helpful to students. We should definitely invite another former Member of Congress lecturer."—Douglas Kelley, Assistant to the Provost, the University of Michigan-Flint, Flint, Michigan, October 18, 1984.

Together with the Atlantic Council, the association has sponsored a bipartisan study of the Nation's foreign policy machinery. Former Senator and Secretary of State, Edmund S. Muskie has served with Ambassador Kenneth Rush as cochairman of the study. A bipartisan group of our Members joined with former Secretaries of State and other former executive branch officials, and prominent scholars in government affairs to undertake this nonpartisan examination. The results of the study which was codirected by Frank Valeo, former Secretary of the Senate and the late Dr. Francis O. Wilcox, with Kenneth Thompson as rapporteur, have just been published in a 20,000 word report. Copies of the report and recommendations will be made available shortly to the executive branch, the Congress, and the public.

The association's participation in the study was made possible by grants from the Ford Foundation, the Lilly Endowment and other sources.

A comparative study of the German Bundestag and the U.S. Congress described in our earlier reports to this body is now nearing completion. The concluding conference will be held at Wingspread, the Johnson Foundation Conference Center near Racine, WI, in September of this year. The final work will be published in the languages of both countries, as was done with our widely distributed comparative study of the Japanese Diet and the U.S. Congress several years ago. This project has been supported by funding from many sources including the German Ministry of Research and Technology, the U.S. National Endowment for the Humanities, and the Friehrich Naumann Foundation of the Federal Republic of Germany.

Our international activity has increased very rapidly, with requests coming from both governmental and private institutions here and abroad to conduct studies or to help facilitate exchanges. Many of these relate to successor generation legislators in numerous countries and involve young government leaders. In short, Mr. Speaker, the association is now an instrument for the transmission of knowledge and democratic values, not only to young people on campuses and elsewhere in our own country and abroad, but also to younger legislators and other political leaders around the world. I might note, too, that the association has begun to establish liaison with counterparts in other countries. Our interaction with them is developing very fruitfully. The Italian and German associations, for example, are now part of a network of seven such associations in Western Europe, including Austria, Belgium, France, Switzerland, and the United Kingdom.

Following visits to Brazil during this past year by Bob Griffin of Michigan, Bill Mailliard of California, Gale McGee of Wyoming, and Frank Moss of Utah, a Brazilian former parliamentarians association was formed with several hundred members and is beginning its work from offices in their National Congress Building. And a resurgent association is now becoming active again in Argentina opening the possibility of an early formation of a Latin American network of such associations. At this moment, our colleagues Bill Mailliard and Gale McGee, both former Ambassadors to the Organization of American States, are in South America where they have been in contact with the Brazilian and Argentine associations and are meeting with current legislative leaders to help develop programs which will strengthen the restored democracies in those countries and in Uruguay.

Last month it was my pleasure to chair our third annual conference in Salzburg, Austria, between a bipartisan delegation of young Members of the U.S. Congress and a delegation of young members of the German Bundestag representing all the parties in that body. The subject was "Domestic and International Economic Policy Issues." To date, 28 current Members of the Congress have taken part in these conferences which are supported by the German Marshall Fund of the United States, among others. In commenting on the experience, one of the young Members of Congress has written:

The entire occasion was very educational and has given me a much better understanding of many of the mutual concerns of West Germany and the United States, as well as

an understanding of the German parliamentary system.

I can assure you that the benefit for Bundestag members has been just as great.

This year, Mr. Speaker, we hosted 20 young German political activists, some of whom may become future members of the German Bundestag. In a program sponsored by the Presidential Youth Exchange Commission, we gave these young Germans a unique and extremely valuable exposure to the American political process. During the month before the election of 1984, they spent one-half their time observing the closely fought Senate race in the State of Illinois. Following this, they witnessed congressional contests in Missouri, Indiana, and Wisconsin.

□ 1130

Mr. Speaker, to bring this report to a close, I should like to call your attention to a number of colleagues, most of whom were known to you, who have passed away since our last meeting in this Chamber. They served their country in their time and they will be sorely missed. And I would like to read the list of our departed colleagues at this time.

E. Ross Adair, Indiana; George D. Aiken, Vermont; Wayne N. Aspinall, Colorado; Howard M. Baldridge, Nebraska; J.H. Bottum, South Dakota; James A. Burke, Massachusetts; John W. Byrnes, Wisconsin; Louis J. Capozzoli, New York; Frank L. Chelf, Sr., Kentucky; Earle C. Clements, Kentucky; Harold D. Donohue, Massachusetts; Sam J. Ervin, Jr., North Carolina; Edwin D. Eshleman, Pennsylvania; Melvin H. Evans, Virgin Islands; Elizabeth P. Farrington, Hawaii; Homer Ferguson, Michigan; George A. Goodling, Pennsylvania; George M. Grant, Alabama; P.W. Griffiths, Ohio; Cecil M. Harden, Indiana; James C. Healey, New York; Louis B. Heller, New York; Frank E. Hook, Michigan; Craig Hosmer, California; Glen D. Johnson, Oklahoma; A. Paul Kitchin, North Carolina; Henry Cabot Lodge, Massachusetts; J. Carlton Loser, Tennnessee; Ernest W. McFarland, Arizona; Martin B. McKneally, New York; William H. Meyer, Vermont; George P. Miller, California; Charles A. Mosher, Ohio; Ralph J. Scott, North Carolina; Keith G. Sebelius, Kansas; Tom Steed, Oklahoma; Katherine St. George, New York; Glen H. Taylor, Idaho; William M. Tuck, Virginia; John Bell Williams, Mississippi; Charles H. Wilson, California; Chase Going Woodhouse, Connecticut; Milton R. Young, North Dakota; and Stephen M. Young, Ohio.

I would suggest that we now have a moment of silence in memory of these departed brethren, Mr. Speaker.

[A moment of silence was observed for departed Members.]

It is time now to make a very special presentation. Each year, the association's board of directors selects a person who exemplifies the spirit of the Congress and honors that person for a distinguished contribution to the Nation through service in the Congress. These awards are alternated between the parties and it is testimony to the vitality of our system that each of our parties provides many outstanding persons whose service can be regarded, readily, as worthy of such recognition. In today's presentation, it falls to me to honor a member of the other party. I do so with the deepest personal pleasure. We were colleagues in the Senate and I might add that our honoree came to the House in the same class with my father in 1943.

Much of his service in the Senate involved the Nation's relations with other countries. Even before the end of World War II, he sensed the great need for a durable peace and lent his energy and intellectual richness to the building of international institutions and activities which might contribute to that end. His name attaches to a great pioneering program of international exchange. Under that program, thousands of American scholars have gone abroad and have brought back, to share with the Nation, a deepened understanding of other cultures, their achievements in the arts and sciences and other human pursuits. And out of that gathered experience has come an enrichment of the life of this Nation. Similarly, foreigners have come to this country, learned about our strengths and shortcomings, our achievements and hopes. From this exchange program, in short, has come a continuing contribution to mutual enlightenment, tolerance and respect between ourselves and other nations, which, in the end, resides the hope for durable peace.

As chairman of the Senate Committee on Foreign Relations, he made that body a source of profound consideration of the great issues of foreign policy which confronted the Nation during the Kennedy, Johnson, Nixon, and Ford administrations, from the Cuban missile crisis to the war in Vietnam.

Yet for all of his concern with the Nation's survival and progress in a changing world, he never forgot his roots, his deep ties to the people. To a State which has had more than its share of deprivation and impoverishment, he brought a strong conviction of the power of education to change things for the better. By the same token, he brought his background as an educator into his long service in the Senate and helped us all to understand more clearly what confronted the Nation in an uncertain and changing world.

Mr. Speaker, and members of the Association of Former Members of Congress, and Members of Congress, it is a great honor and a great privilege to present the Association's 1985 Distinguished Service Award to Senator J. William Fulbright of Arkansas.

The SPEAKER pro tempore. The Chair recognizes the distinguished Senator from Arkansas, J. William Fulbright.

Mr. FULBRIGHT. Mr. Speaker, and former Members and Members, this is a very unexpected, I mean, unexpected 2 or 3 weeks ago, honor for me. All the time I was in the Congress I do not believe I ever heard such a nice speech made about me.

I am a little nervous, you know, when he kept calling that roll I kept wondering whether my name was going to be on it; those who had departed. Because I am getting a little old, too, as you probably may have heard. My poor wife, the one thing I regret about this day, it is a wonderful day for me, is that she is too ill to be here or to participate in it.

As I recall, the names which have been mentioned here, and as I see some of them here, naturally makes me want to reminisce, it was 42 years ago that I came to this House. I came very green; I had never served in the legislative bodies of my State. I had been a professor and an administrator at the university, et cetera, and it was a new experience, and I must say that I was overcome with curiosity and elation and excitement. It was a wonderful cultural shock to me coming from Fayetteville, AR, which was a rather small town at that time; it still is rather small. I had never been out of Arkansas until I had a scholarship abroad. So I knew very little until I came back.

It was a wonderful experience; that first year, when I was introduced to the various Members. In those days, we were told that it is better to be seen and not heard, and you were not supposed to make much noise.

I remember Clare Booth Luce, who came in the same time I did with a great reputation, and a very glamorous and attractive woman. She made a speech, a very violent speech, we thought, Democrats did, attacking Henry Wallace. I forget what it was, but she coined the word "globaloney"; it made a great impression.

I was talking to one of the senior Members, Luther Johnson from Texas, and I said, I thought that somebody ought to respond. I said, a senior Member, it was beneath his dignity to respond. Maybe as a freshman Member, because she had just come in the same day I had, it would be appropriate for me to respond. He said, "That is a good idea." So he encouraged me. I did respond; and, of course, she took me up right away on the misuse of the word "infer" as opposed to "imply." It demolished my speech because I did not use the language properly.

That made the headlines in Time magazine, which, as you know, was published by her husband. So I never did get a very good shake out of Time magazine from then on. But it was a great introduction, and mention was made of that by Jim of the short resolution. That was the first resolution I introduced.

I had been assigned to Foreign Affairs; in those days, it was that everybody recognized that was a very risky assignment. That is the last thing you want to get on if you want to stay in Congress.

Wilbur Mills was here then, and many of you served with him. He is still around. He was on Ways and Means and he had a good deal to do and, of course, I could not get on Appropriations or Ways and Means or Agriculture. He said, "You can get on Foreign Affairs; nobody wants to be on that because you do not last very long if you stay paying attention to foreign affairs."

Anyway, I took it, and out of that, those hearings were on lend-lease. I hope you will not mind if I reminisce a bit but many of you have forgotten about lend-lease. That was a big issue, and it was a lot of money, we thought, in those days.

I asked the question, and I did not get to ask a question very often because the time ran out in our hearings, Sol Bloom from New York was chairman, and he did not think freshmen ought to take up much of the time of the committee, either, but I asked him, "What are we going to get out of lend-lease?" and they could not say very well. They did not expect it to be repaid because after World War I it had not been. Those were war debts.

Anyway, that idea sort of prompted me to try that little resolution, which was adopted. Speaker Rayburn was very sympatheic. I must say, I never could be very partisan because Jim Wadsworth from New York, and Doc Eaton from New Jersey, both Republicans, they were the senior Republican Members, and Frances Bolton from Ohio. Some of you may remember Frances. She was an outstanding woman. They encouraged me. Sol Bloom, the chairman, thought it was presumptuous of a young freshman Congressman from Arkansas to offer any amendment, but Jim Wadsworth, it sort of tickled him. He was from New York, too. He had been a Senator, if you all remember, and he was defeated. He was one of the few examples like that, like CLAUDE PEPPER. By the way, CLAUDE PEPPER was my professor back in the 1920's. I will bet none of you knew that and CLAUDE is older than I am, I guess. He is the only one I can think of who is, around here. But I had a law class with CLAUDE PEPPER. Think of that. Good Lord, that is 60 years ago.

Jim Wadsworth and Doc Eaton both encouraged me. I think Jim did it because he wanted to devil old Sol Bloom, who was from New York City and was chairman, as usual. The House was Democratic then, as it still is, and Sol Bloom was not very popular with the Republican Members, as I assume they never are. But anyway, those two men helped me very much. They took sort of an interest in this young freshman and helped me. Of course, at that time there were a lot of people you may know. You have already mentioned Brooks Hays and Walter Judd, the two founders of this body. I may say that in those early days, I think at that time I took out a life membership. When I look back on it, I did not know I was going to live so long and it was a good investment. I advise all of you to take out a life membership. It is better than any other investment you can make. But it worked out very well.

Rayburn was very friendly. They all were. It was better than going to a college fraternity. It seemed to me they all wanted to be helpful in a constructive way, and I enjoyed it no end.

Mr. Speaker, I made a speech which I am not going to bore you with, but I would ask your indulgence to take excerpts from it, about Congress, one of the first public speeches I made away from this body, at the University of Chicago. I will include as part of my speech just three or four paragraphs for the RECORD, but I do not want to read it because it only tells you how good you are and important this House is, which I still think, but what I find remarkable about it is how early in my career in the Congress did I recognize how important the Congress is.

The speech excerpts follow:

The legislator is an indispensable guardian of our freedom. It is true that great executives have played a powerful role in the development of civilization, but such leaders appear sporadically, by chance. They do not always appear when they are most needed. The great executives have given inspiration and push to the advancement of human society, but it is the legislator who has given stability and continuity to that slow and painful progress.

The legislator may not often give us the inspired leadership which is necessary in the crises of human affairs, but he does institutionalize, in the form of law, those measures which mark the slow lifting of mankind up from the rule of tooth and claw. Like the stop on a jack, the legislator may not elevate our civilization, but he does prevent our slipping back into the tyranny of rule by brute force. Many Americans are impatient at the lack of vision and initiative of the Congress, but they should not forget that it is the Congress that stands between their liberties and the voracious instinct for power of the executive bureaucracy.

An important responsibility of the legislature is to provide a check upon the tendency of the executive power of the state to become arbitrary and oppressive. It is not a mere coincidence that Hitler and Mussolini had the greatest contempt for legislatures and politicians. I am not sure that Stalin has a profound respect for his legislature. The legislature elected by the people is an indispensable adjunct of any system of self-government in which the freedom and integrity of the individual are of paramount concern. A state may become powerful under a dictatorship, but the people are oppressed. A properly functioning legislative body restrains the arbitrary power of the state. It permits the development of a climate in which the genius of individual human beings can flourish. For short periods in history, benevolent monarchs have fostered the arts and the humanities in small areas of the world, but invariably the power of the state falls into incompetent or tyrannical hands, and civilization disintegrates. With an effective legislature, there is a continuity of policy, which may not always be as enlightened as we might wish it to be, but it is never so oppressive as the naked executive power usually becomes.

When you read the polls today, the way they rate who is doing a good job as between the executive and the Congress, it sort of distresses me so much how ignorant our populace is, or whoever it is who answers those polls, because there is no comparison in the approval rate between the executive and the Congress, which is just exactly wrong if we wish to preserve a democratic system.

So I rather like that speech because it emphasized that. I made it within 2 or 3 years after I came into the Congress. So I think it would be appropriate if it could be included. The main thrust of it is, it really is the Congress, and the House of Representatives especially, and the Senate, that here we have them both, to provide stability and continuity to our Government. If we are really interested in preserving freedom, as we say we are, those are the most important bodies because they institutionalize in the form of laws the protections of our liberties and freedom.

Throughout history, the executives, and not just here, I mean in all countries, have tended, if there is oppression, it originates with the efforts of the executive to impose their will. So apparently the American people, at least those who respond to polls, do not recognize quite the significance that the institution of the Congress plays. They ought to be educated.

Unfortunately, television does not lend itself as well to the representation of a body of 535 Members as it does to the individual. Television seems to personalize everything and it is difficult for a House of this body or the Senate or together to use it. I introduced legislation that never got anywhere in the Senate, to provide for equal time for the Congress, the executive, the President, that whenever he takes 30 minutes of prime time, or whatever he takes, the Congress would be entitled to it. They got in a wrangle in the hearings, who is going to provide it, and so on, and I said, "Well, leave that up to the body. They work

out their differences in conferences on other very controversial issues. Why could they not do it in this if you give them the opportunity and the incentive to do it? I think they could."

But anyway, all the television people, of course, opposed it. They had a lot of influence with the Members, and it did not get anywhere. I still think it is a good idea. I think some spokesman of the Congress ought to be able to use the same amount of free public prime time as the President does to keep the balance between the two. I am not trying to abolish the executive, but I just think that because of the appeal of television, it is tending to get out of balance more than it used to be.

But I think the Congress really has, out of all these Members here, you all know them, a greater diversity and I think originality, and many of the best ideas originate in the Congress. They have in the past and they will in the future, and its importance ought to be significantly increased and the people ought to be made to recognize how important it is. I know that what they tend to do is—obviously they approve of their own Congressman—but they tend to make a difference between the way they respect their own Congressmen and Representatives and the body as a whole. Why this is true I am not quite sure. It is not clear to me other than I have tried to think about it with regard to television.

But I have seen these polls that give the rating of Congress way down, which is really very distressing.

I do not wish to take too much time. I forget about the 5-minute rule, but I want to just mention and emphasize a little further one of the things that Glenn Beall, one of my old friends, mentioned, because the legislation originated in the Congress. The executive did not even know about it when it was introduced in the Senate on the exchange program, and the preservation of it has entirely been provided by the Congress.

Two or three times there have been efforts made either to reduce it, eliminate it, or to politicize it, and the Congress has come to the rescue. Even within the last 5 years there was a suggestion made from the executive to reduce the amount by about 50 percent. It was the Congress, the House and the Senate, who preserved it and who have, in fact, increased it.

I just want to emphasize that when you think of the amount of money that is being spent for our security, as they call it, the arms race, some $300 billion, and compare it with the cost of this program, which has been going now for nearly 40 years. It was introduced 40 years ago this year, the legislation was. It did not actually get into operation because there were various administrative tangles and questions that had to be resolved. So the first students who went away were assigned to China, which was the first government we made the agreement with. This was before the revolution, before we broke relations in 1949.

But during that period there was roughly, in round numbers, 150,000 to 200,000, depending on certain marginal cases there, but approximately 50,000 Americans and 100,000 foreigners. The total cost of that program since the beginning, and I do not know how you evaluate the original funds because they were all IOU's growing out of the sale of surplus war property.

□ 1150

So they were not convertible into dollars, and the experience of the First World War is that they were forgiven, the First World War debts. So I do not know how you evaluate them. If you give them a value of approximately what they were, still the total cost in the nearly 40 years would not buy one submarine, maybe about a half of a submarine.

When you are thinking of your security alone, forgetting for a moment the intellectual aspects, the professors, and so on, in these countries that are important in international security, our former allies and our former enemies, you have some of the very important and coming influential citizens. In their governments you will find them, and especially in their universities and in journalism, in any walk of life, because just now, after 30 years, they are beginning to arrive at what you call midcareer where they are influential, just as Members of this body are. There are some Members in this body, and you will find it the same in all the countries of Western Europe, and especially Japan. And the interesting thing is that the two principal enemies in the last world war of 40 years ago, the Germans and the Japanese, are the two principal supporters outside of the United States.

This has made a great impression on both of them, and I think it is more than a coincidence that it is these two countries. If you recall, the Germans in the First World War were monsters. Many of you will maybe not remember that, but in the publicity, although we did not have television, they were the Huns who devoured babies for breakfast. I mean they were real monsters, we thought. And in the Second World War, we thought the same, even more maybe, of the Japanese, these people who had no respect for life, with their kamikaze pilots and Pearl Harbor, et cetera. You know what we thought about them.

These two countries now—and I think this program has had much to do with it—are the principal supporters. Two years ago, I believe it was, the Germans gave about three times as much for the Fulbright program in Germany as we did. The Japanese Government equally matches it, plus private donations are considerably more than here. As a matter of fact, 29 of the foreign countries now contribute their own funds to supplement and support what we give. It is almost as much as we give overall, not quite. But it keeps the program multinational, and it shows their interest in it and the people that have influence. There are friendly people in positions of influence.

I submit, purely on the matter of security, if you like, it is much more helpful to the country to have a hundred thousand understanding friends than it is to continue to pile up more and more armaments. But that is a very controversial issue, and I know it. I am only mentioning it, not trying to make it an issue this morning but to consider it, because people tend to consider this type of program purely from the educational aspects. It is not that we are against education, we are all for it. But it has implications—as Miss Luce will agree, whether it is an implication or an inference, one or the other—for much greater profit and much greater benefit for the amount invested in it than anything you can mention. But we have not put really very much money in it. So I think that it goes to the root of the problem.

Lord Grace said after World War I that "the great nations are always making mistakes because they don't understand each other's psychology." And that is true. We thought the Germans were monsters; now they are friends. The President has just been there. We thought the Japanese were monsters; now they are friends. Now we are presently engaged in this same relationship with the Russians. They could be dangerous. We think they are monsters, and our television and our journalists whip it up and they get worse every day. It feeds upon itself. It is the nature of this kind of an animosity that develops.

I maintain that there is no good end to that type of approach or activity. Whatever you may think of them today, you do not want to have a nuclear exchange. We all agree on that. What do you do about it? I am only suggesting that one of the things you do is to understand them and they understand us, to learn to know their psychology and they will understand ours, and there may be a basis upon which you can have some agreement.

So it is that Congress that deserves the credit for this type of approach. As Glenn Beall has said, the former Members are doing the same thing in a little different context. The only thing is they are approaching it from the nonacademic aspect, in the nonacademic field, but they are seeking to accomplish—and I think they are—the same thing.

Well, I have taken more time than I used to get in the House. I took advantage of your allowing me to reminisce. I only want to say again how much I appreciate it. It really is an unexpected pleasure because I have been out now for quite a long time and I thought people had forgotten all about it. But I am deeply indebted to the former Members for this honor. It is the greatest honor I have had because it comes from our peers.

Thank you very much, Mr. Speaker, and thank you much, the former Members.

[Applause, the former Members rising.]

Mr. BEALL. Mr. Speaker, to show that he truly is remembered, I would like to add to Senator Fulbright's collection a collection of letters from sitting and former Members of Congress showing their respect and admiration.

[Applause.]

Mr. BEALL. Mr. Speaker, one final item will conclude this 1985 report to the Congress by the U.S. Association of Former Members of Congress. And that is to announce the transfer of the leadership of our association, as is our practice every year. Former Congressman James M. Quigley of Pennsylvania, will officially take office in July and be our leader for the next 12 months. I can assure him—as he must already know—that he will have the support of all the members of our association.

I am sure that it will be a fulfilling and enriching experience for him. I might say that he will also have the assistance of a skilled and devoted staff, including our executive director, Jed Johnson, Jr., himself a former Member of Congress, our faithful secretary-manager, Dorothy Bageant, staff assistant Leslie Weaver, and Judy Allen, as well as Deputy Director George Agree and consultants, Francis Valeo, and Gerald Livingston.

Mr. Speaker, I have one other thing, a housekeeping announcement. I should remind the members of the association that after we leave here, we will move to the ninth floor of the Hart Building, which will be a new experience, I am sure, for a lot of us because it is the latest addition to the Senate side of the Capitol. We will have lunch on the ninth floor of that building at 12:30, and we will hear from the majority leader of the Senate, Senator ROBERT DOLE of Kansas.

I would point out also that for this afternoon's program, which is foreign policy briefings led by counselor and former Member Ed Derwinski, the room has been changed. If you do not have a new green sheet, you should make note of the fact that this meeting beginning at 2 o'clock will be held in room 106 of the Dirksen Senate Office Building. Otherwise everything remains the same.

We will also have our reception this evening from 5:30 to 7:00, again on the ninth floor of the Hart Senate Office Building. So we will meet again at 12:30 at the Hart Senate Office Building for our lunch.

Mr. Speaker, this concludes our annual report to the Congress. We thank you and every Member of both bodies. The welfare of our country and, in a large degree, of the world is in your hands. We support you in the faithful discharge of your responsibilities.

Mr. Speaker, I conclude by inserting in the RECORD a list of those sponsors who make our programs possible.

SUBSTANTIAL CONTRIBUTORS TO THE ASSOCIATION OF FORMER MEMBERS OF CONGRESS

Mr. RHODES (presiding). I thank the gentleman from Maryland. On behalf of the association and its members, I want to express the appreciation of all of us for the fine service given by the gentleman from Maryland in his tenure as president of the association. He has indeed done an outstanding job. He deserves and has the appreciation of all of us. [Applause.]

Jim Quigley, we welcome you and will welcome you in July to the august position now held by the gentleman from Maryland, and we promise you our undying support throughout your tenure. We are sure it will be successful.

Now, before terminating these proceedings, I do want to suggest again that if any of you did not hear your names called, you check with the clerk to make sure that your presence is recorded so that the world will know that you attended these proceedings. I want to personally wish you all good luck, and, of course, we will be seeing a lot of each other for the next several days, and I will welcome that.

On behalf of the Speaker, the Chair announces that the House will convene at 12:15, and, without objection, these proceedings will be terminated and the meeting of the U.S. Association of Former Members in the House Chamber will be adjourned.

Accordingly (at 11 o'clock and 58 minutes a.m.), the House continued in recess until 12 o'clock and 15 minutes p.m.

□ 1210

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore at 12 o'clock and 15 minutes p.m.

PRINTING OF PROCEEDINGS HAD DURING RECESS

Mr. LOTT. Mr. Speaker, I ask unanimous consent that the proceedings had during the recess be printed in the RECORD and that all Members and former Members who spoke during the recess have the privilege of revising their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

EQUAL TREATMENT FOR VETERANS' COMPENSATION AND PENSIONS

(Mr. MONTGOMERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MONTGOMERY. Mr. Speaker, veterans' compensation and veterans' pensions must receive the same treatment in the fiscal year 1986 budget as those receiving Social Security benefits.

You can't grant a Social Security cost-of-living increase and then deny that same COLA to the veteran who is paralyzed from the neck down from a wound received in Vietnam.

Mr. Speaker, most veterans' organizations will support whatever Congress does on COLA's, as long as the veterans are treated the same as Social Security recipients and other Government pensioners.

CENTRAL AMERICA: A DOSE OF REALITY

(Mr. GONZALEZ asked and was given permission to address the House for 1 minute.)

Mr. GONZALEZ. Mr. Speaker, after our recent vote against sending aid to the Nicaraguan Contras, Nicaragua's President Daniel Ortega flew to Russia to request economic aid for his ailing country. Some people were surprised by this move by President Ortega, and they are angered to the point of drafting new legislation to provide so-called humanitarian aid to the forces fighting Mr. Ortega's government. But that aid to the Contras was wrong in the past, and it is wrong now.

The Rio Treaty prohibits the use of aggression by one signatory country against another signatory country. The United States has signed the Rio Treaty, and so has Nicaragua, yet we have used aggressive force against Nicaragua in violation of the Rio Treaty, a government which President Reagan recognizes and with which he maintains diplomatic relations. The Nicaraguan Contras are fighting against this elected government of their country, and our administration and others in Congress continue to fight for aid to help these Contra forces overthrow the Nicaraguan Government. It defies logic that the United States would at the same time recognize the very government it seeks to overthrow.

In addition, the war that the Contras are fighting is by guerrilla warfare; in other words, terrorism. This is the same terrorism that our President repeatedly denounces when it is conducted against our country; yet he wants to justify the use of terrorism when it is against Nicaragua. The use of terrorism is not detached and clean and technical; it is dirty and gruesome and tragic. Terrorism is kidnaping, it is rape, and it is dismemberment; it is murder, plain and simple, and I for one do not want our country to be a party to illegal terrorism against a government recognized by our own government as the head of Nicaragua. It is wrong to aid the Contras in this illegal terroristic endeavor.

But I hear my colleagues coming forward now to support so-called humanitarian aid to the Contras—as if this would not promote terrorism and somehow transcends the illegality and immorality of the war against Nicaragua. If we help the Contras in any way, we ourselves are committing rape and dismemberment and murder. The blood they draw is on our hands.

There are peaceful means of settling the unrest in Central America, and the United States has pledged to other countries in the United Nations and the Organization of American States to pursue these peaceful means. But so far, the United States has reneged on its promises, and we must be held accountable. The American people will hold the President accountable when the atrocities we have committed in Central America and, I fear, will commit in Central America, come to light.

□ 1220

LET US TAKE THE SOCIAL SECURITY TRUST FUND OUT OF THE BUDGET

(Ms. OAKAR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. OAKAR. Mr. Speaker, it is not surprising that President Reagan broke his promise to the elderly. He promised during the campaign not to

touch Social Security and not to touch their cost-of-living adjustment. Now we understand that he has agreed with the Senate to freeze the cost-of-living adjustment.

What is ironic is that the Social Security trust fund has a surplus; it is flourishing. So the deficit is not caused by the older Americans. The Social Security trust fund should never be part of the budget; it never was until 1969.

Let us take the trust fund out of the budget the way it was when President Roosevelt signed it into law in 1936.

Mr. Speaker, I also oppose freezing the cost-of-living adjustment for Federal employees and military retirees. Let us stop this assault on our older Americans. It is hard enough for them to live on the means that they have. They are not responsible for the Reagan deficit.

IS THERE WISDOM IN FINANCING HIT SQUADS IN THE MIDDLE EAST?

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, yesterday an article in the Washington Post revealed that President Reagan approved a CIA covert operation that directed the CIA to train and support counterterrorist units for first-strike attacks against suspected terrorists in the Middle East. Later, one of these units made up of foreign proxies, without CIA authorization, detonated a car bomb and killed more than 80 persons.

Today, I am introducing a House resolution with my colleague, Representative DON EDWARDS, that requires the Director of the Central Intelligence Agency to provide the House with information relating to the training and support of these covert terrorist units, so that we can determine its legality.

Essentially we are funding terrorist activities in the Middle East.

In an area as volatile as the Middle East, we don't need to set loose foreign proxies to participate in ill-conceived operations.

While we have this resolution to question the legality of these terrorist units, we don't need a resolution to question President Reagan's wisdom in setting them up.

Where is the wisdom in financing hit squads in the Middle East, which is already a hair trigger? Do we think that this would help the view of Americans that led to the bombing of our barracks in Beirut? Is this a wise use of our tax dollars?

I don't think so, Mr. President.

TRIBUTE TO WILLIAM M. O'BRIEN

(Mr. O'BRIEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. O'BRIEN. Mr. Speaker, last Wednesday night, a fire, suspected to have been arson-instigated, caused the death of William M. O'Brien and his beautiful wife, Mary Jane, in their home in Grosse Pointe, MI. Mrs. O'Brien I knew only slightly; Bill I have known since kindergarten. What provokes me into making this statement is the remarkable nature of the fellow, an example of what we would like to be: a superior student in all schools, he served in the counterintelligence of the FBI, he starred in basketball at Loyola University, and became a nationally recognized figure in industrial relations first with Ford and later with Chrysler.

It is not so significant that Bill was respected by his corporate peers; what matters is what the Nation's leading labor leaders thought of him. Douglas Fraser said it best in his terse summary: "Impeccable integrity separates Bill from so many other corporate negotiators."

Mr. Speaker, in medieval times, specialties were ignored and demeaned. What was revered and respected was the complete man or woman, a person who excelled in everything he or she attempted.

Bill O'Brien is today's version of that kind of man. He excelled in everything he tried and he made it look easy. He will be conspicuous by his absence in the years ahead.

Mr. Speaker, it reminds me of a poem—Bill's passing recalls to me an unpublished poem of Noel Coward written shortly before his death:

When I have fears as Keats had fears
Of the moment I'll cease to be
I comfort myself with vanished years
Remembered laughter, remembered tears
The peace of a tranquil sea.
And I think of my friends who are dead and gone
How happy they are, I cannot yet know
But happy am I who loved them so.

KOREAN WAR MEMORIAL ACT

(Mr. FLORIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FLORIO. Mr. Speaker, in the midst of the great commemorations marking the end of World War II and the huge ticker tape parade held in New York City last week honoring the Vietnam war veterans, I would like to take a moment to reflect upon the lot of the Korean war veteran.

The Korean war veteran is sometimes referred to as the "forgotten veteran." For him there was no warm welcome home—not even a belated one as we are now finally according the Vietnam veteran. For the Korean war veteran and for the 54,000 American service men and women killed in that tragic war, there was nothing. And there is still nothing to this day.

Mr. Speaker, I have introduced legislation, H.R. 2205, the Korean War Memorial Act, which would for the very first time call upon the Federal Government to officially recognize the exploits and sacrifices made by our people in that war. The bill calls upon the Government to erect a memorial on Government-owned land here in the District of Columbia. The memorial would remind all of us of the horrible sacrifice which freedom sometimes demands of a brave people.

Chairman SONNY MONTGOMERY of the House Veterans' Affairs Committee and JOHN PAUL HAMMERSCHMIDT, ranking minority member of the House Veterans' Affairs Committee, have joined with me as original cosponsors of this bill. Already some 25 of my colleagues have become cosponsors. It is an idea which is long overdue and I urge that all of my colleagues examine the facts of this issue and join with us to ensure that these "forgotten veterans" are remembered by those for whom they fought and died.

Thank you.

THERE THE PRESIDENT GOES AGAIN, RENEGING ON HIS SOCIAL SECURITY PROMISES

(Mr. VENTO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VENTO. Mr. Speaker, last Friday the Senate took action on the budget. I greet this action with mixed feelings and concern. First of all, I am impressed that they finally came to reconcile the fact that we cannot continue a recordbreaking, budget-busting, military buildup. Second, however, and most importantly, I am very concerned about the loss and denial of cost-of-living adjustments [COLA's].

The record indicates that such a loss of COLA would mean that an additional 300,000 to 400,000 senior citizens would fall below the poverty line. I am very concerned about the President's position and attitude. He is retreating from his campaign promises not to reduce Social Security benefits generally and not to deny the COLA for Social Security specifically.

Mr. Speaker, at every turn when the question has come up for support of Social Security during the last 4 years, the President has answered by reneging on his initial support and commitment during the Presidential political campaigns in 1980 and 1984.

It has taken 4 years for the President to come around to make the promise and the commitments again

not to cut Social Security. Now, less than 4 months after the election, President Reagan is leading the charge against Social Security and in favor of eliminating the Social Security COLA's for 1986.

Mr. Speaker, I object and I might say, Mr. President, there you go again. There you go again, Mr. President, reneging on your political commitments to older Americans who depend on Social Security. This proposal to cut Social Security cost-of-living adjustments is wrong, Mr. Speaker, and many in this Congress, the people's House of Representatives will strongly fight the President's efforts to take away older Americans hard-earned Social Security pensions benefits.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. ROBINSON). Pursuant to the provisions of clauses 5, rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken on Tuesday, May 14, 1985.

AUTHORIZING ADDITIONAL FEDERAL EMPLOYEE HEALTH BENEFITS PLANS

Ms. OAKAR. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 873) to permit employee organizations, which are not eligible to participate in the Federal Employees Health Benefits Program solely because of the requirement that applications for approval be filed before January 1, 1980, to apply for approval to offer a health benefits plan, as amended.

The Clerk read as follows:

H.R. 873

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY FOR ADDITIONAL EMPLOYEE ORGANIZATION PLANS.

(a) DEFINITION OF AN EMPLOYEE ORGANIZATION.—Section 8901(8) of title 5, United States Code, is amended to read as follows:

"(8) 'employee organization' means—

"(A) an association or other organization of employees which is national in scope, or in which membership is open to all employees of a Government agency who are eligible to enroll in a health benefits plan under this chapter and which, after December 31, 1978, and before January 1, 1980, applied to the Office for approval of a plan provided under section 8903(3) of this title; and

"(B) an association or other organization which is national in scope, in which membership is open only to employees, annuitants, or former spouses, or any combination thereof, and which, during the 90-day period beginning on the date of enactment of section 8903a of this title, applied to the Office for approval of a plan provided under such section;".

(b) AUTHORITY FOR ADDITIONAL PLANS.—

(1) Title 5, United States Code, is amended by inserting after section 8903 the following:

"§ 8903a. Additional health benefits plans

"(a) In addition to any plan under section 8903 of this title, the Office of Personnel Management may contract for or approve one or more health benefits plans under this section.

"(b) A plan under this section may not be contracted for or approved unless it—

"(1) is sponsored or underwritten, and administered, in whole or substantial part, by an employee organization described in section 8901(8)(B) of this title;

"(2) offers benefits of the types named by paragraph (1) or (2) of section 8904 of this title or both;

"(3) provides for benefits only by paying for, or providing rembursement for, the cost of such benefits (as provided for under paragraph (1) or (2) of section 8903 of this title) or a combination thereof; and

"(4) is available only to individuals who, at the time of enrollment, are full members of the organization and to members of their families.

"(c) A contract for a plan approved under this section shall require the carrier—

"(1) to enter into an agreement approved by the Office with an underwriting subcontractor licensed to issue group health insurance in all the States and the District of Columbia; or

"(2) to demonstrate ability to meet reasonable minimum financial standards prescribed by the Office.

"(d) For the purpose of this section, an individual shall be considered a full member of an organization if such individual is eligible to exercise all rights and privileges incident to full membership in such organization (determined without regard to the right to hold elected office).".

(2) The analysis for chapter 89 of title 5, United States Code, is amended by inserting after the item relating to section 8903 the following:

"8903a. Additional health benefits plans.".

SEC. 2. TECHNICAL AND CONFORMING AMENDMENTS.

(a) Sections 8902(a), 8902(e), 8902(i), 8905(a), 8905(c)(1), 8905(f), 8908(b), and 8913(b) of title 5, United States Code, are each amended by striking out "8903 of this title" and inserting in lieu thereof "8903 or 8903a of this title".

(b) Section 8903(3) of title 5, United States Code, is amended by striking out "employee organizations," and inserting in lieu thereof "employee organizations described in section 8901(8)(A) of this title,".

(c) Section 8905(f) of title 5, United States Code, is further amended by striking out "plan described by that section" and inserting in lieu thereof "such plan".

(d) Section 8907(a) of title 5, United States Code, is amended by striking out "section 8903" and inserting in lieu thereof "sections 8903 and 8903a".

(e) Section 8909(d) of title 5, United States Code, is amended—

(1) in inserting "or 8903a" before "of this title"; and

(2) by adding at the end thereof the following: "If the successor organization is an organization described in section 8901(8)(B) of this title, any employee, annuitant, or former spouse so transferred may not remain enrolled in the plan after the end of the contract term in which the merger occurs unless that individual is a full member of such organization (as determined under section 8903a(d) of this title).".

(f) Section 8909(e) of title 5, United States Code, is amended by inserting "or 8903a" before "of this title".

(g) Section 1840(d)(1) of the Social Security Act is amended by inserting "or 8903a" after "8903".

SEC. 3. INSURANCE COVERAGE FOR RESTORED DISABILITY ANNUITANTS.

(a) HEALTH INSURANCE.—

(1) Section 8908 of title 5, United States Code, is amended by adding at the end thereof the following:

"(c) A disability annuitant whose disability annuity under section 8337 of this title was terminated and is later restored under the second or third sentence of subsection (e) of such section may, under regulations prescribed by the Office, enroll in a health benefits plan described by section 8903 or 8903a of this title if such annuitant was covered by any such plan immediately before such annuity was terminated.".

(2)(A) The section heading for section 8908 of title 5, United States Code, is amended to read as follows:

"§ 8908. Coverage of restored employees and survivor or disability annuitants".

(B) The analysis for chapter 89 of title 5, United States Code, is amended by striking out the item relating to section 8908 and inserting in lieu thereof the following:

"8908. Coverage of restored employees and survivor or disability annuitants.".

(b) LIFE INSURANCE.—Section 8706 of title 5, United States Code, is amended by adding at the end thereof the following:

"(g) If the insurance of a former employee receiving a disability annuity under section 8337 of this title stops because of the termination of such annuity, and such annuity is thereafter restored under the second or third sentence of subsection (e) of such section, such former employee may, under regulations prescribed by the Office, elect to resume the insurance coverage which was so stopped.".

(c) APPLICABILITY; NOTIFICATION REQUIREMENT; CONSTRUCTION.—

(1) The amendments made by this section shall apply with respect to any individual whose disability annuity is or was restored under section 8337(e) of title 5, United States Code, after December 31, 1983.

(2)(A) The Office of Personnel Management shall notify each individual under subparagraph (B) of any rights which such individual may have under section 8706(g) or section 8908(c) of title 5, United States Code, as amended by this section, including any procedures or deadlines which may apply with respect to the exercise of those rights.

(B) Notification under this paragraph shall be provided to any individual who, as of the 90th day after the date of enactment of this Act, is receiving a disability annuity which was restored to such individual under section 8337(e) of title 5, United States Code, after December 31, 1983.

(3)(A) Nothing in this section shall be construed to authorize—

(i) coverage under chapter 87 of title 5, United States Code, in the case of any individual who makes an election under section 8706(g) of such title (as amended by this Act), for any period before the date of such election; or

(ii) coverage under chapter 89 of title 5, United States Code, in the case of any individual who becomes enrolled in a health benefits plan under section 8908(c) of such title (as amended by this Act), for any period before the date as of which such individual becomes so enrolled.

(B) This paragraph applies with respect to any individual receiving a disability annuity which is or was restored under section 8337(e) of title 5, United States Code, after December 31, 1983, and before the expiration of the 90-day period beginning on the date of enactment of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. MYERS of Indiana. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentlewoman from Ohio [Ms. OAKAR] will be recognized for 20 minutes, and the gentleman from Indiana [Mr. MYERS] will be recognized for 20 minutes.

The Chair recognizes the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today, the House is considering H.R. 873, a bill to allow additional employee organizations to participate in the Federal Employees Health Benefits Program [FEHBP] and to restore Federal health and life insurance benefits to certain disabled annuitants.

H.R. 873 was introduced by Congressman NORMAN DICKS of Washington, along with Congressmen VIC FAZIO of California, SAM STRATTON of New York, and FRANK WOLF of Virginia. The bill was ordered reported by a voice vote of the Post Office and Civil Service Committee on Wednesday, May 8, with an amendment in the nature of a substitute.

The basic purpose of this legislation is to permit the creation of new plans that can be tailored to fit the needs and resources of certain groups of FEHBP participants. In so doing, the bill will enable some participants to select health coverage that might not be offered presently by existing plans.

As chair of the Subcommittee on Compensation and Employee benefits, I conducted hearings last year on identical legislation, then H.R. 1517. At that hearing, witnesses testified that bringing new plans into the Federal Health Insurance Program, if done properly, could enhance the choices available to program participants without additional cost to the Government.

On May 7, the Subcommittee on Compensation and Employee benefits considered and approved an amendment which I introduced in the nature of a substitute to H.R. 873. My amendment responded to the concerns raised at the hearings and set forth an orderly process for enabling additional employee organization plans to be offered in the FEHBP. The revised H.R. 873 establishes a 90-day period, beginning on the date of enactment of the legislation, during which new employee organization plans may be submitted for approval to the OPM for inclusion in the FEHBP. In order to be eligible for approval, these new plans must meet all the requirements of existing law, and the following requirements as well.

The plans must provide health benefits to enrollees either on a fee-for-service or an indemnity basis;

The plans must be open only to bona fide members of the sponsoring employee organization and their families, including former spouses;

The plans must be open to retired members, as well as to actively employed members of the sponsoring organization; and

The plans must satisfy requirements for financial solvency as prescribed by OPM.

Newly accepted plans will be open for enrollment during the following regularly scheduled open season.

These changes to H.R. 873 are important to ensure the orderly inclusion in the FEHBP of additional, qualified employee organization plans, and to allow for an even greater range of choices for participants in this insurance program.

In addition, H.R. 873, as amended, corrects a long-standing inequity with regard to disability annuitants. Under current law, a disability annuitant who participated in the FEHBP and life insurance programs and whose annuity was terminated is not permitted to again participate in the FEHBP or life insurance programs upon restoration of the annuity. H.R. 873 would allow the individual to participate in these programs upon restoration of the annuity by enrolling and paying the annuitant's portion of the subscription cost.

Mr. Speaker, according to the Congressional Budget Office, the enactment of this legislation will result in additional Government outlays of less than $500,000 per year. This legislation is supported by the administration and by the minority members of the committee. At this point, I would like to thank the minority members, Mr. MYERS of Indiana and Mr. YOUNG of Alaska, for their cooperation and partnership in passing this legislation. It is certainly a pleasure to work with them.

Mr. Speaker, I also would like to thank the employee organizations and other groups who have contributed to the development of this legislation. In addition, I especially would like to thank congressmen NORM DICKS, VIC FAZIO, SAM STRATTON, and FRANK WOLF for their support of this bill. I urge my colleagues to vote to suspend the rules and pass H.R. 873.

□ 1230

Mr. Speaker, I reserve the balance of my time.

Mr. MYERS of Indiana. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentlewoman from Ohio [Ms. OAKAR] for her very kind remarks.

The minority is pleased to support H.R. 873, as amended, which provides authority to add employee organization health plans to the Federal Employees Health Benefits Program.

Under existing law, employee organizations cannot sponsor new plans in the FEHB. This bill establishes a 90-day period during which employee organizations may apply to the Office of Personnel Management to sponsor FEHB plans. It also contains safeguards to ensure new plans are financially sound.

H.R. 873 was reported favorably by the Post Office and Civil Service Committee with broad bipartisan support. The bill also is supported by the administration, and, according to the Congressional Budget Office, the addition of a small number of health insurance plans to the large number already available is not expected to significantly alter Federal costs.

This legislation also corrects an oversight with respect to disability annuities. Under current law, if the outside earnings of a disabled annuitant rises above a certain amount, the annuity is terminated and Federal health and life insurance benefits are terminated. The problem is that if the individual's outside earnings fall below a certain threshold in the next year, he or she cannot recapture Federal or life insurance benefits. Only the disability annuity is restored. This legislation will correct that oversight. I urge a favorable vote on this piece of legislation.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER pro tempore. The gentleman has consumed 2 minutes.

Ms. OAKAR. Mr. Speaker, I would like to yield to one of the major sponsors of the bill, Mr. FAZIO.

I want to say at this juncture that I certainly appreciated the cooperation of this distinguished Member and chairman of one of the important subcommittees for allowing the committee, the Post Office Committee, to work its will and produce a piece of legislation that could be done without any loopholes in it; and I know it took a little time to do that, and I appreciate the patience of my friend from California, and I am sure his Federal managers, along with other groups, are deeply grateful for the work he has done on this issue.

I yield to the gentleman from California.

Mr. FAZIO. I thank the gentlewoman from Ohio for yielding to me, and I sincerely appreciate the responsible approach that the gentlewoman has taken to the enactment of this legislation.

Mr. Speaker, bringing it to the floor today is the culmination of a great deal of effort on behalf of many members of the Federal Managers Association, which is well-represented in my district.

I would like to pay particular tribute to Ms. OAKAR for the approach she took, which was to slow down the hell-bent-for-leather approach to enactment of this bill in order to consider it in the context of all other Federal health benefit programs.

I think the more deliberate approach, using the authorizing committee has certainly borne fruit in bringing to the floor a very thoroughly researched and well-documented piece of legislation.

Mr. Speaker, I would simply like to express my personal appreciation to her and to lend my strongest possible support to the enactment of this bill.

Mr. Speaker, I would like to express my personal appreciation to Congresswoman OAKAR for her cooperation in moving forward on providing an opportunity for Federal employee organizations who are not now eligible to participate in the Federal Employees Health Benefits Program [FEHBP] to do so.

As one of the original cosponsors of H.R. 873 which was introduced by my good friend and colleague Congressman NORM DICKS, I have been particularly supportive of this effort. This past fall, in hearings held by Ms. OAKAR, chair of the Subcommittee on Compensation and Employee Benefits of the House Post Office and Civil Service Committee, I testified on behalf of this legislation.

The Federal Managers Association is one of the organizations that is particularly interested in this legislation. As a Member who has two major FMA chapters in my congressional district, chapter 77 at McClellan AFB and chapter 167 at Travis AFB, I have heard from my constituents about the benefits of having a health plan particularly suited to their needs.

I believe that what Ms. OAKAR has accomplished with this bill is not only providing an opportunity for organizations like FMA, but by incorporating her substitute, she has improved the original legislation.

There will be a 90-day period, beginning the day of enactment during which organizations can submit a plan to OPM for inclusion in FEHBP. Such plans must meet all requirements of existing law as well as:

The plan must provide health benefits on a fee-for-service basis, an indemnity basis, or some combination of the two;

The plan must meet financial solvency standards as prescribed by OPM;

The plan must be open only to bona fide members of the sponsoring employee organization and their families; and

The plan must be open only to both actively employed and retired members of the sponsoring organization.

Under existing law the annuity of a disabled employee is terminated if the individual is determined to be restored to earning capacity. Upon termination of the annuity, health and life insurance benefits are terminated. An individual whose disability resumes is entitled to have the annuity restored but may not resume participation in the Government health and life insurance programs. The substitute would permit such an individual to resume health and life insurance participation.

There are still many problems with the Federal employee health plans that need to be addressed. This legislation is not part of that overall effort. That will be done in the context of a larger piece of legislation which Ms. OAKAR's subcommittee has under consideration now. I very much support her efforts in this regard and will be working with her on that legislation.

For now, however, I commend her for moving H.R. 873, and I urge my colleagues to suspend the rules and pass this bill.

Ms. OAKAR. I yield to the distinguished gentleman, another fine, major sponsor of the legislation, Congressman STRATTON who, along with other Members that I have mentioned, did some very fine work on this legislation.

I yield to the gentleman from New York as much time as he may consume.

Mr. STRATTON. Mr. Speaker, I am delighted to rise today in support of the bill H.R. 873, which will allow additional Federal employee organizations to participate in the Federal Employees Health Benefits Program. I want especially to thank my good friend, the chairlady of the subcommittee, MARY ROSE OAKAR, for her support and attention to this matter. It has been a pleasure to work with her as this legislation has moved through the legislative process.

As a cosponsor of H.R. 873, and supporter of this legislation in previous years, I am glad to see it come to the floor of the House today. I am also in total agreement with the changes made by the subcommittee with respect to the time limit for application to OPM for new health benefits plans, and with regard to the requirements that organizations must meet to apply for a new plan.

This issue of special interest to me because the president of the Federal Managers' Association, Mr. Michael Minahan, of Troy, NY, is one of my constitutents. The unique feature of this bill is that it will allow groups of employees to create new plans in the FEHBP that can be tailored to the special needs and resources of those groups of participants, thus saving money for the Federal Government as well as the employees.

I therefore urge my colleagues to support this bill, and thank again the chairlady and members of the subcommittee for their support in this matter.

□ 1240

Ms. OAKAR. Mr. Speaker, with permission of my distinguished colleague, the minority leader, I yield 1 minute to the gentleman from California [Mr. EDWARDS] to proceed out of order.

CIA ACTION IS POSSIBLE VIOLATION OF EXECUTIVE ORDERS

Mr. EDWARDS of California. Mr. Speaker, it is with a great deal of concern that we read about not only the CIA hiring mercenaries to wage battle in Nicaragua, but also apparently to train a group of antiterrorists in Lebanon, and one of the groups, apparently on its own, went out and bombed with a car bomb residences in Beirut and killed 80 people and injured 200 more.

The gentlewoman from Colorado [Mrs. SCHROEDER] and I have put into the hopper a resolution of inquiry. Certainly the House of Representatives is entitled to know all of the facts about this very, very serious possible violation of several Executive orders and indeed perhaps a violation of law.

Mr. Speaker, I yield back the balance of my time.

Mr. STRATTON. Mr. Speaker, will the gentlewomen yield to me an additional minute?

Ms. OAKAR. Mr. Speaker, we are on the health bill, but I will yield 1 minute to the gentleman from New York [Mr. STRATTON].

A TRAGIC SIMPLIFICATION

Mr. STRATTON. Mr. Speaker, with regard to the remarks of the gentleman from California [Mr. EDWARDS] it was some time ago when we had our Marines very heavily engaged in Lebanon that many Members of this body and many members of the general public as well said, "Why don't we retaliate for the attacks that were made against us? Why don't we retaliate for what happened to the Marine Corps barracks and for these other attacks on our installations and embassy?"

I am not privileged to be a member of the Committee on Intelligence so I don't know the inside facts. But I think, clearly, from what has come out in the press, what we were doing in the instance the gentleman refers to was to provide just such a form of retaliation. I feel sure most of the citizens of the United States feel that we should have retaliated. To suggest

that this is somehow OK for the Moslems to blow up our Marines, but is immoral for us to retaliate seems to me to be a tragic simplification. Obviously if this is what happened, no Government official will advertise it in advance.

Mr. WOLF. Mr. Speaker, I rise today in support of H.R. 873 of which I am an original cosponsor. This legislation enjoys bipartisan support and fills a need for an important group of Federal employees; namely, our managers. I would like to commend my colleague from Washington, Mr. DICKS, for introducing this bill and would also like to commend Mr. STRATTON and Mr. FAZIO who joined me in cosponsoring this measure. H.R. 873 will permit Federal employee organizations not currently eligible, to participate in the Federal Employees Health Benefits Program.

Since January 1, 1980, the FEHBP has restricted entry to health maintenance organizations, and new employee organizations were barred. Passage of this important and noncontroversial measure, which is the culmination of several years of effort by one of the most highly regarded and responsible employee organizations, the Federal Managers Association, will allow new employee organizations to participate in the FEHBP. I believe it is important that we open the FEHBP to organizations, such as the Federal Managers Association, which have grown and now wish to participate.

H.R. 873 provides a 90-day window to allow Federal employee organizations, not now providing health insurance under FEHBP, to do so for their members and retired members only and will therefore have little impact on current health plans.

During the 90-day period, employee organizations may apply to the Office of Personnel Management [OPM] to sponsor a FEHBP plan. Employee organizations or associations which apply during this period must be national in scope and open only to employees, annuitants, and former spouses.

Under the provisions of H.R. 873, OPM may not approve or contract for a health benefit during this 90-day period unless the plan meets all of the requirements for existing employees organization plans under the FEHBP and the following additional requirements:

The plan must provide health benefits on a fee-for-service basis, an indemnity basis, or some combination of the two.

The plan must meet the financial solvency standard prescribed by OPM.

The plan must be open only to bona fide members of the sponsoring employee organization and their families; and

The plan must be open both to actively employed and retired members of the sponsoring organization.

Mr. Speaker, in a time when the pay and benefits of Federal employees are being challenged, I think it is important to improve the morale of Federal workers. Here is an opportunity for us to provide a benefit, that is not an added expense, for our Federal managers. I urge my colleagues to support this measure.

Mr. MYERS of Indiana. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. OAKAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I was pleased to be able to yield to my two colleagues to engage in a discussion of other business. I want to associate myself with the remarks of the gentleman from California, as long as I was able to yield him some time.

I would also like to say, getting back to the health bill that we are trying to get passed here, H.R. 873, that I do not believe this is the last that we are going to do in terms of health reform for our very fine outstanding Government employees. I personally feel that we do not offer the kinds of comprehensive coverage that we ought to. I think that they have to pay too much, 40 percent or more, of their own health benefit, which in the last few years they have gotten about 50 percent, they have paid more than 50 percent and have gotten 12 percent less benefits. This is not the last of health bills that hopefully our committee will pass. We are trying to have some hearings right now on another bill I have introduced, H.R. 156, and I am hoping that in the near future we can bring that bill to the floor which will cover some of the gaps which are not covered now.

But I would like to thank my colleagues for their support of this bill.

Mr. MYERS of Indiana. Mr. Speaker, will the gentlewoman yield?

Ms. OAKAR. I yield to my friend, the gentleman from Indiana.

Mr. MYERS of Indiana. Mr. Speaker, the minority certainly agrees with the majority on this bill, but just so that there will not be any misunderstanding, this Member does not agree with what the gentleman from California had to say. So I do want it to be implied, since we did not respond, that we agree with his comments.

Ms. OAKAR. We did yield to him, and I think it is important to state our opinion about what he said. I happen to agree with him, and the gentleman from Indiana does not, and I have the greatest respect for my colleague from Indiana.

● Mr. DICKS. Mr. Speaker, as the original sponsor of H.R. 873, I want to thank Chairwoman OAKAR for her work on this legislation. I think the amendments added by the subcommittee strengthen the legislation. They ensure that it meets its stated purpose, and were developed in light of issues raised in hearings on this legislation last year.

This bill would provide a limited 90-day period in which employee organizations could apply to the Office of Personnel Management to sponsor a health care insurance plan under the Federal Employees Health Benefits Program. It would be the first such opportunity in 6 years. It would provide an opportunity for employee organizations to provide coverage that is tailored to the needs of their membership, could encourage cost savings, and promote competition.

The bill before the House provides protections to ensure that health care plans submitted to OPM will be serious proposals with the necessary financial backing. Specifically the bill requires that such plans meet all the requirements for existing employee organization plans and also:

Provide health benefits on a fee-for-service basis, an indemnity basis, or some combination of the two;

Meet financial solvency standards as prescribed by OPM;

Be open only to bona fide members of the sponsoring employee organization and their families; and

Be open to employees, annuitants, and former spouses.

The reason that I sponsored this legislation along with 19 of my colleagues was because I believe that one of the strengths of the FEHB Program is the competition it allows among health care plans and the ability it provides to tailor coverage to individual needs. This limited 90-day period will allow organizations who have given this question careful consideration over the last 6 years an opportunity to offer such tailored coverage. The short time period and the criteria developed by the committee will guard against frivolous efforts.

This legislation was initiated primarily to provide an opportunity for the Federal Manager's Association to offer a health care plan tailored to its particular needs and requirements. FMA was founded in 1913, and now has 17,000 members in 175 chapters representing most of the agencies and departments of the Federal Government. It is clearly an accepted advocacy group for the views and concerns of management personnel. The organization is growing at a healthy rate of 1,500 members a year. FMA has worked on the development of a health care plan for their members over the last 6 years. They plan to contract with a reputable private firm with a strong record of providing health care coverage if given the opportunity by this legislation. They have indicated to me their desire to in-

clude strong cost control mechanisms in their plan.

The desire of FMA to tailor their own plan stems from the unique demographic makeup of their organization, somewhat older and in a higher income bracket than other organizations presently offering plans. It also reflects the differing aspects of managerial work, with a proportionately higher emphasis on stress and mental health coverage. These areas can serve to prevent higher costs later.

While I have not been contacted and the hearings have not revealed any other organization which plans to take advantage of this opportunity, no one is precluded from seeking OPM approval assuming the criteria laid out in this bill can be met.

Because this is a modest window and because of the strict conditions included in the bill, no major influx of applications is expected.

As with all legislation, there are concerns about cost. I would note that the Congressional Budget Office expects no significant additional cost to the Government from this legislation. My own expectation is that we will ultimately save money as a result of cost control mechanisms and emphasis on preventative care.●

Ms. OAKAR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Ohio [Ms. OAKAR] that the House suspend the rules and pass the bill, H.R. 873, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to amend title 5, United States Code, to provide that employee organizations which are not eligible to participate in the Federal employee health benefits program solely because of the requirement that applications for approval be filed before January 1, 1980, may apply to become eligible, and for other purposes."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Ms. OAKAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous matter on the bill, H.R. 873.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

WASHINGTON SQUARE AT INDEPENDENCE NATIONAL HISTORICAL PARK IN PHILADELPHIA

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 105) to provide for the inclusion of the Washington Square area within Independence National Park, and for other purposes.

The Clerk read as follows:

H.R. 105

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of June 28, 1948 (62 Stat. 1061; 16 U.S.C. 407m et seq.), is amended by adding the following new section at the end thereof:

"SEC. 8. (a) The area known as Washington Square (bounded generally by Walnut Street on the north, Sixth Street on the east, and the intersecting streets named 'Washington Square' on the west and south) is hereby included within the Independence National Historical Park.

"(b) The Secretary of the Interior is authorized to enter into a cooperative agreement with the city of Philadelphia (acting through its designated agency, the Fairmount Park Commission) to provide technical assistance in the preservation and interpretation of the property known as Washington Square. Such agreement shall contain, but shall not be limited to, provisions that the Secretary, through the National Park Service, shall have right of access at all reasonable times to all public portions of the property for the purpose of conducting visitors through the grounds and interpreting them to the public, and that no major changes or alterations shall be made in the property, including its buildings and grounds, except by mutual agreement between the Secretary and the city.".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from Arizona [Mr. MCCAIN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the pending measure, H.R. 105.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the legislation before us, H.R. 105, was introduced by our colleague TOM FOGLIETTA, on January 3, 1985. The purpose of the bill is to provide for the inclusion of Washington Square within the boundaries of Independence National Historical Park and to authorize the Secretary of the Interior to enter into a cooperative agreement with the city of Philadelphia to provide technical assistance to the city to aid in the preservation and interpretation of Washington Square.

Washington Square, which lies adjacent to Independence Hall, has a long and distinguished history that primarily centers on the American Revolution. Originally established as Southeast Square in 1683, the park in 1706 was designated as a "publick burying ground." During the Revolutionary War, Washington Square served as a burial place for more than 2,000 unknown Revolutionary War dead. Some of those buried in Washington Square died from wounds or disease in Independence Hall itself, which had been turned into a prison during the British occupation of Philadelphia. The square, which is presently listed on the National Register of Historic Places, is the site of a memorial to the Unknown Soldiers of the American Revolution constructed in the mid-1950's.

While H.R. 105 would include Washington Square within the boundary of the Independence Hall National Historical Park, the square itself would remain under the ownership and management of the city of Philadelphia. The legislation would authorize the Secretary of the Interior to enter into a cooperative agreement with the city limited to providing technical assistance in the preservation and interpretation of the Square. This language will thus grant the national recognition that Washington Square deserves without incurring direct Federal expenditure.

During the 98th Congress, the House passed legislation identical to H.R. 105 on September 24, 1984. However, the legislation was not considered by the other body.

Mr. Speaker, I commend the gentleman from Pennsylvania [Mr. FOGLIETTA] for his leadership on this matter and I urge the passage of this legislation.

Mr. MCCAIN. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. COUGHLIN].

Mr. COUGHLIN. I thank the gentleman for yielding time to me.

Mr. Speaker, Washington Square in the city of Philadelphia is deserving of national recognition and I rise in support of H.R. 105 which promotes recognition of this historic landmark.

H.R. 105 includes Washington Square within the boundary of Independence National Historical Park and authorizes the Secretary of the Interior to enter into a cooperative agreement with the city of Philadelphia to provide technical assistance to the city to aid in the preservation and interpretation of Washington Square.

Washington Square is one of five public squares in the city of Philadelphia laid out by William Penn's chief surveyor, Capt. Thomas Holmes. The city designated Washington Square as a common and public burying ground

and more than 2,000 unknown Revolutionary War dead are buried there.

The city went to great lengths to refurbish this square for the dedication to these unknown soldiers and Washington Square is now listed on the National Register of Historic Places.

H.R. 105 will further the city of Philadelphia's efforts to illuminate the history of Washington Square without increasing Federal expenditures. We approved similar legislation last year and I hope swift House adoption of H.R. 105 this year will help ensure its enactment into law in the 99th Congress.

□ 1250

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. COUGHLIN. I yield to the gentleman from Minnesota.

Mr. VENTO. I thank the gentleman for yielding.

Mr. Speaker, I want to commend the gentleman for his support, and include him in terms of my remarks commending him for his work on this bill. It is an important addition to the park.

Mr. COUGHLIN. I thank my colleague.

Mr. McCAIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as a member of the committee, I rise in support of H.R. 105. This bill would incorporate the Washington Square area into the boundaries of the Independence National Historical Park in Philadelphia. Washington Square, an approximate one block area adjacent to the Independence Hall site of the park, is historically known as the burial grounds for over 2,000 unknown Revolutionary War dead. A memorial was erected on the site in 1957 to honor the unknown solders who fought in the war.

Mr. Speaker, identical legislation to H.R. 105 was approved by the House last Congress. Once again, this legislation authorizes the National Park Service to provide technical assistance to the city of Philadelphia through a cooperative agreement for the purposes of preserving and interpreting Washington Square for park visitors. Although the Congressional Budget Office has determined that enactment of H.R. 105 would not result in any significant costs to the Federal Government, I do have some concerns that the addition of Washington Square may result in future Federal expenditures. According to the National Park Service (NPS), it would cost over $2 million to bring this area up to NPS standards, as well as approximately $160,000 per year to maintain the area. While such work is not required under this bill, there may indeed come a time when the city of Philadelphia requests Federal funds in the future to assist with the upkeep of the Washington Square area. I believe that during these difficult financial times, we must exercise fiscal responsibility with regard to the future as well.

In spite of this concern, I believe the purpose of the legislation is well-founded. It is my opinion that Washington Square would serve as a significant addition to Independence National Park, which commemorates the birth and struggle of the independence movement of our Nation.

Mr. Speaker, I think it is fitting and, indeed, an obligation to honor those brave young men who struggled and sacrificed in order that 13 tiny colonies might achieve independence and freedom. We should never forget their sacrifice, and the vital ingredient, of which they were, to securing our Nation's freedom and independence.

Mr. Speaker, I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. I thank the gentleman for yielding to me.

Mr. Speaker, I commend the gentleman from Minnesota for his initiative in moving this legislation again. A similar bill passed the last Congress, after the Subcommittee on Public Lands and National Parks had field hearings in Philadelphia as well as hearings in Washington.

Not only did many people interested in American history testify in support of this bill, but many veterans' organizations, as one might expect, because of the fact that 2,000 dead of the Revolutionary War are buried there. Dead American soldiers. There is a small memorial there, but otherwise, there is no particular recognition, and it is right catty-cornered across the street from Independence Hall. It does seem like an oversight that it was not included within the boundaries of the National Historic Park.

No one can go to the National Historic Park in Philadelphia without being inspired. Not only by the historic events that have taken place there, but by the tremendous job that the National Park Service has done in reconditioning many of the buildings and providing excellent interpretation.

It does seem to me that even though some of the historians of the Park Service did not feel that it qualified to be on the National Register of Historic Sites, because there was no battle there, merely 2,000 Revolutionary War heroes buried there in what was a potter's field.

That "merely" is a pretty big thing in my book. I think TOM FOGLIETTA, who was the author of this bill, and Congressman KOSTMAYER, Congressman COUGHLIN, and others from the Philadelphia area who supported it, should be commended for doing so. This bill will cost the Federal Government virtually nothing. It will merely give recognition to a sacred site that ought to be part of the National Historic Park.

Mr. VENTO. Mr. Speaker, I want to thank the chairman of the Public Lands and National Park Subcommittee for his leadership and his work in the last Congress. It has made our job considerably less duty this year on account of that.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 105.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

EROSION CONTROL AT CUYAHOGA VALLEY NATIONAL RECREATION AREA

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 934) to provide certain authority to reduce erosion within the Cuyahoga Valley National Recreation Area, and for other purposes.

The Clerk read as follows:

H.R. 934

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 4(c) of the Act of December 27, 1974 (88 Stat. 1784; 16 U.S.C. 460ff-3(c)) is amended by inserting "(1)" after "(c)" and by adding the following at the end thereof:

"(2) The Secretary is authorized and directed, in cooperation with the Secretary of Agriculture, the State of Ohio, and affected local governments, to undertake a program of land treatment for the purpose of restoring suitable vegetative cover to substantially eliminate erosion from all lands, public and private, within the authorized boundaries of the recreation area. In the case of any private lands, within such authorized boundaries such treatment may be undertaken only with the consent of the owner thereof and shall be contingent upon assurances that such land treatment will be maintained by the owner for a period of not less than ten years. The Secretary shall, in conjunction with such program, take such actions as may be required to correct areas of ecological degradation which create hazards to health and safety.".

(b) Section 6 of such Act (16 U.S.C. 460ff 5) is amended by adding the following at the end thereof:

"(c) There are hereby authorized to be appropriated not more than $500,000 for fiscal year 1986, $1,000,000 for fiscal year 1987, $1,500,000 for fiscal year 1988, and $1,750,000 for fiscal year 1989, to carry out the provisions of section 4(c)(2) of this Act. Any amounts authorized to be appropriated for any fiscal year under this subsection which are not appropriated for that fiscal year shall remain available for appropriation in succeeding fiscal years.".

SEC. 2. No authority under this Act to enter into contracts or to make payments

shall be effective except to the extent and in such amounts as provided in advance in appropriations Act. Any provision of this Act which authorizes the enactment of new budget authority shall be effective only for fiscal years beginning after September 30, 1985.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from Arizona [Mr. MCCAIN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on this pending measure.

The SPEAKER pro tempore. Is there objection to the request of the gentleman form Minnesota?

There was no objection.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 934 was introduced by our colleague, JOHN SEIBERLING. The purpose of the legislation is to provide authority to the National Park Service to take needed actions to reduce erosion on all lands within the boundary of the Cuyahoga Valley National Recreation Area.

The problem of erosion from lands within the Cuyahoga River drainage basin and the resultant sediment that is deposited in Cleveland Harbor has been the focus of ongoing study. With the U.S. Corps of Engineers spending about $4 million per year to dredge the sediment that collects in the harbor, considerable effort has been expended to pinpoint sources of erosion. Studies have focused on the erosion of lands within the Cuyahoga Valley National Recreation Area as a major source of the Cuyahoga River sedimentation problem.

Less than half of the 32,460 acres of land within the Cuyahoga Valley National Recreation Area is presently owned by the Federal Government. As such, the ability of the National Park Service to deal with erosion problems on much of the land within the park's boundary is extremely limited. The National Park Service has already identified 34 sites encompassing 625 acres of land, both publicly and privately owned, that need extensive reclamation work. Last month, I visited the Cuyahoga Valley National Recreation Area and saw the erosion problem firsthand. The legislation before us today is a viable and necessary tool in stemming the active and accelerated erosion that is occurring on park property.

I would also like to point out that this legislation can be a money saver. The Corps of Engineers estimates that with an active and ongoing erosion control program in place, they could cut Cleveland Harbor dredging by 30 percent at a savings of over $1 million per year in Federal dollars.

Mr. Speaker, this legislation is necessary. The geology of the area while interesting also is a problem. Over the length of the Cuyahoga Recreation Area, the water drops over 800 feet to Lake Erie. It is important that the National Government meet the problem in a special manner.

The Park Service is doing their part; they have one of the few soil scientists working in the National Park Service assigned to the Cuyahoga Recreation Area. He is doing a good job, but without adequate resources and without the ability to actually deal with the 8,000 acres of private land, I do not believe that these efforts will be successful.

This legislation and the authority that it grants, and the cooperative agreements that it anticipates from these private landowners, would put in place the ability to deal with the private holdings with some assurance, of success. Private land holders must match the Government improvement with a 10-year commitment to keep up the anti-erosion work that is actually accomplished by virtue of the agreements and by virtue of the Federal dollars that would be spent under this legislative authorization.

□ 1300

I would strongly urge my colleagues to support this as a bill that will save money, that will reduce the dredging cost and will, of course, preserve the Cuyahoga Recreation Area characteristics which are so valuable in this urban setting and responsible for its initial designation as a part of our National Park System.

Mr. Speaker, I reserve the balance of my time.

Mr. MCCAIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to briefly comment on H.R. 934. This legislation would authorize the National Park Service [NPS] to enter into a cooperative agreement with the U.S. Department of Agriculture, the State of Ohio and the affected local governments to initiate a land treatment program to reduce erosion in the Cuyahoga Valley National Recreation Area [NRA].

Since the establishment of the Cuyahoga Valley NRA, soil erosion within its boundaries has been a major problem. Every year, large amounts of soil from former farmland is washed into the Cuyahoga River and carried downstream to Cleveland Harbor, Clogging federally maintained ship channels. The erosion problem requires annual dredging by the Corps of Engineers at a cost of $4 million per year. Although the amount of the sediment attributable to the NRA is disputed, it is clear that an erosion problem does exist and should be addressed.

H.R. 934 would authorize Federal appropriations of $4.75 million through fiscal year 1989 for erosion control programs. Although I am concerned about the expenditure of new Federal funds in view of the Federal budget deficits our Nation is facing, H.R. 934 may be the best solution to the problem.

However, I would urge that all of the possible alternative solutions to the Cuyahoga erosion problem be thoroughly examined and considered, including the administration's proposal to enter into an interagency agreement with the Department of Agriculture to work with the private landowners to reclaim the eroding sites.

Mr. Speaker, I would like to express my appreciation to my colleague, the gentleman from Ohio [Mr. SEIBERLING] who has literally devoted years of dedicated efforts on behalf of the people of the Cuyahoga Valley in order to solve this terrible erosion problem that has been plaguing them for many, many years.

In any event, I hope the Cuyahoga Valley erosion problem is addressed as soon as possible.

Mr. VENTO. Mr. Speaker, I certainly want to recognize the work of my colleague, the gentleman from Ohio [Mr. SEIBERLING] on the Cuyahoga Recreation Area establishment, and, of course, the work that he has done in terms of bringing and working out a measure of good public policy with regards to a resolution of that issue in this measure, H.R. 934. He has done an outstanding job. It is a serious problem.

At this time, Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. I thank the gentleman for yielding time to me.

Mr. Speaker, I sponsored legislation similar to H.R. 934 in the last Congress. I was grateful for the support it received when it was approved by the House, and for the support given by the Interior Committee. Unfortunately, the Senate was unable to complete work on the legislation before adjournment. Today, the need for action on the erosion problem in the Cuyahoga Valley National Recreation Area and the sedimentation problem in Cleveland Harbor continues. I am expecially grateful, today, to the distinguished chairman of the Subcommittee on National Parks and Recreation Mr. VENTO, for the great interest he has taken in the erosion and sedimentation problems. Not only did he hold early hearings on H.R. 934 this year, but he also made a site visit to see firsthand the magnitude of the problems in and along the Cuyahoga River.

Mr. Speaker, it is clear that this legislation is needed: Three Federal agencies—the Army Corps of Engineers, the U.S. Geological Survey, and the U.S. Forest Service—have studied the sedimentation problem in the Cuyahoga River. They have identified the Cuyahoga River drainage basin between Indpendence and Old Portage stations—basically the northern and southern limits of the Cuyahoga Valley NRA—as the major source of sediment. Lands within the boundaries of the park are estimated to be generating well over half of the sediment in the area.

Unfortunately, little has been done, beyond initial planning, to deal with this problem. The National Park Service has yet to make the kind of continuing commitment needed to control erosion from those park lands identified as sources of sediment. And, although the Park Service testified that it has plans for financing the control of erosion on privately-held lands lying within the boundaries of the park, no action has been taken to formalize a program for private lands. It appears that if Congress does not act, the Park Service will not be able to do the complete job, for there is no incentive to the owners of private lands to do or finance the work themselves.

Mr. Chairman, this legislation could save an estimated 30 percent of the Corps of Engineers' cost of dredging the Cleveland Harbor each year once erosion controls, such as plantings, take hold. This is a potential annual savings of more than $1 million, year after year. Clearly, this legislation, after the initial $4.7 million investment, can save the Government money. And, beyond the monetary benefits accruing to the corps and the improvement we can expect in the scenic quality of the Cuyahoga Valley, the Cuyahoga Valley NRA will be able to address the nagging erosion problems which are threatening other resources within the park. The lands that are being lost cannot be replaced—truly there is no time like the present to begin this important work in the Cuyahoga Valley NRA.

Mr. VENTO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. McCAIN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 934.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

COMMEMORATING THE 20TH ANNIVERSARY OF HEAD START

Mr. KILDEE. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 95) commemorating the 20th anniversary of Head Start.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 95

Whereas on May 18, 1965, President Lyndon B. Johnson announced the establishment of Project Head Start;

Whereas by the end of the summer of 1965, nearly five hundred and sixty thousand low-income preschool children had been enrolled in thirteen thousand and four hundred Head Start centers in two thousand five hundred American communities;

Whereas over the past twenty years the Head Start Program has grown from a six- to eight-week summer demonstration program to a year-round early childhood enrichment program;

Whereas over nine million low-income preschool children have been enrolled in and benefited from the Head Start Program since its inception in 1965;

Whereas the Head Start Program has provided essential health, education, nutritional, and social services to these children and their families and has had a profound impact on the physical, social, and cognitive development of these children;

Whereas the emphasis in the Head Start Program on broad-based participation of the parents of children enrolled in the program has contributed in many important ways to the self-sufficiency, self-esteem, and economic and psychological well-being of the parents as well as their children;

Whereas numerous studies have documented the lifelong beneficial effects of participation of Head Start Programs and the cost-effectiveness of the program; and

Whereas the Head Start Program is one of the most effective programs supported by the Federal Government: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That May 18, 1985, is commemorated as the twentieth anniversary of the establishment of the Head Start Program and that it is the sense of Congress that the Head Start Program has been a highly cost-effective and successful program and that the commitment of the Congress to the Head Start Program is reaffirmed.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Michigan [Mr. KILDEE] will be recognized for 20 minutes and the gentleman from Wisconsin [Mr. PETRI] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Michigan [Mr. KILDEE].

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 95 commemorates the 20th anniversary of Head Start and reaffirms the Congress' commitment to this exemplary child development program. The resolution was introduced by the gentleman from California [Mr. HAWKINS], chairman of the Committee on Education and Labor. Nearly 100 Members of both sides of the aisle have cosponsored the bill. This demonstrates once again the bipartisan popularity of this program.

Head Start provides comprehensive community-based services to address the health, nutritional, social, and educational needs of some of the Nation's poorest children and their families. As an example of Head Start's successful service delivery, last year 90 percent of Head Start children received medical screening, and of these, 96 percent got the medical treatment they needed. Similarly, 85 percent of all Head Start children received dental examinations, and of these, 96 percent got dental treatment. These programs coupled with strong early educational programs literally give these children a head start.

Head Start is a tremendous success story. The program has helped to focus the attention of the Nation on the importance of early childhood education and development. Research has proved both the long and short term effectiveness of this quality preschool program.

The program is very cost effective. We really minimize the need to spend dollars later on for remedial educational programs. We found out from experience the children who participate in the Head Start Program are generally promoted grade by grade as time ordinarily would have their promotion take place.

Head Start has provided services to more than 9 million disadvantaged youngsters since 1965. It has proved to be one of the Federal Government's most popular, effective, and enduring programs. The upcoming 20th anniversary is an appropriate occasion for Congress to reaffirm its support, so that Head Start can continue to improve the short- and long-term prospects of needy children of this country.

Mr. Speaker, I reserve the balance of my time.

Mr. PETRI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to commend my distinguished colleague, the gentleman from Michigan [Mr. KILDEE] for bringing this worthwhile resolution to the floor at this time and for giving me the opportunity to join with him in this effort, and urge the Members of this House to support House Concurrent Resolution 95, which, as we know, commemorates the 20th anniversary of the establishment of the Head Start Program.

Mr. Speaker, Head Start is widely recognized as one of the most cost-effective and successful programs ever enacted by Congress. Since it began in 1965 as an 8-week summer preschool program enrolling 561,000 children, Head Start has served more than 9.1 million children and families.

With a fiscal year 1985 budget of $1.1 billion, Head Start is currently serving 442,100 children in 9,000 centers nationwide.

The program also serves nearly 60,000 children with handicaps. In addition, 23 programs serve children of migrant workers, and 36 parent and child centers focus on families with children under the age of three.

Extensive studies have documented the effectiveness of a preschool program. Head Start children score higher on standardized tests; they perform better in school and are less likely to require special education. Studies show that every $1 spent on Head Start saves $2.36 that would otherwise be spent on special education and remedial services.

One of the more unique and most successful aspects of Head Start is its emphasis on parent involvement. The program reinforces parents' commitment to their children's well-being and education. Head Start also enjoys strong comunity support.

Please join me in commemorating the 20th anniversary of the Head Start Program and reaffirming our support for the program and its goals by supporting House Concurrent Resolution 95.

□ 1310

Mr. KILDEE. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. Mr. Speaker, I rise in support of House Conference Resolution 95, commemorating the 20th anniversary of Head Start.

Created on May 18, 1965, by President Lyndon B. Johnson, Head Start was a centerpiece of the war on poverty. But while many other early poverty programs have long since been extinguished, Head Start has not only survived, but has expanded and developed. It has thrived because it is accomplishing what it set out to do.

In the early sixties, research established that children who are mentally malnourished during the first few years of life are seriously disadvantaged. They face great difficulty catching up in the classroom. Most never do and face repeated failure in school and in their lives as adults.

Head Start was designed to prevent this cycle of failure. It offers a comprehensive, quality preschool experience for 3 and 4 year olds from poor families, and more recently, for children who are handicapped. It involves four components: education, health, social services, and a particularly key feature—parent involvement. Parent participation ensures continued interest in their child's educational progress throughout the school experience.

Since 1965, 9 million poor and handicapped children, and their families, have benefited from Head Start. Over 25,000 of them are from New Orleans alone—my congressional district.

This year, more than 1,100 children are participating in the New Orleans Head Start Program—some of them are third generation Head Start Children! The director of the program, Pearlie Elloie, who has been with Head Start since its inception, says significant numbers of first generation children came to Head Start with anemia, parasite infestation, and exposure to tuberculosis. Third generation children, whose mothers and grandmothers were in Head Start, are far healthier and have better diets.

Studies also show, unequivocally, that Head Start children stay in school longer, have better job prospects, are less involved in crime, and have fewer pregnancies. In testimony before the Select Committee on Children, Youth, and Families, Dr. David Weikart, director of the High/Scope Foundation, which evaluated quality, preschool education, told committee members the return on investment to society for each $1 spent on programs such as Head Start is $4.74.

Head Start is more than a cost-effective program, it is an investment in our Nation's future.

Mr. Speaker, I feel a personal exultation at the commemoration of Head Start's 20th anniversary. Twenty years ago, Lady Bird Johnson, who was the honorary chairman of the War on Poverty, invited me to the White House Conference on Head Start, and as I listened to all the experts, the educators, the pediatricians, the psychologists, and so on, I wondered why I had been invited by the First Lady to come to this conference. It was only in the question-and-answer period that followed the discussions that I discovered why I was there. People from all sorts of organizations from throughout the country complained that they had written or phoned in to express their interest and concern and their desire to help. As I was leaving the conference, I was confronted by Dr. Jules Richmond and by Diana MacArthur and asked, "What did you get out of the conference?"

I said, "I got out of it that tomorow morning I have to go down and find those letters and make certain they are answered." That is how I became the National Voluntary Chairman of the Head Start Program. We were able to have the computer of the War on Poverty give us the 300 neediest counties in the United States, and in 6 weeks' time, with volunteer help from this city and from all over the country, we were able to establish Head Start centers in 267 of those counties.

So, Mr. Speaker, it is with great love and pride and expectation that I urge my colleagues to vote in support of House Concurrent Resolution No. 95 commemorating the 20th anniversary of Head Start on May 18, 1985.

● Mr. MILLER of California. Mr. Speaker, May 18 marks the 20th anniversary of the establishment of Project Head Start.

Twenty years ago, the Head Start Program was created as part of this Nation's war on poverty. We knew then, as we do today, that low-income children who suffer from poor nutrition, inadequate health care and understimulating environments are often ill-equipped to learn when they start school. Many fall behind, and far too many never catch up. From the very beginning, these children are denied an equal chance of success in school and in life.

By fostering cognitive and emotional development, as well as sound physical health, Head Start has helped grant an equal opportunity to over nine million of this Nation's most disadvantaged children.

Head Start began in 1965 as a small, 6-to-8 week summer program intended to serve 100,000 low-income children in 300 counties. But because of the enormous need for the program, and because school superintendents and community leaders supported it so enthusiastically, it was quickly expanded to serve 560,000 children in 2,300 communities. In that first summer, 240 of the 300 poorest counties developed Head Start programs.

Today, Head Start is a comprehensive, year-round early childhood enrichment program serving 442,000 children. In California alone, nearly 33,000 children are served and in my congressional district, Contra Costa County, over 600 low-income preschool children are helped every day toward a brighter future through Head Start.

The program has been particularly instrumental in providing equal opportunities to minority children and children with special needs. Sixty-eight percent of Head Start's enrollment consists of black, Hispanic, Asian, and native American children. Over 55,000 handicapped children are enrolled in Head Start, and more than 25 percent of these children are multiply handicapped.

Much of Head Start's strength stems from the extensive involvement of parents. For every four children involved in the program, at least three parents are providing voluntary service, including work on parent-policy committees and in the classroom. Of the over 80,000 persons employed in Head Start programs, 29 percent are parents of current or former Head Start children.

Using any measure, Head Start has been a success. Head Start children score better than comparable non-Head Start children on standardized achievement tests, and are less likely to fail a grade, dropout of school or require special education. They are also

more likely to be of normal height and weight, with fewer absences from school due to illness.

The greatest gains from Head Start have come to those children most in need—those whose mothers have less than an 11th grade education and those who came to the program with the lowest intelligence test scores.

Head Start is also a very cost-effective program. Results from the longitudinal evaluation of the High/Scope Perry Preschool Program, which were presented in testimony to the Select Committee on Children, Youth, and Families, show that for every $1 invested in high quality early childhood education programs like Head Start, $4.75 is saved in lower special education costs, lower welfare and law enforcement costs, and higher worker productivity.

Yet despite Head Start's proven success, only about 20 percent of all eligible, low income preschool children are served. One thousand counties in this country have no Head Start Program. If we freeze Head Start's budget for fiscal year 1986 as the administration has proposed, 19,000 fewer children will be served than are currently served, and 19,000 fewer doors to opportunity will be opened.

Head Start's success is clear, but the job is far from over. There are over 5 million children under 6 living in poverty today, 1 million more than just 5 years ago. This fact alone testifies to the enormous need for Head Start to continue and expand. It became clear from the Select Committee's year-long bipartisan National Initiative on Child Care, culminating in our report, "Families and Child Care: Improving the Options," that Congress should annually increase the numbers of children served by Head Start.

We must remember, though, that in any future expansion of Head Start, it is vitally important that the full range of Head Start services continue to be provided. Much of Head Start's success stems from the fact that in addition to high quality early education, the program offers extensive medical, dental and mental health services, immunization services, and nutritious meals as well as training and social service assistance for parents. Low-income preschool children need the full Head Start package.

In commemorating the 20th anniversary of Head Start, we also commemorate our decision, as a nation, to invest in our own future by investing in our children. As we now see the benefits of two decades of success in helping millions of low-income children achieve their full potential, the wisdom of that decision is clear.

Head Start deserves the strong support of all of the Members of Congress. I urge my colleagues to reaffirm our commitment to this proven effective program, and work toward its expansion.●

● Mr. FOWLER. Mr. Speaker, very few of us were here 20 years ago when the Head Start Program was begun, but all of us have come to recognize its extraordinary success in providing services to meet the educational and health needs of low-income children.

The program has been in effect long enough for us to clearly see the benefits of participation in Head Start. The children from that first Head Start class in 1965 are now college graduates, members of the work force, taxpaying citizens. And those who have come behind them—9 million in all—show signs of similar success due to the exceptional preparation they received before elementary school.

But it is not only the children who have benefited. One of the hallmarks of the Head Start Program has been parental involvement—as board members, volunteer assistants and paid staff. This involvement has provided much needed boosts in self-esteem for the parents and has helped many of them become more self-sufficient.

And beyond the children and the parents, society as a whole has benefited. These children have become—or will in the future—our employees, our Nation's voters. Our Nation benefits from their improved health—in terms of increased productivity and decreased expenditures for health care—and from their education—in terms of their ability to hold down jobs and not be dependent on public assistance.

I am delighted to join with my colleagues in celebrating the 20th anniversary of this highly successful and cost-effective program. I hope we will continue to celebrate many more Head Start anniversaries in the years ahead.●

● Mr. HAWKINS. Mr. Speaker, I am most pleased to rise, along with my colleague on the Education and Labor Committee, Representative DALE KILDEE, in support of House Concurrent Resolution 95, commemorating the 20th anniversary of the Head Start Program, and House Concurrent Resolution 132, commemorating the 20th anniversary of the Older Americans Act. Both of these human needs programs are targeted at the most vulnerable groups of people in our society, the very young and the very old.

Head Start is often looked upon as the "crown jewel" of the Great Society programs enacted during the Johnson administration in the 1960's. Head Start has provided much-needed health, nutrition, educational and social services to hundreds of thousands of our Nation's poorest children over the last 20 years. Unfortunately, current funding levels allow only about 20 percent of the children eligible to participate in the program, leaving some 2 million youngsters without the benefits the program provides.

Statistics show that the Head Start Program is cost effective, both for individuals as well as for society as a whole. Head Start gives disadvantaged children a boost as they enter school and prevents far more costly services later due to juvenile deliquency, illiteracy or welfare dependency. Longitudinal studies have shown that children who have participated in Head Start achieve higher grades in school and are less likely to require special or remedial education. These same students also graduate from high school at a much higher rate and are more likely to secure gainful employment later in life. Head Start participants also have lower arrest and pregnancy rates than their peers who have not had the advantages the Head Start can provide. I believe continued support for this program is vital to improve the chances that our young people will be adquately nurtured, educated, trained and ready to face the challenges of the future.

Another sound investment of tax dollars is found in the variety of social service programs authorized by the Older Americans Act. We have a moral responsibility to ensure the well-being of our older citizens. The services provided by the act are targeted to meet the special needs of the elderly in the areas of income, health, housing, employment, retirement, and community services.

For example, under the act senior citizen centers are maintained for the care and companionship of the elderly; nutrition and health assistance programs are made available; home-delivered meals and other vital services are provided to those elderly who are homebound; employment programs for low-income older persons are provided in senior nutrition centers, children's hospitals, State parks, libraries and State and local community service agencies; in addition, the act authorizes training, research, and demonstration programs in the field of aging, such as research on Alzheimer's disease, legal services for older persons, home heating assistance, and other projects designed to improve the livelihood of the elderly and give them greater independence and dignity.

I urge my colleagues to vote favorably on these two important resolutions which acknowledge and reinforce our commitment to the nurturing of our young citizens and to the continued support for our senior citizens.●

● Ms. SNOWE. Mr. Speaker, today the House of Representatives gave official recognition to one of this Nation's most successful antipoverty programs by passing a concurrent resolution commemorating the 20th anniversary of Head Start. I believe that it is most fitting for the House to pause and reflect on the success of this program and the impact it has had on dis-

advantaged young children over the past two decades.

When originally conceived, Head Start was to be an 8-week summer project for low-income preschool children. Since that time the program has grown to become a comprehensive year-round program addressing the health, nutrition, social and educational needs of children from some of the Nation's poorest families. Head Start has also become a national leader among preschool programs in the mainstreaming of handicapped children.

During the last 20 years over 9 million children have benefited from the Head Start Program. Studies have shown that these Head Start children are less likely to require remedial education and are more likely to graduate from high school and find employment than their counterparts who did not have the benefit of attending a preschool program. Children enrolled in Head Start also receive medical screening and care more often than disadvantaged children who are not enrolled in Head Start.

Today Head Start is serving 430,000 children nationwide. In my home State of Maine 1,669 children are currently enrolled in federally funded Head Start Programs in 13 agencies across the State. It is gratifying to know that Head Start will give these children an improved opportunity to grow up healthy, well-educated and socially well adjusted.●

● Mr. CONTE. Mr. Speaker, as an original sponsor of House Concurrent Resolution 95, I rise in strong support of the resolution. I want to thank my good friend GUS HAWKINS, the Chairman of the Committee on Education and Labor, for agreeing to list me as an original sponsor of this bill.

Mr. Speaker, House Concurrent Resolution 95 commemorates the twentieth anniversary of the Head Start Program. On May 18, 1965, President Johnson announced the establishment of the tremendously successful Head Start Program, a preschool child development program conceived not so much as a Federal effort, but as a neighborhood effort. Children of poverty get a "head start" on their future under the program by receiving preschool training to prepare them for regular school in the fall. They get medical and dental attention that they badly need and parents receive counseling on improving the home environment.

Head Start is clearly one of the most successful, cost-effective and popular programs ever established by the Federal Government. Today's resolution reaffirms Congress' commitment to this outstanding program. What began in the summer of 1965 as a 6-8 week demonstration project was soon transformed into a program which has served some nine million low income preschool children since its creation. Today, more than 400,000 children are enrolled in Head Start programs throughout the Nation.

On the 15th anniversary of Head Start, one report indicated that when such factors as reduced cost of special education and remedial services were considered, Head Start's benefits outweighted its costs by 236 percent. The students score higher on mathematics and reading tests, and tend to show stronger achievment orientation than non-Head Start children.

Mr. Speaker, on this 20th anniversary of Head Start, it is prudent to recall the words of President Johnson when the program was established. "Five- and six-year-old children are inheritors of poverty's curse, and not its creators," he said. "Unless we act, these children will pass it on to the next generation, like a family birthmark." And in paying tribute to Head Start volunteers, President Johnson said that "the bread that they cast upon these waters will surely return many thousandfold."

Today, we commend these volunteers and this program for its benefits over the years. I'm proud to join my colleagues in doing so.●

● Mr. BONKER. Mr. Speaker, 20 years have passed since President Johnson launched Project Head Start as part of his war on poverty. Based on the theory that early childhood is the most critical period of a child's education and that young children growing up in poverty would learn better if their basic emotional, medical, nutritional, and educational needs were met, Head Start was designed to provide that opportunity. Originally just a summer program serving over half a million children, it has grown in funding from $96.4 million to almost $1.1 billion.

Despite rugged times in the past, Congress last year overwhelmingly granted Head Start a 2 year reauthorization. Even this administration, which has been openly critical of a number of social programs, has come to recognize the importance of Head Start—which now serves 448,250 students, 90 percent of whom are below the poverty line. Yet, there remain over one thousand counties in the United States who do not participate in Head Start, primarily for reasons of inadequate funding.

In my district of southwest Washington for example, an area with record level unemployment and obvious need, three of the most desperate counties are without Head Start programs. Start up funds for new programs are simply inadequate. The opportunity to make up for the disadvantages of background, fundamental to the idea behind the Head Start Program, is being lost for those children and for thousands of others around the country, because of poorly considered budget priorities.

Twenty years ago, Lady Byrd Johnson, honorary chair of Project Head Start, speaking about these children of poverty, said: "There is no more important task in our communities than for such children to hear a voice say, 'Come take my hand!'" I hope that over the next 20 years we can still make that hand available to needy children and in an even more generous way than we have been able to do so far.●

● Mr. COLEMAN of Missouri. Mr. Speaker, in the past 20 years, over 9 million children from low-income families have been given a chance to have an equal opportunity at life, a chance to begin at the same starting line as other children lucky to have been born into families with a little more money, stability, or time to properly care for their children.

This week marks the 20th anniversary of the Federal program responsible for giving these disadvantaged children the proper nutrition, education, medical, and emotional support they may have otherwise missed in their early years of development. That program is Project Head Start, a comprehensive developmental program that gives preschool children from low-income families the "head start" they need in order to begin elementary school at the same level of development as their peers from higher income families or a more stable homelife.

Since the program's earliest days, it has proven to be one of the most successful social programs to be administered by the Federal Government. Instead of being left at home unattended, children participating in Head Start are given the chance to go to preschool where they are taught to read and learn to better interact with other children under the supervision of trained adults. The program guarantees these children well-balanced meals as well as medical and dental treatment their families often are too poor to afford.

Studies have shown that these services, provided at such an early and important stage of development, have improved the quality of life, health and educational achievements or poverty-stricken children, over a period of many years.

According to one recent study, children who participated in Head Start preschool programs performed equal to or better than their peers when they began elementary school. There were notable improvements on the childrens' standardized tests in reading, language, and math, and it was shown that these children were more likely to go on to vocational or academic training after high school.

A particularly important finding was that children who participated in Head Start were less likely to be misclassified as mentally retarded or in need of special education, as is often the case of other economically disadvantaged children who do not receive such preschool education and social services. The study also found that the advantages gained by preschoolers continue into adulthood where they are more likely to be employed by higher paying jobs with greater job satisfaction.

The social impacts of the program extend beyond the child to the family and community. Single parents have been able to find work while their children attend school during the day. In addition, studies have reported a more positive relationship between parents and children as well as an increase in parent participation in the child's future education. The communities also benefit from the children being in school where they are less likely to get into trouble on the streets.

In its 20-year history, Head Start has proven its immeasurable worth to society. It's also cost effective—for every $1,000 invested in preschool education, at least $4,000 is saved in social service costs. Over 8,000 needy children in Missouri are currently participating in Head Start programs and, as a member of the House Education and Labor Committee, I will be working to see that they continue to receive the important services provided by this invaluable program.●

● Mr. ADDABBO. Mr. Speaker, 20 years ago, one of the cornerstones of the Great Society was laid when President Johnson signed the bill enacting the Head Start Program.

In recent years, it has become fashionable to attack many of the social programs that were enacted in those days. Some of those programs have perhaps outlived their usefulness, others may need to be modified. But for 20 years Head Start has lived up to and exceeded the expectations we had when we inaugurated it in 1965.

There is a popular notion now that the Federal Government cannot effectively administer programs that deal with the social needs of the people. The new wisdom says that only the private sector or government on the most local level should deal with matters of health, education, and social welfare.

For two decades Head Start has been proving this theory wrong. Unquestionably, some matters are better left to private groups and local government, but this should not exclude the Federal Government from playing a role in this area. Study after study has shown that children from disadvantaged backgrounds who participated in Head Start Programs, have scholastically outperformed their peers who did not.

Certainly in light of our huge Federal deficit, we need to reexamine all federally funded programs and make reductions in all parts of the budget. We must be careful however, not to dismantle the many worthwhile programs that have consistently paid dividends over the years. We should also not shy away from new programs. Government can play a role in helping its citizens improve their quality of life. Head Start is a shining example of what government can do when it applies its resources thoughtfully and imaginatively to the social needs of the society.●

● Mrs. LONG. Mr. Speaker, I stand before the House today, to show my total support of the highly successful Head Start Program, as the House commemorates its 20th anniversary and Congress reaffirms its commitment to the program.

Originally designed as an 8 week project under the Economic Opportunity Act, Head Start is now a yearround program of comprehensive services to address the health, nutrition, social, and educational needs of some of the Nation's poorest children and their families. Head Start has provided services to over 9 million disadvantaged youngsters since 1965, and has proved to be one of the most popular, cost effective, and enduring of the Federal Government's antipoverty programs.

Head Start gives disadvantaged children a better chance as they enter school and helps parents become more actively involved in their children's education and development. A follow-up of 820 Head Start children showed gains in school performance lasting as long as 13 years. With regard to key parental involvement, one-third of all Head Start staff are parents of current and former students. For every 15 children participating in Head Start, 10 parents provide volunteer services to the program.

The need for continued support for Head Start is evidenced by the fact that less than 18 percent of eligible children are being served at this time. Over 430,000 children participated in the program last year. In my own district, the Head Start Program has been a tremendous success, serving the needs of more than 40,000 deserving children. Next week I will again voice my support as I attend the first annual Combined Head Start Graduation in Ville Platte, LA, where I will witness at first hand the benefits of such an essential program as I speak to the graduates and their families.

Mr. Speaker, again I am proud to show my support for the Head Start Program as I pledge to ensure that such programs remain intact and continue to develop.●

Mr. KILDEE. Mr. Speaker, I thank the gentlewoman from Louisiana [Mrs. BOGGS] for her very moving testimony.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan [Mr. KILDEE] that the House suspend the rules and agree to the concurrent resolution, House Concurrent Resolution 95.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. KILDEE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the concurrent resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed a concurrent resolution of the following title, in which the concurrence of the House is requested:

S. Con. Res. 32. Concurrent Resolution setting forth the congressional budget for the U.S. Government for the fiscal years 1986, 1987, and 1988 and revising the congressional budget for the U.S. Government for the fiscal year 1985.

OBSERVING THE 20TH ANNIVERSARY OF THE OLDER AMERICANS ACT

Mr. KILDEE. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 132) observing the 20th anniversary of the enactment of the Older Americans Act of 1965.

The Clerk read as follows:

H. CON. RES. 132

Whereas 1985 marks the 20th anniversary of the enactment of the Older Americans Act of 1965;

Whereas over its 20-year history, the Older Americans Act of 1965 has provided important social and human services to tens of millions of older individuals in their communities, helping to promote greater independence for them and maintaining their dignity;

Whereas one of the key elements contributing to the successful implementation of the Older Americans Act of 1965 during this 20-year period was the establishment of the "aging network" which consists of State and area agencies on aging, as well as congregate and home delivered nutrition providers and other supportive service providers;

Whereas the Administration on Aging, created by the Act, has served as a purposeful advocate for the concerns and needs of older individuals;

Whereas the Act has provided important funds for research, training, and demonstration programs to improve, expand, and enhance services to older individuals;

Whereas the Act has provided important part-time community service employment opportunities for low-income older individuals, many of whom work in providing services to other older individuals;

Whereas the Act has sought to address the special needs of older American Indians through grants to Indian tribes;

Whereas the programs and services provided under the Act have been more successful because of the contributing role of volunteers;

Whereas the Act has periodically been amended by Congress in recognition of the changing needs of our rapidly aging society; and

Whereas the Older Americans Act of 1965 serves as a model for the development of community-based services which provided alternatives to institutionalization of older individuals: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) recognizes the 20th anniversary of the enactment of the Older Americans Act of 1965 and the successful implementation of such Act;

(2) acknowledges the many and varied contributions by all levels of the aging network and recognizes that the Act has achieved its mandate to the extent that it has because of the day to day work performed by the aging network; and

(3) reaffirms its support for the Older Americans Act of 1965 and its primary goal of providing services to maintain the dignity and promote the independence of older individuals in the United States.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Michigan [Mr. KILDEE] will be recognized for 20 minutes and the gentleman from Wisconsin [Mr. PETRI] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Michigan [Mr. KILDEE].

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

On behalf of the Committee on Education and Labor, I am pleased to bring before the House for consideration today, House Concurrent Resolution 132, to commemorate the 20th anniversary of the enactment of the Older Americans Act. This bill was introduced by my colleague, Congressman MARIO BIAGGI, together with 73 original cosponsors. I understand a number of additional Members have since joined in supporting the measure.

House Concurrent Resolution 132 commemorates the 20th anniversary of the enactment of the Older Americans Act of 1965, and acknowledges the many contributions of workers, both paid and volunteer, who have successfully implemented this act. The measure also reaffirms Congress' commitment to maintaining the independence and dignity of older individuals.

I have always believed that government's prime role is to promote, defend, and enhance human dignity. Meals on Wheels and other Older Americans Act programs certainly enhance, promote, and defend human dignity for they enable many people to remain in their homes rather than in convalescent or extended care facilities. In addition, these programs enable many others to be active contributors to their communities.

The Older Americans Act has more than lived up to its purpose of developing new and improved programs to help older persons. The aging network created under the act provides a full range of services and programs to meet the needs of older people in their own communities. In specific terms, in 1985:

More than 212 million meals will be served in senior centers and delivered to those homebound;

More than 9 million older individuals will receive home health visits, transportation, and other important services;

And 62,500 title V workers will be making important contributions in children's hospitals, senior nutrition centers, State parks, libraries, and other community sites.

At the time President Johnson signed the Older Americans Act into law, he stated the act "clearly affirms our Nation's high sense of responsibility toward the well-being of older citizens."

This program has long enjoyed strong, bipartisan support. I urge that we reaffirm that support on this 20th anniversary.

□ 1320

Mr. Speaker, I reserve the balance of my time.

Mr. PETRI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, May has been designated "Older Americans Month," and I believe it is therefore fitting for us to commemorate the 20th anniversary of the Older Americans Act, which is the cornerstone of our national policy on aging. The act embodies the key Federal programs serving the social and nutritional needs of our Nation's elderly.

In just two decades, a network of nutrition and social services has emerged as a result of the Older Americans Act. This network of services now touches the lives of senior citizens in nearly every community in the Nation.

The Older Americans Act has been recognized as one of the most effective pieces of legislation to be developed by Congress. In the reauthorization of the act last year, I had the opportunity to review the full range of services and programs which have evolved under the act and which continue to meet the needs of older people in their own communities.

These programs serve to maintain the independence and dignity of our senior citizens. The act is designed and has been a critical element in helping to avoid unnecessary and premature institutionalization for those elderly who can receive services in their homes and communities through a network of service providers.

The Older Americans Act has enjoyed bipartisan support of administrations and Congresses since its inception. I urge my colleagues to join me in supporting House Concurrent Resolution 132, to commemorate the 20th anniversary of the Older Americans Act and to reaffirm our support for the act and for the people it serves.

● Mr. BIAGGI. Mr. Speaker, as the author of this resolution I urge its passage by the House today. I regret that the death of my dear friend and trusted adviser Anthony Petretti causes me to be absent today.

I wish to first thank the distinguished chairman of the Subcommittee on Human Resources, Mr. KILDEE, for his invaluable assistance in gaining such expeditious consideration of this resolution. In addition, I wish to thank the chairman of the full Committee on Education and Labor, Mr. HAWKINS, and the ranking minority member, Mr. JEFFORDS, for their support of this resolution and their longstanding support of the program we salute with this resolution—the Older Americans Act.

My resolution which I am proud to say has been cosponsored by 132 of my colleagues on a bipartisan basis acknowledges a very important anniversary which occurs this year. I refer to the 20th anniversary of the Older Americans Act and its various programs and services. This resolution pays a special tribute to the so-called aging network which is in fact the motor which operates the Older Americans Act at the Federal, State, and local level. I will discuss their contributions later in this statement.

The Older Americans Act born during the Great Society of the 1960's has matured effectively in that decade and into the next and continues to succeed in this time when we have effectively seen the "baby boom" replaced by the "senior boom." Today we see the number of elderly in our Nation rising at a rapid rate to the extent that we now have more people over 60 than under 10 for the first time in our Nation's history. The passage of the Older Americans Act in 1965 was the direct outgrowth of a recommendation offered by the first White House on Aging convened under President Kennedy in 1961. Its passage signified the emergence of aging as a major national policy area and served to stimulate increased public in-

terest and attention to the needs of older Americans. It was established in response to what was identified at that time as a lack of community based social services for older persons. It was determined then and reaffirmed through amendments through the years that providing these social and human services would keep a number of these seniors out of costly nursing homes and within their community.

In fact if one were to identify the key mission of the Older Americans Act it is to provide those elderly in the greatest economic and social need with an array of human service programs which will assist them in maintaining their dignity and independence within their homes and their communities.

It has been my distinct pleasure and privilege to have been closely associated with the Older Americans Act throughout my 16 years in the House of Representatives. I have been on the Education and Labor Committee since my election to Congress and this is the committee of responsibility for the act. In that capacity I have been associated with eight of the nine series of amendments which have been offered to improve the original act. I have seen these amendments produce substantive reforms in the programs which led to the establishment of the congregate and home delivered meals programs as well as the official establishment of the aging network.

I have also been closely associated with the Older Americans Act in an oversight capacity by virtue of my service on the House Select Committee on Aging. I am an original member of this committee and since 1977 have served as the chairman of the Subcommittee on Human Resources which has among its area of jurisdiction the Older Americans Act.

To appreciate the Older Americans Act is to know people who work at its programs as well as those seniors who receive its services. I have had the good fortune to know many of both groups in my congressional career. I have worked closely with State agencies on aging, area agencies on aging, nutrition project directors, both congregate and home delivered as well as a myriad of other individuals who are vital in the aging network. Essential to the success of the Older Americans Act have been all of the aging organizations which make up the leadership and backbone of the act itself. These include the National Association of Area Agencies on Aging, the National Association of State Units on Aging, the National Association of Nutrition and Aging Services Programs and the National Association of Meal Providers as well as the title V contractors: The National Council of Senior Citizens, American Association of Retired Persons, the Gray Panthers, The Retired Senior Volunteer Program, the National Senior Citizens Law Center, The National Association of Retired Federal Employees, Meals on Wheels, the Gerontological Society of America, the Senior Companion Program, Association for Gerontology in Higher Education, The National Caucus and Center on Black Aged, the National Interfaith Coalition on Aging, NCCBA, NICA, AAHA, WGS, NAOAVPD, the Older Women's League, ASFCS, RMDUAW, National Council on Aging, ANPPM and NP/ARCA, and many more leadership organizations with whom I have been in close and constant contact.

As part of the 20th anniversary of the enactment of the Older Americans Act, the Subcommittee on Human Services is preparing a report on the Older Americans Act. It will feature observations and statements from those who have made singular and important contributions to the act during its history.

These include:

Ms. Eleanor Cain, Director of the Division on Aging, Department of Health and Social Services.

Mr. Charles Reed, Director of the Bureau of Aging and Adult Services, Department of Social and Health Services.

Mr. Daniel A. Quirk.

Mr. Donald Riley.

Ms. Katherine Morrison, Administration on Aging.

Ms. Charlotte Frank, Administration on Aging.

Mr. Gene Handlesman, Deputy Assistant Secretary for Human Development Services.

Mr. Charles Wells, Deputy Commissioner on Aging, Administration on Aging.

Mr. Arthur Flemming.

Ms. Betty Brake, ACTION.

Ms. Elizabeth B. Douglass, Executive Director, Association for Gerontology in Higher Education (AGHE).

Mr. Cyril Brickfield, Chairman, Leadership Council of Aging Organizations, c/o American Association of Retired Persons.

Mr. Wayne Moore, Director, Legal Counsel for the Elderly.

Mr. Jonathon A. Weiss, Executive Director, Legal Services for the Elderly.

Mr. C.C. Clinkscales III, National Director, National Alliance of Senior Citizens.

Mr. Samuel J. Simmons, President, National Causcus and Center on Black Aged.

Mr. Jack Ossofsky, Executive Director, National Council on the Aging.

Ms. Jacquelyne J. Jackson, Director, National Council on the Black Aging.

Mr. William R. Hutton, Executive Director, National Council of Senior Citizens.

Mr. Burton Fretz, Executive Director, National Senior Citizens Law Center.

Ms. Carmela G. Lacayo, Executive Director, Association Naconal Pro Personas Mayores.

Mr. John M. Cornman, Executive Director, Gerontological Society of America.

Mr. Thomas Bergen, Executive Director, National Geriatrics Society.

Mr. Paul Sheppard, University of Maryland Center on Aging.

Ms. Fran Butler, EMJ Consultants.

The Honorable Richard S. Schweiker, American Council Life Insurance.

In conclusion, Mr. Speaker, a vote for this resolution is likely to be a vote appreciated by a constituent, since practically every congressional district in the Nation has one or more component of the aging network within it as well as part of the millions of seniors who participate in programs under the Older Americans Act. I urge favorable consideration today.●

● Ms. SNOWE. Mr. Speaker, I rise in support of House Concurrent Resolution 132 commemorating the 20th anniversary of the enactment of the Older Americans Act.

Twenty years ago, in a bold stroke, Congress recognized that the growth of the aging population would require the establishment of a national policy. As the number of older persons grew, it was recognized that the limited resources were not enough to provide for

the needs of the vulnerable aged. Nor were the elderly getting a proportional amount when compared to other age groups. It was in this environment that the Older Americans Act was first conceptualized.

Over the past two decades, the Older Americans Act has become a focal point for the development of a comprehensive, coordinated system for service delivery to the elderly. It has enabled older persons to remain self-sufficient by providing services that permit them to remain in the community and to function at a level consistent with their ability.

What began as a few small service grants and research projects has grown into a system which administers social services in 57 States and terrorities and in 660 localities. Appropriations have increased from around $6.5 million in fiscal year 1966 to over $1 billion in 1985, all of which is designed to meet the social services needs of older persons.

As the program has developed, so has our understanding of the needs of older persons. Special emphasis has been placed on services which break down barriers of all types, such as transportation which assures adequate access to services; legal services which provides older persons with a means of advocating for their rights; and in-home services which enables the elderly to remain in their home setting rather than being institutionalized.

As is the case with all responsive programs, the Older Americans Act has changed as the needs of the elderly have changed. In November of 1983, in a bill I introduced, priority was given to education grant proposals for students who study the custodial or skilled care of victims of Alzheimer's disease. As a result of these provisions, there is a pool of trained personnel who will be available to work in settings such as home health agencies, adult day care centers, senior centers, nursing homes, and veterans' hospitals in the care of those who suffer from this debilitating illness.

There are also education and demonstration projects specifically with the victims of Alzheimer's disease and their families in mind. These provide for respite and community based care services which serve to reinforce the roles of the State area agencies in providing services to care-giving families.

In yet another change in 1984, the House Education and Labor Committee included a second bill that I introduced. This bill increased authorization levels for title III-B supportive services and senior centers. These programs include the critical transportation, in-home, and adult day care programs. The purpose of these community-based programs is to delay or prevent institutionalization by providing alternatives.

Currently, title III-B has grown as more title III-C moneys have been diverted to pay for the increased demand for social services. With the implementation of the diagnosis related groups [DRG's] reimbursement system, many persons being discharged into the community are sicker and more vulnerable than has been true in the past. As never before, the need for an adequate system of social services is becoming apparent. Home health benefits are more in demand than ever as are the need for respite and day care.

As we celebrate the 20th birthday of the Older Americans Act, it is clear that we have before us the challenge to continue to provide the same high quality of services, to continue to provide alternatives to institutionalization, and to continue to assure that our older citizens reap the value of the contributions they have made to our society.●

● Mr. ROYBAL. Mr. Speaker, as chairman of the Select Committee on Aging, I would like to take this opportunity to thank the members of this Chamber, both past and present, who have been vigilant in their support of the Older Americans Act and the elderly citizens of our great Nation; 1985 marks the 20th anniversary of the passage of the Older Americans Act. This landmark legislation continues to be the primary source of social service delivery to millions of older Americans. Over the last 20 years, the programs and services which have been established through this act have enhanced the quality of life for seniors. These programs have provided the basic supportive and nutritional services needed by many older persons to help them remain active and live independently with dignity.

Since the passage of the Older Americans Act, 672 area agencies on aging have been established throughout the country to help coordinate services to our Nation's senior citizens. It is estimated that 9.3 million elderly currently benefit from services such as in home and adult day care, and congregate and home delivered meals.

These successful programs have proven, time and time again, to be effective in preventing premature institutionalization. However, it is my firm belief that there still is much work to be done. During this time of budget restraint, I must emphasize that Older Americans Act programs have already sustained their share of budget cuts.

Three main factors are placing an increasing burden on limited Older Americans Act dollars: First, the increase in early hospital discharges associated with the Medicare prospective payment system; second, the increasing demand for supportive and long-term care services because of cutbacks in other programs, and third, the increasing number of persons who need assistance. We must also remember that as the elderly population increases, the need for these services will continue to grow as well. The U.S. Census Bureau projects that the population age 65 and older will increase by 100 percent between 1980 and the year 2020, compared to an increase of only 21 percent for the population under age 65.

It is particularly appropriate that we celebrate the 20th anniversary of the Older Americans Act during May, which has been designated as "Older Americans Month." Again, as chairman of the Aging Committee, I wish to thank those in this body who through the years have supported the Older Americans Act, its goals and objectives. I think that the Congress should be proud of their efforts and the success of this legislation on the occasion of its 20th anniversary.●

● Mr. LIGHTFOOT. Mr. Speaker, as an original cosponsor of House Concurrent Resolution 132, and as a member of the Select Committee on Aging, I rise today in strong support of this resolution to commemorate the 20th anniversary of the Older Americans Act of 1965. This resolution will reaffirm our commitment to the well-being of older Americans.

The Older Americans Act has provided important social and human services to older individuals. It has improved the lives of older Americans in the areas of income, health, housing, employment, retirement, and community services. One of the most important features of the act is the establishment of an aging network which consists of State and area agencies on aging, as well as congregate and home delivered nutrition providers and other supportive services.

This network is providing more than 9 million older Americans with a variety of supportive services. For example, 212 million meals will be served during this year. The title V Community Employment Program currently supports 62,502 employment positions in children's hospitals, senior nutrition centers, State parks, libraries, and State and local governments. And the title VI program assists 83 Indian tribal organizations to better serve their older members.

With an ever increasing older population, it will be even more important for us to analyze and acknowledge the needs of older Americans and to provide services and programs which will ensure their health and well-being. I believe that the Older Americans Act has done an exceptional job at meeting many of these needs. This can be shown by the strong bipartisan support this act has received from my colleagues over its 20-year history.●

● Mr. PEPPER. Mr. Speaker, I would like to take this opportunity to speak in favor of House Concurrent Resolu-

tion 132, to observe and formally recognize the 20th anniversary of the Older Americans Act.

This resolution, which was proposed by my distinguished colleague, the Honorable MARIO BIAGGI, salutes the success the Older Americans Act has enjoyed over the past two decades.

The Older Americans Act, enacted by the Congress in 1965, has proved to be one of this country's most effective pieces of legislation. The act provides for a full range of services and programs that fill the needs of older people in their own communities—senior center and nutrition programs, home-delivered means for the homebound and employment opportunities for low-income older individuals. In addition, the act finances research, training, and demonstration programs designed to develop better ways to meet the needs of the elderly.

The proposed resolution, it should be noted, also pays special tribute to the aging network established under the Older Americans Act—a component which exists in each and every congressional district in the United States and has proved so important through the years.

The mission of the Older Americans Act is to provide those elderly in the greatest social and economic need with an array of social and human services which will help them maintain their independence and dignity. It has, for two decades, faithfully met that charge. It is with great pleasure that I endorse House Concurrent Resolution 132 saluting the 20th anniversary of the Older Americans Act. I urge all my colleagues committed to America's elderly to do the same.●

● Mr. CONTE. Mr. Speaker, as a cosponsor of House Concurrent Resolution 132, I rise in strong support of this resolution. The resolution commemorates the 20th anniversary of the Older Americans Act.

Mr. Speaker, on July 14, 1965, President Johnson signed the Older Americans Act into law, saying that the act "clearly affirms our Nation's high sense of responsibility toward the well-being of older citizens." This act was designed specifically to address the needs of older people.

Mr. Speaker, the Older Americans Act is the major vehicle for organization and delivery of services solely to senior citizens, services tailored to meet their special needs. Today, it is a program supporting 662 area agencies on aging and 57 State agencies. The network provides a full range of services to senior citizens: from senior centers, nutrition programs, and home-delivered meals to other services for the homebound, and employment opportunities for the elderly.

It is estimated that this year, more than 9 million older persons will be receiving a variety of supportive services. Over 212 million meals will be served to the elderly. The Community Employment Program supports 62,502 employment positions in children's hospitals, senior nutrition centers, State parks, libraries, and State and local governments.

The Older Americans Act is perhaps most important because it recognizes the worth and benefit of our Nation's senior citizens. It sends them a message that they will not be forgotten—not those who have done so much to make our Nation what it is today.

Mr. Speaker, as a strong supporter of the Older Americans Act, I believe that it is important for Congress to both recognize its accomplishments and benefits, and to reaffirm our commitment to it. I urge my colleagues to support me in this recognition and reaffirmation.●

● Mr. KANJORSKI. Mr. Speaker, I am proud to join my colleagues in the House in passing House Concurrent Resolution 132, legislation commemorating the 20th anniversary of the Older Americans Act.

Since its passage in 1965 the Older Americans Act has helped millions of our Nation's senior citizens to live their lives with honor and dignity. It has improved the quality of their lives through a wide variety of health, housing, nutrition, employment, and community service programs. These services are provided through a network of 57 State agencies and 662 area agencies.

Perhaps the best known of the Older Americans Act programs are its nutrition programs like Meals on Wheels which will provide 212 million meals this year to senior citizens at senior centers and through home delivery. These programs are instrumental in allowing senior citizens to maintain their independent lives. In the long run they save the taxpayer millions of dollars by allowing seniors to live outside more expensive facilities like nursing homes. In Luzerne County, PA, some 350 senior citizens receive home delivered meals every day through a program funded in part by the Older Americans Act.

The title V senior employment programs will employ an estimated 62,500 senior citizens around the Nation in hospitals, nutrition centers, State parks, libraries, and other community service centers. In addition to providing income and a sense of self-worth to the seniors who are employed through these programs, they also help to provide essential social services to other senior citizens. Title V helps seniors to aid each other.

Some 9 million senior citizens also receive home health care visits through the Older Americans Act. Like the nutrition programs, the home health care program helps senior citizens maintain their independent lives. This program is particularly important in northeastern Pennsylvania. Roughly 1,000 senior citiznes in Luzerne County receive light housekeeping, bathing, and other homemaker services through programs funded in part by the Older Americans Act. An additional 1,500 senior citizens have minor, but important, home repairs and other chores performed each year through Older Americans Act programs.

For those individuals who need more care than homemaker services can provide, but who do not need to be institutionalized, the Older Americans Act also helps to fund adult day care programs. The Luzerne County Area Agency on Aging advises me that 30 to 40 senior citizens in Luzerne County are currently benefiting from these services.

Mr. Speaker, all too often we hear only about Government programs that don't work. It is both fitting and appropriate that we pay tribute to the Older Americans Act, a program that has worked, and worked well, for two decades. Everyone who has had a part in the creation of the Older Americans Act, and the delivery of its services, deserves our heartfelt thanks and congratulations.●

● Mr. MANTON. Mr. Speaker, I am pleased to rise in favor of House Concurrent Resolution 132, of which I am an original cosponsor. House Concurrent Resolution 132 recognizes the 20th anniversary of the enactment of the Older Americans Act.

Since its enactment in 1965, the Older Americans Act has benefited the lives of millions of older Americans. The act was established to maintain the dignity and promote the independence of older individuals in the United States. For the past 20 years, the Older Americans Act has successfully achieved its important mandate. This has been accomplished through the establishment of the "aging network," consisting of State and area agencies on aging, through the establishment of congregate nutrition sites across the Nation, by providing important funds for research and training, and with the involvement and hard work of dedicated volunteers.

I strongly urge my colleagues to support the resolution, which not only commends the important ideals behind the act, but also reaffirms congressional support for these programs which benefit constituents in every congressional district in the United States.

Finally, Mr. Speaker, I would like to commend my dear friend and colleague from New York [Mr. BIAGGI], for authoring this important bill. I have enjoyed working with him on this legislation and I look forward to continuing our work to protect the interests of our Nation's seniors. In addition, I commend the gentleman from Michigan [Mr. KILDEE], for his excel-

lent work in managing this legislation.●

● Mrs. LONG. Mr. Speaker, it is a pleasure for me to address the House today, to voice my support for the Older Americans Act, as the House commemorates the 20th anniversary of the act and Congress reaffirms its commitment to maintaining the independence and dignity of older individuals.

In representing a district in which approximately 15 percent of the population is over 65, I know the importance of the programs which come under the Older Americans Act. From a few small programs in the first year of implementation, the act now provides a full range of services and programs to meet the needs of older people in their own communities. Paid and volunteer workers will serve more than 212 million meals this year for senior centers and homebound individuals. More than 9 million older Americans will benefit from home health visits, transportation, and other services.

The Older Americans Act program has developed from a few small grants in 1966 to a program supporting 662 area agencies on aging and 57 State agencies. Whether it be the senior woman in Gonzales who receives lunch every day or the older man in Alexandria who is provided with home health visits, many people in Louisiana's Eighth Congressional District have benefited from such an essential piece of legislation.

Mr. Speaker, again, I am proud to show my support for the Older Americans Act and I pledge to continue to work to ensure the independence and dignity for our growing numbers of older Americans. As President Johnson stated in 1965 when he signed the Older Americans Act into law, "such an act clearly affirms our Nation's high sense of responsibility toward the well-being of older Americans."●

● Mr. GROTBERG. Mr. Speaker, I rise in strong support and as a cosponsor of House Concurrent Resolution 132, commending the 20th anniversary of the Older Americans Act. As one who has been active in senior citizen matters all of my life, I believe the Congress should recognize the anniversary of the signing of the 1965 Older Americans Act. For several years before I came to the House, I served as a consultant for the Lutheran Social Services of Illinois and managed the Hotel Baker in my hometown, St. Charles, IL. The Hotel Baker had been converted into a senior residency in 1971 and is owned and operated by the Lutheran Social Services. My experiences with the seniors there, throughout my State legislative district and now in my congressional district have been extremely rewarding. I take this opportunity to add my congratulations to those who had the foresight to pass this legislation 20 years ago and to those who have since implemented its far-reaching and important provisions.●

● Mr. HAMMERSCHMIDT. Mr. Speaker, today we commemorate the 20th anniversary of the Older Americans Act, the benchmark legislation which has so successfully created programs which assist older persons in continuing to be full participating members of our society.

The passage of the Older Americans Act [OAA] in 1965 indicated our country's awareness of the special needs of a growing aging population, and affirmed our commitment to providing programs targeted specifically to meet their special needs. Over the years, the act has remained in step with the growing needs of the elderly; Congress has voted, on seven separate occasions, to reauthorize it. Appropriations for the programs under the OAA have increased from $6.5 million in fiscal 1966 to $1 billion during fiscal 1984. Almost 10 million persons are now participants in OAA programs, either as providers or beneficiaries. Today, over 660 locally based Area Agencies on Aging [AAA] have been established to coordinate programs funded under the OAA to help older persons get the services they need to live independently in their community. Older persons can now receive a wide range of services, including information and referral, transportation, homemaker, home health, legal counseling, meals, residential repair, and others.

In my State of Arkansas, where we have the second highest per capita number of older persons in the country, and in my district, which is predominantly rural, the decentralized structure of the AAA's has served my constitutents well. The emphasis on local control over the program's implementation creates a concerned and responsive network of AAA's dedicated to serving a growing aging population, whose needs they know and care about.

The nursing home ombudsman programs have been expanded to include consumer information, investigation, and recommendations to State legislatures. On any given occasion, I can call one of four AAA's serving my district and inquire about the quality of a nursing home, or the care of a patient there, and an ombudsman will go out that day and report back on the situation. Or, if I receive a letter about an elderly constituent who is unattended, or in need of assistance, I can call the local AAA director and they will have an AAA official go out to the home and tend to needs of that individual. I can't say enough good things about the AAA staffs in my district. So, Mr. Speaker, the AAA's have been an integral facet of the OAA, and have served as the eyes and ears from many Members, including myself.

There are some other aspects of this fine program which I would like to mention, mainly because they are unique in their usefulness and resourcefulness. First, the provision permitting the Department of Agriculture to contribute surplus commodities to the Title III Nutrition Program is both beneficial and cost effective; it allows these meal programs to serve more people by expanding their food budget. Second, the Title III Home Delivered Meals Program, which provides one meal a day to persons confined to their home, enables those persons to have a consistently nutritional diet and increased social interaction than might otherwise be available to them. In many cases, the home delivered meals allow persons to remain in the home and avoid costly institutionalization. The Congregate Meals Program is another program which has been highly successful. Meals are served in group settings, such as senior centers, schools, or churches, and qualifying older persons and their spouse may receive at least one meal per day, 5 days a week. This helps them to obtain needed nutrition while enjoying the company of other older persons. A wonderful part of this program is that those persons who can pay for either all or part of their meal are allowed to do so, and then this money is used to increase the number of meals served by the project.

I could go on and on describing the various programs which OAA funds, but the message, I trust, is clear. The OAA funds some of the most worthwhile, successful, and well-managed programs of any now supported by the Government. In this time of fiscal restraint, it is with pleasure that I look at programs such as these that are working to make life better for an invaluable sector of our society, without being a great burden to our budget. As a ranking member of the Select Committee on Aging, I am especially proud to see that legislation which helps older persons to live better quality lives is being commemorated today. I am honored to have had the opportunity to be involved, over the years, with many of the policies which have contributed to making life better for older persons, and I look forward to working with my colleagues to ensure that we continue to recognize, and address, the needs of older persons.●

Mr. PETRI. Mr. Speaker, I yield back the balance of my time.

Mr. KILDEE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan [Mr. KILDEE] that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 132.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. KILDEE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the concurrent resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

ARMY AND NAVY UNION OF THE UNITED STATES OF AMERICA

Mr. SAM B. HALL, JR. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 897) to recognize the Army and Navy Union of the United States of America.

The Clerk read as follows:

H.R. 897

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

CHARTER

SECTION 1. The Army and Navy Union of the United States of America, organized and incorporated under the laws of the State of Ohio, is hereby recognized as such and is granted a charter.

POWERS

SEC. 2. The Army and Navy Union of the United States of America (hereinafter referred to as the "corporation") shall have only those powers granted to it through its bylaws and articles of incorporation filed in the State or States in which it is incorporated and subject to the laws of such State or States.

OBJECTS AND PURPOSES OF CORPORATION

SEC. 3. The objects and purposes of the corporation are those provided in its articles of incorporation and shall also be—

(a) to hold true allegiance to the Government of the United States of America and fidelity to its Constitution, laws, and institutions;

(b) to serve our Nation under God in peace as well as in war by fostering the ideals of faith and patriotism, loyalty, justice, and liberty; by inculcating in the hearts of young and old, through precept and practice, the spirit of true Americanism; by participating in civic activities for the good of our country and our community;

(c) to unite in fraternal fellowship those who have served honorably and those who are now serving honorably in the Armed Forces of the United States of America; to protect and advance their civic, social, and economic welfare; to aid them in sickness and distress; to assist in the burial and commemoration of their dead; and to provide help for their widows and orphans; and

(d) to perpetuate the memory of patriotic deeds performed by the defenders of our country.

SERVICE OF PROCESS

SEC. 4. With respect to service of process, the corporation shall comply with the laws of the States in which it is incorporated and those States in which it carries on its activities in furtherance of its corporate purposes.

MEMBERSHIP

SEC. 5. Eligibility for membership in the corporation and the rights and privileges of members shall be as provided in the bylaws of the corporation.

BOARD OF DIRECTORS; COMPOSITION; RESPONSIBILITIES

SEC. 6. The board of directors of the corporation and the responsibilities thereof shall be as provided in the articles of incorporation of the corporation and in conformity with the laws of the State or States in which it is incorporated.

OFFICERS OF CORPORATION

SEC. 7. The officers of the corporation, and the election of such officers shall be as is provided in the articles of incorporation of the corporation and in conformity with the laws of the State or States wherein it is incorporated.

RESTRICTIONS

SEC. 8. (a) No part of the income or assets of the corporation shall insure to any member, officer, or director of the corporation or be distributed to any such person during the life of this charter. Nothing in this subsection shall be construed to prevent the payment of reasonable compensation to the officers of the corporation or reimbursement for actual necessary expenses in amounts approved by the board of directors.

(b) The corporation shall not make any loan to any officer, director, or employee of the corporation.

(c) The corporation and any officer and director of the corporation, acting as such officer or director, shall not contribute to, support or otherwise participate in any political activity or in any manner attempt to influence legislation.

(d) The corporation shall have no power to issue any shares of stock nor to declare or pay any dividends.

(e) The corporation shall not claim congressional approval or Federal Government authority for any of its activities.

(f) The corporation shall retain and maintain its status as a corporation organized and incorporated under the laws of the State of Ohio.

LIABILITY

SEC. 9. The corporation shall be liable for the acts of its officers and agents when acting within the scope of their authority.

BOOKS AND RECORDS; INSPECTION

SEC. 10. The corporation shall keep correct and complete books and records of account and shall keep minutes of any proceeding of the corporation involving any of its members, the board of directors, or any committee having authority under the board of directors. The corporation shall keep at its principal office a record of the names and addresses of all members having the right to vote. All books and records of such corporation may be inspected by any member having the right to vote, or by any agent or attorney of such member, for any proper purpose, at any reasonable time. Nothing in this section shall be construed to contravene any applicable State law.

AUDIT OF FINANCIAL TRANSACTIONS

SEC. 11. The first section of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal law", approved August 30, 1964 (36 U.S.C. 1101) is amended by adding at the end thereof the following:

"(68) Army and Navy Union of the United States of America"

ANNUAL REPORT

SEC. 12. The corporation shall report annually to the Congress concerning the activities of the corporation during the preceding fiscal year. Such annual report shall be submitted at the same time as is the report of the audit required by section 11 of this Act. The report shall not be printed as a public document.

RESERVATION OF RIGHT TO AMEND OR REPEAL CHARTER

SEC. 13. The right to alter, amend, or repeal this Act is expressly reserved to the Congress.

DEFINITION OF "STATE"

SEC. 14. For purposes of this Act, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

TAX-EXEMPT STATUS

SEC. 15. The corporation shall maintain its status as an organization exempt from taxation as provided in the Internal Revenue Code of 1954. If the corporation fails to maintain such status, the charter granted hereby shall expire.

TERMINATION

SEC. 16. If the corporation shall fail to comply with any of the restrictions or provisions of this Act the charter granted hereby shall expire.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Texas [Mr. SAM B. HALL, JR.] will be recognized for 20 minutes and the gentleman from Ohio [Mr. KINDNESS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. SAM B. HALL, JR.].

Mr. SAM B. HALL, JR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Army and Navy Union of the United States of America, Inc. was founded in 1886 and incorporated under the nonprofit laws of the State of Ohio in 1888. This organization is a civic, fraternal and social organization which was established to promote patriotism. It is the oldest veterans' organization of its type in the United States.

Membership in the organization is not restricted to any specific form, date, branch, place, or nature of military service. It is comprised of approximately 8,400 veterans in 10 States.

Members of the Army and Navy Union perform volunteer service for veterans and their families, including charitable work at VA hospitals. They also serve as burial escorts and ceremonial honor guards at funerals and provide aid to families of deceased veterans in adjusting to their loss.

It is the recommendation of the Judiciary Committee that H.R. 897 be passed by the House.

Mr. Speaker, I yield such time as he may consume to the gentleman from

Ohio [Mr. SEIBERLING], the sponsor of this measure.

Mr. SEIBERLING. Mr. Speaker, I thank the distinguished chairman, the soon-to-be distinguished Federal judge, the gentleman from Texas, for his support of this legislation and for bringing it to the floor in this timely fashion.

Mr. Speaker, I rise in support of H.R. 897, legislation I introduced to grant a Federal charter to the Army and Navy Union of the United States of America. I am grateful to the chairman of the Subcommittee on Administrative Law [Mr. SAM B. HALL, JR.] and to the chairman of the full Judiciary Committee [Mr. RODINO] for their willingness to bring my bill to the floor in such an expeditious manner.

The Army and Navy Union of the United States of America is a civic, fraternal and social organization united to promote patriotism in our society. The Army and Navy Union is the oldest veterans' organization of its type in the United States. Founded in 1886, and incorporated under the laws of the State of Ohio since 1888, it is the only veterans' organization in which membership is not limited to any specific form, date, branch, place, or nature of military service performed.

The Army and Navy Union is dedicated to the preservation of a free and independent Union States, and to providing assistance to veterans and their dependents. Since its earliest days, the Army and Navy Union has worked for the enactment of equitable laws to provide pensions, medical care, and other benefits to veterans.

The Army and Navy Union currently has some 8,400 members with posts in Ohio, New York, Georgia, Indiana, Tennessee, North Carolina, South Carolina, New Jersey, Massachusetts, and the District of Columbia.

The Army and Navy Union is headed by a national commander and his staff. The National Corps is administered by officers elected at an annual convention. Any member in good standing is eligible to hold any office in the organization. Each member State has its own State Department, which administers the operation of the local posts, known as Garrisons. Each State Department holds an annual encampment. Garrisons meet formally at least once a month. Garrison members elect their own officers and their own delegates to the National Encampment and the Department Encampment.

Members of the Army and Navy Union work on a voluntary basis performing services of assistance to veterans and their families. Members serve as burial escorts and ceremonial honor guards at veterans' funerals. They perform charitable work at Veterans' Administration hospitals, and assist the families of deceased veterans in adjusting to their loss.

The Army and Navy Union of the United States of America has a long and illustrious record of service to veterans and their families. Forty-one recipients of the Congressional Medal of Honor, including Eddie Rickenbacker and Gen. Douglas MacArthur, have held membership in the organization. Other members include President William McKinley, Supreme Court Justice Harold Burton, and Senator Charles Dick of Ohio.

Mr. Speaker, I am pleased that the House has the opportunity today to approve my bill, and thus to grant the Army and Navy Union the Federal charter which it has sought for so many years. The charter will provide this worthy organization with the national status it deserves.

Mr. KINDNESS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support and recommend approval by the House of this measure, which grants a charter to the Army and Navy Union of the United States of America.

The purpose of this legislation really is to recognize an existing State charter organization. The safeguards that are included in the granting of Federal charters over recent years are included in this legislation as well.

One of the things that might be brought to light in particular is that the legislation provides for certain contingencies which would cause a forfeiture of the charter if they were not complied with. There is annual reporting to the Congress on the functioning and financial functioning of the organization. The legislation requires the corporation to keep records, perform an annual audit as well. There are additional safeguards that are included in Federal legislation is included in this bill.

I think it is a worthy organization that should receive a Federal charter and I would urge support of the measure.

I have no requests for time, Mr. Speaker, and I yield back the balance of my time.

Mr. SAM B. HALL, JR. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I want to thank the chairman for yielding to me.

Mr. Speaker, I want to rise in support of the bill and associate myself with the remarks of my two colleagues.

We are proud that the organization began in Ohio and I commend the chairman for having the legislation brought to the floor. I hope we can pass it unanimously.

□ 1330

Mr. SAM B. HALL, JR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. SAM B. HALL, JR.] that the House suspend the rules and pass the bill, H.R. 897.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAM B. HALL, JR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

PEARL HARBOR SURVIVORS ASSOCIATION

Mr. SAM B. HALL, JR. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1042) to grant a Federal charter to the Pearl Harbor Survivors Association, as amended.

The Clerk read as follows:

H.R. 1042

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CHARTER.

The Pearl Harbor Survivors Association, a nonprofit corporation organized under the laws of the State of Missouri, is recognized as such and is granted a Federal charter.

SEC. 2. POWERS.

The Pearl Harbor Survivors Association (hereinafter in this Act referred to as the "corporation") shall have those powers granted to it through its bylaws and articles of incorporation filed in the State in which it is incorporated and subject to the laws of such State, and such powers shall include the following:

(1) To sue and be sued, complain, and defend in any court of competent jurisdiction.

(2) To adopt, alter, and use a corporate seal.

(3) To take gifts, legacies, and devices which will further the corporate purposes.

(4) To adopt, alter, and amend a constitution and bylaws, not inconsistent with the laws of the United States or any State in which the corporation is to operate, for the management of its property and the regulation of its affairs.

(5) To change and collect membership dues and subscription fees and to receive contributions or grants of money or property to be used to carry out its purposes.

(6) To establish, regulate, and maintain offices for the conduct of the affairs of the corporation.

(7) To promote the formation of auxiliaries, the membership requirements of which

shall be determined according to the constitution and the bylaws of the corporation.

(8) To publish a magazine or other publications.

(9) To adopt emblems and badges.

(10) To do any and all lawful acts and things necessary or desirable to carry out the objects and purposes of the corporation.

SEC. 3. OBJECTS AND PURPOSES OF CORPORATION.

The objects and purposes of the corporation are those provided in its articles of incorporation and shall include the following:

(1) To uphold and defend the Constitution of the United States.

(2) To collate, preserve, and encourage the study of historical episodes, chronicles, mementos, and events pertaining to "The Day of Infamy, 7 December 1941", and in particular those memories and records of patriotic service performed by the heroic Pearl Harbor survivors and nonsurvivors.

(3) To shield from neglect the graves, past and future, of those who served at Pearl Harbor on such day.

(4) To stimulate communities and political subdivisions into taking more interest in the affairs and future of the United States in order to keep our Nation alert.

(5) To fight unceasingly for our national security in order to protect the United States from enemies within and without our borders.

(6) To preserve the American way of life and to foster the spirit and practice of Americanism.

(7) To instill love of country and flag and to promote soundness of mind and body in the youth of our Nation.

SEC. 4. SERVICE OF PROCESS.

With respect to service of process, the corporation shall comply with the laws of the State in which it is incorporated and those States in which it carries on its activities in furtherance of its corporate purposes.

SEC. 5. ELIGIBILITY FOR MEMBERSHIP.

Eligibility for membership in the corporation and the rights and privileges of members of the corporation shall be as provided in the constitution and bylaws of the corporation, except that terms of membership and requirements for holding office within the corporation shall not be discriminatory on the basis of race, color, religion, or national origin.

SEC. 6. BOARD OF DIRECTORS.

The composition of the board of directors of the corporation and the responsibilities of such board shall be as provided in the articles of incorporation of the corporation and in conformity with the laws of the State in which it is incorporated.

SEC. 7. OFFICERS OF CORPORATION.

The positions of officers of the corporation and the election of members to such positions shall be as provided in the articles of incorporation of the corporation and in conformity with the laws of the State in which it is incorporated.

SEC. 8. RESTRICTIONS ON CORPORATE POWER.

(a) DISTRIBUTION OF INCOME OR ASSETS TO MEMBERS OR OFFICERS OF THE CORPORATION.—No part of the income or assets of the corporation shall insure to any member, officer, or director of the corporation or be distributed to any such person during the life of the corporation or upon its dissolution or final liquidation. Nothing in this subsection shall be construed to prevent the payment of compensation to the officers of the corporation for services rendered to the corporation or to prevent their reimbursement for actual necessary expenses in amounts approved by the board of directors.

(b) LOANS OR ADVANCES.—The corporation shall have no power to make loans or advances to any member, officer, director, or employee of the corporation.

(c) ISSUANCE OF STOCK OR PAYMENT OF DIVIDENDS.—The corporation shall have no power to issue any shares of stock or to declare or pay any dividends.

(d) NONPOLITICAL NATURE OF THE CORPORATION.—The corporation and its officers, employees, and agents acting as such shall have no power to contribute to, support, or otherwise participate in any political activity or in any manner attempt to influence legislation.

(e) APPROVAL OF THE CONGRESS OR THE FEDERAL GOVERNMENT.—The corporation shall have no power to claim congressional approval or Federal Government authority for any of its activities.

SEC. 9. LIABILITY.

The corporation shall be liable for the acts of its officers and agents when they have acted within the scope of their authority.

SEC. 10. BOOKS AND RECORDS; INSPECTION.

The corporation shall keep correct and complete books and records of accounts and shall keep minutes of the any proceeding involving any of its members, the board of directors, or any committee having authority under the board of directors. The corporation shall keep at its principal office a record of the names and addresses of all members having the right to vote in any proceeding of the corporation. All books and records of the corporation may be inspected by any member, or any agent or attorney of such member, for any proper purpose, at any reasonable time.

SEC. 11. AUDIT OF FINANCIAL TRANSACTIONS.

The first section of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal law.", approved August 30, 1964 (78 Stat. 636; 36 U.S.C. 1101), is amended by adding at the end thereof the following:

"(69) Pearl Harbor Survivors Association.".

SEC. 12. ANNUAL REPORT.

The corporation shall report annually to the Congress concerning the activities of the corporation during the preceding fiscal year. Such annual report shall be submitted at the same time as the report of the audit of the corporation required pursuant to section 2 of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal law.", approved August 30, 1964 (78 Stat. 636; 36 U.S.C. 1102). The report shall not be printed as a public document.

SEC. 13. RESERVATION OF RIGHT TO AMEND OR REPEAL CHARTER.

The right to alter, amend, or repeal this Act is expressly reserved to the Congress.

SEC. 14. DEFINITION OF "STATE".

For purposes of this Act, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the territories and possessions of the United States.

SEC. 15. TAX-EXEMPT STATUS.

The corporation shall maintain its status as an organization exempt from taxation as provided in the Internal Revenue Code of 1954.

SEC. 16. EXCLUSIVE USE OF CORPORATE NAME.

The corporation and its regional districts and local branches shall have the sole and exclusive right to use in carrying out its purposes the name "Pearl Harbor Survivors Association", and such seals, emblems, and badges as the corporation may adopt.

SEC. 17. TERMINATION.

If the corporation shall fail to comply with any of the restrictions or provisions of this Act, the charter granted by this Act shall expire.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Texas [Mr. SAM B. HALL, JR.] will be recognized for 20 minutes and the gentleman from Ohio [Mr. KINDNESS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. SAM B. HALL, JR.].

Mr. SAM B. HALL, JR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Pearl Harbor Survivors Association is a nonprofit corporation which was organized in 1958. In 1964, the association was incorporated under the laws of Missouri.

As the name of the organization suggests, this organization was formed by a group of survivors of the attack on Pearl Harbor by the Japanese on December 7, 1941. Membership is open to anyone who, on that infamous date, was a member of the Armed Forces of the United States and who was stationed on Pearl Harbor, the Island of Oahu, or offshore within 3 miles. The association currently has about 9,700 members.

The Pearl Harbor Survivors Association is dedicated to the purpose of promoting and promulgating the obligations of citizenship and patriotism. They are active in preserving gravesites of those who died in the Japanese attack on Pearl Harbor. They also erect monuments and preserve historical mementos of that attack.

It is the recommendation of the Judiciary Committee that H.R. 1042 be passed by the House.

Mr. KINDNESS. Mr. Speaker, I yield myself such time as I may consume.

I support and recommend adoption of this Federal charter as well.

One comment does appear to be in order. In the granting of Federal charters we have in recent years granted some charters to organizations which are bound to have a limited existence. This is one of those organizations. Because of its membership being basically those who were survivors of a particular event in history there is no opportunity for that membership to expand and continue on a perpetual basis.

Whether such charters should be granted is open to some question as a matter of policy for this House and the other body to decide. This is a worthy organization. Its purposes are good and sound. Its services to veterans are very appropriate, and I support the granting of the charter.

I think, however, we ought to be looking a lot more closely at whether charters should be granted to organizations that are bound to reduce in size and at some point in time be inactive or become inactive, for all practical purposes at any rate.

The question then is what do we do to clean up the record. Does the Congress then pass legislation to disestablish the Federal charter with the emotional approach that might be involved in such cases, or do we wait until the organization no longer qualifies under State law as a valid corporation, and then the Federal charter automatically ceases to exist?

Nonetheless, Mr. Speaker, we have granted charters of this nature to the submarine veterans of World War II, for example, in the last Congress. I think this group is certainly worthy of that same recognition and I would only raise the policy question for consideration further down the line with any subsequent opportunities that we have to consider it with organizations of a similar sort.

● Mr. RUDD. Mr. Speaker, as a cosponsor of H.R. 1042, I rise in strong support of granting a Federal charter to the Pearl Harbor Survivors Association to honor its 9,700 current members who survived that unprovoked and devastating attack by the Japanese nearly 44 years ago.

Membership in this distinguished veterans organization is open to anyone who was a member of the U.S. Armed Forces stationed in Pearl Harbor, on the Island of Oahu or offshore on that fateful day that launched our Nation into World War II, December 7, 1941.

Members of the Pearl Harbor Survivors Association continue to serve our Nation honorably today. They work to preserve relics of the attack as well as the gravesites of those who were not so fortunate and gave their lives on that day in defense of our Nation.

In passing this legislation we not only honor the survivors, but also their fallen comrades.

Let us pledge our commitment to ensuring the strength of the United States against foreign aggression to guarantee that such a tragic incident will never occur again.

I urge adoption of the bill.●

● Mr. DWYER of New Jersey. Mr. Speaker, as the prime sponsor of this legislation, I rise in support of H.R. 1042, which would grant a national charter to the Pearl Harbor Survivors Association.

The distinguished chairman of the subcommittee has thoroughly explained the bill's purpose and how it accomplishes this purpose. I am grateful to him and to the chairman of the full committee, Mr. RODINO, for their courtesy and for the expeditious treatment which they have given to this legislation.

Mr. Speaker, today we have the opportunity to pay tribute to those Americans who survived the most disastrous surprise attack ever undertaken against America. But, just as importantly, this legislation gives us the opportunity to pay homage to those who did not survive this event. Those who were killed—and those who were permanently disabled—were the true heroes of this episode and are the ones we honor by passing this bill today.

Again, Mr. Speaker, I would urge all of my colleagues to support this legislation. It carries with it no cost to the Treasury, but a tremendous amount of significance to those who were there, those who lost loved ones there and those who remember the horror of that Sunday morning 44 years ago.●

Mr. SAM B. HALL, JR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. SAM B. HALL, JR.] that the House suspend the rules and pass the bill, H.R. 1042, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAM B. HALL, JR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

DAUGHTERS OF UNION VETERANS OF THE CIVIL WAR 1861-65

Mr. SAM B. HALL, JR. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1806) to recognize the organization known as the Daughters of Union Veterans of the Civil War 1861-1865.

The Clerk read as follows:

H.R. 1806

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

CHARTER

SECTION 1. The Daughters of Union Veterans of the Civil War 1861-1865, a nonprofit corporation organized under the laws of the State of Ohio, is recognized as such and is granted a Federal charter.

POWERS

SEC. 2. The Daughters of Union Veterans of the Civil War 1861-1865 (hereinafter in this Act referred to as the "corporation") shall have only those powers granted to it through its bylaws and articles of incorporation filed in the State or States in which it is incorporated and subject to the laws of such State or States.

OBJECTS AND PURPOSES OF CORPORATION

SEC. 3. The objects and purposes of the corporation are those provided in its articles of incorporation and, for the purpose of perpetuating the memories of the fathers of the Daughters of Union Veterans of the Civil War 1861-1865, their loyalty to the Union, and their unselfish sacrifices for the preservation of the same, shall include the following:

(1) Encouraging the preservation of historic sites and the construction and preservation of monuments commemorating any aspect of the Civil War.

(2) Building and maintaining a Museum of Civil War History, admission to which shall be free and open to the public, in the city of Springfield, Illinois, as a repository of Civil War documents, artifacts, and cultural relics.

(3) Maintaining a library in connection with the Civil War museum, admission to which shall be open to the public, containing the official volumes of the War of the Rebellion Records, Civil War genealogical files, Adjutant General reports to the various States, military and biographical records and accounts of the individual service of Union soldiers, sailors, and marines, diaries, letters, relics, and other records.

(4) Promulgating and teaching American history, particularly the history of the Civil War period, through the establishment of scholarship programs at the National and State levels, the presentation of American flags to youth groups and newly naturalized citizens, and the sponsorship of contests of educational merit.

(5) Caring for veterans of all wars through volunteer programs in Veterans' Administration medical centers and in homes and other institutions maintained by the States for the welfare of American veterans.

(6) Participating, in a spirit of cooperation and reciprocity, in programs with other societies devoted to American history, veterans' affairs, or community interests.

The corporation shall function as a veterans' and patriotic organization as authorized by the laws of the State or States in which it is incorporated.

SERVICE OF PROCESS

SEC. 4. With respect to service of process, the corporation shall comply with the laws of the States in which it is incorporated and those States in which it carries on its activities in furtherance of its corporate purposes.

MEMBERSHIP

SEC. 5. Eligibility for membership in the corporation and the rights and privileges of members of the corporation shall be as provided in the consitution and bylaws of the corporation.

BOARD OF DIRECTORS; COMPOSITION; RESPONSIBILITIES

SEC. 6. The composition of the board of directors of the corporation and the responsibilities of such board shall be as provided in the articles of incorporation of the corporation and in conformity with the laws of the State or States in which it is incorporated.

OFFICERS OF CORPORATION

SEC. 7. The positions of officers of the corporation and the election of members to such positions shall be as provided in the articles of incorporation of the corporation and in conformity with the laws of the State or States in which it is incorporated.

RESTRICTIONS

SEC. 8. (a) No part of the income or assets of the corporation may inure to the benefit of any member, officer, or director of the corporation or be distributed to any such individual during the life of this charter. Nothing in this subsection shall be construed to prevent the payment of reasonable compensation to the officers of the corporation or reimbursement for actual and necessary expenses in amounts approved by the board of directors.

(b) The corporation may not make any loan to any officer, director, or employee of the corporation.

(c)(1) The corporation may not contribute to, support, or otherwise participate in any political activity or attempt in any manner to influence legislation.

(2) No officer or director of the corporation, acting as such officer or director, may commit any act prohibited under paragraph (1) of this subsection.

(d) The corporation shall have no power to issue any shares of stock nor to declare or pay any dividends.

(e) The corporation shall not claim congressional approval or the authorization of the Federal Government for any of its activities.

LIABILITY

SEC. 9. The corporation shall be liable for the acts of its officers and agents whenever such officers and agents have acted within the scope of their authority.

BOOKS AND RECORDS; INSPECTION

SEC. 10. The corporation shall keep correct and complete books and records of account and minutes of any proceeding of the corporation involving any of its members, the board of directors, or any committee having authority under the board of directors. The corporation shall keep, at its principal office, a record of the names and addresses of all members having the right to vote in any proceeding of the corporation. All books and records of such corporation may be inspected by any member having the right to vote in any corporation proceeding, or by any agent or attorney of such member, for any proper purpose at any reasonable time. Nothing in this section shall be construed to contravene any applicable State law.

AUDIT OF FINANCIAL TRANSACTIONS

SEC. 11. The first section of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal law", approved August 30, 1964 (36 U.S.C. 1101), is amended by adding at the end thereof the following:

"(70) Daughters of Union Veterans of the Civil War 1861–1865.".

ANNUAL REPORT

SEC. 12. The corporation shall report annually to the Congress concerning the activities of the corporation during the preceding fiscal year. Such annual report shall be submitted at the same time as the report of the audit required by section 11 of this Act. The report shall not be printed as a public document.

RESERVATION OF RIGHT TO AMEND OR REPEAL CHARTER

SEC. 13. The right to alter, amend, or repeal this Act is expressly reserved to the Congress.

DEFINITION OF "STATE"

SEC. 14. For purposes of this Act, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the territories and possessions of the United States.

TAX-EXEMPT STATUS

SEC. 15. The corporation shall maintain its status as an organization exempt from taxation as provided in the Internal Revenue Code of 1954. If the corporation fails to maintain such status, the charter granted by this Act shall expire.

TERMINATION

SEC. 16. If the corporation shall fail to comply with any of the restrictions or provisions of this Act, the charter granted by this Act shall expire.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Texas [Mr. SAM B. HALL, JR.] will be recognized for 20 minutes, and the gentleman from Ohio [Mr. KINDNESS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. SAM B. HALL, JR.].

Mr. SAM B. HALL, JR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Daughters of the Union Veterans of the Civil War 1861-1865 is a nonprofit organization which was organized in Massillon, OH, on May 30, 1885. It was incorporated as the National Alliance for Daughters of Veterans on December 12, 1885. In 1944, the corporation changed its name to the Daughters of the Union Veterans of the Civil War 1861-65. This organization is among the oldest veteran and patriotic societies in the country.

Membership in this organization is open to women descendants of Union soldiers, sailors, and marines who were honorably discharged, killed, or missing in action. Members must be at least 8 years of age. This organization has a membership of over 20,000.

The objects of the organization are to promote this Nation's history and to perpetuate the memories of the men who sacrificed their lives and well-being to preserve the Union. This organization has built and maintains a museum and library in Springfield, IL, which is dedicated to Civil War memorabilia. The organization has established scholarships at the State and national level to encourage educational achievement in U.S. history. It also provides scholarships, awards, and gifts for young men and women who serve in the Nation's four military academies. This organization has been active in efforts to construct and preserve monuments which commemorate the Civil War. Members also serve as volunteers to help veterans in medical centers, homes, and other institutions.

It is the recommendation of the Judiciary Committee that H.R. 1806 be passed by the House.

Mr. KINDNESS. Mr. Speaker, I yield myself such time as I may consume.

I thank the gentleman from Texas for his support of this measure which, in fact, does afford the opportunity for members of the organization to provide comfort and services to veterans, regardless of their geographic origin.

As the gentleman from Texas has pointed out, the organization now known as the Daughters of the Union Veterans of the Civil War 1861-1865, Inc., is an organization that began its life back in 1885.

We have had ample opportunity to see the kind of services they provide through their 34 departments organized State by State. Each department consists of three or more tents or local organizations at the community level. And through this network or organizational elements the members of the Daughters of the Union Veterans of the Civil War reach out to veterans all over this country.

□ 1340

Perhaps the most important service rendered by the organization is its support for the U.S. veterans administrative volunteer service.

This charter might be differentiated from the previous one, and I think it may be in order to comment to that effect since we are talking about an organization based on history that is more remote in point of time.

However, the potential for the membership of this organization to grow rather than to shrink is what differentiates the two.

The prior organization, Survivors of Pearl Harbor, of course, are a finite group. The Daughters of Union Veterans of the Civil War, of course, increase in number as the years go by, barring unforeseen circumstances.

I would strongly urge the support and passage of this measure granting a charter which, again, contains all of the safeguards that are included in Federal charter provisions in recent years under the rules that are followed by the Subcommittee on Administrative Law of the Committee on the Judiciary.

I think we can join in strongly supporting this measure.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SAM B. HALL, JR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. SAM B. HALL, JR.] that the House suspend the rules and pass the bill, H.R. 1806, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAM B. HALL, JR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

SELECTION OF THE COURT OF APPEALS TO DECIDE MULTIPLE APPEALS

Mr. SAM B. HALL, JR. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 439) to amend title 28, United States Code, to provide for the selection of the court of appeals to decide multiple appeals filed with respect to the same agency order.

The Clerk read as follows:

H.R. 439

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 2112(a) of title 28, United States Code, is amended by striking out the last three sentences and inserting in lieu thereof the following: "If proceedings are instituted in two or more courts of appeals with respect to the same order, the following shall apply:

"(1) If within ten days after issuance of the order the agency, board, commission, or officer concerned receives, from the persons instituting the proceedings, the petition for review with respect to proceedings in at least two courts of appeals, the agency, board, commission, or officer shall proceed in accordance with paragraph (3) of this subsection. If within ten days after the issuance of the order the agency, board, commission, or officer concerned receives, from the persons instituting the proceedings, the petition for review with respect to proceedings in only one court of appeals, the agency, board, commission, or officer shall file the record in that court notwithstanding the institution in any other court of appeals of proceedings for review of that order. In all other cases in which proceedings have been instituted in two or more courts of appeals with respect to the same order, the agency, board, commission, or officer concerned shall file the record in the court in which proceedings with respect to the order were first instituted.

"(2) For purposes of paragraph (1) of this subsection, a copy of the petition or other pleading which institutes proceedings in a court of appeals and which is stamped by the court with the date of filing shall constitute the petition for review. Each agency, board, commission, or officer, as the case may be, shall designate by rule the office and the officer who must receive petitions for review under paragraph (1).

"(3) If an agency, board, commission, or officer receives two or more petitions for review of an order in accordance with the first sentence of paragraph (1) of this subsection, the agency, board, commission, or officer shall, promptly after the expiration of the ten-day period specified in that sentence, so notify the judicial panel on multidistrict litigation authorized by section 1407 of this title, in such form as that panel shall prescribe. The judicial panel on multidistrict litigation shall, by means of random selection, designate one court of appeals, from among the courts of appeals in which petitions for review have been filed and received within the ten-day period specified in the first sentence of paragraph (1), in which the record is to be filed, and shall issue an order consolidating the petitions for review in that court of appeals. The judicial panel on multidistrict litigation shall, after providing notice to the public and an opportunity for the submission of comments, prescribe rules with respect to the consolidation of proceedings under this paragraph. The agency, board, commission, or officer concerned shall file the record in the court of appeals designated pursuant to this paragraph.

"(4) Any court of appeals in which proceedings with respect to an order of an agency, board, commission, or officer have been instituted may, to the extent authorized by law, stay the effective date of the order. Any such stay may thereafter be modified, revoked, or extended by a court of appeals designated pursuant to paragraph (3) with respect to that order or by any other court of appeals to which the proceedings are transferred.

"(5) All courts in which proceedings are instituted with respect to the same order, other than the court in which the record is filed pursuant to this subsection, shall transfer those proceedings to the court in which the record is so filed. For the convenience of the parties in the interest of justice, the court in which the record is filed may thereafter transfer all the proceedings with respect to that order to any other court of appeals.".

SEC. 2. The amendment made by the first section of this Act shall take effect one hundred and eighty days after the date of the enactment of this Act, except that the judicial panel on multidistrict litigation may issue rules pursuant to subsection (a)(3) of section 2112 of title 28, United States Code, as added by the first section of this Act, on or after such date of enactment.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Texas [Mr. SAM B. HALL, JR.] will be recognized for 20 minutes, and the gentleman from Ohio [Mr. KINDNESS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. SAM B. HALL, JR.].

Mr. SAM B. HALL JR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the purpose of H.R. 439 is to simplify the selection of the proper court to handle the judicial appeal of an agency order in those cases where petitions for review are filed in more than one court of appeals.

When a Federal agency issues an order, two or more parties often file judicial challenges to the validity of that order. Because many statutes do not specify a particular circuit as the court to handle these challenges, venue for the judicial challenge is proper in any of the Federal circuits in which challenges are filed. If appeals are filed in more than one circuit, a single circuit must be selected to handle the appeal.

Until 1958, each agency had the option of selecting which circuit would have venue when appeals of the agency's order were filed in more than one circuit. Since this appeared to result in an unfair advantage for the agency, title 28 was amended in 1958 to provide that the circuit of venue would be the circuit where the appeal of an agency order was filed first. This first-to-file rule was intended to assure that the agency had no special advantage over the challenger.

However, the 1958 amendment had an unintended effect. Many lawyers believed that a certain circuit would be more sympathetic to their client's arguments than other circuits. Thus, races to the courthouse began to occur, with each lawyer trying to file first in the circuit he or she felt would be sympathetic.

These races to the courthouse have become highly sophisticated. Messengers are assigned to hover around agency offices waiting for the exact moment an order is issued. Other messengers, armed with forms for filing the appeal, are stationed at the offices of the clerks of various circuits. The two are often connected with by open long-distance telephone lines or walkie-talkies so that the appeal will be filed the instant the agency order is issued. The result is that filings are frequently made in various circuits within minutes, or even seconds, of each other.

Races to the courthouse have resulted in unfortunate consequences for the system of justice. Since they are based on the theory that one court will interpret the law differently from another court, these races detract from the public's perception of the Federal courts as impartial, consistent arbiters of justice. In addition, these races produce no economic benefit, yet often cost private participants tens of thousands of dollars. Finally, once the race is complete, the parties—as well as the Federal courts and agencies—must expend more resources on wasteful litigation to determine who won the race and thus which is the appropriate circuit for review.

H.R. 439 remedies this situation by removing the incentive to race to the courthouse. It does this by modifying the first-to-file rule so that when more than one appeal of an agency order is filed, all petitions will stand on the same footing in the determination of which circuit will handle the appeal, with one of the circuits selected at random to do so.

The Judicial Panel on Multidistrict Litigation will handle the random selection from among those circuits in which petitions have been filed. A party wishing to qualify for the random selection procedure will have

to meet two conditions. First, the party will have to file an appeal of the agency order within 10 days after issuance of the order. Second, the party will also have to file a copy of the petition for review with the agency within the same 10-day period.

The random selection will include one entry for each circuit in which proceedings are pending, rather than one entry for each petitioner. After the selection, the judicial panel will issue an order consolidating all petitions for review in the selected circuit. The judicial panel is required to establish rules to govern these selection procedures after providing the public with notice and an opportunity to comment on such rules.

The circuit in which the proceedings are consolidated will take jurisdiction over all review proceedings dealing with the same order. This court will retain its existing power to transfer proceedings for the convenience of the parties in the interest of justice. H.R. 439 does not change current standards for transfer. Moreover, does not cover cases were venue is specified by statute to lie in one particular circuit or cases which are filed in the district courts.

During the period before the random selection, any court of appeals in which a proceeding has been filed may stay the effective date of the agency order. Any such stays may thereafter be modified, revoked, or extended by the selected court in which the proceedings are consolidated. H.R. 439 does not alter the current standards by which courts determine whether to grant a stay.

No random selection will be required if a second proceeding is commenced more than 10 days after issuance of the agency order or if all proceedings are filed later than ten days after the issuance of the order. In these cases, the first-to-file rule will continue in effect since no real race to the courthouse is involved.

In the 98th Congress, the House passed a measure identical to H.R. 439 (H.R. 5365). Also, in the 96th and 97th Congresses, the Committee on the Judiciary favorably reported a provision similar to that contained in H.R. 439 as part of the omnibus regulatory reform bill. A similar measure was also adopted by the Senate in the 97th Congress as part of the Senate regulatory reform bill. The basic approach of the bill has had strong bipartisan support.

H.R. 439 contains a significant improvement in the way venue is determined in cases of multiple filings. It is supported by the Department of Justice, the Judicial Conference of the United States, the Administrative Conference of the United States, and the American Bar Association.

The Judiciary Committee recommends its enactment.

Mr. Speaker, I urge the adoption of H.R. 439.

Mr. KINDNESS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, from the annals of the history of that period of our Nation's past, when the west was being settled, we can conjure up notions of the cavalry coming thundering across the hills to the rescue of the settler's family as the cabin burns to the ground.

But today we have the modern electronic equivalent to that sort of scene in the races to the courthouses described so aptly and ably by the gentleman from Texas [Mr. SAM B. HALL, JR.].

We have people, lawyers instead of cavalrymen, talking to each other by walkie-talkie and open long-distance telephone lines trying to save the Republic from this order issued by an agency seconds before.

Perhaps it was more appropriate to have the cavalry save the settlers in the old days of the West. It is certainly not appropriate to have the kind of race to the courthouse that we see occurring every now and then as agency orders are issued and the lawyers scramble to see who can be first in the court.

□ 1350

Surely it is not always to save the Republic. Sometimes it is to save or attempt to save those who are going to be affected by the agency order, of course, and that is not always the public at large.

The amount of resources that are devoted to such races to the courthouse seem outlandish at times. In the overall context of things, it may not be the most important sort of thing that goes on ino our society from day to day, but it is one more thing that tends to detract from the dignity and respect accorded to our judicial system, and indeed the administrative workings of our Government as well.

H.R. 439 is designed to eliminate the unseemliness of the race to the courthouse. The gentleman from Texas [Mr. SAM B. HALL, JR.] and I have worked together on this legislation and legislation like it in the last Congress or two.

I think it is simple and relatively reasonable way to resolve a problem that exists that detracts from the dignity of the administrative process and the court system, and I would hope that the House would indeed support passage of H.R. 439.

I would, however, Mr. Speaker, be greatly remiss if I closed my remarks without commenting upon the somewhat subdued nature of my conduct today, which arises at least in part perhaps from the realization that the gentleman from Texas [Mr. SAM B. HALL, JR.], my esteemed friend, my highly respected friend, will be leaving soon this House to assume a position on the Federal bench in the U.S. District Court for the Eastern District of Texas.

I am somewhat reminded of the remark that was attributed, I believe, to Sam Houston upon the removal of Davey Crockett from Tennessee to Texas when he said that by making that move, Crockett greatly uplifted the intellectual climate of both States.

Perhaps that—we will let you think about that for a moment, Mr. Speaker—the gentleman from Texas has graced us with his presence, he has worked hard at his job, he has represented well the people of his part of east Texas, he has before him a career on the bench that I think will prove once again the great ability of this gentleman to serve the public and serve the public well.

We shall miss him very much in the Committee on the Judiciary, and in the House of Representatives, and certainly on the Administrative Law Subcommittee which he chaired in these last two Congresses.

I wish our respected colleague the very, very best as he assumes a new position in public service, and hope that the opportunity will be there to visit, whether it be in Washington, in Texas, or anyplace else on the face of the globe, from time to time. The gentleman will indeed be missed.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SAM B. HALL, JR. Mr. Speaker, I would not be at all proper if I did not thank TOM KINDNESS for the tremendous work that we have done on this committee. It has been a bipartisan effort from the inception until today.

In my opinion, TOM KINDNESS is—and I was going to say this anyway—is one of the outstanding Members of the U.S. House of Representatives. I know when I came here 9 years ago I met him at that time, when I became a member of the Judiciary Committee; we have had many hours of work together, all very good and most favorable in every sense of the word, and he is a true gentleman in every respect. He is an outstanding member, and I cannot say enough about him, and I have said this before publicly and privately.

The Congress of the United States needs more people like TOM KINDNESS, and I hope that our paths do cross, TOM, in the future; but I hope that when we do visit it is of a personal nature and not an official nature, insofar as you are concerned.

Mr. Speaker, I would also be remiss if I did not pay the highest tribute to the majority and minority staff on this subcommittee: William P. Shattuck, who has been a tremendous in-

spiration to me in the guidance that he has given over the last several years. Janet Potts, there is no way I can thank her for the many, many fine things she has done for me on this committee. Jennifer Ihlo, from Center, TX, who is a new member of the counsel staff, but who is doing an outstanding job in every respect.

They are truly dedicated people in every sense of the word. They are nonpartisan, and I must include in this Kevin Richardson, of the minority counsel, who has worked very closely with me as well as his mentor there, TOM KINDNESS, and all of us together have been a great team, I think. I like to believe that, anyway, and I hope that whoever in the future aspires to this chairmanship will continue to work for these people like we have in the past two Congresses, and I know that by doing that that this subcommittee of the Committee on the Judiciary will continue to be one of the bright spots of the U.S. Congress.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. SAM B. HALL, JR.] that the House suspend the rules and pass the bill, H.R. 439.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAM. B. HALL, JR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 439, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

THE NEED FOR H.R. 2285: FREEDOM-OF-CHOICE HEALTH MAINTENANCE ORGANIZATIONS AT RISK—ALTERNATIVE FOR MEDICARE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. PEPPER] is recognized for 5 minutes.

● Mr. PEPPER. Mr. Speaker, I am pleased to submit, for the attention of my colleagues, the following concept paper prepared by Mr. Jeffrey A. Prussin, senior vice president of Government programs and plan development of the International Medical Centers, Inc., in Miami, FL, regarding H.R. 2285, legislation I introduced several days ago providing for "freedom-of-choice health maintenance organization demonstrations."

Mr. Prussin's paper provides a clear explanation of H.R. 2285 which I hope will be useful to my colleagues as they give consideration to this most innovative and necessary legislation, I include Mr. Prussin's paper entitled "Freedom-of-Choice HMO's at Risk: A New Alternative for Medicare" in its entirety at this point in the RECORD:

FREEDOM-OF CHOICE HMO'S AT RISK: A NEW ALTERNATIVE FOR MEDICARE

INTRODUCTION

Prepaid Medicare demonstrations

The Health Care Financing Administration (HCFA) conducted a series of prepaid Medicare demonstration programs throughout the country under which health maintenance organizations (HMO) and similar organizations were paid by HCFA at the rate of 95 percent of the adjusted average per capita cost (AAPCC), or less, for providing Medicare services to enrolled Medicare beneficiaries. This was a prospective payment system that was not adjusted retroactively; all profits or surpluses were retained by the HMO, and all losses were the responsibility of the HMO.

In order to induce Medicare beneficiaries to enroll in their demonstration programs, some of the participating HMOs developed extremely comprehensive benefits packages for Medicare enrollees. In many cases, Medicare enrollees paid nothing to join the HMO and received extra benefits such as elimination of the Medicare deductibles and copayments, free prescription drugs, free eyeglasses and hearing aids, unlimited acute care hospitalization, routine eye and hearing examinations, routine foot care, routine physical examinations, and a broad range of dental services.

Tax Equity and Fiscal Responsibility Act

HCFA now has implemented the provisions of the Tax Equity and Fiscal Responsibility Act of 1982 [TEFRA] which established as a regular part of the Medicare program a risk-based contracting mechanism for HMOs and competitive medical plans [CMP] that is similar to the HMO demonstration programs. The primary difference between the demonstrations and TEFRA is addition of the adjusted community rate [ACR] under TEFRA. The ACR is the organization's community rate, adjusted for the regular Medicare program benefits and the anticipated utilization differences between the organization's Medicare and non-Medicare members. TEFRA permits payment to HMOs and CMPs based upon the organization's ACR, plus the value of enhancements to the regular Medicare program benefits offered by the organization, up to 95 percent of the AAPCC. The ACR was included under TEFRA as a mechanism for limiting the organization's profit or surplus levels generated by Medicare enrollees, proportionally, to the profit or surplus levels experienced by that organization for non-Medicare enrollees.

OPERATIONAL ISSUES

The HMO demonstration programs raised several issues that also may prove to be relevant to TEFRA as implementation of TEFRA progresses, including the following:

Cost Increases—Although HCFA pays HMOs at the rate of 95 percent of the AAPCC or less, the Medicare program actually may experience cost increases for HMO risk-basis enrollees due to favorable selection bias.

Selection Bias—Favorable selection bias occurs when individuals with lower health costs enroll in an HMO. In this event, the Medicare program could lose money, even while contracting with and paying an HMO at a discount rate, such as 95 percent of the AAPCC or less. That is, if the Medicare program pays an HMO at 95 percent of the AAPCC, and if the HMO enrolls individuals who are, on the average, in better health or lower utilizers (e.g., whose costs would be less than 95 percent of the AAPCC in the fee-for-service system), the Medicare program will lose money by paying 95 percent of the AAPCC. Of course, selection bias also may be adverse to an HMO, in which case individuals with higher health costs enroll in the HMO. HCFA's evaluation of the traditional HMO Medicare demonstrations will address the selection bias issue, and a definitive answer on this subject, beyond the findings from the early demonstrations,[1] is anticipated.

Oversight and Regulation—Since Medicare beneficiaries enrolled in risk-basis HMOs are locked into the HMO, at least for 45–60 days, HCFA, maintains a responsibility to monitor the quality, accessibility, availability, acceptability, etc., of HMOs' services. Moreover, due to HMO "lock in" provisions, HCFA and other State and Federal regulatory agencies, in many instances, are placed in a position of serving as arbitrators between an HMO and its Medicare enrollees with respect to enrollee complaints. Indeed, complaints to HCFA and other regulatory agencies by Medicare enrollees who do not understand HMO "lock in" provisions at the time of enrollment are a constant source of problems for HCFA and other regulatory agencies, HMOs, non-HMO providers, and Medicare beneficiaries.

Enrollment—Enrollment of Medicare beneficiaries by HMOs has been hindered by the facts that:

A beneficiary must take a positive action (i.e., sign enrollment form) to enroll in an HMO.

By enrolling in an HMO, the beneficiary loses freedom-of-choice of providers due to HMO "lock in" provisions.

Moreover, since the Medicare market is more like an individual than a group market, it is both expensive and difficult for HMOs to reach potential Medicare enrollees.

---

[1] For example, Paul W. Eggers and Ronald Prihoda studied 18,085 Medicare beneficiaries who enrolled in three demonstration HMO plans as of April 1981. The plans were the Fallon Community Health Plan (Worcester County, Massachusetts), the Greater Marshfield Community Health Plan (Marshfield, Wisconsin) and the Kaiser-Permanente Medical Care Program, Portland, Oregon). The study found that enrollees in the Fallon and Kaiser plans had 20 percent lower Medicare reimbursements than their respective comparison groups in the four years prior to enrollment. There was not a statistically significant difference in pre-enrollment total Medicare reimbursements between the enrollee and comparison groups for the Marshfield plan. See: Paul W. Eggers and Ronald Prihoda, "Pre-Enrollment Reimbursement Patterns of Medicare Beneficiaries Enrolled in 'At-Risk' HMOs," Health Care Financing Review, September 1982, volume 4, NO. 1, pp. 55–73. Eggers also studied Medicare beneficiaries enrolled in the Group Health Cooperative of Puget Sound (Seattle, Washington) under a risk contract. The study found that beneficiaries who enrolled during an open enrollment period had a reimbursement rate for inpatient services that was 47 percent below the comparison group. Enrolled beneficiaries also appeared to have a lower utilization rate for Part B services. See: Paul Eggers, "Risk Differential Between Medicare Beneficiaries Enrolled and Not Enrolled in an HMO," Health Care Financing Review, Winter 1980, volume 1, No. 3, pp. 91–99.

PROGRAM IMPROVEMENTS

The freedom-of-choice HMO at risk demonstration program is designed to:

Save money for the Medicare program and control costs by placing large numbers of Medicare beneficiaries in specified geographic areas in an at risk, capitation payment system. In addition, to the extent that freedom-of-choice demonstration HMOs provide benefits such as prescription drugs that would otherwise be covered by Medicaid, savings also will be realized by the Medicaid program for demonstration enrollees with both Medicare and Medicaid coverage.

Eliminate selection bias in HMO enrollment of Medicare beneficiaries.

Reduce substantially the need for oversight and regulation by HCFA and other State and Federal regulatory agencies, and eliminate the need for enrollment mix requirements such as the 50/50 rule under TEFRA. This rule requires the HMO to enroll one non-Medicare or Medicaid member for every Medicare or Medicaid member.

Simplify the enrollment process for Medicare beneficiaries and HMOs.

Eliminate the restrictive HMO "lock in" provisions that have hindered the attractiveness of HMOs to potential enrollees and, hence, the growth of HMOs.

RETENTION OF ALL OPTIONS BY MEDICARE BENEFICIARIES

The key feature of the freedom-of-choice HMO at risk concept, in addition to elimination of selection bias, is preservation of all current options, as well as addition of new options, for enrolled Medicare beneficiaries. Specifically, beneficiaries enrolled in the freedom-of-choice HMO demonstrations will retain the right to receive their health services through any qualified Medicare provider, without referral or authorization by the HMO, exactly as they do at the present time. However:

HMOs, which will be paid by HCFA at the rate of 95 percent of the AAPCC, will be at risk financially to pay the same amount as Medicare would pay for Medicare covered services not provided directly through the HMO.

Beneficiaries using Medicare covered services not provided directly through the HMO will continue to be responsible for Medicare deductible and coinsurance amounts and will continue to be subject to all Medicare limits on services.

After HCFA assigns financial risk for Medicare beneficiaries to a freedom-of-choice HMO demonstration, enrolled beneficiaries will have, continuously, the option of receiving any or all of their health services directly through the HMO. Indeed, the HMO will attempt to induce beneficiaries to use services provided directly through the HMO by reducing or eliminating the Medicare deductible and coinsurance amounts and by providing more comprehensive benefits, including benefits for services that are not covered by the regular Medicare program, for enrollees receiving their services directly through the HMO. Moreover, in order to induce enrollees to use services provided directly through the HMO exclusively, to the exclusion of non-HMO services provided without referral or authorization by the HMO, the HMO could make certain extra benefits, such as prescription drugs and eyeglasses, available to Medicare beneficiaries who receive all of their health services directly through the HMO for a specified period of time.

Medicare beneficiaries enrolled in freedom-of-choice HMO demonstrations will be permitted to switch back and forth, at any time, between using services provided directly through the HMO and using non-HMO services without referral or authorization by the HMO. Again, however, the HMO will receive payment at the rate of 95 percent of the AAPCC from HCFA and will maintain full financial responsibility for paying claims for Medicare covered services that are not provided directly through the HMO. Moreover, individuals using services not provided directly through the HMO will continue to be responsible for the Medicare deductible and coinsurance amounts, will continue to be subject to all Medicare limits on services, including the limits on the number of acute care hospital and skilled nursing facility days, and will not receive any of the added benefits offered by the HMO to beneficiaries receiving their services directly through the HMO.

CLAIMS PAYMENT/ADMINISTRATION

Each freedom-of-choice HMO demonstration will have the option of fulfilling the Medicare intermediary and carrier functions itself with respect to its enrollees or of using the existing intermediaries and carriers to make payments for services rendered by non-HMO providers without referral or authorization by the HMO. In the event that the HMO uses extant intermediaries and carriers, the HMO will maintain final authority for claims review, including determination of the medical necessity of services, whether services are covered under Medicare, and whether claims should be paid. (Of course, the regular Medicare appeals process for denied claims still will be available to adversely affected beneficiaries and providers.)

Once the HMO determines that a claim should be paid, the intermediary or carrier, if the HMO uses extant intermediaries and carriers, will determine the Medicare allowable amount and make the appropriate payment. Again, however, the funds needed to pay claims for Medicare covered services not provided directly through the HMO will be the responsibility of the HMO.

RANDOM ASSIGNMENT BY HCFA

Large numbers of, if not all, Medicare beneficiaries residing in areas in which there are freedom-of-choice HMO demonstrations will be assigned randomly to the HMOs participating in the demonstrations, up to the service delivery capacities of the participating HMOs. (Beneficiaries already enrolled in HMOs in a demonstration area, if any, will remain in the HMOs in which they are enrolled.) Assignment of beneficiaries will eliminate the need for costly HMO marketing efforts designed to generate enrollment in the HMO by Medicare beneficiaries.

Since beneficiaries, in essence, will be able to ignore the HMO and continue to receive their Medicare covered services in the same manner and from the same providers as at the present time, without any added restrictions, the random assignment of financial risk for beneficiaries to participating HMOs should pose no problems. In other words, the beneficiaries assigned to participating HMOs will not lose their freedom-of-choice in providers. Rather, these beneficiaries will have the added option of using services provided directly through the HMO, in which case the beneficiaries will receive added benefits, such as elimination of the Medicare deductible and coinsurance amounts and benefits for services for covered under the regular Medicare program (e.g., prescription drugs and eyeglasses).

INTER-HMO TRANSFERS

In areas in which more than one HMO participates in a freedom-of-choice demonstration, some enrollees may have preferences regarding the specific HMOs in which they wish to be enrolled based upon factors such as the HMOs' benefits packages, reputations, and provider locations. Therefore, it will be necessary to permit Medicare beneficiaries assigned to a particular HMO to request reassignment to another HMO. However, the incidence of requests for reassignment should be very low and, therefore, should not create administrative problems or affect selection bias one way or the other.

FINANCIAL CONSIDERATIONS

The freedom-of-choice HMO at risk demonstration program will be financially attractive to HMOs primarily for two reasons:

Claims Review—Currently, the Medicare intermediaries and carriers are not at risk; they merely serve as conduits for HCFA funds. Therefore, they have little, if any, incentive to implement effective claims review processes. The freedom-of-choice HMO demonstrations, on the other hand, will be at financial risk to pay for Medicare covered services rendered to enrolled beneficiaries by non-HMO providers without referral or authorization by the HMO. Therefore, the HMOs will have a strong incentive to implement stringent claims review programs. Nonetheless, because all regular Medicare appeals processes for denied claims will be available to affected beneficiaries and providers, inappropriate claims denials by demonstration HMOs will be limited.

Utilization of HMO Services—Freedom-of-choice HMOs will be in an advantageous position to capture the utilization of enrolled beneficiaries, because:

Medicare beneficiaries generally suffer financial problems, and, therefore, are in need, often dire need, of methods for reducing their expenses. To the extent that cost savings are important to beneficiaries, they will have particularly strong incentives to use services provided directly through freedom-of-choice HMOs. Each time an enrolled beneficiary requires a health service, the beneficiary will have to decide whether to use the free services and extra benefits provided directly through the HMO or services rendered by non-HMO providers, in which case all Medicare cost sharing and limitations will apply.

While traditional HMOs offer Medicare beneficiaries an opportunity to reduce their expenses, many beneficiaries are afraid to enroll in HMOs because they fear loss of their Medicare benefits and/or because they relinquish their right to use non-HMO providers for at least 45–60 days.

Under the freedom-of-choice HMO demonstrations, beneficiaries will have an opportunity at least to try the services provided directly through the HMO with absolutely no risk or loss of freedom to use non-HMO providers.

The key to financial success of the freedom-of-choice HMO demonstrations will be the quality, acceptability, etc., of the HMOs' services. To the extent that enrolled beneficiaries find an HMO's services to be acceptable, the beneficiaries will continue to use the HMO's services; to the extent that enrolled beneficiaries find an HMO's services to be unacceptable, they will use services rendered by non-HMO providers without referral or authorization by the HMO.

EFFECTS OF COMPETITION

The freedom-of-choice HMO at risk approach should:

Stimulate HMO expansion.

Provide incentives for non-HMO providers to affiliate or develop relationships with HMOs.

HMO expansion will be stimulated through assignment of large numbers of Medicare beneficiaries to HMO's. This assignment of beneficiaries will provide an enrollment base that will help HMOs overcome the initial operating losses that generally are associated with the opening of new facilities or expansion into new geographic areas. Nonetheless, in order to assume the financial risks associated with use of non-HMO services by enrolled beneficiaries, as well as direct provisions of services by the HMO, the HMO will have to have a strong financial position.

Non-HMO providers may be more prone to affiliate or develop relationships with freedom-of-choice HMO demonstrations than with traditional HMOs, because the freedom-of-choice demonstrations will pose a more significant "threat" to the patient bases of non-HMO providers. That is, the freedom-of-choice demonstrations are predicated upon the assumption that freedom-of-choice HMOs will be more successful than traditional HMOs in inducing Medicare beneficiaries into utilization of the HMO system. In a traditional HMO setting, the beneficiary must sign an enrollment form in order to use the HMO; and, by signing the enrollment form, the beneficiary relinguishes the freedom to use non-HMO providers for at least 45–60 days. Beneficiaries are particularly fearful of this limitation and of losing their regular Medicare coverage. As a result, they are reluctant to enroll in traditional HMOs. However, beneficiaries enrolled in freedom-of-choice HMO demonstrations have the incentives of reduced cost sharing and increased benefits to induce them to use services provided directly through the HMO, on the one hand, while losing absolutely nothing by using the HMO's services, on the other hand. If beneficiaries are dissatisfied with the HMO's services for any reason whatsoever, they have the continuous freedom-of-choice to use any Medicare providers of their choice.

APPLICABILITY OF FREEDOM-OF-CHOICE HMO CONCEPT TO COMMERCIAL MARKETS

The freedom-of-choice HMO at risk concept is just as applicable in commercial markets as it is in the Medicare market. That is, employers may be viewed in the same light as HCFA. The freedom-of-choice HMO, in exchange for receiving all of an employer's employees, would continue to provide the same level of indemnity benefits as are currently offered by the employer for 95 percent of the employer's current costs for the indemnity plan. In addition, the HMO would make available added benefits, including elimination or reduction of patient cost sharing, to enrollees using services provided directly through the HMO. Enrollees using non-HMO services would not receive the added benefits offered by the HMO and would continue to be subject to all cost sharing and limitations imposed under the indemnity plan.

ADVANTAGE OF THE FREEDOM-OF-CHOICE HMO DEMONSTRATIONS

The main advantages of the freedom-of-choice HMO demonstration approach are threefold:

Because it will be to the HMO's economic advantage for Medicare beneficiaries to receive their services directly through the HMO, as opposed to using non-HMO providers without referral or authorization by the HMO, the HMO will be placed in a position in which it constantly must compete for the utilization of its members, who, in turn, always will have the option of using non-HMO providers without referral or authorization by the HMO. The result will be a self-regulating system in which Medicare beneficiaries will "vote with their feet". That is, to the extent that a beneficiary is not satisfied with the services provided directly through the HMO, for whatever reason, the beneficiary will use non-HMO providers without referral or authorization by the HMO. There will be continuous freedom-of-choice between use of HMO services and services rendered by non-HMO providers. As a result, the need for oversight and regulation will be reduced substantially, and the need for enrollment mix requirements such as the 50/50 rule under TEFRA will be eliminated.

Because the HMO will maintain financial responsibility for payment of Medicare benefits for services rendered by non-HMO providers without referral or authorization by the HMO, the HMO will have a strong incentive to exercise stringent claims review, both with respect to coverage and with respect to medical necessity.

Because beneficiaries will be assigned randomly to participating HMOs, the problem of selection bias—both favorable and adverse—will be eliminated. Therefore, HCFA will be assured of a five percent saving in Medicare costs, based upon a payment level to the freedom-of-choice demonstration HMOs of 95 percent of the AAPCC. In addition, HCFA and the State also may realize savings in Medicaid costs.

SUMMARY

In, sum, the freedom-of-choice HMO at risk demonstrations will make more benefits available to Medicare beneficiaries, while:

Saving HCFA five percent of the AAPCC for Medicare beneficiaries enrolled through the demonstrations.

Reducing substantially the need for oversight and regulation by HCFA and other State and Federal regulatory agencies.

Providing continuous freedom-of-choice for beneficiaries to use non-HMO providers exactly as they do at the present time.●

RULES OF PROCEDURE FOR PRIVATE IMMIGRATION BILLS

(Mr. MAZZOLI asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. MAZZOLI. Mr. Speaker, the Subcommittee on Immigration wishes to bring to the attention of our colleagues the new subcommittee "Rules of Procedure and Statement of Policy," for private immigration bills for the 99th Congress. The rules and statement of policy were approved by the subcommittee March 19, 1985, and by the full Committee on the Judiciary April 30, 1985.

Since the subcommittee acts as a court of equity in deciding whether to grant special relief in private immigration cases, it must reserve affirmative action to those of extraordinary merit and posing heavy hardship.

This subcommittee works hard and fairly to insure that meritorious private relief measures are passed and measures which lack merit or where there are other unexhausted avenues of relief are rejected.

The subcommittee has evolved, in the past few Congresses, a set of rules and procedures which assist you—as a possible author of a private relief bill—and the subcommittee in discharging those heavy burdens.

The rules of procedure adopted by each Congress draw on past subcommittee action and require extensive documentation. We offer the advice of our staff in how to gather the types of facts required in order to comply with the rules. A fully developed file not only serves the best interests of the subcommittee but also the Member who must later personally present the case at a hearing.

The subcommittee also provides another service to Members. It offers advisory opinions on cases which you may wish to bring to its attention. These opinions—just that—offer some perspective on future prospects for passage based on actions of the subcommittee over the years.

The "Rules of Procedure and Statement of Policy" are very similar to those of the 98th Congress. However, they have been altered with respect to private relief bills seeking naturalization of resident aliens and bills seeking residency for medical doctors and other medical professionals.

Also, a new policy adopted by the subcommittee requires successful beneficiaries to seek the relief granted by Congress—usually residency—within a time certain after the bill's enactment. Too often in the past bills were passed, but no effort was made by the beneficiaries to take advantage of relief—suggesting that relief was not necessary in the first place.

The subcommittee also reiterates that the mere introduction of a private bill does not in itself stay deportation. This rule has been in effect since 1971 and should be reviewed carefully (rule 4).

If you or your staff have any further questions, please do not hesitate to call the subcommittee.

Following are the rules and the statement of policy:

RULES OF PROCEDURE

1. The introduction of a private bill does not stay the deportation of aliens illegally in the United States or who have overstayed the terms of their visa. The Committee shall not intervene in any such deportation proceedings and it will not address any communications to the Attorney General to request stays of deportation on behalf of beneficiaries of private bills, except as indicated in Rule 4.

2. No bill shall be scheduled until all administrative remedies are exhausted, including suspension of deportation, asylum, and labor certification.

3. The Subcommittee shall not take any further action on legislation which has been tabled by the full Committee.

4. The Subcommittee shall entertain consideration of a request for a departmental report upon receipt of a letter from the author of the bill. In the case of beneficiaries who are in the United States, including those in parole status or asylee status, a determination on the request shall be subject to debate at a formal meeting of the Subcommittee and only those cases designed to prevent extreme hardship to the beneficiary or a U.S. citizen will merit a request for a report. The Immigration and Naturalization Service may honor a request for a report by staying deportation until final action is taken on the legislation.

5. Each bill in the following categories which may be proposed for consideration of the Subcommittee shall be subject to a point of order unless its consideration is agreed to by a two-thirds vote of the Subcommittee.

(a) Bills not previously listed on an agenda for a meeting and those bills not in compliance with these Rules concerning the filing of documentation.

(b) Bills concerning beneficiaries who are receiving medical treatment, where documentation as to the availability of similar medical treatment in the beneficiary's home country has not been submitted.

(c) Bills concerning foreign medical graduates who have not passed the Foreign Medical Graduate Examination in the Medical Sciences (FMGENS) and satisfied (or are exempt from) the two year foreign residence requirement.

(d) Bills relating to a waiver of the naturalization laws.

6. A quorum of the Subcommittee shall consist of two Members for the purpose of holding hearings on private bills.

7. Testimony at private bill hearings shall not be received from any person other than the author of the private bill. All requests to testify shall be addressed in writing to the Chairman of the Subcommittee.

8. No private bill shall be considered where court proceedings are pending.

9. The Subcommittee shall request reports on private bills from appropriate Federal agencies and/or Departments and shall await receipt of such reports before taking final action.

10. All requests for consideration of a private bill shall commence with a letter directed to the Chairman of the Subcommittee outlining relevant facts of the case and attaching thereto all pertinent data. The following shall be submitted in triplicate:

(a) Date and place of birth of all beneficiaries. Address and telephone number in the United States.

(b) Dates of all entries (legal and illegal) and departures from the United States and type of visas for admission. Consulate where the beneficiary obtained a visa for entry to the U.S.; or where the beneficiary shall seek a visa.

(c) Status of any proceedings with the INS and whether any non-immigrant or immigrant petitions have been filed on the beneficiary's behalf.

(d) Name, address, and telephone number of interested parties in the U.S.

(e) Name, address, dates and places of birth of all close relatives in the U.S. and abroad and their immigration status.

(f) Occupations, recent employment record and salary of beneficiaries.

(g) Copies of all communications to and from INS or the State Department, including copy of an I-94, an Order to Show Cause and any other relevant information.

(h) A copy and summary of all litigation relating to the beneficiary's case.

The information above represents the minimum requirements for Subcommittee consideration. Pertinent data about the case and an explanation of the extreme hardship to the beneficiary or U.S. citizen must also accompany a request for processing of the private bill.

11. Action on legislation shall not be deferred on more than one occasion due to nonappearance of the author.

12. Documentation provided to the Subcommittee in order to comply with these Rules will only be accepted if submitted by the author of such bill.

13. Requests for consideration of a bill shall be accompanied by a statement by the beneficiary that he or she desires the relief sought by the bill and waiving the Freedom of Information Act and Privacy Act.

14. A notice of meeting date shall be sent to the authors of all legislation which is scheduled.

STATEMENT OF POLICY

On March 19, 1985, the Subcommittee adopted as an addendum to its Rules of Procedure a Statement of Policy on private immigration bills which is set forth below.

The Subcommittee on Immigration, Refugees, and International Law has jurisdiction over all aspects of immigration law. In considering private immigration bills, the Subcommittee reviews cases which are of such an extraordinary nature that an exception to the law is needed. In fairness to those immigrants who are awaiting legal immigration, it is the policy of the Subcommittee generally to act favorably on only those private bills which meet certain precedents.

This policy statement will set forth the types of legislation which fall within the general parameters of favorable action and the criteria for reviewing certain categories of bills.

A. Adoption

Existing law provides for the immigration of foreign born adopted children if the adoption takes place while the child is under the age of 16 and (1) the child is an "orphan" as defined by immigration law or (2) the child has resided with the adopted parents two years. Those cases where the Subcommittee has favorable precedents are when the child is of a young age and there has been a long-standing parent-child relationship. In support of any private bill relating to adoption, the following must accompany the request for Subcommittee action:

(1) Home-study on the home of the prospective parents.

(2) Evidence of support of child—cancelled checks, letters, clothing.

(3) Statement detailing ages and occupation of natural parents and brothers and sisters.

(4) Communications with the Immigration and Naturalization Service regarding applicable U.S. adoption laws.

B. Doctors and Nurses

The Immigration and Nationality Act provides for the admission of foreign medical graduates if the doctor or nurse has passed certain exams required prior to seeking immigration. A doctor must pass the Foreign Medical Graduate Examination in the Medical Sciences (FMGEMS)—formerly the Visa Qualifying Exam—which is given extensively throughout the world and a nurse must pass the Commission on Graduate Foreign Nurses Exam (CGFNS).

Any alien seeking immigration must also have a job offer certified by the Department of Labor indicating there will be no displacement of U.S. Labor.

In the past several years, the Subcommittee has experienced a deluge of bills introduced on behalf of foreign medical graduates. The legislative history relating to this group indicates many doctors enter the United States as non-immigrants with the clear intention of remaining permanently. Legislation enacted in 1976 and 1977 sought to tighten the law requiring the return of such doctors to their home country; and recent legislation in 1981 generously grandfathered certain doctors for admission as permanent residence because of their length of time in the U.S. It is the Subcommittee's opinion the 1981 amendments to the Immigration and Nationality Act was the final chapter in a long and arduous struggle to provide equity to certain foreign medical graduates.

The Subcommittee is also dismayed to find that doctors who are beneficiaries of private laws often swiftly seek more lucrative employment upon gaining permanent residence, thereby leaving medically underserved areas without any medical assistance. Because of these experiences, the Subcommittee intends to look with very little favor on doctor bills. Further, if a bill on behalf of a doctor or nurse is pursued, the following is required before scheduling will occur:

(1) Passage of the Foreign Medical Graduate Examination in the Medical Sciences for doctors, and the Commission on Graduate Foreign Nurses Exam for nurses.

(2) Residence by the doctor or the nurse in a health manpower shortage area, or a recommendation by a U.S. Government Agency indicating the doctor or nurse's services are needed. It is the Subcommittee's desire that the beneficiary show substantial community ties over a long period of time. Extensive periods of residence would give the Subcommittee some assurance there is every likelihood the doctor or nurse would maintain residence in the area and provide medical services.

(3) Waiver of the two-year foreign residence requirement (this applies to all exchange visitors).

(4) Documentation as to efforts the institution has made to recruit U.S. citizens for the position. Such information shall include salary levels of other doctors or nurses on staff and an explanation as to recruitment techniques on employment of the beneficiary.

(5) Copies of annual affidavits executed by participants in foreign medical graduate exchange programs.

Legislation approved by the Subcommittee on behalf of doctors shall provide for suspension of deportation during an interim period while a doctor is serving in a community and permit adjustment of status to permanent residence upon completion of the designated time period.

C. Drugs and Criminal Activity

The Subcommittee has few precedents for waiving grounds of exclusion relating to criminal activity. In the event such a bill is pursued, the following documents where available will be required:

(1) Complete transcripts of court proceedings relating to the conviction.

(2) All other records relating to offenses, including state, and local police records.

(3) Waiver of Privacy Act and Freedom of Information Act by the beneficiary.

51-059 O-86-15 (Pt. 9)

(4) An affidavit (notarized) from the beneficiary describing his criminal record in full.

It is the intent of the Subcommittee that all available information be submitted to the Subcommittee. The Subcommittee will conduct its own investigation with appropriate government agencies.

It is also the Subcommittee's desire to review testimony and affidavits relating to the beneficiary's behavior after any criminal offense. Such information is helpful in making a determination as to whether legislation will serve the best interests of the community. In this regard, letters of reference, bank records, and employment records are particularly helpful.

D. Medical Cases

The Subcommittee shall be reluctant to schedule bills on behalf of persons who enter the United States on nonimmigrant visas or who are paroled for the purpose of seeking medical treatment. This type of visa is available to accommodate persons seeking advanced medical treatment which may be available only in the United States.

Many cases have come to the attention of the Subcommittee where the medical visa is used to enter the U.S., and shortly thereafter, the person seeks permanent immigration. This type of activity undermines the intent of the medical visa; and flagrant abuses may seriously jeopardize its availability for those whose only recourse is treatment in the United States.

The Subcommittee's reluctance to schedule such bills is based on the premise that persons may seek all available medical assistance while in the United States, but upon completion of any medical treatment the purpose of the visa expires and the alien must return home.

The Subcommittee also notes the increasing number of private bills in similar cases whereby the beneficiary seeks relief solely on the basis of the need for medical treatment for physical conditions which were present at the time of admission or developed after arrival in the U.S. It is therefore the policy of the Subcommittee in such cases that advisory opinions be sought by the author from such organizations as the World Health Organization and the Pan American Health Organization as well as from officials of the beneficiary's home country concerning the availability of medical treatment for such physical conditions.

E. Deferred Action Cases

The Subcommittee shall be reluctant to schedule any bills on behalf of aliens who are in "deferred" status. It is the Subcommittee's understanding that the Immigration and Naturalization Service reserves the conferral of such status to cases of a particularly compelling nature. In view of INS action in this regard, the Subcommittee does not see any need for legislative action.

F. Investors

Recent public legislation enacted on behalf of investors provided relief for persons who were able to establish their qualification for a nonpreference visa prior to June 1978.

The Subcommittee has studied the many cases relating to investors and has found many beneficiaries did not sufficiently acquaint themselves with the law prior to making an investment and operated under illusions with respect to qualifying for immigration.

It is the Subcommittee's opinion that most investors who entered the United States after the June 1978 date were aware that immigrant visas would not be available in the foreseeable future, and there are no precedents for enactment of a private law solely based on a person's investment in the United States.

In the event a Member wishes to pursue this type of bill, the following is required: tax records, contracts, bank statements, and other pertinent information relating to the investment.

G. Waiver of Exclusions

1. Health—All bills waiving the grounds of exclusion for mental or physical infirmities will require the posting of a bond. The Subcommittee notes there are few precedents for cases in this category. In order to obtain the best possible information, the Subcommittee will require all medical records as well as information from the state and/or federal government concerning possible public charge aspects of the case.

2. Draft Dodgers—There are few precedents for favorable action on behalf of draft dodgers, and it shall be the Subcommittee's policy to continue to view such bills unsympathetically.

3. Fraud—The Subcommittee has been extremely reluctant to act favorably on cases involving visa fraud, and it shall be the policy of the Subcommittee to adhere closely to precedents in this category.

H. Naturalization

The Subcommittee shall require any bill relating to expediting naturalization be accompanied by evidence indicating such action would be in the national interest, as opposed to personal gain. There are few precedents for favorable action on bills waiving any naturalization requirements or granting posthumous or honorary citizenship. It is the Subcommittee's intent generally to view unfavorably legislation in this area and notes more appropriate mechanisms for rewarding individuals may be in the form of honoraria, medals, awards, statues, etc. The Subcommittee also notes there are few instances of favorable action on behalf of individuals who renounce U.S. citizenship, and the policy of the Subcommittee shall be to adhere to precedents in this category.

I. Bills Tabled in a Previous Congress

Commenting on requests for reconsideration of legislation, Thomas Jefferson noted the right of reconsideration is not "a right to waste the time of the House in repeated agitations of the same question, so that it shall never know when a question is done with . . ."

The Subcommittee has been confronted with an increasing number of requests for reconsideration of private bills which have been tabled by the full Committee in previous Congresses. It has been the experience of the Subcommittee that each bill is given sufficient review during the meetings of the Subcommittee and the authors are afforded ample time to present the merits of the case. Repetitious consideration of these cases operates to the detriment of other private bills which are pending and reflects poorly on the integrity of the private bill process. For these reasons, the Subcommittee will be reluctant to reverse or reconsider its prior action absent new evidence or information that was not available or could not have been obtained by the author at the time of actual consideration by the Subcommittee.

J. Timeframe for Obtaining Relief Upon Enactment of a Private Law

The Subcommittee has monitored the situations concerning the applications for relief by beneficiaries of private immigration laws and expresses its concern that in many cases the subjects of private bills do not exercise their petition for relief after enactment in a timely manner.

Certain cases have come to the Subcommittee's attention whereby relief after enactment of a private law was not sought until 10 years thereafter, and other cases the Subcommittee is dismayed to learn that beneficiaries have not sought immediate relief.

In view of the lengthy deliberations by the Subcommittee on each bill processed under its jurisdiction, it appears incumbent upon the Subcommittee to assure that the beneficiaries of such bills apply themselves in a diligent manner and seek relief as expeditiously as possible upon enactment. Therefore, the Subcommittee shall amend each private bill processed so that the beneficiaries must apply for the benefits of the enacted law within two years of notification of the passage of the private law.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. EVANS of Illinois (at the request of Mr. WRIGHT) for this week, on account of observing Illinois National Guard training and a personal fact-finding visit to several Central American countries.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. SAM B. HALL, JR.) to revise and extend their remarks and include extraneous material:)

Mr. PEPPER, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. GONZALEZ, for 60 minutes, today.

Mr. GAYDOS, for 30 minutes, May 14.

Mr. GAYDOS, for 30 minutes, May 15.

Mrs. SCHROEDER, for 60 minutes, May 22.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. SMITH of New Hampshire) and to include extraneous matter:)

Mr. VANDER JAGT.

Mr. PARRIS.

Mr. ROTH.

Mr. SHUMWAY.

Mrs. ROUKEMA.

(The following Members (at the request of Mr. SAM B. HALL, JR.) and to include extraneous matter:)

Mrs. BURTON of California.

Mr. MONTGOMERY in two instances.

Mr. HALL of Ohio.

Mr. ROYBAL.

Mr. MAZZOLI.

Mr. PEPPER.
Mr. ANDERSON in 10 instances.
Mr. GONZALEZ in 10 instances.
Mr. BROWN of California in 10 instances.
Mr. ANNUNZIO in six instances.
Mr. JONES of Tennessee in 10 instances.
Mr. BONER of Tennessee in 10 instances.
Mr. MILLER of California.
Mr. HUBBARD.
Mr. STARK.

ADJOURNMENT

Mr. SAM B. HALL, JR. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 2 p.m.) the House adjourned until tomorrow, Tuesday, May 14, 1985, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

1267. A letter from the Secretary of Defense, transmitting a report on U.S. expenditures in support of NATO, pursuant to 22 U.S.C. 1928 nt.; to the Committee on Armed Services.

1268. A letter from the Administrator, Energy Information Administration, transmitting a copy of the administration's annual energy review 1984, pursuant to FEAA, section 57(a)(2) (90 Stat. 1139; 91 Stat. 572); to the Committee on Energy and Commerce.

1269. A letter from the Director, Defense Security Assistance Agency, transmitting notice of the Department of the Navy's proposed letter of offer to Spain for defense articles and services (Transmittal No. 85-10), pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

1270. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 122b(a); to the Committee on Foreign Affairs.

1271. A letter from the Governor, Farm Credit Administration, transmitting the annual report of the administration's activities under the Freedom of Information Act covering calendar year 1984, pursuant to 5 U.S.C. 552(d); to the Committee on Government Operations.

1272. A letter from the Secretary of the Interior, transmitting the Mineral Institute annual report for 1984, pursuant to Public Law 98-409, section 4(c); to the Committee on Interior and Insular Affairs.

1273. A letter from the Chairman, Pennsylvania Avenue Development Corporation, transmitting the 1984 annual report of the Corporation, pursuant to Public Law 92-578, section 11; to the Committee on Interior and Insular Affairs.

1274. A letter from the Secretary of Commerce, transmitting a draft of proposed legislation to amend the Magnuson Fishery Conservation and Management Act, as amended, to authorize appropriations for fiscal years 1986 and 1987, and for other purposes; to the Committee on Merchant Marine and Fisheries.

1275. A letter from the Secretary of Commerce, transmitting a draft of proposed legislation to amend title I of the Salmon and Steelhead Conservation and Enhancement Act of 1980, as amended, to repeal the Salmon Vessel Buy-Back Program; to the Committee on Merchant Marine and Fisheries.

1276. A letter from the Deputy Administrator of Veterans' Affairs, Veterans' Administration, transmitting a draft of proposed legislation to amend title 38, United States Code, to make certain improvements in the educational assistance programs for veterans and eligible persons; to repeal the Education Loan Program; and for other purposes; to the Committee on Veterans' Affairs.

1277. A letter from the Administrator, Environmental Protection Agency, transmitting a copy of a final rule on notification requirements and reportable quantity adjustments; a proposed rule on reportable quantity adjustments, pursuant to Public Law 96-510, section 305(a); jointly, to the Committees on Energy and Commerce and Public Works and Transportation.

1278. A letter from the Federal Inspector, Alaska Natural Gas Transportation System, transmitting the 23d quarterly report on the status of the system, pursuant to Public Law 94-586, section 7(a)(5)(E); jointly, to the Committees on Energy and Commerce and Interior and Insular Affairs.

1279. A letter from the Chairman, National Commission on Agricultural Trade and Export Policy, transmitting the interim report of findings and recommendations of the Commission, pursuant to 7 U.S.C. 1691 nt.; jointly, to the Committees on Agriculture, Foreign Affairs, and Ways and Means.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

[Pursuant to the order of the House of May 9, 1985, the following report was filed on May 10, 1985]

Mr. ROSTENKOWSKI: Committee on Ways and Means. H.R. 1868. A bill to amend the Social Security Act to protect beneficiaries under the health care programs of that act from unfit health care practitioners, and otherwise to improve the antifraud provisions of that act; with an amendment (Rept. No. 99-80, Pt. I). Ordered to be printed.

[Pursuant to the order of the House of May 8, 1985, the following report was filed on May 10, 1985]

Mr. ASPIN: Committee on Armed Services. H.R. 1872. A bill to authorize appropriations for fiscal year 1986 for the Armed Forces for procurement, for research, development, test, and evaluation, for operation and maintenance, and for working capital funds, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; with amendments (Rept. No. 99-81). Referred to the Committee of the Whole House on the State of the Union.

[Submitted May 13, 1985]

Mr. ACKERMAN: Committee on Post Office and Civil Service. H.R. 1534. A bill to convert the temporary authority to allow Federal employees to work on a flexible or compressed schedule under title 5, United States Code, into permanent authority (Rept. No. 99-82). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 934. A bill to provide certain authority to reduce erosion within the Cuyahoga Valley National Recreation Area, and for other purposes (Rept. No. 99-83). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 105. A bill to provide for the inclusion of the Washington Square area within Independence National Park, and for other purposes (Rept. No. 99-84). Referred to the Committee of the Whole House on the State of the Union.

Mr. SAM B. HALL, JR.: Committee on the Judiciary H.R. 439. A bill to amend title 28, United States Code, to provide for the selection of the court of appeals to decide multiple appeals filed with respect to the same agency order (Rept. No. 99-85). Referred to the Committee of the Whole House on the State of the Union.

SUBSEQUENT ACTION ON A REPORTED BILL

Under clause 5 of Rule X the following action was taken by the Speaker:

Referral of H.R. 1931 to the Committee on Public Works and Transportation extended for a period ending not later than May 14, 1985.

REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. JONES of North Carolina: Committee on Merchant Marine and Fisheries. H.R. 1203. A bill to promote the conservation of migratory waterfowl and to offset or prevent the serious loss of wetlands by the acquisition of wetlands and other essential habitat, and for other purposes; referred to the Committee on Interior and Insular Affairs for a period ending not later than May 14, 1985, for consideration of such provisions of the bill as fall within the jurisdiction of that committee under clause 1(1), rule X (Rept. No. 99-86 Pt. I). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. KASTENMEIER:

H.R. 2468. A bill to amend the Legal Services Corporation to authorize appropriations for additional fiscal years, and for other purposes; to the Committee on the Judiciary.

By Mr. HEFTEL of Hawaii:

H.R. 2469. A bill to amend title 39, United States Code, to require that the U.S. Postal Service report to Congress at least 60 days before acting on any decision to close or consolidate a post office; to the Committee on Post Office and Civil Service.

By Mr. PEPPER (for himself and Mr. REGULA):

H.R. 2470. A bill to amend the Housing and Community Development Act of 1974 to improve the criteria used to select projects for grants under the Urban Development Action Grant Program, and for other purposes; to the Committee on Banking, Finance and Urban Affairs.

By Mr. ROYBAL (for himself, Mr. FRANK, Mrs. BURTON of California, Mrs. COLLINS, Mr. CONYERS, Ms. KAPTUR, Mr. MITCHELL, Mr. RAHALL, and Mr. TOWNS):

H.R. 2471. A bill to amend the Internal Revenue Code of 1954 and title II of the Social Security Act to ensure fair and adequate financing of the Old-Age, Survivors, and Disability Insurance Program by reducing Social Security tax rates and applying the reduced rates to all wages and self-employment income of covered workers, and for other purposes; to the Committee on Ways and Means.

By Mrs. SCHROEDER (for herself, Ms. SNOWE, Mrs. BOGGS, Ms. KAPTUR, Mrs. BOXER, Mrs. BURTON of California, Mrs. COLLINS, Mrs. JOHNSON, Mrs. KENNELLY, Mrs. LONG, Ms. MIKULSKI, Ms. OAKAR, Mrs. SCHNEIDER, Mr. CONYERS, Mr. EVANS of Illinois, Mr. OBERSTAR, Mr. FAZIO, Mr. GEJDENSON, Mr. EDGAR, Mr. YATES, Mr. WHEAT, Mr. COLEMAN of Texas, Mr. MINETA, Mr. LEHMAN of Florida, Mr. EDWARDS of California, Mr. DIXON, Mr. STARK, Mr. DELLUMS, Mr. FAUNTROY, Mr. BERMAN, Mr. LELAND, Mr. MARKEY, Mr. DWYER of New Jersey, Mr. FASCELL, Mr. UDALL, Mr. GUARINI, Mr. ADDABBO, Mr. HOWARD, Mr. WEISS, Mr. MOODY, Mr. LANTOS, Mr. BARNES, Mr. MRAZEK, Mr. AUCOIN, Mr. FROST, Mr. VENTO, Mr. WOLPE, Mr. MCKERNAN, Mr. WYDEN, Mr. SMITH of Florida, Mr. FRANK, Mr. LEVINE of California, Mr. LEVIN of Michigan, Mr. CROCKETT, Mr. MORRISON of Connecticut, Mr. FISH, Mr. DOWNEY of New York, Mr. HAYES, Mr. DYMALLY, Mr. MCHUGH, Mr. PEPPER, Mr. RODINO, Mr. FEIGHAN, Mr. MILLER of California, Mr. TOWNS, Mr. WEAVER, Mr. FOGLIETTA, Mr. ROE, Mr. HAWKINS, Mr. BORSKI, Mr. LUNDINE, Mr. SCHEUER, Mr. PURSELL, Mr. WAXMAN, Mr. BONKER, Mr. LOWRY of Washington, Mr. WILLIAMS, Mr. SOLARZ, Mr. MATSUI, Mr. FLORIO, and Mr. FORD of Tennessee):

H.R. 2472. A bill to ensure economic equity for American women by providing retirement security for women as workers and as divorced or surviving spouses; making quality dependent care available to all working families; ending discrimination in insurance on the basis of race, color, religion, national origin, or sex, and improving health care coverage for displaced homemakers; providing equal employment opportunity and pay equity for women; and treating women and low-income families more equitably under the tax laws and tax reform proposals; jointly, to the Committees on Education and Labor; Ways and Means; Armed Services; Banking, Finance and Urban Affairs; Energy and Commerce; Post Office and Civil Service; House Administration; and Small Business.

By Mr. STARK:

H.R. 2473. A bill to amend the Internal Revenue Code of 1954 to deny a deduction for amounts paid as restitution or other damages for violations of law involving fraud; to the Committee on Ways and Means.

By Mr. COELHO:

H.J. Res. 286. Joint resolution designating May 1985 as "National Play-It-Safe Month"; to the Committee on Post Office and Civil Service.

By Mr. EDWARDS of California (for himself, Mrs. SCHROEDER, and Mr. MINETA):

H. Res. 168. Resolution directing the Director of Central Intelligence to provide to the House of Representatives documents and factual information in possession of the Central Intelligence Agency about covert training or other support during the past year for counterterrorist units in the Middle East; to the Permanent Select Committee on Intelligence.

MEMORIALS

Under clause 4 of rule XXII, memorials were presented and referred as follows:

121. By the SPEAKER: Memorial of the Legislature of the State of New Hampshire, relative to terminal cancer patients; to the Committee on Energy and Commerce.

122. Also, memorial of the Legislature of the State of California, relative to oil and gas leases; to the Committee on Interior and Insular Affairs.

123. Also, memorial of the Legislature of the State of New Hampshire, relative to the issuance of a commemorative bicentennial stamp; to the Committee on Post Office and Civil Service.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 52: Mr. MONTGOMERY, Mr. VALENTINE, and Mr. ATKINS.

H.R. 156: Mr. GEJDENSON, Mr. EDGAR, Mr. PEPPER, and Mr. PARRIS.

H.R. 521: Mr. BUSTAMANTE.

H.R. 753: Mr. MARTINEZ.

H.R. 930: Mr. MURPHY, Mr. BARNARD, Mr. YOUNG of Florida, and Mr. BENNETT.

H.R. 1031: Mr. DYMALLY, Mr. FRANK, Mr. HAYES, Ms. OAKAR, Mr. GARCIA, Mr. WEISS, Mr. HEFTEL of Hawaii, Mr. RODINO, Mr. MARTINEZ, Mrs. COLLINS, Mr. RICHARDSON, and Mrs. BOXER.

H.R. 1032: Mr. DYMALLY, Mr. FRANK, Mr. HAYES, Ms. OAKAR, Mr. GARCIA, Mr. WEISS, Mr. HEFTEL of Hawaii, Mr. RODINO, Mr. MARTINEZ, Mrs. COLLINS, Mr. RICHARDSON, and Mrs. BOXER.

H.R. 1099: Mr. HALL of Ohio.

H.R. 1267: Mr. COBLE, Mr. OLIN, Mr. COOPER, Mr. DUNCAN, Mr. MCMILLAN, Mr. SLAUGHTER, Mr. ROSE, and Mr. HATCHER.

H.R. 1401: Mrs. BENTLEY, Mr. MITCHELL, Mr. BERMAN, and Mr. FEIGHAN.

H.R. 1402: Mrs. BENTLEY and Mr. BERMAN.

H.R. 1403: Mrs. BENTLEY and Mr. BERMAN.

H.R. 1467: Mr. BOUCHER.

H.R. 1509: Mr. SEIBERLING.

H.R. 1534: Mr. DARDEN, Mr. DAUB, Mr. DEWINE, Mr. CHANDLER, Mrs. COLLINS, Mrs. BYRON, Mr. WIRTH, Mr. SMITH of New Jersey, Mr. GRAY of Pennsylvania, Mr. NIELSON of Utah, Mr. WHITEHURST, Mr. GILMAN, Mrs. BURTON of California, Mr. DAVIS, and Mr. MORRISON of Connecticut.

H.R. 1544: Mr. MARTINEZ.

H.R. 1579: Mrs. BENTLEY and Mrs. SCHNEIDER.

H.R. 1927: Mr. LEHMAN of California.

H.R. 1940: Mr. ACKERMAN, Mr. EDWARDS of California, Mr. ECKART of Ohio, Mr. OBERSTAR, Mr. BERMAN, Mr. VENTO, Mr. FORD of Tennessee, Mr. TORRICELLI, Mr. AKAKA, Mr. LEHMAN of California, Mr. DASCHLE, and Ms. MIKULSKI.

H.R. 1942: Mr. LAFALCE.

H.R. 2001: Mr. SHELBY, Mr. WAXMAN, Mr. COELHO, Mr. VANDER JAGT, Mr. MRAZEK, Mr. STALLINGS, Mr. LEWIS of California, Mr. WEAVER, Mr. HAWKINS, Mr. DE LUGO, Mr. DIXON, Mr. BARNES, Mr. ANDREWS, Mr. LANTOS, Mr. RINALDO, Mr. MARTINEZ, Mr. REGULA, Mr. BATES, Mr. LATTA, Mr. ROE, Mr. EVANS of Illinois, Mr. TOWNS, Ms. KAPTUR, Mr. PASHAYAN, Mr. YATES, Mr. KASICH, Mr. KILDEE, Mr. KOLTER, Mr. WEISS, Mr. TRAXLER, Mr. DORGAN of North Dakota, Mr. MORRISON of Washington, Mr. MCKINNEY, Mr. SAXTON, Mr. WILSON, Mr. GROTBERG, Mr. BUSTAMANTE, Mr. MCCURDY, Mr. MOODY, Mr. BEILENSON, and Mr. THOMAS of California.

H.R. 2221: Mr. TOWNS, Mr. RANGEL, Mr. FOGLIETTA, and Mr. CROCKETT.

H.R. 2282: Mr. CARPER, Mr. COYNE, Mr. EVANS of Illinois, Mr. MORRISON of Connecticut, and Mr. SABO.

H.R. 2329: Mr. LEVINE of California and Mr. STOKES.

H.R. 2401: Mr. DELLUMS, Mr. DONNELLY, Mr. LELAND, and Mr. MOODY.

H.J. Res. 64: Mr. BADHAM, Mr. BARNARD, Mrs. BENTLEY, Mr. BILIRAKIS, Mr. BONIOR of Michigan, Mr. BOSCO, Mr. BROOKS, Mr. BROWN of California, Mr. BROWN of Colorado, Mr. BURTON of Indiana, Mrs. BURTON of California, Mr. CARR, Mr. CHANDLER, Mr. CHAPPELL, Mr. COBEY, Mr. COBLE, Mr. COLEMAN of Missouri, Mr. COOPER, Mr. DELLUMS, Mr. DICKINSON, Mr. DICKS, Mr. DIXON, Mr. DOWDY of Mississippi, Mr. DOWNEY of New York, Mr. DWYER of New Jersey, Mr. FAZIO, Mr. FLORIO, Mr. FOLEY, Mr. FROST, Mr. GEKAS, Mr. GONZALEZ, Mr. GREEN, Mr. GREGG, Mr. GUNDERSON, Mr. HOYER, Mr. HUNTER, Mr. HUTTO, Mr. HYDE, Mr. KOSTMAYER, Mr. LANTOS, Mr. LOTT, Mr. MCEWEN, Mr. MATSUI, Mr. MICHEL, Mr. MOODY, Mr. PEPPER, Mr. PORTER, Mr. PRICE, Mr. RITTER, Mr. ROBINSON, Mr. RODINO, Mr. ROEMER, Mr. SCHUMER, Mr. SLAUGHTER, Mr. SMITH of New Jersey, Mr. SMITH of New Hampshire, Mr. STANGELAND, Mr. STENHOLM, Mr. STRATTON, Mr. TAUKE, Mr. TAUZIN, Mr. VALENTINE, Mr. WALGREN, Mr. WHITTAKER, Mr. WYDEN, Mr. YOUNG of Florida, and Mr. YOUNG of Alaska.

H.J. Res. 65: Mr. GONZALEZ.

H.J. Res. 68: Mr. MURPHY.

H.J. Res. 135: Mr. FORD of Tennessee, Mr. JEFFORDS, Mr. FRENZEL, Mr. GEPHARDT, Mr. BEREUTER, Mr. MACKAY, Mr. KOLBE, Mr. COYNE, Mr. DOWDY of Mississippi, Mr. DASCHLE, Mr. SAXTON, Mr. MCKINNEY, Mr. Kostmayer, Mr. SMITH of Florida, Mr. TAUZIN, Mr. LEWIS of California, Mr. WORTLEY, Mr. IRELAND, Mr. TRAXLER, Mr. SKELTON, Mr. LEVINE of California, Mr. LENT, Mr. LUNDINE, Mr. GONZALEZ, Mr. FAZIO, Mr. YOUNG of Missouri, Mr. BOSCO, and Mr. MOLLOHAN.

H.J. Res. 183: Mr. MINETA, Mr. DIOGUARDIA, Mr. KINDNESS, Mr. BIAGGI, Mr. COELHO, Mr. LEHMAN of California, Ms. KAPTUR, Mr. HARTNETT, Mr. HAYES, Mr. ROEMER, Mr. TALLON, Mr. HEFTEL of Hawaii, Mr. DEWINE, Mr. YOUNG of Missouri, Mr. RAHALL, Mr. HEFNER, Mr. YATES, Mr. SMITH of New Jersey, Mr. ROSE, Mr. FAZIO, Mr. THOMAS of Georgia, Mr. CHANDLER, Mr. DAUB, Mrs. COLLINS, and Mr. FAUNTROY.

H.J. Res. 285: Mr. TAUZIN, Mr. ROSE, Mr. ROBINSON, Mr. RINALDO, Mr. PRICE, Mr. WEISS, Mr. WRIGHT, Mr. ROWLAND of Geor-

gia, Mr. ROTH, Mr. SHAW, Mr. SIKORSKI, Mr. LELAND, Mr. SCHULZE, Mr. KASTENMEIER, Mr. MINETA, Mr. GUARINI, Mr. STUMP, Mr. SOLARZ, Mr. REID, Mr. MURPHY, Mr. BRUCE, Mr. CRANE, Mr. YOUNG of Alaska, Mr. PICKLE, Mr. FISH, Mr. VANDER JAGT, Mr. RICHARDSON, Mr. GRAY of Illinois, Mr. HUGHES, Mr. RUDD, Mr. MONTGOMERY, Mr. STAGGERS, Mr. WEBER, Mr. WIRTH, Mr. WISE, Mr. ROGERS, Mr. BATEMAN, Mr. BORSKI, Mr. BROWN of California, Mrs. BURTON of California, Mr. BUSTAMANTE, Mr. CAMPBELL, Mr. CARR, Mr. CHANDLER, Mr. BENNETT, Mr. DORGAN of North Dakota, Mr. IRELAND, Mrs. MEYERS of Kansas, Mr. GREEN, Mr. GROTBERG, Mr. HUTTO, Mr. KEMP, Mr. LAGOMARSINO, Mrs. LLOYD, Mr. DWYER of New Jersey, Mr. DOWDY of Mississippi, Mr. MCCAIN, Mr. MCHUGH, Mr. ERDREICH, Mr. GEPHARDT, Mr. HAYES, and Mr. JONES of North Carolina.

H. Con. Res. 26: Mr. LENT and Mr. MCHUGH.

H. Con. Res. 131: Mr. BUSTAMANTE, Mr. COOPER, Mr. DELAY, Mr. EMERSON, Mr. GILMAN, Mr. LEWIS of Florida, Mr. MCCANDLESS, Mr. RODINO, Mr. STALLINGS, Mr. SWIFT, and Mr. TAYLOR.

PETITIONS, ETC.

Under clause 1 rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

104. By the SPEAKER: Petition of the board of trustees, the City University of New York, NY, relative to the Pell grant budget proposed by the administration for fiscal year 1985; to the Committee on Education and Labor.

105. Also, petition of the Vietnamese Association of Central Florida, Orlando, FL, relative to the freedom fighters in Southeast Asia; to the Committee on Foreign Affairs.

106. Also, petition of the board of aldermen, Chelsea, MA, relative to the President's proposed budget cuts fiscal year 1986; to the Committee on Government Operations.

AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 1872

By Mr. FOGLIETTA:

—At the end of title 10 add the following new section on page 200, following line 4:

SEC. 1050. SDI OVERSIGHT COMMISSION.

(a) ESTABLISHMENT OF COMMISSION.—There is hereby established a commission to be known as the "Congressional Commission on Strategic Defense ". The Commission shall monitor the progress of Strategic Defense Initiative programs and particularly shall—

(1) study the feasibility and technology of SDI programs;

(2) study adherence of SDI programs to the 1972 ABM Treaty and any other treaty and the effect of such programs on any treaty; and

(3) review strategic defense programs of the Soviet Union.

(b) MEMBERSHIP.—(1) The Commission shall be composed of twelve members appointed for six-year terms. The members of the Commission shall be appointed as follows:

(A) Three members shall be appointed by the Speaker of the House of Representatives.

(B) Three members shall be appointed by the Minority Leader of the House of Representatives.

(C) Three members shall be appointed by the Majority Leader of the Senate.

(D) Three members shall be appointed by the Minority Leader of the Senate.

(2) Members of the Commission shall be appointed based upon recognized expertise in matters relating to the Strategic Defense Initiative and shall be selected from among persons who are particularly qualified by reason of training, experience, and knowledge for service on the Commission.

(3) In the event of a vacancy in the Commission, the vacancy shall be filled in the same manner as the original appointment.

(4) Of the members first appointed to the Commission, four shall serve for two years, four shall serve for four years, and four shall serve for six years, as determined by lots at the first meeting of the Commission.

(c) CHAIRMAN.—The members of the Commission shall select the chairman of the Commission.

(d) SUPPORT SERVICES.—The Commission shall receive necessary support services and funding from the Strategic Defense Initiative Organization of the Department of Defense. Each Commission member is entitled to appoint one staff person.

(e) REPORTS.—(1) The Commission shall submit an annual report to Congress on the Strategic Defense Initiative. The report shall be submitted in both a classified and unclassified form.

(2) The Commission shall submit to Congress such reports as it considers appropriate on any report to Congress by the Secretary of Defense concerning the Strategic Defense Initiative.

(3) Reports to Congress by the Commission shall be submitted without intervening review or approval within the Executive branch.

EXTENSIONS OF REMARKS

CLEVELAND, A GREAT PLACE TO VACATION

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Ms. OAKAR. Mr. Speaker, one of the best kept travel secrets in the country is my hometown of Cleveland, OH. The May 12, 1985 travel section of the Washington Post has an excellent description of Cleveland's attractions. I ask that the article on Cleveland by David Beacom be printed in the RECORD. I hope the article will inspire my colleagues and their constituents to experience Cleveland for their vacation travel.

CLEVELAND: BEHIND THAT INDUSTRIAL FACADE THERE'S A CITY OF IMAGINATION—AND EVEN FUN

(By David Beacom)

Q. What's the difference between Cleveland and the Titanic?

A. Cleveland has a better orchestra.

The only lesson you might draw from a trip to Cleveland, many folks would predict, would be never, ever to repeat the experience. Surely that was the The Moral of the Story for the Titanic's grateful survivors. "Let's not and say we didn't," might be an even more common response. But it's the desire to avoid that common response, to seek out less predictable experience, that gets the curious traveler going and can make trekking even to Cleveland a capital notion.

Contrary to outsiders' expectations, the 600,000 souls who live in Cleveland (and their occasional guests) do manage to have fun. And it might happen to you in the gritty downtown neighborhood called the Flats or even in the more rarefied atmosphere of the Cleveland Play House, which bills itself as the nation's oldest resident theater company. What's more, meandering through Shaker Heights and other leafy suburbs, you could see rich people and some not-so living on a scale only dreamed of in many cities. And, encountering at every turn the efforts of Cleveland's proud leaders (a can-do crowd if ever was) to cast their town in a flattering light, you may pick up on an unexpected lesson—a reminder, really: Power always has its limits. Despite that intense boosterism, after all, how does the idea of a vacation in Cleveland strike you?

The simple truism about the limits of power is easily forgotten. On the Titanic, the decks had to start heaving before the corporate titans aboard got the same message. In that perilous situation, wealth and accomplishment lost much of their familiar reassuring force.

Unlike the Titanic, however, Cleveland is not necessarily doomed, though this doesn't hit the visitor full in the face—not at first, anyway. For that matter, neither do any of Cleveland's considerable pleasures.

Like so many cities on the Great Lakes, downtown Cleveland has a ragtag, gap-toothed look that results partly from an abundance of flat land along the shore: Towering, broad-shouldered buildings rise beside all-but-vacant lots. Venerable classical structures like City Hall open onto formal vistas that peter out in a desultory block or two.

Downtown tucks loosely into vast acreage formed by Lake Erie to the north, the Cuyahoga River to the west and a smoky encampment of factories to the south. As if even these spaciously arranged boundaries constituted too tight a confinement for a Midwestern town, Cleveland spills over unrestrainedly to the east—in which direction the city stretches nearly 200 blocks.

Within those blocks can be found most of black Cleveland and nearly all the city's prestige institutions: the Cleveland Museum of Art; Severance Hall, home of the city's daunting orchestra; the Cleveland Clinic, currently a favorite of King Hussein and other Middle Eastern potentates in need of repair. Then, too, the richest suburbs roll on out east—including Shaker, Pepper Pike and an almost ineffably lovely patch of New England, transported to Ohio and given the name Gates Mills.

On the other side of town, across the Cuyahoga, lies white Cleveland, resolutely ethnic. Beyond West 117th Street, Lakewood, Rocky River and other eminently presentable suburbs hug the shore.

At the heart of it all is Public Square, which forms a kind of front yard for Cleveland's tallest building—the 52-story Terminal Tower. ("Who would believe," inquires a song none too popular at the local Chamber of Commerce, "a city with a tower that's terminal overlooking a lake that's eerie?")

A Midwestern answer to Grand Central Station, the Terminal Tower went up in 1930 and brought offices, shops, and rapid-transit trains together under one roof at the hub of the city. Cleveland's version, however, is cheerier. Sheltered by gently arching white vaults, the shops beneath the Tower sparkle with tiny lights and a snappy array of merchandise. The Terminal complex also houses the city's best emporium, Higbee's. With its lofty ceilings and resplendent crystal chandeliers, Higbee's looks every bit the quintessential department store.

Next door to the Terminal is Stouffer's Inn on the Square, Cleveland's solitary attempt at a grand hotel in the traditional manner. Across the square rises Standard Oil of Ohio's high-stakes gamble on the city's future. The 45-story office building, a brown marble behemoth costing a quarter of a billion dollars and due to open this year, will also have a cluster of shops at its base.

Hereabouts, designers of the shopping centers of the 1980s do not have far to look for inspiration. There's no surpassing the Arcade, the 95-year-old shopping-street-under-glass one block east of Public Square. The Arcade is busiest at lunch. Inside the five-story Victorian confection, mainly cast iron but no less dainty for that, a block-long skylight pours sunshine into even the lowest levels. That's where stores and restaurants are located. The floors above house offices and a gallery or two, though an old-fashioned ladies' tearoom hangs on in the uppermost reaches. Very little compromises the perfection of the Arcade, which for honest charm puts recent limitators to shame.

Not so delicate-looking but quite as special is the Flats, hard by the Terminal Tower on the banks of the Cuyahoga. Here, factories that once fed much of the city stand moribund. Or they've been cleared out, giving way to condominiums, upscale restaurants, marine outfitters (Cleveland has lots of sailors) and a couple of costly antique shops. Saloons in the neighborhood have a studied raffishness about them.

This part of the city is a strange, and strangely evocative, place—a Depression-era landscape of idleness and waste and pockets of money. Every view has a lonely kind of beauty: gravel heaps and weedy gullies and weightly iron bridges leading nowhere in particular, all remnants of the more heavily industrial Cleveland of yore. Nowadays it's becoming the turf of the Yuppies, a sad fate but for the fact that grimly ambitious bunch seems a less blase, more winning group here than elsewhere.

An evening in the Flats surely promises no narrower a range of diversions than do equivalent spots for the young and reckless in other burgs. It may even offer a distinct emotional bonus. Amid the derelict railroad sidings, within the rosy brick walls of the commercial buildings of the last century, Cleveland has launched one of its customary, game attempts to adapt to reduced circumstances. For all but the most hardhearted, the determination that underlies such efforts can be down-right moving.

Even in Cleveland, however, some things don't require resuscitation. They go on as they always have—maybe better. That's the case with the West Side Market, in Ohio City. Local wags have modified signs leading to the community—just across the Cuyahoga from the Flats—so that they read "CHIC city." But in pinpointing the area's appeal that misses the mark.

Sure, a number of Ohio City's frame houses have been colorfully redone a la San Francisco's "Painted Ladies." Those in search of the funkier sort of antiques will feel right at home in the neighborhood's grimy shops. And area restaurants things have happened. But with aging cities, as with athletes in their dotage, such talk eventually arouses not respect but derision—or worse, blank disregard.

And yet creaky competitors sometimes do summon the strength for another victory. Better, still more manage to shift gears and make a success of something new. That's what Clevelanders are up to.

What's their plan?

First, they've decided to hope for the best, which helps explain why they stick around and try to make a go of it. Second, they've put on a happy face: Downtown has silvery new office towers and plenty of oversize abstract art, these days the most visible totems of a city on the go. Third, they'll work hard—witness the navy-suited armies on the corporate march up and down East 9th Street. Then, too, they're willing to take their lumps.

Finally, they'll strive to keep the world guessing. A comeback in the offing? Maybe, maybe not. But it's far too early to light the candles, strike up the hymns and gather

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

'round the coffin. Considering the city's native assets, and allowing for the occasional comic misstep along the way, a dignified old age seems assured for Cleveland—with long-term prosperity a distinct possibility.

So the rest of us might stop crowing. Powerhouse or neon, we should all be so lucky.

AND THEY SPREAD THE FUN FROM CLEVELAND TO RESEDA, AND BACK

(By Morris D. Rosenberg)

Cleveland knows a good thing when it sees it—even though some people may have their doubts.

Consider what happened a few weeks ago when Ken Minyard and Bob Arthur—hosts of a morning "drive" show on radio station KABC in Los Angeles—told their listeners that the city of Reseda had become "the Cleveland of the San Fernando Valley." Suddenly, phone calls and letters began pouring in from Reseda citizens who felt insulted by the comparison.

Reseda, Minyard explained recently in a telephone interview is an older lower-middle-class town that once was lovely. "Who knows why certain communities get a certain kind of reputation, but Reseda has become the butt of jokes in much the same way as Cleveland."

So Minyard and Arthur responded to their irate listeners, "look, you're right, we're guilty." They decided—tongue still somewhat in cheek, however—to make amends by sponsoring a contest for a song about Reseda that would celebrate its virtues and best capture "the essence of the city." The prize? A round-trip bus ticket to Cleveland.

Enter Rocco Scotti, a Cleveland booster who sings "The Star Spangled Banner" at the Indians' home baseball games. Scotti had heard about the Reseda slur and contest from relatives in L.A., and he thought KABC had struck a sour note.

Cleveland, he felt—and city officials strongly agree—has become a much-maligned butt of columnists and one-liners. Scotti immediately contacted the station (he has sung the national anthem on earlier Ken and Bob shows to open the Dodgers' season) and thus became the link in an impromptu campaign by Cleveland to turn a negative joke into a positive boost.

The prize-winning song was submitted by Adrienne and Keith Follazay—singers, songwriters and Reseda residents—who performed it on the KABC program. Then Continental Airlines agreed to donate round-trip tickets to Cleveland to the Follazays, and the radio station provided spending money.

Cleveland civic organizations—the Convention and Visitors Bureau, the Greater Cleveland Growth Association, Cleveland magazine and city officials—joined together to plan a whirlwind week of escorted activities around town for the winning couple to make sure Resedans changed their tune about Cleveland.

Beginning April 7, the contest winners toured downtown; visited the Flats; went to the theater; watched the Indians play ball; sang their Reseda song ("In the heart of the Valley where the sun always shines/Reseda waits peacefully for me") at a downtown cafe; visited museums; took the Trolley Tour; saw the West Side Market; were driven to Shaker Heights; and flew home to Reseda on April 14, exhausted but delighted.

"We never had bad feelings about Cleveland," said Keith Follazay. "But everybody who heard we were going there asked us why," Adrienne added. Reflecting on their visit, Keith said, "I think they (Clevelanders) might be the warmest people in the United States."

KABC's irrepressible Minyard and Arthur now say "we're so impressed by what happened that we may set up the Ken and Bob Tour of Cleveland." They promptly invited Adrienne and Keith back on the show to sing their new song—about Cleveland: "We've got the best location/Cleveland is a new sensation." And radio station WJW in Cleveland agreed to rebroadcast that performance.

Reseda is also happy, claim Ken and Bob. "They've dedicated a mini-park to us—that's a bench and a couple of cement pots—in honor of what this did for them."

CLEVELAND WAYS AND MEANS

Getting there: Both United and Northwest Orient Airlines fly from Washington National to Cleveland Hopkins. The round-trip air fare ranges from $140 to $302, depending on the days of the week you travel.

Getting around: Although swift, convenient rail service links Hopkins and the Terminal Tower downtown, you will most likely need a car to make your way around Cleveland. Distances are great, and—except for the excellent trains to Shaker Heights—public transit seems too daunting for the outsider.

Taxi service, long abysmal in Cleveland, has in recent times improved—but not enough to make a big difference for the traveler on a schedule.

Where to stay: Stouffer's Inn on the Square (216-696-5600 or 800-HOTELS1), in the center of town, underwent extensive renovation several years ago and could once again profit from some fluffing up, but it still ranks as *the* big-deal old hotel. Rates are $103 to $113 double, with some weekend rates of $69 per night available.

More modern but less distinctive is the Bond Court Hotel (216-771-7600 or 800-321-1090), not far from Public Square at 777 St. Clair Ave., $100 double. Also nearby is the Hollenden House (216-621-0700 or 800-321-6728), at 610 Superior Ave., $90 double.

Where to eat: The best bet just might be Au Provence, at 2195 Lee Road in Cleveland Heights. Unprepossessing on the outside, warm and countrified in, Au Provence serves up French and Creole cooking and has been a Cleveland favorite for a decade. Earth by April, a few doors away at 2151 Lee, has during its 11-year existence made a reputation for well-prepared seafood.

More recent additions to the city's restaurants include Cuisines, set up in stylish Deco digs in the Hanna Building, near Playhouse Square. Sammy's, in the Flats, overlooks the Cuyahoga River—a more felicitous vista than you might imagine. The Ohio City Tavern is a popular spot in its neighborhood. So is Heck's, housed in a renovated movie theater in suburban Rocky River.

Information: Cleveland Magazine, published monthly, contains complete listings of cultural and sporting events. The city's daily newspaper, The Plain Dealer, has a "Friday" section designed to help readers plan the weekend.●

DR. KOSAKU UYEDA: VA SCIENTIFIC RESEARCH AT ITS BEST

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. MONTGOMERY. Mr. Speaker, I am always proud to come before this great body to talk about the exceptional quality of the Veterans' Administration's health care delivery system and its medical research team—people and services that rank among the finest in the world.

Today, it is my honor to inform you of the achievements of an outstanding research scientist, Dr. Kosaku Uyeda of the Dallas VA Medical Center.

The Veterans' Administration recently presented Dr. Uyeda with the prestigious William S. Middleton Award, its highest scientific honor, for his research in the field of carbohydrate metabolism. The award is named for the late researcher, clinician, and educator who served as the VA's Chief Medical Director from 1955 to 1963.

Dr. Uyeda's discovery of the metabolite that controls glucose metabolism in the liver and in other tissues has been hailed by the scientific community as an achievement that revolutionizes the study of diabetes and obesity.

According to Dr. Roger H. Unger, a senior medical investigator at the Dallas VA Medical Center, it would not be surprising if Dr. Uyeda's discovery makes possible "new therapeutic approaches to correcting the abnormalities of diabetes."

Dr. Uyeda, who holds a Ph.D. from the University of California at Berkeley, has been with the VA since 1967 and has served as a research career scientist since 1979.

Mr. Speaker, Dr. Uyeda's work is an excellent example of the type of scientific research that is conducted within the VA's Department of Medicine and Surgery and of its high quality. This research team continues to draw worldwide attention for its advances and breakthroughs in medicine and science which have significantly improved the quality of life for all mankind.

We owe much to Dr. Uyeda and his fellow researchers who pursue medical knowledge with remarkable ingenuity and persistence.

Mr. Speaker, I know my colleagues will want to join with me in expressing deep appreciation to Dr. Uyeda for his major contributions to VA research, to the international medical community, and to his fellow man. I would also like to offer our congratulations to Dr. Uyeda as he receives much-deserved recognition for his outstanding work.●

HONORING NEW JERSEY FIREFIGHTERS

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. COURTER. Mr. Speaker, I rise today to honor over 500 volunteer firefighters from 35 companies in the greater Middlesex County, NJ, area who recently valiantly pulled together to help combat one of the blazes ever in Monroe Township, NJ. This concerted effort helped to stem an impending disaster that threatened over 400 people who were forced to evacuate 200 homes in the area. Similar superb teamwork was previously displayed when the firefighers pulled together to fight a severe blaze earlier in February.

America grew to be great in large part because our people have consistently pulled together in times of adversity. The noble efforts of these firefighters in inspiring and encouraging to see. They are all heroes in the true sense of the word.

I commend to my colleagues' attention an editorial which appeared in the Home News, one of the region's finest papers, that expounds on this valiant effort:

VOLUNTEER ARMY GAVE 200 PERCENT

Monroe Fire Chief Van Applegate Jr. called it "the worst fire in the history of this township that I know."

Whipped by high, shifting winds, the fire swept through more than 700 acres of drought-parched grass and woodlands Friday, damaging a score of homes and destroying several garages, sheds, outbuildings and vehicles before an army of volunteer firefighters brought it under control.

At the height of the vast fire, more than 400 people were evacuated from about 200 homes in Inwood Estates and in the Outcalt, Old Forge and Matchaponix sections of the townships. At least 500 firefighters from about 35 companies through Middlesex and from parts of four other counties worked along with first-aid squad members, local residents and businesses to battle the blaze. The state Bureau of Forest Fire Management also joined the attack with bulldozers, trucks and a helicopter making water "bombing" runs.

"It frightened the devil out of us," says Monroe Mayor Peter Garibaldi.

But it could have been much worse.

If it hadn't been for the work of the volunteer fire companies—and all those other volunteers who were "running into the fire house, throwing on the gear and just going at it"—says Chief Applegate, "we'd have lost every house in there." Without this quick and concerted response to Monroe's call for help he says, "we would have been in trouble."

So this time it's Monore residents who have reason to be thankful for the courageous performance of volunteers who responded promptly and fought a well-coordinated battle against a big and dangerous fire. As they did in the face of the explosion and fire at a chemical plant in Middlesex Borough in February, the network of volunteer fire companies and aid squads swung into action on the fire lines and in backup roles at emptied fire houses according to prearranged emergency plans.

Spotswood Fire Chief Art Esposito, the information officer at the scene, says the volunteer fireman "gave absolutely 200 percent"—as usual. "The Southeastern and Middlesex County Fire Fighters Association did an outstanding job," he said, and New Jersey residents "should be very proud of their volunteer firefighters."

Indeed they did—and indeed we are.●

INAUGURAL BAND PARADE—ON TO WALT DISNEY WORLD, ORLANDO, FL

HON. GUY VANDER JAGT

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. VANDER JAGT. Mr. Speaker, it is with truly great pleasure and joy to take this opportunity to highlight a most happy turn of events involving that "parade that wasn't"—the 50th Inaugural Parade, canceled last January because of dangerously cold weather. It was a sad time for those of us from Michigan's Ninth Congressional District and, especially Holland, MI, because the tremendous Holland High School Marching Band was selected to represent our State of Michigan in the parade.

As the Holland Sentinel newspaper reported back then, it was a time of "Expecting the Unexpected."

The greatest surprise, as it turned out, was the weather in Washington, DC, on January 20-21. The parade had to be canceled because of serious concerns that frost-bite would take place, especially with mouthpieces of the musical instruments frozen to mouths. There was a windchill factor of 30° below zero.

But, now a wonderful turn of events. The Holland High School Marching Dutchmen are on the way to Walt Disney World in Orlando, FL, to march with Mickey Mouse in a "restaged Inaugural Parade on May 27.

That's not a bad consolation prize. And, there are strong indications that President Reagan will be on hand for the parade. At any rate, there's high confidence that cold weather will not force a postponement this time.

During our special Inaugural Week activities last January, it was my honor to meet and visit with the Holland band and have a great picture taken together in front of the U.S. Capitol Building. I never met a finer group from our district. They were disappointed but they handled the unique situation with great class. Now, this marvelous 171-member band has another opportunity. I can assure all that they will make the most of it and will present a marvelous presentation with their great music and appearance featuring their wooden shoes.

Mickey Mouse may lead the parade but I know that the Holland High School Marching Band will steal the show.

Mr. Speaker, permit me at this time to insert a recent article from the Holland Sentinel on the announcement of the upcoming Florida trip as well as a brief story from the same paper by Kristen Lidke highlighting some of the comments of band members during their Washington visit. The two news articles follow:

HOLLAND HIGH BAND HEADING FOR FLORIDA

(By Patti Eddington)

They're going to give it one more try.

The Holland High School Marching Dutchmen have accepted an invitation to march with Mickey Mouse in a "Restaged Inaugural Parade" May 27 at Walt Disney World in Orlando, Fla.

And band members think that's just ducky.

"They're extremely excited and very much looking forward to it," band director Charles Bullard said. "After the Washington trip in January I think they felt the chance of a lifetime went down the drain."

Because so many high school and college bands went home disappointed when the Inaugural Parade for President Ronald Reagan was canceled because of a January cold spell, Walt Disney World Officials decided to stage the special Memorial Day weekend event, according to Michael Eisner, chairman of the board of the organization.

While the Holland band has been aware of the invitation for several weeks, school officials have been trying to finalize details before committing the band to the trip.

Bullard said the 171 Holland band members and chaperones will leave Holland Saturday, May 25, on either charter or school buses and travel to O'Hare airport in Chicago. An American Trans Airlines plane will take the group, as well as two other bands which will perform in the parade, to Orlando.

During the three-day trip students will have an opportunity to visit Disney World and Epcot Center. They will perform in the Walt Disney World parade on Monday, May 27, before returning to Holland.

Indications are Reagan will attend the event, Bullard said.

"It is on his calendar and he has sanctioned the event. The Disney people are optimistic he will be there," Bullard said.

While a massive fund raising drive took place before the band traveled to Washington, band students will each pay their own $125 bill for the Florida trip.

Bullard said seven students have expressed difficulty in raising the funds necessary for the weekend journey, but unsolicited contributions which have been sent the school will cover expenses for three of the students.

The parade is being sponsored by Disney World, Days Inn, Greyhound and Burger King, according to officials at Disney World.

JUST A FEW THOUGHTS ENROUTE

(By Kristen Lidke)

Although the Holland High School Marching Band experienced its share of surprises and disappointments during its trip to the Washington area, the overall mood of the group remained positive throughout. Listed below are some examples of the spirit, humor and irony which pulled band

members through the historic "Parade that Wasn't" and made the trip a memorable one.

"Be perfect, and you'll be OK."—Band Director Charles Bullard, the day before leaving for Washington, D.C.

"During the trip, we must be prepared for anything and must be extremely adaptable for any performance situation."—Bullard, the day before leaving for Washington.

"This should be the last surprise we have."—Bullard, the day before departure, commenting on the initial change in flight itinerary.

"I thought the other day I had my last surprise."—Bullard, after learning a busload of band members and chaperones were stranded in Detroit overnight.

"My little heart is just a-beatin' and my arms are going numb."—Sophomore Tammy Edwards, flying for the first time since she was 6 years old.

"Above the clouds, I saw a strip of a rainbow while my ears were popping!"—Anonymous band member somewhere in the clouds en route to Washington.

"Hey, you guys! They have 'Trigger Burgers' on the menu at Roy Rogers Restaurant . . . and 'Trigger Chips,' too!"—Sophomore Karin Essenburg.

"I don't snore! I just breathe loud!"—Sophomore Michelle Konjer.

"I like wearing my uniform. It makes me feel like a person."—Junior Karen Allen.

"We could have worn our ear muffs and go . . . it's not that bad out there."—Junior Buffy Becker after learning of the parade cancellation.

"What a bummer. I wanted to see how old Nancy Reagan really looks in person."—Senior Julie Hirt, upon hearing of the scrapped parade.

"If I was Reagan, I would have voted the same way . . . I wouldn't want them (the parade musicians) to rip their lips off." Senior Regan Higgs, who was named after President Reagan. "My mother liked him when he was an actor," Higgs said. Higgs also happens to: be the band's drum major, just like Ronald Reagan was in his high school days; live in a white house; have a best friend with the last name Bush (senior Troy Bush) and be Republican. "Older women like both Reagan and I, too," he said, "because a woman from the Michigan Delegation who said she was Reagan's fan . . . gave me a hug and . . . kissed me on the cheek."

". . . I forgot something. I was supposed to introduce my roommate, who happens to be my husband, who happens to be the president of the United States."—First Lady Nancy Reagan, after forgetting to introduce her husband to the crowd during Monday's inaugural festivities.●

LEGISLATION TO AMEND THE HIGHER EDUCATION ACT OF 1985

HON. BERKLEY BEDELL

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. BEDELL. Mr. Speaker, today I am introducing legislation to amend the Higher Education Act of 1965. This legislation directs the Secretary of Education to issue regulations to provide fair treatment in the computation of family contributions in the Pell Grant program for students from farm families experiencing financial difficulties.

According to a recent report issued by the U.S. Department of Agriculture, some 17 percent of all farms are experiencing serious financial difficulties. Indeed, if we look only at family farms the percentage of those experiencing difficulties and facing foreclosure or bankruptcy increases dramatically. As more and more family farms are forced out of business, children from such families will be looking, in ever greater numbers, outside agriculture and to higher education for new employment opportunities.

However, the Pell Grant Program, which the Department of Education calls the foundation of financial aid, is currently denying Pell Grant eligibility for students from family farms because their parents have, as a result of a foreclosure or bankruptcy, sold property and assets that receive a capital gains tax exemption. Although this tax exemption creates a great deal of untaxed income, most farmers are unable to use it for any other purpose other than to retire debt.

According to the Department of Education, there is no regular or special procedure that currently exists through which ineligible applicants can request fair consideration of any special circumstances of this sort. Because many individuals in our rural areas are already experiencing great economic difficulties, it is my hope that during this session of Congress, we can work to ensure that the Pell Grant formula provides for the full consideration of the effects of foreclosure, bankruptcy, and taxation on the family farmer.

The text of my bill follows:

H.R. —

A bill to amend the Higher Education Act of 1965 to provide fair treatment, for purposes of computing family contributions in college student assistance, for students affected by the sale or forfeiture of family farm assets

Be it enacted by the Senate and House of Representatives of the United States of America in Congress, assembled, That section 482 of the Higher Education Act of 1965 (20 U.S.C.) is amended by adding at the end there of the following new subsection:

"(f) The Secretary shall, within 30 days after the date of enactment of this subsection, promulgate special regulations to prevent, in the computation of family contributions for any program under this title, the inclusion in family income of any proceeds of a sale of the farm assets of that family if such sale results from a voluntary or involuntary foreclosure, forfeiture, or bankruptcy."●

VETERANS' HEALTH CARE BUDGET CANNOT BE REDUCED FURTHER

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. MONTGOMERY. Mr. Speaker, within the next few weeks, the House and Senate will be making major decisions on the budget for fiscal year 1986. Many Federal programs will be affected. The decisions we must make will not be easy. We all have different priorities.

A very high priority of mine is veterans' health care. I want my colleagues to fully understand the impact of any budget reductions in funds to operate the VA's health care system. Who is better able to relate the problems in the field than the people in the field?

According to the chiefs of staff at VA hospitals nationwide who responded to a recent survey, inadequate budgets are already taking their toll. More cuts in the budget will mean longer waiting lists, the turning away of certain non-service-connected veterans, and delays in many surgical procedures.

There follows a report from the chief of staff at the VA Medical Center in Fresno, CA:

VETERANS' ADMINISTRATION
MEDICAL CENTER,
Fresno, CA, February 1, 1985.

HOWARD H. GREEN, M.D.,
Chief of Staff, VA Medical Center, White River Junction, VT.

DEAR HOWARD: I have itemized below the information that you requested in your letter of January 2, 1985. In further support of the dismal picture detailed below, I would call your attention to the printouts of the new resource allocation model based on FY 1983 data. You will note that we are the second largest "winner" in the Western region. Unfortunately we can't eat that, and this really represents so much pie in the sky at this point. I certainly will be very interested in hearing the overall results of this survey.

(a) Size of hospital: 265 beds plus 60 bed NHCU to open June 1985.

(b) Affiliated: University of California, San Francisco; Central San Joaquin Valley Clinical Campus.

(c) Projected dollar deficit FY 1985: 1. Personnel service: $445,497 (actually this is a low figure because of the use of $512,202 unused NHCU personnel dollars for FY 85); 2. All other: $498,898.

(d) Impact of dollar deficit.

1. Personnel: We have been under some form of local freeze most of the time for several years, this has specifically involved professional personnel. There has recently been imposed a reduction of 23 RN positions by attrition in spite of the fact that by VA staffing standards we are currently approximately 18 RN positions short. We have numerous vacancies in patient care professional and support services and in administrative support services for which we do not have sufficient personnel dollars. Our catchment area is one of rapid population growth

and increasing demand for care. For example, we have over 2,000 outpatient visits per physician FTEE per year.

2. Supplies: Pharmacy depleted inventory; $185,000. As of this month pharmacy has already used 60% of its budgeted funds. SPD inventory depletion; $105,000.

3. Equipment: We have been unable to fund maintenance contracts for any of our major pieces of key equipment. Many major pieces of equipment (e.g. radiology) need replacement because much of it was obtained in the mid 70's at the time the affiliation began.

4. Backlog of surgical patients: TURP: 7 (3 months) total joint replacement: 22 (over one year).

(e) Solutions we have devised:

1. We have had enrollment controls on the "AC" category of outpatient for several years but this has not stemmed the tide of increased demand.

2. Computerized utilization review of expensive outpatient drugs. This also involves a peer chart review for appropriateness and a physician distribution matrix that is forwarded to the service chief.

3. We have recently instituted a 100% surveillance of all inpatient antibiotic orders.

4. We have sharply limited pharmacy services for patients who are being evaluated for care.

(f) Comments: I think the implications of a devastating impact on quality of patient care are obvious. There is little doubt that if this continues we will be forced to exclude more and more of the veteran population from care on a priority basis. For the most part these people have nowhere else to go because of diminishing community resources. They are indeed the "New Poor".

Sincerely,

JOHN B. THOMPSON, M.D.,
Chief of Staff, Fresno VAMC.●

A FAIR AND COMPLETE TAX FOR SOCIAL SECURITY

HON. EDWARD R. ROYBAL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. ROYBAL. Mr. Speaker, in January, the President reaffirmed his promise not to cut the Social Security cost-of-living adjustment and, in February, the administration projected that the Social Security trust fund would accrue $51 billion in additional surpluses over the next 3 years even if full COLA's are paid. But then, in April, despite their promises and predictions the administration and their allies in the Senate unveiled a plan to reduce the cost-of-living adjustments by 2 percent per year which CBO reports would throw 370,000 elderly and 200,000 nonelderly into poverty.

Although the full Senate saved the COLA for the moment, the debate continued and the Senate leaders' objective was clear. Finally, they reduced benefits and kept tax rates high in order to build even greater Social Security surpluses to finance the deficits they created by excessive spending on weapons and tax loopholes for corporations and wealthy individuals.

Mr. Speaker, their plan is not fair to Social Security beneficiaries whose annual inflation protection is now cut in half by 6-month delays in their COLA's. And it's not fair to Social Security taxpayers whose tax rates have increased in 3 out of the last 5 years and which will increase three more times by 1990. Therefore, I am introducing today a legislative alternative which is fair both to beneficiaries and taxpayers and which will reduce next year's deficit by billions more than any COLA cut.

My plan, the fair and complete tax for Social Security [FACTSS], give those concerned with fairness and equity a better deficit reduction plan than those who are using the deficits to undermine Social Security.

FACTSS will preserve and protect the full COLA by a plan which:

First, reduces the Social Security tax burden by cutting the tax rate to 6.73 by 1988. Under current law, the tax rate is scheduled to rise from 7.05 in 1985 to 7.51 by 1988 and 7.65 in 1990. Therefore, FACTSS reduces tax rates by 10 percent by 1988 and 12 percent in 1990.

Second, reduces fiscal year 1986–88 deficits by over $30 billion by applying the reduced tax rates equally to all wage/salary income. Under current law, 1986 earnings above $41,600 will not be subject to the Social Security tax. The exemption level increases automatically every year and is projected to be over $50,000 by 1990.

Third, removes Social Security from future budget discussions by moving the old age and survivors and disability insurance [OASDI] trust funds off-budget in fiscal year 1989. Under current law, these trust funds and Medicare would be moved off-budget in fiscal year 1993.

Under current law, there are two Social Security tax brackets: 7.05 percent of the first $40,000 and zero percent of all earnings over $40,000. Therefore, the highest income earners pay lower effective Social Security tax rates than middle- and moderate-income workers. For instance, a $140,000 a year executive pays an effective Social Security tax rate of less than 2 percent compared to a more than 7-percent effective tax rate for the 9 out of 10 individual workers earning less than $40,000 a year.

If the 1 in 12 individuals earning over $40,000 paid the same effective tax rate as the majority who earn less than $40,000, the Social Security system's reserves would grow by an additional $90–$100 billion in just the next 3 years. Since the Social Security system does not need additional surpluses to cover currently projected benefits, extending the tax equally to all workers by repealing the zero tax bracket would enable us to pay the full cost-of-living adjustments, reduce tax rates and still reduce deficits by more than a 1-year COLA freeze or a 2-percent per year COLA cut.

Mr. Speaker, although I do not believe that Social Security should be used to balance the budget, the sad fact is that despite the deep cuts already made in benefits in 1977, 1980, 1981, and 1983, and despite the projected surpluses in the system, Social Security will remain in jeopardy because there are those who will insist on using Social Security to balance the deficits in the rest of Government. Therefore, I designed my legislation to produce more budget savings over the next 3 years than a 1-year COLA freeze or a 3-year COLA reduction.

FACTSS proves that we can reduce the deficits without cutting benefits and without raising tax rates. In fact, my plan actually reduces taxes for about 94 percent of all working Americans by making the Social Security tax system more equitable.

Here then is a clear choice for those who say that changes in Social Security must be a part of any deficit reduction package:

I offer a positive plan to pay the full COLA; cut taxes for 94 percent of working Americans; and, reduce fiscal year 1986–88 deficits by about $30 billion.

The administration/Senate leadership offer a punitive plan to cut the COLA; keep tax rates higher than they need to be on over 100 million younger workers; and, reduce fiscal year 1986–88 deficits by about $20 billion.

Mr. Speaker, if those who insist on using Social Security to balance the budget are truly concerned with fairness for seniors and tax equity for younger workers, then they should reject any deficit reduction plan which reduces benefits to the old and disabled and increases taxes on young and working Americans. Instead, they should join me and the other original cosponsors in supporting a fair and complete tax for Social Security.

I am including for the record, a short outline of the FACTSS proposal and a short comparison of the Social Security tax burden on various income groups.

EFFECT OF MAXIMUM TAXABLE WAGE CAP ON TAXES, SOCIAL SECURITY, AND THE DEFICIT

Under current law over 90 percent of all working Americans pay Social Security and Medicare Taxes on all of their earnings. The highest earners do not. This is because these taxes are levied only on earnings below $40,000. Therefore, while the 9 out 10 workers pay an effective tax rate of over 7 percent, a $140,000 a year executive pays an effective tax rate of less than two percent.

If every taxpayer paid Social Security/Medicare taxes on their entire salary, 1986 revenues would increase by about $27 billion. Tax rates could be reduced by 2 percent per year and revenues would still increase by approximately $33.9 billion over the next three years. This is about $11.3 billion more than the President/Senate Re-

publican Leadership's $22.6 billion proposal to reduce the COLA by 2 percent per year over the next three years.

A list of the Chief Executive Officers (CEOs) of the 796 largest corporations in America is attached. It gives an estimated date for their last Social Security/Medicare payroll deduction in 1985 and their estimated effective tax rate.[1] By April 15th, 788 of the 796 CEOs should have already earned more than $4,000 and stopped paying Social Security/Medicare taxes of the year.

By comparison, here is a list of more typical Amercians as contrasted with the average CEO.

	Cash pay	Date of last FICA deduction	Effective FICA tax rate
Minimum wage worker	$6,968	December 31	7.05
Average self-employed farmer [1]	8,568	do	11.80
Average self-employed individual [1]	10,153	do	11.80
Average individual wage earner	17,056	do	7.05
Median American family	27,000	do	7.05
Average of 796 CEO's	504,000	January 28	0.57

[1] Actual 1982 IRS figures for profitable business/farms. Business/farm losses are excluded.

Note.—Prepared for Chairman Roybal by Davis Smith, Committee on Aging. (202) 226-3335 (4/13/85).

WHAT WILL FACTS DO?

Repeal Social Security tax rate increases scheduled for 1988 and 1990.

Reduce the total tax rate by two percent per year in 1986, 1987 and 1988. The total reduction is applied to the Social Security tax rate while the Medicare rate of 1.45 percent remains constant. (See Summary Table 1).

By 1988, steps 1 and 2 result in a 10.4 percent reduction in the currently scheduled tax rates and a 12.0 percent reduction by 1990.

Re-establish the total self-employment tax rate at 150 percent of the employee/employer rate as reduced under 1 and 2 above. By 1988, this results in a 22.5 percent reduction in the currently scheduled effective tax rates and a 28.6 percent reduction by 1990. (See Summary Table 2).

Subject all wage/salary income and self-employment net profits above and below $40,000 to the Social Security/Medicare tax rates as reduced under 1, 2 and 3 above. (Under current law, 1985 earnings above $39,600 are exempt).

Guarantee long term fiscal stability and tax equity by establishing a floating tax rate beginning in 1990. Further decreases of 0.2 percentage points each in both the employer and employee tax rate would be automatically triggered when Trust Fund assets exceed a full one year reserve level. Increases of 0.2 percentage points would be triggered if assets fall below 90 percent of a full year's reserve level.

Exempt self employed persons, workers and their employers from Social Security taxes after age 65. This will encourage work by and employment of these older Americans. (Medicare HI taxes continue to apply). Effective in 1989.

Increase retirement earnings test for beneficiaries age 65 and over to: $10,000 in 1986; $15,000 in 1988; $20,000 in 1990; and, eliminate completely in 1992. (The current earnings test level is $7,320).

Remove Social Security from the unified budget in FY 89 instead of FY 92 as under current law.

[1] Assumes 1985 cash compensation identical to 1983 as reported in Forbes, June 4, 1984.

WHO WILL FACTSS APPEAL TO?

The 94 percent of individual workers who get a tax cut because they earn less than $44,000 year.

The 90+ percent of self-employed people, family farmers, small businessman, realtors, etc., who also get their taxes cut because they have net profits of less than $50,000 a year.

Small and large businesses whose average employees have salaries of less than $44,000 since their Social Security employer taxes will be reduced by FACTSS.

The almost four million workers age 65 or over who would get a 6 to 10 percent increase in their earnings by being exempted from Social Security taxes.

Over a million workers age 65 or older whose benefits are reduced or eliminated by the earnings tests and whose benefits will be increased and ultimately completely restored by the phasing out of the retirement earnings test.

Persons concerned about Medicare financing since the Hospital Insurance Fund receives a 10 percent increase in its funding (without an increase in the Medicare tax rate).

Persons concerned with reducing near-term budget deficits since FACTSS increases total Social Security/Medicare Revenues in FY 86-88 by about $33.9 Billion. This is 50 percent more than a 2 percent per year reduction in the COLA.●

THE PACIFIC RIM, AMERICA'S GOLDEN OPPORTUNITY

HON. TOBY ROTH

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. ROTH. Mr. Speaker, in view of the increasing interest in U.S. trade opportunities in the Pacific Rim, I commend to the attention of my colleagues the following article from the President's Forum, a publication of the Milwaukee School of Engineering (MSOE). MSOE is a fine example of an institution taking aggressive action to move the State of Wisconsin to the forefront of international trade.

MSOE AT THE POINT

We at MSOE believe that the single most important consequence of the arrival of the Information Age is that it is catalyzing and forcing the US to emphasize quality, cooperation between government-business-labor and education, while hastening the process of world unification. We call it, on one hand, rediscovering our American roots, and world opportunities. On the other hand, "globalization."

Just imagine this example of the globalization process:

Soon you will be able to talk with almost any person in almost any spot on earth through the liquid-crystal screen of your TV/computer hanging on the wall. You'll be able to trade stocks and bonds, currencies and commodities; get the best interest rates or obtain loans, buy and sell anything worldwide. Your TV/computer will search the globe for you, find the best deals, show them to you visually, translate you and your addressee's voices into the appropriate foreign languages, and give you printed quotes, specifications, invoices and receipts, while debiting or crediting your bank account!

Many Asian computers are already "online" with Europe and America.

Couple this international telecommunications revolution with the very rapid increases in reciprocal foreign business investments among nations, and you can really feel the strength of this globalization process. It is a great centripetal force, relentlessly whirling humanity together toward a true "One World." We will live to see it.

It will also be a tremendous force for peace as it links peoples and prosperity. No wonder so many Asians welcome the future, confident that it will be golden for them.

They are prepared for it. Their strong family systems are intact; their educational systems keep improving; virtually all their young people are well educated, disciplined, responsible and motivated. They are good communicators and know foreign languages, science and math. They are world oriented.

We have much to do to catch up with them. America's biggest problem may not be the threat of nuclear war. More likely, it is this matter of education and the preparation of all young Americans for full participation in the abundant opportunities and life the Information Age offers to the educated.

For, unlike most Asian countries on the Pacific Rim, and much of Europe, where 90% of youth finishes high school with solid learning equal to several years of our college, we are permitting tens of millions of our youth to go virtually uneducated and become unemployable.

Can America continue to be a world leader if 30 to 40% of our population remains so poorly educated and an obsolete, permanent drag and burden on those of us left working? This is simply not being allowed to happen in the Japans of our world.

It is now well known that we at MSOE are extremely concerned by this problem of preparing Americans for full, worldwide cooperation and participation in the Information Age, and are addressing ourselves and all we influence to the great tasks of our time.

As a college located in an urban setting in a great midwestern metropolitan area in a major manufacturing and farm state, MSOE feels doubly challenged to alert and prepare the people in our region to exploit the opportunities of Asia.

If we virtually ignore these opportunities and hang back, the California's and Texas's of America will take the lead, and our local institutions and businesses will continue to wither. There will be no one to blame but ourselves.

AN IBSC

To forestall this, MSOE is studying and researching a possible globalization program as an integral part of its five-year, Action for Excellence expansion activity.

As now envisioned, a Globalization Program could be undertaken by a special nonprofit MSOE corporation know for example, as the International Business Service Center (IBSC). Its duties will include broadening the worldview and experience of MSOE's staff, faculty, students and community by curriculum orientation and additions, foreign exchanges of faculty and students, training for foreign work assignments, and all other practical means which will help assure a great broadening of the international and entrepreneurial perspectives of MSOE clientele.

IBSC could also serve as a clearing house and consulting resource for midwest and overseas business to provide information and assistance which would promote busi-

ness exchange and investments. Hopefully many of these services will be so valuable and vital as to attract fees and contributions sufficient to cover IBSC's expenses.

A small IBSC staff would be seasoned personnel, long experienced in Asia and other parts of the world. Two veteran U.S. State Department foreign service officers are donating their time for planning studies with MSOE personnel. These individuals are some of America's foremost Asian specialists with recent senior experience in our Asian and other area foreign assistance missions (AID), and have agreed to help assist MSOE faculty and staff to guide IBSC and provide foreign business contacts. We could also draw on the very considerable experience of some of those midwest businesses now doing well abroad.

We are confident that MSOE, one way or another, will do it's best in the least expensive way to help most of you who may wish to participate in booming Asia and other areas to prepare yourselves for success there.

We hope you will pass any insights you have learned from us on to others. We also urge you to provide us with your views and suggestions on how all of us can help Wisconsin and all of America be more relevant to our world and rejuvenate our business and trading instincts, as well as motivate and train our young people. We can also try to provide you with more information on the subjects presented here.

The Pacific Rim is America's golden opportunity and you can help our great country grasp it! ●

DENNIS RAHIM WASTON: AN ARTIST WITH A COMMITMENT TO HIS COMMUNITY

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. TOWNS. Mr. Speaker, while the arts are an important part of our lives, we often take them for granted. To those Americans who cannot afford the price of theater or concert tickets, the arts can be a very closed world. That's why performers like Dennis Rahim Watson are so important in bringing arts to the community.

Dennis Rahim Watson is a young poet, comedian, and actor who was recently honored with a "Black Leadership Roundtable Youth Award" by the Avon Corp., during the 1984 Congressional Black Caucus Legislative Weekend. He just completed his 2,000th performance as an entertainer in New York City. Dennis has performed at numerous civic, religious, cultural and political events throughout New York. His uniqueness as a performer lies with his commitment to community service in the field of entertainment and education.

His work as an entertainer was recognized by the Drug Enforcement Administration in 1984 for outstanding contributions in the area of drug enforcement. Since his decision to combine academics and artistic interests in 1980, Dennis has used his talents to better the lives of others. New York State Department of Corrections rewarded his volunteer performances in several correctional facilities with their departmental award for volunteer services in 1983.

Dennis has never stopped his quest for excellence in entertainment for community organizations. As he pursues new and exciting ways to motivate minority youth toward service and high standards, he remains inspired by the creed that "each one of us can make a difference; if each one teaches one and each one reaches one." I believe that Dennis Rahim Watson is an inspiration to us all that we should share our talents in a way which will improve the lives of others. I want to congratulate Dennis on his 2,000 performances and his continuing commitment to bring the arts to the people.●

CHRIST UNITED PRESBYTERIAN CHURCH OF SAN FRANCISCO CELEBRATES ITS 100TH ANNIVERSARY

HON. SALA BURTON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mrs. BURTON of California. Mr. Speaker, from April 28 through May 19 of this year, the Christ United Presbyterian Church of San Francisco will be celebrating their 100th anniversary.

The Christ United Presbyterian Church is the oldest existing Japanese American Presbyterian Church in the United States. I would like to share its unique history and experience with my colleagues.

The First Japanese Presbyterian Church had its origins in a nondenominational independent Japanese Christian organization called the Fuku-in Kai or the Gospel Society. This group, which was formed in 1877, served as a place of study and religious instruction, as well as a settlement establishment assisting newly arrived immigrants from Japan in employment, housing, English instruction and various types of charitable causes. Eight years later, on May 16, 1885, the first Japanese Presbyterian Church in the United States was formed which consisted of several members of the Fuki-in Kai. Within a few months after being organized, Jusuboro Morita and Kokichi Mitani were elected elders of the church with Rev. John Carrington as its moderator.

In the following year, Dr. Ernest Adolphus Sturge, a Presbyterian missionary, came to San Francisco to assist in the services of the newly organized church. Under Dr. Sturge's direction and inspiration, many members of the church of Japanese ancestry entered the ministry. Through these new ministers, churches were founded in the rural Japanese-American communities. By the turn of the century, Japanese Presbyterian churches were being established in Salines, Monterey, Watsonville, and Los Angeles by ministers who were associated with the San Francisco Japanese Presbyterian Church.

In 1906, the San Francisco earthquake and fire destroyed a major portion of the city, but the Japanese Presbyterian Church building, located on Haight Street survived the fire and it served as an emergency shelter for the victims of the disaster.

The 1920's marked a nadir in the history of the church for it was the period of many anti-Japanese agitations and activities. Anti-Japanese immigration acts prohibited the further immigration of Japanese to the United States and during this era, the church's role was to unify and serve as one of the spokespersons for the Japanese-American community and to combat the antagonism and prejudices of that period.

In the 1930's, under the leadership of Rev. Dr. Eiji Kawamorita who served as pastor for 20 years, the church's energy and efforts were channeled to establish more services for the Nisei or second-generation-born Japanese Americans. As the need for English speaking services increased, Donald Toriumi, then a student of the San Francisco Theological Seminary, was called on to perform the English language services. Koji Murata was the first Nisei to become an elder of the church.

When the Second World War was declared in December 1941, and Americans of Japanese descent were evacuated from the west coast because of the war, the church, under the direction of its first Nisei minister, Howard Toriumi, assisted those who were suffering from the economic and social hardships of the evacuation. Many members from the Japanese Church of Christ were incarcerated at the Tanforan Race Track, and later transferred to Topaz, UT, for the remainder of the Second World War.

While church members were in the relocation camps, the church was placed under the care of the San Francisco Presbytery. Meanwhile within the camps, the church members and pastors joined with Christians from other denominations to hold interdenominational worship services. After the war, the church building was returned to the Japanese-American congregation which then served as a hostel in the community so that the Japanese Americans could again reestablish themselves in the San Francisco area. Elders Dave Tatsuno and Kojuro Tanaka were an important part of this work in assisting the re-

turning evacuees in settling in the bay area.

During the 1950's, the church was involved in providing for the needs of the next generation, which was the Sansei, or third generation Japanese-American members.

In 1962, the Japanese Church of Christ, under the new leadership of Rev. Nicholas Ioya, was influential and active in civil rights activities.

Since 1975, the church has been under the leadership of Rev. David Nakagawa, who in line with the tradition of the Japanese-American Presbyterian Church of San Francisco, has been in the forefront in responding to the needs of the Japanese-American community and the community at large. Rev. Nakagawa serves as the minister of the church today, as it celebrates its 100th anniversary.

The past 100 years have been a century filled with many important and historical events for the Christ United Presbyterian Church. Throughout these years, not withstanding the various hardships, the members of the church enter the next century with thoughts and deeds based on the religious principles of discipleship. The theme of this 100th anniversary is "Go Ye Therefore" and in accordance with this theme, it is an honor and privilege for me to participate in this celebration as the devoted members of the Christ United Presbyterian Church continue their efforts to build a solid foundation for the future.●

LEGISLATION DENYING A DEDUCTION FOR AMOUNTS PAID AS RESTITUTION FOR ACTS OF FRAUD

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. STARK. Mr. Speaker, I am today introducing legislation that would deny a business expense deduction for amounts paid as restitution or other damages for violation of the law involving fraud. Mr. Speaker, we have recently seen unconscionable cases of corporate crimes and abuses, the most recent example was the fraudulent scheme by the E.F. Hutton Co., against many banks around this country. All too often the fines are not commensurate with the nature of the violation. Fines are not deductible business expenses; however, restitution payments generally are. The legislation I am introducing today would assure that the Federal Government does not through the Tax Code subsidize the restitution payments which companies, such as E.F. Hutton, make as part of a plea to fraud charges.

Mr. Speaker, I share the concerns of those 15 Senators who recently wrote to Ed Meese protesting the absence of any charges against individuals in the E.F. Hutton case. These decisions, however, are matters of prosecutorial discretion. However, we in the Congress can take this small step to assure that these types of acts are discouraged. I urge speedy enactment of my legislation.●

TRIBUTE TO DELTA COLLEGE

HON. NORMAN D. SHUMWAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. SHUMWAY. Mr. Speaker, I ask that my colleagues join with me in paying tribute to San Joaquin Delta College, in Stockton, CA, as it celebrates its 50th anniversary.

Thirty-one years ago, I was privileged not only to be graduating from Delta College, which was then called Stockton College, but also to be the commencement speaker. No doubt I considered it appropriate at the time to entitle my address "1954: This Is the Year."

For now—Delta College, 1985 is surely a year worth marking and remembering. For half a century, the college has offered an outstanding learning experience to young men and women in a beautiful setting conducive to the absorption of knowledge. The college has every reason to be proud of its fine faculty, varied curriculum, and enthusiastic student body. Having enjoyed the opportunities provided by the college, I can certainly attest to Delta's dedication to education, and to the memorable experiences which all of its graduates have to treasure.

Congratulations to Delta College, and every best wish for many more years of success.●

THE "JUSTICE" DEPARTMENT

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. HUBBARD. Mr. Speaker, I want to bring to my colleagues' attention another example of questionable justice by the U.S. Justice Department.

By way of background, on February 7 of this year, the First National Bank of Boston pleaded guilty to a charge of failing to report $1.2 billion in international currency transactions, as required by the Bank Secrecy Act.

The law and regulations serve as deterrents in the attempts to control money laundering and profits by the criminal element of our society.

The fine imposed upon the First National Bank of Boston for its disregard of Federal laws designed to prevent organized crime syndicates and drug traffickers from laundering large sums of cash was $500,000. During the April 3 hearing of the House Banking Subcommittee on Financial Institutions Supervision, of which I am a member, I questioned William L. Brown, chairman of the board of First National Bank of Boston, who conceded that First National Bank of Boston had made about $1 million in profits from the unreported transactions. Chairman Brown admitted that the bank was $500,000 ahead of the game after paying the fine imposed by the Justice Department.

While questioning the U.S. Treasury Department witness during the same April 3 hearing, I asked about the severity of the Bank of Boston fine. Under present law, the penalty for failure to report these cash transactions could have been as much as $500,000 per day. When asked why the fine was not more, the Treasury witness replied—and I quote from the hearing record:

> Mr. Congressman, the pre-arrangement was arranged by the U.S. Attorney's Office in Boston and, in fact, it was pretty well arranged without too much Treasury Department involvement. . . . It was a criminal case and that was the primary concern at the time.

I say to my colleagues that things are wrong with a system which allows a bank to make $1 million in profits after breaking the law and merely fines the institution $500,000.

This is another example of the just actions by the most politically conscious and active agency in our Federal Government—the U.S. Justice Department.

When will our constituents say the time has come for action with America's system of justice?●

CIA TERRORISM SQUADS

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. EDWARDS of California. Mr. Speaker, today, the gentlewoman from Colorado and I are introducing a resolution of inquiry to require the Director of Central Intelligence to provide to the House information relating to U.S. training and support for so-called antiterrorist groups operating in the Middle East. These units were allegedly set up for preemptive strikes against anti-American terrorists, presumably to protect U.S. facilities and personnel. In fact, they have turned into hit squads financed by the United States.

The use of proxies to avoid Executive order prohibitions against assassination is fraught with problems—as

witnessed by today's news accounts of an unauthorized car bombing in Lebanon by a group financed at least in part with U.S. dollars. Such groups are inherently uncontrollable. With a license to kill from the U.S. Government, they serve only to escalate the problems of international terrorism and to further tarnish our reputation abroad.●

DR. HERMAN I. ABROMOWITZ, NEXT PRESIDENT OF THE OHIO STATE MEDICAL ASSOCIATION

HON. TONY P. HALL

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. HALL of Ohio. Mr. Speaker, I rise in tribute to Dr. Herman I. Abromowitz, my constituent, friend, and personal physician, who will shortly be installed as president of the Ohio State Medical Association.

Few doctors have deeper roots in the Buckeye State as Dr. Abromowitz. He was born in Xenia, and attended both college and medical school at the Ohio State University. He served as an intern in the Miami Valley Hospital, and currently practices in Dayton.

Dr. Abromowitz' services to Ohio would be too long to list. Some of the highlights include serving as president of the Montgomery County Medical Society, clinical associate professor of the Wright State University School of Medicine, and president of Montgomery County's Combined Health District Board of Health.

Since entering public life, I have frequently relied on his views concerning health and public policy. And I have long since relied on his medical advice as my own doctor.

I offer my congratulations to Dr. Herman Abromowitz, and best wishes for success in his continued service to the people of Ohio.●

NEW JERSEY REACHES OUT FOR NEW TEACHERS

HON. MARGE ROUKEMA

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mrs. ROUKEMA. Mr. Speaker, it has been a little over 2 years since the United States was stunned by the report of the National Commission on Excellence in Education. That report, entitled "A Nation At Risk," and several which followed closely on its heels raise the consciousness of the Nation to the imperative need for reform of our public education system.

At the time, I felt considerable frustration as a legislator at the Federal level, because I believed then, as I do now, that the place where this rebuilding should begin was at the State and local level. I must admit that I had my doubts about whether there would be any substantive action.

I am delighted to say that I have been pleasantly surprised by what has taken place. Over the past 2 years, the State and local governments and school boards have undertaken numerous initiatives with a display of creativity and resourcefulness that has demonstrated that our Federal system is still working.

My own State of New Jersey has been singularly successful in its efforts in this respect. Under the leadership of Gov. Thomas Kean and commissioner of education, Saul Cooperman, New Jersey has adopted a far-reaching program of fundamental reforms that strike at the heart of the national problem.

We acted on the observation that a stable corps of competent teachers would be one of the essential elements of our rebuilding efforts. Governor Kean and Commissioner Cooperman were the first to recognize that this would require the education system to reach out to other professions to draw from experts in other fields who would be willing to pass their expertise on to our Nation's students.

I call the attention of my colleagues to an April 26, 1985, article in the Washington Post describing the new alternative system for teacher certification being implemented in New Jersey. While it is still too early to measure the success of this program, what is encouraging from the article is the fact that the program is attracting people to the teaching profession who may otherwise have been shut out. Governor Kean and Commissioner Cooperman are to be commended for this accomplishment and I wish them the best of luck in their efforts.

The article follows:

[From the Washington Post, Apr. 26, 1985]

NEW TEACHER CERTIFICATION PROGRAM BYPASSES TRADITIONAL EDUCATION DEGREE

(By Debbie Goldberg)

TRENTON, N.J.—When Jan Christian, sales representative for a New Jersey chemical company, talked to mathematics teachers at nearby Ramsey High School about her interest in teaching, she said they looked at her as if she were crazy.

Christian, 30, hopes to become one of the first teachers certified under New Jersey's new program that allows qualified persons to earn teaching credentials largely through on-the-job training—in her case, in front of the classroom.

Even as many educators express concern that teachers are being lost to jobs that offer higher pay and more prestige, New Jersey's program has attracted lawyers, accountants, artists, journalists, a band director and a telecommunications marketing official who say they want to become public school teachers.

Since January, more than 560 persons have applied for the program, according to Celeste Rorro, director of teachers certification and academic credentials in the state education department. "The response has been tremendous," she said.

Christian, who has a chemical engineering degree and almost nine years of work experience, said her salary' "will drop in half" if she switches to teaching. Because engineering and technical marketing has not been as satisfying as she expected, Christian said she "decided being happy in my work is worth more than salary."

Steven Schaffer of Fanwood, N.J., who has been practicing law for nine years, said he found the legal trade "aggravating" and applied for teaching certification because he is interested in coaching sports. "I don't think you need an education [degree] to be a good teacher," he said.

The alternate route to certification as the program is called, is a way into classrooms for those lacking a traditional education degree. Proponents, including Republican Gov. Thomas Kean, have said they hope to attract more and better teachers.

Half of the state's 73,500 teachers are expected to retire or leave for other jobs over the next decade, said Rorro, also citing a "precipitous decline" over the last 10 years in the quality of the teaching force.

The first 500 program applicants have earned 20 doctorates and 81 masters degrees, Rorro said, adding that the initial belief that the program would attract many older, retired persons is "absolutely not so."

Paul Contardi, 43, of Metuchen, said he hopes to use his PhD in biology as a ticket to teaching mathematics or science. Because of a scarcity of full-time university-level jobs, Contardi has been offered only temporary positions since he earned his degree several years ago.

Contardi, who taught while in graduate school and has been a substitute teacher for several months in junior highs and high schools, said that, if he had to obtain an education degree in order to gain a permanent teaching job, "I don't know if I would do it."

Compensating for what the newcomers lack in formal teaching training will be their maturity, experience in a specific field and "a real desire to be a teacher," said Tenafly School District Superintendent Harry Jaroslaw, who chaired the state commission that created the program.

Applicants must have a bachelor's degree and must pass the National Teachers Examination in a subject, or in general knowledge for those interested in teaching elementary grades. Armed with provisional state certification, they can then apply for teaching jobs.

Once on the job, provisional teachers must take 200 hours of formal teaching instruction, offered through the state education department or local school districts, said Ellen Schechter, director of New Jersey's teacher education office.

The newcomers are to be closely supervised and will work with an experienced "mentor" teacher. They are expected to be fully certified to teach in New Jersey's public schools after a year on the job.

Peter Zeigler, 25, of Trenton said he sees the alternate route as an "attractive option" after spending several frustrating years in the working world. He has held several security and law enforcement jobs since earning a college degree in English and political science.

"Until now, you had to have an education curriculum, take education courses and what not" to become a teacher, Zeigler said.

"A lot of people were left out by that structure."

The alternate route is the nation's only program that grants full teaching certification to those without education degrees, Schechter said. Although many states provide emergency or temporary certification to handle teacher shortages, she called these programs "substandard."

In fact, New Jersey's emergency-certification program was eliminated when the alternate route was approved last fall. Schechter said that there were "zippo standards" for emergency certification and that some teachers had no college degrees.

Jaroslaw said many of his fellow superintendents "are favorably inclined" about the new program but noted that hiring provisional teachers will require extra work, and perhaps funding, by school districts, some of which may not want to become involved.

Jaroslaw is leading a consortium of nine school districts near Tenafly that plans to hire as many as 10 provisional teachers for next fall.

Among the program's critics is Janice Weaver, dean of the state's largest teacher education program the School of Professional Studies at Glassboro State College.

Weaver said the disregard for formal teacher training indicates that teachers do not receive "the same kind of respect for specialized knowledge" as do plumbers.

But Henry Drewry, director of a small teacher-preparation program at Princeton University, said there is room for both avenues to certification, noting that parochial and other private schools usually do not require state certification.

Janis Martinson taught last summer at a private school and is to graduate from Princeton this spring. She recalls being discouraged "by everyone I talked to" from going into teaching.

Martinson said she is not worried about teaching without a degree and plans to teach at private school if she cannot go through the state's alternate program.

"I think I'm going to bring a lot of energy, enthusiasm and knowledge of my subject to the classroom," she said. "I really think you learn more about being a teacher in the classroom than [from lessons] in a book."●

A SALUTE TO "MEMPHIS IN MAY"

HON. HAROLD E. FORD

OF TENNESSEE

HON. DON SUNDQUIST

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Monday, May 13, 1985

● Mr. FORD of Tennessee. Mr. Speaker, we would like to take a few moments and share with our colleagues information about an annual event in the great city that we represent, Memphis, TN. It's called "Memphis in May," a monthlong celebration that pairs the city of Memphis with another country. The purpose of "Memphis in May" is to promote friendship and commerce between the Mid-South and a different foreign country every year.

This mission is accomplished by celebrations in the areas of the arts, education, trade, and commerce, and unique special events which highlight the culture and traditions of the honored country. In the past, "Memphis in May" has honored the countries of Japan, Canada, Germany, Venezuela, Egypt, the Netherlands, Israel, and Mexico. This year, "Memphis in May" is saluting the "Land Down Under," the beautiful, majestic country of Australia.

If you ever have the opportunity to visit Memphis this month, you'll be able to experience the art, music, dance, theater, customs, food, sports, and traditions of Australia. You'll be able to browse through an Australian marketplace, taste Australian beer, and eat some of the best pork barbecue you've ever tasted.

In fact, the "Memphis in May International Barbecue Cooking Contest" this year will have more than 200 teams from the United States, Canada, and Australia. This event alone brings more than 300,000 people to the bluff of the mighty Mississippi River where they can watch the "Ms. Piggie Contest," listen to a "Hog Calling Contest," and enjoy 2 days of music and fun.

Other events in this year's "Memphis in May" Salute to Australia include an Australian film festival, the Great Wine Race, the Beale Street Music Festival, the Third Annual Memphis in May Triathlon, and the Sunset Symphony.

In addition to these activities, our city's historic past and promising future will be showcased through its many attractions such as Mud Island, the Beale Street Historic District, Libertyland, and Graceland, the home of the king of rock and roll, Elvis Presley.

This year's "Memphis in May" is a celebration that everyone should try to attend. If you have the opportunity you'll be joined by nearly 1 million other visitors who will participate in the 1985 Salute to Australia. It's an opportunity to enjoy the best of two colorful cultures, Memphis, TN, and the "Land Down Under," Australia.●

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Tuesday, May 14, 1985, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

MAY 15

9:00 a.m.

Armed Services

Closed business meeting, to consider a committee amendment to S. 1029, authorizing funds for fiscal year 1986 for the Department of Defense (pending on Senate calendar), and routine military nominations.

SR-222

Banking, Housing, and Urban Affairs

To continue hearings on recent changes in the financial services industry.

SD-538

Judiciary

Constitution Subcommittee

Business meeting, to mark up S.J. Res. 13, to propose an amendment to the Constitution relating to a Federal balanced budget and tax limitation, S. 40, to set forth procedures for holding constitution conventions for proposing amendments to the Constitution, S. 37, to provide for civil rights in public schools, and S. 150, to revise certain provisions of the Freedom of Information Act with respect to request procedures, time limits, fees, and exemptions.

SD-226

9:30 a.m.

Appropriations

Defense Subcommittee

To hold hearings on proposed budget estimates for fiscal year 1986 for certain defense programs, focusing on Army modernization.

SD-192

Appropriations

Labor, Health and Human Services, Education, and Related Agencies Subcommittee

To hold hearings on proposed budget estimates for fiscal year 1986 for the Departments of Labor, Health and Human Services, Education, and related agencies.

SD-116

10:00 a.m.

Agriculture, Nutrition, and Forestry

Business meeting, to mark up S. 501 and S. 616, bills to expand export markets for United States agricultural commodities, provide price and income protection for farmers, assure consumers an abundance of food and fiber at reasonable prices, and continue low-income food assistance programs, and related measures.

SR-328A

Energy and Natural Resources

Business meeting, to consider S. 979, to extend the expiration date of titles I and II of the Energy Policy and Conservation Act, and other pending calendar business.

SD-366

Foreign Relations
To continue joint hearings with the Committee on the Judiciary on international terrorism and narcotic trafficking
SD-419

Governmental Affairs
Permanent Subcommittee on Investigations
To continue oversight hearings on weight reduction products and plans, focusing on the safety and efficacy of diet products.
SD-342

Judiciary
To continue joint hearings with the Committee on Foreign Relations on international terrorism and narcotic trafficking.
SD-419

Joint Economic
Agriculture and Transportation Subcommittee
To hold hearings on rural economic development.
SD-562

10:30 a.m.
Judiciary
To hold hearings on pending nominations.
SD-226

2:00 p.m.
Appropriations
Interior and Related Agencies Subcommittee
To hold hearings on proposed budget estimates for fiscal year 1986 for the Energy Information Administration, and the Economic Regulatory Administration, Department of Energy.
SD-138

Foreign Relations
To hold joint closed hearings with the Committee on the Judiciary on international terrorism and narcotic trafficking.
SD-116, Capitol

Judiciary
To hold joint closed hearings with the Committee on Foreign Relations on international terrorism and narcotic trafficking.
SD-116, Captiol

2:45 p.m.
Select on Intelligence
Closed briefing on intelligence matters.

MAY 16

9:30 a.m.
Banking, Housing, and Urban Affairs
International Finance and Monetary Policy Subcommittee
To hold hearings on S. 635, to express opposition of the United States to the system of apartheid in South Africa by prohibiting new U.S. bank loans to the Government of South Africa, prohibiting investment of U.S. firms in South Africa, prohibiting the importation of South African gold coins into the United States, and forbidding the sale of computers to the Government of South Africa.
SD-538

Commerce, Science, and Transportation
Business meeting, to consider pending calendar business.
SR-253

Judiciary
Patents, Copyrights and Trademarks Subcommittee
To hold hearings to examine whether the United States should participate in the Berne Convention, an international union for the protection of literary and artistic works.
SR-385

Labor and Human Resources
To hold joint hearings with the Committee on Veterans' Affairs on the nomination of Donald E. Shasteen, of Maryland, to be Assistant Secretary of Labor for Veterans' Employment.
SR-418

Labor and Human Resources
Handicapped Subcommittee
To hold hearings on S. 415, the Handicapped Children's Protection Act.
SD-430

Veterans' Affairs
To hold joint hearings with the Committee on Labor and Human Resources on the nomination of Donald E. Shasteen, of Maryland, to be Assistant Secretary of Labor for Veterans' Employment.
SR-418

10:00 a.m.
Agriculture, Nutrition, and Forestry
Business meeting, to mark up S. 501 and S. 616, bills to expand export markets for U.S. agricultural commodities, provide price and income protection for farmers, assure consumers an abundance of food and fiber at reasonable prices, and continue low-income food assistance programs, and related measures.
SR-328A

Appropriations
Defense Subcommittee
To continue hearings on proposed budget estimates for fiscal year 1986 for the Department of Defense, focusing on NATO programs.
SD-192

Appropriations
Interior and Related Agencies Subcommittee
To hold hearings on proposed budget estimates for fiscal year 1986 for fossil energy.
SD-138

Appropriations
Legislative Branch Subcommittee
To resume hearings on proposed budget estimates for fiscal year 1986 for the Legislative Branch of the Federal Government, focusing on the Library of Congress and the Architect of the Capitol.
S-128, Capitol

Environment and Public Works
Water Resources Subcommittee
To resume hearings on S. 366, S. 534, and S. 967, bills to authorize the U.S. Army Corps of Engineers to construct various projects for improvements to rivers and harbors of the United States, and related proposals.
SD-406

Judiciary
Business meeting, to consider pending calendar business.
SD-226

10:30 a.m.
Select on Intelligence
Closed business meeting, to resume markup of proposed legislation authorizing funds for fiscal year 1986 for the intelligence community.
SH-219

2:00 p.m.
Energy and Natural Resources
Energy Research and Development Subcommittee
To hold hearings to discuss the Department of Energy's prospective report to Congress on emerging clean-coal technologies.
SD-366

MAY 17

9:30 a.m.
Commerce, Science, and Transportation
Surface Transportation Subcommittee
To hold hearings on the deregulation of surface freight forwarders.
SR-253

10:00 a.m.
Select on Intelligence
Closed briefing on intelligence matters.
SH-219

MAY 20

9:30 a.m.
Finance
Taxation and Debt Management Subcommittee
To hold hearings on S. 56, S. 71, S. 217, S. 251, and S. 729, bills to clarify the application of imputed interest and interest accrual rules of the Internal Revenue Code.
SD-215

10:00 a.m.
Judiciary
To hold hearings to examine civil suits under the Racketeer Influenced Corrupt Organizations Act (RICO).
SD-226

MAY 21

9:30 a.m.
Banking, Housing, and Urban Affairs
Business meeting, to consider the nomination of Martha R. Seger, of Michigan, to be a member of the Board of Governors of the Federal Reserve System.
SD-538

Environment and Public Works
Environment Pollution Subcommittee
To hold oversight hearings on the implementation of section 404 of the Clean Water Act, relating to the wetlands dredge and fill permit program.
SD-406

10:00 a.m.
Appropriations
Treasury, Postal Service, and General Government Subcommittee
To hold hearings on proposed budget estimates for fiscal year 1986 for the Department of the Treasury.
SD-126

2:00 p.m.
Appropriations
Interior and Related Agencies Subcommittee
To hold hearings on proposed budget estimates for fiscal year 1986 for the Holocaust Memorial Council, Minerals Management Service, Department of the Interior.
SD-138

Appropriations
Legislative Branch Subcommittee
To resume hearings on proposed budget estimates for fiscal year 1986 for the Legislative Branch of the Federal Government, focusing on the Congressional Budget Office, Office of Technology Assessment, General Accounting Office, and the Government Printing Office.
S-128, Capitol

MAY 22

9:30 a.m.
Labor and Human Resources
To hold hearings on S. 797, the Youth Employment Opportunity Wage Act of 1985. SD-430
Select on Intelligence
Closed briefing on intelligence matters. SH-219
10:00 a.m.
Foreign Relations
To resume hearings on American policy toward South Africa. SD-419
Governmental Affairs
Civil Service, Post Office, and General Services Subcommittee
To hold oversight hearings on a General Accounting Office report on Federal pay equity and classification system. SD-342
2:00 p.m.
Appropriations
Interior and Related Agencies Subcommittee
To hold hearings on proposed budget estimates for fiscal year 1986 for Naval Petroleum Reserves, and fossil energy. SD-138
Governmental Affairs
Intergovernmental Relations Subcommittee
To hold hearings on S. 765, to provide for coordinated management and rehabilitation of the Great Lakes. SD-342
Small Business
Small Business: Family Farm Subcommittee
To hold hearings on small issue industrial development bonds as a source of capital for small business expansion. SR-428A

MAY 23

9:30 a.m.
Commerce, Science, and Transportation
Aviation Subcommittee
To hold hearings on S. 586, to provide for the review of certain authority in awarding international airline route certificates issued under the Federal Aviation Act. SR-253
Governmental Affairs
Oversight of Government Management Subcommittee
To hold hearings on the Civil Penalties Act, focusing on program fraud. SD-342
10:00 a.m.
Governmental Affairs
Civil Service, Post Office, and General Services Subcommittee
To continue oversight hearings on a General Accounting Office report on Federal pay equity and classification system. SD-138
Labor and Human Resources
Children, Family, Drugs, and Alcoholism Subcommittee
To hold hearings on efforts to locate missing children. SD-430

MAY 24

10:00 a.m.
Select on Intelligence
Closed briefing on intelligence matters. SH-219

JUNE 3

9:30 a.m.
Finance
Health Subcommittee
To hold hearings on proposed legislation to modify the Medicare direct medical education pass-through. SD-215

JUNE 4

9:30 a.m.
Energy and Natural Resources
Energy Regulation and Conservation Subcommittee
To hold oversight hearings on the impact of imported petroleum products on the domestic petroleum industry. SD-366
10:00 a.m.
Foreign Relations
Business meeting, to consider pending calendar business. SD-419

JUNE 5

9:30 a.m.
Finance
To hold hearings on S. 814, to make technical corrections to certain provisions of the Tax Reform Act of 1984, and proposed technical corrections to the Retirement Equity Act (P.L. 98-397). SD-215
Labor and Human Resources
To hold hearings on drug export reform. SD-430

JUNE 6

9:30 a.m.
Energy and Natural Resources
Natural Resources Development and Production Subcommittee
To hold oversight hearings on the impact of coal imports on the domestic coal industry. SD-366

JUNE 10

2:00 p.m.
Energy and Natural Resources
Energy Research and Development Subcommittee
To resume oversight hearings on proposed budget requests for fiscal year 1986 for programs of the Department of Energy, focusing on fossil energy programs. SD-366

JUNE 11

9:30 a.m.
Labor and Human Resources
To hold oversight hearings on the implementation of the Orphan Drug Act (P.L. 97-414), focusing on section 7(b) relating to radiation-cancer liability. SD-430
Labor and Human Resources
Handicapped Subcommittee
To hold oversight hearings on administrative activities of Gallaudet College and the National Technical Institute for the Deaf. SR-428A
10:00 a.m.
Energy and Natural Resources
Water and Power Subcommittee
To hold hearings on S. 403, to revise requirements with respect to the issuance of licenses for existing hydroelectric facilities, and S. 426, to provide for more protection to electric consumers. SD-366

JUNE 12

9:30 a.m.
Labor and Human Resources
To continue oversight hearings on the implementation of the Orphan Drug Act (P.L. 97-414), focusing on section 7(b) relating to radiation-cancer liability. SD-430

JUNE 13

9:30 a.m.
Labor and Human Resources
Labor Subcommittee
To hold hearings on S. 1105, to reform the Walsh-Healey Act to allow Federal contractors in the private sector to work flextime hours. SD-628

JUNE 14

9:30 a.m.
Finance
Health Subcommittee
To hold hearings on health promotion and disease prevention strategies for Medicare beneficiaries. SD-215

JUNE 17

9:30 a.m.
Labor and Human Resources
To hold hearings on home health care reform. SD-430

JUNE 18

9:30 a.m.
Energy and Natural Resources
Energy Regulation and Conservation Subcommittee
To hold oversight hearings on the current status of and factors affecting the natural gas market. SD-366
Labor and Human Resources
To continue hearings on home health care reform. SD-430

JUNE 20

10:00 a.m.
Labor and Human Resources
Children, Family, Drugs, and Alcoholism Subcommittee
To hold hearings to examine the problem of drugs in the military. SD-430

JUNE 25

9:30 a.m.
Labor and Human Resources
To hold oversight hearings to examine certain barriers to adoption. SD-430

JULY 10

9:30 a.m.
Labor and Human Resources
To resume oversight hearings to examine certain barriers to adoption. SD-430

JULY 16

9:30 a.m.
Labor and Human Resources
To hold oversight hearings to examine U.S. relations with the International Labor Organization (ILO). SD-430

JULY 17

9:00 a.m.
Labor and Human Resources
Business meeting, to consider pending calendar business. SD-430

JULY 31

9:30 a.m.
Labor and Human Resources
To hold hearings to examine certain barriers to health care. SD-430

OCTOBER 1

11:00 a.m.
Veterans' Affairs
To hold hearings to review the legislative priorities of the American Legion. SD-106

CANCELLATION

MAY 15

9:30 a.m.
Labor and Human Resources
Business meeting, to consider the nominations of Marshall B. Babson, of Connecticut, and Wilford W. Johansen of California, each to be a member of the National Labor Relations Board. SD-430

HOUSE OF REPRESENTATIVES—*Tuesday, May 14, 1985*

The House met at 12 o'clock noon.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

In a world of darkness, we pray, O God, for light. We pray for light to illumine all evil in our world that it might be corrected; we pray for light to shine upon the hearts of people everywhere that we will find the paths of peace; we pray for light in our deliberations that we will serve the common good; we pray for light for those less fortunate than we that mercy and justice will be the blessings for every person and the gifts of grace our heritage. In Your name, we pray. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. SLAUGHTER. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. SLAUGHTER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 246, nays 156, answered "present" 1, not voting 31, as follows:

So the Journal was approved.

The result of the vote was announced as above recorded.

APPOINTMENT AS ADDITIONAL MEMBER OF TECHNOLOGY ASSESSMENT BOARD

The SPEAKER. Pursuant to the provisions of section 4(a), Public Law 92-484, the Chair appoints the gentleman from Tennessee [Mr. SUNDQUIST] as an additional member of the Technology Assessment Board.

APPOINTMENT AS MEMBERS OF COMMISSION ON THE UKRAINE FAMINE

The SPEAKER. Pursuant to section 136, Public Law 98-473, the Chair appoints as members of the Commission on the Ukraine Famine the following minority members on the part of the House:

Mr. BROOMFIELD of Michigan, and Mr. GILMAN of New York.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

APPOINTMENT AS ADDITIONAL MEMBER OF COMMISSION ON SECURITY AND COOPERATION IN EUROPE

The SPEAKER. Pursuant to the provisions of section 3, Public Law 94-304, as amended by section 1, Public Law 99-7, the Chair appoints the gentleman from New Jersey [Mr. SMITH] as an additional member of the Commission on Security and Cooperation in Europe.

PERMISSION FOR COMMITTEE ON ARMED SERVICES TO HAVE UNTIL MIDNIGHT, WEDNESDAY, MAY 15, 1985, TO FILE REPORT ON H.R. 1409

Mr. PRICE. Mr. Speaker, I ask unanimous consent that the Committee on Armed Services have until midnight, Wednesday, May 15, 1985, to file a report on H.R. 1409, the fiscal year 1986 military construction bill.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

PERMISSION FOR COMMITTEE ON ARMED SERVICES TO SIT TODAY DURING 5-MINUTE RULE

Mr. PRICE. Mr. Speaker, I ask unanimous consent that the Committee on Armed Services be allowed to sit today during any proceedings under the 5-minute rule.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

PRESIDENT URGED TO APPOINT BOARD MEMBERS OF U.S. INSTITUTE OF PEACE

(Mr. GLICKMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GLICKMAN. Mr. Speaker, last year this Congress, with bipartisan help, authorized and appropriated funds for a new institution to promote the study of nonviolent conflict resolution, the U.S. Institute of Peace. By April 20, 1985, the President, who is to appoint the members of the Board, was to have submitted his names to the Senate for confirmation. He has not done so and is in technical violation of the law.

I would urge my colleagues to sign the "Dear Colleague" letter I am circulating through Friday which urges the President to comply with the law and submit his appointments forthwith. Over half this fiscal year is over, and this Institute, with a 2-year duration, has not even begun its activities. I urge my colleagues to sign my letter to the President so that the Institute of Peace can become a reality.

AGRICULTURAL TRADE ENHANCEMENT ACT OF 1985

(Mrs. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SMITH of Nebraska. Mr. Speaker, today I am introducing the Agricultural Trade Enhancement Act of 1985.

In light of the European Economic Community's intransigence in recent discussions with President Reagan and their reluctance to conduct fair trade of agricultural commodities, it is necessary for the United States to take positive action both to initiate new multilateral trade negotiations and to develop new agricultural export programs. These measures must include export commodity bonus and intermediate export credit programs in order to both increase our farm exports and bring the Europeans to the negotiating table to discuss freer trade of agricultural products.

My bill addresses both of these key areas, calling for a new round of trade talks and authorizing these major new export promotion programs.

Also under this act, an Agricultural Trade Committee would be formed to identify unfair trade practices and recommend, within 6 months of the bill's enactment, concrete ways to eliminate or mitigate such practices.

This country cannot sit by while our export market share continues to dwindle. An estimated 1.1 million full-time jobs are related to the production, processing, and transportation of U.S. agricultural exports. Moreover, the overall U.S. trade deficit is expected to reach $140 billion this year. Farm exports, on the other hand, contributed a positive $112 billion to the balance of trade over the last 5 years.

Decisive action is needed now to challenge the forces that are steadily eroding our market share. By using our surplus commodities to move our grain overseas, we will bring the Europeans to the bargaining table to discuss freer trade for U.S. agricultural products. I urge my colleagues to join in cosponsoring this measure.

THE FEDERAL DEFICIT

(Mr. McKINNEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McKINNEY. Mr. Speaker, today, 13 cents of every Federal dollar is used for debt service. That is over $360 million a day. If spending continues at this rate, just 4 years later, it will take one-fifth of every Federal tax dollar to in fact pay for the deficit.

This is no reason to use the deficit problems as a crutch or an excuse to destroy the Federal Government. I would advise all of my friends to take a very careful look at the 92d group budget which treats the entire spectrum of Federal spending fairly, which does not use the Federal deficit as an excuse to eliminate the Government itself, and I think it deserves every Member's fair attention.

THE ECONOMIC EQUITY ACT

(Mr. MINETA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MINETA. Mr. Speaker, I rise to speak in strong support of H.R. 2472, the 1985 Economic Equity Act. I am proud to be an original cosponsor of this most important and historic legislation that will help ensure economic equity to all women.

The act embodies the conviction that discriminating against individuals because of their sex is just as unacceptable and inequitable as discriminating on the basis of color, ethnic heritage, or religious beliefs.

In the last Congress, we were successful in enacting five provisions of the 1983 Economic Equity Act. This legislation has provided a beachhead in the fight for economic equity for women. H.R. 2472 seeks to extend this process and provide true equity for all. I look forward to working with my colleagues for passage of this important legislation, the Economic Equity Act.

AN ABUSE OF POWER

(Mr. GUNDERSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUNDERSON. Mr. Speaker, this is week No. 2.

It was 2 weeks ago that the House of Representatives completed one of the greatest abuses of power in the history of this institution. In considering the disputed election in Indiana's Eighth District, we chose to throw out Indiana State law. We chose to set up our own rules for counting. And then, on a 2-to-1 partisan basis, handled those most controversial decisions of which ballots to count and not to count. Yes, one could say that only when enough ballots were counted to give Mr. McCLOSKEY the victory did we stop counting. And as we all know, the Evansville Courier has since reported that had we counted the other absentee ballots, Mr. McIntyre would have won.

The purpose of this 1 minute and those that will follow each week is not to pick on Mr. McCLOSKEY. No. I just don't want this House, or the American public to forget the wrong we did. Justice was denied to Mr. McIntyre and the people of Indiana's Eighth District. Let us not forget.

INTRODUCTION OF THE ECONOMIC EQUITY ACT OF 1985

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, I am proud to announce the introduction of the Economic Equity Act of 1985. As cochairs of the congressional caucus for women's issues, I and Representative OLYMPIA SNOWE introduced the bill yesterday with 79 original cosponsors.

The economic role of women in American society is changing. Our public policy does not reflect this. It is geared toward the Norman Rockwell myth, not the 1980's reality. The Economic Equity Act tries to bring public policy in line with American women.

The Economic Equity Act of 1985 strikes a balance on many levels. It balances the needs of older women and younger women, wage earners and homemakers. It serves single heads of household as well as businesswomen. Women from all walks of life can look at the Equity Act for means to improve their economic condition.

THE BIRD OF STATE HAS RUFFLED FEATHERS

□ 1230

(Mr. BROOMFIELD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROOMFIELD. Mr. Speaker, I am amazed that the Department of State is upset with my amendment to the State Department authorization bill. As my colleagues remember, I suggested that if the Soviets leadership did not apologize for the killing of Major Nicholson, the Soviet Ambassador should be asked to leave our country.

While I fully respect the finer points of diplomacy, I also know when enough is enough. You don't have to be a diplomat to know when you are having the wool pulled over your eyes. The Soviets took the life of Major Nicholson and have never formally apologized for that tragic and senseless murder. Our Government must do something to show our displeasure with the brutality of this act of the Kremlin.

I realize that the State Department's approach is different from mine. I assume that they would prefer to show our displeasure with Soviet actions by giving Ambassador Dobrynin one less cookie at the next diplomatic reception.

I don't believe in the State Department's policy of turning the other cheek in response to a Soviet act of brutality. History has shown that in dealing with the Russian bear, those who turned their cheek often lost their heads.

PERMISSION FOR SUBCOMMITTEE ON INVESTIGATIONS AND OVERSIGHT OF THE COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION TO SIT TODAY AND TOMORROW DURING THE 5-MINUTE RULE

Mr. GRAY of Illinois. Mr. Speaker, I ask unanimous consent that the Subcommittee on Investigations and Oversight of the Committee on Public Works and Transportation be permitted to sit during the 5-minute rule in the House on Tuesday, May 14, 1985, and Wednesday, May 15, 1985.

The SPEAKER pro tempore (Mr. KILDEE). Is there objection to the request of the gentleman from Illinois?

There was no objection.

PERMISSION FOR COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION TO SIT TOMORROW DURING 5-MINUTE RULE

Mr. GRAY of Illinois. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be permitted to sit during the 5-minute rule in the House on Wednesday, May 15, 1985.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

PERMISSION FOR SUBCOMMITTEE ON SURFACE TRANSPORTATION OF THE COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION TO SIT TOMORROW, MAY 15, 1985, AND THURSDAY, MAY 16, 1985, DURING 5-MINUTE RULE

Mr. GRAY of Illinois. Mr. Speaker, I ask unanimous consent that the Subcommittee on Surface Transportation of the Committee on Public Works and Transportation be permitted to sit during the 5-minute rule in the House on Wednesday, May 15, 1985, and Thursday, May 16, 1985.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

ECONOMIC EQUITY

(Mrs. KENNELLY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. KENNELLY. Mr. Speaker, the 1985 Economic Equity Act was introduced yesterday. With the strides we made in the last session toward economic equity for women, I'm sure some Members are asking themselves—why this bill? That's a fair question and it deserves a fair answer:

Because, when the tax system discriminates against famale-headed households although they have five times the poverty rate of married couples, a fair answer is tax reform.

Because, when more than half the women with preschool children are employed a fair answer is dependable, responsible day care.

Because, when the work patterns of women are different than those of men, a fair answer is a pension system that doesn't discriminate against those differences.

Because, when many women college graduates make about the same as men who have not finished high school, and when women high school graduates earn less than men who have completed the eighth grade, a fair answer is pay equity.

Mr. Speaker, the economic needs of America's women deserve a fair answer. This bill will give them just that.

LEGISLATION FOR REAPPORTIONMENT OF CONGRESSIONAL TERMS OF SERVICE

(Mr. DURBIN asked and was given permission to address the House for 1 minute.)

Mr. DURBIN. Mr. Speaker, it has been 80 years since the House of Representatives voted on a resolution addressing a change in the length of terms for Members of Congress. I will soon be introducing a resolution for a constitutional amendment, calling on Members of Congress to be elected to one 2-year term and two 4-year terms in every 10-year period following reapportionment.

In a recent survey, more than 60 percent of my colleagues who responded expressed their support for this concept. In town meetings across my district, the support for this approach has been consistent and overwhelming. I believe extending congressional terms makes sense for four reasons.

First, it will reduce the number of political campaigns, providing our voters with a welcome respite from our engaging rhetoric.

Second, it will help to stem the uncontrollable spiral in the cost of campaigning.

Third, it will at least partially liberate Members from a constant preoccupation with fund raising and campaigning, and will give Congress a greater opportunity to govern.

Fourth, the original rationale in 1789 for 2-year terms was to force Members to keep in touch with their districts. With today's modern communications and the realization that a Member who forgets his district will soon lose his seat, this rationale does not fit the modern challenges facing Congress.

I urge my colleagues to join me in cosponsoring this timely and necessary congressional reform.

THE DEINDUSTRIALIZATION OF AMERICA

(Mr. MOLLOHAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOLLOHAN. Mr. Speaker, on the subject of international trade, it is time for the President to replace rhetoric with action.

For the last 4 years the President has labeled as "protectionists" those of us in Congress working for a reform of our outdated trade laws. He has told us to let the administration solve our trade difficulties.

Mr. Speaker, let's look at the success of the administration's trade program. Last week he returned from an economic summit in which he failed to initiate another round of trade talks that might ease our situation, and he returned to a Congress tired of empty promises. Other recent stories in the news:

Steel imports rose to 27 percent of our domestic market in the first 3 months of this year. The President's import restraint negotiations were supposed to limit this figure to about 20 percent.

Coal imports more than doubled from 1982 to 1983 and, barring corrective action, will be more than 10 times last year's level by 1990.

And, finally, today's Washington Post reports that April was a banner month—for the Japanese, who posted a record trade surplus of $3.46 billion with the United States. April was a good month for the Japanese largely because the President declined to renegotiate limits on Japanese automobile imports.

Mr. Speaker, I don't want to pick on the Japanese. They are guilty of nothing more than being the most adept at exploiting the President's trade program, which seems to have as its goal the deindustrialization of America.

BOUNDARY EXTENSION OF THE UINTA NATIONAL FOREST

(Mr. NIELSON of Utah asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. NIELSON of Utah. Mr. Speaker, I am introducing legislation that would modify the boundary of the Uinta National Forest in the State of Utah. This will provide for more efficient management of certain lands which are part of the Bonneville unit of the Central Utah project. The Central Utah project has been managed by the Bureau of Reclamation. It provides enhanced recreational opportunities which can best be managed by the U.S. Forest Service.

In these times of fiscal restraint it is imperative to find the most efficient means of utilizing our resources. Both the Bureau of Reclamation and the U.S. Forest Service agree that the Forest Service is best equipped to manage these lands for recreational purposes.

This boundary extension does not involve the purchasing of any private or State lands. It is simply a transfer of land from the Bureau of Reclamation to the U.S. Forest Service and the extension is necessary to enable the Forest Service to better manage the resources of the area and possibly facilitate future exchanges. The United States Forest Service plans to expand the fishing, boating, and camping opportunities available to the public and more fully utilize the recreational resources provided by this portion of the Bonneville unit of the Central Utah project.

The U.S. Forest Service is currently managing this land under a memorandum of understanding with the Bureau of Reclamation, contract No. 2-07-40-L3016. Under this agreement the Bureau of Reclamation has agreed to transfer funds to the U.S. Forest Service to cover the cost of management through fiscal year 1989. This legislation would permit this agreement to remain in effect and would facilitate better management of such lands under this agreement and within this act.

I wholeheartedly support this legislation and commend these two agencies for assisting in an attempt to provide expanded benefits to the taxpaying public in a more efficient, cost-saving manner.

□ 1240

CONGRATULATIONS TO NEWLY CROWNED MISS U.S.A., LAURA ELENA MARTINEZ HERRING

(Mr. COLEMAN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COLEMAN of Texas. Mr. Speaker, my speech this morning cuts across all partisan lines. It is a subject on which all of us can agree. It gives me great pleasure to congratulate the newly crowned Miss U.S.A., Laura Elena Martinez Herring, of El Paso, TX. Laura was selected as Miss El Paso in 1983 and went on to be chosen Miss Texas-U.S.A. in 1984.

Last night, Laura was successful once again as she captured not only the title of Miss U.S.A., but the hearts of all Americans as well.

Laura Elena Martinez Herring is the first Hispanic and naturalized citizen to wear the Miss U.S.A. crown. Originally born in Los Moches, Sinola, Mexico, before becoming an American citizen, Laura's selection last evening exemplifies the validity of the American dream come true. As she so aptly stated to the assembled news media last night, "the people of the United States have no limitation." When asked why she was proud to be an American, Laura responded, "because this is the land of freedom." Members, I suggest that says it all.

As a native El Pasoan, I see Laura's achievement as conferring a tremendous sense of pride and distinction on the city of El Paso and the State of Texas. Just as important, though, Laura's victory last night is a symbolic bridge which further strengthens the cultural bonds between the United States and Mexico. Today, the people of El Paso and Texas happily join with all Americans in being proudly represented by Laura at the Miss Universe pageant.

So that this body might express its true appreciation to Laura for the distinction she has brought to this Nation, I will be introducing legislation to express the sense of the House congratulating Laura on her selection as Miss U.S.A. I encourage my colleagues to join with me in this endeavor.

ECONOMIC EQUITY ACT

(Ms. SNOWE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SNOWE. Mr. Speaker, I am pleased to join the cochair of the congressional caucus on women's issues, the Congresswoman from Colorado [Mrs. SCHROEDER] and my other colleagues in the caucus as well in announcing the reintroduction of the Economic Equity Act. Since 1981, the Economic Equity Act has served as the primary vehicle for the consideration of legislation to guarantee economic fairness to women.

The package we have introduced this year represents a comprehensive, forward-looking approach to improving the economic health and well-being of American women and families. The five titles of this legislation—retirement security, dependent care, insurance, employment, and tax policy—provide a balance of short- and long-term strategies that touch the lives of virtually every woman in this country.

The Equity Act has established a proven track record over the past 4 years, which includes the enactment of legislation to reform the private pension system and strengthen child support enforcement laws. The two new titles on employment and tax policy included this year represent key areas of economic concern to women.

This Congress is again faced with a challenge of fairness to American women, and indeed, this legislation represents a step in that direction. I urge my colleagues to support this legislation.

GO AFTER THE CORPORATE CULPRITS

(Mr. ROBINSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROBINSON. Mr. Speaker, I rise in strong opposition today to the various proposals that are being bandied around in this House in reference to either eliminating or cutting the COLA's in our Social Security System.

Let me remind each of my colleagues that our senior citizens are not balls to be batted around at will in this House. The Social Security System is not a welfare system. Our senior citizens and our workers today have paid dearly through payroll taxes to be guaranteed a way of living once they retire.

I know my colleagues are well intended when they talk about the fact that we must do this to reduce the deficit. The truth of the matter is, if we really want to do something constructive, let us put a minimum corporate tax on our large corporations in this country. If we put a minimum 15 percent tax, the 65 largest corporations in this country would pay $10.2 billion into the Treasury.

Leave our senior citizens alone and start picking on the real culprits, the corporate people in this country.

TO CUT THE DEFICIT: LET'S FREEZE ALL SPENDING

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, these huge budget deficits are fiscal child abuse. We must cut them, sharply and quickly.

The best way to do this is a total freeze as my colleague from Minnesota, Congressman TIM PENNY, and I proposed today. A freeze on every program. On your favorite program. On my favorite program. We must also cut or eliminate programs that make no economic sense—or that are simply not important enough to the American people to warrant more deficit spending.

I hear support for a freeze every day, from defenders of all kinds of spending programs. The president of the National League of Cities recently said he would oppose cuts for the cities if the revenues saved went to the Pentagon. Otherwise, he would support these cuts.

"We are prepared to contribute an honest effort," he said. "But we want to make sure that every dollar cut from the cities is used for one—and only one—purpose: To cut the deficit."

I applaud the National League of Cities for this position. This shows how an across-the-board freeze, combined with sensible and fair budget cuts, can bring these deficits down.

FREEDOM FROM FAMINE

(Mr. HILLIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HILLIS. Mr. Speaker, I want to share with you and this House of Representatives a beautiful story about a group of young people from Wabash, IN, who cared enough to make a difference. Theirs is a story of compassion, hard work, and sacrifice. It is the story of a group of young people who knew tears were not enough. And the story ends happily with the sights and sounds of happy children as they gather eagerly around a meal given to them by the young people of Wabash High School, Wabash, IN.

In the last several weeks, four high schools in the Fifth District of Indiana participated in my "Freedom From Famine" drive for the starving millions in sub-Sahara Africa. The 580 students of Wabash High School led the way, contributing $2,362.50 of the $3,932.88 collected.

Under the direction of Miss Katherine Geible, the French Club and student council cosponsored the Wabash efforts. Students used a variety of fundraising techniques including a penny pitch at the final home basketball game, daily classroom collections and school organization donations. In addition, the students involved the Wabash community by placing collection jars in businesses all over town.

Interaction, the charitable organization which will turn the $3,932.88 into live-sustaining food, estimates the efforts of Wabash, Kokomo, Taylor, and Hebron high schools will feed 2,420 people in starving African countries for an entire month.

My congratulations and heartfelt thanks to everyone who participated and helped to save a starving people.

SOCIAL SECURITY IS SELF-SUPPORTING RETIREMENT SYSTEM

(Mr. BRYANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRYANT. Mr. Speaker, in the Democratic caucus this morning, we discussed the proposals of the Republican majority in the other body to cut Social Security by changing the cost-of-living adjustment schedule.

Those who defend Social Security, as well as those who want to change it, focus in these types of debates almost entirely on the current generation of elderly Americans who are recipients of Social Security checks. I rise, however, to make the point that Social Security is not just a program for the elderly, for the current generation of elderly Americans. It is a permanent retirement system for all Americans, for all generations, young and old. It is not welfare.

It is a retirement system that is supported by a system of payroll deductions and it is, therefore, self-supporting and it is not contributing to the budget deficit.

I think it is very important to make the point this morning that proposals to cut Social Security by amending the cost-of-living schedule so very far toward undercutting the fundamental conceptual foundation of the Social Security system, which is that Social Security is a self-supporting retirement system for all generations of Americans, no matter where they are situated on the economic spectrum, young as well as old.

□ 1250

UNDERWORLD MAY LOSE ITS FAVORITE MEDIUM OF EXCHANGE—THE $100 BILL

(Mr. SCHULZE asked and was given permission to address the House for 1 minute.)

Mr. SCHULZE. Mr. Speaker, today, billions of dollars are involved in drug trafficking. One need only scan the front page of any newspaper to realize the phenomenal cash amounts involved. The figures are staggering. The illicit trafficking of drugs is estimated to be near $110 billion and the most common medium of exchange is the $100 bill.

In view of the underworld's reliance on the $100 bill, and the difficulty law enforcement agencies are having in containing the drug business, I am today introducing legislation which directs the Secretary of the Treasury, in consultation with the Federal Reserve Board, to retire all U.S. $100 notes, and further directs the Treasury to determine when these notes would cease to be legal tender.

This legislation is intended to immediately disrupt the dealings and money laundering tactics of drug traffickers. The violence and the phenomenally large amounts of cash involved in the illicit drug trade require that immediate measures be taken.

I urge your support of this measure.

OCS FUNDS COULD BE USED TO REDUCE DEFICIT

(Mr. BREAUX asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BREAUX. Mr. Speaker, for all of my colleagues who have been wrestling with the very difficult problem of trying to find nickels and dimes in order to reduce our Federal deficit by a goal of some $50 billion or so, I would like to point out that there

exists right now here in Washington in an escrow account somewhere between $6 billion and $7 billion just sitting idly by. This money, which has accumulated since 1978 out of OCS oil and gas revenues, is not being used to reduce the deficit, nor is it being used to pay for new or existing programs, nor is it being used by any of our coastal States.

The simple problem is that because the Federal Government and the States have not been able to agree on what is a fair and equitable division of those funds, no one is getting them. I have offered legislation, H.R. 641, which would define "fair and equitable" to mean a 50-50 division of those sums, $6 billion or $7 billion, between the Federal Government and the coastal States.

Mr. Speaker, I think we should take this $3 billion to $3.5 billion out of Dave Stockman's shoe box and use it to reduce the deficit.

AN ALTERNATIVE BLUEPRINT FOR SPENDING REDUCTIONS

(Mr. RIDGE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RIDGE. Mr. Speaker, we have finally accepted our responsibility to bring Government spending under control and to reduce the enormous deficit which burdens present and future taxpayers. It is natural and understandable that special groups, constituencies for interests generally condemn the deficit but specifically plea for preservation of individual programs. This approach was uniquely explained by an older gentleman I recently met at a town meeting. He claimed most everyone was interested in going to heaven, but no one was particularly interested in dying to get there.

Any blueprint for a meaningful spending reduction must be fair and balanced and that's exactly the kind of budget alternative offered by the 92 group. I would like to commend this alternative to my colleagues. The budget plan, offers a $51 billion deficit reduction in fiscal year 1986, and a reduction plan of nearly $275 billion over the next 3 years. The blueprint for balance begins with a comprehensive freeze, including defense, and then distributes reductions among 75 programs. These reductions were needed without tax increases, and which preserving the cost-of-living adjustment for Social Security recipients. I encourage my colleagues to support this approach.

DOUBLING THE PERSONAL EXEMPTION—TAX FAIRNESS FOR FAMILIES

(Mr. COATS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COATS. Mr. Speaker, I would like to bring to the attention of my colleagues a very interesting development in the tax reform debate. Last Friday, a coalition of liberal and conservative organizations sent a letter to Treasury Secretary James Baker asking for an end to tax discrimination against families.

The more than 30 signers of this letter included Ralph Nader's Public Citizen, Paul Weyrich's National Pro-Family Coalition, Gov. Richard Lamm, who is chairman of the National Governor's Association Tax Policy Committee, and Phyllis Schlaffly's Eagle Forum.

Specifically, the letter requested that the revised Treasury proposal retain certain provisions of the original Treasury plan which directly affect families. The letter expressed particular concern that the revised Treasury proposal retain the doubled personal exemption.

Mr. Speaker, I am very much encouraged by this development. Until this moment, I would not have thought there was any issue on which you could get these groups to sit down to a table together. But here they are together requesting of Secretary Baker, in their words, that the family provisions of Treasury I "not be sacrificed for the sake of preserving loopholes and preferences for businesses and corporations."

Not long ago, I introduced H.R. 1551, the Tax Fairness for Families Act, the purpose of which is to show solid, bipartisan support for doubling the personal exemption as a necessary part of any acceptable tax reform. And I hope that the same spirit which inspired the liberal and conservative groups to work together for the common goal of fairness to families will also inspire Members of this body to do likewise and become cosponsors of H.R. 1551.

I believe that Senator MOYNIHAN hit the nail on the head when he spoke recently before our Select Committee on Children, Youth, and Families, and explained why increasing the personal exemption is an issue for both Democrats and Republicans. By taxing families more equitably, he explained, "we would not so much be changing things as restoring what was once in place, remembering answers we once thought obvious."

THE ECONOMIC EQUITY ACT

(Mrs. BOGGS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOGGS. Mr. Speaker, two of the bills included in the Economic Equity Act, introduced on yesterday, would assist women business owners, the fastest growing segment of the small business sector, who deserve our support.

One clarifies the application of the Equal Credit Opportunity Act to commercial credit. Although that 1974 law applied to both consumer and business transactions, certain implementing regulations by the Federal Reserve Board often prevent women and minorities from obtaining commercial credit.

The other would establish a National Commission on Women's Small Business Ownership. This nine-member bipartisan commission would review and evaluate the status of women business owners, make recommendations to Congress to improve financing and procurement opportunities, and examine the role of the Federal Government in promoting female entrepreneurs.

Mr. Speaker, I have discussed both bills with individual women business owners and associations of women's business owners, and they feel these bills will be most effective if enacted. I urge my colleagues' support of these and the other measures contained in the Economic Equity Act.

E.F. HUTTON'S CHECK-KITING SCHEME

(Mr. HUBBARD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUBBARD. Mr. Speaker, former Attorney General William French Smith and Robert Fomon, chairman of the board and chief executive officer of E.F. Hutton & Co., Inc., discussed at a luncheon last fall the Federal investigation that had been going on for over 3 years into the massive check-kiting operation run by E.F. Hutton's employees.

The U.S. Justice Department, in my opinion the most politically conscious and politically active agency of the Federal Government, allowed the well-connected E.F. Hutton to cop a guilty plea to 2,000 counts and pay $2,700,000 in fines and costs. Of course, the politically motivated Justice Department is not prosecuting any of the individuals who managed the $4.35 billion check-kiting scheme at 400 American banks.

Justice Department officials were quoted yesterday in The New York Times as saying their "plea bargain helped save America's banking system." What a joke.

Recently, the Justice Department indicted, convicted, and sent to jail a Washington, DC, woman for shoplifting four sweaters worth less than $200.

Too bad this woman didn't have friends inside the Justice Department or didn't work at a big corporation as a cash management manipulator.

□ 1300

OMINOUS REPORTS ON TRADE BALANCE

(Mr. LUKEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LUKEN. Mr. Speaker, in the news in the past day or two there have been some ominous reports. I think they call for action on the part of our Federal Government.

The Japanese trade deficit has increased in April to $3.46 billion. Automobile imports from Japan are now at the rate of $2 billion, up 20 percent since last year.

On the other side of the coin, Japan says that it plans to spend $100 billion in the next 5 years for it own defense, but that is only $20 billion a year, 1 percent of its GNP.

On the contrary, the United States now spends, it is estimated, $47 billion a year to defend East Asia, that is Japan and Korea. So, we are subsidizing Japan in many ways, including the trade deficit and defense outlays.

I am suggesting that it is time we do something about it. One way would be to tax Japanese imports in order to pay for the defense of Japan. In that way we would accomplish three things. We would reduce the U.S. military subsidy of Japan. We would reduce our own deficits without taxing the American people, and we would try to preserve a few of the remaining jobs in the United States.

IN COMMEMORATION OF V-J DAY

(Mr. STRATTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STRATTON. Mr. Speaker, over the past year we have been witnessing a number of ceremonies commemorating the Second World War. Last June Chairman MONTGOMERY led a delegation of Members to France to commemorate the 40th anniversary of the D-Day landing in Normandy and earlier this month the United States participated in ceremonies in Germany and in France to commemorate V-E Day, the end of the Second World War in Europe.

Unfortunately, these ceremonies were marked with a measure of controversy, although it appears they did generate renewed feelings of comradship and reconciliation.

But, Mr. Speaker, let us not forget that millions of Americans in the course of the Second World War did not serve in the European Theater, but in the Pacific Theater and the real end of World War II did not come in Europe. It came on the 2d of September of 1945 aboard the U.S.S. *Missouri*, which incidentally is now refurbished and back in service, when General MacArthur accepted the Japanese surrender in Tokyo Bay.

I believe we should pay tribute to those brave soldiers, sailors, and marines who made that final victory possible and I urge that Congress and the executive branch get together on planning a suitable ceremony for V-J Day's 40th anniversary, September 2, 1985.

PRESIDENT REAGAN'S BROKEN PROMISES

(Mr. FRANK asked and was given permission to address the House for 1 minute.)

Mr. FRANK. Mr. Speaker, I just want to talk briefly about this pending Republican proposal to deny old people the cost of living increase they are legally entitled to.

It is one thing for President Reagan to tell the American people that he thinks it is more important to give military assistance to Marcos in the Philippines than to pay a cost-of-living increase to America's elderly; but it is even worse when this President made a solemn promise as a condition of getting votes and said, "I won't reduce the Social Security cost of living," among other things, and now blatantly breaks it.

The President when it came to taxes said, "I made a promise and if you try to break that promise, I will be Clint Eastwood."

Why with his promise to keep Social Security payments going on has he become the road runner?

When politicians made promises, and the President is one of us in that regard, and solicits votes on that basis, I think a solemn commitment has been made; so the President's preference for a bloated military budget over paying the cost of living is bad enough. It is compounded and confidence in our democratic system is eroded when the President of the United States makes a specific promise to the older people of America and then for reasons of convenience breaks it.

I hope that the House will not follow the example of the Republican leadership and help the President break that promise to America's elderly.

CANADA PASSES EQUAL RIGHTS AMENDMENT

(Mr. WHEAT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WHEAT. Mr. Speaker, I am distressed this morning that the United States, long the leading proponent of extending human rights throughout the world, must look northward for inspiration on the matter of equal rights for women. The nation of Canada has passed an equal rights amendment.

Mr. Speaker, when I first came to this House I had the good fortune to vote on one, but unfortunately, it did not pass. Now to extend equal rights to all people in the United States, I join with my colleagues in sorrow, and in pride, and with hope in introducing the Women's Equity Act; in sorrow, because the legislation is still needed some 200 years after the ratification of the Constitution when it was made clear that all men are given the right for life, liberty, and the pursuit of happiness, a right for all men, but unfortunately, not for women; in pride that it is clear that the American people believe in the values of extending the rights to all people, and in hope, Mr. Speaker, that finally 200 years after the ratification of the Constitution these rights will be extended, not only to all men, but to our mothers, our sisters, and our daughters.

FURTHER EVIDENCE OF SANDINISTA SUPPORT FOR SALVADORAN GUERRILLAS

(Mr. LAGOMARSINO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAGOMARSINO. Mr. Speaker, ever since the Sandinista regime took over the Government in Nicaragua, those of us critical of the Sandinistas have pointed to their support for the guerrillas in El Salvador as evidence of their intent to spread subversion and Marxist-Leninism in this hemisphere.

For 6 years, there has been evidence of arms going to the Salvadoran guerrillas from Nicaragua and Cuba and of the command and control for the Salvadoran guerrillas being directed from Managua. The House Intelligence Committee in May 1983 even made that finding, yet there are some in this House who continue to refuse to recognize the evidence that has been placed before them of Sandinista support for the Salvadoran guerrillas.

Now, we have further information supporting the charges against the Sandinistas. Former Salvadoran guerrilla leader Napoleon Romero, who turned himself in several weeks ago, said that the guerrillas in El Salvador receive more than 70 percent of their arms shipments from Nicaragua. He is reported to have said, "We need from 20,000 to 30,000 rounds of ammunition and some 5,000 sticks of TNT every month. All of that comes from Nicaragua." He also added: "In some cases, I know this ammunition comes in small boats that leave Chinandega [Nicaragua] and arrive in Usulutan [El Salvador]." He concluded: "Seventy percent of all our arms, shipments, and supplies come from Nicaragua, and the

rest we buy on the black market or take from fallen government troops."

FIGHTING FIRES FROM SPACE

(Mr. NELSON of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.

Mr. NELSON of Florida. Mr. Speaker, today I would like to talk about one of the many ancillary benefits that have resulted from this country's space program.

Earlier this year, a fierce fire raged on one of the islands in the Galapagos chain threatening some of the worlds rarest wildlife.

Due to the dense smoke and the constant presence of strong winds, firefighters were unable to contain the fire after more than 2 weeks of constant battling.

The Government of Ecuador turned to this country for help. We responded with our Landsat remote sensing satellite which was orbiting in a path 440 miles above the fire.

Despite the heavy shroud of smoke, infrared sensors on these satellites were able to pinpoint the hidden hotspots driving the fires. This information enabled firefighters to set up strategic fire breaks which ultimately brought this potentially devastating blaze under control.

It is important to recognize that we are constantly discovering new and practical ways to put our space technology to work.

I think it is equally important to point out that this lifesaving application of the Landsat remote sensing system comes at a time when the future of Landsat is extremely tenuous. This is because the system is going to be transferred to the private sector and OMB refuses to release the startup funds necessary for the period of transition from Government to market-support operation.

□ 1310

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1552

Mr. DENNY SMITH. Mr. Speaker, I ask unanimous consent that my name be removed from the list of cosponsors of H.R. 1552.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

GEORGE MILLIGAN CONTROL TOWER

Mr. MINETA. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the Senate bill (S. 661) entitled the "George Milligan Control Tower," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, I do not plan to object, but I would like to yield to the very able chairman of the Subcommittee on Aviation of the Public Works and Transportation Committee, the gentleman from California [Mr. MINETA] for his explanation of his request.

Mr. MINETA. Mr. Speaker, I thank my distinguished colleague from Arkansas for yielding.

Mr. Speaker, the bill now before us, S. 661, would designate the air traffic control tower at Medford-Jackson County Airport in Oregon as the George Milligan control tower. This is to honor George Milligan who served the people of southern Oregon for many years with a nonprofit emergency air ambulance service. Mr. Milligan was recently killed in an airplane accident while transporting a patient for emergency medical care. Naming the control tower after Mr. Milligan is a fitting tribute to this fine man.

I urge my colleagues to join me in support of this measure.

Mr. HAMMERSCHMIDT. Mr. Speaker, I rise in support of S. 661, which would designate the air traffic control tower at the Medford-Jackson County Airport in Oregon as the George Milligan control tower.

George Milligan began his career in the southern Oregon area as a towerman for the old Civil Aeronautics Administration. While there, he saw a need for an air ambulance service to provide help to the many people who lived in areas that were inaccessible or hours away from any medical center by car. Starting with little more than an idea, and with great persistence, George managed to purchase a used Cessna and began the volunteer air ambulance service known as Mercy Flights. For more than 30 years Mercy Flights delivered relief to flood victims, brought accident victims to the hospital, and moved those needing specialized medical attention to locations where they could receive it. This past February George Milligan died on one of these mercy flights.

Mr. Speaker, S. 661 is a tribute to this fine American who gave so much of himself, and eventually his life, for the sake of others. I believe this bill deserves our full support and am proud to join my colleagues on the Public Works and Transportation Committee in urging its passage.

Mr. ROBERT F. SMITH. Mr. Speaker, will the gentleman yield?

Mr. HAMMERSCHMIDT. Further reserving the right to object, I yield to my colleague, the gentleman from Oregon.

Mr. ROBERT F. SMITH. Mr. Speaker, as the House considers S. 661, legislation to rename the air traffic control tower at the Medford (Oregon)/Jackson County Airport the George Milligan control tower, I rise in support of the bill.

Since 1949, when he founded Mercy Flights, a nonprofit air ambulance and emergency air service, George Milligan risked his life transporting the sick and injured from remote locations in northern California and southern Oregon to hospitals. On February 9, 1985, George Milligan gave his life when a Mercy Flight plane suffered mechanical failure and crashed on an approach to the Medford Airport, while transporting a patient for emergency medical service. Also killed in the tragic accident were a Medford physician, a paramedic, and Marjorie Olney, the patient.

It is true the efforts of one man can make a difference. When George Milligan came to Medford in 1949 as a Civil Aeronautics Administration towerman he soon realized the need for an air ambulance to serve the needs of those living in remote, wild places inaccessible by car and lengthy distances from medical facilities. Beginning with little but enthusiasm and concern for his fellow man, George created Mercy Flights to serve this need. We will never know how many lives George Milligan saved but he is missed by those he served and by his community. I know I miss George terribly.

In our own inadequate and unsatisfying way, we rename the control tower of the Medford/Jackson County Airport in George's memory. While it is fitting for us to do this, our act pales in comparison to the selfless dedication George demonstrated to his fellow man in time of need. Let the control tower be a constant reminder that we must strive to carry on the task so nobly advanced by George Milligan and his Mercy Flights.

● Mr. SNYDER. Mr. Speaker, I rise in support of S. 661 to designate the air traffic control tower at the Medford-Jackson County, OR, Airport as the George Milligan control tower.

Although I never had the pleasure of meeting George Milligan before his untimely death in February of this year, I have read with great interest and admiration of his contributions to the people of southern Oregon.

George Milligan was the founder of and driving forces behind Mercy Flights, a nonprofit air ambulance and emergency air service which through the years flew thousands of flights, transporting sick and injured patients to medical care facilities in the Northwest. Many of these flights were conducted under extremely adverse weather conditions, which combined with the hazardous terrain in the region, often made access by air a very

dangerous proposition. Nevertheless, George Milligan was determined to save lives in spite of the great personal risks, a goal he realized on countless occasions.

Tragically, George Milligan was killed when his aircraft suffered mechanical failure and crashed while on approach to the Medford-Jackson County Airport earlier this year. When he died, George Milligan was transporting a patient for emergency medical service as he had done so many times before.

Therefore, Mr. Speaker, I think it would be a fitting tribute to this great man that we designate the Medford, OR, tower as the George Milligan control tower.

For the foregoing reasons, I urge my colleagues to support S. 661.●

● Mr. HOWARD. Mr. Speaker, I rise in support of this legislation to name the air traffic control tower at Medford-Jackson County Airport after a true public servant, Mr. George Milligan. Mr. Milligan's emergency air ambulance service saved many lives and was an important facet of health care to the citizens of southern Oregon.

Mr. Speaker, this bill passed the Senate last month without objection. I urge my colleagues to adopt this measure to honor Mr. Milligan's selfless service to his fellow citizens.●

Mr. HAMMERSCHMIDT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 661

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the air traffic control tower at the Medford-Jackson County Airport is designated and shall hereafter be known as the "George Milligan Control Tower". Any reference in a law, map, regulation, document, or other paper of the United States to such control tower shall be held and considered to refer to the "George Milligan Control Tower".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MINETA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on the motion to suspend the rules if a recorded vote or the yeas and nays are ordered, or if the vote is objected to under clause 4 of rule XV.

Such rollcall vote, if postponed, will be taken after 3 p.m. today.

SOCIAL SECURITY MINOR AND TECHNICAL CHANGES ACT OF 1985

Mr. ROSTENKOWSKI. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2005) to amend title II of the Social Security Act and related provisions of law to make minor improvement and necessary technical changes, as amended.

The Clerk read as follows:

H.R. 2005

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Social Security Minor and Technical Changes Act of 1985".

TABLE OF CONTENTS

Sec. 1. Short title.
Sec. 2. Demonstration projects involving the disability insurance program.
Sec. 3. Disability advisory council.
Sec. 4. Taxation of social security benefits received by certain citizens of possessions of the United States.
Sec. 5. Application of dependency test to adopted great-grandchildren for purposes of child's insurance benefits.
Sec. 6. Elimination of requirement for publication of revisions in pre-1979 benefit table.
Sec. 7. Fail-safe formula clarification.
Sec. 8. Extension of fifteen-month reentitlement period to childhood disability beneficiaries subsequently entitled.
Sec. 9. Charging of work deductions against auxiliary benefits in disability cases.
Sec. 10. Perfecting amendments to disability offset provision.
Sec. 11. State coverage agreements.
Sec. 12. Effect of early delivery of benefit checks.
Sec. 13. Preservation of benefit status for disabled widows and widowers who lost SSI benefits because of 1983 changes in actuarial reduction formula.
Sec. 14. General effective date.

SEC. 2. DEMONSTRATION PROJECTS INVOLVING THE DISABILITY INSURANCE PROGRAM.

(a) EXTENSION OF WAIVER AUTHORITY.—Section 505(a)(3) of the Social Security Disability Amendments of 1980 is amended by inserting "which is initiated before June 10, 1990" after "demonstration project under paragraph (1)".

(b) INTERIM REPORTS.—Section 505(a)(4) of such Amendments is amended to read as follows:

"(4) On or before June 9, 1985, and on or before June 9 in each of the years 1986, 1987, 1988, and 1989, the Secretary shall submit to the Congress an interim report on the progress of the experiments and demonstration projects carried out under this subsection together with any related data and materials which the Secretary may consider appropriate.".

(c) FINAL REPORT.—Section 505(c) of such Amendments is amended by striking out "under this section no later than five years after the date of the enactment of this Act" and inserting in lieu thereof "under subsection (a) no later than June 9, 1990".

(d) INCORPORATION OF CERTAIN REPORTS INTO SECRETARY'S ANNUAL REPORT TO CONGRESS.—Section 1110(b) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(3) All reports of the Secretary with respect to projects carried out under this subsection shall be incorporated into the Secretary's annual report to the Congress required by section 704.".

SECTION 3. DISABILITY ADVISORY COUNCIL.

(a) APPOINTMENT OF COUNCIL.--Within ninety days after the date of the enactment of this Act, the Secretary of Health and Human Services shall appoint a special Disability Advisory Council.

(b) MEMBERSHIP OF COUNCIL.—The Disability Advisory Council shall consist of a Chairman and not more than twelve other persons, appointed by the Secretary without regard to the provisions of title 5, United States Code, governing appointments in the competitive service. The appointed members shall, to the extent possible, represent organizations of employers and employees in equal numbers, medical and vocational experts from the public or private sector (or from both such sectors), organizations representing disabled people, and the public. The Council shall meet as often as may be necessary for the performance of its duties under this section, but not less often than quarterly.

(c) DUTIES OF COUNCIL.—(1) The Advisory Council shall conduct studies and make recommendations with respect to the medical and vocational aspects of disability under both title II and title XVI of the Social Security Act, including studies and recommendations relating to—

(A) the effectiveness of vocational rehabilitation programs for recipients of disability insurance benefits or supplemental security income benefits;

(B) the question of using specialists for completing medical and vocational evaluations at the State agency level in the disability determination process, including the question of requiring, in cases involving impairments other than mental impairments, that the medical portion of each case review (as well as any applicable assessment of residual functional capacity) be completed by an appropriate medical specialist employed by the appropriate State agency before any determination can be made with respect to the impairment involved;

(C) alternative approaches to work evaluation in the case of applicants for benefits based on disability and recipients of such benefits undergoing reviews of their cases, including immediate referral of any such applicant or recipient to a vocational rehabilitation agency for services at the same time he or she is referred to the appropriate State agency for a disability determination;

(D) the feasibility and appropriateness of providing work evaluation stipends for ap-

plicants for and recipients of benefits based on disability in cases where extended work evaluation is needed prior to the final determination of their eligibility for such benefits or for further rehabilitation and related services;

(E) the standards, policies, and procedures which are applied or used by the Secretary of Health and Human Services with respect to work evaluations in order to determine whether such standards, policies, and procedures will provide appropriate screening criteria for work evaluation referrals in the case of applicants for and recipients of benefits based on disability; and

(F) possible criteria for assessing the probability that an applicant for or recipient of benefits based on disability will benefit from rehabilitation services, taking into consideration not only whether the individual will be able after rehabilitation to engage in substantial gainful activity but also whether rehabilitation services can reasonably be expected to improve the individual's functioning so that he or she will be able to live independently or work in a sheltered environment.

(2) For purposes of this subsection, "work evaluation" includes (with respect to any individual) a determination of—

(A) such individual's skills,

(B) the work activities or types of work activity for which such individual's skills are insufficient or inadequate,

(C) the work activities or types of work activity for which such individual might potentially be trained or rehabilitated,

(D) the length of time for which such individual is capable of sustaining work (including, in the case of the mentally impaired, the ability to cope with the stress of competitive work), and

(E) any modifications which may be necessary, in work activities for which such individual might be trained or rehabilitated, in order to enable him or her to perform such activities.

(d) PROVISION OF ASSISTANCE TO COUNCIL; COMPENSATION OF MEMBERS.—(1) The Disability Advisory Council is authorized to engage such technical assistance, including actuarial services, as may be required to carry out its functions, and the Secretary of Health and Human Services shall, in addition, make available to the Council such secretarial, clerical, and other assistance and such actuarial and other pertinent data prepared by the Department of Health and Human Services as the Council may require to carry out such functions.

(2) Appointed members of the Council, while serving on business of the Council (inclusive of traveltime), shall receive compensation at rates fixed by the Secretary, but not exceeding $100 per day, and, while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government employed intermittently.

(e) REPORTS.—The Disability Advisory Council shall submit a report (including any interim reports the Council may have issued) of its findings and recommendations to the Secretary of Health and Human Services not later than December 31, 1986; and such report and recommendations shall thereupon be transmitted to the Congress and to the Board of Trustees of the Federal Disability Insurance Trust Fund.

(f) TERMINATION.—After the date of the transmittal to the Congress of the report required by subsection (e), the Disability Advisory Council shall cease to exist.

(g) CONFORMING AMENDMENTS.—(1) Section 706 of the Social Security Act is amended—

(A) by inserting "except as provided in subsection (e)," immediately before "the Secretary shall appoint" in subsection (a); and

(B) by adding at the end thereof the following new subsection:

"(e) No Advisory Council on Social Security shall be appointed under subsection (a) in 1985 (or in any subsequent year prior to 1989).".

(2) Section 12 of the Social Security Disability Benefits Reform Act of 1984 is repealed.

SEC. 4. TAXATION OF SOCIAL SECURITY BENEFITS RECEIVED BY CERTAIN CITIZENS OF POSSESSIONS OF THE UNITED STATES.

(a) GENERAL RULE.—Section 932 of the Internal Revenue Code of 1954 (relating to citizens of possessions of the United States) is amended by redesignating subsection (c) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) TAXATION OF SOCIAL SECURITY BENEFITS.—If, for purposes of an income tax imposed in the possession, any social security benefit (as defined in section 86(d) received by an individual described in subsection (a) is treated in a manner equivalent to that provided by section 86, then—

"(1) such benefit shall be exempt from the tax imposed by section 871, and

"(2) no amount shall be deducted and withheld from such benefit under section 1441."

(b) CROSS REFERENCE.—Paragraph (3) of section 871(a) of such Code is amended by adding at the end thereof (after and below subparagraph (B)) the following new sentence:

"For treatment of certain citizens of possessions of the United States, see section 932(c)."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to benefits received after December 31, 1983, in taxable years ending after such date.

SEC 5. APPLICATION OF DEPENDENCY TEST TO ADOPTED GREAT-GRANDCHILDREN FOR PURPOSES OF CHILD'S INSURANCE BENEFITS.

(a) TREATMENT OF GRANDCHILDREN AND GREAT GRANDCHILDREN ALIKE.—Section 202(d)(8)(D)(ii)(III) of the Social Security Act is amended by inserting "or greatgrandchild" after "grandchild".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to benefits for which application is filed after the date of the enactment of this Act.

SEC. 6. ELIMINATION OF REQUIREMENT FOR PUBLICATION OF REVISIONS IN PRE-1979 BENEFIT TABLE.

Section 215(i)(4) of the Social Security Act is amended by striking out "the Secretary shall publish" and all that follows in the last sentence and inserting in lieu thereof the following: "the Secretary shall revise the table of benefits contained in subsection (a), as in effect in December 1978, in accordance with the requirements of paragraph (2)(D) of this subsection as then in effect, except that the requirement in such paragraph (2)(D) that the Secretary publish such revision of the table of benefits in the Federal Register shall not apply.".

SEC. 7. FAIL-SAFE FORMULA CLARIFICATION.

Section 709(b)(1) of the Social Security Act is amended to read as follows:

"(1) the balance in such Trust Fund as of the beginning of such year, including the taxes transferred under section 201(a) on the first day of such year and reduced by the outstanding amount of any loan (including interest thereon) theretofore made to such Trust Fund under section 201(l) or 1817(j), to".

SEC. 8. EXTENSION OF 15-MONTH REENTITLEMENT PERIOD TO CHILDHOOD DISABILITY BENEFICIARIES SUBSEQUENTLY ENTITLED.

(a) IN GENERAL.—Section 202(d)(6)(E) of the Social Security Act is amended by striking out "the third month following the month in which he ceases to be under such disability" and inserting in lieu thereof "the termination month (as defined in paragraph (1)(G)(i)), subject to section 223(e),".

(b) CONFORMING AMENDMENT.—Section 223(e) of such Act is amended by inserting "(d)(6)(A)(ii), (d)(6)(B)," after "(d)(1)(B)(ii),".

(c) EFFECTIVE DATE.—The amendments made by this section are effective December 1, 1980, and shall apply with respect to any individual who is under a disability (as defined in section 223(d) of the Social Security Act) on or after that date.

SEC. 9. CHARGING OF WORK DEDUCTIONS AGAINST AUXILIARY BENEFITS IN DISABILITY CASES.

(a) IN GENERAL.—(1) Section 203(a)(4) of the Social Security Act is amended by striking out "preceding" in the first sentence.

(2) Section 203(a)(6) of such Act is amended—

(A) by striking out "and (5)" and inserting in lieu thereof "(4), and (5)"; and

(B) by striking out ", whether or not" and all that follows down through "further reduced" and inserting in lieu thereof "shall be reduced".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to benefits payable for months after December 1985.

SEC. 10. PERFECTING AMENDMENTS TO DISABILITY OFFSET PROVISION.

(a) IN GENERAL.—(1) Section 224(a)(2) of the Social Security Act is amended to read as follows:

"(2) such individual is entitled for such month to—

"(A) periodic benefits on account of his or her total or partial disability (whether or not permanent) under a workmen's compensation law or plan of the United States or a State, or

"(B) periodic benefits on account of his or her total or partial disability (whether or not permanent) under any other law or plan of the United States, a State, a political subdivision (as that term is used in section 218(b)(2), or an instrumentality of two or more States (as that term is used in section 218(k)), other than (i) benefits payable under title 38, United States Code, (ii) benefits payable under a program of assistance which is based on need, (iii) benefits based on service all or substantially all of which was included under an agreement entered into by a State and the Secretary under section 218, and (iv) benefits under a law or plan of the United States based on service all or part of which is employment as defined in section 210,".

(2) Section 224(a)(2) of such Act (as amended by paragraph (1) of this subsection) is further amended by striking out "all or part of which" in clause (iv) and inserting in lieu thereof "all or substantially all of which".

(b) EFFECTIVE DATES.—(1) The amendment made by subsection (a)(1) shall be effective as though it had been included or reflected in the amendment made by section

2208(a)(3) of the Omnibus Budget Reconciliation Act of 1981.

(2) The amendment made by subsection (a)(2) shall apply only with respect to monthly benefits payable on the basis of the wages and self-employment income of individuals who become disabled (within the meaning of section 223(d) of the Social Security Act) after the month in which this Act is enacted.

SEC. 11. STATE COVERAGE AGREEMENTS.

(a) MAXIMUM PERIOD OF RETROACTIVE COVERAGE.—Section 218(f)(1) of the Social Security Act is amended by striking out "is agreed to by the Secretary and the State" and inserting in lieu thereof "is mailed or delivered by other means to the Secretary".

(b) POSITIONS COMPENSATED SOLELY ON FEE BASIS.—Section 218(u)(3) of such Act is amended by striking out "is agreed to by the Secretary and the State" and inserting in lieu thereof "is mailed or delivered by other means to the Secretary".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to agreements and modifications of agreements which are mailed or delivered to the Secretary of Health and Human Services (under section 218 of the Social Security Act) on or after the date of the enactment of this Act.

SEC. 12. EFFECT OF EARLY DELIVERY OF BENEFIT CHECKS.

(A) FOR OASDI PURPOSES.—Section 708 of the Social Security Act is amended by adding at the end thereof the following new subsection:

"(c) For purposes of computing the 'OASDI trust fund ratio' under section 201(l), the 'OASDI fund ratio' under section 215(i) and the 'balance ratio' under section 709(b), benefit checks delivered before the end of the month for which they are issued by reason of subsection (a) of this section shall be deemed to have been delivered on the regularly designated delivery date.".

(b) FOR INCOME TAX PURPOSES.—Section 86(d) of the Internal Revenue Code of 1954 (relating to taxation of social security and tier 1 railroad retirement benefits) is amended by adding at the end thereof the following new paragraph:

"(5) Effect of early delivery of benefit checks.—For purposes of subsection (a), in any case where section 708 of the Social Security Act causes social security benefit checks to be delivered before the end of the calendar month for which they are issued, the benefits involved shall be deemed to have been received in the succeeding calendar month.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to benefit checks issued for months ending after the date of the enactment of this Act.

SEC. 13. PRESERVATION OF BENEFIT STATUS FOR DISABLED WIDOWS AND WIDOWERS WHO LOST SSI BENEFITS BECAUSE OF 1983 CHANGES IN ACTUARIAL REDUCTION FORMULA

(a) IN GENERAL.—Section 1634 of the Social Security Act is amended—

(1) by inserting "(a)" after "SEC. 1984.", and

(2) by adding at the end the following new subsection:

"(b)(1) An eligible disabled widow or widower (described in paragraph (2)) who is entitled to a widow's or widower's insurance benefit based on a disability for any month under section 202(e) or (f) but is not eligible for benefits under this title in that month and who applies for the protection of this subsection under paragraph (3), shall be deemed for purposes of title XIX to be an individual with respect to whom benefits under this title are paid in that month if he or she—

"(A) has been continuously entitled to such widow's or widower's insurance benefits from the first month for which the increase described in paragaph (2)(C) was reflected in such benefits through the month involved, and

"(B) would be eligible for benefits under this title in the month involved if the amount of the increase described in paragraph (2)(C) in his or her widow's or widower's insurance benefits, and any subsequent cost-of-living adjustment in such benefits under section 215(i), were disregarded.

"(2) For purposes of paragraph (1), the term 'eligible disabled widow or widower' means an individual who—

"(A) was entitled to a monthly insurance benefit under title II for December 1983,

"(B) was entitled to a widow's or widower's insurance benefit based on a disability under section 202 (e) or (f) for January 1984 and with respect to whom a benefit under this title was paid in that month, and

"(C) because of the increase in the amount of his or her widow's or widower's insurance benefits which resulted from the amendments made by section 134 of the Social Security Amendments of 1983 (Public Law 98-21) (eliminating the additional reduction factor for disabled widows and widowers under age 60), was ineligible for benefits under this title in the first month in which such increase was paid to him or her (and in which a retroactive payment of such increase for prior months was not made).

"(3) This subsection shall only apply to an individual who files a written application for protection under this subsection, in such manner and form as the Secretary may prescribe, during the 12-month period beginning with the 3d month that begins after the date of the enactment of this subsection.

"(4) for purposes of this subsection, the term 'benefits under this title' includes payments of the type described in section 1616(a) or of the type described in section 212(a) of Public Law 93-66.".

(b) IDENTIFICATION OF BENEFICIARIES.—(1) As soon as possible after the date of the enactment of this Act, the Secretary of Health and Human Services shall provide each State with the names of all individuals receiving widow's or widower's insurance benefits under subsection (e) or (f) of section 202 of the Social Security Act based on a disability who might qualify for medical assistance under the plan of that State approved under title XIX of such Act by reason of the application of section 1634(b) of the Social Security Act.

(2) Each State shall—

(A) using the information so provided and any other information it may have, promptly notify all individuals who may qualify for medical assistance under its plan by reason of such section 1634(b) of their right to make application for such assistance,

(B) solicit their applications for such assistance, and

(C) make the necessary determination of such individuals' eligibility for such assistance under such section and under such title XIX.

(c) EFFECTIVE DATE.—The amendment made by subsection (a)(2) shall not have the effect of deeming an individual eligible for medical assistance for any month which begins less than two months after the date of the enactment of this Act.

SEC. 14. GENERAL EFFECTIVE DATE.

Except as otherwise specifically provided, this Act and the amendments made by this Act shall take effect on the first day of the month following the month in which this Act is enacted.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 20 minutes and the gentleman from Texas [Mr. ARCHER] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 2005, the bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today to present for the House's consideration H.R. 2005, the Social Security Minor and Technical Changes Act of 1985. This bill makes several needed technical changes in the Social Security Act, primarily to correct errors in the drafting of previous amendments. In addition, the bill contains an extension of the waiver authority necessary for the Social Security Administration to conduct demonstration projects on the vocational rehabilitation of disability beneficiaries. The bill also provides continued eligibility for disabled widows who were made ineligible for SSI and Medicaid benefits by an increase in their Social Security benefits in the 1983 Social Security Amendments. This bill contains no controversial or costly amendments, but simply makes necessary technical corrections to the act, as well as providing some additional relief for a very small group of disabled widows. I therefore urge my colleagues to support this legislation.

Mr. Speaker, I yield such time as he may consume to the chairman of the Subcommittee on Social Security, the gentleman from Oklahoma [Mr. JONES].

Mr. JONES of Oklahoma. Mr. Speaker, I rise in support of H.R. 2005, which was developed in my subcommittee to address certain very technical issues in the Social Security System which needed to be corrected. These corrections will eliminate unintended effects of earlier Social Security Amendments, as well as clarifying congressional intent with respect to other recent changes. This bill also provides much-needed relief for a lim-

ited group of about 4,000 disabled widows who were inadvertently made ineligible for SSI benefits and Medicaid by the 1983 Social Security Amendments. Finally, the bill insures, through extension of waiver authority for vocational rehabilitation experiments by the Social Security Administration, that the work begun in last year's 1984 disability amendments to straighten out the disability program, can continue with new research to find ways to encourage beneficiaries to return to work and productive activity if they are capable of it. This bill is noncontroversial, and has minimal cost. I urge its adoption by the House.

Mr. ROSTENKOWSKI. Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. President, I yield myself such time as I may consume.

Mr. Speaker, as a cosponsor of H.R. 2005, I wish to assure my colleagues that this bill, the Social Security Minor and Technical Changes Act of 1985 is a necessary yet thoroughly noncontroversial and unexciting piece of legislation. In part, the bill corrects certain anomalies introduced by the 1983 Social Security Amendments.

Let me cite an example. Ordinarily Social Security checks are delivered on the 3d of the month following the month for which payment is due. That means the December check is delivered on January 3. However, earlier delivery on the nearest preceding banking day is permitted when the 3d falls on Saturday, Sunday, or a holiday. In 1988, January 3 falls on Sunday, which means checks will be delivered on December 31. This timing—like the appearance of Halley's comet—occurs infrequently, but potentially is on a collision course with two provisions of the 1983 amendments. First, those beneficiaries subject to income tax on their benefits could be taxed on the basis of 13 checks in 1987 and 11 in 1988. Second, it would skew the January 1, computation of trust fund ratios, which in turn governs interfund borrowing et cetera. Consequently, in these two situations, H.R. 2005 would deem checks delivered on the third of the month.

To cite a second example, the 1983 amendments taxed benefits in one of two ways depending on a beneficary's status as resident of the United States, or nonresident alien. In implementing this provision, the Social Security Administration and the Internal Revenue Service determined that citizens of American Samoa—unlike citizens of Guam, Puerto Rico or the Virgin Islands—would be treated as aliens subject to a flat 15 percent withholding of benefits, regardless of total income. This bill would treat American Samoans in a manner similar to other citizens of possessions of the United States.

Not all of the bill's provisions are quite as "technical," but for the most part the combined impact will be a small one.

The most significant provision, and the one which costs three of the bill's estimated $4 million in fiscal 1986, would extend SSA's authority to conduct vocational rehabilitation demonstration projects to encourage disabled beneficiaries to return to work. The administration has been slow to implement the original authorization in the 1980 amendments. However, several projects are under way and it is important this authority be extended. I'm convinced—given the impact of the 1984 Disability Benefits Reform Act—that our committee must look more closely at vocational rehabilitation as an alternative to continuing disability benefits for the permanently handicapped.

In brief, Mr. Speaker, H.R. 2005 is a sound, necessary bill, which tidies up the loose ends of prior legislation. There should be nothing controversial, about its passage today.

□ 1320

Mr. ARCHER. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. I thank the gentleman for yielding. This does seem like a meritorious bill, but I am a little concerned about the $4 million in outlays for fiscal year 1986.

I am trying to find out whether or not those outlays would in fact violate freeze levels under the 1985 spending levels. Is that $4 million of additional outlay over and above anything that we would have spent in 1985?

Mr. ARCHER. I am sorry, I am not sure that I can specifically answer the gentleman's question relative to the entire budget.

Mr. WALKER. Could the gentleman from Oklahoma [Mr. JONES] answer the question?

Mr. JONES of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Oklahoma.

Mr. JONES of Oklahoma. I thank the gentleman. I am not sure I caught the full thrust of his question, but I believe that it had to do with a waiver being required.

Mr. WALKER. No, it had to do with the freeze. We have had a series of votes out here where the House has proclaimed its undying allegiance to the concept of an outlay freeze in 1986. Now I see a bill before us that has $4 million in additional outlays in 1986 supposedly.

What I am asking is, is that $4 million over and above 1985 appropriated or outlay levels?

Mr. JONES of Oklahoma. Well, if the gentleman will yield, most of this would be a continuation of the demonstration project for vocational rehabilitation to allow beneficiaries to get back into the workplace sooner.

Most of that is budget authority and there is not necessarily any outlays that will happen. That will come from the Social Security trust fund as part of the administrative budget of the Secretary of HHS. So it really would not be affected in the budget freeze.

Mr. WALKER. Well, if the gentleman will yield further, I understand that the money comes from the trust fund. However, the trust fund is a part of our overall budget and you cannot separate out the fact that the unified budget includes the trust fund expenditures of Social Security. What I am trying to find out is whether or not this is additional money that is going to be spent over and above 1985 outlays and, therefore, is in violation of the freeze.

Mr. ARCHER. Mr. Speaker, will the gentleman yield to me?

Mr. WALKER. I yield to the gentleman from Texas.

Mr. ARCHER. Well, for a response to the gentleman's question, since these are trust funds and since they come out of the program which varies throughout the year, there has never been suggested a freeze on overall Social Security spending which is impossible to determine, particularly in the disability area, a year in advance.

There is no way that there can be with certainty a figure as to what moneys will be spent in the year 1986 on disability.

Mr. WALKER. Well, am I now understanding that therefore any of this talk that we have had out here on the floor about a freeze exempts, by nature, all trust funds and all Social Security programs, is that now the understanding that we have now exempted about $350 billion of the budget from this freeze thing that is running out here on the floor?

Mr. JONES of Oklahoma. Mr. Speaker, will the gentleman yield to me?

Mr. WALKER. I will be glad to yield to the gentleman from Oklahoma.

Mr. JONES of Oklahoma. I thank the gentleman for yielding.

Mr. Speaker, first of all, I think we need to put this in perspective. We are talking about $4 million out of $969 billion. But this is part of the Secretary's administrative budget. At the time the HHS appropriation comes forward, if you want to freeze the administrative budget, this would fit into that without any problem whatsoever.

Mr. WALKER. But we have not maintained that philosophy when it has come to authorizing other programs. We have had authorization bills out here on all kinds of programs NSF, NASA, a whole bunch of programs where we have voted to freeze authorization levels at 1985 appropriation levels. We have done that and we

have done it with great glee out here, and we have all taken this strong advocacy position.

What I am trying to find out is, we have a new authorization here before us, from everything I can tell, and it appears to be authorizing $4 million in additional outlays for 1986. I am trying to find out whether or not this is $4 million of add-on spending or whether or not it is $4 million that would be covered under the 1985 appropriation and outlay levels.

Mr. JONES of Oklahoma. Will the gentleman yield to me?

Mr. WALKER. I will be glad to yield to the gentleman from Oklahoma.

Mr. JONES of Oklahoma. I thank the gentleman for yielding.

I will be more than happy to join the gentleman in freezing the Secretary's administrative budget. It is not appropriate at this point. This will clearly fit into a freeze, however, if that answers the gentleman's question.

Mr. WALKER. Well, if I have the assurance of the gentleman that this money would certainly fit into a 1985 freeze context, then that alleviates my problem.

Mr. JONES of Oklahoma. This clearly can be accommodated in a freeze concept.

Mr. WALKER. I thank the gentleman.

Mr. Speaker, I thank the gentleman from Texas [Mr. ARCHER] for yielding.

Mr. ARCHER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Passage of this Social Security technical corrections bill marks a significant occasion for a member of the staff of the Committee on Ways and Means, Erv Hytner.

Mr. Speaker, it appears that this will be the last in a long series of legislative acts concerning the Medicare and Social Security Programs in which Erv has played a major role.

When I became chairman of the Ways and Means Subcommittee on Health, Erv Hytner was a senior member of the subcommittee staff. He played a major role in the development of the Medicare legislation enacted during my tenure as the Health Subcommittee chairman. He later transferred to the Subcommittee on Social Security where he has done an outstanding job as the subcommittee staff director. No one spent more time working on or made a larger contribution to the development and passage of the landmark Social Security Amendments of 1983 than Erv.

During his 10 years on the Ways and Means Committee staff, Erv also served as the staff director of the Oversight Subcommittee. Prior to joining the Ways and Means Committee, Erv work approximately 20 years at the Social Security Administration, beginning as claims representative, serving as a key staff member in the development and enactment of the Medicare and Medicaid Programs, and ending up as one of the key administrators of these Federal Health programs. For his service to our Social Security Programs, Erv has received two citations for outstanding service from the Social Security Commissioner, one when he left SSA and the other just recently.

We will miss Erv at Ways and Means. We have come to depend upon his experience, knowledge, and insight, and have thoroughly enjoyed his cooperative approach and optimistic outlook.

The sunny climate of Florida is very enticing, and we understand why he might want to move there. Erv certainly deserves the rest. He has worked hard and made outstanding contributions to the legislative process.

My final directive to Erv is, leave me your phone number. I want to know that I can reach you when I need assistance in Social Security, disability, or Medicare legislation.

Mr. JONES of Oklahoma. Mr. Speaker, will the gentleman yield to me?

Mr. ROSTENKOWSKI. I yield to the gentleman from Oklahoma [Mr. JONES].

Mr. JONES of Oklahoma. I thank the gentleman for yielding.

Mr. Speaker, I would like to add my commendation to Erv Hytner. I have only served as chairman of the Subcommittee on Social Security this year and this is the first opportunity I have gotten to know and work closely with Erv Hytner. But I think that we are not about to see the end of Erv's public policy contribution. I think he is going to join the ranks of people such as Wilbur Cohen, and Bob Ball, and others who have made so many contributions.

So his retirement is not going to be a retirement from public policy development. I have a feeling he is going to be on our backs keeping the Congress and the American people aware of those issues affecting senior citizens.

Mr. Speaker, we wish him the very best.

□ 1330

Mr. ARCHER. Will the gentleman yield?

Mr. ROSTENKOWSKI. I yield to the gentleman.

Mr. ARCHER. I would like to join with my colleagues from the majority side in expressing the views of the minority that Erv Hytner has been a true craftsman of legislative skill, in helping us to work with the very complex problems of Social Security over the years.

He has always been willing to give of his time and in a most objective way, help to bring about bipartisan treatment of these issues. I compliment him for his service. It has been a pleasure for me personally to work with him, and I wish him Godspeed in the years ahead.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and pass the bill, H.R. 2005, as amended.

The question was taken.

Mr. ROSTENKOWSKI. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

Washington, DC, May 13, 1985.

Hon. THOMAS P. O'NEILL, Jr.,
The Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 5, Rule III of the Rules of the U.S. House of Representatives, I have the honor to transmit sealed envelopes received from the White House as follows:

(1) At 4:00 p.m. on Monday, May 13, 1985 and said to contain a message from the President whereby he transmits the fourth annual report on the state of small business; and

(2) At 4:00 p.m. on Monday, May 13, 1985 and said to contain a message from the President whereby he transmits the fiscal year 1984 annual report of the Commodity Credit Corporation.

With kind regards, I am,

Sincerely,

BENJAMIN J. GUTHRIE,
Clerk, House of Representatives.

ANNUAL REPORT ON THE STATE OF SMALL BUSINESS—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Small Business and the Committee on Ways and Means:

(For message, see proceedings of the Senate of today, Tuesday, May 14, 1985.)

REPORT OF THE COMMODITY CREDIT CORPORATON FOR FISCAL YEAR 1984—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Agriculture:

(For message, see proceedings of the Senate of today, Tuesday, May 14, 1985.)

PROVIDING FOR CONSIDERATION OF H.R. 1157, AUTHORIZATIONS FOR APPROPRIATIONS OF MARITIME PROGRAMS FOR FISCAL YEAR 1986

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 157, and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 157

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1157) to authorize appropriations for fiscal year 1986 for certain maritime programs of the Department of Transportation and the Federal Maritime Commission, and the first reading of the bill shall be dispensed with. After general debate, which shall be confined to the bill and shall continue not to exceed one hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Merchant Marine and Fisheries, the bill shall be read for amendment under the five-minute rule. At the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House with such amendments as may have been adopted, and the previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit.

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield 30 minutes to the gentleman from Mississippi [Mr. LOTT], and pending that, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 157 is the rule providing for the consideration of H.R. 1157, the authorization of Appropriations for Maritime Programs for Fiscal Year 1986. It is an open rule that provides for 1 hour of general debate to be equally divided and controlled by the chairman and ranking minority member of the Committee on Merchant Marine and Fisheries. The bill shall be read for amendment under the 5 minute rule, there are no waivers of points of order and the rule provides for one motion to recommit.

Mr. Speaker, H.R. 1157 is an annual authorization that permits the appropriation for certain maritime programs administered by the Department of Transportation and the Federal Maritime Commission for fiscal year 1986. H.R. 1157 authorizes $417 million for the Maritime Administration, of this amount $335.1 million would go to the payment of operating differential subsidies. These subsidies are paid to U.S. companies to enable them to operate U.S.-flag ships competitively in the U.S foreign trade by offsetting the excess of U.S. ship operating costs over comparable foreign operating costs.

In addition, H.R. 1157 would authorize $9.9 million for research and development programs that are designed to develop information and technology to improve productivity and operating efficiency in U.S. shipbuilding and ship operating industries. Also, Mr. Speaker, H.R. 1157 would authorize $71.9 million for operating and training programs administered by the Maritime Administration. These funds would be used to pay salaries and other expenses for the operation of the U.S. Merchant Marine Academy and to the six State merchant marine academies. Also H.R. 1157 provides funding for Federal training programs and for national security support programs.

Mr. Speaker, as I stated earlier, this is an annual authorization for worthwhile programs that I have enthusiastically supported over the years. I urge adoption of House Resolution 1157 so that the House will have an opportunity to consider this legislation.

Mr. LOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I send an amendment to the desk and ask unanimous consent for its immediate consideration.

Mr. MOAKLEY. Mr. Speaker, I object.

Mr. LOTT. Mr. Speaker, I wonder if the gentleman would suspend until the Clerk has read the amendment. He might like it.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. MOAKLEY] did not yield for that purpose.

Mr. MOAKLEY. That is right, Mr. Speaker.

Mr. LOTT. This is a unanimous-consent request.

Mr. MOAKLEY. I object to the unanimous-consent request.

The SPEAKER pro tempore. Objection is heard.

Mr. LOTT. Mr. Speaker, are we not going to have the amendment read?

The SPEAKER pro tempore. The gentleman from Massachusetts objected.

Mr. MOAKLEY. I objected, Mr. Speaker.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. MOAKLEY] yielded for purposes of debate only.

PARLIAMENTARY INQUIRY

Mr. WALKER. Parliamentary inquiry, Mr. Speaker.

The SPEAKER pro tempore. The gentleman will state his inquiry.

Mr. WALKER. What has the gentleman from Massachusetts objected to? The amendment has not been read at this point.

The SPEAKER pro tempore. He is objecting to the offering and consideration of the amendment, including the reading.

Mr. WALKER. It was my understanding that the gentleman from Mississippi [Mr. LOTT] simply asked unanimous consent that he be allowed to offer an amendment. The Clerk was about to read the amendment. Could not the gentleman withhold until the amendment at least was read?

Mr. MOAKLEY. Mr. Speaker, if the gentleman yields, I offered time to the gentleman from Mississippi [Mr. LOTT] for the purposes of debate only.

□ 1340

The SPEAKER pro tempore. The Chair has very clearly stated that the Clerk does not have to read the amendment. The gentleman from Massachusetts [Mr. MOAKLEY] objected to the offering of the amendment. The Clerk is under no obligation to read the amendment.

Mr. LOTT. Mr. Speaker, since I have yielded myself such time as I may consume, I would like to read the amendment that I had just sent to the desk and tried to have read and considered as part of this rule:

At the end of the resolution, add the following new paragraph:

SEC. 2. For the remainder of the 99th Congress, whenever the Committee on Rules reports a resolution providing a special order of business for the consideration of any measure or matter, and such resolution proposes to waive any provision of the Congressional Budget Act of 1974 (Public Law 93-344), the report accompanying such resolution shall include an explanation of and justification for any such waiver, and a summary of any comments received from the Committee on the Budget or its chairman with respect to any such waiver.".

Mr. Speaker, I realize that my unanimous-consent request to offer an amendment to this rule was a most unusual one. By way of explanation, let me point out that the proposal to require report language on any proposed waivers of the Budget Act in a rule is one of the items on our House Republican "McIntyre agenda." That agenda is our response to the recent travesty that took place in this House in denying a duly elected and certified Member his rightful seat as a Member. It is a constructive package of House reforms designed to clean up the

House rather than close it down. A better House is the legacy we want to greet Rick McIntyre when he returns to this body in January 1987.

I think this rule is a most appropriate vehicle for the House to make a stand on Budget Act waivers, since this is probably one of the last of the clean, open rules we will see in this session, if not this Congress. This rule is most notable for the fact that it contains no waivers of House rules or of the Budget Act.

But, after this week, all that will change as committees come in with late bills, reported after the May 15 Budget Act deadline for reporting authorization bills. And the Appropriations Committee will begin coming in with spending bills before final action has been completed on a budget resolution. Indeed, the House Budget Committee is already 1 month late in reporting a budget resolution, and this is the week Congress is supposed to have completed action on that resolution. So, we will begin seeing rules containing all manner of Budget Act waivers. We might just as well waive the Budget Act goodbye for all the ignoring, circumventing, and violating we will be doing.

Now, I realize that it would not be practical to impose a total ban on future Budget Act waivers in rules. There are times when technical waivers are necessary, such as when a committee has agreed to offer an amendment to clear up any Budget Act violations in its bill. There are times when more substantive waivers must be agreed to for emergency reasons. And, I suspect as has happened in the past, we will again be asked this year for permission to proceed with the appropriations bills, notwithstanding the lack of a budget resolution.

But it's easy to discern the escalating nature and degree of Budget Act circumvention that has been taking place in recent years—from technical to emergency justifications for waivers, to an outright setting aside of the Budget Act to take major actions. Indeed, in the last Congress, we granted a record high 133 Budget Act waivers, compared to 106 in the 95th Congress. That number represents 70 percent of all rules granted in the 98th Congress, compared with 41 percent in the 95th Congress.

My proposed amendment was designed to enable the House to understand just what is involved in a proposed budget waiver and better determine whether that waiver should be supported. It would require the Rules Committee to explain and justify the waiver in its report on the rule.

I don't think it is too much to ask that a committee justify in a report just what it is proposing the House adopt. After all, we require every other committee to issue a report containing an explanation of the legislation it reports. Why should the Rules Committee be any exception, especially when it comes to such an important matter as the congressional budget process and whether it will be waived or enforced?

I realize that the argument will be offered that the Rules Committee is different; it's a leadership committee; it must be unhindered so it can act with dispatch in an emergency. And on and on go the justifications for its privileged status and immunity from reporting requirements.

But surely the Rules Committee should already have available when it votes to report a rule the explanation and justification for any budget waivers along with any comments from the Budget Committee or its chairman. To put this information in the report on the rule should entail little additional time or effort.

That's all that is being asked by this "McIntyre agenda" amendment. Let's give ourselves better information on how a bill might be violating the Budget Act at the time we consider these rules containing waivers. Maybe—just maybe—committees will be a little more careful about violating the Budget Act in the first place. And maybe—just maybe—we will do a better job of implementing and enforcing a more meaningful and effective congressional budget once again.

COMPARISON OF RULES AND BUDGET WAIVERS GRANTED BY THE RULES COMMITTEE, 95TH THROUGH 98TH CONGRESSES (1977–84)

	Congress			
	95th	96th	97th	98th
Total rules granted (TRG)	256	259	152	190
Budget waivers granted (BWG)	106	127	98	133

EXPLANATION OF SECTIONS OF THE CONGRESSIONAL BUDGET ACT WAIVED BY THE RULES COMMITTEE IN SPECIAL ORDER RESOLUTIONS

(1) Sec. 303(a).—Prohibits the consideration of legislation providing new budget authority, new entitlement authority, or an increase or decrease in revenues or the public debt for a fiscal year, prior to the adoption of the first budget resolution for a fiscal year.

(2) Sec. 303(a)(1).—Prohibits the consideration of legislation providing new budget authority for a fiscal year prior to the adoption of the first budget resolution for that fiscal year.

(3) Sec. 303(a)(4).—Prohibits the consideration of legislation providing new entitlement authority for a fiscal year prior to the adoption of the first budget resolution for that fiscal year.

(4) Sec. 305(a)(1).—Requires a ten-day layover of a budget resolution prior to its consideration.

(5) Sec. 311(a).—Prohibits the consideration of legislation which would cause the new budget authority or outlay ceilings set in the budget resolution to be exceeded, or which would cause the revenue floor to be breached.

(6) Sec. 401(a).—Prohibits the consideration of legislation providing new spending authority unless such authority is effective only to the extent provided for in appropriations acts.

(7) Sec. 401(b)(1).—Prohibits the consideration of legislation providing new spending authority which becomes effective prior to October 1 of the year it was reported.

(8) Sec. 402(a).—Prohibits the consideration of legislation authorizing the enactment of new budget authority not reported by May 15 preceding the start of the fiscal year in which it is to become effective.

Mr. Speaker, it's always a pleasure to be a bearer of good rules, and the rule before us today is indeed a good rule. It's clean, it is open, and it's brief. And I shall attempt to do it the justice it deserves by being brief as well.

Mr. Speaker, the rule before us makes in order the consideration of H.R. 1157, the fiscal 1986 authorization for certain maritime programs in the Department of Transportation, and the Federal Maritime Commission. The rule provides for 1 hour of general debate followed by the consideration of the bill for amendment under the 5-minute rule. Finally, the rule allows for one motion to recommit.

Mr. Speaker, H.R. 1157 authorizes $416.9 million for fiscal year 1986. That's $48.2 million less than the fiscal 1985 appropriation, but it's still $48.2 million more than the administration request. In that regard, the administration's policy statement on this bill says that it does not object to House passage of the bill, but will seek amendments in the other body to bring the funding levels into conformity with the administration's request.

Mr. Speaker, I think it should be pointed out that there are no funds in this bill for construction differential subsidies. Instead, the bulk of the money, $335.1 million, would go for operating differential subsidies. These are moneys paid to U.S. companies to enable them to operate U.S. flagships competitively in the U.S. foreign trade. This is done by offsetting certain portions of the excess of U.S. ship operating costs compared to comparable foreign vessels.

In addition, the bill authorizes $9.9 million for research and development—the same amount requested by the administration; and $71.9 million for operations and training programs—$12.6 million more than requested by the administration for

those purposes. Finally, the bill authorizes $11.9 million for the Federal Maritime Commission which is responsible for administering the basic shipping statutes and settling claims which arise under those laws.

Mr. Speaker, as I mentioned earlier, this is a clean, 1-hour open rule, with no waivers or restrictions. The bill it makes in order was reported unanimously from the Committee on Merchant Marine and Fisheries Committee. I urge the adoption of this rule so that we might proceed with the consideration of the important maritime program authorization for fiscal year 1986.

Mr. Speaker, I have no further requests for time.

Mr. MOAKLEY. Mr. Speaker, yielding myself such time as I may consume, I thank the gentleman from Mississippi for speaking so favorably for our rule. I agree with him, it is a clean rule, it is a pure rule, and that is why I objected to his offering the amendment, because I know there will be other rules that he will not be happy with.

Mr. LOTT. Mr. Speaker, will the gentleman yield?

Mr. MOAKLEY. I yield to the gentleman from Mississippi.

Mr. LOTT. Mr. Speaker, I am sure that the distinguished member of the Rules Committee is very much concerned about the fact that we do not have a Budget Act yet this year, and we are now faced with the prospect of granting a whole number of waivers.

Would the gentleman support an effort in the future to get the Rules Committee to be very strict on these waivers and also include some explanation as to why it is being done?

Mr. MOAKLEY. I would like the gentleman from Mississippi to know that there have been certain amendments that had to be granted. I do not relish granting waivers in certain conditions. I would be glad to work with the gentleman and, in fact, the entire committee in the future, to see if we can tighten the amendment process as much as possible.

Mr. LOTT. I thank the gentleman for that.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 1784, PANAMA CANAL COMMISSION AUTHORIZATION ACT, FISCAL YEAR 1986

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 158 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 158

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1784) to authorize appropriations for fiscal year 1986 for the operation and maintenance of the Panama Canal, and for other purposes, and the first reading of the bill shall be dispensed with. After general debate, which shall be confined to the bill and to the amendment made in order by this resolution and which shall continue not to exceed one hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Merchant Marine and Fisheries, the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider the amendment in the nature of a substitute recommended by the Committee on Merchant Marine and Fisheries now printed in the bill as an original bill for the purpose of amendment under the five-minute rule, each section of said substitute shall be considered as having been read, and all points of order against said substitute for failure to comply with the provisions of clause 7 of rule XVI and clause 5(a) of rule XXI are hereby waived. At the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House with such amendments as may have been adopted, and any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield 30 minutes to the gentleman from Mississippi [Mr. LOTT], pending which I yield myself such time as I may consume.

Mr. Speaker, House Resolution 158 is an open rule providing for the consideration of H.R. 1784, the Panama Canal Commission authorization for fiscal year 1986. The rule provides for 1 hour of general debate to be equally divided and controlled by the chairman and ranking minority member of the Committee on Merchant Marine and Fisheries.

When the bill is considered for amendment under the 5-minute rule, House Resolution 158 provides that it shall be in order to consider the amendment in the nature of a substitute now printed in the bill as original text for the purpose of amendment and that each section of the substitute shall be considered as having been read. The rule further provides waivers of points of order against the substitute for failure to comply with the provisions of clause 7, rule XVI, the germaneness rule, and clause 5, rule XXI, which prohibits appropriations in a legislative bill. Because certain provisions in the substitute reflect amendments adopted at the subcommittee and full committee level which are not germane to the bill as introduced, it is necessary to provide this waiver against the substitute. In addition, two committee amendments incorporated in the substitute also contain expanded uses of previously appropriated funds, thus necessitating the waiver of clause 5, rule XXI against the substitute.

The rule also provides that at the conclusion of the consideration of the bill for amendment, the committee shall rise and report the bill to the House with such amendments as may have been adopted and that any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the amendment in the nature of a substitute. Finally, House Resolution 158 provides that the previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except for one motion to recommit with or without instructions.

Mr. Speaker, H.R. 1784 provides authorization for appropriations of $436.8 million from the Panama Canal Commission Fund for operating and capital expenses of the Panama Canal Commission in fiscal year 1986. This authorization level is $10 million less than requested by the administration, reflecting an amendment adopted by the subcommittee which provides for a direct payment of $10 million to the general U.S. Treasury from those portions of canal revenues collected to pay interest on the U.S. investment in the canal rather than allowing those funds to be deposited in the Canal Commission Fund. The provisions of this subcommittee amendment were adopted by the House last week when H.R. 664 was agreed to under suspension of the rules. In addition, the bill restores certain benefits lost to U.S. citizen employees of the canal upon enactment of the Panama Canal Act of 1979; provides compensation for the nongovernment members of the Panama Canal Commission Board; and finally, deletes a 180-day congressional notice waiting period for property transfers from the Commission to the Republic of Panama.

Mr. Speaker, H.R. 1784 was reported unanimously by the Merchant Marine and Fisheries Committee. The rule recommended by the Committee on Rules is an open rule and was noncontroversial during our committee hearing. I commend the work of the Merchant Marine Committee in bringing this authorization to the floor prior to the May 15 authorization deadline and

51-059 O-86-16 (Pt. 9)

for reporting a bill which enjoys such bipartisan support. Mr. Speaker, I urge adoption of the rule in order that the House may proceed to the consideration of H.R. 1784.

□ 1350

Mr. LOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 158 is an open rule designed to facilitate consideration of a 1-year authorization for the Panama Canal Commission. The rule contains only the waivers necessary in order to permit the bill from the Committee on Merchant Marine and Fisheries to go forward.

Under the provisions of this rule, the amendment reported from the Merchant Marine Committee will be the original text for the purpose of amendment under the 5-minute rule.

The rule provides a waiver of our germaneness rule, clause 7 of rule XVI, against the substitute. The rule also provides a waiver of our rule prohibiting appropriations language in a legislative bill, clause 5 of rule XXI, against the substitute.

Mr. Speaker, there was no controversy about this procedure or the substance of the legislation reported from the Merchant Marine Committee during the hearing conducted by the Rules Committee on Tuesday.

The waivers provided by this rule are necessary because the Committee on Merchant Marine adopted three amendments recommended by the Subcommittee on the Panama Canal, and one amendment at the full committee markup, that are not germane to the bill as introduced.

Mr. Speaker, it is my understanding that the amendments in question were offered by the gentleman from Texas [Mr. FIELDS]; the gentleman from California [Mr. SHUMWAY]; the gentleman from Washington [Mr. LOWRY]; and the gentleman from New York [Mr. CARNEY]; and that they all were unanimously approved during the committee markup.

Mr. Speaker, since enactment of the Panama Canal Act of 1979, the operation of the canal has been under the jurisdiction of the Panama Canal Commission. The canal itself remains of vital importance to U.S. commercial shipping, and to the flow of imports and exports for our Nation's citizens.

The bill made in order by this rule, H.R. 1784, authorizes $436 million in appropriations from the Commission's fund for its activities in 1986.

In addition, the bill provides some very meaningful changes in benefits for the U.S. citizen employees of the Panama Canal Commission, dealing with health care, educational services, travel for vacation leave, and housing property transfers.

Mr. Speaker, I support this rule in order that the House may proceed to consider the legislation.

Mr. Speaker, I yield back the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 1872, DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1986

Mr. FROST, from the Committee on Rules, submitted a privileged report (Rept. No. 99-88) on the resolution (H. Res. 169) providing for the consideration of the bill (H.R. 1872) to authorize appropriations for fiscal year 1986 for the Armed Forces for procurement, for research, development, test, and evaluation, for operation and maintenance, and for working capital funds, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, which was referred to the House Calendar and ordered to be printed.

PANAMA CANAL COMMISSION AUTHORIZATION ACT, FISCAL YEAR 1986

The SPEAKER pro tempore. Pursuant to House Resolution 158 and rule XXIII, the Chair declares the house in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 1784.

□ 1356

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1784) to authorize appropriations for fiscal year 1986 for the operation and maintenance of the Panama Canal, and for other purposes, with Mr. LUKEN in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the first reading of the bill is dispensed with.

Under the rule, the gentleman from Washington [Mr. LOWRY] will be recognized for 30 minutes and the gentleman from Texas [Mr. FIELDS] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Washington [Mr. LOWRY].

Mr. LOWRY of Washington. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, on March 28, 1985, I introduced H.R. 1784, which authorizes appropriations for fiscal year 1986 for the operation and maintenance of the Panama Canal. This bill was cosponsored by 13 other members of the Subcommittee on Panama Canal/Outer Continental Shelf from both sides of the aisle.

The subcommittee marked up H.R. 1784 on April 3 of this year and unanimously supported the bill with three amendments. The first amendment, offered by the Honorable JACK FIELDS, ranking minority member of the subcommittee, reduced the administration request by $10 million. This reduction corresponded with H.R. 664, a bill introduced by Mr. FIELDS, and passed by the House under suspension last Monday, which provides for a direct payment to the United States of $10 million, representing the portion of canal revenues collected to pay interest on the United States' investment in the canal.

The second amendment was offered by Congressman SHUMWAY of California. His amendment provides for certain benefits to American employees of the Panama Canal Commission who lost a number of privileges in October 1984 due to the provisions of the Panama Canal Treaty of 1977. The benefits provided for in section 5 of H.R. 1784 include health care, educational services, and vacation leave travel.

The final amendment was offered by myself and provided an exception to section 1102(b) of the Panama Canal Act of 1979 by allowing non-Government-paid members of the Board of the Panama Canal Commission to receive an allowance for each day during which they are traveling to and from and attending meetings of the board. All three amendments were unanimously approved.

On April 16, the Merchant Marine and Fisheries Committee unanimously approved H.R. 1784 with an amendment in the nature of a substitute incorporating amendments adopted by the subcommittee, along with one full committee amendment offered by Congressman BILL CARNEY of New York. Mr. CARNEY's amendment deleted a 180-day congressional notice waiting period for property transfers from the Commission. The President must still submit a report to Congress with the details of the property transfers, but without the 180-day notice period currently required. The amendment was unanimously approved.

Mr. Chairman, the Panama Canal Commission is unique in that it has its own specific fund in the Treasury. The intent of the Panama Canal Act of 1979 was to ensure that the Canal operate at no cost to the U.S. taxpayers, and it has an unblemished record of meeting that mandate. The canal must operate within a balanced budget and can only be appropriated the amount that it estimates will be collected as revenue by tolls and other fees levied on ships transiting the canal. Tolls are set to recover the costs of operating

and maintaining the canal and are paid into the Panama Canal Commission Fund established in the U.S. Treasury. The Chairman of the Panama Canal Commission Board, the Honorable Bill Gianelli, has expressed his confidence that no increases in tolls are expected through fiscal year 1986.

H.R. 1784 sets an overall funding level of $436,784,000, of which $26,500,000 is designated for capital improvements, and shall remain available until expended.

Passage of this authorization bill would permit the Panama Canal Commission to continue operating the canal efficiently and smoothly, thus benefiting the foreign commerce and national security of the United States.

I would especially like to congratulate the gentleman from Texas, JACK FIELDS, the ranking minority member of the subcommittee for his leadership and hard work on behalf of this authorizing legislation; and the gentleman from California, NORM SHUMWAY, who has demonstrated his concern for the morale and welfare of the American citizens who are employed in Panama by the Panama Canal Commission.

Mr. Chairman, I join with my colleagues on both sides of the aisle in urging passage of H.R. 1784 which was unanimously passed out of the Committee on Merchant Marine and Fisheries.

□ 1400

Mr. FIELDS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of H.R. 1784 and compliment our new subcommittee chairman, Mr. LOWRY of Washington, for his leadership, dedication, and skill in crafting such a fine piece of legislation.

While the House of Representatives has on two separate occasions approved authorizing bills for the Panama Canal Commission, no authorizing legislation has been signed into law since the Commission was created in 1979.

Mr. Chairman, I am confident that this year we can reverse this trend because H.R. 1784 is a bill that can and should be supported by our colleagues.

As I indicated during our subcommittee hearing, I support an authorizing bill because it is important to the people of this Nation that we ensure that the Panama Canal remains an open and efficient waterway.

As a representative of our Nation's third largest port, the Port of Houston, I have a deep appreciation of the importance of the Panama Canal to the international shipping community. It has been estimated that nearly 70 percent of the ocean-going transits through the canal either originate or come from one of our U.S. ports. In many cases these are ports which are located, like Houston, along the gulf coast of the United States.

While there are many Members, including myself, who still have very negative feelings and reservations about the Panama Canal Treaties, we must recognize that the battle over those treaties is over and that the United States has a strategic interest in the Panama Canal.

With the passage of this authorizing legislation, we can ensure that the Panama Canal Commission will continue to operate the canal, at no expense to our taxpayers, smoothly and efficiently in the coming fiscal year.

The Panama Canal Commission is a unique Government agency which is prohibited by law from borrowing money or making a profit which would have to be paid to the Republic of Panama. In addition, the Panama Canal Act of 1979, Public Law 96-70, requires that canal tolls and other revenues cover all of the operating expenses of the Panama Canal Commission.

Mr. Chairman, during consideration of H.R. 1784 several amendments were offered and adopted to improve this proposal.

The first of these amendments, which I authored, reduce the operating budget of the Panama Canal Commission by $10 million. This amendment implemented the provisions of H.R. 664, a bill I have sponsored, which directs that the interest payment on our investment in the canal, which has been estimated at $10 million a year, be paid directly to the general fund of the U.S. Treasury.

Without going into great detail, let me just say that H.R. 664 corrects a serious flaw that exists in the Panama Canal Act of 1979.

Unfortunately, because of certain language contained in Public Law 96-70, our yearly interest payments have been deposited in the Panama Canal Commission Fund instead of the general fund of the U.S. Treasury.

As a result, the Federal Government has been unable to utilize these funds to reduce the deficit, and the level of our investment in the canal has been reduced by some $53.6 million.

H.R. 664 not only corrects this interest problem but it ensures that there will be no further erosion in our investment base.

Mr. Chairman, a second amendment was offered by our distinguished colleague from New York, Congressman BILL CARNEY. This amendment eliminated the 180-day waiting period which is now required before the Panama Canal Commission can transfer certain excess housing units to the Republic of Panama.

This amendment responds to various allegations of vandalism, looting, and unauthorized occupation of these housing facilities that has occurred during the existing statutory waiting period. It has been estimated that this amendment will save the Panama Canal Commission some $104,000 in fiscal year 1986 alone.

A third amendment was offered by our distinguished colleague from California, Congressman NORM SHUMWAY. This excellent amendment, which I strongly supported, implements the equity compensation package for U.S. employees of the Panama Canal Commission.

The recommendations contained within the PCC compensation package are reasonable and fair. While they will not fully offset the loss of commissary, post exchange, and APO postal privileges, the incorporation of this amendment within H.R. 1784 is a very positive benefit for the hard-working and dedicated U.S. employees of the Panama Canal Commission.

Finally, the chairman of the subcommittee offered an amendment which provided long overdue compensation for non-Government members of the PCC Board of Directors for each day during which they are either traveling or attending meetings of the board. This amendment is fully consistent with the way most Federal commissions and boards operate.

Mr. Chairman, because of our committee's action and specifically my amendment, H.R. 1784 is $10 million less than the administration's budget request.

H.R. 1784 is a good piece of legislation and I again compliment our subcommittee chairman, Mr. LOWRY, for his leadership, for his willingness to work with all members of our committee, and for bringing this bill to the House of Representatives in such a timely manner.

I would urge my colleagues to join with me in supporting this authorization bill.

Mr. Chairman, I reserve the balance of my time.

Mr. LOWRY of Washington. Mr. Chairman, I have no further requests for time, and I reserve the balance of my time.

Mr. FIELDS. Mr. Chairman, I yield 3 minutes to the ranking minority member of the full Committee on Merchant Marine and Fisheries, the gentleman from New York [Mr. LENT].

Mr. LENT. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of H.R. 1784, the fiscal year 1986 Panamana Canal authorization bill.

As the former ranking minority member of the Subcommittee on Panama Canal/Outer Continental Shelf, and as the ranking minority member of the House Committee on Merchant Marine and Fisheries, I am fully aware of the issues surrounding the Panama Canal legislation. For this reason, I would like to commend the chairman of the subcommittee on the

Panama Canal and Outer Continental Shelf, the gentleman from Washington [Mr. LOWRY], and the ranking minority member, the gentleman from Texas [Mr. FIELDS], for their judicious action in marking up and reporting this bill.

While there were four amendments that were adopted in committee to the bill, there were no dissenting voices on the legislation and the bill was overwhelmingly reported by both the subcommittee and the full committee.

Mr. Chairman, H.R. 1784, as amended, is supported by the administration, and I urge my colleagues to join me in voting for its passage.

Mr. FIELDS. Mr. Chairman, I yield 5 minutes to the gentleman from California [Mr. SHUMWAY].

Mr. SHUMWAY. I thank the gentleman for yielding this time to me.

Mr. Chairman, as we all know, the Panama Canal Treaty terminated the U.S. commissary, PX, and APO mailing system privileges which our 900 U.S. Canal Commission employees have historically enjoyed. This termination, which took place last September 30 and the anticipation of this loss, has caused a great deal of anxiety for our U.S. employees. In so doing, our work force's morale has declined and, in many instances, the loss of these privileges has tempted our employees to leave their service in Panama.

The strategic importance of Panama and the canal to our country's national and commercial security is without question. As a result, we must do everything we can to both ensure that our highly skilled U.S. work force remains in place to help operate the canal and to make certain that this loss of privileges does not threaten the existence of our work force. The Merchant Marine and Fisheries Committee and the Congress have recognized this need in the past. For example, last year we passed the Panama Canal authorization bill which included a section specifically authorizing such "compensation as is determined necessary to offset the loss of services."

In response to this legislation, the Panama Canal Commission has put together a package of benefits which is designed to help offset this loss of privileges. My amendment, which I offered and which was accepted by the committee, gives the Panama Canal Commission the authority to implement much of this compensation package. Specifically, my amendment:

Increases the educational travel stateside—from one trip to two—for dependents of a U.S. employee of the Panama Canal Commission;

Provides the authority for the Commission to pay the expenses of vacation leave travel for a U.S. employee and his family from the employee's post in Panama to his residence in the United States;

Allows for the payment of health care services for elderly or disabled persons if they were eligible to receive such benefits prior to the effective date of the Panama Canal Act of 1979; and, finally,

Allows for the payment for educational services provided by schools in the Republic of Panama, which are not operated by the United States, to employees of the Commission who were receiving such services prior to the effective date of the Panama Canal Act of 1979.

Mr. Chairman, the estimated cost of these specific benefits to the Panama Canal Commission is approximately $1.65 million. However, it is important to note that this money comes from canal toll receipts, not from the General Treasury. I am also pleased to say that the administration officially supports this compensation package.

Mr. Chairman, I have recently been to Panama and observed, first hand, the positive effect that the announcement of this compensation package has had on our U.S. employees and am confident in saying that it will—and to a large degree already has—helped our national interest by helping our U.S. citizen employees. As a result, I strongly urge the retention of this amendment in the bill.

□ 1410

Mr. LOWRY of Washington. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. FIELDS. Mr. Chairman, I have one further request for time. I yield 2 minutes to the gentleman from Alabama [Mr. CALLAHAN].

Mr. CALLAHAN. Mr. Chairman, I rise in support of the bill.

I know there are lingering deep feelings that the United States was wrong in ratifying the Panama Canal Treaties and giving up this strategic waterway. I, for one, feel strongly that we made a serious mistake. However, the treaties are a reality and we should not confuse this authorization bill with any perceived support of the treaties that are now past history.

The funds authorized by H.R. 1784 will not be drawn from general revenues but from tolls paid to the Panama Canal Commission. It is in the United States' best interest to see that the canal is properly maintained and operated. Some 70 percent of the traffic through the Panama Canal is destined to or traveling from U.S. ports. The canal's strategic importance to our military vessels is unquestionable.

I urge my colleagues to support America's interests in the canal and vote for H.R. 1784.

Mrs. BENTLEY. Mr. Chairman, I rise in support of H.R. 1784, the Panama Canal fiscal year 1986 authorization bill, and urge my colleagues to vote for final passage.

I would like to point out to my colleagues that not only is the Panama Canal of great importance militarily to the United States because of the passage of our military vessels, but that over 70 percent of the traffic through the canal is either bound for, or traveling from, U.S. ports. I would also like to point out to my colleagues from coastal States in the Gulf of Mexico and the east coast that further expansion of the capacity of the canal, which is currently undergoing a three-nation study, could result in significant increased traffic for our ports. For these reasons, the continued maintenance and smooth operation of the canal is in our vested interest.

The authorized appropriation of $436.8 million contained in H.R. 1784 for fiscal year 1986 is based solely on tolls and other fees collected by the Panama Canal Commission from its customers. This figure is $10 million less than requested by the administration because of a bill introduced by my friend from Texas [Mr. FIELDS]. His bill ensures that the interest payment on the U.S. investment in the Panama Canal of $10 million will automatically be deposited annually into the U.S. Treasury. It is not often that Congress passes legislation that increases revenues to the U.S. Treasury without increasing taxes.

Mr. Chairman, H.R. 1784 has been thoroughly studied by the Panama Canal/OCS Subcommittee of which I am a member, as well as by the full Merchant Marine and Fisheries Committee, and there was not a dissenting voice during its consideration.

The administration does not oppose this bill, and I urge my colleagues to join with me in voting for passage of H.R. 1784.

● Mr. FRANKLIN. Mr. Chairman, I rise in support of H.R. 1784, the Panama Canal authorization bill. I have joined my colleague from Washington, the distinguished chairman of the subcommittee [Mr. LOWRY] as a cosponsor of the bill, and I commend the gentleman for the expeditious manner in which the bill has been brought to the House.

In light of the ever-present deficit, I must point out to my colleagues that this authorization requires zero outlay from the Federal Treasury. According to the Panama Canal Act of 1979, the canal operates at no cost to the American taxpayer. Congress' role is to authorize the appropriation for the canal, but all of the revenues to fund that appropriation come from the tolls and fees that are collected from the ships who use the facility. Therefore, enactment of this legislation has no budgetary impact whatsoever.

Being from Mississippi, I recognize the special importance the canal has

to my State and to all of the ports along the gulf coast. In fiscal year 1984, over 50 percent of all ships that transited the canal were either departing from or destined to U.S. ports. These ships carry cargo ranging from iron and steel, crude oil, and food products to raw agricultural materials. The benefits realized from this trade are felt throughout the gulf coast region and the entire Nation.

I had the pleasure of visiting the Canal Zone for the first time late last year, and I was very impressed by the smooth and efficient operation of the canal as well as the relationship that exists between our American employees and the native Panamanians. It is imperative that these desirable conditions continue. An ongoing favorable working relationship with Panama is essential for economic as well as strategic considerations.

The canal must be kept in top working condition both for its day-to-day operation and for the important role it plays in the strategic defense of this country. The authorization in this legislation will allow the Panama Canal Commission to make many repairs and improvements that are vital to both interests.

Mr. Chairman, again I commend the chairman of the subcommittee [Mr. LOWRY] and the ranking minority member of the subcommittee [JACK FIELDS] for their work on this legislation and urge prompt approval of H.R. 1784.●

Mr. FIELDS. Mr. Chairman, I have no further requests for time.

The CHAIRMAN. The Chair understands that the gentleman from Washington [Mr. LOWRY] has yielded back the balance of his time.

Pursuant to the rule, the committee amendment in the nature of a substitute now printed in the reported bill shall be considered as an original bill for the purpose of amendment, and each section shall be considered as having been read.

The Clerk will designate section 1.

The text of section 1 is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Panama Canal Commission Authorization Act, Fiscal Year 1986".

Mr. LOWRY of Washington. Mr. Chairman, I ask unanimous consent that the remainder of the committee amendment in the nature of a substitute be printed in the RECORD and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Washington?

There was no objection.

The text of the remainder of the committee amendment in the nature of a substitute, beginning with section 2, is as follows:

SEC. 2. OPERATING EXPENSES.

There is authorized to be appropriated from the Panama Canal Commission Fund to the Panama Canal Commission (hereafter in this Act referred to as the "Commission") for the fiscal year beginning October 1, 1985, not more than $436,748,000, for necessary expenses of the Commission incurred under the Panama Canal Act of 1979 (Public Law 96-70; 22 U.S.C. 3601 et seq.), including expenses for—

(1) the hire of passenger motor vehicles and aircraft;

(2) the purchase of passenger motor vehicles as may be necessary for fiscal year 1986, the number and price of which may not exceed the amount provided in appropriation Acts; except that large heavy duty passenger sedans used to transport employees of the Commission across the Isthmus of Panama may be purchased for the first year 1986 without regard to price limitations set forth in applicable regulations of any department or agency of the United States;

(3) official receptions and representation expenses, except that not more than $33,000 may be made available for such expenses, of which (A) not more than $8,000 may be made available for such expenses of the Supervisory Board of the Commission, and (B) not more than $25,000 may be made available for such expenses of the Administrator of the Commission;

(4) the procurement of expert and consultant services as provided in section 3109 of title 5, United States Code;

(5) a residence for the Administrator of the Commission;

(6) uniforms, or allowances therefor, as authorized by sections 5901 and 5902 of title 5, United States Code;

(7) disbursements by the Administrator of the Commission for employee recreation and community projects; and

(8) the operation of guide services.

SEC 3. CAPITAL OUTLAY.

Of any funds appropriated pursuant to section 2 of this Act, not more than $26,500,000 (which is authorized to remain available until expended) may be made available for the acquisition, construction, replacement, and improvement of facilities, structures, and equipment required by the Commission.

SEC. 4. AUTHORIZATION OF ADDITIONAL APPROPRIATIONS.

In addition to the amount authorized to be appropriated by section 2 of this Act, there are authorized to be appropriated to the Commission for the fiscal year 1986 such amounts may be necessary for—

(1) increases in salary, pay, retirement, and other employee benefits provided by law;

(2) covering payments to Panama under paragraph 4(a) of article XIII of the Panama Canal Treaty of 1977, as provided by section 1341(a) of the Panama Canal Act of 1979 (22 U.S.C. 3751(a)); and

(3) increased costs for fuel.

SEC 5. BENEFITS FOR CERTAIN EMPLOYEES.

(a) EDUCATIONAL TRAVEL BENEFITS.—Section 1207(b)(2) of the Panama Canal Act of 1979 (22 U.S.C. 3647(b)(2)) is amended by striking out "one round trip" and inserting in lieu thereof "two round trips".

(b) TRAVEL AND TRANSPORTATION EXPENSES.—

(1) EXPENSES ALLOWABLE.—Subchapter I of chapter 2 of title I of the Panama Canal Act of 1979 (22 U.S.C. 3641 et seq.) is amended by adding at the end thereof the following:

"TRAVEL AND TRANSPORTATION EXPENSES

"Sec. 1210. The Commission may pay the expenses of vacation leave travel for an employee of the Commission to whom section 1206 of this Act applies and for transportation of employee's family from the employee's post of duty in Panama to the place of the employee's actual residence at the time of appointment to the post of duty. The authorization of expenses under this section shall be in accordance with subchapter II of chapter 57 of title 5, United States Code, and the regulations issued under that subchapter, except that the Commission may prescribe required periods of service notwithstanding section 5722 of title 5, United States Code, and the regulations issued under subchapter II of chapter 57 of such title.".

(2) CLERICAL AMENDMENT.—The table of contents of the Panama Canal Act of 1979 is amended by inserting after the item relating to section 1209 the following:

"1210. Travel and transportation expenses.".

(c) USE OF APPROPRIATIONS FOR HEALTH CARE AND EDUCATIONAL SERVICES.—Section 1321(e) of the Panama Canal Act of 1979 (22 U.S.C. 3731(e)) is amended to read as follows:

"(e) The appropriations or funds of the Commission, or of any other department or agency of the United States conducting operations in the Republic of Panama, shall be available to defray the cost of—

"(1) health care services to elderly or disabled persons wo were eligible to receive such services before the effective date of this Act, less amounts payable by such persons, and

(2) educational services provided by schools in the Republic of Panama, which are not operated by the United States, to employees of the Commission who are citizens of the United States and persons who were receiving such services at the expense of the Canal Zone Government before the effective date of this Act.".

SEC. 6. COMPENSATION FOR NON-GOVERNMENT BOARD MEMBERS.

Section 1102(b) of the Panama Canal Act of 1979 (22 U.S.C. 3612(b)) is amended in the last sentence by inserting immediately before the period at the end thereof the following: ", except that, in addition to such travel or transportation expenses, members of the Board who hold no other office with either the Government of the United States or the Republic of Panama for which they receive pay are authorized to be compensated at the daily equivalent of the annual rate of basic pay in effect for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code, for each day during which they are traveling to or from or attending meetings of the Board as provided in subsection (c) of this section".

SEC. 7. NOTIFICATION OF TRANSFER OF PROPERTY.

Section 1504(b) of the Panama Canal Act of 1979 (22 U.S.C. 3784(b)) is amended in the second sentence by striking out "At least 180 days before" and inserting in lieu thereof "Before".

AMENDMENT OFFERED BY MR. WALKER

Mr. WALKER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WALKER: At the end of the bill add the following new section:

SEC. 8. It is the sense of Congress that the fiscal year 1986 expenditures of the Panama

Canal Commission be frozen at the levels approved for fiscal year 1985 ($429,846,000) and that all possible steps be taken to assure that any savings resulting from this action accrue to the general funds of the Treasury as miscellaneous receipts.

Mr. WALKER. Mr. Chairman, for want of a better title, this is a freeze amendment, but it is a complicated freeze amendment, more so than we have faced in the past.

The problem with this particular bill, as I am now to understand it, is that if we froze the appropriation at the authorization level, at last year's 1985 level, as such with a straight amendment, we would end up giving $7 million in essence to the Government of Panama. That is not this gentleman's intent. I want to shave a little bit of money off the spending that the Federal Government does and try to give the taxpayers of this country a break.

So we have drafted the amendment as a sense-of-the-Congress kind of thing which is aimed at trying to get around the problem that evidently the treaties give to us here. There were a lot of us who thought the treaties were not such a good idea back several years ago when they were passed. When I run into complications like the one I found on the floor today when I attempted to offer a mere freeze, I become convinced that we were right at that point, that these treaties never should have been passed. And here is a good reason why, because what it amounts to is if we save money, if we in the Congress save some money here, we do not get the advantage of it; we give the money to Panama. That is crazy. We ought to be doing something to make certain that if we can save some money in this Congress out of the tolls being collected, we get the benefit of those savings and the taxpayer is the one that gets helped because of it. But we cannot do that on the floor this afternoon. I cannot offer an amendment that does that because that is a part of the treaties.

So what this particular amendment says is that we are expressing our sense that that is where the authorization level should be, at last year's freeze level, at $429 million, and that all steps should be taken to see to it that if we implement that level, we are in fact going to get the money back into the general Treasury and, therefore, help American taxpayers.

I have talked to the gentleman from Washington about this and I have talked to the gentleman from Texas about it, and both of them have told me—and I think it is absolutely right—that we are probably going to have to amend the treaty in order to carry out this amendment. I understand that, and I am fully prepared to have that done, I would tell both the gentleman from Washington and the gentleman from Texas. As a matter of fact, there are a lot of conservatives who would like to reopen the question of the treaties, and I think maybe it ought to be done, and if this is one vehicle aimed at doing that, I think that is just fine. If we can do it by the freeze and we can reopen the treaties with the idea of saving the American taxpayer some money, I think that is exactly the direction we ought to go.

But I think it is important that in this bill we address ourselves to the issue of a freeze in some way. That is what this amendment is aimed at doing, because we have come out here with bill after bill after bill and we have said, "Well, we are going to freeze." Then all of a sudden along comes the Panama Canal and we say, "Oh, no, that is complicated. We can't do it on that one."

I just do not buy that. I do not buy that, and I am personally not willing to tell my constituents or tell the American people that we can freeze money for NASA, we can freeze money for NSF, and we can freeze money here and we can freeze money there, but we cannot do it when it comes to the Panama Canal because we have some other things to consider there. I think at the very least we ought to say it is the sense of the Congress that we put in a freeze level and then take those steps that are necessary, and if that involves the President and the State Department going to Panama and saying that they have got that kind of command from Congress, then I think we ought to take that step, because if we are going to commit ourselves to a freeze, we ought to commit ourselves to a freeze, period, and not a freeze that is there when we do the easy things, but when it gets tough and it gets complicated, we back off.

So, Mr. Chairman, what we are doing with this amendment is saying that we should try it and we should take the steps that are necessary in order to try to implement a freeze at 1985 spending levels.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I am glad to yield to the gentleman from New York.

□ 1420

Mr. LENT. Mr. Chairman, I thank the gentleman for yielding.

I have read the gentleman's amendment. It seems to be harmless enough. I just would like to get assurances from the gentleman that if the amendment is adopted, it is not the gentleman's intention that any of the funds that might be saved as a result thereof would go to the Government of Panama, they would stay in the U.S. Treasury.

Mr. WALKER. Well, I want to assure the gentleman that that is absolutely correct. That is what this amendment is attempting to do.

It is my understanding that if we would have passed a mere freeze amendment, that the result of that could have been to give almost a bonus payment to the Government of Panama of $7 million. I do not want to do that.

I have drafted this amendment in a way to assure that if we are able to achieve this freeze, it is done in such a way that the money comes into the general fund of the U.S. Treasury and therefore benefits American taxpayers.

Mr. LOWRY of Washington. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I would be glad to yield to the gentleman from Washington.

Mr. LOWRY of Washington. Mr. Chairman, the gentleman may be sincere in what he is saying to the ranking minority member from New York. There is no doubt but what it would result in $7 million more going to Panama and could not possibly go to the U.S. Treasury under the treaty.

The CHAIRMAN. The time of the gentleman from Pennsylvania has expired.

(By unanimous consent, Mr. WALKER was allowed to proceed for 2 additional minutes.)

Mr. WALKER. Well, I would say to the gentleman that is precisely the reason for stating the amendment the way it is. We say that is the sense of Congress that the expenditure level be frozen. It does not freeze them as such because it simply expresses that that is our sense and then it says that all possible steps be taken to ensure that any savings resulting from this action accrue to the general fund of the Treasury for miscellaneous receipts.

Those two are directly tied together in a sense-of-the-Congress type of approach.

I would say to the gentleman that we would expect that the gentleman's committee and the Department of State, the President and everybody else, would seek to implement this amendment as stated, that we are going to achieve a freeze level that in fact gives the benefits to the American taxpayers and not to Panama. That is what we are trying to achieve here.

Mr. LOWRY of Washington. Mr Chairman, will the gentleman yield further?

Mr. WALKER. I am glad to yield to the gentleman.

Mr. LOWRY of Washington. Mr. Chairman, I thank the gentleman for yielding.

Would the gentleman agree that the only way that could be done would be that the President renegotiate the Panama Canal Treaty, because under the existing Panama Canal Treaty this money would have to go to Panama, so in essence what the sense of Congress is doing is telling the President of the United States to go to Central America, renegotiate the Panama Canal

Treaty, which is something that the Panamanians would strongly oppose; so that this sense of Congress, to go along, that is what the gentleman is asking to do.

The gentleman is asking the President to go and make that negotiation; is that correct? Does the gentleman agree? First of all, can you change treaties without the President doing that?

Mr. WALKER. Well, Mr. Chairman, if the gentleman will allow me to answer, the President does not have to do anything about the whole Panama Canal Treaty. All he would have to renegotiate is that section which gives bonus payments to the Government of Panama. It seems to me that that is one of those things that we might want to take a look at.

We are faced with $200 billion worth of deficits. Why should we be a party to a treaty that is taking receipts that otherwise might come to the Federal Government and give bonus payments to the Government of Panama with them?

I think that some of that money ought to be coming back to the American taxpayers and if the President is instructed by Congress to negotiate in that manner, I think that is an extremely responsible way for Congress to proceed.

Mr. LOWRY of Washington. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, regardless of what is stated on that side of the aisle, section 13(c) of the Panama Canal Treaty specifically says that revenues from the tolls and fees—that is the only place they come from—from the tolls and fees that are in excess, go into a contingency that up to a maximum of $10 million will be paid directly to the Government of Panama.

So the effect of the amendment of the gentleman from Pennsylvania has only one effect, which is to increase the foreign aid of this country to Panama from the $500 million we are presently giving, by at least another $7 million. That is simply it.

Now, the gentleman states that the President may want to renegotiate the treaty. Well, it is pretty obvious when you look at the elements of the treaty, that the contingency payment to Panama was very important to Panama and we really would be asking the President of the United States to accomplish something that is absolutely impossible to accomplish and even more important, is wrong.

So what the effect of the amendment of the gentleman from Pennsylvania does is to take the tolls and the fees—there is not one dime of U.S. taxpayer money involvement—take the tolls and fees which are supposed to be used to maintain the efficiency of the Panama Canal; 80 percent of the traffic which originates or ends in U.S. ports—take that money and instead of using it for the maintenance of the canal, pay it to Panama.

Now, that is the only effect of the gentleman's amendment. I strongly urge the body to reject the gentleman's amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Pennsylvania [Mr. WALKER].

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. WALKER. Mr. Chairman, I demand a recorded vote, and pending that, I make the point of order that a quorum is not present.

The CHAIRMAN. Evidently, a quorum is not present. Pursuant to the provisions of clause 2, rule XXIII, the Chair announces that he will reduce to a minimum of 5 minutes the period of time within which a vote by electronic device, if ordered, will be taken on the pending question following the quorum call. Members will record their presence by electronic device.

The call was taken by electronic device.

The following Members responded to their names:

□ 1440

The CHAIRMAN. Four hundred eleven Members have answered to their names, a quorum is present, and the Committee will resume its business.

RECORDED VOTE

The CHAIRMAN. The pending business is the demand of the gentleman from Pennsylvania [Mr. WALKER] for a recorded vote. Five minutes will be allowed for the vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 241, noes 173, not voting 20, as follows:

[Roll No. 110]

Messrs. TRAXLER, CARNEY, and HUTTO changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. If there are no other amendments, the question is on the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. GEPHARDT] having assumed the chair, Mr. LUKEN, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 1784) to authorize appropriations for fiscal year 1986 for the operation and maintenance of the Panama Canal, and for other purposes, pursuant to House Resolution 158, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on the amendment to the committee amendment adopted by the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. LOWRY of Washington. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 1784, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

AUTHORIZATION FOR APPROPRIATIONS OF MARITIME PROGRAMS FOR FISCAL YEAR 1985

The SPEAKER pro tempore. Pursuant to House Resolution 157 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 1157.

□ 1455

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1157) to authorize appropriations for fiscal year 1986 for certain maritime programs of the Department of Transportation and the Federal Maritime Commission, with Mr. SAM B. HALL, JR., in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the first reading of the bill is dispensed with.

Under the rule, the gentleman from North Carolina [Mr. JONES] will be recognized for 30 minutes and the gentleman from Kentucky [Mr. SNYDER] will be recognized for 30 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I appreciate the promptness with which the leadership has scheduled consideration of the maritime authorization, H.R. 1157. I would also like to thank the Rules Committee for its expeditious and favorable treatment of our request for a rule making in order the consideration of this vital legislation.

H.R. 1157 is a bill to authorize appropriations for fiscal year 1986 for certain maritime programs of the Department of Transportation and the Federal Maritime Commission.

The Maritime Administration authorization is for just less than $417 million, a decrease of about $48 million from the fiscal 1985 appropriation. The Federal Maritime Commission authorization is for some $11.9 million, $352,000 less than appropriated for fiscal 1985. At the same time these authorizations are slightly higher than those proposed by the administration. The additions include, for both agencies, the restoration of the 5-percent salary cut for civil servants. The balance of the $48 million differences between the administration's and the committee's MARAD authorization reflects: First, restoration of speculative savings which would require legislation or rulemaking yet to be seen; second, the inclusion of previously authorized sums ($8.5 million) for State school training vessel replacement the administration seeks to defer; and third, $3 million for school ship fuel oil as previously mandated.

This bill is a true authorization, and does not and should not be burdened with any legislative proposals to affect substantive law. Since this is the fifth year in a row that authorization levels are lower than amounts appropriated in each of the previous years, we ask you to note, with us, that substantial changes are taking place in the maritime field, changes of such magnitudes that they require consideration as part of a complete review of maritime policy.

The Committee on Merchant Marine and Fisheries has embarked on a thorough investigation into all aspects of the promotional program administered by the Maritime Administration. With the cooperation of the other Members of this body and of the maritime industry itself, we hope to present to the House those changes which will make our merchant marine a more competitive and efficient fleet. In the meantime, the bill before us is the bare minimum for the continued operation of the U.S.-flag merchant marine, and I ask your support in authorizing those funds provided in H.R. 1157.

□ 1500

Mr. Chairman, I yield such time as he may consume to the gentleman from New York [Mr. BIAGGI], chairman of the subcommittee.

Mr. BIAGGI. I thank the chairman for yielding this time to me, and I commend him for his leadership in this matter, as well as the ranking minority members, the gentleman from Kentucky [Mr. SNYDER] and the gentleman from New York [Mr. LENT].

Mr. Chairman, I rise in support of H.R. 1157. This is a routine annual authorization bill that permits the appropriation of funds for certain maritime programs administered by the Maritime Administration, an agency within the Department of Transportation. The programs are related to the development of the foreign and domestic commerce of the United States and to the national defense through an adequate and capable U.S.-flag merchant marine.

This bill also authorizes funding for the Federal Maritime Commission, an independent agency, whose major responsibilities include the regulation of ocean carriers, shippers, terminal operators, and freight forwarders operating in the ocean commerce of the United States.

I am pleased to state that we have been able to report a bill free of nonfiscal amendments. It is my sincere desire—and those of us on the Committee on Merchant Marine and Fisheries on both sides of the aisle—to keep this legislation free of nonfiscal matters and controversial issues that require in-depth review and consideration.

The bill, as reported, includes the following amounts for the Maritime Administration: $335.1 million for operating-differential subsidies; $9.9 million for research and development; and $71.9 million for operations and training.

This totals $416.9 million—about 10 percent less than what was appropriated for fiscal year 1985.

In the Operating-Differential Subsidy Program, the committee's authorization is $35.6 million higher than the administration budget request. The administration presupposed that savings would be realized through the adoption of administrative, regulatory, or legislative changes in the ODS Program. Though the committee has not received detailed information concerning the changes to be proposed, it is apparent that their implementation is uncertain. Therefore, they are not reflected in the committee bill.

There are also several differences in the funding levels for the Operations and Training Program.

H.R. 1157 authorizes $3 million for fuel oil for State training vessels. This amount is not included in the President's budget.

The administration has requested deferral authority for $8.5 million to defray O&T costs in fiscal year 1986. This money was appropriated in the last Congress for replacement of the New York State Maritime Academy training ship. The committee bill assumes that the deferral request will be denied.

The administration's request presupposes that legislation will be enacted for a 5-percent reduction in Federal employee compensation beginning on January 1, 1986—with a projected $1.16 million in savings. Since approval of this measure is speculative, the committee bill does not reflect these cost reductions.

Section 2 of the bill contains an authorization of $11.9 million for the Federal Maritime Commission. This is $334,000 more than the administration's request. The difference can be attributed to the administration's assumption that a 5-percent reduction in Federal employee compensation will be achieved.

I believe this legislation is reasonable and enjoys bipartisan support. The programs being funded will provide economic benefits far in excess of the proposed expenditures. As a component of the Federal budget, it should have a positive impact upon our economy. It deserves your support.

Mr. JONES of North Carolina. Mr. Chairman, I yield 4 minutes to the gentleman from Massachusetts [Mr. DONNELLY].

Mr. DONNELLY. I thank the chairman for yielding time to me.

Mr. Chairman, I rise in support of H.R. 1157, which authorizes programs of the Maritime Administration and the Federal Maritime Commission. This bill is clean, and contains no controversies of which I am aware. It does not seek to change in any way existing Federal statutes.

The Maritime Administration is responsible for promoting, developing, and maintaining the American merchant marine for domestic and foreign trade and for defense requirements. Unfortunately, those lofty goals are totally divorced from the present reality.

American flagships carry an ever-shrinking share of our trade cargoes. A growing portion of American shipyards face mounting layoffs and the very real possibility of closure. These claims are not rhetorical. Less than 5 percent of U.S. exports and imports are carried in ships flying the American flag, and staffed by U.S. citizen crews. Vice Admiral Rowden, commander of the Military Sealift Command, recently stated that:

> As the 600-ship Navy becomes a reality, the privately owned U.S. Merchant Marine has slipped to just 500 ships, and almost one-quarter of them are laid up. For the first time in U.S. history, our gray-hulled Navy outnumbers the merchant fleet.

In the last 2 years, four major U.S. shipyards considered part of the Nation's active shipbuilding base have closed their gates. That base is determined by Navy planners as vital to our Nation's ability to construct and make extensive repairs and modifications to Navy and commercial sealift ships in time of war or national emergency.

Since 1982, our country's active shipbuilding base has shrunk from 27 to 23 yards. There is little doubt that base will decline even further as yards face stagnant demand for new commercial ships, and fierce competition for the few remaining near-term Navy noncombatant ship program. At present, there are no commercial foreign-trade ships under construction in American shipyards. By the end of this year, only five ships for coastwise carriage will still be under construction in U.S. yards.

The decline of America's seagoing and commercial shipbuilding industries is a national crisis. The major shipyards that have closed in the last 2 years have not been limited to one geographical region of the country. They have closed in Texas, Maryland, and in Ohio. Yards in Florida, Washington State, Maryland, and in my home district in Massachusetts, are nearing completion of their current construction and conversion projects. It is clearly in the national interest that a large, geographically dispersed shipbuilding base be maintained. It is clearly in the national interest that a skilled shipbuilding work force be maintained. Navy shipbuilding programs alone will not maintain those national assets, nor is it desirable for American flagships to be built in Korea and Japan. In time of national crisis, we should not have to rely on the uncertain shipbuilding and repair capabilities of other countries. I do not believe the American people will be comfortable with that scenario. They want American ships to be built in the United States and crewed by American citizens.

I raise these troubling facts because something must be done, and done soon, to reverse the dangerous decline of the U.S.-flag fleet and our domestic shipbuilding base. The Soviets have not lost sight of the critical importance of maintaining a large, diverse national flag fleet and shipyard base. In fact their fleet now consists of 1,750 ships, and their shipyards have dramatically increased their output and quality levels.

I commend Chairman JONES for his untiring advocacy on behalf of the American merchant marine, and I look forward to working with him and the committee in the months ahead to devise policies that will bring a resurgence in America's seagoing flag fleet and shipyards. If the administration and Congress fail to take decisive action to reverse the decline of our merchant marine, the consequences of such inaction could well be disastrous.

Mr. JONES of North Carolina. Mr. Chairman, I reserve the balance of my time.

Mr. SNYDER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chariman, I rise in support of H.R. 1157, a bill to authorize appropriations for fiscal year 1986 for the Maritime Administration and the Federal Maritime Commission.

Mr. Chairman, H.R. 1157 is a straightforward, clean authorization bill, unencumbered by the types of legislative provisions which have led to controversy in 3 of the last 4 years. Members may recall that last year's bill was the first successfully enacted into law during that time period, and it is the committee's intent that H.R. 1157 follow suit.

H.R. 1157 contains a certain symmetry in the numbers for the Maritime Administration: $48 million above the President's fiscal year 1986 budget request; and $48 million below the fiscal year 1985 appropriation. The authorization figure for the Federal Maritime Commission is $334,000 above the President's request, but is likewise less than fiscal year 1985's appropriated amount.

The primary reason that this bill exceeds the President's budget request is that the committee has chosen not to legislate on blind faith—that is, in the belief that $35.6 million in savings in the Operating Differential Subsidy [ODS] Program which were assumed in the budget will, in fact, occur. There's little question that the committee supports, in concept, the idea of streamlining the ODS system and at the same time promoting a more competitive U.S. merchant marine in the foreign commerce. Yet, in this particular instance, the assumed savings are contingent upon variables outside the committee's control, and therefore are not incorporated into H.R. 1157.

The remainder of the dollar differences between the administration request and the committee bill have already been explained by the subcommittee chairman, the gentleman from New York, and I will not repeat them here.

I do admit to a certain sense of mystery as to why the Merchant Marine Subcommittee and the full Committee on Merchant Marine and Fisheries continue to insist upon reporting authorization bills with $3 million in fuel assistance funds for State maritime academy training vessels. Although this practice has become almost routine, I question its necessity when we in the Congress are fighting daily battles over deficit reduction measures while according to the Congressional Research Service, the five States in which the benefited academies are located show estimated end of fiscal year 1985 balances in their treasuries ranging from $22 to $985 million. Perhaps the Appropriations Committee will take notice during its deliberations.

Those reservations aside, Mr. Chairman, H.R. 1157 is responsible legislation worthy of Members' support, and I urge its adoption.

□ 1510

Mr. Chairman, I yield such time as he may consume to our ranking member of the full committee, the gentleman from New York [Mr. LENT].

Mr. LENT. I thank the gentleman for yielding time to me.

Mr. Chairman, it is a pleasure for me to rise on the floor of the House today in support of H.R. 1157, the maritime authorization bill. The chairman of our committee, the gentleman from North Carolina, Hon. WALTER B. JONES, explained to my colleagues this legislation before us today, so I do not propose to go into great detail about the programs that would be funded under this bill.

I do want to indicate my support of this legislation. It was thoroughly studied by the chairman of our Merchant Marine Subcommittee, the gentleman from New York, Hon. MARIO BIAGGI, and our ranking member of the subcommittee, the gentleman from Kentucky, Hon. GENE SNYDER. This legislation represents a bipartisan effort to address the needs of the Maritime Administration and the Federal Maritime Commission and the maritime industries that are dependent upon these two agencies.

The committee carefully considered the budget request of the administration and, with some exceptions, agreed that the President's budget was a realistic one for these maritime programs. Our committee did not accept three proposals that were suggested by the administration as a means of reducing the level of funding for the operating-differential subsidy program. I believe that the proposals which—according to the administration would save $36 million—need further study. Our reasons for not acting on these proposals is, quite simply, that the testimony received during our committee hearings and other supporting information do not confirm that, indeed, these savings would occur. The ideas appear to have some merit, but, in one case, at least, it is conceivable that reducing the funding level for operating subsidies could lead to bankruptcies for some vessel operating companies. If that occurred, it would require the Government to pay off guaranteed loans on vessels in amounts that could exceed any possible budget savings.

Even without making the program reductions proposed by the administration, this legislation is definitely financially responsible in the context of the economic problems that we have

before us. This bill authorizes almost $50 million less for the Maritime Administration than was enacted in fiscal year 1985, and approximately $685,000 less for the Federal Maritime Commission.

Mr. Chairman, I am pleased to support this legislation and urge all of my colleagues to do likewise.

Mr. SNYDER. Mr. Chairman, I have no further requests for time, and I yield back to the balance of my time.

Mr. JONES of North Carolina. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

H.R. 1157

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That funds are authorized to be appropriated for the use of the Maritime Administration for fiscal year 1986 as follows:

(a) for payment of obligations incurred for operating differential subsidy, not to exceed $335,084,000;

(b) for expenses necessary for research and development activities, not to exceed $9,900,000; and

(c) for expenses necessary for operations and training activities, not to exceed $70,812,000 including not to exceed—

(1) $34,500,000 for maritime education and training expenses, including not to exceed $19,318,000 for maritime training at the Merchant Marine Academy at Kings Point, New York, $10,915,000 for financial assistance to State maritime academies, $3,000,000 for fuel oil assistance to State maritime academy training vessels, and $1,267,000 for expenses necessary for additional training;

(2) $9,047,000 for national security support capabilities, including not to exceed $7,748,000 for Reserve Fleet expenses and $1,299,000 for emergency planning operations; and

(3) $27,265,000 for other operations and training expenses.

SEC. 2. Funds are authorized to be appropriated for the use of the Federal Maritime Commission in the amount of $11,606,000 for fiscal year 1986.

Mr. JONES of North Carolina (during the reading). Mr. Chairman, I ask unanimous consent that the bill be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

COMMITTEE AMENDMENTS

The CHAIRMAN. The Clerk will report the first committee amendment.

The Clerk read as follows:

Committee amendment: page 2, line 6, strike "$70,812,000", and substitute "$71,967,000".

The committee amendment was agreed to.

The CHAIRMAN. The Clerk will report the next committee amendment.

Mr. JONES of North Carolina. Mr. Chairman, I ask unanimous consent that the remaining committee amendments be considered en bloc, considered as read, and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The text of the remaining committee amendments is as follows:

Committee amendments: Page 2, line 8, strike "$34,500,000", and substitute "$34,847,000";

Page 2, line 10, strike "$19,318,000", and substitute "$19,633,000";

Page 2, line 15, strike "$1,267,000", and substitute "$1,299,000";

Page 2, line 18, strike "$9,047,000", and substitute "$9,277,000";

Page 2, line 20, strike "$7,748,000", and substitute "$7,932,000";

Page 2, line 21, strike "$1,299,000", and substitute "$1,345,000";

Page 2, line 23, strike "$27,265,000", and substitute "$27,843,000";

Page 2, line 3, strike "$11,606,000", and substitute "$11,940,000";

The committee amendments were agreed to.

AMENDMENT OFFERED BY MR. WALKER

Mr. WALKER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WALKER: At the end of the bill, add the following new section:

"SEC. 3. All funds authorized by this act are hereby reduced by ten percentum."

Mr. WALKER. Mr. Chairman, I ask unanimous consent to change the word "all" in the amendment to "the."

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania?

Mr. JONES of North Carolina. Mr. Chairman, reserving the right to object, what was the unanimous-consent request?

Mr. WALKER. In the amendment where it says, "All funds authorized by this act," to make it, "The funds authorized by this act."

Mr. JONES of North Carolina. What would be the effect?

Mr. WALKER. In other words, it will allow more discretion in terms of the cuts that way. It is my intention to assure that the overall amount of funding in the bill is cut by 10 percent.

In talking to the gentleman from Kentucky, we felt that if I changed the word to "the," it will allow that kind of discretion and will assure that if this amendment passes, that we will not run into some of the problems that would be there that I did not intend for the committee to have.

Mr. SNYDER. If the gentleman will yield, the way the amendment is worded, it says "all funds," that it was going to introduce. It leaves it open, I think, to interpretation that if this amendment should be adopted, that the 10-percent cut would apply on each of the categories shown in the bill. Whereas, if you say "the funds," then you take the total and leave discretion to commissions as to where they would cut in the event it would be adopted.

I think that if it may be adopted, and if it is, then we are better off if they have discretion as to where they are going to take this money out of instead of each category having to take 10 percent. That is why I asked the gentleman to change the "all" to "the."

Mr. WALKER. Let me assure the gentleman from North Carolina that my intention is to give as much discretion as possible. It was worded in a way to assure that the committee priorities would be kept, and that as much discretion as possible.

The gentleman from Kentucky feels as though the language that I am suggesting in my unanimous consent would give more discretion and I am perfectly amendable to doing that if we can do it by unanimous consent.

Mr. JONES of North Carolina. Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The text of the amendment, as modified, is as follows:

Amendment offered by Mr. WALKER, as modified: At the end of the bill add the following new section:

"SEC. 3. The funds authorized by this act are hereby reduced by ten per centum."

Mr. WALKER. I thank the chairman.

Mr. Chairman, this amendment would amount to about a $42-million cut. Let me explain the reason why I have approached it this way.

The committee has, in fact, come to the floor with a bill that is responsible and it comes in below last year's spending levels; about $48 million below last year's spending levels. However, it is also a bill that exceeded the administration's request by about $48 million. This amendment would not recover the whole of that $48 million, but would recover a good portion of it by cutting 10 percent.

The reason for doing that, it seems to me, is simply that if we are going to do something about deficits, we have to do more than simply freeze along the way. We agreed in the last bill to a sense-of-the-Congress kind of freeze; we have had some other freezes before, but if we are really going to begin to cut into a $180- to $200-billion deficit, we have got to look at some of the places where the administration says that they can save additional money over what was being spent in the previous year.

So this particular amendment would allow us to get about $42 million additional in cuts in the spending for the

Maritime Administration, and therefore, it seems to me, would get us in line with what the administration says they need, and be something which I think is probably going to come closer to the Senate.

□ 1520

In reading the administration's position on this bill, I understand that they were in support of the legislation; however, we are going to seek amendments in the Senate to get it closer to their appropriations level, and that is what this amendment does. It gets it closer to the appropriations level that the administration had originally suggested. So, therefore, I would urge my colleagues to accept this fairly simple but I think important amendment that would cut 10 percent out of the bill as brought forward by the committee.

Mr. GAYDOS. Mr. Chairman, I rise in opposition to the proposed amendment.

Mr. Chairman, regardless of what has been said as an explanation in the official record, there is always a question as to whether or not the proper interpretation or application of all funds or the funds will be made as suggested by the maker of the amendment.

Let us truly look at the impact of this amendment. A 10-percent cut would conceivably pertain to cargo preference, and in all truth, cargo-preference requirements affect neither the price that American farmers receive for their goods nor the price that overseas customers pay for these commodities. The cost differential between U.S. ships and foreign vessels is paid for by the American Government as part of a longstanding national policy of United States for the American maritime industry.

This is true in many, many other areas. We talk about the textile industry and talk, yes, about the coal industry, and the sugar problem we have in the country, and I can go on and on. All those directly and indirectly are involved. If you apply to one, you apply to the other.

What this amendment would do, and I suggest to you that there is a question as to what "all" and "the" funds means, is to have a severe and devastating effect on the U.S. merchant marine and would effectively penalize the U.S. fleet, what is left of the U.S. fleet.

According to recent figures from the U.S. Maritime Administration, the U.S.-flag dry bulk fleet, which virtually depends on preference cargoes for survival, now consists of only 21 vessels. Fortunately, it is a young fleet, with 11 ships of 4 years of age or less, and 19 of the 21 at 12 years or less. But even more, these new ships can carry more cargo tonnage and can operate with a smaller crew. Thus, the merchant fleet, what we have of it, with the help of the Seafarers' International Union, has been able to cut manning levels and lower wage structures to keep the fleet more competitive.

We have some fleet; better than nothing, but woefully ineffective and woefully low in numbers. Now we have this amendment which would and could possibly reduce the use of authorized funds, as I have already explained, to enforce cargo-preference requirements by at least 10 percent. This pertains to shipments of agricultural commodities and others.

The question that I think is reasonable to ask and which presents itself at this stage is: Is all the work that our maritime industry and the men and the various unions involved to go down the tube and be for naught? Are we telling another basic industry that is making an effort to compete in today's international world that we do not care?

The maritime industry is vital to this Nation. It fills an important defense need. It fills an important domestic need as well, and it is about time, I believe, that we in this body start making our actions known and our votes indicate that we do care and are concerned about our maritime fleet.

If we adopt this 10-percent amendment, we will be sending another signal to our shipbuilding industry and the other industries that service it, such as steel and areas of that nature, that we do not care what happens. Mr. Speaker, I do care, and I care as the chairman of the Steel Caucus executive committee in what we have done. I care for the merchant fleet. I care for the well-being and international competitive position of this country. We must defeat this 10-percent amendment.

Mr. BIAGGI. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise in opposition to the amendment. I am not sure that the gentleman who offered this amendment listened to what was said in the opening comments. I do not think he was on the floor. It is unfortunate, because the fact of the matter is, the Merchant Marine and Fisheries Committee works in a bipartisan fashion. Ours is to preserve and enhance the quality and quantity of the merchant marine industry, an industry that has seen poor days, an industry that has seen steady decline since World War II, where hundreds of thousands of jobs have been lost in the industry. If it were to be reflected across all of the ancillary industries, it would run into the millions. The gentleman from Pennsylvania [Mr. GAYDOS] just made reference to his concern for the industry, as well as for the steel industry.

With the diminution of the maritime industry, with the reduction in our ability to compete, resulting in the disastrous consequence where our shipyards are not being occupied because any shipper cannot afford to build a ship in an American shipyard to compare with those built in foreign yards for the ability to transport cargo.

All we have seen, we have come upon woeful days and the administration, the President, has been very sympathetic. He passed the Shipping Act of 1985. He is mindful of the conditions of the maritime industry. He is trying to be helpful, and as a result, there is a bipartisan effort, especially in that committee. Rarely do we report out legislation that has not been ironed out, that has not been distilled and reconsidered so that when we bring it to the floor, we bring a product that both parties agree and all elements of the industry agree upon. For what purpose? To save the merchant marine, to save it. It is going down the tubes. Shipyards are going out of business. We have a 26-shipyard mobilization base that will be reduced even further. The gentleman from Massachusetts [Mr. DONNELLY] just told me that two other shipyards will be closing up in Massachusetts in the very near future.

We read the articles, we hear the stories, we recognize the fact, we know what is happening, and yet we are not in a position to do anything about it. The most significant thing that has happened in a long time was the Shipping Act of 1985, and that happened over a 6-year period with the administration's support and with a bipartisan approach. This committee finally came up with a maritime authorization bill, no fiscal matters, no controversial matters, and reported a bill out that was 10 percent less than the appropriation for 1985. We have done the job. We have been prudent. We have recognized the need, even on a fiscal basis.

We should be having more money come into the maritime agency. We should have more money coming into the maritime industry, not less, but we recognize the exigencies of the day, so we do respond in a responsible fashion, and then we are victimized with the 10-percent dogma doctrine, and that is what is it. It is a 10-percent dogma doctrine. Everything that comes up must be cut by 10 percent.

I am not even going to try to give you a case for building more money, but let me tell you, certainly this amendment should be rejected out of hand—out of hand.

□ 1530

Mrs. BENTLEY. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, I support all of the statement of my colleague, the gentleman from New York [Mr. BIAGGI], who emphasized the need for the American merchant marine today and the need to support this industry as much as possible.

This industry has suffered a great deal already, and it can ill afford to incur any more losses or we are going to have another very important industry disappear totally from our country.

We need a presence on the high seas. It is important that the American flag is out there. It is important not only to insure our shippers that vessels will be available when they need them but also to sell the United States of America. This is important. We need these ships to be available should an emergency arise. We are spending billions for the Defense Department, and yet our defense must be backed up by merchant vessels should an emergency arise. Of course, we pray to God that we never have to prove this.

The maritime industry is an important basic industry in the United States of America. We are losing enough of our industrial base as it is, and this is one that cannot suffer any more. I am very supportive of it. I oppose this amendment, and I hope it is defeated.

Mr. GAYDOS. Mr. Chairman, will the gentlewoman yield?

Mrs. BENTLEY. Yes; I yield to the gentleman from Pennsylvania.

Mr. GAYDOS. Mr. Chairman, I wish to go on record to commend the gentlewoman and her committee, and I think it is imperative that we emphasize at this point in the RECORD that here we have a responsible committee taking the time and the effort, based upon its experience, to make a 10-percent cut already and do it in good conscience.

But then we have an amendment, an irresponsible amendment, presented on the floor by a Member who is not a member of the committee and by a Member who is following almost a perfunctory type of amendatory process.

Mr. Chairman, I think it behooves all of us to take a look at that amendment and give recognition to the committee for its responsible work. I want to congratulate the gentlewoman from Maryland [Mrs. BENTLEY] and urge that we defeat this amendment resoundingly.

Mrs. BENTLEY. Mr. Chairman, I thank the gentleman. The committee did work very carefully, going over the budget, and came up with the amount. I just again want to emphasize that I do oppose the amendment.

AMENDMENT OFFERED BY MR. JONES OF NORTH CAROLINA AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. WALKER, AS MODIFIED

Mr. JONES of North Carolina. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The Clerk read as follows:

Amendment offered by Mr. JONES of North Carolina as a substitute for the amendment offered by Mr. WALKER, as modified: At the end of the bill add the following new section:

"SEC. 3. No funds authorized by this Act may exceed the amounts appropriated for the programs and operations of the Maritime administration and the Federal Maritime Commission for fiscal year 1985; *Provided,* That this section shall not be construed to increase any authorization in other sections of this Act".

Mr. JONES of North Carolina. Mr. Chairman, this is a real freeze amendment. This language is exactly the language that has been used on four or five other authorization bills, that no funds authorized by this act may exceed the amounts appropriated for 1985, et cetera.

I only ask that this committee, which came here today in good faith with an almost 10-percent reduction, be treated in the same manner as other committees have in the authorization process. We feel that this is truly a freeze amendment. We can go a step further and insure that should, by some mathematical miracle, the freeze section would be increased, we even eliminate that.

So, Mr. Chairman, I submit to those Members on the floor, as well as to those at their TV sets, that this is indeed a true freeze amendment to the maritime authorization bill.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. JONES of North Carolina. I am delighted to yield to the gentleman from New York.

Mr. LENT. Mr. Chairman, I wish to commend the gentleman and join in the language of the gentlewoman from Maryland [Mrs. BENTLEY] in support of the gentleman's amendment.

The committee has worked very hard on this bill, and as the gentleman has pointed out, the committee has already cut 10 percent from the fiscal year 1985 appropriation and this bill is over $48 million less than the fiscal year 1985 budget.

So the cutting has already been done. The freeze is already in there. To go back and cut another 10 percent on top of the 10 percent that the committee has already cut, I think would really get down into the bone and the sinew of our Nation's Ready Reserve Force and the U.S. sealift capacity. Certainly it would cut back on both the State and the Federal maritime academies, and it would be going too far.

Mr. JONES of North Carolina. Mr. Chairman, I thank the gentleman for his support.

PERFECTING AMENDMENT OFFERED BY MR. WALKER TO THE AMENDMENT OFFERED AS A SUBSTITUTE BY MR. JONES OF NORTH CAROLINA FOR THE AMENDMENT OFFERED BY MR. WALKER, AS MODIFIED

Mr. WALKER. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will report the amendment.

Mr. JONES of North Carolina. Mr. Chairman, may we have a copy of that, please?

Mr. WALKER. I just wrote it. It is the same thing over again.

Mr. JONES of North Carolina. The same what over again?

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

Perfecting amendment offered by Mr. WALKER to the amendment offered as a substitute by Mr. JONES of North Carolina for the amendment offered by Mr. WALKER as modified.

"SEC. 3. The funds authorized by this Act are hereby reduced by 10 per centum.

Mr. SNYDER. Mr. Chairman, I reserve a point of order on the amendment.

The CHAIRMAN. The gentleman from Kentucky [Mr. SNYDER] reserves a point of order on the amendment and the gentleman from Pennsylvania [Mr. WALKER] is recognized for 5 minutes in support of his amendment.

Mr. WALKER. Mr. Chairman, if we were to adopt the substitute amendment offered by the gentleman from North Carolina, what we would in effect be doing is adding about $50 million to the bill that the committee brought out here.

We just heard a discussion a few minutes ago about how responsible the committee had been on all of this, and now the committee is coming out and saying that is somebody is going to offer a 10-percent cut, then, by golly what are we going to do is we are going to go back up to the freeze level and we are going to add $50 million to what we brought out on the floor.

It does seem that is exactly what we ought to be doing in the work of a Congress that is aimed at trying to do something about deficits. I explained earlier when I came to the floor that indeed this was a cut below the committee's authorizing level that was in its bill. I said I thought the committee has been responsible, but the administration says that they can get along with about $48 million less than what the committee has come up with. They said they were going to try to get that position taken in the other body. All I am trying to do is to get this body to recognize that fact and work toward a real cut in this program beyond the cut that the committee has already had for 1985.

Mr. GAYDOS. Mr. Chairman, will the gentleman yield?

Mr. WALKER. If the gentleman will just wait a minute until I finish my

presentation, I will be very glad to yield to the gentleman.

This gentleman feels that the most responsible course of action for this Congress is to begin the process of not only freezing at 1985 levels but getting below 1985 levels wherever we can. This committee started that process by bringing its bill to the floor. I think we can take it further based upon the administration's projections.

That is what I am attempting to do. It seems to me that is responsible and responsive to what I hear my constituents telling me every week when I go home. I have got to say that if I tell my constituents that what we are trying to do is save an extra $40 million out of the Maritime Administration, most of them will think that is a place where we can probably find $40 million in order to do it.

Mr. GAYDOS. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I will be very glad to yield in a moment when I finish my explanation.

Mr. Chairman, all my amendment that I have offered does is it gets back to the original language that I offered so we can get a vote on whether or not this House wants to reduce an additional 10 percent. That is all this amendment does. It just assures us that we get a vote on whether or not we are going to go 10 percent below what the committee brought out.

Mr. GAYDOS. Mr. Chairman, will the gentleman yield?

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I am very glad to yield to the gentleman from New York, and then I will yield to the gentleman from Pennsylvania and the gentleman from North Carolina.

Mr. LENT. Mr. Chairman, the gentleman from New York is frankly confused by this particular amendment to the amendment that the gentleman is offering.

It is my understanding that when the gentleman offers a freeze amendment, he seeks to freeze at the level of authorization at the 1985 appropriation level?

Mr. WALKER. That is right.

Mr. LENT. Is that not correct? Is that not the kind of freeze the gentleman has traditionally offered?

Mr. WALKER. Traditionally, that has been the case, but the gentleman may remember that on a number of occasions I have come to the floor and explained that I think that we ought to go for a freeze or for the administration's budget, whichever is lower.

□ 1540

In this case the administration is lower, so we ought to go for that figure.

Mr. LENT. Well, in this case, the amendment offered by the gentleman from North Carolina is very similar, if not identical, to the usual garden variety amendment offered by the gentleman from Pennsylvania in that it would de facto freeze the level for the Maritime Administration at 1985 appropriation levels.

What the gentleman from Pennsylvania is seeking to do by this device is to cut even deeper by some 10 percent than the 1985 appropriation level; is that correct?

Mr. WALKER. Yes; that is exactly right.

Mr. LENT. So I understand it right then?

Mr. WALKER. Yes; that is right.

Mr. LENT. So this is not a freeze. This is a freeze less another 10 percent.

Mr. WALKER. The gentleman is absolutely correct.

As I said to the gentleman, the important thing here to recognize is that we ought to be using the freeze as a device to bring down spending levels, not raise spending levels.

You know, there is an attempt around here to write off the administration's budget and then say the administration is irresponsible for all these budget deficits they have.

I hear time and time again about the President's deficit. Well, the President has come in here and said here is an area where we can save.

I am trying to get us to go below that freeze level to come up with those savings that the President says we can achieve; so indeed, that is below the freeze, but I would tell the gentleman that in 1985 when we had the budget that we want to freeze at, we had $170 billion to $180 billion in deficits. We have to get those down some, too; so I am trying to get below that figure. And this is one place where we can attempt to achieve that.

The CHAIRMAN. The time of the gentleman from Pennsylvania has expired.

(By unanimous consent, Mr. WALKER was allowed to proceed for 2 additional minutes.)

Mr. JONES of North Carolina. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I would be happy to yield to the gentleman from North Carolina.

Mr. JONES of North Carolina. Mr. Chairman, I am not sure the gentleman read the substitute amendment clearly. The gentleman talks about we are coming in the back door with increases.

No, sir; this is a true freeze, consistent with all the action we have taken with previous authorization bills.

We even go a step further to allay the fears of the gentleman, or perhaps at least try to.

It says, "Provided, this section shall not be construed to increase any authorization in other sections of this Act."

What more does the gentleman want?

Mr. WALKER. Well, the gentleman has brought in a freeze amendment. The freeze is about $90 million over what the administration requested.

My attempt is to get us down toward the administration's request, rather than back up to the 1985 request; so my amendment is aimed at getting us down toward that administration request and the gentleman's amendment, as I understand it, moving toward a freeze, moves us further away from the administration.

Mr. JONES of North Carolina. On the contrary, is it not true that the figures, if analyzed correctly, show that the amendment of the gentleman from Pennsylvania would invoke a 20-percent decrease, a cut in the authorization?

Mr. WALKER. From the 1985 levels, that is correct; but it would still not be as much a freeze——

Mr. JONES of North Carolina. Why did the gentleman not offer such an amendment in other authorizations?

Mr. WALKER. Well, in fact, I have offered such amendments on some other bills. When we had bills coming out of my Science and Technology Committee, I would say to the gentleman, I have offered amendments to bring it down to the administration levels that were below the freeze levels; so I would say to the gentleman that I have tried on those occasions to bring the spending underneath the freeze levels where the administration had less spending.

I think that is necessary. We are not going to deal with deficits simply by wishing them away and here is one place where we can begin the process of really reducing; so a 20-percent cut here may in fact be a very worthwhile cut, particularly since that is what the administration thinks that it can operate with in this particular fiscal year.

Mr. BIAGGI. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from New York.

Mr. BIAGGI. Mr. Chairman, I thank the gentleman for yielding.

By the gentleman's own admission, he is saying that his amendment would in effect bring about a 20-percent cut.

Mr. WALKER. Yes; that is less than the administration had. The administration had about a 25-percent cut.

The CHAIRMAN. The time of the gentleman from Pennsylvania has again expired.

(At the request of Mr. BIAGGI, and by unanimous consent, Mr. WALKER was allowed to proceed for an additional 2 minutes.)

Mr. BIAGGI. Mr. Chairman, will the gentleman yield further?

Mr. WALKER. I am happy to yield to the gentleman.

Mr. BIAGGI. But whether the administration requested a 25-percent

cut, the fact is that the gentleman's amendment would bring about a 20-percent cut. I think it is important for all Members to understand that, a 20-percent cut, not even 10 percent.

Understand, this committee has functioned in a very prudent manner in an area that is very, very critical. Notwithstanding the need for additional moneys, we have functioned on a bipartisan basis and we crafted this legislation to come in with a moderate proposal.

We are prepared to accept a freeze resolution. The chairman of the full committee, the gentleman from North Carolina [Mr. JONES], is offering that, a freeze, the type of freeze resolution that has been applied to many, many other committees.

Now, the gentleman from Pennsylvania [Mr. WALKER] has offered an amendment that would bring about not 10, but 20 percent.

Mr. WALKER. Well, let me say to the gentleman that the amendment that I have offered which is at the desk right now is a 10-percent cut on the bill that was brought to us by the committee.

Now, if the gentleman wants to characterize that as a 20-percent cut over last year, I would simply say to the gentleman that it is still at a spending level above what the administration says they need.

Now, I realize that here in Congress we like to spend money. That is one of the problems we have got around here. Then we like to blame it on the President when we do it, and that is just about what we are in the process of doing here again, is the fact that when someone proposes to cut, that is called irresponsible because we are getting far too deep in our cuts. We have got to get deep in some cuts around here. We have got to do a few things about ending the spending machine in this body or we are in big, big trouble.

The fact is the American public already knows we are in big, big trouble, with $200 billion deficits.

All this gentleman is asking is that we cut out in this bill around $80 million to $85 million. Somehow I do not think that is a tremendous sacrifice to have to make, given the magnitude of the problem we face nationally.

Mr. BIAGGI. Mr. Chairman, will the gentleman yield further?

Mr. WALKER. I would be glad to yield to the gentleman.

Mr. BIAGGI. I would like to get something straight.

The CHAIRMAN. The time of the gentleman from Pennsylvania has again expired.

(At the request of Mr. BIAGGI, and by unanimous consent, Mr. WALKER was allowed to proceed for an additional 2 minutes.)

Mr. BIAGGI. The gentleman makes reference to Members talking about the budget as the President's budget deficit. I can assure the gentleman that this gentleman has never attributed the deficit to the President, because we all know it is the sum total of many years of extravagance, if you will; so I do not know that any members of this committee have taken similar positions.

Mr. WALKER. Let me say to the gentleman, I said that is simply the case on the floor. Constantly in the 1-minute speeches we hear it referred to that way.

This gentleman does realize that most of the time that comes from his side of the aisle, but I would agree with the gentleman, I have never heard him make such a statement.

Mr. BIAGGI. Well, I think that is a significant point.

The fact is by the gentleman's own admission he has qualified it, whether it is 10 percent or 20 percent, but by the gentleman's own admission the net effect of the gentleman's amendment to this very moderate resolution, this authorization bill, is that there will be a 20-percent cut.

Mr. WALKER. I have not qualified anything, I would say to the gentleman. The amendment is at the desk and reads a 10-percent reduction in what the committee brought forward. I do not qualify that. That is exactly what I am offering. It is a 10-percent reduction in the committee bill and that results in a savings over what the committee brought to us of $41.7 million. I happen to think that is probably affordable and it is certainly in compliance with what the American public keeps saying time and time again that they want us to get our spending priorities in order. That is what I am attempting to do here.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I would be glad to yield to the gentleman from New York.

Mr. LENT. Mr. Chairman, I think this debate has been very illuminating because it demonstrates that in the case of this particular committee, the Committee on Merchant Marine and Fisheries, the committee already cut 10 percent from the 1985 appropriation level; so we did our job in the committee.

The committee put out, not a freeze, but 10 percent below the 1985 appropriation level.

Then the gentleman from Pennsylvania comes along and would cut another 10 percent on top of that 10 percent, resulting in what the gentleman from New York [Mr. BIAGGI] has properly calculated to be in effect a 20-percent cut below the 1985 appropriation.

Mr. WALKER. All I said to the gentleman is that the committee's reaction to that is to come back with a freeze amendment, that in effect if we accepted a true freeze would be instead of accepting a 10-percent cut, goes for a 10-percent increase over the bill that they brought to the floor.

Now, I do not think that is exactly in line with what I hear the gentleman telling us that we ought to do.

Mr. LENT. That is not correct. That would have been the case with respect to the amendment of the gentleman from North Carolina had it not had the last paragraph——

The CHAIRMAN. The time of the gentleman from Pennsylvania has again expired.

(At the request of Mr. LENT, and by unanimous consent, Mr. WALKER was allowed to proceed for 2 additional minutes.)

Mr. LENT. The last clause of the gentleman's amendment, which starts with the words, "Provided, that this section shall not be construed to increase any authorization in other sections of this Act."

So that preserves that language. The 10-percent cut below the 1985 appropriation level that the committee worked out after months of deliberations, hearings and hard work, and for the gentleman to come along and reward the committee which has worked so hard and come down 10 percent below the 1985 authorization level with another cut, 10 percent on top of that 10 percent, I really think erodes, and I have generally supported the gentleman's freeze amendments, but I think it erodes the integrity of the gentleman's efforts thus far.

□ 1550

I would hope that the gentleman might reconsider his amendment.

Mr. WALKER. I thank the gentleman.

I would simply say to the gentleman that there are many times on this House floor where we have decided to do things differently from what the committees did. We do that all the time with science and technology bills. We have had several science and technology authorizations that we worked very hard on in the Science and Technology Committee too, and the House decided they were going to change our work. That is not unusual around here.

I think that we have an obligation to look at things in a more general sense rather than some of the interests that the committees reflect. Here we are simply deciding whether or not we are going to spend the additional money or save the additional money, and that is what my amendment is aimed at doing.

Mr. GAYDOS. Will the gentleman yield to me?

Mr. WALKER. I will be glad to yield.

Mr. GAYDOS. I appreciate my good friend yielding. I am a little confused. The gentleman talked about the 10-percent cut as affected by the commit-

tee, called the committee a responsible committee. I think it would be basically essential that we spread upon the record right here as to why the gentleman feels that a 10 percent responsible cut is not responsible enough. Is it because he is following the administration's suggested budget?

The CHAIRMAN. The time of the gentleman from Pennsylvania [Mr. WALKER] has again expired.

(On request of Mr. GAYDOS and by unanimous consent, Mr. WALKER was allowed to proceed for 1 additional minute.)

Mr. GAYDOS. Or is there an authenticity in the gentleman's amendment? I did not do it frivolously earlier when I suggested that we just cannot in a perfunctory manner offer amendments 10 percent here and 10 percent there. It is only fair to the committee that has jurisdiction if the committee system is going to survive in this House, and I think it has justification for surviving, and if it is I think the gentleman has to back it up with facts.

Mr. WALKER. I would say to the gentleman one of the problems we have with the committee system around here, though, is that the committee system was created as a way of helping facilitate what happens on the floor, but it has now come to the point where we are using the committee system to dominate what happens on the floor by coming out and saying that, "We, the committee, decide, so you have to accept it."

I do not agree with that. I think 435 Members of Congress were elected to this body to do the general job of listening to their committees on specifics but also deciding where the committees have gone wrong.

In this case the administration indicates that they can administer the programs under this authorization for less money than the committee is indicating it wants to give. I am simply saying that if the administration can do the job for less, let us give them a change. Let us give them the opportunity to do the job for the money that they say they need to spend rather than overspending here in the House of Representatives.

The CHAIRMAN. Does the gentleman from Kentucky [Mr. SNYDER] insist on his point of order?

Mr. SNYDER. No, I do not, Mr. Chairman.

Mr. SMITH of Florida. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the perfecting amendment.

Mr. Chairman, I do not serve on the Merchant Marine and Fisheries Committee. I have great respect for the chairman, the gentleman from North Carolina [Mr. JONES], and for the gentleman from New York [Mr. BIAGGI], and I find it a very, very enlightening debate. It just happens that it falls on the authorization bill of this committee.

The gentleman who is offering the perfecting amendment, which in essence cuts 10 percent more from an already 10 percent cut below the 1985 level done by the committee, the gentleman talks about this is where we can save money, and this is what the administration wants to do.

How interesting. It it not interesting that this administration, which wants to save this money, proposed a budget which had a level of funding which the gentleman from Pennsylvania wants to get to for this particular authorization, that that very administration budgeted a deficit of $185 billion? This is where we are going to save the money.

We think we can save the money.

They are peddling heifer dust to the American public and the gentleman from Pennsylvania is one of the leading purveyors. They do not think they are going to save any money. They are going to save money from this program so they can put it somewhere else, into their priorities. It does not save the American public one single dime. And as soon as the people of this country begin to understand that fact, maybe we will be able to deal more effectively on this floor.

I do not have any problem with the gentleman from Pennsylvania offering amendments to cut. I have even supported some of those where they were rational and appropriate, where the committees may have been a little bit too zealous in their effort to fund their own jurisdiction.

But here is a committee that have never been assaulted for being overly, overly expansive in terms of the money they deal with for a program that is so extremely important to the defense, to the economic well-being of this country. And it is in such poor condition. And the gentleman from Pennsylvania would have us believe that the administration in caressing it is helping it rather than killing it.

A 20-percent cut off last year will not, in fact, bring this industry to its life. It will bring it to its knees.

Is there anybody that wants to see the maritime industry in this country destroyed? Is there anybody that wants to see all of the other programs that have these cutting amendments attached to them destroyed?

We can use some good sense. We can use some good common sense. We can use some cutbacks on programs and reduce some of the things that we have done over the years. We all agree. The problem is going to be where.

But when a committee comes out with a responsible program, and again I have no pride of authorship, I do not even sit on that committee, but I am aware of the work that the maritime industry does, that the maritime industry in this country is performing, and the condition that it is in. And even if you are not from a port State, or even if you are not from a State where the maritime industry is extremely important, you know the relevance, all of my colleagues know the relevance of a maritime industry and this authorization bill to the economic well-being of this country.

We need to set the priorities. The gentleman from Pennsylvania has a right to try to cut, but he does not have a right to lecture us that this is where the administration wants to save money, because the administration ultimately is spending more than any of us want to be spending. They are just taking the savings from the left pocket and putting it into the other pocket so that they can spend it somewhere else.

That is the reality of what is going on. I urge you not to undo the balance between cutting and fiscal responsibility and dedication to the industry that this committee has crafted on this one.

This is an important issue. It is going to be debated over and over on different authorization bills as they come up, including the committees of jurisdiction on which I serve.

But this is only a beginning. If you keep wanting to cut to the level of the administration on all of these you are going to be seeing severe cuts. But remember, ultimately you will not save a dime, folks, because that money from those cuts is programmed into other things. And that is definitely wrong and the American public ought to know that.

I urge you to reject this amendment on the grounds that it is wrong and on the grounds that it sets a terrible precedent for this House to establish.

The CHAIRMAN. The time of the gentleman from Florida [Mr. SMITH] has expired.

(On request of Mr. GAYDOS and by unanimous consent, Mr. SMITH of Florida was allowed to proceed for 1 additional minute.)

Mr. GAYDOS. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Florida. I am happy to yield.

Mr. GAYDOS. I hesitated to stand because I think the gentleman's argument is so crystal clear. I want to congratulate the gentleman. He has put the problem just as it exists. I think his analysis is cutting and goes right down to the core of the problem. I think he properly points out where the righteousness of the argument lies.

This is a responsible committee that has already made a 10-percent cut. When my colleague from Pennsylvania [Mr. WALKER] was in the well he mentioned the fact that he was worried, and we were going to be con-

cerned. I think we have a worry and we do have a concern, but it is for the merchant marine that is almost nonexistent in this country today.

I am not talking about how many ships we had or did not have. We have substantially less than 500 ships in this great maritime Nation of ours.

Somebody, somewhere, somehow, under some circumstances is going to have to take a look at this problem. And I think the Committee on Merchant Marine and Fisheries has and I think the gentleman explained it so clearly.

Mr. SMITH of Florida. Let me reclaim my time to say one thing in closing.

The CHAIRMAN. The time of the gentleman from Florida [Mr. SMITH] has again expired.

(By unanimous consent, Mr. SMITH of Florida was allowed to proceed for 1 additional minute.)

Mr. SMITH of Florida. One of the hallmarks, one of the key words of this administration has been, and I have heard it in my own committees, "We are going to do more with less." Ladies and gentlemen, you do not do more with less, not given the circumstances as we see them today.

It would be a great thing for this country to be able to reduce its spending and to keep getting better and better efficiency out of every program we have. Unfortunately, we know we cannot squeeze some of the programs like that. This is a perfect example. We are already cutting into and below last year's authorization level on this bill.

□ 1600

You go beyond that, you are not going to just be cutting money, you are going to be killing a whole industry.

Mr. Chairman, I yield back the balance of my time.

Mr. DANNEMEYER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of the clarification amendment offered by my colleague from Pennsylvania [Mr. WALKER]. I had not intended to speak on this matter. I am not a member of the Policy Committee. I would like to congratulate the members of the committee for the work product that they have brought to the floor. They are moving in the direction that the people of this country want us to move by bringing a bill that authorizes 10 percent less than was appropriated in 1985. That, to me, is a constructive alternative to take. But in this issue we have got that classic illustration that confounds us all, indeed has got this whole institution tied up in a knot.

When we look at this program in isolation we can say with every justification it makes sense to do what the committee has suggested because they have far more knowledge of the need than the rest of us. I accept that.

But the problem we have, my friends, is something we all know: We have a deficit that just boggles the mind to even think about. How much evidence do we need to bring to our collective attention that this country is in a serious crisis over the issue of overspending? In this morning's paper the second savings and loan in Maryland is in deep trouble.

What is happening? The Federal Reserve Board, the national banker of last resort, Mr. Volcker, has said the Fed will assist them. How many savings and loans in America can the Federal Reserve Board assist? I do not think we have got enough money in Christendom to save all the savings and loans in America.

So we who are the policymakers, who set the spending levels for this country through the Congress, have got to make up our minds whether we can remove ourselves from the narrow stricture of just this program to the broad picture.

I admit that is tought to do. I would submit to my colleagues that if the people of this country had the option of voting for a 20 percent cut on all of the programs of the Federal Government that they would vote "aye" by about two to one, because that, incidentally, would come close to balancing the budget, by cutting spending and not raising taxes.

So when you ask this Member from California about cutting this program by 20 percent, roughly, from what was spent last year, I am not bothered a bit. I am encouraged that the administration has the courage to come here and recommend to Congress that we cut this program by that amount. We all know the game: "Blame it on the President. He is spending all this money."

Well, here is the opportunity for we in Congress to suggest that we have a measure of responsibility by accepting the recommendation of our President for authorizing $368 million, even though $465 million was appropriated last year.

Now I admit that is a significant cut, but I encourage my colleagues to look at the broader picture and I hope we will have the intestinal fortitude to adopt this clarification amendment.

Mr. JONES of North Carolina. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, we have been here on this amendment for, I reckon, an hour or so, on the various amendments. I am surprised to learn the strength of the maritime profession, so that they can balance the budget, that they are responsible for American savings and loans' conditions and so forth and so on. But on a more serious note we have before us this afternoon a choice: Are we going to treat each and every committee in the same manner, out of the same spoon?

All we are asking is that you let us offer the freeze language, and I repeat, the pure freeze language that has been adopted by every single other authorizing committee that has been on this House floor during this calendar year, that is all we are asking.

We go a step further to provide that even in so doing that no authorization can be increased by virtue of this action above that which the freeze provides for.

Bear in mind the freeze carries with it a built-in 10-percent reduction.

Now, the gentleman from Pennsylvania, in good faith I am sure, and he almost convinced me at one time but not quite, he comes up with an additional 10 percent.

Now, here again, and in closing on behalf of the committee of which I am very proud, it is a hard working committee; the minority and the majority get along very well together.

We come to the floor unified, not with amendments fighting one another.

So I ask you to consider where we are and what we are doing.

The first vote, if we ever get around to voting, will be on Mr. WALKER's 10-percent additional cut.

If that is defeated, and I beg and plead with the Members to defeat that amendment, then the next vote will be on the committee language which is an amendment offered by the committee to the original Walker amendment and in that instance the second vote I hope and plead that it will be successful.

So with that, Mr. Chairman, I do not have much more to say. We have made a good case. We have come in with a good, clean bill, one that showed strength and showed proper care and concern about the deficit.

So with that, asking for a "no" vote on the first Walker motion, a "yes" vote on the committee substitute, with that I yield back the balance of my time.

Mr. CARNEY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I stand opposed to the Walker amendment.

Mr. Chairman, I have a unique position inasmuch as I serve on the Subcommittee of Merchant Marine and the Subcommittee of Naval Seapower.

So I look at this from the standpoint of two committees, two committees that are very, very important to our national defense. I think it would be somewhat imprudent to support the Walker amendment at this period of time. I would like to remind the Members of this body that it was in 1790 the President of the United States, our first President, George Washing-

ton, addressed this Congress and told this Congress they should, at all price, avoid the embarrassment of relying upon foreign shippers for our commerce and agriculture.

With that advice rendered to this Congress in 1790, is an important day as it was then. There is no reason whatsoever that of all the commerce that goes back and forth over the oceans of the world from the United States that our flagships only carry 4 percent of it. There is no reason at all that we had a merchant marine of 5,500 vessels in 1946 and we are now below 500 vessels.

Ladies and gentlemen, Mr. Chairman, the security of our Nation rests with the fact that we have a merchant marine to support our armed services. We at this point in time, I suggest, are at a crossroads. We have to go forward, we have to strengthen our capability, we have to increase and improve our flagships that we have today.

We can ill afford to let this reverse. These cuts would affect the Federal Maritime Academy, these cuts will affect the six State maritime schools. We cannot afford to do that.

In times of crisis is not the time that we go forward to try to train young men and women to command the ships at sea; you can ill afford to do that at that period of time. We have to be prepared.

□ 1610

And if we were to cut this budget any further, we would perhaps have to close some of the State schools. We have already cut the enrollment at the Federal Maritime Academy 20 percent. We can ill-afford to do that, ladies and gentlemen.

This is a question of national security. This is a question of being able to conduct our commerce within the international community. This is not a question of budget. Ladies and gentlemen, I submit to you any further cuts would affect our ability to conduct commerce and would have an adverse effect on our economy, but more than that, any further cuts would make it necessary for us as a Nation to take this function over by our Navy. I am not in this well suggesting we should do that, but my God, we have to have the ships to support our security needs.

If we do not have them in the free enterprise system, then soon we will have to rely upon the Navy to provide them.

I suggest very strongly that we reject the Walker amendment, we go with the Jones amendment, and we pass this bill.

The CHAIRMAN. The question is on the perfecting amendment offered by the gentleman from Pennsylvania [Mr. WALKER] to the amendment offered by the gentleman from North Carolina [Mr. JONES] as a substitute for the amendment offered by the gentleman from Pennsylvania [Mr. WALKER], as modified.

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. WALKER. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 100, noes 318, not voting 16, as follows:

[Roll No. 111]

AYES—100

Archer	Hansen	Packard
Armey	Hendon	Pashayan
Badham	Hiler	Petri
Bartlett	Hillis	Porter
Barton	Hyde	Regula
Bereuter	Ireland	Ritter
Bliley	Jacobs	Rogers
Boulter	Johnson	Roth
Brown (CO)	Kasich	Rowland (CT)
Broyhill	Kastenmeier	Rudd
Burton (IN)	Kolbe	Schroeder
Cheney	Kramer	Sensenbrenner
Coats	Lagomarsino	Sharp
Cobey	Latta	Shumway
Coble	Leach (IA)	Shuster
Coleman (MO)	Lewis (FL)	Slaughter
Combest	Lightfoot	Smith (NE)
Courter	Lungren	Smith (NH)
Crane	Mack	Smith, Denny
Dannemeyer	Madigan	Spence
Delay	Marlenee	Stenholm
DeWine	Martin (IL)	Stump
Dorgan (ND)	McCain	Swindall
Dornan (CA)	McCandless	Tauke
Dreier	McCollum	Taylor
Eckert (NY)	McEwen	Walker
